This experience, it is hoped, will help you see yourself as a positive force in this world and deepen your understanding of your role as a citizen. These experiences comprise the required 160 hours for

your practicum field experienced. You will keep a record of your experiences through your five submissions of journal entries documenting 160 hours in school libraries and the required documentation log.

**IDEA Objectives:** In this course, our focus will be on these major objectives (as assessed by the IDEA course evaluation system):

**Essential:**

*Learning to apply course material to improve thinking, problem solving, and decisions.*

- To do this, you will:
  - Document your school library experiences in PK-12 school libraries

### **Textbooks (Recommended)**

1. Magi, T., & Garner, M. (Eds.). (2015). *Intellectual freedom manual* (9<sup>th</sup> ed.). Chicago, IL: ALA Editions.

### **Tk20 Account statement**

*Tk20 Account* **is** required for this course. Tk20 is an electronic toolkit used by candidates to provide evidence that they have mastered state and professional standards for the profession. Additional information regarding Tk20 is available at: <https://tk20.shsu.edu/>

### **Course Format:**

The content of this course is delivered using Blackboard and additional technologies as needed. In addition, course concepts are learned by self-study and group discussions. Interaction will take place through scheduled phone conferences, multiple observations that include video observations as well as on-site observations by the SHSU field supervisor, and

through at least two online course meetings. Evaluation consists of self-evaluations, collaborating teacher and on-site supervisor evaluations of Information Literacy Collaborative Lesson, on-site supervisor evaluation in Tk20, and SHSU field supervisor assessments.

### Course Content

Ideally, the ALA/AASL Standards for Initial Preparation of School Librarians (2010) and the six standards of the Texas Administrative Code for the Standards required for the School Librarian Certificate should be experienced by each candidate. **When an experience is not possible, it is the candidate's responsibility to request the on-site supervisor for an explanation of the task or activity in lieu of the actual experience.** The candidate should strive to experience these tasks that are a part of both sets of standards for his or her own benefit.

### Course Requirements:

1. TEExES Examination Requirement: The candidate must take the TEExES Examination administered by TEA/ETS in order to pass this course (see Blackboard for further/extenuating circumstances information). It is up to the candidate to register for the TEExES Examination and report their scores to their field supervisor.
2. Library Science Portfolio Requirement: If the candidate is planning to graduate this semester, the candidate must file an application for portfolio with the department. To obtain an application and for more information, visit the Blackboard Organization course, titled LSSL Graduate Students. Blackboard Organizations are listed on the home page for Blackboard.
3. Late Assignment Policy: Because your active participation is so important, it is imperative that all assignment be submitted on dates due. Assignments will be considered "on time" if submitted by midnight the day due unless otherwise noted by the professor for the course. NOTE: All due dates/times are based on Central Standard Time. Submission of work after midnight will be considered late. Late assignments will be reduced by 10% of points earned for every day late. All assignments must be completed to receive a grade for this course.
4. Time Requirement: It is expected that if you enroll in this course you can meet the time requirement: 160 hours of field experience are expected. The hours of field experience may be beyond the 160 hours.
5. Professionalism Policy: Professionalism is expected, both in the course and in the TEA approved schools. If individual assignments possess a striking similarity to another candidate's work, penalty may be, minimally, the drop of one letter grade. During field experience in the schools, proper dress is expected. Candidates should practice appropriate dress and behavior simultaneously as they practice the application of instructional strategies they are learning in the classroom and school library. Attendance, punctuality, the quality of the candidate's interactions with colleagues and supervisors, and the quality and timeliness regarding completing assignments all determine professionalism, which in turn, signals readiness to advance in the library science program.

