DFSC 2316 Digital Forensics and Information Assurance Fundamentals II

Fall 2017

Monday, Wednesday and Friday 11:00 – 11:50 AB1-204

Instructor: Dr. Khaled Rabieh, Assistant Professor

Office: AB1-216A Email: rabieh@shsu.edu Office hours: Monday, Wednesday 10:00 am to 11:00 am

Prerequisite

DFSC 1316 or departmental approval. Credit 3

Course Description

The rationale and necessity for securing computer systems and networks, as well as methodologies for the design of security systems, establishing security protocols and the identification of best practices in the administration, testing and response protocols for secure communications systems.

Course Goals

At the end of this course, the student should be able to:

- 1. Analyze and identify information security problems, and define common methodologies used to secure computer systems.
- 2. Understand the professional, ethical, legal, security and social issues and responsibilities.
- 3. Use the current techniques, skills, and tools necessary for computing practice.
- 4. Develop programs using python programming language.

Course Contents

- Review of Communication Networks, and TCP/IP Protocol Layers
- Introduction to Cyber Crime and Network Security
- Introduction to Python Programming
- Crypto Feistel Cipher, Hash Functions, Message Digest, and Digital Certificate
- Application Layer Security
- Protocol Security
- Network Programming and Forensics
- Web Security
- WLAN Security
- Kali Linux and Penetration Testing
- Student Project Demos

Above class contents may be adjusted according to specific needs in the class.

Reference Books (optional)

Title	Author(s)	ISBN	Publisher
Network Security Essentials, 5 th edition	William Stallings	9780133370430	Prentice Hall, 2014
Network Attacks and Defenses	Trabelsi, Hayawi, Braiki and Mathew	9781466517943	CRC press, 2013
Black Hat Python Python Programming for Hackers and Pentesters	Justin Seitz	9781593275907	No Starch Press, 2014

Grading Criteria

Your grades will be determined according to the following:

Total		100%	
Project(s)		20%	
Exam(s)		40%	
Assignments and l	abs	20%	
Class attendance a	nd Quizzes	20%	
s will be determined d	ceoraing to the follow	····5·	

Course letter grades will be assigned according to the following:

Total	Grade	
>= 90%	А	
80% <= TOTAL < 90%	В	
$70\% \ll TOTAL < 80\%$	С	
$60\% \ll TOTAL < 70\%$	D	
TOTAL $< 60\%$	F	

Labs

There will be a number of lab assignments aiming to help the students better understand and apply course content. Details of labs will be posted on course website.

Collaboration

- All assignments and individual projects must be completed by each student individually.
- Each team project (where applicable) must be completed by the members of the team only.

Late Policy

Penalty for late work is 10% of the worth per calendar day late, unless an extension (for a valid reason) has been granted in advance. The maximum period to deliver late work is two days with penalty of 20% deduction of the total. After two days, no late work will be accepted.

Academic Dishonesty

All students are expected to engage in all academic pursuits in a manner that is above reproach. Students are expected to maintain complete honesty and integrity in the academic experiences both in and out of the classroom. Any student found guilty of dishonesty in any phase of academic work will be subject to disciplinary action. The University and its official representatives may initiate disciplinary proceedings against a student accused of any form of academic dishonesty including, but not limited to, cheating on an examination or other academic work which is to be submitted, plagiarism, collusion and the abuse of resource materials.

Students should be aware, specifically, that the instructor reviews all programming assignments and exercises for evidence of collaborative work. While it is sometimes appropriate and encouraged for students to discuss concepts and ideas, it is never permissible to collaboratively work on coded examples, to share or swap completed or partially completed programming assignments. In addition, it is not permitted for students to use code examples provided by the instructor without appropriate documentation/ citation of the use of that code.

Attendance Requirements

Students are expected to attend all class sessions. You are responsible for all material covered in every class, regardless of whether you attended or not. It is your responsibility to obtain notes, assignments, etc., from fellow class members if you miss a class.

Classroom Conduct

Students will refrain from behavior in the classroom that intentionally or unintentionally disrupts the learning process and, thus, impedes the mission of the university. Cellular telephones and pagers must be turned off before class begins. Students are prohibited from eating in class, using tobacco products, making offensive remarks, reading newspapers, sleeping, talking at inappropriate times, wearing inappropriate clothing, or engaging in any other form of distraction. Inappropriate behavior in the

classroom shall result in a directive to leave class. Students who are especially disruptive also may be reported to the Dean of Students for disciplinary action in accordance with university policy.

Visitors in the Classroom

Unannounced visitors to class must present a current, official SHSU identification card to be permitted in the classroom. They must not present a disruption to the class by their attendance. If the visitor is not a registered student, it is at the instructor's discretion whether or not the visitor will be allowed to remain in the classroom.

Students with Disabilities Policy:

It is the policy of Sam Houston State University that individuals otherwise qualified shall not be excluded, solely by reason of their disability, from participation in any academic program of the university. Further, they shall not be denied the benefits of these programs nor shall they be subjected to discrimination. Students with disabilities that might affect their academic performance should register with the Office of Services for Students with Disabilities located in the Lee Drain Annex (telephone 936-294-3512, TDD 936-294-3786, and e-mail <u>disability@shsu.edu</u>). They should then make arrangements with their individual instructors so that appropriate strategies can be considered and helpful procedures can be developed to ensure that participation and achievement opportunities are not impaired.

SHSU adheres to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations for students with disabilities. If you have a disability that may affect adversely your work in this class, then I encourage you to register with the SHSU Services for Students with Disabilities and to talk with me about how I can best help you. All disclosures of disabilities will be kept strictly confidential. NOTE: No accommodation can be made until you register with the Services for Students with Disabilities. For detailed procedures to request disability services, see:

http://www.shsu.edu/dept/disability/procedures-to-request-services.html

Any student with a disability that affects his/her academic performance should contact the Office of Services for Students with Disabilities in the SHSU Lee Drain Annex (telephone 936-294-3512, TDD 936-294-3786) to request accommodations.
