The James and Nancy Gaertner Performing Arts Center, which opened in 2010, comprises an 800-seat concert hall, 180-seat recital hall, 150-seat dance theatre, scene shop, and dance and theatre rehearsal rooms. The building is graced with multiple areas to display the Center's expanding art collection. The School of Music Building, which opened in 1986, features large rehearsal halls, classrooms, a piano lab, a music computer lab, an electronic music studio, practice rooms, and faculty and administrative offices. The School of Music has excellent facilities to accomplish its artistic and educational mission.

Career Opportunities

Graduates of the School of Music are successfully employed around the state, the nation, and internationally as:

- music educators
- music therapists
- musical performers
- music scholars
- music composers
- music industry professionals

Graduate programs in the School of Music include:

- Master of Arts in Band Studies
- Master of Music
- Artist Diploma Certificate: Post-Master's
- Performer's Certificate: Post-Baccalaureate

Student Organizations and Activities

Numerous student organizations actively promote enrichment across a wide array of musical interests.

American Choral Directors Association — national organization for choral directors. Student membership available in organization that fosters and promotes choral music.

American String Teachers Association/Symphony Association — the group's membership consists of string students at Sam Houston State University and was organized to support string pedagogy on the SHSU campus.

National Association for Music Education — national organization for music education. Membership in this student chapter is open to music education majors.

Mu Tau Omega — student organization for music therapy. Membership open to interested students committed to the study and/or advancement of music therapy in community, educational, and clinical settings.

Phi Mu Alpha Sinfonia — international music fraternity for men. Provides valuable service to the school and community.

Pi Kappa Lambda — national music honor society. Invitation to membership is limited to the top students from the junior, senior, and graduate classes by vote of the faculty members of Pi Kappa Lambda.

Sigma Alpha Iota — international music fraternity for women. Provides valuable service to the school and community.

Tau Beta Sigma — national band sorority. Supports band studies and provides valuable support service to instrumental ensembles and to the school.

Scholarships and Assistantships

Graduate Assistantships and Scholarships are available from the School of Music to support student study. For more information regarding assistantships and scholarships, prospective or current students should contact the Director of the School of Music. Interested persons may also gather more information from the School of Music website. Additional scholarship opportunities are available from the University. Information may be obtained from the Office of Financial Aid and Scholarships (<https://www.shsu.edu/dept/financial-aid/scholarships/>) website or by telephone (936) 294-1774.

Master of Arts in Band Studies

The Master of Arts in Band Studies is a 30 semester credit hour degree program delivered through a concentrated summer residency in Texas paired with online course delivery through SHSU Online (<https://online.shsu.edu/>). The program includes interaction with prominent conductors, performers, teachers, and clinicians. It focuses on applicable skills for band directors in a summer-only program, combining an intense study of rehearsal techniques, pedagogy and sequential teaching methodology, score analysis, and literature for band.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/band-studies/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit

Students seeking admission to the Master of Arts in Band Studies program must submit the following documents to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>).

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. School of Music Application
4. Complete an interview.
5. Students must submit three letters of recommendation.
6. Documentation providing evidence of a minimum of two years of experience teaching music at the elementary or secondary level or the professional equivalent.
7. Written essay describing current teaching experience and future professional goals.
8. Transcripts from all previous college level academic work are required and should be submitted to the Office of Graduate Studies. An undergraduate/Baccalaureate degree in music is required.
9. International students must submit an official TOEFL score of at least 213 on the computer-based exam or at least 550 on the paper-based exam.

Successful completion of a comprehensive examination is required for graduation. This exam, which is administered by SHSU faculty, is given during the final semester. Students must be enrolled the semester in which they take comprehensive examinations.

All graduate music students must complete the following hours to meet the required minimum of 30 semester credit hours beyond the undergraduate degree:

Code	Title	Hours
Master of Arts in Band Studies

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Band Studies is designed to provide graduates with the following marketable skills:

- Communication skills: verbal and musical.
- Critical and creative thinking and problem solving skills.
- Versatile 21st century musicians with professional and collaborative attitude.
- Entrepreneurial in spirit including leadership, marketing, and self-promotion.
- Community engagement.

Master of Music

The Master of Music is specifically designed to develop the musician, scholar, or educator for a professional career in music. This degree is offered with tracks in the following areas:

- Performance
- Collaborative Piano/Chamber Music
- Conducting
- Composition
- Musicology

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/music/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students seeking admission to the graduate program in music must submit all documents to the Office of Graduate Admissions. In addition, the following are required:

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Students must complete the School of Music admission requirements:
 - Submit School of Music application form.
 - Submit three letters of recommendation.
 - Complete an audition and/or interview (see individual tracks for specific requirements).
4. Prospective students must submit two writing samples, including a personal statement and a scholarly writing sample. In the personal statement, explain your interest in pursuing graduate studies in your area of specialty and your career plans/goals following graduate school. The second writing sample should represent your best scholarly writing about music, such as a research paper from a previous music theory or music history course. This scholarly writing sample should demonstrate your ability to utilize and appropriately cite reputable references and should showcase your capacity to synthesize information from various sources and create new interpretations of that information. Both samples will be assessed

for content, as well as the mechanics of your writing, including sentence structure, word choice, sentence and paragraph length, punctuation, and spelling. For a final admissions decision, writing samples do not constitute the sole criterion for consideration of the applicant, nor do writing samples constitute the primary criterion to end consideration of an applicant. The applicant's writing samples will be compared with those of other applicants from similar socioeconomic backgrounds to the extent that those backgrounds can be properly determined and identified by the School of Music's admissions process.

5. Transcripts from all previous college level academic work are required and should be submitted to the Office of Graduate Studies. An undergraduate/Baccalaureate degree from a NASM-accredited institution or equivalent international degree in music is required.
6. International students must submit an official TOEFL score of at least 213 on the computer-based exam, or at least 550 on the paper-based exam.

All students pursuing Master of Music graduate degree programs must take and satisfy the Graduate Music Diagnostic Exam, administered by the SHSU music faculty, prior to the first semester of residence. The exam includes questions concerning music history, music theory, and if required, foreign language and diction (Vocal Performance, Choral Conducting, and Collaborative Piano/Chamber Music only). The purpose of the Graduate Music Diagnostic Exam is to evaluate each student's general musical knowledge and identify deficiencies. Students deficient in any area will be required to take additional coursework or retake and pass the Diagnostic Exam before they can schedule their M.M. comprehensive oral examination. Students should visit School of Music (<http://www.shsu.edu/academics/music/>) for specific information and dates.

- Successful completion of a comprehensive oral or written examination is required for graduation. This exam, which is administered by a committee of three music faculty, is given during the final semester. Oral/written examination committees are appointed by the Graduate Advisor in consultation with the Graduate Committee and student. Students must be enrolled the semester in which they take comprehensive examinations.
- All graduate music students must complete the core hours and the specific track hours to meet the required minimum of 30 hours beyond the undergraduate degree.

Code	Title	Hours
Master of Music Core (9 hours)		
Courses		
MUSI 5330	Analytical Techniques	3
MUSI 6398	Research Techniques	3
Music History		
Select one of the following Music History courses (MUSI 5XXX):		3
MUSI 5331	Seminar In Baroque Music	
MUSI 5332	Seminar In Classical Music

MUSI 5338	Seminar in Twentieth-Century Music	
Total Hours		9

Notes

All degrees require a final graduate recital, project, or thesis.

Successful completion of a comprehensive oral or written examination is required for graduation. This exam, which is administered by a committee of three music faculty, is administered during the final semester. Oral/written examination committees are appointed by the Graduate Advisor in consultation with the Graduate Committee and the student. Additional comprehensive examination information is located in the Graduate Degree Requirements section of the SHSU Graduate Catalog.

Specific Track Requirements

Code	Title	Hours
Instrumental Performance Track		
Courses		
XXXX 5201	Ind Performances-XXXX (Applied Lessons in Instrument)	8
MUEN 5112	Graduate Ensemble	2
MUSI 6181	Recital I	1
MUSI 5388	Seminar In Literature	3
MUSI 5398	Advanced Studies in the Applied Discipline	3
Electives		
Select one of the following:		3
MUSI 5363	Pedagogy Of Theory	
MUSI 5365	Counterpoint and Analysis	

MUSI 5367	Score Reading	
MUSI 5XXX	Music History	
Other course with advisor approval		
Performance Elective		
Select one of the following:		1
MUSI 6182	Recital II	
XXXX 5201	Ind Performances-XXXX (Applied Lessons in Instrument)	
Other course with advisor approval		
Total Hours		21

Students seeking admission to the Instrumental Performance track must pass an entrance audition administered by the appropriate faculty member, or group of faculty members, in the area of study. Students should contact the major professor in their area of interest for the appropriate level of repertoire required.

Code	Title	Hours
Vocal Performance Track		
Courses		
MUEN 5112	Graduate Ensemble	2
MUSI 6181	Recital I	1
MUSI 5388	Seminar In Literature	3
MUSI 5398	Advanced Studies in the Applied Discipline	3
VOIC 5201	Individual Performances-Voice	8
Electives		
Select one of the following:		3
MUSI 5362	Vocal Pedagogy and Techniques	
MUSI 5363	Pedagogy Of Theory	
MUSI 5365	Counterpoint and Analysis	
MUSI 5367	Score Reading	
MUSI 5XXX	Music History	
Other course with advisor approval		
Performance Elective		
Select one of the following:		1
MUEN 5118	Chamber Music	
MUSI 6182	Recital II	
Other course with advisor approval		
Total Hours		21

Students seeking admission to the Vocal Performance track must pass an entrance audition administered by the appropriate faculty in the area of study. Audition requirements include the following memorized repertoire:

- an operatic aria
- an oratorio aria
- a French, German, Italian, and English art song

Students interested in the Vocal Performance track are required to pass the foreign language and diction portion of the Graduate Diagnostic Exam. Students must show competence in languages including English, French, German, and Italian. Students deficient in either area will be required to take the appropriate undergraduate courses.

Code	Title	Hours
Piano Performance Track		
Courses		
MUEN 5110	Accompanying Seminar	2
MUSI 5388	Seminar In Literature	3
MUSI 5398	Advanced Studies in the Applied Discipline	3
MUSI 6181	Recital I	1
MUSI 6182	Recital II	1

PIAN 5201	Individual Performances-Piano	8
Electives		
Select one of the following:		3
MUSI 5363	Pedagogy Of Theory	
MUSI 5365	Counterpoint and Analysis	
MUSI 5367	Score Reading	
MUSI 5XXX	Music History	
Other course with advisor approval		
Total Hours		21

Students seeking admission to the Piano Performance track must pass an entrance audition administered by the appropriate faculty member, or group of faculty members, in the area of study. Audition requirements include:

- a complete sonata by Haydn, or Mozart (excluding K. 545), or Beethoven (excluding Op. 49)
- two additional piano works from contrasting musical styles
- major/harmonic minor scales
- sight-reading

Code	Title	Hours
Collaborative Piano/Chamber Music Track		
MUEN 5110	Accompanying Seminar	4
MUEN 5118	Chamber Music	2
MUSI 6181	Recital I ¹	1
MUSI 6182	Recital II ¹	1
MUSI 6183	Recital III ¹	1
MUSI 5388	Seminar In Literature	3
PIAN 5201	Individual Performances-Piano	8
Elective with advisor approval		1
Total Hours		21

¹ At least one of the recitals must be vocal emphasis and at least one must be instrumental emphasis.

Students seeking admission to the Collaborative Piano/Chamber Music track must pass an entrance audition administered by the appropriate faculty member, or group of faculty members, in the area of study. Audition requirements include:

- a complete instrumental sonata from the standard repertoire
- a set of three songs of standard art song literature
- a solo piano work of candidate's choice
- major/harmonic minor scales
- sight-reading

Students interested in the Collaborative Piano/Chamber Music track are required to pass the foreign language and diction portion of the Graduate Diagnostic Exam. Students deficient in either area will be required to take the appropriate undergraduate courses.

Code	Title	Hours
Conducting Track		
Courses		
COND 5001	Applied Conducting	8
MUEN 5112	Graduate Ensemble	2
MUSI 5388	Seminar In Literature	3
MUSI 5398	Advanced Studies in the Applied Discipline	3
MUSI 6181	Recital I	1
Electives		
Select one of the following:		3
MUSI 5363	Pedagogy Of Theory	
MUSI 5365	Counterpoint and Analysis	

MUSI 5367	Score Reading	
MUSI 5XXX	Music History	
Other course with advisor approval		
Performance Elective		
Select one of the following:		1
MUSI 6182	Recital II	
XXXX 5201	Applied lessons	
Other course with advisor approval		
Total Hours		21

Students seeking admission to the Conducting Track (both Choral and Instrumental) must complete an interview and submit a conducting video of a recent concert and/or rehearsal, and audition on their primary instrument/voice. Those students with piano skills will be given preference for admission to the Choral Conducting track.

Students interested in the Choral Conducting track are required to pass the foreign language and diction portion of the Graduate Diagnostic Exam. Students deficient in either area will be required to take the appropriate undergraduate courses.

Code	Title	Hours
Composition Track		
Courses		
COMP 5201	Applied Composition	4
COMP 5202	Applied Composition Large Ensemble	4
MUEN 5112	Graduate Ensemble	2
MUSI 5363	Pedagogy Of Theory	3
MUSI 5367	Score Reading	3
MUSI 6181	Recital I	1

Select one of the following:		4
MUSI 5365	Counterpoint and Analysis	
XXXX 5201	Applied lessons	
MUSI 5XXX	Music History	
Other course with advisor approval		
Total Hours		21

Students seeking admission to the Composition track must complete an interview with the appropriate composition faculty and submit a portfolio of recent compositions. Students must also demonstrate piano proficiency by performing a short prepared piece or two (totaling no more than five minutes), and by sight-reading during the interview. Students deficient in this area must take the appropriate undergraduate courses.

Code	Title	Hours
Musicology Track		
Courses		
MUSI 5363	Pedagogy Of Theory	3
MUSI 5398	Advanced Studies in the Applied Discipline	3
MUSI 6099	Thesis	6
Select two of the following with approval of advisor:		6
MUSI 5331	Seminar In Baroque Music	
MUSI 5332	Seminar In Classical Music	
MUSI 5337	Seminar in Nineteenth-Century Music	
MUSI 5338	Seminar in Twentieth-Century Music	
Elective(s) with advisor approval		3
Total Hours		21

Students seeking admission to the Musicology track must complete an admission interview with the musicology coordinator and submit a sample of academic writing.

Students who graduate with an emphasis in Musicology are required to pass a language proficiency examination in either German or French. The language requirement should ideally be fulfilled by the end of the second semester of residence.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Master of Music is designed to provide graduates with the following marketable skills:

- Communication skills: written, verbal, and musical.
- Critical and creative thinking, multitasking, and problem-solving skills.
- Versatile 21st century musicians with professional, collaborative, and inclusive demeanor.
- Entrepreneurial in spirit including leadership, marketing, and self-promotion.
- Community engagement and ability to work with diverse populations.

Artist Diploma Certificate: Post-Master's

The Artist Diploma Certificate: Post-Master's, is a one-year non-degree program designed to meet the needs of highly accomplished performers who have completed a Master's degree in Music and wish to further their career goals in the performing arts. Candidates for the Artist Diploma Certificate: Post-Master's must demonstrate the requisite talent and potential to develop a high level of competency, artistic sensibility, and a strong sense of commitment for a career as a professional musician. The program is designed to provide intensive repertoire study and performance opportunities under the guidance of master teachers in preparation for a concert career or doctoral program in music performance.

This Certificate is not eligible to receive Title IV funding -- Direct Loans, Pell Grant, TEACH Grant, SEOG Grant, or Federal Work Study. Students enrolled in this program should explore alternative funding options and are encouraged to contact the financial aid office for assistance.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/artist-diploma-certificate/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Artist Diploma Certificate: Post-Master's must submit the following directly to the Office of Graduate Admissions (<http://www.shsu.edu/dept/graduate-admissions/>):

- Graduate Application (<https://www.shsu.edu/admissions/applications/>)
- Application fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>)
- Official transcript from a baccalaureate degree granting institution
- Official transcript from the master's degree-granting institution: Master of Arts or Master of Music in Performance
- On-campus audition and interview (Online video conference auditions and interviews may be set up for international students by the graduate advisor.)
- Three current letters of recommendation
- Resume detailing previous musical and performance experience
- Two semesters of Applied Lesson study at the graduate level - 4 credit hours (Course XXXX 5201; e.g., PIAN 5201, VILN 5201).
- Two semesters of Ensemble or Chamber Music participation at the graduate level specific to the student's career goals (2 credit hours; MUEN 5110, MUEN 5112, or MUEN 5118).
- Two Recitals at the graduate level (2 credit hours; MUSI 6181 and MUSI 6182).
- Two semesters of free* electives (6 credit hours). *Free electives must be jointly approved by the student's applied teacher and graduate advisor.

First Year

Fall	Hours	Spring	Hours

Performer's Certificate: Post Baccalaureate

The Performer's Certificate: Post-Baccalaureate is a one-year non-degree course of study designed for students who have completed an undergraduate degree in Music and who are interested in intensive training and further development of performance skills in a concentrated area. Candidates for the Performer's Certificate: Post-Baccalaureate must demonstrate the requisite talent and potential to develop a high level of competency, artistic sensibility, and a strong sense of commitment for a career as a professional musician. This program will provide an in-depth study of concert repertoire with the objective of providing the practical experience necessary to be competitive for graduate scholarships, assistantships, and professional positions in the music field.

This Certificate is not eligible to receive Title IV funding -- Direct Loans, Pell Grant, TEACH Grant, SEOG Grant, or Federal Work Study. Students enrolled in this program should explore alternative funding options and are encouraged to contact the financial aid office for assistance.

College of Business Administration (<http://www.shsu.edu/~coba/>)

Vision Statement

The College of Business Administration will be among the top-ranked colleges of business for upward social mobility, a preferred destination school for first-generation students, and be recognized for having the highest level of student and community impact in the region.

Mission Statement

The College of Business Administration inspires change through active engagement and student-focused learning to develop empowered and impactful business professionals.

Our educational intent is to be deliberate and innovative in recruiting and retaining students, adding meaningful value to our students' lives, and fostering upward social mobility via gainful employment with lucrative career prospects that have a positive generational impact by:

- Actively supporting the career readiness of students to empower them to have successful professional careers.
- Recruiting and retaining faculty that are committed to student engagement and success.
- Offering a relevant, rigorous, and innovative curriculum with high-impact and community-engagement learning opportunities in an inclusive and nurturing environment.

Our research intent is to support and elevate intellectual growth, engagement, and innovations in faculty research by:

- Supporting highly productive faculty members in their professional and scholarly growth.
- Producing thought leadership that has a positive societal impact by addressing the most critical problems facing businesses and the communities they serve.

Our service intent is to promote community engagement by:

- Allocating resources to support the professional growth of faculty and staff members focused on community outreach and student success.
- Utilizing our collective strengths to create a new generation of business professionals who are empowered, adaptable, innovative, and committed to positively impacting the businesses and the communities they serve.

Core Values

Sense of Community and Belonging - Fostering a caring, inclusive, and supportive community.

Professional Excellence - Creating a culture of quality and leadership.

Accountability - Accepting responsibility for our actions.

Mutual Respect - Demonstrating respect and valuing individual perspectives, achievements, abilities, and qualities.

Honor and Integrity - Encouraging individuals to build strong relationships through honesty, trust, and dependability.

Highlights

The College of Business Administration is accredited by the Association to Advance Collegiate Schools of Business International (AACSB International) and has a nationally recognized chapter of Beta Gamma Sigma, the national honor society in business. The College's online programs are highly ranked by *US News & World Report*.

Each year the College of Business Administration conducts a career fair that offers students the opportunity to interact with 50 or more employers from all types of business and not-for-profit organizations. Additionally, the Department of Accounting conducts a "Meet-the-Firms Night" each fall for primarily accounting, finance, and management information systems majors.

Master's Degrees

- Executive Master of Business Administration in Banking and Financial Institutions
- Master of Business Administration
- Master of Business Administration: Accelerated Track
- Master of Science in Accounting
- Master of Science in Applied Economics
- Master of Science in Project Management

Certificates

Departments	Programs
Business Administration and Entrepreneurship	Real Estate Analysis
Management, Marketing, and Information Systems	Quality Management Tools
Management, Marketing, and Information Systems	Project Methods and Tools

Student Organizations and Activities

- Alpha Kappa Psi
- Association for Business Information Technology Students
- Association of Certified Fraud Examiners
- Association of Supply Chain Management
- Banking and Finance Club
- Beta Alpha Psi
- Beta Gamma Sigma

- International Business and Economics Club
- The Investment Club
- Marketing Student Club
- MBA Student Association
- National Association of Black Accountants
- Omicron Delta Epsilon
- Phi Chi Theta
- Society for Human Resource Management

Additional student organizations exist within specific majors and/or departments. Please see the appropriate major/department for more details.

Scholarships

Numerous scholarships are available on a competitive basis for incoming and currently enrolled graduate students in the College of Business Administration. Students are encouraged to apply for scholarships using the Scholarships4Kats (<https://shsu.academicworks.com/>) program at Financial Aid (<http://www.shsu.edu/dept/financial-aid/>). The Scholarship4Kats program is a single application that will allow the student to apply for most scholarships available on campus whether at the departmental, college, or university-level. Applications are typically accepted through Scholarships4Kats (<https://shsu.academicworks.com/>) between October 1 and February 15 for incoming students and between January 2 and February 15 for returning students. Deadlines may change so students are encouraged to check the website for current information. Scholarship recipients are announced in April for the following academic year.

Scholarships vary from year to year and typically include:

- Bala and Santhi Maniam Finance Scholarship
- Charles R. Carlow Endowed Scholarship
- Kelly DeHay & Rod Danielson COBA Scholarship
- Douglas C. Fletcher, Sr. Scholarship
- Project Management Institute (PMI) Scholarships
- SHSU Online Scholarships
- John Patrick Singleton Memorial Scholarship
- Kimbrough M. Winston, Sr. Graduate Business Scholarship
- Neva and Wesley West Scholarship
- Wood-Yager Scholarship

The College of Business Administration also offers competitive graduate assistantships each year for students who are accepted into the program. All students who have demonstrated distinguished academic performance may apply for a graduate assistantship. All assistantships require students to work 20 hours per week. Students interested in applying for an assistantship should contact the college directly at busgrad@shsu.edu.

Executive Master of Business Administration (E.M.B.A.) - Banking and Financial Institutions

The Executive Master of Business Administration (EMBA) in Banking and Financial Institutions program at Sam Houston State University is designed to develop and enhance a candidate's skills that are necessary for a position of leadership in a financial institution or regulatory agency. The program emphasizes the integration and synthesis of various disciplines to develop a student's ability to function and make sound administrative decisions in a dynamic financial institution environment. The EMBA program is suited for qualified students from any academic discipline who have experience in the financial institutions field.

The EMBA is a two-year cohort program with a new cohort beginning each fall semester. It is an online program with an annual one-week residency requirement prior to the start of each fall semester with one weekend session each spring semester. During the residency period, students receive foundational instruction for the six courses to be completed during the upcoming academic year. Up to nine hours of coursework may be transferred into the EMBA program from the Southern Methodist University Graduate School of Banking or the Graduate School of Banking at Louisiana State University.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/banking-and-financial-institutions-executive-mba/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants must submit the materials listed under the admission requirements directly to the Office of Graduate Admissions. The deadline to submit a complete application is May 31.

Admission Requirements for Domestic (U.S. Citizens)

Prospective candidates for the Executive MBA in Banking and Financial Institutions Online Program must submit to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>) the following items:

- Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
- Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
- Official transcript from an accredited baccalaureate degree granting institution
- Current resume
- Official GMAT score (Students with an undergraduate GPA of 2.50 or higher are eligible for a comprehensive review of academic performance and consideration for a GMAT waiver.)

If GMAT is not waived, one of the two admission formulas set out below must be met.

$200 \times (\text{undergraduate GPA from degree granting institution}) + (\text{GMAT score}) \geq 1,100$

$200 \times (\text{advanced hours GPA}) + (\text{GMAT score}) \geq 1,150$

If the student does not have a baccalaureate degree in business, it is necessary that the student have at least three years work experience in a banking or regulatory position. This experience negates the requirement for prerequisite work as required in the conventional MBA.

Domestic students' additional requirements for admission:

- Access to a computer with a configuration to be provided.
- Ability to work with Internet-based technology.
- An interview with the Associate Director of Graduate Studies in the College of Business Administration or the Chair of Banking either in person or via telephone.
- If the student does not have a baccalaureate degree in business, a statement indicating the positions held in banking or regulation is required.
- Ability to attend an annual one-week residency session prior to the start of each fall semester with one weekend session each spring semester and work on the web-based sessions.
- Students who are not in good standing at another college or university are not eligible for admission.

Admission Requirements for International Students (defined as non-U.S. Citizens, except those that hold permanent residency status)

Prospective candidates for the Executive MBA in Banking and Financial Institutions Online Program must submit to the Office of Graduate Admissions the following items:

- Graduate application (<http://www.shsu.edu/admissions/apply-texas.html>)
- Application Fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
- Official transcripts from an AACSB accredited baccalaureate degree granting institution
- Resume

International students' additional requirements for admission:

- A business administration degree from an AACSB accredited baccalaureate degree granting institution.
- For those students whose degree is in an area other than business administration from an AACSB accredited college or university, it is necessary that the student have at least three years work experience in a banking or regulatory position.
- A statement of support from student's employer to ensure the ability to attend the annual one-week residency session and work on the web-based sessions.
- A professional resume or a statement indicating the positions held in banking or banking regulation.
- An interview with the Associate Director of Graduate Studies in the College of Business Administration or the Chair of Banking either in person or via telephone.
- Ability to work with Internet-based technology.
- Access to a computer with a configuration to be provided.
- Students who are not in good standing at another college or university are not eligible for admission.
- Consistent with university policy, international students (defined as non-U.S. citizens, except those that hold permanent residency cards) must take and successfully complete the TOEFL test with a score of at least 79, IELTS score of at least 6.5, or Duolingo EPT score of at least 105.
- Graduate Management Admission Test (GMAT) with a score of at least 500.
- Ability to attend an annual one-week residency session prior to the start of each fall semester with one weekend session each spring semester and work on the web-based sessions.

