Course Description: This course builds and expands prior professional knowledge, preparation, and experience fostering astute awareness, knowledge, and skills so that individuals may interact in learning environments with learners whose cultural background may differ from their own. Major emphasis will be placed on the influence of culture, importance of understanding our own cultural backgrounds and experiences, and the micro cultures of class, ethnicity, race, gender, age, and language on education. The course develops knowledge on issues impacting the public schools and society in the area of diversity to help understand intellectual, social, physical, and emotional developmental characteristics of persons in different age, language, culture, race, social class, and educational areas. It also provides an overview on the diversity and richness of our multicultural nation and how the differences expand rather than limit one's education.

College of Education Information

Accreditation

The programs within the SHSU College of Education have the distinction of receiving accreditation and national recognition from multiple accrediting bodies. All educator certification programs, including teaching and professional certifications, have received ongoing accreditation from the Texas Education Agency ([TEA](#)). Additionally, the educator preparation program has been accredited by the Council for the Accreditation of Educator Preparation ([CAEP](#)-formerly NCATE) since 1954. Many of the educator preparation concentration areas have also chosen to pursue national recognition from their respective Specialized Professional Associations ([SPA](#)), signifying the program is among the best in the nation. The programs within the Department of Counselor Education have also received accreditation from the Council for Accreditation of Counseling and Related Educational Programs ([CACREP](#)).

Course and Program Evaluation

Near the end of the semester, students are asked to take part in the University's adopted course evaluation system, IDEA. The assessments are completed online and instructions are emailed to each student. Students' assessments of courses are taken and systematically reviewed by the Dean, Associate Deans, Department Chairs, and individual faculty members. Only after the semester has completed are faculty members allowed to view aggregated results of non-personally-identifiable student responses.

The College of Education conducts ongoing research regarding the effectiveness of the programs. Students receive one survey in the final semester prior to graduation regarding the operations of the unit during their time here. A second survey occurs within one year following completion of a program, and is sent to students and their employers. This survey requests information related to students' quality of preparation while at SHSU. Students' responses to these surveys are critical to maintaining SHSU's programs' excellence.
