## **PSY 3401– Research Methods Lab**

Spring 2018 Credit Hours: 1 Section 11 – Tuesday 3:00 – 4:50 Section 12 – Thursday 3:00 – 4:50 CHSS 242A

## **Required Text:**

Publication Manual of the American Psychological Association (6<sup>th</sup> Ed)

## **Supplemental Text:**

The Elements of Style by Strunk and White ; also available on online at :

http://www.bartleby.com/141/strunk.html#1

Writing with Style by John R. Trimble.

## **Objectives:**

This course is designed to teach you the proper methods of scientific investigation. It will take you through the different stages of a research project, beginning from the conception of an idea and its formulation into a testable hypothesis to the conclusion inferred from the data. The sequence of the lab assignments corresponds to the steps taken in planning each different stage of a study. By the end of the semester, you would have acquired the expertise and understanding of the research process ,and this would be reflected in your design of a proposal for an intended study.

Note: You must earn a grade of C or better in order to have this course count towards your degree.