All immigration requirements must also be satisfied prior to admission.

The degree program requires a minimum of thirty-six hours of graduate credit.

Code	Title	Hours
Executive Master of Business Administration (E.M.B.A.) - Banking and Financial Institutions		
ACCT 5304	Accounting For Management	3

MGMT 5335	Services Management and Marketing	3
MKTG 5330	Marketing Management	3
Total Hours		36

¹ FINC 5395 is a capstone course that satisfies the comprehensive exam requirement. A grade of "B" or better is required for graduation.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The EMBA is designed to prepare business professionals for leadership roles within commercial banks or regulatory agencies. Specific marketable skills include:

- Effective communication: Graduates will be able to demonstrate language and content that suits the intended audience and organize content in a logical sequence.
- Effective critical thinking: Graduates will be able to distinguish relevant and non-relevant information regarding a business or banking problem and develop a valid argument in support of a conclusion.
- Effective strategic decision-making: Graduates will be able to consider different strategic options using available evidence through the lens of organizational goals and generate applicable solutions for business and banking problems.

Master of Business Administration

The Master of Business Administration program at Sam Houston State University is designed to develop candidates for positions of leadership in modern organizations. Managerial procedures and practices are continually changing. Therefore, the program emphasizes the integration and synthesis of various disciplines to develop a student's ability to function in a dynamic environment and make sound administrative decisions that maximize the value and contributions of an organization. The MBA program is suited for qualified students from any academic discipline. The program provides the candidate with a basic managerial background through the core requirements while providing individualized adaptation through elective courses.

The MBA requires 36 graduate hours including 27 hours of core courses and 9 hours of electives.

Core and elective courses are available to complete our MBA program entirely online. Please see the current schedule of classes (<http://www.shsu.edu/academics/current-schedule-of-classes.html>) for the course offerings.

The MBA program may be completed in as few as four semesters; however, it is not recommended that students who are working attempt more than six hours in a semester. A more realistic timeline would be approximately two years.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/business-administration/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Master of Business Administration program must:

1. Complete the online graduate application form (<http://www.shsu.edu/admissions/apply-texas.html>).
2. Pay the application fee (<http://www.shsu.edu/admissions/apply-texas.html>).

Additionally, applicants must submit the following material directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Official transcript(s) from all previous college work (except SHSU graduates).
2. An official GMAT score. **Undergraduate GPA¹ of 2.75 or higher allows for a comprehensive review of academic performance and consideration for a GMAT waiver.**
3. A current resume.

International Students must submit all of the above information plus:

1. Official TOEFL score at least 79, IELTS score of at least 6.5, or Duolingo EPT score of at least 105.
2. English translations and evaluation of official transcripts.

Graduate Application Deadlines

U.S. Citizens

- Fall - August 1
- Spring - December 1
- Summer - May 15

International Students

- Fall - June 25
- Spring - November 12
- Summer - April 9

Admission Criteria

Degree from a U.S. university

- **Meet or exceed one of the following admission formulas:**
 - $200 (\text{Undergraduate GPA}) + \text{GMAT Score} \geq 1100^1$
 - $200 (\text{Advanced Hours Undergraduate GPA}) + \text{GMAT Score} \geq 1150^2$

Degree from a non-U.S. university

- **Students who earned a baccalaureate degree from a university located outside of the United States must satisfy all of the following to be considered for admission into SHSU's MBA program.**

- GMAT score of at least 500.
- TOEFL score of at least 79, IELTS score of at least 6.5, or Duolingo EPT score of at least 105.
- English translations and evaluations of official transcripts.

GMAT Waiver Requests

- Undergraduate GPA¹ of 2.75 or higher allows for a comprehensive review of academic performance and consideration for a GMAT waiver.
- Applicants who have an undergraduate GPA of at least 2.5 from their degree granting U.S. institution and have at least three years of *significant* managerial and professional experience may be admitted without a GMAT score, typically through a review of the applicant's resume. Normally, the required experience is earned after completion of the undergraduate degree. A committee will assist, if needed, in determining if the applicant's experience meets the "significant managerial and professional experience" threshold.
- Applicants who have an undergraduate degree granted by a non-U.S. institution will not be considered for a GMAT waiver.

¹ The undergraduate GPA is the GPA from courses taken at the degree granting institution. Transfer grades are **not** used in the computation of this undergraduate GPA.

² The advanced hours undergraduate GPA is the GPA from junior and senior (3000 and 4000) level courses taken at the degree granting institution. Transfer grades are **not** used in the computation of this undergraduate GPA.

Prerequisite Coursework Requirements for Non-Business and Non-Accounting Graduates

Prerequisite courses for graduate business courses are **required** for students who did not take the equivalent courses as part of their baccalaureate program or for students with a baccalaureate degree from a non-U.S. university. The graduate prerequisite courses (courses listed as 5300) **do not** apply to the 36-hour graduate credit hour requirement of the MBA degree.

The MBA is designed to prepare business professionals for leadership roles within the business, governmental, or non-profit sectors. Specific marketable skills include:

- Effective communication: Graduates will be able to demonstrate language and content that suits the intended audience and organize content in a logical sequence.
- Effective critical thinking: Graduates will be able to distinguish relevant and non-relevant information regarding a business problem and develop a valid argument in support of a conclusion.
- Effective strategic decision-making: Graduates will be able to consider different strategic options using available evidence through the lens of organizational goals and generate applicable solutions for business problems.

Master of Business Administration: Accelerated Track

The Master of Business Administration: Accelerated Track at Sam Houston State University is designed to develop candidates for positions of leadership in modern organizations. Managerial procedures and practices are continually changing. Therefore, the program emphasizes the integration and synthesis of various disciplines to develop a student's ability to function in a dynamic environment and make sound administrative decisions that maximize the value and contributions of an organization. The MBA: Accelerated Track is suited for highly motivated and qualified students from any academic discipline. The program provides the candidate with a basic managerial background through the core requirements and additional courses.

The MBA: Accelerated Track requires 30 graduate hours including 24 hours of core courses and 6 hours of additional courses.

Please see the current schedule of classes (<http://www.shsu.edu/academics/current-schedule-of-classes.html>) for the course offerings.

The MBA: Accelerated Track may be completed in as few as three semesters.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/business-administration/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Note: Pending approval from the Texas Higher Education Coordinating Board.

Admission Process Requirements

Applicants seeking admission to the Master of Business Administration: Accelerated Track must:

1. Complete the online graduate application form (<http://www.shsu.edu/admissions/apply-texas.html>).
2. Pay the application fee (<http://www.shsu.edu/admissions/apply-texas.html>).

Additionally, applicants must submit the following material directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Official transcript(s) from all previous college work (except SHSU graduates).
2. **Undergraduate GPA of 3.0 or higher.**

International Students must submit all of the above information plus:

1. Official TOEFL score of at least 79, IELTS score of at least 6.5, or Duolingo EPT score of at least 105.
2. English translations and evaluation of official transcripts.

Department of Accounting

Chair: Cassy Henderson, Ph.D. (cdh045@shsu.edu), (936) 294-1257

Website: Department of Accounting (<http://www.shsu.edu/academics/accounting/>)

Department Email: Accounting (accounting@shsu.edu)

Vision

To be a leading professional accounting department among Texas universities providing a relevant curriculum delivered by professional faculty dedicated to teaching, research, and service.

Mission

Our mission is to prepare our students to enter the accounting profession in the public, industry, and not-for-profit sectors through excellent teaching and pedagogy and through the creation of a sound learning environment. In support of this mission our faculty will produce intellectual contributions that contribute to the professional practice of accounting, to accounting pedagogy, and to discipline based research. We will also maintain a level of interaction with the accounting profession that ensures the continued relevance of our program and viability of our graduates.

Highlights

The Department of Accounting works closely with outside stakeholders in CPA firms, industry, government, and nonprofit organizations in order to ensure that the accounting curriculum provides students with the necessary knowledge and skill sets to successfully function as professional accountants upon graduation. Evidence of the success of this process is provided in part by the continued recruitment of SHSU accounting graduates by numerous, diverse employers.

Accounting majors participate in the annual Meet the Firms career fair held in the Fall semester. This function, which first began in 1997 and is organized by the SHSU Chapter of Beta Alpha Psi, the honor organization for financial information students and professionals, is attended by employers that are specifically, and many times solely, interested in accounting majors and, in some cases, finance majors. Accounting majors, minors, MIS majors, and finance majors from all levels attend this event to begin or to continue their participation in the recruitment and hiring process.

Career Opportunities

There are strong demands for the knowledge and skills possessed by accountants. Exciting career paths are available in public, industry, government, and nonprofit organizations. These career paths include, but are not limited to:

- Public accountant
- Tax accountant
- Cost accountant
- Government accountant
- Budget accountant
- Auditor
- Appraiser
- Budget analyst
- Credit analyst
- Financial examiner
- Tax examiner
- Revenue agent
- Educator

Uniform CPA Examination Information

The completion of the BBA in Accounting at SHSU will allow one to meet the educational requirements established by the Texas State Board of Public Accountancy (TSBPA) necessary to take the Uniform CPA examination in Texas. However, the TSBPA requires additional semester credits to be licensed as a CPA in Texas. The Department of Accounting offers the Master of Science in Accounting, whereby, a student may satisfy the further educational requirements to become licensed in the state of Texas. Students seeking additional information on the Uniform CPA Examination should check the Texas State Board of Public Accountancy homepage (<http://www.tsbpa.state.tx.us/>).

Graduate Program in the Department of Accounting

- Master of Science in Accounting

Other Graduate Programs in the College of Business Administration

- Executive Master of Business Administration in Banking and Financial Institutions
- Master of Business Administration
- Master of Business Administration: Accelerated Track
- Master of Science in Applied Economics
- Master of Science in Project Management

Student Organizations and Activities

- Association of Certified Fraud Examiners (ACFE)
- Beta Alpha Psi (BAP)
- National Association of Black Accountants (NABA)
- Student membership in the American Institute of Certified Public Accountants (AICPA)
- Student membership Institute of Management Accountants (IMA)

Internships

The Department of Accounting has an active internship program and students are encouraged to participate. Selection requirements are rigorous and involve meeting both the minimum standards set by the Department of Accounting and selection by the hiring firm or business following an interview process. These internships must meet guidelines as established by the Texas State Board of Public Accountancy and involve specific, direct accounting training and activity beyond routine clerical and office activities. While students generally participate in these internships in the latter part of their undergraduate studies, graduate students may also participate.

Scholarships

Scholarships are available on a competitive basis for accounting majors. Students are encouraged to apply for scholarships using Scholarships4Kats on the Financial Aid (<http://www.shsu.edu/dept/financial-aid/scholarships/>) website. The Scholarship4Kats program is a single application that will allow the student to apply for most scholarships available on campus whether at the departmental, college, or university-level. Department of Accounting scholarship recipients are announced during the Spring semester for the following academic year. The specific scholarships that are available through the Department of Accounting vary from year-to-year.

Director/Chair: **Philip W Morris**

Ouadie Akaaboune, PHD (oxa021@shsu.edu), *Associate Professor of Accounting, Department of Accounting*, PHD, Southern Illinois U-Carbondale; MACCY, Southern Illinois U-Carbondale; BA, Univ of Hawaii At Manoa

Master of Science in Accounting

The Master of Science in Accounting program is designed to provide students with the advanced study in accounting necessary to prepare for the Uniform Certified Public Accountant (CPA) examination. This program focuses on the knowledge and skills needed in the profession of accounting. Graduates of the MS in Accounting program are prepared for employment opportunities in a variety of accounting career paths including with public/industry/government/nonprofit firms.

The MS in Accounting requires thirty (30) graduate credit hours and can be completed in one year (12 months) by full time students who possess an appropriate undergraduate degree in accounting and who first enroll in the MS in Accounting program in either fall or summer semesters.

The MS in Accounting program allows students possessing an undergraduate degree in accounting to meet the minimum legislatively mandated requirement of 150 semester hours of college credit to be licensed as a CPA in Texas. Students seeking additional information on the Uniform CPA Examination should check the Texas State Board of Public Accountancy homepage (<http://www.tsbpa.state.tx.us/>).

All classes in the MS in Accounting program are taught only at the Huntsville campus.

Mission

The MS in Accounting is a professional program with the mission of providing students with the skills-based competencies necessary to enter the accounting profession and to enable students to meet the minimum educational requirements for licensure as a Certified Public Accountant in Texas.

Vision

The MS in Accounting program provides students with a thorough grounding in the technical core competencies for entry into the accounting profession as identified by the American Institute of Certified Public Accountants (AICPA). The AICPA's Core Competency Framework identifies six technical competencies as most aligned with the value contributed by accounting professionals:

- Risk Assessment, Analysis and Management
- Measurement Analysis and Interpretation
- Reporting
- Research
- Systems and Process Management
- Technology and Tools

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/accounting/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Master of Science in Accounting program must:

1. Complete the online graduate application form (<http://www.shsu.edu/admissions/apply-texas.html>).
2. Pay the application fee (<http://www.shsu.edu/admissions/apply-texas.html>).

Additionally, applicants must submit the following material directly to the Office of Graduate Admissions:

1. Official transcript(s) from all previous college work (except SHSU graduates).
2. A current resume.

Graduate Application Deadlines

U.S. Citizens

- Fall - August 1
- Spring - December 1
- Summer - May 15

International Students

- Fall - June 25
- Spring - November 12
- Summer - April 9

Admission Criteria

1. Have a minimum overall undergraduate GPA of 3.0¹
2. Have a minimum advanced accounting coursework GPA of 3.0²
3. Hold a Bachelor's degree in Accounting from a U.S. Institution

¹ The Undergraduate GPA is the GPA from courses taken at the degree granting institution. Transfer grades are not used in the computation.

² The advanced accounting coursework GPA is the GPA from junior- and senior- level accounting courses taken at the degree granting institution. Transfer grades are not used in this computation.

Prerequisite Coursework Requirements for Non-Business Graduates and Non-Accounting Graduates

Students seeking admission to the Master of Science in Accounting program who do not have a baccalaureate degree in accounting from an Association to Advance Collegiate Schools of Business (AACSB International) accredited university will be required to take substantial prerequisite coursework before being allowed in the MS in Accounting program. Baccalaureate degrees from foreign universities not accredited by AACSB International are treated as non-business degrees. Additionally, graduate prerequisite courses (courses listed as 5300) do not apply to the 30-hour graduate credit hour requirement of the MS in Accounting degree. Contact the graduate advisor for details.

Select any graduate course from the College of Business Administration ⁴		3
Total Hours		30

¹ Course is only offered during the Fall semester

² Course is only offered during the Spring Semester.

³ ACCT 5399 is the capstone course that satisfies the comprehensive exam requirement. A grade of B or better is required for graduation.

⁴ Any graduate course in COBA except 5300s, ACCT 5302, or ACCT 5304. Non-COBA courses must be approved by the Chair of the Department of Accounting.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MS in Accounting is designed to provide graduates with the following marketable skills:

- **Measurement Analysis and Interpretation:** Our graduates will identify and apply appropriate, reliable, and verifiable measurements to analyze data for a given purpose and intended use.
- **Reporting:** Our graduates will identify the appropriate content and communicate clearly and objectively to the intended audience the work performed and the results as governed by professional standards required by law or dictated by the business environment.
- **Research:** Our graduates will identify, access, and apply relevant professional frameworks, standards, and guidance as well as other information for analysis and to make informed decisions.
- **Risk Assessment, Analysis and Management:** Our graduates will assess, analyze, and manage risk using appropriate frameworks, professional judgment, and skepticism for effective business management.
- **Systems and Process Management:** Our graduates will identify the appropriate businesses processes and system(s) and the related framework and controls to assist in the design and use of systems for efficient and effective operations.
- **Technology and Tools:** Our graduates will identify and utilize relevant technology and tools to analyze data, efficiently and effectively perform assigned tasks as well as support other competencies.

Department of Business Administration and Entrepreneurship

Chair: Diana Brown, J.D. (dxb029@shsu.edu)

Phone: (936) 294-2578

Website: Department of Business Administration and Entrepreneurship

Vision

To deliver outstanding Business Administration and Entrepreneurship programs with faculty that is recognized for excellence in instruction, research, and service.

Mission

The mission of the Department of Business Administration and Entrepreneurship is to assist in fulfilling the mission of the University and the College of Business Administration by providing students with an academic foundation to become productive citizens, to develop successful careers, and to provide interested students with the background to pursue graduate or professional studies. The academic foundation leading to a Bachelor of Business Administration degree in Business Administration or Entrepreneurship is designed to arouse intellectual curiosity, develop analytical reasoning, and provide historical and current information relative to the global environment.

Graduate Programs

The Department of Business Administration and Entrepreneurship provides a significant portion of the curriculum for the Master of Business Administration (MBA) degree program.

Graduate Programs in the Department of Business Administration and Entrepreneurship

- Graduate Certificate in Real Estate Analysis

Graduate Programs in the College of Business Administration

- Master of Science in Accounting (<http://catalog.shsu.edu/graduate-and-professional/college-departments/business-administration/accounting/accounting-ms/>)
- Master of Business Administration (<http://catalog.shsu.edu/graduate-and-professional/college-departments/business-administration/mba/>)
- Master of Business Administration: Accelerated Track
- Executive Master of Business Administration in Banking and Financial Institutions (<http://catalog.shsu.edu/graduate-and-professional/college-departments/business-administration/emba/>)
- Master of Science in Applied Economics (<http://catalog.shsu.edu/graduate-and-professional/college-departments/business-administration/economics-international-business/applied-economics-ms/>)
- Master of Science in Project Management (<http://catalog.shsu.edu/graduate-and-professional/college-departments/business-administration/management-marketing-and-information-systems/project-management-ms/>)

Student Organizations and Activities

- Beta Alpha Psi
- Banking and Finance Club
- Collegiate Entrepreneurs' Organization
- MBA Student Association
- The Investment Club

Scholarships

Scholarships are available on a competitive basis. Students are encouraged to apply for scholarships using the Scholarship4Kats (<https://shsu.academicworks.com/>) program on the Financial Aid (<https://www.shsu.edu/dept/financial-aid/>) website. The Scholarship4Kats program is a single application that will allow the student to apply for most scholarships available on campus whether at the departmental, college, or university-level. The deadline for applying for scholarships is February 15.

Director/Chair: **Tommy J Robertson**

Graduate Certificate in Real Estate Analysis

The Graduate Certificate in Real Estate Analysis provides an educational opportunity that is narrower in scope, and shorter in duration, than a degree program. It is ideal for those transitioning from one sector of real estate into real estate project feasibility analysis or those in the process of satisfying education requirements for various professional real estate designations.

Code	Title	Hours
Graduate Certificate in Real Estate Analysis		
Required Courses		
REAL 5350	Real Estate Debt	3
REAL 5351	Real Estate Equity	3
REAL 5352	Real Estate Market and Development Feasibility Analysis	3
Prescribed Electives		
Select one course from the following:		3
ECON 5373	Urban Economics	
REAL 5365	Real Estate Law	
Total Hours		12

Applicants seeking admission to the Graduate Certificate in Real Estate Analysis must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/admissions/apply-texas.html>)
3. Official transcript (any field) from the baccalaureate degree granting institution
4. Undergraduate GPA minimum of 2.75.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Real Estate Analysis is designed to provide graduates with the following marketable skills:

- Market research skills applied to commercial real estate.
- Financial analysis skills applied to commercial real estate.
- Regulatory and/or economic analysis skills applied to commercial real estate.
- Development project analysis skills applied to commercial real estate.
- Oral and written communication skills applied to commercial real estate.

Department of Economics & International Business

Chair: Kurt Jesswein, Ph.D. (jesswein@shsu.edu), (936) 294-4582

Website: Department of Economics & International Business (<http://www.shsu.edu/academics/economics-and-international-business/>)

Vision

To develop outstanding Economics, International Business, and Business Analysis programs with faculty that is recognized for excellence in instruction, research, and service.

Mission

The mission of the Department of Economics and International Business is to support the mission of the University and the College of Business Administration by providing students with an academic foundation to become productive citizens, to develop successful careers, and to provide interested students with the background to pursue graduate or professional studies. The Department will provide curricula that promote critical thinking skills and enhance decision making abilities, which help students become productive and informed citizens. Faculty will engage in research to create and disseminate new knowledge, develop quality-teaching skills, maintain high professional standards, and actively serve the University Community.

Academic Programs

The Department of Economics and International Business offers the Master of Science in Applied Economics degree program. The department also offers a variety of graduate courses to support the Master of Business Administration, Executive MBA in Banking and Financial Institutions, Master of Science in Accounting, and the Master of Science in Project Management degree programs. See the current undergraduate catalog for details pertaining to undergraduate majors.

Master of Science in Applied Economics

The Master of Science in Applied Economics is designed to provide students with a solid foundation in the core economic fields, with a strong focus on evidence-based decision-making, quantitative methods, and data analysis. Students are introduced to a framework for analysis that can be applied to a variety of areas such as business and financial management, market research, international trade, public policy, health care and public health, and even criminal justice and law. The M.S. in Applied Economics provides graduates with the applied analytical skills and advanced tools needed to be competitive in today's labor market.

The MSAE is a flexible online program that is set up to accommodate full-time students as well as working professionals. The MSAE can be completed in as little as one year for those taking a full class load (four classes per long semester and two classes in the summer) or two years or more for those that prefer a slower pace.

Applicants seeking admission to the Master of Science in Applied Economics program must:

1. Complete the online graduate application form (<http://www.shsu.edu/admissions/apply-texas.html>).
2. Pay the application fee (<http://www.shsu.edu/admissions/apply-texas.html>).

Additionally, applicants must submit the following material directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Official transcript(s) from all previous college work (except SHSU graduates).
2. A current resume.

Graduate Application Deadlines

- Fall - August 1st
- Spring - December 1st

Admissions decisions are made on a rolling basis. Applicants will typically receive an admission decision within two weeks of application.

Admissions Criteria:

Admission to the program will be competitive and based on a holistic evaluation of each application. Admissions for new students will take place in Fall and Spring. The program does not have specific major or class requirements for admission.

To be considered for admission, each applicant should meet the following:

1. A baccalaureate degree from an accredited U.S. institution with one of the following:
 - A 3.0 GPA in the last 60 credits of undergraduate work (plus any completed graduate courses). The relevant GPA is the GPA from courses taken at the degree granting institution.

OR

- An undergraduate GPA of at least 2.5 from their degree granting U.S. institution and have at least three years of relevant managerial or professional experience. This is done typically through a review of the applicant's resume. Normally, the required experience is earned after completion of the undergraduate degree. A committee will assist, if needed, in determining if the applicant's experience meets the "relevant managerial or professional experience" threshold.
2. Applicants who have an undergraduate degree from a non-U.S. institution must satisfy all of the following:
 - GRE score in the quantitative section of at least 155 or a GMAT of with a score of 34 in the quantitative section
 - TOEFL score of at least 79 or IELTS of at least 6.5
 - English translations and evaluations of official transcripts
 3. The Department of Economics and International Business may suggest the completion of an undergraduate level quantitative course for those applicants who do not have credit for six hours, with a letter grade of at least C, of college level quantitative coursework. Quantitative coursework could be in mathematics or statistics or business analysis or similar. This undergraduate level course does not apply to the 30-hour graduate credit hour requirement of the MSAE degree, and it is not a requirement for admission.

The course, ECON 5300, is a required class for students who do not have at least six hours of undergraduate or graduate economics credits with a letter grade of C or higher in each class. ECON 5300 does not apply to the 30-hour graduate credit hour requirement of the MSAE degree, and it is offered on a regular basis in the College of Business Administration.

Code	Title	Hours
Master of Science in Applied Economics		
Specified Courses		
BANA 5368	Techniques Of Statistical Analysis	3

- Beta Alpha Psi
- Banking and Finance Club
- MBA Student Association
- The Investment Club

Scholarships

Scholarships are available on a competitive basis. Students are encouraged to apply for scholarships using the Scholarship4Kats (<http://www.shsu.edu/dept/financial-aid/scholarships/>) program on the Financial Aid (<http://www.shsu.edu/dept/financial-aid/>) website. The Scholarships4Kats program is a single application that will allow the student to apply for most scholarships available on campus whether at the departmental, college, or university-level. The priority deadline to apply for scholarships is November 1 and the final deadline is February 1. Scholarship recipients are announced in April for the following academic year.

Finance

FINC 5080. Independent Study. 1-3 Hours.

This course is designed for the directed study of individual students who wish for intensive supervision in some vital aspect of Finance. Variable Credit (1 to 3). Course Equivalents: FINC 5380

Prerequisite: BUAD 5310, FINC 5300, and approval of Department Chair and Graduate Coordinator.

FINC 5085. Special Topic. 1-3 Hours.

This course of faculty-led study is designed to provide graduate students exposure to new Finance topics and concepts in a course setting. Variable Credit (1 to 3). Course Equivalents: FINC 5385.

FINC 5300. Business Finance Environment. 3 Hours.

