**Course Description**

This course will provide a basic introduction of criminology theories, and how these apply to the realities of crime and criminal behavior. It will include discussions on crime statistics, social settings of crime, crime prevention and deterrence, and policy trends and implications. In the end, it is hoped that students will come away with a better understanding of criminology, criminal psychology, and of how criminology theories are applied to crime.

**Course Objectives**

1. Define criminology, and identify key concepts of criminology.
2. Explore criminology theories and methodology.
3. Apply criminology theories and methodology to realistic crime and criminal behavior.
4. Discuss and evaluate criminology in relation to criminal justice.
5. Discuss and evaluate current issues or trends impacting criminology theories and methods.

### **Course Requirement – Group Projects (5 x 20 Points = 100 Possible Points)**

There will be at least five group projects related to the course content during this semester. These projects will usually be conducted in class, or a computer lab (when applicable). Each student is expected to actively participate as part of a group/team. The projects will usually result in at least one of the group members reporting the team's findings. Each member of the team will receive 20 points upon completion of the group project. Individual project points will be deducted for non-participation, up to and including a grade of zero. These assignments will be completed in class on selected days, and there will **NOT** be a make-up for an unexcused absence. These assignments *may* or *may not* be announced prior to the selected days.

### **Course Requirement – Short Paper (1 x 100 Points = 100 Possible Points):**

There is one short writing assignment related to the course content. This assignment will involve a review of a recent or past high-profile crime incident (local, state, or national). Students will be expected to summarize the who, what, when, where, and how of the crime, and to also apply criminology theory as a possible explanation as to why the crime was committed, and possible deterrence methods to prevent crimes of this type. The body of the paper should be two pages, typed, double spaced, using Times New Roman or similar 12-point font, and APA (6<sup>th</sup> ed. or later) or MLA format for citations. A cover page and reference or works cited page should also be included (for a total of four pages).

### **Course Requirement – Exams (3 x 100 Points = 300 Possible Points):**

There will be two regular exams and one final exam during this course.

### **Course Grading**
