Sam Houston State University
Degrees Awarded

To begin, select filters to isolate the students of interest. Filter options are viewed in the drop down boxes under each category by clicking on the black down arrows. As you make your selections, the tables and charts will reflect the changes. Filters chosen on this tab will also be reflected on additional tabs in the workbook (Demographic, Geographic, and Major). TIPS: To reset all filters to default, refresh the browser or click the Reset arrow in the window footer. The Custom Crosstab allows additional customization of the available data. Hover over elements in the page for additional information, and click on elements to isolate data in the graphs. Click again to clear the selection.