Students examine business financial decision methods, the financial sector, and the economic and legal environment. Students are introduced to financial principles and decision techniques as well as analytical models and software tools. This course does not apply to the 36-hour graduate credit hour requirement of the MBA degree program.

FINC 5310. Financial Management. 3 Hours.

Students examine financial management in today's interdependent and integrated global environment. Topics may include managerial applications, including the use of current techniques for financial analysis, capital allocation, and capital structure.

FINC 5320. Seminar in Commercial Banking. 3 Hours.

Students study the current developments within commercial banking and examine the specific aspects of the banking industry. Both student research and case studies that emphasize managerial application of the literature reviewed are utilized.

FINC 5333. Financial Statement Analysis. 3 Hours.

Students examine how financing, investing, and operating decisions affect financial statements as well as how creditors and investors use financial statements to assess the results of managers' decisions and the effect of alternative accounting methods on the quality of financial reporting.

Prerequisite: FINC 5310 or FINC 5370.

FINC 5338. Selected Topics in Money, Capital, and Security Markets. 3 Hours.

Students engage in an in-depth topical exploration of various aspects of money, capital, and security markets. Topics are explored via analysis of current events and case studies, through examination of the intricacies of financial innovation and adaptation, and/or via individual research projects.

Prerequisite: FINC 5310 or FINC 5370.

FINC 5340. International Finance. 3 Hours.

Student apply theories of managerial and international finance to the problems of financial management in a global business environment. Topics may include investment analysis, financing choices, identification, measurement and management of foreign exchange risks, trade financing, and financial control of international operations.

Prerequisite: FINC 5310 or FINC 5370.

FINC 5345. Seminar in Investments. 3 Hours.

Student study financial securities, their valuation techniques, and the markets in which they are traded. In addition, students are provided an overview of portfolio theory and the analytical tools of portfolio management as well as the relationship between risk and return. Includes a survey of current research in investments.

Prerequisite: FINC 5310.

FINC 5370. Administrative Problems in Finance. 3 Hours.

Students review advanced finance topics in business administration and their direct application to administrative challenges. Coverage includes financial modeling with spreadsheets, advanced time value of money, analysis of the financial performance and condition of a business firm, determination of marginal cost of capital, advanced capital budgeting, cash flow analysis, working capital management, and financial policies.

Prerequisite: FINC 5310.

FINC 5390. Seminar in Business Finance. 3 Hours.

Students study theory and practice of assembling, investing, and managing capital. Major topics may include estimating a firm's cost of funds; basic and advanced capital budgeting techniques, including payback period, NPV, IRR, and MIRR; capital structure analysis; dividend policy and practice; risk management; and portfolio diversification. Cases, current developments and readings in business finance are used as appropriate.

Prerequisite: FINC 5310 or FINC 5370.

FINC 5395. Seminar in Commercial Lending. 3 Hours.

Student engage in an in-depth coverage of the current lending and regulatory issues and techniques appropriate for management of commercial lending activities in modern financial institutions. Research, readings, and case studies are employed to provide students the opportunity to apply the literature in the dynamic financial institutions industry.

Prerequisite: FINC 5310 or FINC 5370.

Department of Management, Marketing, and Information Systems

Chair: Gerald Kohers, Ph.D. (kohers@shsu.edu), (936) 294-1256

Website: Department of Management, Marketing, and Information Systems (<http://www.shsu.edu/academics/management-and-marketing/>)

Vision

The Department of Management, Marketing, and Information Systems aspires to offer a high quality education in the areas of Management, Human Resource Management, Marketing, and Information Systems.

Mission

The mission of the Department of Management, Marketing, and Information Systems is to advance the mission of the College of Business Administration. The Department's mission is to furnish students the requisite knowledge and skills in management, human resource management, marketing, information systems, or related careers. The department is committed to excellence in teaching, intellectual contributions, and service.

Graduate Programs

The Department of Management, Marketing, and Information Systems offers a Master of Science in Project Management degree. The Master of Science in Project Management program consists of 36 credit hours. The Department of Management and Marketing also provides a large portion of the curriculum for the Master of Business Administration (MBA) degree program as well as support for the Executive MBA in Banking and Financial Institutions.

Graduate Programs in the Department of Management, Marketing, and Information Systems

- Master of Science in Project Management
- Graduate Certificate in Project Methods and Tools
- Graduate Certificate in Quality Management Tools

Graduate Programs in the College of Business Administration

- Master of Science in Accounting
- Master of Business Administration
- Master of Business Administration: Accelerated Track
- Executive Master of Business Administration in Banking and Financial Institutions
- Master of Science in Applied Economics

Scholarships

Scholarships are available on a competitive basis. Students are encouraged to apply for scholarships using the Scholarships4Kats (<https://shsu.academicworks.com/>) program on the Financial Aid (<http://www.shsu.edu/dept/financial-aid/>) website. The Scholarships4Kats program is a single application that will allow the student to apply for most scholarships available on campus whether at the departmental, college, or university-level. Specific to the Master of Science in Project Management, the Department offers a number of scholarships thanks to the Project Management Institute Houston (PMIH) Chapter. The deadline for applying for College of Business Administration scholarships is December 31.

Please see the College of Business Administration section for information on college and university-level scholarships.

Master of Science in Project Management

The Master of Science in Project Management program (MS in PM) is targeted toward professionals engaged in managing the project life cycle in organizations and industries, who face challenges of introducing new products and services in rapidly changing environments.

These professionals must draw upon a host of knowledge, skills, and abilities, as well as on sophisticated technological tools and techniques, to meet project requirements. The program will enable students to develop these competencies, and prepare them for effective project management, both functionally and strategically, and will address all aspects of the product life cycle from design to delivery and cash collection.

In addition, the program will prepare students for certification by the Project Management Institute (PMI), the premier certifying organization for the project management discipline.

The MS in PM degree requires completion of 36 graduate hours and can be completed online.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/project-management/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Master of Science in Project Management program must:

1. Complete the online graduate application form (<http://www.shsu.edu/admissions/apply-texas.html>).
2. Pay the application fee (<http://www.shsu.edu/admissions/apply-texas.html>).

Additionally, applicants must submit the following material directly to the Office of Graduate Admissions:

1. Official transcript(s) from all previous college work (except SHSU graduates).
2. An official GMAT score. **Undergraduate GPA of 2.75 or higher allows for a comprehensive review of academic performance and consideration for a GMAT waiver.**
3. A current resume.
4. An essay (please see "Admission Criteria" for more information about the essay).

Graduate Application Deadlines

U.S. Citizens

Fall - August 1
Spring - December 1
Summer - May 15

International Students

Fall - June 25
Spring - November 12
Summer - April 9

Admission Criteria

1. Meet or exceed the following admission formula:
 - a. $200 (\text{Undergraduate GPA}) + \text{GMAT Score} \geq 1200$ ¹
2. Demonstrate a minimum of three (3) years' significant managerial and professional experience²
3. Submit an essay about a project management experience and aspirations that clearly communicates why the student is pursuing this degree. (500 words or less, Times New Roman, 12 point font size). Essays should be submitted to the Office of Graduate Admissions.
4. Additional Requirements (Applicants with Bachelor's Degree from Outside the U.S.)
 - a. Official GMAT score of at least 500.
 - b. TOEFL score of at least 79, IELTS score of at least 6.5, or Duolingo EPT score of at least 105.
 - c. English translation and evaluation of Official transcripts.
5. GMAT Waiver Requests
 - a. Undergraduate GPA of 2.75 or higher allows for a comprehensive review of academic performance and consideration for a GMAT waiver.
 - b. Seven (7) years significant managerial and professional experience allows for consideration for a GMAT waiver².
 - c. Applicants who have an undergraduate degree granted by a non-U.S. institution will not be considered for a GMAT waiver.

¹ The Undergraduate GPA is the GPA from courses taken at the degree granting institution. Transfer grades are not used in the computation.

- ² Normally, the required experience is earned after completion of the undergraduate degree. A committee will assist, if needed, in determining if the applicant's experience meets the "significant managerial and professional experience" threshold.

Code	Title	Hours
Master of Science in Project Management		
Specified Courses		
MGMT 5315	Seminar Operations Management	3
MGMT 5318	Quality Management	3
MGMT 5323	Tools of Project Management	3
MGMT 5325	Project Management	3
MGMT 5330	Operations Planning & Control	3
MGMT 5338	Project Management Capstone ¹	3
MGMT 5345	Seminar In Team Leadership	3
MGIS 5360	Project Management for Business Systems Development	3
Electives (Choose 4 from below)		12
Total Hours		36

- ¹ MGMT 5338 is the capstone course that satisfies the comprehensive exam requirement. A grade of B or better is required for graduation.

Code	Title	Hours
Project Managment Electives		
Select four from the following:		12
MGMT 5320	Management of Innovation and Technology	
MGMT 5327	Agile Project Management	
MGMT 5350	Leading Organizational Change and Development	
MGMT 5355	Seminar in Human Resource Management	
MGMT 5360	Staffing Organizations	

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MS in Project Management is designed to provide graduates with the following marketable skills:

- Critical thinking.
- Communication, both oral and written.
- Decision making.

Graduate Certificate in Project Methods and Tools

The curriculum for the Project Methods and Tools certificate is focused on three primary methods of project management, traditional, agile and waterfall. These methodologies provide a basis for process groups of initiating, planning, executing, monitoring and controlling, and closing projects.

The tools enhance the ability of the students to perform the work needed in these process groups. For example, when planning a project, it is necessary to have a network diagram which is accomplished using a work break down (WBS) structure. A WBS is a tool that allows the project to be put into manageable pieces so that time and costs can be determined. Upon completion of this certificate, students will be able to:

- Determine the appropriate methodology for managing a project;
- Demonstrate the ability to use tools associated with the various methodologies; and
- Determine which tools are necessary for the various project methodologies.

Additional Information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/project-method-and-tools/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Admission Requirements

Degree From a U.S. University

- Meet or exceed one of the following admission formulas:
 - 100 (Undergraduate GPA) + GMAT Score ≥ 1100 ¹
 - 200 (Advanced Hours Undergraduate GPA) + GMAT Score ≥ 1150 ²

Degree From a Non-U.S. University

- Students who earned a baccalaureate degree from a university located outside of the United States must satisfy all of the following to be considered for admission into SHSU's MBA program.
 - GMAT score of at least 500.
 - TOEFL score of at least 79 or IELTS score of at least 6.5.
 - English translations and evaluations of official transcripts.

GMAT Waiver Requests

- Undergraduate GPA¹ of 2.75 or higher allows for a comprehensive review of academic performance and consideration for a GMAT waiver.
- Applicants who have an undergraduate GPA of at least 2.5 from their degree granting U.S. institution and have at least three years of significant managerial and professional experience may be admitted without a GMAT score, typically through a review of the applicant's resume. Normally, the required experience is earned after completion of the undergraduate degree. A committee will assist, if needed, in determining if the applicant's experience meets the "significant managerial and professional experience" threshold.
- Applicants who have an undergraduate degree granted by a non-U.S. institution will not be considered for a GMAT waiver.

¹ The undergraduate GPA is the GPA from courses taken at the degree granting institution. Transfer grades are **not** used in the computation of this undergraduate GPA.

² The advanced hours undergraduate GPA is the GPA from junior and senior (3000 and 4000) level courses taken at the degree granting institution. Transfer grades are **not** used in the computation of this undergraduate GPA.

Code	Title	Hours
Graduate Certificate in Project Methods and Tools		
Required Courses		
MGMT 5323	Tools of Project Management	3
MGMT 5325	Project Management	3
MGMT 5327	Agile Project Management	3

Total Hours		12

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Project Methods and Tools is designed to provide graduates with the following marketable skills:

- Teamwork.
- Traditional and iterative project methodologies.
- Earned Value Analysis.
- Managing change.

Graduate Certificate in Quality Management Tools

The curriculum for this certificate, Quality Management Tools, is designed to enhance the student's ability to use tools such as root cause analysis, benchmarking, affinity diagrams, and earned value analysis. Students will gain skills that will enhance their ability for planning and controlling an organization and decision-making. Upon completion of this certificate, students will be able to:

- a. Analyze and interpret results using quality management tools;
- b. Develop methods for planning and controlling processes;
- c. Demonstrate analytic and decision-making skills; and
- d. Demonstrate critical thinking and problem-solving skills.

Additional Information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/quality-management-tools/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Admission Requirements

Degree From a U.S. University

- a. Meet or exceed one of the following admission formulas:
 - i. $100 (\text{Undergraduate GPA}) + \text{GMAT Score} \geq 1100^1$
 - ii. $200 (\text{Advanced Hours Undergraduate GPA}) + \text{GMAT Score} \geq 1150^2$

Degree From a Non-U.S. University

- a. Students who earned a baccalaureate degree from a university located outside of the United States must satisfy all of the following to be considered for admission into SHSU's MBA program.
 - i. GMAT score of at least 500.
 - ii. TOEFL score of at least 79 or IELTS score of at least 6.5.
 - iii. English translations and evaluations of official transcripts.

GMAT Waiver Requests

- a. Undergraduate GPA¹ of 2.75 or higher allows for a comprehensive review of academic performance and consideration for a GMAT waiver.
- b. Applicants who have an undergraduate GPA of at least 2.5 from their degree granting U.S. institution and have at least three years of significant managerial and professional experience may be admitted without a GMAT score, typically through a review of the applicant's resume. Normally, the required experience is earned after completion of the undergraduate degree. A committee will assist, if needed, in determining if the applicant's experience meets the "significant managerial and professional experience" threshold.
- c. Applicants who have an undergraduate degree granted by a non-U.S. institution will not be considered for a GMAT waiver.

¹ The undergraduate GPA is the GPA from courses taken at the degree granting institution. Transfer grades are **not** used in the computation of this undergraduate GPA.

² The advanced hours undergraduate GPA is the GPA from junior and senior (3000 and 4000) level courses taken at the degree granting institution. Transfer grades are **not** used in the computation of this undergraduate GPA.

About

Be part of a top-ranked Criminal Justice and Criminology program! Our online graduate degree programs were ranked #2 in the United States in 2020 by U.S. News and World Report. Graduate programs in our department educate students with a variety of interests. Degrees target student interests that range from advancing criminal justice knowledge and practice through research to career development within the criminal justice system. Our department offers specialized graduate degree programs for criminal justice professionals to grow their leadership and management skills and broaden their knowledge base.

Faculty members in the Department of Criminal Justice and Criminology are among the most productive and skilled educators in the country. From faculty who are nationally ranked researchers to those who have extensive backgrounds as criminal justice professionals, faculty members are dedicated to guiding students through foundational courses to develop their skills in reasoning and analysis. Students have the opportunity to learn from the best in foundational areas of criminal justice, such as policing, corrections, and the law, to emerging areas of knowledge in biosocial criminology. Students interested in conducting original research can continue their education through the Ph.D. in Criminal Justice.

As a graduate student in the Department of Criminal Justice and Criminology at SHSU, the opportunities are endless:

- Learn from faculty who conduct research in all aspects of the criminal justice system
- Study in top ranked Doctoral, M.A. and online M.S. programs
- Observe valuable interaction and professional development that occurs in the College of Criminal Justice Institutes with executives in policing and corrections from across Texas and around the country
- Participate in applied, action research that has "real world" implications
- Become a member of one of our Undergraduate Student Organizations or our Graduate Student Organization
- Experience affordable living
- Competitive Scholarships and Graduate Assistantships are available

Mission

The Department of Criminal Justice and Criminology is committed to providing students with a quality liberal arts education. Students will gain an appreciation for their role as criminal justice professionals and as contributing members of society. The Department is committed to producing high quality research and to providing public service and technical assistance to communities and criminal justice agencies.

Highlights

SHSU's College of Criminal Justice has been consistently ranked among the top criminal justice programs in the nation in both value and quality by U.S. News & World Report, the Journal of Criminal Justice, BestColleges.com, and many other publications.

- Doctor of Philosophy in Criminal Justice
- Master of Arts in Criminal Justice and Criminology
- Master of Science in Criminal Justice
- Master of Science in Criminal Justice Leadership and Management
- Graduate Certificate in Criminal Justice Leadership and Management

Student Organization and Activities

Graduate Student Organization (GSO)

The mission of GSO is to bring together graduate students at the College of Criminal Justice; to facilitate and encourage research and theory development related to criminal justice; to encourage appropriate and effective teaching techniques and practices for criminal justice courses; and to serve as a resource network for and to encourage interaction among the various entities within the College of Criminal Justice. See the College of Criminal Justice GSO (<https://www.shsu.edu/academics/criminal-justice-old/departments/criminal-justice-and-criminology/gso/>) website for additional information.

Scholarships

Scholarships, assistantships, and financial assistance are available. Student assistantships and scholarships are awarded on a competitive basis based upon academic performance, GRE scores, letters of recommendation, among other factors.

Financial awards are available, including out-of-state tuition waivers. University policy requires all students to pay in-state tuition.

Information on specific scholarships available in the College of Criminal Justice are available through Cutty Gilbert (cutty@shsu.edu) at (936) 294-3755. Potential graduate students should contact Doris Pratt (pratt@shsu.edu) at (936) 294-3637. See also the College of Criminal Justice section for information on College and University level scholarships.

Director/Chair: **Jason R Ingram**

Heather Ann Alaniz, MA (haa034@shsu.edu), *Lecturer of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, MA, Univ of Houston-Clear Lake

Andia B Azimi, PHD (axa205@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Georgia State University; MS, Georgia State University; BS, Georgia State University

Timothy Barnum, PHD (txb073@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Nebraska-Omaha; MA, Saint Ambrose; BA, Valparaiso University

Danielle Lynne Boisvert, PHD (dxb014@shsu.edu), *Professor of Criminal Justice and Criminology; Associate Dean, COCJ, Department of Criminal Justice & Criminology*, PHD, Univ of Cincinnati; MFS, George Washington University; BS, University of Western Ontario

Eric J Connolly, PHD (ejc025@shsu.edu), *Associate Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Florida State University; MS, Univ of North Alabama; BA, West Virginia University

Jay O Coons, PHD (stdjoc12@shsu.edu), *Assistant Professor of Practice of Criminal Justice, Department of Criminal Justice & Criminology*, PHD, Sam Houston State University; MS, Sam Houston State University; BS, Sam Houston State University

Miltonette Olivia Craig, PHD (moc006@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Florida State University; JD, Georgia State University; MS, Florida Int'l Univ; BA, Spelman College; BA, Spelman College

Jane C Daquin, PHD (jxd161@shsu.edu), *Associate Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Georgia State University; MS, Georgia State University; BA, University of Albany, Suny; BA, University of Albany, Suny

Jessica Caitlin Fleming, MA (jcc063@shsu.edu), *Assistant Professor of Victim Studies, Department of Criminal Justice & Criminology*, MA, Sam Houston State University; BS, Sam Houston State University

Shaun Lester Gabbidon, PHD (slg122@shsu.edu), *Visiting Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Indiana University of Pennsylv; MS, Univ of Baltimore; BS, Christopher Newport University

Randall L Garner, PHD (rgarner@shsu.edu), *Professor of Criminal Justice and Criminology and Associate Dean, COCJ, Department of Criminal Justice & Criminology*, PHD, Univ of Houston-Main; MA, Univ of Houston-Clear Lake; BS, Univ of Houston-Clear Lake

Jurg Gerber, PHD (icc_jxg@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Washington State University; MA, Washington State University; BA, Eastern Washington University*

Elizabeth Noel Hartsell, PHD (enh033@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Univ of Florida; MA, Univ of Florida; BA, North Carolina State Univ*

Shaina Marie Herman, PHD (sxh169@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, University of Albany, Suny; MA, University of Albany, Suny; BA, Indiana Univ of Pa*

Laura Theresa Iesue, PHD (liti002@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Univ of Miami; BS, Ohio State University*

Jason R Ingram, PHD (jri004@shsu.edu), *Professor and Chair of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Michigan State University; MA, Southern Illinois U-Carbondale; BA, Southern Illinois U-Carbondale*

Bit Na Kim, PHD (bitna.kim@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Sam Houston State University; BA, Chungbuk National University*

Alexander Boone Kinney, PHD (akinney@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Univ of Arizona; MA, Univ of Arizona; BA, Penn State University*

Stuti Subbaiah Kokkalera, PHD (sxk078@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Northeastern University; LLM, Georgetown University; LLB, Gujarat University*

Wanda Edelis Leal, PHD (wel004@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Florida State University; MS, Florida State University; BS, Florida State University*

Heejin Lee, PHD (heejin.lee@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Univ of Cincinnati; MS, Univ of Cincinnati; LLB, Korean National Police Univ*

Peter Scott Lehmann, PHD (psl003@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Florida State University; MS, Florida State University; BA, Furman University*

Phillip Mitchell Lyons, PHD (icc_pml@shsu.edu), *Professor of Security Studies; Dean, College of Criminal Justice, Department of Criminal Justice & Criminology, PHD, Univ of Nebraska-Lincoln; JD, Univ of Nebraska-Lincoln; MA, Univ of Nebraska-Lincoln; BS, Univ of Houston-Clear Lake*

Stephen Lee Morrison, PHD (sxm130@shsu.edu), *Lecturer of Criminal Justice, Department of Criminal Justice & Criminology, PHD, Univ of Southern Mississippi; MA, Univ of Houston-Clear Lake; BS, Univ of Houston-Clear Lake*

Chelsey Samara Narvey, PHD (cxn042@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Univ of Texas At Dallas; BA, Concordia University*

John Charles Navarro, PHD (jxn044@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Univ of Louisville; MS, Illinois State University; BS, Illinois State University*

Brooke Elizatbeth Nodeland, PHD (ben012@shsu.edu), *Associate Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Univ of Texas At Dallas; MS, Univ of North Texas; BS, Univ of North Texas*

Willard M Oliver, PHD (icc_wmo@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, West Virginia University; MA, West Virginia University; MS, Radford University; BS, Radford University*

Erin Anderson Orrick, PHD (eorrick@shsu.edu), *Associate Professor and Associate Dean of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Univ of Texas At Dallas; MA, Univ of Maryland-College Park; BSCJ, Texas Christian University*

Javier Ramos, PHD (jxr248@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Florida State University; MS, Florida State University; BA, Univ of Texas At Austin*

Ryan Wayne Randa, PHD (rxr042@shsu.edu), *Associate Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Univ of Cincinnati; MS, Univ of Cincinnati; BS, Univ of Wisconsin-Superior*

Mitchel P Roth, PHD (icc_mpr@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Univ of Calif-Santa Barbara; MA, Univ of Calif-Santa Barbara; BA, Univ of Maryland-College Park*

Danielle Sheldon Rudes, PHD (drudes@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Calif-Irvine; MA, Univ of Calif-Irvine; MA, Univ of New Orleans; BA, Suny At Plattsburgh

Mark Christopher Saber, PHD (marksaber@shsu.edu), *Lecturer of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Texas At Dallas; MS, Univ of Texas At Dallas; MA, Univ of Texas-Arlington; BA, Univ of Texas-Arlington

Michael Scott Vaughn, PHD (msv002@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Sam Houston State University; MS, University of Central Missouri; BS, University of Central Missouri

William M Wells, PHD (wmw005@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Nebraska-Omaha; MA, Indiana University-Bloomington; BA, Ohio University

Yan Zhang, PHD (icc_yxz@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Michigan State University; MS, Michigan State University; MS, Michigan State University; BS, Wuhan University

Jihong Zhao, PHD (jxz006@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Washington State University; MA, Washington State University; BA, Shanghai Inst of Higher Edu

Ph.D. in Criminal Justice

The degree of Doctor of Philosophy in Criminal Justice is designed to produce students of crime and justice who possess: (1) a thorough understanding of criminal justice and criminological issues, (2) the intellectual and methodological skills necessary for the continuing process of discovery and understanding of crime- and justice-related issues, (3) the capacity for integrative and analytical thinking, (4) competency at transmitting knowledge, (5) problem-solving skills, and (6) the ability to disseminate research findings through published scholarship.

The Department of Criminal Justice and Criminology has a faculty of diverse scholars committed to the study of a broad-range of crime and justice issues. The curriculum includes courses that provide theoretical and applied knowledge of the phenomena of crime and criminal justice. In addition to the demonstration of excellence in the classroom, students are expected to engage in research in accordance with personal specialized interests beyond specified courses.

Through the combined efforts of faculty and students, the Doctor of Philosophy program in Criminal Justice produces students capable of making contributions to criminal justice and criminology through the academic and applied components of the discipline. The curriculum is designed to ensure that graduates are well equipped to participate in criminological positions emphasizing research and statistics, theory, and administration.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/doctorate/criminal-justice/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the doctoral program in criminal justice must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

- Graduate application (<http://www.shsu.edu/admissions/apply-texas.html>)
- Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
- A master's degree in Criminal Justice or an allied field.
- Official test scores from the Graduate Record Examination.
- Official undergraduate and graduate transcripts for all academic work (Note: Grades must show evidence of the ability to do doctoral level work).
- Three letters of recommendation, preferably from faculty who are sufficiently acquainted with the student to comment on potential for success in the doctoral program.
- Doctoral follow-up application (http://www.shsu.edu/academics/criminal-justice/resources/documents/grad-add_doctoral-app.pdf)
- A personal essay as described in the doctoral follow-up application.
- A current resume or vita.

International students ONLY: Test of English as a Foreign Language (TOEFL) unless they have completed a degree in the United States Note: A minimum score of 550 (paper-based), 213 (computer-based), 79 (internet-based) is required.

A review of each student's application will be completed on a competitive basis. The deadline for submitting applications to the Doctor of Philosophy program in Criminal Justice is January 15 for the fall semester.

Students should consult with the criminal justice Graduate Program Director to design a course of study that will provide in-depth knowledge in the areas of research and statistics, criminological theory, and criminal justice administration.

