

ECON 2300, Section 02
Introduction to Economics
Spring 2018, Room: SHB 134
Sam Houston State University

Professor: Mark Tuttle
Office: SH 237G
Phone: (936) 294-1386
Email: mht001@shsu.edu

Office Hours: MW 0930 – 1100, TR 1400 – 1530
Final Exam Date:
Prerequisite: None
Tutoring:

Class Meetings: Monday and Wednesday, 0800 – 0915

Course Description: A combination of micro-economic and macro-economic principles. Designed for those who are neither majors nor minors in economics, but who would benefit from a one semester introduction to economic principles.

Learning Objectives: After completion of this course, the student will have learned to:

- understand the "invisible hand": how markets serve with very little intervention to coordinate the production and consumption decisions of thousands of firms and millions of consumers.
- understanding the concept of opportunity cost, and apply it to economic problems.
- being familiar with and utilizing the competitive market model.
- explaining the nature of production, costs, and output determination.
- identifying and describing the different market structures.
- identify and describe the determinants of income and output growth over the long run.
- employ simple macroeconomic models to explain fluctuations in income and output.

Further, students should learn to apply course material to understand “real world” economic problems and critically evaluate economic ideas, arguments, and points of view.

Required Texts/Materials:

- Bade and Parkin, The Foundations of Economics, 8th edition, Pearson, 2018.

Grading:

Assignment	Weight
Exams	80%
Homework and Quizzes	20%

Final Grades will be based upon the following criteria:

Grade	Final Average
A	90 – 100
B	80 – 89.9
C	70 – 79.9
D	60 – 69.9
F	Below 60

This grading scale is subject to change, but the cut-offs will never be raised. ***No extra-credit will be given. You are responsible for properly completing each assignment and submitting them promptly. You will receive a final grade of F if you miss more than one exam.***

Exams: All exams will consist of multiple choice and/or short answer/essay questions and include material covered in class and material in the required text. A Scantron form 882-E is required for all multiple choice exams. Failure to use the appropriate scanform will result in a reduction in your exam score. Cell phones and graphing/programmable calculators may not be used during exams for any reason. You may only use a non-programmable, four-function calculator for exams. The student is responsible for clearly annotating answers on their scanforms. Any errors found, after grading, will not be reversible. Therefore, the student should take the time to double-check their scanforms. If a student has a dark erasure or any other mark that may inhibit grading or create errors in grading, notify the instructor as the exam is turned-in, and the instructor will hand grade the exam.

When computing your final average, the lowest exam score (excluding exams where the student is caught cheating) will be omitted. ***No make-up exams will be given.***

Homework/Quizzes/Other Assignments: Homework / Quizzes / Other Assignment will consist of multiple choice and short answer/essay questions and homework/quizzes can be unannounced. ***Late homework / quizzes / other assignment will not be accepted and make-up homework / quizzes / other assignments will not be given. If you are late to class the day homework/quiz is assigned, you cannot turn-in that homework / quiz / other assignment – you will receive a zero. There are zero exceptions to this policy.*** If you cannot attend class, you can turn-in your homework / quiz / other assignment via email or voicemail only before the start of class on the date the assignment is due. Homework / quiz / other assignments sent via email/voicemail must be received before the regular class meeting. This policy is intended for emergencies - if you abuse this policy and have excessive absences, your homework / quiz / other assignment will only be accepted at the beginning of class and be contingent upon your attendance for that class. If you turn-in your homework/quizzes via any other method than that listed above, i.e. class turn-in, email or voicemail, you will receive a zero for that assignment. For example, I will not accept a homework / quiz / other assignment that is placed under my door. This policy may be changed at the instructor's discretion as needed during the semester.

A Scantron form 882-E or 815-E may be required for homework/quiz assignments. Failure to use the appropriate scanform will result in a reduction in your exam score. Cell phones and graphing/programmable calculators may not be used during exams for any reason. You may only use a non-programmable, four-function calculator for exams. The student is responsible for clearly annotating answers on their scanforms. Any errors found, after grading, will not be reversible. Therefore, the student should take the time to double-check their scanforms. If a student has a dark erasure or any other mark that may inhibit grading or create errors in grading, notify the instructor as the exam is turned-in, and the instructor will hand grade the exam.

An unannounced quiz may be given for each use of a cell phone, audible ring/buzz (audible to the instructor) from a cell phone, and/or any other cell phone created disturbance (disturbs the instructor). There are no make-ups for these quizzes. The quizzes will cover any material already presented during the semester and/or to be presented for the day.

Academic Honesty and Conduct: The University expects all students to engage in all academic pursuits in a manner that is above reproach. Students are expected to maintain complete

honesty and integrity in the academic experiences both in and out of the classroom. Any student found guilty of dishonesty in any phase of academic work will be subject to disciplinary action. (See <http://www.shsu.edu/dotAsset/728eec25-f780-4dcf-932c-03d68cade002.pdf> for more details). The exhaustive list of authorized test materials includes: 1. pencil(s) or opaque pen(s), 2. Scanform 882-E (if needed), and 3. a calculator.

