IDEA Objectives:

Essential:

• Learning to *apply* course material (to improve thinking, problem solving, and decisions)

 Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course

IMPORTANT: COMPREHENSIVE EXAM INFORMATION

Students must take the Comprehensive Examination during their first semester of Internship. If they do not pass the examination, they may re-take it during their second semester of Internship. Students who choose to wait to take their Comprehensive Examination during their last semester may run the risk of staying an extra semester and delaying their graduation.

Course Objectives:

This course is primarily an experiential course in which students are expected to complete a minimum of 300 hours of counseling experience in an appropriate work setting, of which 120 hours will be direct contact with clients/students. Class will be devoted to group supervision, which may include case presentations, listening to/viewing recordings, consultation, feedback, discussions of counseling issues, or mini-lectures. The instructor will make at least one on-site visit to your field placement/school during the semester. For School Counseling student interns, two site visits will be required during your first semester of internship.

In addition, your internship site supervisor is invited and recommended to attend a Supervisor Workshop. This workshop will provide an orientation to the expectations of the supervisors and will give them an opportunity to meet your professors. Please encourage your supervisors to attend. Details will be forthcoming.

COUN 6386 will follow the 2009 CACREP Standards related to Internship as follows:

2009 CACREP Standards: Section III Professional Practice:

Your supervisor should review your evaluation with you. The midterm evaluation consists of two parts (included in this syllabus) including a form to note strengths and weaknesses and a Likert scale form. The final evaluation consists of only the Likert scale form. It is expected that growth will occur from the midterm to the final. Site supervisors should be requesting recordings of field students in addition to observing students directly in sessions. Students cannot pass the course if any score on the site supervisor's final Likert scaled evaluation form is lower than a (3)
- **4. Site visit by the university professor** will be made at least one time. It is the student's responsibility to set up the site visit for the professor of the course. The site visit needs to include a meeting between the instructor, student and clinical supervisor at the internship site. Site visits will need to be scheduled for one hour in duration

- b. Part II: Session Critique. Select a 10-minute portion of the recording you want me to review. For this 10-minute segment, provide a critique that addresses the following points:
 - i. Client's presenting concern this session
 - ii. Relevance of presenting concern this session to overall treatment plan and counseling goals
 - iii. Summary of what transpired during 10-minute segment, including how this segment ties in with overall treatment plan and goals for counseling, as well as your goals during this 10-minute segment (e.g. what were you trying to accomplish as it relates to the client's overall treatment plan?)
 - iv. Self-Critique of your use of basic counseling skills in this 10-minute segment (include examples)
 - v. Self-Critique of your use of your guiding theory in this 10-minute segment (include examples)

Other materials, such as, such as session recordings, activities used with the client counseled, etc. may be used in the presentation so long as confidentiality of the client is not violated. Please have a paper copy of the genogram and treatment plan for the professor and class members. This presentation should last approximately 30 minutes. See instructions in this syllabus. (SC D.3.; SC H.4.; SC H.5.; SC N.5.)

The letter should be 1-2 pages in length and include a statement of the client's presenting problem, how current services are insufficient to meet the needs of the client, what services the intern believes are needed for the client, and how the intern believes that services provided by the addressee of the letter

will benefit the client. The letter will be used as a course assignment only and students should de-identify information about the client to avoid breaches of confidentiality.

OR

- b. Write a letter on behalf of the counseling profession to an elected representative, board member, or other institution/individual with power to influence the counseling profession that advocates for policies, programs, and services that are equitable and responsive to the unique needs of clients (CMHC; MCFC) or advocates for the learning and academic experiences necessary to promote the academic, career, and personal/social development of students (SC).
- **8. A paper summarizing the field practicum experiences** will be submitted before the last class meeting (see next page for School Counseling and MCFC additional requirements)

You don't have to follow this format linearly, and if there's some overlap, you can organize your reflection in a way that works for you. Approximately 3-5 pages in a good length, but you can go over if you need to do so. Please follow APA 6 guidelines for grammar and structure, including a cover page.

Late assignment policy. All assignments must be turned in "complete". For late assignments, extra time may be "purchased" at the rate of 5 percent off the total assignment grade, per day, after 6:00 P.M. on the day the assignment is due, and bought at an additional 5 % daily up to 6 days. If the instructor notices something is missing and an assignment is deemed incomplete, grade deductions are retroactive to the original due date. If late more than 6 days, the assignment score will be 0. Any missing assignments must be completed, even if not turned in until after a 6 day delay. College of Education Information

Accreditation

The programs within the SHSU College of Education have the distinction of receiving accreditation and national recognition from multiple accrediting bodies. All educator certification programs, including teaching and professional certifications, have received ongoing accreditation from the Texas Education Agency (TEA). Additionally, the educator preparation program has been accredited by the Council for the Accreditation of Educator Preparation (CAEP-formerly NCATE) since 1954. Many of the educator preparation concentration areas have also chosen to pursue national recognition from their respective Specialized Professional Associations (SPA), signifying the program is among the best in the nation. The programs within the Department of Counselor Education have also received accreditation from the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Course and Program Evaluation

Near the end of the semester, students are asked to take part in the University's adopted course evaluation system, IDEA. The assessments are completed online and instructions are emailed to each student. Students' assessments of courses are taken are systematically reviewed by the Dean, Associate Deans, Department Chairs, and individual faculty members. Only after the semester has completed are faculty members allowed to view aggregated results of non-personally-identifiable student responses.

The College of Education conducts ongoing research regarding the effectiveness of the programs. Students receive one survey in the final semester prior to graduation regarding the operations of the unit during their time here. A second survey occurs within one year following completion of a program, and is sent to students and their employers. This survey requests information related to students' quality of preparation while at SHSU. Students' responses to these surveys are critical to maintaining SHSU's programs' excellence.