Students must follow the doctoral program student schedule and maintain a 3.0 grade point average in all courses.

Students must pass the doctoral qualifying examination in the form of a Research Assessment Portfolio. Students must also complete and defend a doctoral dissertation, which is the product of original scholarly research and is of such quality as to represent a meaningful contribution to knowledge in the field of criminal justice/criminology.

The Doctoral degree requires 58 hours of 7000-level coursework.

Code	Title	Hours
Ph.D. in Criminal Justice

CRIJ 7334	Seminar In American Policing	
CRIJ 7336	Seminar In American Correction	
CRIJ 7338	Seminar In American Courts	
CRIJ 7375	Seminar in Legal Aspects of Criminal Justice	
Select seven 7000-level graduate courses in CRIJ		21
Dissertation		
CRIJ 8396	Dissertation	3
CRIJ 8397	Dissertation II	3
CRIJ 8398	Dissertation III	3
CRIJ 8099	Dissertation IV ¹	3
Total Hours		57

¹ Once enrolled in CRIJ 8099, students must enroll in this course in every semester until graduation. (See note below).

Note: Effective Summer 2012, graduate students will take dissertation classes for three credit hours until they have completed the degree requirements (12 hours total). Students may then sign up for one credit hour for continuous enrollment. Students do not have to sign up for dissertation classes during the summer if they are not working on their dissertation or if they are not graduating or working on their portfolio. If students do not stay continuously enrolled, they will be retroactively enrolled in one semester hour and will be charged for the course.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Ph.D. in Criminal Justice is designed to provide graduates with the following marketable skills:

- Advanced oral and written communication skills.
- Advanced quantitative and qualitative research skills.
- Advanced statistical skills with the ability to supply and interpret results.
- Comprehensive knowledge of current criminal justice issues.
- Conduct original empirical research and present findings via publications, reports, and/or presentations.
- Prepare and/or deliver undergraduate and graduate courses for independent instruction (on-line and/or in-residence).

Master of Arts in Criminal Justice and Criminology

The Master of Arts in Criminal Justice and Criminology degree is designed to prepare graduate students to conduct research and actively participate in the development of knowledge in the areas of criminological theory and criminal justice issues. Students who are planning careers in law enforcement, corrections or rehabilitation, or who wish a deeper understanding of crime and the criminal justice system should confer with the Graduate Program Advisor to develop a combination of elective courses that will support their particular career interests. Students seeking this degree are frequently candidates to pursue the Ph.D. in Criminal Justice.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/criminal-justice-and-criminology/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Admission to the Master of Arts program is based on the Admissions Committee's assessment of the applicant's scores on the Graduate Record Examination, the undergraduate academic record, the applicant's personal statement, and letters of recommendation preferably from undergraduate professors. Please submit all documents to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>).

Admission considerations include the following:

1. Graduate application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcripts of all academic work previously undertaken, including the undergraduate degree granted from an accredited institution in criminal justice or an allied field
4. GPA of 3.0 or higher
5. Test scores from the Graduate Record Examination
6. Three letters of recommendation preferably from undergraduate professors
7. A personal essay (<http://www.shsu.edu/academics/criminal-justice/resources/documents/grad-essay-ma.pdf>) of the applicant's career goals and aspirations

8. **International students ONLY:** Test of English as a Foreign Language (TOEFL)—a minimum score of 550 (paper-based), 213 (computer-based), or 79 (internet-based) is required.

A review of each student's application will be completed on a competitive basis.

The deadline for submitting applications to the Master of Arts program is February 1 for the fall semester.

The Master of Arts degree in Criminal Justice and Criminology is a 36-hour degree which includes a thesis. Students must follow the Master of Arts schedule and maintain a 3.0 GPA in all courses.

¹ Once enrolled in CRIJ 6099, students must enroll in this course in every semester until graduation. (See note below).

Notes

Effective Summer 2012, graduate students will take thesis classes for 3 credit hours until they have completed the degree requirements (6 hours total for thesis).

Students may then sign up for 1 credit hour for continuous enrollment.

Students do not have to sign-up for thesis classes during the summer if they are not working on their thesis or if they are not graduating.

If students do not stay continuously enrolled, they will be retroactively enrolled in 1 semester hour and will be charged for the course.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Criminal Justice and Criminology is designed to provide graduates with the following marketable skills:

- Oral and written communication skills.
- Quantitative and/or qualitative research skills.
- Statistical skills with the ability to interpret results.
- Knowledge of current criminal justice issues.
- The ability to conduct original research and present findings via publications, reports, and/or presentations.

Master of Science in Criminal Justice

In 2022, U.S. News & World Report ranked our online Master's degree programs #2 in the United States for Criminal Justice. The online Master of Science program in Criminal Justice is designed primarily for persons, regardless of prior academic or work experience in criminal justice, who are seeking a terminal master's degree and do not intend to continue to the Ph.D. level. The degree program works well for nontraditional students who have full-time jobs because it is available via distance education. Courses are sequenced so that students can complete the degree in no more than two years, including summer semesters, but may be able to do so in less time. The degree program prepares students to work in various areas of the criminal justice system including, but not limited to, field positions, administration, organizational management, and social services. Students who are potentially interested in applying for the Ph.D. program should apply for the Master of Arts in Criminal Justice and Criminology.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/criminal-justice/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applications to the Master of Science in Criminal Justice program are on a rolling basis, where the summer semester deadline is May 15, fall semester deadline is August 1, and the spring semester deadline is December 15.

Please submit all documents to the Office of Graduate Admissions. (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>) Admission considerations include:

1. Graduate application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Unofficial transcripts of all academic coursework previously undertaken, including an undergraduate degree from an accredited academic institution in criminal justice or an allied field. Minimum overall undergraduate GPA of 2.5 or 2.8 in the last 60 credit hours.*
4. **International students ONLY:** Test of English as a Foreign Language (TOEFL) — a minimum score of 550 (paper-based), 213 (computer-based), or 79 (internet-based) is required.

*Applicants may submit unofficial transcripts for review by the admission committee. However, under university policy, admissions decisions are contingent upon receipt of official transcripts.

A review of each student's application file will be completed with admission offered on a competitive basis.

The MS in Criminal Justice does not require a thesis; however, the student must complete a capstone course (CRIJ 6388) in their final semester with a grade of B or better to satisfy the University's comprehensive exam requirement. Students should seek advisement from the Criminal Justice Graduate Admissions Coordinator in planning a course of study. The Master of Science degree in Criminal Justice is a 36-hour degree

¹ A grade of B or better in CRIJ 6388 is required for graduation.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MS in Criminal Justice is designed to provide graduates with the following marketable skills:

- Communication.
- Critical thinking.
- Understanding of social issues.
- Problem solving.
- Team work.

Master of Science in Criminal Justice Leadership and Management

The Master of Science in Criminal Justice Leadership and Management degree is designed for individuals in management positions in criminal justice agencies or those who have a reasonable expectation of being promoted to such a position. The degree program serves practitioners whose occupations or other commitments prevent them from returning to campus as full-time students. The program was developed to allow those with full-time employment the opportunity to earn a Master of Science degree in Criminal Justice Leadership and Management within two years. The degree is

offered in two delivery formats: a weekend cohort program and an online program. For the weekend program, participants attend approximately five on-campus classes offered on Saturday and Sunday each spring and fall semester and during the combined summer sessions. A student in full-time attendance earns six credit hours in each of the fall and spring semesters and combined summer sessions, totaling 18 credit hours per year. Typically, the online format requires students to complete two consecutive 7.5 week courses each semester, resulting in 18 credit hours per year.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/criminal-justice-leadership-and-management/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Please submit all documents to the University Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>). Admission considerations include the following:

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. An undergraduate degree from an accredited institution in an allied field.
4. Unofficial transcripts of all academic coursework previously undertaken. A cumulative undergraduate degree grade point average of 2.5 or 2.8 for the final 60 baccalaureate credits.*
5. Resume
6. A personal essay regarding career background and goals.
7. Evidence of current employment in a criminal justice related agency with a minimum of three years of criminal justice experience.
8. **International students ONLY:** Test of English as a Foreign Language (TOEFL). A minimum score of 550 (paper-based), 213 (computer-based), or 79 (internet-based) is required.

*Applicants may submit unofficial transcripts for review by the admission committee. However, under university policy, admissions decisions are contingent upon receipt of official transcripts.

A review of each student's application will be completed on a competitive basis.

The Master of Science in Criminal Justice Leadership and Management is a 36-hour degree program. No thesis is required, but the student must complete a capstone course (CRIJ 6388) with a grade of B or better to satisfy the University's comprehensive examination requirement.

Second Year

Fall	Hours	Spring	Hours	Summer	Hours
CRIJ 6335		3 CRIJ 6387		3 CRIJ 6394 (*Legacy of Leadership)	3
CRIJ 6396		3 CRIJ 6392		3 CRIJ 6388	3
		6		6	6

Total Hours: 36

*Special Topics may change as deemed necessary.

Departmental substitutions for electives may be allowed if approved by the Program Director.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MS in Criminal Justice Leadership and Management is designed to provide graduates with the following marketable skills:

- Leadership knowledge, skills, and abilities.
- Oral and written communication.
- Critical thinking.
- Self-awareness and understanding social dynamics.
- Problem-solving.

Graduate Certificate in Criminal Justice Leadership and Management

The online Criminal Justice Leadership and Management Certificate is an 18-hour program catering to working professionals currently in the field of criminal justice. The certificate provides an opportunity for students to advance professional growth and career development while maintaining their occupational responsibilities. The certificate is structured to allow students to complete the program in one year, enrolling in two 7-1/2 week courses per semester. Completion of the online Graduate Certificate also advances students halfway towards a Master of Science in Criminal Justice Leadership and Management.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/criminal-justice-leadership-and-management/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate certificate program in Criminal Justice Leadership and Management must submit the following directly to the University Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. An undergraduate degree from an accredited institution in an allied field.
4. Official transcripts of all academic work previously undertaken.
5. A cumulative undergraduate degree grade point average of 3.0 or 3.0 for the final 30 baccalaureate credits. An acceptable GRE score may be substituted/required to demonstrate graduate study readiness if the GPA falls below the above standard.
6. A completed Department of Criminal Justice and Criminology Master's Degree Applicant Questionnaire/Form.
7. Resume
8. A personal essay regarding career background and goals.

9. Evidence of current employment in a criminal justice related agency with a minimum of one year of criminal justice experience.
10. **International students ONLY:** Test of English as a Foreign Language (TOEFL). A minimum score of 550 (paper-based), 213 (computer-based), or 79 (internet-based) is required.

Total Hours		18

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Criminal Justice Leadership and Management is designed to provide graduates with the following marketable skills:

- Leadership knowledge, skills, and abilities.
- Oral and written communication.
- Critical thinking.
- Self-awareness and understanding social dynamics.
- Problem-solving.

Department of Forensic Science

Chair: Sheree Hughes (sheree.hughes@shsu.edu), Ph.D.
(936)-294-2608

Website: Department of Forensic Science (<http://forensics.shsu.edu/>)

Mission

Our mission is to continuously improve and enhance the practice of forensic science through innovative teaching, research and service.

Vision

The Department of Forensic Science at SHSU envisions a future where institutes of higher education and forensic science service providers work in partnership to improve and strengthen forensic science and the criminal justice system as a whole.

About

The College of Criminal Justice's Department of Forensic Science is rich in history yet heavily geared toward the future. The Department of Forensic Science at SHSU was the first to offer an accredited Master of Science in Forensic Science (<https://www.shsu.edu/programs/graduate/forensic-science/>) in Texas and the first multi-disciplinary PhD in Forensic Science (<https://www.shsu.edu/programs/doctorate/forensic-science/>) in the United States.

Graduates from our MS and PhD programs have placement rates consistently over 90% in forensic science laboratories and research positions across the nation. Students have access to the latest scientific equipment found in crime laboratories and engage with faculty who have real-world experience in forensics. The College of Criminal Justice also operates the Southeast Texas Applied Forensic Science Facility (<https://www.shsu.edu/centers/stafs/>) (STAFS) - one of a small number of willd body donor facilities in the nation, and the Institute for Forensic Research, Training and Innovation (<http://www.ifrti.org/>) (IFRTI), which offers professional development and unique, industry-driven research opportunities to students, practitioners, and the broader forensic community.

From the laboratory to the courtroom and everything in between, the Department of Forensic Science has the tools you need to build a career in forensic science.

Academic Programs

The Department of Forensic Science offers a minor, a master's degree, and a doctoral degree. For a listing of the programs offered within the Department of Forensic Science, please, reference the Programs tab in the respective catalog.

Highlights

The **MS in Forensic Science** is accredited by the Forensic Science Education Programs Accreditation Commission (FEPAC (<http://fepac-edu.org/>)). The program itself was established in 2001 and was the very first accredited program in Texas. The program gives students the flexibility to tailor a degree toward their individual interests and professional goals while working in a state-of-the art scientific facility. We have been preparing students for careers in forensic science for over a decade, with proven success. **Postgraduate success** (<https://www.shsu.edu/academics/forensic-science/documents/success.pdf>) (indicated by successful employment or postgraduate placement in forensic science) averaged more than 95% over the past ten years.

Sam Houston State University offers a **PhD in Forensic Science** for those seeking leadership positions or intending to pursue careers in research or education. The doctoral program at SHSU is an interdisciplinary science degree that can be completed in approximately five years of full-time study.

Faculty in the Department of Forensic Science are **engaged scholars** and **forensic practitioners**. Their real-world experience and participation in forensic reform efforts at the state and national level promote a forward-looking profession and the next generation of forensic scientists.

Career Opportunities

The forensic science programs are designed to prepare graduates for successful careers in forensic science and related professions. Students not only develop scientific understanding essential to forensic science, but also acquire the practical skills, knowledge and problem-solving abilities that will help them advance into leadership positions. The graduate programs in forensic science offer extensive hands-on and laboratory instruction. Students acquire the practical skills that are sought after by potential employers and are exposed to consensus-based scientific standards in forensic science.

- Doctor of Philosophy in Forensic Science
- Master of Science in Forensic Science

Student Organizations and Activities

- Society of Forensic Science
- Graduate Student Organization (Criminal Justice)

Internships

The Department of forensic science partners with numerous accredited crime laboratories and medical examiner's offices for forensic science internships throughout the United States. All students enrolled in one of the graduate programs must successfully complete a forensic science internship. The department does not facilitate internships for students from other colleges or universities.

Scholarships

Scholarship opportunities, assistantships, and financial assistance are available. Student assistantships and scholarships are awarded on a competitive basis based upon academic performance, GRE scores, letters of recommendation and previous laboratory experience.

Financial awards are available, including out-of-state tuition waivers. University policy requires all students to pay in-state tuition.

Information on graduate assistantships is available by contacting Kelsie Bryand (kelsie@shsu.edu) in the Department of Forensic Science at (936) 294-4370.

Information on specific scholarships available in the College of Criminal Justice are available through Scholarships4Kats. (<https://www.shsu.edu/dept/financial-aid/aid/scholarships/>)

Director/Chair: **Sheree Robyn Hughes**

Patrick Buzzini, PHD (patrick.buzzini@shsu.edu), *Professor of Forensic Science, Department of Forensic Science*, PHD, University of Lausanne; MS, University of Lausanne

Jay Tyler Davidson, PHD (jxd115@shsu.edu), *Assistant Professor of Forensic Science, Department of Forensic Science*, PHD, West Virginia University; MS, West Virginia University; BS, Shippensburg University

Eduardo Geraldo de Campos, PHD (exg248@shsu.edu), *Assistant Professor of Forensic Science, Department of Forensic Science*, PHD, University of Sao Paulo; MS, University of Sao Paulo; BS, University of Sao Paulo

Rachel Michelle Houston, PHD (rmh034@shsu.edu), *Assistant Professor of Forensic Science, Department of Forensic Science*, PHD, Sam Houston State University; BS, Univ of Texas At Dallas

Sheree Robyn Hughes, PHD (sxh039@shsu.edu), *Associate Professor and Chair of Forensic Science, Department of Forensic Science*, PHD, Bond University; BS, University of Queensland (The)

Timothy S. Kalafut, PHD (tim.kalafut@shsu.edu), *Associate Professor of Forensic Science, Department of Forensic Science*, PHD, Texas A&M University; BA, Whitworth College

Sarah Kerrigan, PHD (sxk003@shsu.edu), *Professor of Forensic Science, Department of Forensic Science*, PHD, University of British Columbia; BSC, University of Hull

Mayra Alexandra Mayr-Eduardoff, PHD (mayra.eduardoff@shsu.edu), *Assistant Professor of Forensic Science, Department of Forensic Science*, PHD, Medical University of Innsbruck; MSC, University of Innsbruck; BA, University of Sussex (UK)

Geraldine Isabelle Christ Monjardez, PHD (g.monjardez@shsu.edu), *Assistant Professor of Forensic Science, Department of Forensic Science*, PHD, University of Manchester; MS, Cranfield University; BS, University of Cent Lancashire

Britni Nicole Skillman, PHD (bns017@shsu.edu), *Assistant Professor of Forensic Science, Department of Forensic Science*, PHD, Sam Houston State University; BS, Sam Houston State University

Chi Chung Yu, PHD (jornyu@shsu.edu), *Professor of Forensic Science, Department of Forensic Science*, PHD, Carleton University; MS, Central Police University; BS, Central Police University

PhD in Forensic Science

Mission

The mission of the PhD in Forensic Science is to provide students with the critical thinking ability; problem-solving skills; and advanced, discipline-specific knowledge to allow them to advance into leadership positions.

This is accomplished by demonstrating the ability to perform independent, original research; the successful completion of multidisciplinary academic coursework; hands-on experience in the laboratory; and collaboration with accredited forensic laboratories, institutes, and partners.

Educational Objectives

1. Provide students the knowledge, skills, and abilities to prepare them for successful careers in forensic science.
2. Develop students' critical thinking ability, problem-solving skills, and advanced discipline-specific knowledge.
3. Produce high quality graduates capable of advancement into leadership positions.
4. Engage in collaborative research that demonstrates industrial relevance and wider scientific awareness.

The PhD in Forensic Science requires the completion of 86 credit hours beyond the bachelor's degree. Students complete:

Code	Title	Hours
Requirements		
	Core Coursework	43
	Dissertation Research	15
	Electives ¹	28
Total Hours		86

¹ Dissertation research hours may be substituted for electives (15 SCH maximum) with approval of the Department Chair.

The curriculum is designed to deliver an essential core curriculum in forensic science, together with specialized electives and intensive research in the area of interest. Students are expected to fulfill the requirements during approximately five years of full-time study.

Students with an MS in Forensic Science from a FEPAC-accredited institution may be eligible to transfer credit towards the eighty-six credit hour requirement.

Program Breakdown

Degree Type	Doctor of Philosophy (Ph.D.)
Length	86 credit hours
Enrollment	Fall
Tuition/Costs	Rates per Semester

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/doctorate/forensic-science/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Review of applications and offers of admission will begin Jan. 15 and proceed until enrollment openings are filled. A holistic review of each student's application will be completed on a competitive basis. All applicants are automatically considered for graduate assistantships in the Department of Forensic Science.

Please submit all documents to the Office of Graduate Admissions. Admission considerations include:

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. A bachelor's degree from an accredited institution in chemistry, biology, forensic or natural science
4. Completion of eight credit hours (two semesters or equivalent) of organic chemistry with laboratories
5. Official transcripts from all colleges/universities attended
6. GPA of 3.5 or higher (strongly preferred)
7. Official GRE (<https://www.ets.org/gre/>) scores
8. Three letters of recommendation with Admission Recommendation Checklists. At least two must be from academic sources
9. A personal statement of 500 - 750 words
10. A current resume or vita

11. TOEFL/IELTS scores and third-party transcript evaluation for international students (if applicable)

12. A personal interview may be requested

The Program Application, Application Checklist, and instructions are available at Application Resources (<https://acrobat.adobe.com/link/file/?guid=414f4513-f3f3-486a-a676-683acb66d6bb&location=Home%3AinstalledAppSection&product=Creative+Cloud+Desktop&promoid=952G4NKB&mv=product&mv2=accc&size=274604&uri=urn%3Aaid%3Asc%3AUS%3Abc09a7b8-61ed-4422-bdd8-c0ed681d8045&filetype=application%2Fpdf>).

Note: To be eligible for employment at forensic laboratories, students may need to complete additional foundational courses beyond the standard PhD degree requirements. For instance, prospective employees in Forensic Biology (https://www.swgdam.org/_files/ugd/4344b0_d73afdd0007c4ed6a0e7e2ffbd6c4eb8.pdf) must have completed a minimum of nine credit hours in upper-level biology courses, including biochemistry, genetics, and molecular biology. Additionally, prospective employees in Forensic Toxicology (<https://www.txcourts.gov/media/1450308/license-requirements-doc-revised-010820.pdf>) must have completed at least two courses, each carrying a minimum of three credit hours, in quantitative analysis and biochemistry, or similarly named courses.

The program requires the completion of a minimum of eighty-six hours of graduate credit, as prescribed in the curriculum.

Students must register full-time and maintain a 3.0 grade point average in all courses. In order to advance to candidacy students must have successfully completed (or be currently enrolled in) forty-four graduate credit hours of coursework and research. Students must submit a portfolio for review, write a formal research proposal, orally defend the proposal, and pass the qualifying examination (typically by the close of the second spring semester). Once the committee determines that the portfolio, proposal, oral defense, and examination performance are satisfactory, the student may enroll in dissertation research.

A minimum of fifteen hours of dissertation credits are required and students must maintain continuous enrollment until they graduate. Students must complete and defend a doctoral dissertation, which is the product of original scholarly research and is of sufficient publishable quality to represent a meaningful contribution to knowledge in the field of forensic science.

During the first year of study, students are exposed to the major forensic disciplines in addition to the forensic internship. After successfully completing core coursework during the first year, students identify their discipline of study and commence research under the direction of their faculty advisor.

Students with an MS in Forensic Science from a FEPAC-accredited institution may be eligible to transfer credit towards the eighty-six credit hour requirement.

FORS 8099	Dissertation ³	15
Total Hours		86

¹ FORS 6014 must be taken for a total of six credit hours.

² Once the minimum number of dissertation research hours have been met, dissertation hours may be substituted for electives (15 SCH maximum) with approval of the department chair.

³ Once enrolled in FORS 8099, students must enroll in this course every semester until graduation.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The PhD in Forensic Science is designed to provide graduates with the following marketable skills:

- Advanced discipline-specific knowledge.
- Hands-on laboratory skills.
- Familiarity with legal, ethical, and quality assurance issues.
- Critical thinking skills.
- Impartiality and scientific objectivity.
- Application of statistical concepts to forensic science.
- Familiarity with consensus-based scientific standards in forensic science.
- Advanced instrumental understanding and technical troubleshooting skills.
- Ability to conduct original research.

Master of Science in Forensic Science

Mission

Our mission is to provide Master of Science in Forensic Science students the knowledge, skills, and abilities to prepare them for successful careers in forensic science. This mission is accomplished through academic coursework, hands-on experience in the laboratory, research, and the completion of an internship in a forensic science laboratory.

Our overall program goals are:

- To provide full support combined with continual improvement in the quality of education, scholarship, and service in compliance with the mission of the university;
- To develop an understanding of the areas of knowledge that are essential to forensic science; and
- To provide students with the practical skills, knowledge, and problem-solving abilities that will promote their advancement within the field of forensic science

We try to meet these goals by having specific, well defined and measurable objectives wherever possible:

- Students will command detailed competence of core course material in forensic science.
- Students will acquire practical skills in forensic science and apply this knowledge.
- Students will be oriented in professional values, concepts, ethics and problem solving.
- Students will demonstrate integration of knowledge and skills necessary for future success in the field of forensic science.

The Master of Science in Forensic Science program requires the completion of 44 graduate semester hours of core and forensic science coursework that can be completed in two years of full-time study. The program is designed to provide students with the necessary knowledge, skills, and abilities essential to forensic science. This unique and interdisciplinary program was the first of its kind in Texas. Graduate level topics include:

- Forensic biology
- Forensic chemistry
- Forensic toxicology
- Controlled substances
- Trace evidence and microscopy
- Instrumental analysis
- Crime scene investigation
- Pattern evidence
- Law and forensic science
- Ethics
- Quality assurance
- Statistics

These core topics are complemented with advanced coursework and laboratory instruction. The program maintains strong ties with accredited forensic laboratories in both the private and public sectors.

Students are required to:

- Complete an internship in a forensic laboratory;
- Complete an independent research project; and
- Demonstrate good oral and written skills that will prepare them for future success in both the laboratory and in the courtroom.

Those seeking careers in this field should be aware that background investigations similar to those required for law enforcement officers are likely to be a condition of employment. **Drug testing, history of drug use, criminal background checks, and other factors including use of social media may be considered for employment or internship placements.**

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/forensic-science/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Review of applications and offers of admission will begin Jan. 15 and proceed until enrollment openings are filled. A holistic review of each student's application will be completed on a competitive basis. All applicants are automatically considered for graduate assistantships in the Department of Forensic Science.

Please submit all documents to the Office of Graduate Admissions. Admission considerations include:

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. A bachelor's degree from an accredited institution in chemistry, biology, forensic or natural science
4. Completion of eight credit hours (two semesters or equivalent) of organic chemistry with laboratories
5. Official transcripts from all colleges/universities attended
6. GPA of 3.0 or higher (strongly preferred)
7. Official GRE (<https://www.ets.org/gre/>)scores (strongly preferred)
8. Three letters of recommendation with Admission Recommendation Checklists. At least two must be from academic sources
9. A personal statement of 500 - 750 words
10. A current resume or vita
11. TOEFL/IELTS scores and third-party transcript evaluation for international students (if applicable)
12. A personal interview may be requested

The Program Application, Application Checklist, and instructions are available at Application Resources (<https://acrobat.adobe.com/link/file/?guid=414f4513-f3f3-486a-a676-683acb66d6bb&location=Home%3AinstalledAppSection&product=Creative+Cloud+Desktop&promoid=952G4NKB&mv=product&mv2=accc&uri=urn%3Aaid%3Asc%3AUS%3A8758ac57-f1ce-4e5a-b315-83f51a838246&filetype=application%2Fpdf&size=269089>).

