## Part 5: Course Policies

### Attendance

Regular and punctual class attendance is expected of each student at Sam Houston State University. Class attendance is essential to both learning and student performance. SHSU expects students to attend every scheduled class meeting. As a leadership skill, attendance and punctuality is an essential trait of a professional worker involved in any aspect of agriculture. Your attendance is important because much of the material will be absorbed through discussion and group interaction. If you miss class it is your responsibility to get notes and assignments.

### Participate

Students are expected to participate in all activities as listed on the course schedule. Active participation is a vital component to the course and is necessary to meet learning objectives.

### Build Rapport

You will find that your overall success in courses can come from building a strong rapport with your classmates and instructor (networking). This starts with demonstrating a personal code of conduct by respecting others' opinions, perspectives, and values through all the course communication.

### Code of Conduct

As a member of a community dedicated to learning, inquiry, and creation, the students, faculty, and administration of our university live by principles that require all members to be conscientious, respectful, and honest. Students should also understand that honest conduct reaches far beyond just academic honesty.

### Completing Assignments

**All assignments for this course will be submitted in class.**

### Understand When You May Drop This Course

It is the student's responsibility to understand when he/she may need to consider unrolling from a course. Refer to the SHSU Course Schedule for dates and deadlines concerning registration.

## Required Policies at SHSU

The following are mandatory policies and procedures practiced by Sam Houston State University and can also be found at <http://www.shsu.edu/syllabus/>.

## Academic Dishonesty

The University expects students to engage in all academic pursuits in a manner that is above reproach. Students are expected to maintain complete honesty and integrity in the academic experience both in and out of the classroom.

Accusations of academic dishonesty, proceedings, and subsequent disciplinary actions are addressed in The Texas State University System, Board of Regents policy on [Academic Honesty, Chapter VI, Subsection 5.3, "Academic Honesty"](#) and in the University's [Academic Policy Statement 810213](#).

## Student Absences on Religious Holy Days Policy

Section 51.911(b) of the Texas Education Code requires that an institution of higher education excuse a student from attending classes or other required activities, including examination, for the observance of a religious holy day, including travel for the purpose. Section 51.911(a)(2) defines a religious holy day as: "a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20..." A student whose absence is excused under this subsection may not be penalized for that absence and shall be allowed to take an examination or complete an assignment from which the student is excused within a reasonable time after the absence.

University Policy 861001 provide the procedures to be followed by the student and instructor. A student desiring to absent himself/herself from a scheduled class in order to observe a religious holy day shall present to each instructor involved a written statement concerning the religious holy day. The instructor will complete a form notifying the student of a reasonable timeframe in which the missed assignments and/or examinations are to be completed. This policy is fully addressed in [Academic Policy Statement 861001](#).

## Students with Disabilities Policy

It is the policy of Sam Houston State University that individuals otherwise qualified shall not be excluded, solely by reason of their disability, from participation in any academic program of the university. Further, they shall not be denied the benefits of these programs nor shall they be subjected to discrimination. Students with disabilities that might affect their academic performance should register with the [Services for Students with Disabilities](#) office located in the Lee Drain North Annex (telephone 936-294-3412, TDD 936-294-3786, and email at [disability@shsu.edu](mailto:disability@shsu.edu)). They should then make arrangements with their individual instructors so that appropriate strategies can be considered and helpful procedures can be developed to ensure that participation and achievement opportunities are not impaired.

SHSU adheres to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations for students with disabilities. If you have a disability that may affect adversely your work in this class, then I encourage you to register with the SHSU Services for Students with Disabilities and to talk with me about how I can best help you. All disclosures of

disabilities will be kept strictly confidential. NOTE: No accommodation can be made until you register with the Services for Students with Disabilities. For a complete listing of the university policy, see: [Academic Policy Statement 811006](http://www.shsu.edu/dotAsset/7ff819c3-39f3-491d-b688-db5a330ced92.pdf), (<http://www.shsu.edu/dotAsset/7ff819c3-39f3-491d-b688-db5a330ced92.pdf>)

## Visitors in the Classroom

Only registered students may attend class. Exceptions can be made on a case-by-case basis by the professor. In all cases, visitors must not present a disruption to the class by their attendance. Students wishing to audit a class must apply to do so through the Registrar Office.

### CELL PHONES:

As members of the classroom community, all students have a responsibility to others who are a part of that community. The goal is to produce an environment that is conducive to learning. Students are to treat faculty and other students with respect. Cell phones, laptop computers, pagers, and similar devices have become increasingly a part of everyday life in our society; however, when used in the classroom environment they can become disruptive. Students are to turn off all cell phones and other electronic equipment while in the classroom. When cell phones or pagers ring and students respond in class or leave class to respond, it disrupts the class. Therefore, the use by students of cell phones, pagers, or similar communication devices during scheduled class-time is prohibited. All such devices should be turned off or put in a silent (vibrate) mode and ordinarily should not be taken out during class. If there is an emergency situation for a student, that student should inform the instructor and place himself/herself in a seat near the door where an exit for a phone call would be only minimally disruptive. With instructor approval, students may record lectures, take notes via laptop computer, etc., provided that they do not disturb other students in the process. Other exceptions to this policy may be granted at the discretion of the instructor. Any use of cell phones or other electronic devices during a test period is prohibited. Even the visible presence of a cell phone or other device during the test period may result in a zero for that test. Use of a cell phone during a test could result in a charge of academic dishonesty. During the test these instruments should be left at home or stored securely in such a way that they cannot be seen or used by the student.