Any behavior deemed suspicious (at the instructor's discretion) will result in: 1. verbal warning, 2. reassignment of testing location, or 3. a grade of zero that will not be dropped when calculating final grades.

Class Attendance Policy: Students are expected to attend *all* classes. Regular and punctual class attendance is expected of each student. Students that are late for class will be counted as absent. Further, active participation is expected, and those that do not actively participate (at the instructor's discretion) will be counted as absent. ***Absent students or students that arrive late to class may not turn-in homework/quiz assignments that are due or make-up homework/quizzes.*** You must notify the instructor in advance if a prolonged absence is imminent or expected. You may be allowed to take a scheduled exam early at the instructor's discretion. Further, if you are having difficulties that might interfere with your performance in this class, notify your instructor immediately.

Use of Telephones, Computers, and Text Messaging in Academic Classrooms and Facilities:

Students may not use cell phones or texting devices on any assignment. Use of cell phones and/or text messaging on an assignment will result in a non-excludable grade of zero for that assignment. During any in-class assignment, these devices must be stored securely and out of sight of all students. Students may not use cell phones, text messagers, or computers in this class. Arrangements for use of these devices should be made with the instructor in the case of potential emergency situations. Failure to comply with this policy may result in the student's expulsion from the classroom and/or failure of the course. See <http://www.shsu.edu/dotAsset/6d35c9c9-e3e9-4695-a1a1-11951b88bc63.pdf>.

Students with Disabilities Policy: It is the policy of Sam Houston State University that individuals otherwise qualified shall not be excluded, solely by reason of their disability, from participation in any academic program of the university. Further, they shall not be denied the benefits of these programs nor shall they be subjected to discrimination. Any student with a disability that affects his/her academic performance should contact the Office of Services for Students with Disabilities in the SHSU Lee Drain Annex (telephone 936-294-3512, TDD 936-294-3786) to request accommodations. They should then make arrangements with their individual instructors so that appropriate strategies can be considered and helpful procedures can be developed to ensure that participation and achievement opportunities are not impaired.

SHSU adheres to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations for students with disabilities. If you have a disability that may affect adversely your work in this class, then I encourage you to register with the SHSU Services for Students with Disabilities and to talk with me about how I can best help you. All disclosures of disabilities will be kept strictly confidential. NOTE: No accommodation can be made until you register with the Services for Students with Disabilities. For a complete listing of the university policy, see: <http://www.shsu.edu/dept/academic-affairs/documents/aps/students/811006.pdf>

Student Absences on Religious Holidays: Section 51.911(b) of the Texas Education Code requires that an institution of higher education excuse a student from attending classes or other required activities, including examinations, for the observance of a religious holy day, including travel for that purpose. A student who is excused under this subsection may not be penalized for that absence and shall be allowed to take an examination or complete an assignment from which the student is excused within a reasonable time after the absence. Refer to the Academic Calendar for the deadline date for notification by students to the faculty members of the student's intent to be absent on religious holy days.

Classroom Behavior: Any behavior deemed disruptive by the instructor may result in the student's expulsion from the class and/or failure of the course.

Reading Center: The Reading Center's mission is to promote the acquisition of reading strategies and independent learning, which will motivate learners to value literacy throughout their entire lives. They are located in the Farrington building, Suite 109 [Phone: (936) 294-3114].

Course Outline: Note that all classes do not progress at the same rate, and the instructor may modify any class requirements or their timing as circumstances dictate. This outline is tentative and subject to change by instructor. It is the student's responsibility stay abreast of outline changes.

Week	Topic	
1	January 15 —	January 17 Chapter 1 (1.1 and 1.2)
2	January 22 Chapter 1 and 2 (2.1)	January 24 Chapter 3
3	January 29 Chapter 3	January 31 Chapter 4
4	February 5 Chapter 4	February 7 Chapter 4
5	February 12 Review	February 14 Exam #1
6	February 19 Chapter 14	February 21 Chapter 14
7	February 26 Chapter 15	February 28 Chapter 15
8	March 5 Chapter 15	March 7 Chapter 16
9	March 12 —	March 14 —
10	March 19 Chapter 16	March 21 Chapter 17
11	March 26 Review	March 28 Exam #2
12	April 2 Chapter 21	April 4 Chapter 21 and 22
13	April 9 Chapter 22 and 23	April 11 Chapter 27
14	April 16 Chapter 28	April 18 Chapter 29
15	April 23 Chapter 29	April 25 Review
16	April 30 Exam #3	May 2 Review
17	May 7	May 9