Note: To be eligible for employment at forensic laboratories, students may need to complete additional foundational courses beyond the standard MSFS degree requirements. For instance, prospective employees in Forensic Biology (https://www.swgdam.org/_files/ugd/4344b0_d73afdd0007c4ed6a0e7e2ffbd6c4eb8.pdf) must have completed a minimum of nine credit hours in upper-level biology courses, including biochemistry, genetics, and molecular biology. Additionally, prospective employees in Forensic Toxicology (<https://www.txcourts.gov/media/1450308/license-requirements-doc-revised-010820.pdf>) must have completed at least two courses, each carrying a minimum of three credit hours, in quantitative analysis and biochemistry, or similarly named courses. Students who have not taken these courses may be required to take these stem courses during their first year.

The Master of Science in Forensic Science does not require a thesis. However, students complete an intensive research experience FORS 6014 during both long semesters of the second year. Students must orally defend their research in a public forum and achieve a grade of B or higher in this capstone course to satisfy the University's comprehensive exam requirement.

During the first year of study students are exposed to the major forensic disciplines in addition to the forensic internship. However, students are expected to develop a highly specialized degree plan, tailored towards their specific career goals. This is accomplished through specialized electives, advanced coursework, and forensic research.

Department of Security Studies

Chair: Nadav Morag, Ph.D. (morag@shsu.edu)

Website: Department of Security Studies (<http://www.shsu.edu/academics/criminal-justice-old/departments/security-studies/>)

Contact Information:

Vivian Carlson (vxc003@shsu.edu)
(936) 294-1646

About

The Master of Science in Homeland Security Studies is designed to help students meet the needs of the homeland security enterprise at all levels of government as well as the private sector. It provides a comprehensive understanding of the homeland security enterprise to students desiring to advance their knowledge, skills, and qualifications within this field.

The broad educational objective is to develop thinkers, analysts, and leaders who possess expertise in both the conceptual and practical dimensions of homeland security policy and strategy. Graduates will gain knowledge of the field as well as develop their analytical, strategic, communication, and policy-framing skills.

All courses will be offered online and face-to-face courses will be offered if classes meet the minimum enrollment numbers

Highlights

Academically located within the College of Criminal Justice, the Department of Security Studies builds on one of the leading Criminal Justice and Criminology programs in the nation and the decades-long relationships of the College with public safety practitioners in the field. Moreover, the department is geographically situated within Texas, home to:

- Two of the nation's top 10 airports,
- Two of the top 5 largest metropolitan areas in the nation,
- 16 seaports,
- 29 oil refineries,
- The largest medical center in the world (in Houston), and
- The longest border with a foreign country of any of the 48 contiguous states.

Career Opportunities

The security studies program is designed to prepare students for leadership positions within the homeland security enterprise, including areas such as: law enforcement, emergency services, emergency management, public health, security (border, maritime, transportation), critical infrastructure protection (water sector, power sector, etc.), and other fields at the federal, state, and local levels of government as well as the private sector.

- Master of Science in Homeland Security Studies
- Graduate Certificate in Critical Infrastructure Protection
- Graduate Certificate in Emergency Management

Student Organizations and Activities

- Graduate Student Organization
- Order of the Sword & Shield National Honor Society

The College of Criminal Justice hosts a variety of events for students, including special guest lecturers at Real Talk with CJ, a career fair, an undergraduate conference, and mock courtroom trials.

Internships

The Department's geographic and academic context have given rise to a very robust internship program which provides students with hands-on experience in the field to supplement their classroom experiences.

Graduates of the program have been employed by:

- The Department of Homeland Security (Border Patrol)
- The Central Intelligence Agency (Intelligence Analyst)
- The Federal Bureau of Investigation (Intelligence Analyst)
- Local police departments (Crime Analysts)

- South Texas Nuclear Power Plant (Plant Security)
- Photofax (Surveillance Firm)
- Mustang Engineering (International Oilfield Service Company)
- G4S Security (Private Security)

Scholarships

Scholarship opportunities, assistantships, and financial assistance are available. Student assistantships and scholarships are awarded on a competitive basis based upon academic performance, GRE scores, letters of recommendation and previous laboratory experience.

Financial awards are available, including out-of-state tuition waivers. University policy requires all students to pay in-state tuition.

Information on specific scholarships available in the College of Criminal Justice are available through Cutty Gilbert (cutty@shsu.edu) at (936) 294-3755.

Please see the College of Criminal Justice section for information on college and university level scholarships.

Master of Science in Homeland Security Studies

The Master of Science in Homeland Security Studies is designed to help students meet the needs of the homeland security enterprise at all levels of government as well as the private sector. It provides a comprehensive understanding of the homeland security enterprise to students desiring to advance their knowledge, skills, and qualifications within this field.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/homeland-security-studies/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Master of Science in Homeland Security Studies program must submit the following directly to the Office of Graduate Admissions:

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. GPA of 3.0 or higher.
4. Official GRE scores may be requested to demonstrate graduate study readiness if the GPA is low. An undergraduate degree from an accredited academic institution in an allied field.
5. Unofficial transcripts of all academic coursework previously undertaken.
6. **International students ONLY:** Test of English as a Foreign Language (TOEFL) — a minimum score of 550 (paper-based), 213 (computer-based), or 79 (internet-based) is required.

A holistic review of each student's application will be completed on a competitive basis.

Courses are offered both online and face-to-face. All face-to-face classes are offered at The Woodlands Center with many classes available in the evenings. Enrollment is available in the Fall and Spring terms.

There are three tracks available for the graduate degree program:

- 1) **Thesis:** This track requires completion of a thesis practicum course in the fall of the second year and the writing of a Master's thesis during the spring of the second year.
- 2) **Internship:** The internship option will be available to some of the students based in the greater Houston and Huntsville areas. Internships are highly competitive and will only be offered to students recommended by the faculty and found to be a good fit for the agencies/companies offering internships. Internships are not available for students already working in the field and are not guaranteed. Students engaged in an internship will still be required to complete a capstone course during their final semester as well as SCST 5346, Information and Intel Mgmt (both the capstone and SCST 5346 can be taken online).
- 3) **Capstone and Elective Course Option:** Online students complete a three-credit capstone project along with an elective course.

First Year

Fall	Hours	Spring	Hours

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MS in Homeland Security Studies is designed to provide graduates with the following marketable skills:

- Think critically, conduct analysis, derive conclusions based on evidence, and communicate effectively.
- Understand strategic policy-making to address homeland security challenges.
- Weigh policy options, analyze data, and develop policy solutions to homeland security problems.
- Understand the interagency environment, the legal frameworks, and the international context in which the homeland security enterprise operates.

Graduate Certificate in Critical Infrastructure Protection

The online Graduate Certificate in Critical Infrastructure Protection is an 18-hour program catering to working professionals currently in law enforcement, public safety, private security, and other fields related to emergency management and homeland security. The certificate provides an opportunity for students to advance professional growth and career development while maintaining their occupational responsibilities. The certificate is structured to allow students to complete the program in one calendar year, enrolling in two courses per semester.

Students can choose from face-to-face and online options. All courses will be offered online as well as face-to-face if minimum enrollment requirements are met.

Completion of the Graduate Certificate involves approximately half the coursework necessary for a Master of Science in Homeland Security Studies. Students completing the certificate have the option of continuing their studies to obtain the Master's degree.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/critical-infrastructure-protection/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate certificate program in Criminal Justice Leadership and Management must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. GPA of 3.0 or higher
4. All official transcripts from colleges or universities attended
5. An acceptable undergraduate GPA (Note: A prima facie acceptable GPA is a 3.0 for the final 60 baccalaureate credits)

6. Current Resume
7. Evidence of three years of employment as a professional in a field involving emergency management (e.g., law enforcement, public safety, private security) criminal justice professional
8. Applicant Questionnaire
9. Essay Defining Homeland Security

Website:

Department of Victim Studies (<https://www.shsu.edu/academics/victim-studies/>)

About

Be a part of the new, path-breaking Department of Victim Studies, the only one of its kind in the nation! The Department is home to the Master of Science in Victim Services Management (MSVSM) program, one of the most innovative criminal justice programs available within the United States.

The Master of Science in Victim Services Management program remains a leader in providing high quality education to students in the field of victim services and has broad application to policy analysts, program administrators, and direct service providers. Through a rigorous, online curriculum, developed and delivered by experienced faculty, the program is committed to promoting professionalism in victim services nationwide. Students earning this advanced degree will be educated on evidence-based best practices to provide more optimal programming for victims of crime.

Faculty include renowned victimology scholars and esteemed victim service professionals with a combination of extensive education and field experience. Online graduate programs in the College of Criminal Justice have been consistently ranked among the top criminal justice programs in the United States. The MSVSM program is acknowledged in this distinguished ranking.

Mission

The MSVSM program is committed to providing high-quality instruction to students in the field of victim services. Its goal is to produce a population of leaders prepared to administer quality programs based on a solid understanding of industry trends and evidence-based practices.

As a graduate student in the Victim Studies Department at SHSU, you will:

- Learn from renowned victimology scholars and faculty with extensive field experience
- Enroll in courses that are National Advocate Credentialing Program-approved
- Have exposure to service learning opportunities
- Have access to academic advising services and a job and information portal

Contact Information:

General Information on the Department of Victim Studies: Melissa Hicks, mae026@shsu.edu or 936-294-4735

Coordinator for the Master of Science in Victim Services Management Program: Philip Mulvey, 936-294-4174

- Master of Science in Victim Service Management

Scholarships

Scholarships and financial assistance are available. Scholarships are awarded on a competitive basis based upon academic performance and letters of recommendation, among other factors.

Financial awards are available, including out-of-state tuition waivers. University policy requires all students to pay in-state tuition.

Information on specific scholarships available in the College of Criminal Justice are available through Cutty Gilbert (cutty@shsu.edu) at (936) 294-3755. Potential graduate students should contact Doris Pratt (pratt@shsu.edu) at (936) 294-3637. Students may also apply for scholarships through the Graduate School. Certain conditions apply. For specific information regarding the Graduate School General Scholarship, contact Graduate Studies at: 936.294.2408 or gradstudies@shsu.edu.

Kathleen Rene Ratajczak, PHD (kxr084@shsu.edu), *Assistant Professor of Victim Studies, Department of Victim Studies*, PHD, Univ of Kentucky; MA, Univ of Cincinnati; BA, John Carroll University

Master of Science in Victim Services Management

The Master of Science in Victim Services Management is designed to prepare graduates to work in various areas of victim services¹, including but not limited to, direct service provision, organizational management, and social policy development. This degree will benefit persons with or without previous employment experience. However, the ideal candidate will have had professional experience in the field of victim services. Courses are sequenced so that students can complete the degree in two years.

¹ Select courses meet National Advocate Credentialing Program (NACP) standards.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/victim-services-management/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applications to the Master of Science in Victim Services Management Degree Program are reviewed on a rolling basis, with a Fall semester priority deadline of August 1st. The Spring semester priority deadline is December 15th. The application deadline for Summer is May 15th. A review of each student's application file will be completed with admission offered on a competitive basis. Please submit all documents to the University Office of Graduate Admissions. Admission considerations include:

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. An undergraduate degree from an accredited institution in an allied field.
4. Unofficial transcripts of all academic work previously undertaken.*
5. A cumulative undergraduate degree grade point average of 2.5 or 2.8 for the final 60 baccalaureate credits.
6. **International students ONLY:** Test of English as a Foreign Language (TOEFL). A minimum score of 550 (paper-based), 213 (computer-based), or 79 (internet-based) is required.

*Applicants may submit unofficial transcripts for review by the admission committee. However, under university policy, admissions decisions are contingent upon receipt of official transcripts.

A holistic review of each student's application file will be completed with admission offered on a competitive basis.

Department of Counselor Education

About

Chair: Dr. Kimberly McAlister (kwm019@shsu.edu)

Contact Information: (936) 294-3410

Website: Department of Counselor Education (<http://www.shsu.edu/academics/counselor-education/>)

Mission

The mission of the SHSU Department of Counselor Education is to facilitate the development of professional counseling generalists who play an active role in enhancing individual, family, and community wellness in a diverse and changing world. Within the context of this mission, the goals of the Department of Counselor Education are to:

- Provide assistance to qualified students in learning the knowledge and skills necessary to perform as competent and ethical professionals in the counseling field. This includes encouraging students to develop themselves as well-rounded individuals combining their academic experience, professional interests and individual worldview.
 - Provide academic coursework and clinical experiences that support and enhance the professional development of the student following CACREP standards.
 - Facilitate the Supervised Counseling Practicum in the Jack Staggs Counseling Clinic and Jack Staggs Counseling Clinic at The Woodlands Center primarily for clinical training where advanced graduate students have opportunities for direct client contact and individual and group supervision from counselor education faculty. Because of the availability of practicum interns, the Supervised Counseling Practicum also provides counseling for the general public in the greater Huntsville region.
 - Promote an understanding and acceptance of the cultural diversity of our society.
 - Model the standards of integrity, performance, and concern for clients' welfare.
-
- Ph.D. in Counselor Education
 - Master of Arts in Counseling
 - Master of Education in School Counseling
 - Graduate Certificate in Marriage, Couples, and Family Counseling
 - Graduate Certificate in Play Therapy

Ph.D. in Counselor Education

The Counselor Education doctoral program provides the highest professional degree available to students who aspire to work in leadership positions in counselor education and supervision or school counseling. Many of our graduates have gone on to do entrepreneurial work with a model they created from their dissertation work. The Ph.D. in Counselor Education includes a prescribed curriculum consisting of required and elective courses for 60 hours of post-master's graduate credit. Qualified applicants must be a graduate of a CACREP accredited master's degree or 60-hour equivalent master's degree. Additionally, the doctoral degree is awarded on the basis of successful completion of coursework, the passing of comprehensive exams, and the completion of a major research study resulting in the presentation and defense of a dissertation.

Students who complete the doctoral degree in counselor education will:

- apply counseling theory and research to the counselor education and/or school counseling leadership functions.
- plan and deliver research-based counselor education didactic courses.
- apply counselor supervision theory and research to individual and group supervision in counselor education and/or school counseling programs.
- use advanced level communication and interpersonal skills in consultation, counseling, counselor education, supervision, and evaluation.
- interpret the relationships among federal, state, and local agencies and the laws and ethical considerations applicable to the counselor education and/or school counseling program management fields.
- apply advanced level diagnostic and assessment methodology and develop the capacity to teach appropriate treatment plans for a wide range of psychological concerns to master's level students.
- demonstrate multicultural awareness and competence during doctoral level counseling, supervision, and consultation.
- incorporate adult education pedagogy and research as a basic tool in administering counselor education and staff development programs.
- design doctoral-level counseling research and interpret results.
- apply data to advanced level counseling capabilities and/or school counseling leadership functions.
- successfully complete extensive internship experiences directly related to the student's individual professional goals.
- write for professional publication and presentations.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/doctorate/counselor-education/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

The application deadline is March 1.

Applicants seeking admission to the doctoral program in Counselor Education must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript(s) showing receipt of a baccalaureate degree and a master's degree from an accredited institution
4. Master's degree GPA of 3.5 or higher. If master's degree GPA below 3.5, then an official GRE General Test score (within last 5 years) is required.
5. Personal statement (1000 words maximum) (you are encouraged to showcase: your passion and/or rationale for wanting a Ph.D. in Counselor Education, understanding of what is involved in this type of degree, level of perseverance, specialties or experiences (i.e., what you bring to the table).
6. Three Reference Evaluation Forms, two from former graduate-level professors or current clinical supervisor(s), the other form may be from an official in a school or mental health agency where the applicant has been employed (Note: These must be "closed" recommendations.)

Applicants must have a CACREP accredited master's degree in counseling or 60-hour equivalent. Applicants must currently have or eligible to work towards an LPC (meet requirements set by the Texas Behavioral Health Executive Council).

Fall 2024

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript(s) showing receipt of a baccalaureate degree and a master's degree from an accredited institution
4. Master's degree GPA of 3.5 or higher. If master's degree GPA below 3.5, then an official GRE General Test score (within last 5 years) is required.
5. Personal statement (1000 words maximum) (you are encouraged to showcase: your passion and/or rationale for wanting a Ph.D. in Counselor Education, understanding of what is involved in this type of degree, level of perseverance, specialties or experiences (i.e., what you bring to the table).

6. Five Reference Evaluation Forms, three from former graduate-level professors or current clinical supervisor(s), the others may be from officials in schools or mental health agencies where the applicant has been employed (Note: These must be “closed” recommendations.)

Applicants must have a CACREP accredited master's degree in counseling or 60-hour equivalent. Applicants must currently have or eligible to work towards an LPC (meet requirements set by the Texas Behavioral Health Executive Council).

Applicant Interview and Selection Process

The Counselor Education doctoral admissions committee will consider all applications through a holistic review process, considering the graduate GPA, GRE scores (if required), work experience, any relevant CACREP background, license(s), clinical experiences, recommendations, and interview scores. After reviewing the pool of applicants, the doctoral admissions committee will recommend the top candidates for the on-campus interview process. Applicants invited for the interview will be given specific guidelines for the process, which may include an interview with the faculty, group tasks (to examine cohort fit) and an on-site writing proficiency assessment. All qualified doctoral students are admitted under regular admission to the program.

Students will have significant opportunities both inside and outside of class to develop advanced levels of their supervision, counselor, research, and leader professional identities.

This program follows a cohort model. This means that individuals are admitted to a specific group, called a cohort, and are required to take their coursework at the same time as the other individuals in the cohort. Cohorts begin each fall semester. In the event that students encounter personal emergencies that result in dropping out of their cohort, students may be allowed to join another cohort with a different schedule.

The program requires completion of 60-hours graduate credit. A comprehensive examination is required, usually occurring in the 2nd or 3rd year of the program.

Students select a dissertation chair when enrolled in COUN 7363 research application. Students and their dissertation chair will jointly select the student's doctoral dissertation committee. Once students reach the dissertation phase of their doctoral program, they must have continuous enrollment every semester until graduation.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Ph.D. in Counselor Education is designed to provide graduates with the following marketable skills:

- Plan and deliver research-based counselor education didactic courses.
- Apply counselor supervision theory and research to individual and group supervision in counseling and counselor education programs.
- Design doctoral-level research and interpret research results.

Master of Arts in Counseling

Become a clinical mental health counselor in a range of clinical, community, and human service settings by completing our CACREP-accredited curriculum. The Master of Arts in Clinical Mental Health Counseling (CMHC) degree is a 60-hour program offered in combination of face-to-face and online courses to accommodate working professionals.

Click here to see the value of attending a CACREP-accredited program (<https://www.cacrep.org/value-of-accreditation/why-should-i-choose-an-accredited-program/>).

Students select the Clinical Mental Health Counseling program if they want to complete coursework needed in the State of Texas to apply for licensure as a Licensed Professional Counselor (LPC).

A comprehensive examination is required for graduation and is taken when enrolled in Supervised Practicum (COUN 6376). Students must be enrolled in the university when taking the comprehensive examination and when applying for graduation.

CMHC Program - Preparation for Licensed Professional Counselor

Students completing the Clinical Mental Health Counseling (CMHC) program will have the academic and clinical experience requirements needed to apply for a Licensed Professional Counselor-Associate (LPC-Associate) in the state of Texas. Students may also choose electives that provide them with more specific training for working with special populations (e.g., play therapy, trauma). LPC-Associates are qualified to work under supervision in a variety of mental health settings, including private practice, non-profit counseling agencies, hospitals, correctional settings, college counseling centers, and substance-abuse treatment centers. Once fully licensed (LPC), graduates of this program may work independently in private practice and other mental health settings. Additionally, CMHC students may earn Graduate Certificates in Play Therapy and/or Marriage, Couples, and Family Counseling.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/counseling/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applications for entrance into the Master of Arts in Counseling (CMHC) are accepted for Fall and Spring admission. See program landing page (<https://www.shsu.edu/programs/graduate/counseling/>) for application deadlines. Applicants seeking admission to the Master of Arts in Counseling (CMHC) must submit the following items directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>) through their Self-Service Portal, which will be activated after submitting your application through Apply Texas:

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from undergraduate institution conferring the undergraduate degree
4. Two Reference Forms:
 - a. one reference form provided by a former or current employer or professor
 - b. one reference form provided by a professional acquaintance but cannot be a family member or an applicant's personal medical or behavioral health provider
5. Personal Statement that addresses identified prompts
6. Official GRE General Test scores
 - a. The GRE requirement will be waived for applicants meeting the one of the following conditions:
 - i. possess an undergraduate GPA of 3.0 or higher
 - ii. have completed at least nine hours of graduate level course work with a GPA of 3.5 or higher

Fall 2024

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from undergraduate institution conferring the undergraduate degree
4. Three Reference Forms:
 - a. at least two reference forms provided by former or current employers or professors
 - b. one reference from a professional acquaintance but cannot be a family member or an applicant's personal medical or behavioral health provider
5. Personal Statement that addresses identified prompts

6. Official GRE General Test scores

- a. The GRE requirement will be waived for applicants meeting the one of the following conditions:
 - i. possess an undergraduate GPA of 3.0 or higher
 - ii. have completed at least nine hours of graduate level course work with a GPA of 3.5 or higher

The Counselor Education master's admissions committee will consider all applications through a holistic review process. After reviewing the pool of applicants, the master's admissions committee will recommend the top candidates for interview process. Applicants invited for the interview will be given specific guidelines for the process.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Counseling is designed to provide graduates with the following marketable skills:

- Higher-order thinking.
- Oral and written communication.
- Professional conduct and ethical behavior.
- Multicultural and diversity competencies.

- Self-awareness of inter/intrapersonal relationships.
- Ability to apply counseling and development knowledge to professional practice.

Master of Education in School Counseling

Grow your career and help students as you expand your role with a Master of Education in School Counseling. The MEd in School Counseling at Sam Houston State University is a well-respected program in the field. It is nationally accredited through the Council for Accreditation of Counseling and Related Education Programs (CACREP), and is designed specifically for students who want to work toward certification as a school counselor in Texas. It is a 60-hour program infused with a real-world, applicable curriculum designed to empower students to meet the demands of today's school counselor.

The MEd program is designed to comply with existing Texas Education Agency standards for professional school counseling certification. This program meets academic requirements for the Licensed Professional Counselor (LPC) license in Texas. Additionally, students interested in play therapy can add on a Graduate Certificate in Play Therapy. All students must take the comprehensive examination during the Supervised Practicum (COUN 6376). Students must be enrolled in the university when taking the comprehensive examination and when applying for graduation.

Click here to learn about the value of selecting a CACREP accredited program (<https://www.cacrep.org/value-of-accreditation/why-should-i-choose-an-accredited-program/>)

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/school-counseling/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applications to the Master of Education in School Counseling are accepted for Fall semester. See program landing page (<https://www.shsu.edu/programs/graduate/school-counseling/>) for submission deadlines. Applicants must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (<http://tinyurl.com/SHSU-EPP-Tech-Fee/>) (paid to the TEA as required by TAC 229.9.7 ([http://texreg.sos.state.tx.us/public/readtac\\$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A](http://texreg.sos.state.tx.us/public/readtac$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A)))) if seeking Texas School Counselor certification
4. Official transcripts from all undergraduate institutions attended
5. Minimum GPA of a 3.0 in the most recent degree conferred, either overall or in the last 60 credit hours
6. Two Reference Forms:
 - a. one reference form provided by a former or current employer or professor
 - b. one reference form provided by a professional acquaintance but cannot be a family member or the applicant's personal medical or behavioral health provider
7. Personal Statement addressing prompts
8. Current Resume
 - a. A resume is required in order for the review committee to determine if an applicant is eligible for the Mental Health Grant.

The Counselor Education master's admissions committee will consider all applications through a holistic review process. After reviewing the pool of applicants, the master's admissions committee will recommend the top candidates for interview process. Applicants invited for the interview will be given specific guidelines for the process.

Fall 2024

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (<http://tinyurl.com/SHSU-EPP-Tech-Fee/>) (paid to the TEA as required by TAC 229.9.7 ([http://texreg.sos.state.tx.us/public/readtac\\$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A](http://texreg.sos.state.tx.us/public/readtac$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A))) if seeking Texas School Counselor certification
4. Official transcripts from all undergraduate institutions attended.
5. GPA of 2.75 in the most recent degree conferred or in the last 60 semester credit hours.
6. Official GRE General scores, if GPA in last 60 hours is below a 2.75 GPA.
7. Three References:

- a. at least two reference forms provided by professors or former/current employers.
 - b. one reference provided by a professional acquaintance (family members, medical or behavioral health provider are not eligible).
8. Personal Statement addressing prompts.
9. Teacher Service Record*
10. Valid Teacher Certificate*

***Note:** In the State of Texas, applicants must have two years of teaching experience as a certified teacher before they can be eligible for certification as a school counselor. Effective September 1, 2023, teaching experience is no longer required for certification.

The Counselor Education master's admissions committee will consider all applications through a holistic review process. After reviewing the pool of applicants, the master's admissions committee will recommend the top candidates for interview process. Applicants invited for the interview will be given specific guidelines for the process.

Graduate Certificate in Marriage, Couple, and Family Counseling

The Graduate Certificate in Marriage, Couple, and Family Counseling provides graduate students in the Department of Counselor Education additional training and education in marriage, couple, and family counseling.