6. **Equipment Requirements:** It is expected that candidates who register for the online course can meet the following minimum software and hardware requirements.
  - a. Technical Requirements – found at <http://distance.shsu.edu/home/technical-requirements.html>
  - b. Information Technology Hardware Requirements – found at [http://www.shsu.edu/~ucs/www/hardware\\_requirements.html](http://www.shsu.edu/~ucs/www/hardware_requirements.html)
  - c. Basic webcam and microphone
7. **Textbooks/Materials Requirement:** Purchasing the necessary texts and listed materials for an online course is the responsibility of the candidate. Required textbooks and materials are essential for the successful completion of the course activities.
8. **Candidate Is Responsible for Dropping Course:** The candidate should be aware of the dates for dropping this course for a refund, dropping without a grade, etc. The candidate should not assume that s/he will be dropped by the professor if s/he does not attend class, attend online meetings, complete assignments by due dates, or neglect meeting with SHSU field supervisor. The candidate is expected to officially withdraw from this course should s/he decide not complete the course this semester.

**NCATE Accreditation**

The Sam Houston State University, College of Education has the distinction of NCATE accreditation since 1954. As an NCATE accredited program, the College of Education ensures that the best-prepared teachers will be in classrooms teaching the next generation of leaders how to solve problems, communicate effectively, and work collaboratively.

In November 2010, NCATE merged with the Teacher Education Accreditation Council (TEAC) to become the Council for the Accreditation of Educator Preparation (CAEP), combining the two premiere accrediting organizations as a single accrediting agency for reform, innovation, and research in educator preparation. SHSU will continue to be NCATE accredited through its next review scheduled for November 2015.

**The Conceptual Framework and Model**

[The COE Conceptual Framework](#) establishes the shared vision of the college in preparing educators to work with P-12 students through programs dedicated to collaboration in instruction, field experience, and research, the candidates in Sam Houston State University's Educator Preparation Programs acquire the knowledge, dispositions, and skills necessary to create a positive learning environment preparing educators to work with P-12 students. Employing a variety of technologies, candidates learn to plan, implement, assess, and modify instruction to meet the needs of diverse learners. The Conceptual Framework (CF) incorporates five (5) indicators throughout the framework that serve to identify areas tied to course work where there is evidence of Conceptual Framework and goals assessment. The five indicators are: Knowledge Base (CF1), Technological Learning Environment (CF2), Communication (CF3), Assessment (CF4), and Effective Field Experience with Diverse Learners (CF5)

### Diversity of Experiences (Field and Employment):

As a graduate candidate in the College of Education it is expected that you will have experiences with P-12 students in diverse settings. These experiences may or may not be directly related to your course work, and should be a product of the different settings where you have been employed or sought additional knowledge. In order to meet the standards Sam

Houston State university has adopted you should document **multiple and varied (diverse) field experiences**. Additionally, you should complete a written reflection highlighting the totality of your experiences. The goal of this requirement is to monitor your experiences in diverse settings, reflect upon these experiences and your growth and development in knowledge, skills, and dispositions in teaching in diverse classrooms. This reflection and the summary of diverse field experiences chart must be uploaded into Tk20 as part of an existing course assignment.

Multiple and varied areas of diverse field experiences include, participation with exceptional populations of P-12 students and P-12 students from different ethnic, racial, gender, socioeconomic, language, and religious groups. It is expected that some of these experiences will not occur at your current place of employment. We understand that the term field experience may not fully fit the experience and information you provide. You may use past or current employment placements.

**In the Master of Library Science Program**, the Key Assessment and Assignments allow candidates the opportunity to complete the previously described diversity requirements. These assessments include:

- Library Science Program Interview
- Proficient Dispositions (LSSL 5366)

#### **College of Education Information:**

Please be advised that the College of Education conducts ongoing research regarding the effectiveness of the programs. You will receive one survey in the final semester prior to graduation regarding the operations of the unit during your time here. A second survey will occur within one year following graduation from or completion of a program, and will be sent to you and to your employer. This survey will focus on the preparation received at SHSU. Please remember that your response to these surveys is critical to SHSU program excellence.
