Course Description

The student completes a one-hour class per week. Students must register in Lab Class concurrently with the Lecture Class. Lab acts as a platform for learning, practicing and developing language skills through the instructor activities and computer technology. Student will have an increased awareness of appreciation for foreign languages and skills in the technology used in language and culture acquisition. The primary objectives of this course are:

- To enable them to learn better pronunciation through stress on word accent, intonation, and rhythm.
- To develop good linguistic competence through accuracy in grammar, pronunciation, vocabulary, and syntax.
- To enrich the discourse competence and to prepare the learner to be able to produce contextualize written text and speech.
- To acquire communication skills in both spoken & written language to use in a wide range of communication strategies.

Style

The course will be conducted **face to face** and in the platform Blackboard. Spanish will be the preferred language in both in the majority of cases but code switching will be practiced when necessary. The activities will be completed in class on Blackboard; these activities are based on authentic material. The classroom will provide the necessary background for learning, but individual effort outside the classroom is essential to develop the language skills.

Grading System

Attendance	5 %
Participation	5 %
Total	10 %

Grading Components

Attendance (5%) & Participation (5 %)

Attendance is mandatory. To derive the utmost benefit from this class, attendance is mandatory and important requirement for success. We invite you to take advantage of the possibility of practicing the language in class. If you do not want to attend the class, the Department is offering online courses.

Students may miss one (1) class sessions for any reason (personal, medical, work, family, emergency, etc.). The second (2nd) absence and every subsequent absence will occasion **the loss of one-percentage (1%) off the final course grade**. Even if you are an active participant in the sessions, missing classes will lead to a low

to zero in participation grade. **No discussion about this matter: if you are absent, you have zero in participation.**

You should arrive on time. You have 10 minutes of tolerance to arrive the classroom. If a student arrives late, s/he needs to talk to the professor at the end of the class to verify your attendance. If a student misses three consecutive sessions and does not contact the instructor, s/he may be dropped from class.

If you are enrolled in this class, but do not attend the course **you are responsible** for following the withdrawing procedures or a "0 %" will be entered as your final grade for this class.

You should not make travel plans that interfere with classes or practice activities since make up practice activities cannot be made in order to accommodate such plans.

Student athletes, band members, and participants in university-sponsored activities should bring a letter from their supervisor or specific department **during the first month of class** indicating the dates they will miss class, and make arrangements for missed sessions.

Students who require special accommodations for **religious holidays** should notify the instructor and make arrangements for missed sessions **during the first week of class.**

Students with recognized disabilities will be provided reasonable accommodations, appropriate to the course, upon documentation of disability with a **Student Accommodation Form** from the **Services for Students with Disabilities (SSD)**. To receive these special accommodations, you must request the specific accommodations by submitting them to the instructor in writing during the first week of class. Students who fail to submit a written request will not be considered for accommodations. Please visit <http://www.shsu.edu/dept/disability/> for more information.

You have to participate **in Spanish** in class, unexcused absences will affect your participation grade. Additionally, **late work resulting from unexcused absences will not be accepted for a grade.** In the event of an excused absence, the practice activity will be accepted for full credit and will be due one class period after the student's return to class. Missed practice activity resulting from an excused absence must be taken one class period after the student's return to class (the student will take an alternate, but equivalent, version of the original practice activity).

Student Responsibilities (LAB)

Students are responsible for damages occurring to their lab workstation. They also responsible for leaving their workspace clean and tidy state. When you leave the lab at the end of the class, please help put back the headphones on the left of the screen and push in the chair with its arms up. Please help make the lab clean and neat. Also, please lower your headphone volume whenever you listen to audio/visual assignments.