The 12-semester credit hour Graduate Certificate in Marriage, Couple, and Family Counseling is designed for students training in clinical mental health and related fields (i.e., psychology, social work) who want to specialize and/or work towards their Texas license in Marriage and Family Therapy. Students should view the website of Texas Behavioral Health Executive Council (<https://www.bhec.texas.gov>) to understand the full requirements and keep updated on changes (i.e., academic, supervision, clinical experiences).

This Graduate Certificate is not eligible to receive Title IV funding – Direct Loans, Pell Grant, TEACH Grant, SEOG Grant, or Federal Work Study. Students enrolled in this program should explore alternative funding options and are encouraged to contact the financial aid office for assistance.

Additional Information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/marriage-couple-and-family-counseling/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Graduate Certificate in Marriage, Couple, and Family Counseling must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. a) A current student in good academic standing in the Department of Counselor Education **OR** b) Have completed a master's degree in a related discipline with a GPA of 3.0 or higher (requires submission of official transcript from the degree granting institution)

Graduate Certificate in Play Therapy

Sam Houston State University's (SHSU) Graduate Certificate in Play Therapy (offered by the Department of Counselor Education housed within the College of Education) provides specialized academic training in therapeutic play modalities for master's level, degree-seeking students as well as post-master's practitioners seeking professional training. The Huntsville facility is outfitted with 2- play rooms, 3-sandtray rooms, as well as videotaping capabilities. Facilities at the Woodlands Center contain a playroom, several portable sand tray carts as well as portable art carts. Additionally, this facility has digital taping capabilities.

The 12-semester credit hour Graduate Certificate in Play Therapy is designed for students training in clinical mental health and school counseling and related fields (i.e., psychology, social work, and marriage and family) as well as for post-master's professionals in counseling and related fields who want to specialize and/or work towards their professional registration through the national organization (Association for Play Therapy, APT). Students should view from APT to understand the full requirements and keep updated on changes (i.e., academic, PT specific training, license, supervision, clinical experiences). The Play Therapy Training Institute at SHSU is an Approved Provider by APT; however, APT alone holds the right to accept or deny any continuing education training at its discretion has the final approval of their applications. SHSU is an APT Approved Provider #07211.

This Graduate Certificate is not eligible to receive Title IV funding – Direct Loans, Pell Grant, TEACH Grant, SEOG Grant, or Federal Work Study. Students enrolled in this program should explore alternative funding options and are encouraged to contact the financial aid office for assistance.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/play-therapy/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to work on their Graduate Certificate in Play Therapy must submit the following directly to the Office of Graduate Admissions:

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from current program
4. Minimum undergraduate GPA of a 3.0, either overall or in the last 60 credit hours

Fall 2024

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from current program

This certificate does not equate to an official Play Therapy certification by the Association of Play Therapy (APT). Students wishing to become certified Play Therapists must complete all requirements, application, and clinical experiences for consideration by APT. More information about Play Therapy certification is available here. (<https://www.a4pt.org/>)

For information regarding coursework for the Graduate Certificate in Play Therapy, please, contact the Play Therapy Coordinator Dr. Evelyne Fitzgerald (kem031@SHSU.EDU) in the Department of Counselor Education: 936-294-4148.

Students enrolled in the 12-credit hour Graduate Certificate in Play Therapy may be taking courses alongside SHSU students pursuing a master's or doctoral degree in Counseling. Course work for the Graduate Certificate in Play Therapy (3 credit hours each) are listed below.

This certificate does not equate to an official Play Therapy certification. Students wishing to become certified Play Therapists must complete all requirements and application through the Association of Play Therapy.

Marketable skills are those valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Play Therapy Certificate is designed to provide graduates with the following marketable skills:

- Advanced knowledge of challenges encountered by children
- Advanced skill and intervention training when providing counseling services to children
- Evidence-based counseling services to children
- Foundational education for specialized training toward Register Play Therapist designation managed by Association for Play Therapy

Department of Educational Leadership

About

Chair: Dr. Eric Platt (eep032@shsu.edu)

Mission

Preparing leaders to impact a diverse and evolving world.

Vision

The Department of Educational Leadership has a unique role given our university's history as a teacher's college. We are situated at the crossroads of both a rural community and one of the largest urban areas in the country. We aim to create an inclusive environment that embraces the diversity of experiences our faculty and students bring from across P-16 in these communities. We believe in the importance of quality teaching and mentoring that is directive, informative, and inspiring. We are committed to fostering meaningful relationships, innovation, and scholarship that address critical issues in education so that we **empower a courageous community of educational leaders to create the world we want to live in.**

Ed.D. in Educational Leadership

The doctoral program (Ed.D.) in Educational Leadership provides the highest professional degree available to candidates who aspire to leadership positions in Education, primarily in K-12 settings. The degree involves successful completion of a prescribed curriculum of both required and elective courses in professional studies, theory, and research methods up to a minimum of 60 hours of graduate credit. The doctoral degree is awarded upon successful completion of coursework and defense of a dissertation, which is a major independent research project carried out under the supervision of faculty advisors.

Graduates of the doctoral degree in Educational Leadership will have acquired the knowledge and skills to lead K-12 school systems and serve in a leadership and consulting capacity in diverse educational organizations. The doctoral program focuses on developing leader-scholars who are prepared to effectively lead educational organizations by (a) supporting professional development for instructional improvement; (b) applying evidence-based practices in educational research and program evaluation through research design and interpretation; and (c) advocating for sound policies that support the success of all students.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/doctorate/educational-leadership/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Admission to the doctoral program in Educational Leadership is competitive. Applicants are encouraged to submit required materials and prepare a high-quality personal statement and resume.

The Educational Leadership doctoral program utilizes a cohort model where individuals are admitted as a group or a cohort. Cohort members take their courses together in a face-to-face setting. Cognates (electives) vary. Some students complete the Texas superintendent certification as their cognate area. A select number of applicants are admitted to a cohort.

Admission Deadlines

The priority deadline for cohort admission is March 1. Priority is given to completed applications. Applications will be accepted until the university deadline based on space availability.

The program uses a cohort-based model. New cohorts begin each Summer semester. To ensure full consideration for cohort admission, applicants should submit all required materials before the priority deadline.

Cohort	Classes Begin	Application Deadline
Educational Leadership (K-12)	Summer (June)	March 1: Priority Deadline

Applicants seeking admission to the doctoral program in Educational Leadership must submit the following to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Admission Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree granting institution
4. Official transcript(s) showing receipt of a master's degree in a related field from an accredited institution
5. Resume (describing education, work history, leadership experiences, and listing at least 3 professional references)
6. Application Essay. Not to exceed 1,800 words and thoroughly address these specific questions in an essay:
 - a) What are some highlights of your professional career?
 - b) What are some experiences that demonstrate your **leadership** strengths?
 - c) What are your professional goals?
 - d) What reasons do you have for pursuing a Doctorate of Education (Ed.D.) in Educational Leadership (K-12) at Sam Houston State University?

Note: Applicants selected after the initial screening will be invited for an interview.

Applicants should hold a master's degree in a related field, and the student's graduate GPA should be 3.5 or higher. In addition, three years of full-time professional experience in a school or agency is preferred.

The program requires a minimum of sixty hours of graduate credit, successful passing of a comprehensive examination, and completion of a dissertation.

¹ EDLD 7111 must be taken three times for a total of three hours.

² EDLD 8033 must be taken at least three times for a minimum total of nine hours. Once enrolled in this course, the student must enroll in it until graduation.

Note: The 12 hours of cognate can vary based on candidate interests and goals. Additional TEA requirements are needed to obtain a Texas Principal or Superintendent certification.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The EdD Educational Leadership degree is designed to provide graduates with the following marketable skills:

- Collect, analyze, and interpret data through the lens of theories and practice.
- Defend research findings to practitioners and researchers.
- Employ advanced oral and written communication skills.
- Synthesize empirical literature for research trends.
- Design, conduct, report, and share independent research projects.

Ed.D. in Higher Education Leadership

The doctoral program in Higher Education Leadership provides the highest professional degree available to students who aspire to leadership positions at the college or university level and across the P-20 spectrum. The degree includes a curriculum of a minimum of sixty hours of graduate credit with concentrations in Administration and Academic Support Programs. The doctoral degree is awarded on the basis of successful completion of coursework, assessment of professional dispositions, research competencies, and completion of a major research project resulting in the presentation and defense of a dissertation.

Graduates of the doctoral degree in Higher Education Leadership are able to apply administrative and student development theory in leading today's institutions of higher education; set and assess goals for program and student performance; effectively and ethically use resources in support of institutional missions; plan and provide for academic programs' curricula; apply student development theory to support student success; support and enhance diverse perspectives on learning and leading; interpret the relationships among federal, state, and local education agencies and the laws applicable to the administration of colleges and universities; design educational research; and interpret and utilize results for improvement.

The program offers two modalities of instruction: a) Face-to-face instruction for the Administration Concentration (Spring admission), and b) Fully online instruction for the Academic Support Programs concentration (Summer admission). General program advising for students occurs on a regular basis and students may request individual, in person, or remote advising meetings with the program director as needed.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/doctorate/higher-education-leadership/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

The Higher Education Leadership program follows a cohort model, which means that individuals are admitted to a specific group, called a cohort, and are required to take their coursework at the same time as the other individuals in the cohort for the duration of their enrollment in the program. When students enter a cohort, they specialize on either the Administration concentration (Spring entry; face-to-face) or the Academic Support Programs (Summer entry; online). This model provides students multiple support systems to utilize as they progress through the doctoral curriculum. In the event of emergencies that require individuals to drop out of the normal schedule, they may be required to join another cohort with a different schedule.

Application Deadlines

New cohorts begin each Spring semester (face-to-face in Administration concentration) and Summer (fully online in Academic Support Programs concentration). To ensure full consideration for cohort admission, applicants should submit all required materials before the priority deadlines [October 1 (Face-to-face, Administration) or March 15 (Online; Academic Support Programs)]. A limited number of applicants for non-cohort-based admission may be considered in other semesters as space allows and at the discretion of the program director. Only applicants who meet institutional deadlines for admission in those semesters will be considered.

Applicants seeking admission to the doctoral program in Higher Education Leadership must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Admission Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree granting institution
4. Official transcript(s) showing receipt of a master's degree from an accredited institution
5. Graduate GPA of 3.5 or higher is preferred
6. Resume (with description of education, work history, leadership experiences, and contact information for at least 3 professional references)
7. Personal statement. Not to exceed 1,800 words. Please, address the following:
 - a) What are some highlights of your professional career?
 - b) What are some experiences that highlight your leadership strengths?
 - c) What are your professional goals?
 - d) What reasons do you have for pursuing a doctoral degree?
 - e) Please address any performance or academic indicators that may be of concern to the admissions committee.

Note: Applicants selected after the initial screening will be invited for an interview and research presentation conducted in person or online for their respective admission cycle.

Applicants should hold a master's degree, and the student's graduate GPA should be 3.5 or higher. In addition, three years of full-time professional experience in an accredited college, university, school district, or educational setting is preferred.

The program requires a minimum of sixty hours of graduate credit, successful passing of a comprehensive examination, and completion of a dissertation.

After the completion of twelve to eighteen semester hours (two or three semesters) of doctoral level coursework in the program, each student will be considered for full admission to candidacy. A doctoral program committee will review his/her academic progress, interpersonal skills, dispositions, and motivation to determine whether the student should continue with the program. After full admission to the program, the student's doctoral dissertation committee will be assigned by the Director of Doctoral Studies.

A comprehensive examination will be taken in the latter part of the program's curriculum. Students must be enrolled in coursework during the semester the comprehensive examination is taken. After successful completion of the comprehensive examination and proposal course, the student may defend the dissertation proposal.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The EdD in Higher Education Leadership is designed to provide graduates with the following marketable skills:

- Lead higher education institutions in today's complex environments.
- Produce and leverage research to inform educational practice.
- Advance a critical consciousness of the importance of diversity, equity, inclusion, student development theory, finance, law, and other topics.
- Describe the roles, functions, and interrelationships among a college or university's major constituents.
- Plan, evaluate, and assess student learning, program effectiveness, and performance in an ethical and legally defensible manner.
- Utilize oral and written communication skills to support scholarly pursuits.
- Apply knowledge and expertise in developmental education, student support, community college and university leadership, and student success.

Master of Arts in Higher Education Administration

The Master of Arts in Higher Education Administration will prepare students for mid-level administrative and leadership positions at higher education institutions and for further doctoral studies in the field. The program is designed to enhance career-related skills and competencies and will focus on student services, career services, enrollment management, residence life, financial aid, student success, resource allocation, and other administrative functions.

This degree may be completed with or without a thesis. Students seeking the MA in Higher Education Administration may also opt to pursue the Academic Advising Certificate.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/higher-education-administration/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Master of Arts in Higher Education Administration must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Higher Education Administration is designed to provide graduates with the following marketable skills:

- Use and critique of appropriate theory to understand, support, and advocate student learning and development.
- Design and evaluate learning experiences for students based on knowledge of how student learning and learning opportunities are influenced by student characteristics and college environments.
- Develop leadership, organizational, and management practices that could be applied to assist institutions in accomplishing their missions.
- Conduct and design studies, produce evaluations, and reports on sound research studies, assessment studies, or program evaluation, all grounded in the appropriate literature.
- Apply assessment results to inform and improve professional practice and student learning.
- Design and evaluate effective interventions for individuals and groups in college and university settings.

Master of Education in School Leadership

The Master of Education in School Leadership is a thirty-credit hour program designed specifically for educators who wish to work towards Principal Certification. The program complies with existing standards for professional certification to produce proficient school administrators who are well educated in school leadership and administration; effective leadership strategies; campus business management; and federal, state, and local school regulations. Candidates in this program will also possess the skills necessary to evaluate programs for overall school improvement, improve

instruction and curricula, and understand how diverse populations and special programs affect a school and its community. A comprehensive examination is required toward the end of the program coursework. The study plan originates in the Department of Educational Leadership.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/school-leadership/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the M.Ed. in School Leadership must submit the following directly to the Office of Graduate Admissions:

Spring 2025

1. ApplyTexas application (<https://www.shsu.edu/apply/>) and application fee
2. Texas Education Accountability System for Educator Preparation Programs Fee (<http://tinyurl.com/SHSU-EPP-Tech-Fee/>) (\$35 paid to TEA as required by TAC 229.9.7 ([http://texreg.sos.state.tx.us/public/readtac\\$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9](http://texreg.sos.state.tx.us/public/readtac$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9))) if seeking Texas Principal certification
3. Official transcript from the baccalaureate degree-granting institution with a GPA of 3.0 overall or in the last 60 hours
4. Copy of teacher service record from school district that reflects: 1) at least one year of certified teaching experience; and 2) current employment, all in Texas Education Agency-accredited schools. Note: At least two years of certified teaching experience are required for the Principal as Instructional Leader certification in Texas.
5. Copy of valid teaching certificate
6. Written essay
7. School Leadership Statement

University Application Deadlines:

¹ EDAD 6362 Principal Practicum/Internship is taken over two long semesters fall and spring or spring and fall (3 hours each semester) and may be taken with one other course.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MEd in School Leadership is designed to provide graduates with the following **School Leadership/Instructional Leader** marketable skills to:

- Build trusting relationships.
- Use collaborative decision-making.
- Support data-driven instruction (building capacity of teachers, staff, and students).
- Practice ethical leadership.
- Observe and provide TTESS-aligned feedback .
- Lead effective professional development.

Graduate Certificate in Academic Advising

The online Academic Advising Certificate is designed for both beginners and experienced individuals interested in academic advising for higher education institutions. This certificate will provide enhanced training for academic advising professionals and is also valuable for individuals who have supervisory or leadership responsibilities in academic advising. The certificate requires 15 hours of graduate credit.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional Information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/academic-advising/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate certificate in academic advising must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree granting institution
4. Two Recommendation Forms
5. Minimum undergraduate GPA of a 3.0, either overall or in the last 60 semester credit hours

Fall 2024

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree granting institution
4. Three Recommendation Forms

The certificate requires completion of fifteen hours of graduate credit.

Code	Title	Hours

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Academic Advising is designed to provide graduates with the following marketable skills:

- Strong knowledge in academic advising theories.
- Enhanced training for academic advising.
- Expanded competences for support of students from different types of institutions.
- Training and knowledge for career advising.

Principal Certification

This certification plan is designed specifically for the educator who has previously obtained a Master's Degree in Education and wishes to obtain Principal Certification. It requires the completion of twenty-four credit hours of graduate credit coursework. The program complies with existing standards for professional certification. The study plan originates in the Department of Educational Leadership.

Financial Aid Note: The 24-credit hour Principal Certification-only program is not eligible for financial aid whereas the degree-seeking 30-credit hour M.Ed. in School Leadership candidate may be eligible for financial aid.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certification/principal/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Principal Certification program must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Spring 2025

1. Graduate Admissions Application (<https://www.shsu.edu/admissions/applications/>)

- Support data-driven instruction (building capacity of teachers, staff, and students).
- Practice ethical leadership.
- Observe and provide TTESS-aligned feedback.
- Lead effective professional development.
- Determine and support school improvement tasks.

Superintendent Certification

The Superintendent Certification program at Sam Houston State University is a professional certification program designed to prepare students for careers as school district superintendents in Texas. The program focuses on factual knowledge and theory, as well as practicum field experiences, to develop student knowledge and skills.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certification/superintendent/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Candidates seeking admission to the graduate programs in Superintendent Certification must meet the basic requirements of Graduate Admissions specified in the Admission section of this catalog.

Spring 2025

Admissions Requirements

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (<http://tinyurl.com/SHSU-EPP-Tech-Fee/>) (paid to the TEA as required by TAC 229.9.7 ([http://texreg.sos.state.tx.us/public/readtac\\$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A](http://texreg.sos.state.tx.us/public/readtac$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A)))) if seeking Texas Superintendent certification
4. Official transcript from the master's degree granting institution with a GPA of a 3.0 or higher.
5. Copy of SBEC issued standard Principal or Mid-Management and teacher certification
6. One reference from current or previous supervisor in a school or agency where the applicant has been employed
7. Copy of Teacher Service Record from your school district's Human Resource Department with two years of creditable teaching experience preferred; however, we will consider applicants with one year of creditable teaching experience. (Applicant must be working at a Texas Education Agency recognized school.
8. Leadership Statement
9. Written Essay

Submit all applications materials to Graduate Admissions. Electronic transcripts are accepted as official if sent to graduate@shsu.edu (graduate@shsu.edu) directly from your university or institution.

Fall 2024

Admissions Requirements

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (<http://tinyurl.com/SHSU-EPP-Tech-Fee/>) (paid to the TEA as required by TAC 229.9.7 ([http://texreg.sos.state.tx.us/public/readtac\\$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A](http://texreg.sos.state.tx.us/public/readtac$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A))) if seeking Texas Superintendent certification
4. Official transcript from the master's degree granting institution with a GPA of a 3.5 or higher. If an applicant does not meet the minimum GPA expectations, official GRE scores must be submitted that meet the requirements. Minimum scores required are listed in the table below.
5. Copy of SBEC issued standard Principal or Mid-Management and teacher certification
6. One reference from current or previous supervisor in a school or agency where the applicant has been employed

7. Copy of Teacher Service Record from your school district's Human Resource Department with two years of creditable teaching experience preferred; however, we will consider applicants with one year of creditable teaching experience. (Applicant must be working at a Texas Education Agency recognized school.
8. Interview

Submit all applications materials to Graduate Admissions. Electronic transcripts are accepted as official if sent to graduate@shsu.edu directly from your university or institution.

Note: Applicants selected after initial screening will be invited for an interview.

GRE revised General Test Score Bands to be used for Admission to an Educator Preparation Program under the 10% Exception Rule in 19 TAC §227.10(a)(3)(D)

Self-reported Undergraduate GPA	GRE Verbal Reasoning ¹	GRE Quantitative Reasoning ¹	GRE Analytical Writing ²
B-(2.7 GPA)	143-157	140-155	3.0-4.5

¹ GRE Verbal and Quantitative scores are reported on a 130 to 170 scale.

² GRE Analytical Writing scores are reported on a 0 to 6 scale in half-point increments.

Under these circumstances, the GRE may not be waived.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certification/superintendent/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Superintendent Certification is designed to provide graduates with the following marketable skills:

- Collaborative leadership.
- Transparent communication.
- Inclusive decision making.
- Systems thinking orientation.

Department of Library Science and Technology

About

Chair: Holly Weimar, Ed.D. (hweimar@shsu.edu)

Contact Information: (936) 294-1151

Website: Department of Library Science and Technology (<http://www.shsu.edu/libraryscience/>)

Mission

The Department of Library Science and Technology provides professionals with the knowledge, skills, experiences, and dispositions necessary to serve diverse populations across the country and globally. The Department of Library Science and Technology also seeks to educate leaders who transform learning.

The Department is home to the certification program for school librarians in Texas and to the programs for a master and doctorate in Instructional Systems Design and Technology (ISDT.) Two graduate certificates are offered by the Department: (1) Educational Technology; and (2) Effective Online Instruction. The courses for the degrees and graduate certificates are designed to enhance learning and performance. All the programs in the Department are 100% online. The faculty in the Department design learning to provide students with the skills and knowledge necessary for opportunities in their respective fields. To learn more, please contact the Department about the programs that are offered.

Academic Programs

- Graduates who are interested in becoming instructional technology professionals will need to pursue a Master of Education in Instructional Systems Design and Technology (ISDT).
- Graduates who already hold an ISDT master's or similar degree and who desire to further their education at the next level will need need to pursue a Doctorate in ISDT.
- For those graduates who are interested in becoming a school librarian, they must hold a teaching certificate, two years of teaching experience, and pursue a Master of Library Science unless they already hold an educational master's degree and are approved to seek school librarian certification only.

Values

- Student success
- Academic excellence
- Inclusiveness
- Collaboration
- Creativity and innovation

Highlights

- The School Librarian Preparation and Certification Program is Nationally Recognized by the American Association of School Librarians (AASL), a division of the American Library Association (ALA).
- The online programs have class sizes that provide an opportunity for close working relationships between faculty and students.
- The programs prepare students with critical thinking and problem-solving skills that may be applied to their careers.

Career Opportunities

- PK-12 school librarian
- Instructional technology professionals for:
 - PK-16 students
 - Private industry and businesses
 - Other instructional settings
- Ed.D. in Instructional Systems Design and Technology
- Master of Education in Instructional Systems Design and Technology
- Master of Library Science
- Graduate Certificate in Educational Technology
- Graduate Certificate in Effective Online Instruction
- School Librarian Certification

Director/Chair: **Holly Ann Kizer Weimar**

Rosemarie M Brock, PHD (rmb043@shsu.edu), *Associate Professor of Library Science and Technology, Department of Library Sci & Technology*, PHD, Texas Woman's University; MLS, Texas Woman's University; BA, Oklahoma State University

Ed.D. in Instructional Systems Design and Technology

Overview

The Doctorate in Instructional Systems Design and Technology (ISDT Ed.D.) is a fully online cohort-based professional practice and scholarly doctoral program designed to prepare individuals across a wide range of industries, including PK-16 education, corporate training, healthcare, government, military, and non-profit organizations, to become leaders and scholars in designing, implementing, and evaluating effective digital learning solutions. The program is dedicated to developing individuals who can lead and transform educational institutions, organizations, and industries. It aims to cultivate graduates who are well-prepared to navigate the complexities of technology-enabled learning leadership and possess a deep understanding of the social, ethical, and legal dimensions of the digital landscape.

Upon completion of the degree, graduates will possess the following capabilities and be equipped to assume leadership roles as instructional designers, educational consultants, technology integration specialists, researchers, faculty members in higher education, and other related positions:

- Inspire and lead the development and implementation of a shared vision for comprehensive integration of technology to promote excellence and support transformation throughout the organization.
- Create, promote, and sustain a dynamic, digital-age learning culture that provides rigorous, relevant, and engaging learning experiences for all learners.
- Foster an environment of professional learning and innovation that empowers others to enhance learning through the infusion of contemporary technologies and digital resources.
- Provide digital-age leadership and management to continually improve the organization through the effective use of information and technology resources.
- Model and facilitate understanding of social, ethical, and legal issues and responsibilities related to an evolving digital culture.

Vision

Our vision is to be a premier doctoral program in Instructional Systems Design and Technology, empowering individuals across diverse industries to excel as leaders and scholars in designing, implementing, and evaluating impactful digital learning solutions.

Mission

Our mission is to prepare forward-thinking leaders and scholars in Instructional Systems Design and Technology, equipping them with the knowledge, skills, and expertise to drive innovation and excellence in designing, implementing, and evaluating effective digital learning solutions across diverse industries, including education, corporate training, healthcare, government, military, and non-profit organizations.

Goals

Grounded in research-based educational practices, our program encompasses a set of focused goals designed to develop research expertise, foster comprehensive knowledge and skills, cultivate critical thinking and intellectual curiosity, prepare students for leadership roles, encourage collaboration and interdisciplinary engagement, and focus on the professional application of instructional systems design and technology. By pursuing the following goals, we aim to equip our students with the knowledge, skills, and mindset to make meaningful contributions in their fields, driving innovation and positively impacting the design and implementation of digital learning solutions across various industries:

- **Develop Research Expertise:** Provide students with a deep understanding of research practices in instructional systems design and technology, including acquiring substantive knowledge of the field and developing the ability to design and conduct research studies.
 - **Acquire Comprehensive Knowledge and Skills:** Foster a thorough understanding of major controversies, theoretical positions, and emerging trends in instructional systems design and technology. Enable students to articulate researchable questions and apply advanced knowledge and skills to design, implement, and evaluate effective digital learning solutions.
 - **Cultivate Critical Thinking and Intellectual Curiosity:** Encourage students to develop habits of mind that foster curiosity, critical analysis, and openness to changing perspectives based on well-founded arguments and evidence.
 - **Prepare for Leadership Roles:** Equip students with the necessary skills and knowledge to assume leadership positions in research, consultation, and personnel preparation in instructional systems design and technology across diverse industries.
 - **Foster Collaboration and Interdisciplinary Engagement:** Promote collaboration and interdisciplinary approaches to problem-solving, encouraging students to work effectively with diverse stakeholders in designing and implementing innovative digital learning solutions.
 - **Focus on Professional Application:** Prepare educators to fulfill professional roles primarily in school-based settings, higher education institutions, and business and industry organizations, where they can apply their expertise to design, implement, and evaluate effective digital learning solutions that meet the unique needs of learners across a wide range of industries.
-

Additional Information

Reference the Program Landing Page (<https://www.shsu.edu/programs/doctorate/instructional-systems-design-and-technology/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Application Deadlines

Cohort	Classes Begin	Application Deadline
Instructional Systems Design and Technology	Fall (August)	August 1

Priority Application Deadline: March 1

Application Requirements for Doctoral Program in Instructional Systems Design and Technology

To be eligible for admission to the Doctoral Program in Instructional Systems Design and Technology, applicants are required to submit the following documents and fulfill specific criteria:

- **Graduate Studies Application:** Submission of a Graduate Studies Application (<https://www.applytexas.org/>) along with the corresponding application fee. Upon submission of the application, the applicant will receive an email to create their SHSU Self-Service portal.
- **Official Transcripts:** Presentation of official transcripts demonstrating the attainment of both a bachelor's and master's degree from accredited institutions. Applicants seeking admission to the professional practice Doctoral Program in Instructional Systems Design and Technology must hold a master's degree in Instructional Systems Design and Technology or a related field that encompasses the essential foundational knowledge for this program. Proof of graduation from accredited institutions at both the bachelor's and master's levels is mandatory. Additionally, applicants must have a graduate GPA of 3.5 or higher.
- **Professional Work Sample:** Inclusion of a sample of the applicant's professional work, which may consist of a published article or a project related to instructional technology design or multimedia design. This work should serve as evidence of the applicant's potential for scholarly achievement at the doctoral level and should be accompanied by a statement outlining the applicant's professional objectives.
- **Current Resume or Curriculum Vitae (CV):** Submission of an up-to-date and comprehensive resume or curriculum vitae.
- **Letters of Recommendation:** Provision of two letters of recommendation from individuals in educational or direct service settings. One of these recommendations should specifically address the applicant's direct experiences with instructional technology or multimedia design and evaluate the applicant's potential for success in the doctoral program.
- **Personal Interview:** After an applicant's SHSU Self-Service portal has been created, the program will send an email with instructions for the pre-recorded interview. This interview consists of a 4-5 minute video during which applicants will respond to questions provided by the program. This interview serves as an opportunity for candidates to showcase their potential for leadership, express their dedication to service, and convey their enthusiasm for applied research within the program.

Additional Considerations

- **Professional Experience:** Preference will be given to applicants who possess a minimum of three years of teaching, direct service, or administrative experience directly or substantially related to instructional technology or multimedia design. Such professional experiences in the applicant's background will be considered as evidence of both direct service roles and a strong commitment to the field of instructional technology.
- **Probationary Admission:** Applicants who do not meet one of the criteria outlined above may still be considered for probationary admission if they are sponsored by a doctoral faculty member.

Plan of Study

To obtain the Ed.D. in Instructional Systems Design and Technology, each student must complete a minimum of 60 unique graduate credit hours, which are divided into two phases. This two-phase process typically consists of 48 hours of core coursework followed by 12 hours of dissertation work. In accordance with the cohort model, students commence and typically conclude the core coursework phase of the program alongside a consistent group of peers.

Upon completion of approximately 42 credit hours of required coursework, typically during the fall semester of the doctoral student's third year in the ISDT Ed.D. program, students finalize the comprehensive examination process with a digital portfolio known as a dossier. The doctoral dossier serves as a structured platform to present and organize the competencies achieved by the individual doctoral student within the program. With the aim of equipping students with the necessary knowledge, skills, dispositions, and experiences for success in the field, the dossier serves as the primary evaluative artifact for the qualifying comprehensive exam prior to admission to candidacy. Furthermore, it establishes the groundwork for the student's

scholarly vita/resume as they prepare to contribute to their chosen area within the field. The dossier exemplifies professional competencies in scholarship, learning design, and service, showcasing quality efforts that go beyond routine competence. It demonstrates the student's commitment to excellence and their contributions to the field. The student must be enrolled during the semester the dossier review is conducted.

Although the dissertation phase of the program is designed to be completed in 12 credit hours, the duration of the dissertation, from start to finish, is largely dependent upon each individual student's diligence and consistent communication with their dissertation chair. Continuous enrollment in Doctoral Dissertation hours (ISDT 8333) is required until degree completion.

This degree program does not have a residency requirement.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

Graduates of the doctoral program in Instructional Systems Design and Technology are equipped with a diverse set of marketable skills valued by employers and graduate programs across various industries. Through our comprehensive curriculum, students develop expertise in instructional design, technology integration, curriculum development, research, and project management. These skills are applicable in PK-16 education, corporate training, healthcare, government, military, and non-profit organizations. As leaders and scholars in designing, implementing, and evaluating effective digital learning solutions, our graduates possess the following marketable skills:

- **Instructional Design and Technology Integration:** Analyze learners' needs, design effective learning experiences, integrate technology tools to enhance learning, and solve instructional and training problems.
- **Curriculum Development and Assessment:** Align learning objectives with educational standards, design assessments to measure learning outcomes, and ensure effective curriculum development.
- **Research and Data Analysis:** Conduct research studies, analyze data using statistical and computational methods, and effectively communicate research findings.
- **Project Management and Implementation:** Manage complex projects throughout the entire process, from needs analysis to design, implementation, and evaluation.

- **Scholarly Communication and Presentation:** Expertise in scholarly writing, including producing high-quality research papers and grant proposals, and presenting learning ideas creatively using multimedia tools.
- **Virtual Teamwork and Collaboration:** Effective and efficient in virtual team environments, utilizing communication and collaboration technologies to achieve shared goals.

Master of Education in Instructional Systems Design and Technology

The Master of Education in Instructional Systems Design and Technology (ISDT) is an online professional practice master's program designed to prepare individuals to become experts in the integration of technology in instructional systems. This program is a combination of courses specially designed to prepare candidates for careers as instructional designers in all areas of instruction and training. With a curriculum that teaches established learning and instructional theories as well as research-based instructional design methodology and best practices, graduates have opportunities for careers as instructional designers and coaches in business and industry, healthcare, military, government, and higher education institutions as well as in the traditional K-12 venue. These prepared technology practitioners can guide educational institutions, businesses, and industries in meaningful technology integration as it relates to training and continuing education programs. Support and service roles include instructional design, assessment of learning management systems, networking, and assessment and implementation of instructional software.

The program consists of 30 credit hours, utilizing a variety of methods to provide the most beneficial online learning experience. The program is entirely online and designed to provide individuals with the skills to effectively use instructional technology for learning, instruction, or professional training. In this online program, all course materials, resources, tasks, and assignments will be posted in the University's Learning Management System (i.e., Blackboard Online). You are expected to learn, interact with peers and instructors, and submit assignments online. You will be expected to be vigilant and prompt in responding online to the instructor and your peers. Also, you will be expected to meet online, possibly, with group members; that is dependent upon the arrangements of your group.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/instructional-systems-design-and-technology/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Master of Education in Instructional Systems Design and Technology must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree-granting institution
4. Minimum undergraduate GPA of a 3.0, either overall or in the last 60 credit hours

Fall 2024

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate institution with a preferred GPA of 3.0 or higher

The Texas Higher Education Coordinating Board marketable skills initiative is part of the State's 60x30TX plan and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The online Master of Education in Instructional Systems Design and Technology program at Sam Houston State University is a combination of courses specially designed to prepare candidates for careers as instructional designers in all areas of instruction and training. With a curriculum that delivers established learning and instructional theories as well as an evidence-based learning design methodology and best practices, graduates have opportunities for careers as instructional designers and coaches in business and industry, healthcare, military, government, and higher education institutions as well as in the traditional K-12 venue. Marketable skills include:

- Identify learning, instructional, and training problems and needs.
- Use technology to solve learning, instructional, and training problems.
- Present learning, instructional, and training ideas creatively using technology.
- Evaluate and assess learning, instructional, and training environments and programs.
- Work on a virtual team efficiently and effectively

Master of Library Science

The Master of Library Science (MLS) is designed to prepare competent professionals for school librarianship. The MLS program will introduce students to library collection development that supports the curriculum as well as reading for pleasure; comprehensive review of children's and young adult literature; how to manage a school library; information and digital literacies; digital tools that school librarians use; reference and services; and cataloging, classification, and subject analysis techniques.

Graduates of the MLS program will also have the required coursework necessary for the School Librarian Certification exam in Texas. To be recommended for Texas certification, you must have a valid teaching certificate, two years of teaching experience, the requisite coursework to take the exam, as well as any other requirements included in the Texas Administrative Code for the School Librarian Certificate.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/library-science/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate program in library science must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Admissions Review:

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate institution with a GPA of 3.0 or higher. If GPA is lower than a 3.0, the last 60 hours of education can be used.

Program Review:

1. Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (<http://tinyurl.com/SHSU-EPP-Tech-Fee/>) (paid to the TEA as required by TAC 229.9.7 ([http://texreg.sos.state.tx.us/public/readtac\\$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A](http://texreg.sos.state.tx.us/public/readtac$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A))) if seeking Texas School Librarian certification
2. A copy of a valid Texas teaching certificate
3. Teacher Service Record from your school district's Human Resource Department with two years of certified teaching experience preferred
4. Interview
5. Writing Sample

For instructions regarding the application process, please contact the Department of Library Science at (936) 294-1151 or visit the Office of Graduate Studies (<http://www.shsu.edu/dept/graduate-studies/>) program page.

This 36-hour master's degree provides instruction for the preparation of PK-12 school librarians. Graduate students who are on track to complete a Master of Library Science (MLS), must complete a portfolio. Every graduate program requires a final product for its course of study. For the electronic portfolio in the MLS, Library Science graduate students are expected to analyze, synthesize, and evaluate the body of knowledge gained during their courses in the MLS program. Library Science graduate students must be enrolled in a course during the semester that they satisfactorily complete the Portfolio. Portfolio is a competency, in lieu of comprehensive examination, that must be completed in order to meet the requirements for the MLS degree.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Master of Library Science is designed to provide graduates with the following marketable skills:

- Collaboration and teamwork.
- Ethical practices.
- Planning and organizational skills.
- Communication.
- Technology use in the library.
- Leadership.
- Creativity, critical thinking, and problem solving.
- Flexibility.

Graduate Certificate in Educational Technology

The Graduate Certificate in Educational Technology provides students with the necessary tools to critically analyze technology for instructional use and to apply technology to the curriculum in a coherent and intelligent manner. Individuals in PK-12 Education, Higher Education, Business/Industry, Medical, Military, and other professionals involved with training and professional development for their organization are suitable candidates for this program.

The Graduate Certificate in Educational Technology is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/educational-technology/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants should submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<https://www.shsu.edu/admissions/applications/>)
2. Application fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>)
3. Official transcript from the baccalaureate degree-granting institution
4. Minimum undergraduate GPA of a 3.0, either overall or in the last 60 credit hours

Fall 2024

1. Graduate Application (<https://www.shsu.edu/admissions/applications/>)
2. Application fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>)
3. Official transcript from the baccalaureate degree-granting institution (a GPA of 3.0 or higher is preferred)
4. Up-to-date Resume

This graduate certificate program requires a minimum of fifteen hours of graduate credit as prescribed in the following plan.

Code	Title	Hours
Graduate Certificate in Educational Technology		
Specified Courses		
ISDT 5319	Critical Analysis of Instructional Software	3
ISDT 5336	Educational Multimedia	3
ISDT 5337	Designing Instructional Material for the Web	3
ISDT 5363	The Role of Technology Liaison	3
ISDT 5365	Technology And Cognition	3
Total Hours		15

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Educational Technology is designed to provide graduates with the following marketable skills:

- Identify learning, instructional, and training problems and needs.
- Use technology to solve learning, instructional, and training problems.
- Work on a virtual team efficiently and effectively.

Graduate Certificate in Effective Online Instruction

The Effective Online Instruction graduate certificate provides students with the strategies and techniques necessary to effectively teach online courses. Individuals in Business/Industry, PK-12, Higher Education, Medical, Military, or professionals involved with training and professional development for their organization would be suitable candidates for this program.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/effective-online-instruction/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate certificate program in Effective Online Instruction must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree-granting institution
4. Minimum undergraduate GPA of a 3.0, either overall or in the last 60 credit hours

Fall 2024

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree-granting institution (a GPA of 3.0 or higher is preferred)

Code	Title	Hours
Graduate Certificate in Effective Online Instruction		
Specified Courses		
ISDT 5336	Educational Multimedia	3
ISDT 5365	Technology And Cognition	3
ISDT 5367	Readings and Trends In Instructional Technology	3
ISDT 6351	Distance Learning I	3
Total Hours		12

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Effective Online Instruction is designed to provide graduates with the following marketable skills:

- Identify learning, instructional, and training needs.
- Present learning, instructional, and training needs creatively using technology.
- Work on a virtual team efficiently and effectively.

School Librarian Certification

School Librarian Certification is designed for individuals who have previously obtained a master's degree and are seeking to become a school librarian.

The certification only program is designed to prepare competent professionals for school librarianship. Students will be introduced to library collection development that supports the curriculum as well as reading for pleasure; comprehensive review of children's and young adult literature; how to manage a school library; information and digital literacies; digital tools that school librarians use; reference and services; and cataloging, classification, and subject analysis techniques.

Upon successful completion of the required coursework, students who are classified as certification only will be recommended for the School Librarian Certification exam in Texas. To be recommended for Texas certification, you must have a valid teaching certificate, two years of teaching experience, a master's, the requisite coursework to take the exam, as well as any other requirements included in the Texas Administrative Code for the School Librarian Certificate.

Those who do not already hold a master's degree should seek the School Librarian Certification in conjunction with the Master of Library Science. (<http://graduate-catalog-2015-2016.shsu.edu/home/library-science/master-of-library-science.html>)

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certification/school-librarian/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the School Librarian Certification program must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Admissions Review

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate institution with a GPA of 3.0 or higher. If GPA is lower than a 3.0, the last 60 hours of education can be used.
4. Official transcript from the master degree granting institution with a GPA of 3.0 or higher. If GPA is lower than a 3.0, the last 60 hours of education can be used.

Program Review

1. Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (<http://tinyurl.com/SHSU-EPP-Tech-Fee/>) (paid to the TEA as required by TAC 229.9.7 ([http://texreg.sos.state.tx.us/public/readtac\\$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A](http://texreg.sos.state.tx.us/public/readtac$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A)))) if seeking Texas School Librarian certification.
2. A copy of a valid Texas teaching certificate.
3. Teacher Service Record from your school district's Human Resource Department with 2 years of certified teaching experience preferred
4. Interview
5. Writing Sample

For instructions regarding the application process, please contact the Department of Library Science at (936) 294-1151 or visit the Graduate School (<https://www.shsu.edu/dept/graduate-studies/>) program page.

This 24-hour certification program provides instruction for the principles and procedures common to school libraries and information centers. The primary mission of the Department of Library Science is the preparation of school librarians for grades P-12.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certification/school-librarian/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

- Communication.

School of Teaching and Learning

About

Chair: Dr. Kristina Vargo (kkv003@shsu.edu), (dlm098@shsu.edu) 936-294-4099

Assistant Chair: Dr. Will Blackwell (whb004@shsu.edu), 936-294-3923

Assistant Chair: Dr. Tori Hollas (vxh004@shsu.edu), 936-294-3255

Website: School of Teaching and Learning (<http://www.shsu.edu/academics/school-of-teaching-and-learning/>)

Welcome to the School of Teaching and Learning. The School is home to more than twenty programs at the undergraduate and graduate levels with instruction delivered through face-to-face classes on the Huntsville campus and at the Woodlands Center, as well as, through online learning. The award-winning faculty in the School of Teaching and Learning seek to provide students with opportunities to develop the knowledge and skills that will make them outstanding educators and productive leaders locally, nationally, and globally. Faculty and students engage in learning opportunities on campus, with school partners, and in the community. The School of Teaching and Learning is driven by the motto of the College of Education: Today's Learners, Tomorrow's Leaders. We invite you to visit the School of Teaching and Learning to explore the programs and people that make Sam Houston State University a leader in education.

- Ed.D. in Curriculum & Instruction
- Master of Arts in Applied Behavior Analysis
- Master of Education in Comparative and Global Education
- Master of Education in Curriculum and Instruction
- Master of Education in Literacy Instruction (with or without Texas Reading Specialist)
- Master of Education in Special Education (Educational Diagnostician)
- Master of Education in Teaching and Learning
- Master of Education in TESOL (Teaching English to Speakers of Other Languages)
- Graduate Certificate in Adult Education
- Graduate Certificate in Bilingual (Spanish) Educational Diagnostician
- Graduate Certificate in Digital Literacies
- Graduate Certificate in Dyslexia
- Graduate Certificate in Early Childhood Education
- Graduate Certificate in Second Language Instruction
- Graduate Certificate in Special Education Transition Services
- Educational Diagnostician Certification
- Reading Specialist Certification (Post Graduate)
- Teacher Certification

Chase Jonathan Young, PHD (cxy010@shsu.edu), *Professor of Education, Department of Teaching & Learning*, PHD, Univ of North Texas; MS, Walden University; BA, Metropolitan St Univ of Denver

Ed.D. in Curriculum and Instruction

The Doctor of Education degree in Curriculum and Instruction provides the highest professional degree available to candidates who seek curriculum and instruction leadership positions. The degree requirements include a prescribed curriculum of required and cognate courses and the successful completion of a major research project resulting in the presentation and defense of a dissertation. A comprehensive examination will be taken after the completion of at least 45 hours of coursework. Students must be enrolled during the semester the comprehensive examination is taken. After successful completion of the examination, the student may enroll in the dissertation proposal process.

The program includes:

Code	Title	Hours
Core CIED Courses		21
Research Component		12
Cognate Area		18
Dissertation		9
Total Hours		60

Please see the curriculum outline for a complete listing of program course requirements.

The EdD Program is a modified cohort program. Individuals are admitted to a specific cohort and follow the schedule for the cohort to which they are assigned. Cognate courses may be taken independent from the rest of the cohort and with other members of their cognate. Cohort groups begin in June of each year. In the event of emergencies that require an individual to drop-out of the normal schedule, they may be required to join another cohort group with another schedule. Admission to the program requires a significant commitment of time for the duration of the individual's program. The inability to devote the necessary time will require the individual to drop-out of the program.

Candidates who complete this program can:

- directly help people in the community who need educational support
- train educators to help individuals and groups in the community
- connect with and develop organizations that support education
- develop new programs and approaches to educational instruction that meet the needs of diverse learners
- analyze, interpret, and disseminate educational assessment
- become educational scholars and share research with the field
- read and interpret educational research and disseminate best practices to educators through professional development and training
- systematically evaluate educational programs
- teach in colleges of education around the world

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/doctorate/literacy/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Admission to the program requires a significant commitment of time for the duration of the individual's program. The inability to devote the necessary time will require the individual to drop out of the program.

This program follows a modified cohort model. Individuals are admitted to a specific group, called a cohort, and follow the schedule for the cohort to which they are assigned. Cognate courses may be taken independent from the rest of the cohort, but with other members of their cognate group. Cohorts begin in June of each year. In the event of emergencies that require an individual to drop out of the normal schedule, they may be required to join another cohort group with another schedule.

Applicants seeking admission to the doctoral program in Literacy must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (https://www.applytexas.org/adappc/gen/c_start.WBX)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript(s) showing receipt of a baccalaureate degree and a master's degree from an accredited institution
4. Names and contact information of at least two professional references
5. The master's degree should be in literacy, TESOL, SPED or a related field with at least eighteen hours of graduate credit in their cognate field. Students without the prerequisite eighteen hours in their cognate field may be required to take additional coursework during the program.
6. The graduate GPA should be 3.0 or higher.

Applicants meeting the criteria above may be invited for an interview with the program coordinator. A candidate who fails to meet one of the admission requirements may receive probationary admission if sponsored by a doctoral faculty member.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Ed.D. in Curriculum and Instruction is designed to provide graduates with the following marketable skills:

- Experience in teaching and conducting research in curriculum and instruction.
- Obtain content knowledge and credentials required for securing tenure-track professorships at colleges and universities.
- Establish connections with national and local organizations that support curriculum and instruction and research.
- Ability to develop programs and new approaches to curriculum and instruction that meet the needs of diverse learners.
- Acquire the qualifications necessary to train educators in curriculum and instruction.
- Experience systematically evaluating curriculum and instruction programs.
- Expertise in supporting individuals and groups who struggle with learning.
- Ability to read and interpret curriculum and instruction research and disseminate best practices to educators in the community and around the world.
- Skills required to design and coordinate curricula in the field of curriculum and instruction.

Master of Arts in Applied Behavior Analysis

This 36-hour degree plan is designed for individuals who are seeking board certification in behavior analysis. The degree plan originates in the School of Teaching and Learning.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/special-education-lida/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

To be regularly admitted to the graduate school, applicants must submit to the Office of Admissions:

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official Transcripts for Bachelor's Degree
 - a. Minimum undergraduate GPA of a 3.0, either overall or in the last 60 credit hours
4. Two Recommendation Forms

Fall 2024

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcripts from all colleges and universities attended, both undergraduate and graduate (Note: A minimum GPA of 2.5 in undergraduate and graduate work is expected)
4. Two letters of recommendation

The priority deadline for applications is May 1st. The final deadline is August 1st. Applications are reviewed for Fall semester start dates only.

Total Hours		36

¹ The Association for Behavior Analysis International (ABAI), Inc.® has approved the following course sequence as meeting the 5th edition coursework requirements for eligibility to take the Board Certified Behavior Analyst Examination®. Applicants will have to meet additional requirements to qualify.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Applied Behavior Analysis is designed to provide graduates with the following marketable skills:

- Apply scientifically derived principles about variables in the environment that affect socially significant behavior.
- Use Applied Behavior Analysis to manage the behavior of persons with intellectual disabilities or autism.
- Complete coursework needed to qualify to take the Behavior Analyst Certification Exam.

Master of Education in Comparative and Global Education

The Master of Education in Comparative and Global Education is a 30-hour program consisting of 18 hours of core courses through the School of Teaching and Learning and 12 hours of electives in a field of concentration. Core courses are designed from an educational policy foundations perspective to help students develop the ability to interpret knowledge within historical, philosophical, cultural, and social contexts. Fields of concentration can include: higher education administration, adult education, political science, sociology, public health, kinesiology, instructional technology, curriculum and instruction, early childhood education, special education, literacy instruction, digital literacy, and teaching English to speakers of other languages. Other fields of concentration can be considered to meet the needs and interests of students. The program will prepare students for variety of opportunities, such as:

1. teaching and conducting research in global comparative studies;
2. acting as specialists for United States and global programs, non-governmental agencies, and multilateral and bilateral technical assistance agencies in a variety of roles; and
3. engaging in analysis of educational policy issues in the United States and in other areas of the world.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/comparative-and-global-education/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Master of Education in Comparative and Global Education must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application Fee (<http://www.shsu.edu/admissions/apply-texas.html>)
3. Official transcript from the baccalaureate degree granting institution
4. Minimum undergraduate GPA of a 3.0, either overall or in the last 60 hours

Fall 2024

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application Fee (<http://www.shsu.edu/admissions/apply-texas.html>)
3. Official transcript from the baccalaureate degree granting institution
4. Candidates with a 3.0 GPA¹ from the baccalaureate-granting institution or graduate² will have the GRE automatically waived.

5. Candidates with an undergrad GPA between 2.5 and 2.99 from the baccalaureate-granting institution or between 2.8 and 2.99 in graduate level hours* from the baccalaureate degree-granting institution are required to take the GRE. These candidates must meet the minimum standard with the following formula: $(\text{GPA} \times 50) + \text{GRE Verbal} + \text{GRE Quantitative} + \text{GRE Written}$ equal to or greater than 435.
6. If a GRE was taken prior to 2011: $(\text{GPA} \times 200) + \text{GRE Verbal} + \text{GRE Quantitative} + \text{GRE Written}$ equal to or greater than 1664.

¹ If a numerical GPA is not available, then the department reserves the right to require the GRE.

² If a student has taken graduate level coursework after receiving their Bachelors, but has not received a Masters degree, then those hours become void and are not taken into consideration.

This 30 hour program includes 18 core C&I hours plus 12 hours of electives in a concentrated field. A graduate research project must be completed during the research courses, CIED 5370 and CIED 5371.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MEd in Comparative and Global Education is designed to provide graduates with the following marketable skills:

- Teach and conduct research in global comparative studies.
- Act as specialists for United States and global programs, non-governmental agencies, and multilateral and bilateral technical assistance agencies in a variety of roles.
- Engage in analysis of educational policy issues in the United States and in other areas of the world.

Master of Education in Curriculum and Instruction

Program Coordinator: Dr. Tori Hollas, torihollas@shsu.edu

The Master of Education in Curriculum and Instruction is designed for educators interested in researching, developing and implementing curriculum changes to support achievement. This program allows educators to focus on curriculum methodology, pedagogy, and theoretical applications.

In addition, the program prepares educators to teach dual credit courses and/or courses at the community college level. In collaboration with an advisor in the School of Teaching and Learning, the student will develop an individual plan consistent with the student's interest and needs.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/curriculum-and-instruction/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Master of Education in Curriculum and Instruction must submit the following directly to the Office of Graduate Admissions:

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application Fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree granting institution
4. Minimum undergraduate GPA of a 3.0, either overall or in the last 60 credit hours

Fall 2024

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application Fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree granting institution
4. Candidates with a 3.0 GPA¹ from the baccalaureate-granting institution or graduate² will have the GRE automatically waived.
5. Candidates with an undergrad GPA between 2.5 and 2.99 from the baccalaureate-granting institution or between 2.8 and 2.99 in graduate level hours* from the baccalaureate degree-granting institution are required to take the GRE. These candidates must meet the minimum standard with the following formula:
 - a. $(\text{GPA} \times 50) + \text{GRE Verbal} + \text{GRE Quantitative} + \text{GRE Written}$ equal to or greater than 435.

GRE TAKEN BEFORE AUGUST 2011

$(\text{GPA} \times 200) + \text{GRE Verbal} + \text{GRE Quantitative} + \text{GRE Written}$ equal to or greater than 1664

- ¹ If a student has taken graduate level coursework after receiving their Bachelors, but has not received a Masters degree, then those hours become void and are not taken into consideration
- ² If a numerical GPA is not available, then the department reserves the right to require the GRE.

This program ranges from 30-36 hours. The number of hours varies based on the concentration area selected. Concentration hours may be taken in Curriculum & Instruction or another interest field. Students wishing to teach dual credit courses and/or courses at the Community College level will need an 18 hour Area of Concentration, for example, English, History, and Math.

Other Areas of Concentration may be selected, and will have a requirement of 12-18 hours, depending on departmental requirements.

Total Hours:

30-36

¹ CIED 5394 can only be taken once to fulfill either the program core requirement OR the C&I elective coursework requirement.

² If your approved outside field area is 12 hours, no C&I Electives are needed. If you have chosen not to have an outside field area (Only field C&I), choose 4 C&I electives. courses.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MEd in Curriculum and Instruction is designed to provide graduates with the following marketable skills:

- Prepares educators in researching, developing, and implementing curriculum changes to support student achievement.
- Prepares educators in curriculum methodology, pedagogy, and theoretical applications.
- Prepares educators to teach dual credit courses and/or courses at the community college level.

Master of Education in Literacy Instruction*

*With or without the Reading Specialist Certification

Our ILA Nationally Recognized (<https://www.literacyworldwide.org/get-involved/awards-recognition/national-recognition/recipients/>) fully online Master of Education in Literacy Instruction with Reading Specialist Certification and the Master of Education in Literacy Instruction are designed for practicing professionals in the field of literacy. Both programs develop reflective practitioners with the knowledge and skills for effective reading/language arts instruction for Early Childhood through Secondary learners. Candidates will develop expertise as literacy specialists utilizing resources and methods, literacy assessments, and designing interventions to address varied learning needs of all students. Candidates will have the ability to become proactive instructional leaders and literacy advocates of students at all levels of literacy development. Practicum/Field experience hours with a diverse learner population are embedded in both programs.

Graduates of these program routes have the potential to enhance their literacy classroom practices and/or pursue roles such as literacy coach/specialists, literacy interventionists, and adjunct instructors of undergraduate level literacy courses.

Med in Literacy Instruction with Reading Specialist Certification (36 hours)

This degree is designed for teacher practitioners who are interested in obtaining the Texas Reading Specialist Certification to strengthen their understanding of literacy for application in their classroom or other school settings. Candidates for the Texas Reading Specialist Certification must have a valid elementary or secondary Texas teaching certification along with two years of successful teaching experience before taking the Reading Specialist exam (Two years can be concurrent with the program). One hundred and sixty hours (160) of practicum/field experience with diverse learner populations are embedded in the program. Field experience hours must be completed at a TEA approved location. Candidates are required to secure their own TEA-approved location for practicum experiences.

Applicants best suited for this degree would be those who hold a valid Texas Teaching certification, will have two years of experience in public education by the end of the program, live in Texas, and can conduct all field hours in a TEA approved location. Applicants who have earned a Masters or higher degree may seek the 24 semester credit hour certification route only.

Med in Literacy Instruction (36 hours)

This degree is designed for practitioners both in and out of the classroom who want to strengthen their understanding of literacy as a literacy specialist for application in their classroom or other learning settings. One hundred and sixty hours (160) of practicum/field experience with diverse learner populations are embedded in the program. Candidates are required to secure their own location for practicum experiences. While both programs follow the same degree plans, this route will not lead to obtaining the Texas Reading Specialist Certification.

Applicants best suited for this degree would be those who live and/or teach out-of-state/country, teach private or home-school, are private literacy practitioners, or do not wish to sit for the Texas Reading Specialist exam.

Some coursework for this degree can apply toward the Graduate Certificate in Dyslexia concurrently and/or post-completion. Information on that program can be found at Graduate Certificate in Dyslexia. (<http://catalog.shsu.edu/graduate-and-professional/college-departments/education/school-of-teaching-and-learning/dyslexia-certificate/#descriptiontext>)

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/reading-language-arts/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

To be regularly admitted to the graduate school, applicants must participate in an interview process and submit to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Note: The Dyslexia Certificate can be added to this plan.

Spring 2025

University Application Deadlines:

Fall: August 1st

Spring: December 15th

Summer: May 15th

ALL applicants:

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcripts for any Bachelor's or Master's degrees
 - a. Minimum GPA of a 3.0, either overall or in the last 60 credit hours, for any Bachelor's and Master's degrees. If you are interested in the program but have less than a 3.0 GPA, contact the program coordinator.
4. Acceptable Professional Goals writing sample. This writing sample should be no more than two pages double-spaced and 12 pt font with proper essay format. The writing sample will be scored on the ability of the applicant to demonstrate awareness of context, audience, and purpose. Additionally, the writing sample should demonstrate the ability to use appropriate and relevant content, provide at least one credible source to support a point of view(s), and the ability to use written language to convey meaning with clarity.
 - a. What have your experiences with reading/language arts been thus far which has led you to pursue a graduate degree?
 - b. Select one belief about teaching literacy that you feel passionate about and explain why as well as how you came to this belief?
 - c. Upon completion of the program, what are your goals for your earned Master of Education in Reading/Language Arts degree (If you are seeking Texas Reading Specialist Certification, include those goals as well.)
5. Video Interview. Video link uploaded with the application. The oral communication sample will be scored on the ability of the applicant to use an organizational pattern to communicate points, use appropriate language, be aware of the intended audience, use a variety of delivery techniques to make the presentation tentative, use supporting materials, such as showing examples, visuals, explanations, and/or other appropriate sources to establish support on the topic, and clearly has a central message to convey. Record a 3-4 minute video of yourself that answers the following questions.
 - a. How many years have you been a classroom teacher?
 - b. What experiences do you have teaching reading and/or language arts and what led you to pursue graduate studies specializing in literacy?
 - c. What does it mean to be understanding, respectful, and inclusive of diverse populations?
 - d. Explain and offer an example of how you would use technology to create authentic [literacy] learning.
 - e. What are your expectations of this master's program, why should you be admitted into the program, and what do you intend to do once you have earned this degree?

For applicants seeking the Texas Reading Specialist certification:

In addition to the above required items:

1. Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (<http://tinyurl.com/SHSU-EPP-Tech-Fee/>) (paid to the TEA as required by TAC 229.9.7 ([http://texreg.sos.state.tx.us/public/readtac\\$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A](http://texreg.sos.state.tx.us/public/readtac$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A)))) if seeking Texas Reading Specialist certification
2. A copy of applicant's teaching certificate
3. A teacher service record with at least one year of successful teaching experience. If this is the applicant's first year, submit a letter from the principal on school letterhead stating you are "Teacher of Record." A formal service record must be submitted prior to completing all course work.
4. Official transcripts for any Bachelor's or Master's degrees

Note: ONLY Applicants with a complete file are reviewed for regular admission by graduate faculty in each program area and are selected by faculty based on information in the completed file.

Fall 2024

Admission Deadlines:

Summer start: May 1st application due date

Fall start: August 1st application due date

ALL applicants:

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcripts from all colleges and universities attended, both undergraduate and graduate (Note: A minimum GPA of 2.8 in undergraduate and graduate work is expected either overall or within the last 60 hours).
 - a. If you are interested in the program but have less than a 2.8 GPA, contact the program coordinator.
4. Acceptable Professional Goals writing sample. This writing sample should be no more than two pages double-spaced and 12 pt font with proper essay format. The writing sample will be scored on the ability of the applicant to demonstrate awareness of context, audience, and purpose. Additionally, the writing sample should demonstrate the ability to use appropriate and relevant content, provide at least one credible source to support a point of view(s), and the ability to use written language to convey meaning with clarity.
 - a. What have your experiences with reading/language arts been thus far which has led you to pursue a graduate degree?
 - b. Select one belief about teaching literacy that you feel passionate about and explain why as well as how you came to this belief?
 - c. Upon completion of the program, what are your goals for your earned Master of Education in Reading/Language Arts degree (If you are seeking Texas Reading Specialist Certification, include those goals as well.)
5. Video Interview. Video link uploaded with the application. The oral communication sample will be scored on the ability of the applicant to use an organizational pattern to communicate points, use appropriate language, be aware of the intended audience, use a variety of delivery techniques to make the presentation tentative, use supporting materials, such as showing examples, visuals, explanations, and/or other appropriate sources to establish support on the topic, and clearly has a central message to convey. Record a 3-4 minute video of yourself that answers the following questions.
 - a. How many years have you been a classroom teacher?
 - b. What experiences do you have teaching reading and/or language arts and what led you to pursue graduate studies specializing in literacy?
 - c. What does it mean to be understanding, respectful, and inclusive of diverse populations?
 - d. Explain and offer an example of how you would use technology to create authentic [literacy] learning.
 - e. What are your expectations of this master's program, why should you be admitted into the program, and what do you intend to do once you have earned this degree?

For applicants seeking the Texas Reading Specialist certification:

In addition to the above required items:

1. Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (<http://tinyurl.com/SHSU-EPP-Tech-Fee/>) (paid to the TEA as required by TAC 229.9.7 ([http://texreg.sos.state.tx.us/public/readtac\\$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A](http://texreg.sos.state.tx.us/public/readtac$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A)))) if seeking Texas Reading Specialist certification
2. A copy of applicant's teaching certificate
3. A teacher service record with at least one year of successful teaching experience. If this is the applicant's first year, submit a letter from the principal on school letterhead stating you are "Teacher of Record." A formal service record must be submitted prior to completing all course work.
4. Official transcript from all colleges attended, both undergraduate and graduate, with a minimum of a 2.8 GPA reflected. If GPA is less the 2.8 overall or in the last 60 SCH, official GRE scores must be submitted. Minimum scores required are listed in the table below.

If GPA is lower than 2.8: GRE revised General Test Score Bands to be used for Admission to an Educator Preparation Program under the 10% Exception Rule in 19 TAC §227.10(a)(3)(B).

Self-reported Undergraduate GPA	GRE Verbal Reasoning ¹	GRE Quantitative Reasoning ¹	GRE Analytical Writing ²
B- (2.7 GPA)	143-157	140-155	3.0-4.5

¹ GRE Verbal and Quantitative scores are reported on a 130 to 170 scale.

² GRE Analytical Writing scores are reported on a 0 to 6 scale in half-point increments.

Under these circumstances, the GRE may not be waived.

Note: ONLY Applicants with a complete file are reviewed for regular admission by graduate faculty in each program area and are selected by faculty based on information in the completed file.

All admitted graduate candidates follow a fall, spring, and summer cohort degree plan model with a specific course sequence based on semester admitted.

MEd in Literacy Instruction with Reading Specialist Certification (36 hours)

This degree is designed for teacher practitioners who are interested in obtaining a Texas Reading Specialist Certification to strengthen their understanding of literacy for application in their classroom or other school settings. Candidates for the Texas Reading Specialist Certification must have a valid elementary or secondary Texas teaching certification along with two years of successful teaching experience before taking the Reading

Specialist exam (Two years can be concurrent with the program). One hundred and sixty hours of practicum/field experience with diverse learner population are embedded in the program. Field experience hours must be completed at a TEA approved location.

Reading Specialist Certification Requirements:

1. 36 hours course work
2. 160 hours of field experience (embedded into the program) in a TEA approved location
3. Valid Texas Teaching certificate and official educator service record (submitted with application)
4. At least 2 years teaching experience at completion of program

MEd in Literacy Instruction (36 hours)

This degree is designed for practitioners both in and out of the classroom who want to strengthen their understanding of literacy for application in their classroom or other learning settings. 160 hours of practicum/field experience with diverse learner population are embedded in the program. While both programs follow the same degree plans, this route will not lead to obtaining a Texas Reading Specialist Certification.

Requirements:

1. 36 hours course work
2. 160 hours of field experience (embedded into the program) in a program approved location (flexible)

Candidates are expected to follow their cohort degree/course sequence plan. Candidates take courses during fall, spring, and summer.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MEd in Literacy Instruction is designed to provide graduates with the following marketable skills:

- Literacy leadership skills to support roles such as literacy coach/specialists and literacy interventionists.
- Literacy advocacy skills.
- Higher education pedagogical skills to support roles such as adjunct instructors of undergraduate level literacy courses.

Master of Education in Special Education

The Master of Education in Special Education is designed to prepare professional educators with advanced competencies related to the field of special education. This is a 36-hour degree plan that originates in the School of Teaching and Learning. The candidate must successfully complete a

departmental comprehensive examination. Candidates must be enrolled in coursework during the semester they take the comprehensive examination. The Master of Education (M.Ed.) in Special Education is accredited by CAEP, CEC, and SBEC.

The **M.Ed. in Special Education** course of study advances their students' knowledge and expertise in innovative research and teaching practices for learners with disabilities. This online program seeks to examine and refine disability policies informed by current research, implement and evaluate research-based practices, seek solutions to systemic injustice, and explore diverse cultural perspectives on disability. Students enrolled in the online M. Ed. Special Education program maximize their professional competence, career advancement, leadership roles, advocacy, and systems' change competencies. This online program offers the convenience of studying at one's own pace and in comfortable spaces.

The **M.Ed. in Special Education with Transition Services Certificate** course of study is aligned with the Council for Exceptional Children's Advanced Special Education Transition Specialist standards and is designed to meet the growing need for a specialized skilled set in transition services for special education teachers and professionals working in the field of special education transition services. Students enrolled in the online M.Ed. in Special Education with Transition Certificate program maximize their professional competence, career advancement, leadership roles, and advocacy and systems' change competencies in the field of transition. Courses are taught online; eleven (11) courses are online asynchronous and one (1) course is hybrid.

The **M.Ed. in Special Education with Educational Diagnostician Certification** course of study provides the academic foundations necessary for the Standard Educational Diagnostician Certification. This program provides students with the knowledge, skills, and dispositions needed to apply research, methods, and recommended practices for the effective assessment and instruction of learners with special needs in diverse school and community settings. This is a hybrid program with seven (7) asynchronous online courses and five (5) hybrid courses.

The **M.Ed. in Special Education with Educational Diagnostician Certification and Bilingual Diagnostician Certificate** course of study provides the academic foundations necessary for the Standard Educational Diagnostician Certification. This program provides students who have Spanish and English language proficiency the ability to evaluate Emergent Bilinguals (EB) as well as students who are monolingual English speakers. Graduate students learn to establish language dominance and proficiency in Spanish and English, conduct assessments, interpret results, and make educational recommendations for learners in school settings. This is a hybrid program with seven (7) asynchronous online courses and five (5) hybrid courses.

To be eligible to receive the Standard Educational Diagnostician Certification, a candidate must:

- Successfully complete an educational diagnostician preparation program that meets the requirements of TAC §239.82 (complete all the requirements on the SHSU Course Plan) and TAC §239.83.
- Successfully complete the examination based on the standards identified in TAC §239.83.
- Hold, at a minimum, a master's degree from an accredited institution of higher education that at the time was accredited or otherwise approved by an accrediting organization recognized by the Texas Higher Education Coordinating board.
- Hold a valid classroom teaching certificate.
- Have three creditable years of teaching experience as a classroom teacher (2 years of service may be earned while enrolled in the program)

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/special-education/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

To be considered for regular admittance to the Graduate School and the M.Ed. in Special Education program, applicants must submit the following to the Office of Graduate Admissions:

Spring 2025

1. Graduate application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcripts from all degrees earned
4. Minimum undergraduate GPA of a 3.0, either overall or in the last 60 credit hours
5. Two recommendation forms
6. **Transition Services:** Curriculum vitae or resume
7. **Educational Diagnostician:** Interview video
8. **Educational Diagnostician:** Copy of applicant's Teaching Certificate
9. **Educational Diagnostician:** Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (https://secure.touchnet.com/C21329_ustores/web/product_detail.jsp?PRODUCTID=1601) (paid to the TEA as required by TAC 229.9.7)
10. **Educational Diagnostician:** Teacher Service Record with at least 2 years of creditable service as a teacher of record

Fall 2024

1. Graduate application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)

3. Official transcripts from all colleges and universities attended, both undergraduate and graduate, that reflect a 2.75 GPA overall or in the last 60 hours
4. Contact information for two references
5. Writing sample (https://www.shsu.edu/academics/school-of-teaching-and-learning/documents/Writing_Sample_Instructions.pdf) or Letter of Interest
6. Official GRE (<http://www.ets.org/gre/>) scores, if GPA in last 60 hours is below a 2.75 (Minimum scores required are listed in the table below.)
7. **Transition Services:** Curriculum vitae or resume
8. **Educational Diagnostician:** Interview video
9. **Educational Diagnostician:** Copy of applicant's Teaching Certificate
10. **Educational Diagnostician:** Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (https://secure.touchnet.com/C21329_ustores/web/product_detail.jsp?PRODUCTID=1601) (paid to the TEA as required by TAC 229.9.7)
11. **Educational Diagnostician:** Teacher Service Record with at least 2 years of creditable service as a teacher of record

GRE revised General Test Score Bands to be used for Admission to an Educator Preparation Program under the 10% Exception Rule in 19 TAC §227.10(a)(3)(B):

Self-reported Undergraduate GPA	GRE Verbal Reasoning ¹	GRE Quantitative Reasoning ¹	GRE Analytical Writing ²
B-(2.7 GPA)	143-157	140-155	3.0-4.5

¹ GRE Verbal and Quantitative scores are reported on a 130 to 170 scale.

² GRE Analytical Writing scores are reported on a 0 to 6 scale in half-point increments.

Under these circumstances, the GRE may not be waived.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The **M.Ed. in Special Education** (Online) is designed to provide graduates with the following marketable skills:

- Leadership opportunities in public-private education, non-profit agencies, and foundations.
- Knowledge and expertise in innovative research and teaching practices for learners with disabilities.

The **M.Ed. in Special Education with Transition Services Certificate** is designed to provide graduates with the following marketable skills:

- Special Education Transition Services Certificate composed of courses aligned with the Council for Exceptional Children's Advanced Special Education Transition Specialist standards.
- Knowledge, skills, and dispositions to provide transition assessment and services in order to prepare students with disabilities for living, learning, and working in their communities.

The **M.Ed. in Special Education with Educational Diagnostician Certification** is designed to provide graduates with the following marketable skills:

- Educational Diagnostician Certification.
- Knowledge and skills necessary to improve the performance of a diverse student population.
- Currency in best practices and research as related to both assessment and student learning.
- Skills necessary to provide educational assessment and evaluation, as required by the Individuals with Disabilities Education Act (IDEA) or other applicable law, for students from birth through adulthood.

The **M.Ed. in Special Education with Educational Diagnostician Certification and Bilingual Diagnostician Certificate** is designed to provide graduates with the following marketable skills:

- Educational Diagnostician Certification.
- Graduate Certificate in Bilingual (Spanish) Educational Diagnostician.
- Knowledge and skills necessary to improve the performance of a diverse student population.
- Currency in best practices and research as related to both assessment and student learning.
- Skills necessary to provide educational assessment and evaluation, as required by the Individuals with Disabilities Education Act (IDEA) or other applicable law, for students from birth through adulthood.

Master of Education in Teaching and Learning

The Master of Education in Teaching and Learning is a 30 hour program that includes 24 hours of core course work and 6 hours of field experience, taken during an internship in a Texas P-12 school. This program of study leads to the Master of Education degree and Texas teacher certification. A graduate research project must be completed during the research course CIED 5370.

Applicants interested in pursuing Masters of Education in Teaching and Learning should contact the School of Teaching and Learning (<https://www.shsu.edu/academics/school-of-teaching-and-learning/>) at (936) 294-3956 for more information.

The Master of Education in Teaching and Learning program at Sam Houston State University is fully accredited by the Texas Education Agency through the Texas Accountability System for Educator Preparation Programs.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/teaching-and-learning/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Master of Education in Teaching and Learning program must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>)
2. Application Fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>)
3. Admission Essay
4. Application to the Educator Preparation Program (EPP).
5. A passing score on the Pre-admission Content (PACT) exam (<https://tea.texas.gov/texas-educators/certification/educator-testing/pre-admission-content-test/>) for certification area.
6. Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (<http://tinyurl.com/SHSU-EPP-Tech-Fee/>) (paid to the TEA as required by TAC 229.9.7 ([http://texreg.sos.state.tx.us/public/readtac\\$ext.TacPage?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A](http://texreg.sos.state.tx.us/public/readtac$ext.TacPage?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A)))) if seeking Texas Teacher certification.
7. Pay the \$100 Educator Preparation Program Fee (https://secure.touchnet.com/C21329_ustores/web/product_detail.jsp?PRODUCTID=60).

8. Official transcript (indicating an undergraduate degree) from an accredited academic institution.
9. Candidates must have a minimum 3.0 GPA for the baccalaureate degree or the last 60 hours of coursework.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MEd in Teaching and Learning is designed to provide graduates with the following marketable skills:

- Preparation for Texas Teacher Certification in Prekindergarten through third grade
- Prepared to teach all content areas necessary for PK – 3rd Grade
- Prepared to implement evidence-based methods of teaching and learning
- Fully qualified to teach in Texas Public schools

Master of Education in TESOL (Teaching English to Speakers of Other Languages)

The Master of Education in Teaching English to Speakers of Other Languages (TESOL) program prepares exemplary educational leaders in the field of second language teaching and learning. Faculty are dedicated to providing candidates with in-depth knowledge of theories of second language acquisition and methodologies, which promote second language literacy and learning at all educational levels. Program faculty share the philosophy that teaching and learning is a lifelong process, as expressed by many educators. Our program models this philosophy by supporting the development of lasting professional relationships among classmates, graduates, and faculty. The theoretical and practical training offered in our master's program allows students and graduates to work and teach in variety of language settings. We guide our students to construct their own educational philosophies within a framework which recognizes and values the many ways learners participate in and contribute to classroom learning communities.

Graduates of this program will be able to:

- Articulate theories, processes, and principles of second language acquisition and second language literacy.
- Examine the linguistic, sociocultural, cognitive, and psychological foundations of language and literacy.
- Identify instructional strategies and materials that promote the acquisition of language and literacy for multilingual learners.
- Evaluate informal and formal assessments for multilingual learners.
- Engage in reflective analysis of personal beliefs and systematic inquiry into diverse cultures in order to construct a pedagogy in which diversity is an explicit part of the curriculum.
- Integrate technology to enhance the learning opportunities of multilingual learners.
- Conduct research in second language learning and teaching.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/teaching-english-to-speakers-of-other-languages/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate program in TESOL must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)

The MEd in TESOL is designed to provide graduates with the following marketable skills:

- Cross-cultural communication skills.
- Intercultural competence skills.
- Critical awareness and thinking skills.
- Reflective practitioners.

Graduate Certificate in Adult Education

The Adult Education certificate provides educators with strategies and techniques necessary to effectively educate adults. Individuals holding either a bachelors or masters degree wishing to refine skills in providing professional development and adult education training in schools, businesses, non-profit organizations, and/or institutions of higher learning are ideal candidates for this certificate.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/adult-education/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Adult Education certificate program must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Graduate Certificate in Bilingual (Spanish) Educational Diagnostician

The Bilingual Educational Diagnostician Certificate Program prepares educational diagnosticians who have Spanish and English language proficiency to evaluate Emergent Bilinguals (EB) and students who are monolingual. Candidates determine language dominance and proficiency, conduct assessments, interpret results, and make educational recommendations for learners in school settings. This certificate is available for candidates who are enrolled in a Bilingual Educational Diagnostician Cohort or candidates who already hold a state-issued Educational Diagnostician certification.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA). To access financial aid, students must be enrolled in 6 credit hours during the Fall and/or Spring semesters and 3 hours during the Summer semesters.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/bilingual-educational-diagnostician/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate certificate program in the Bilingual Educational Diagnostician Program must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)

Note: This SHSU bilingual certificate is issued in conjunction with the state-issued Educational Diagnostician certification and must meet all state requirements.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's 60x30TX plan and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Bilingual (Spanish) Educational Diagnostician is designed to provide graduates with the following marketable skills:

- Interpreting evaluation results to parents and stakeholders
- Bilingual assessment practices
- Diagnostic skills
- Reporting and data analysis

Graduate Certificate in Digital Literacies

Given the implications of current policy and technology in education, this certificate will provide coursework that allows participants to examine the role of digital literacy in education through the evaluation of digital literacies, their politics, problems, and possibilities, and will enable a deeper understanding of ways to incorporate digital literacies into curricula. Educators will gain a richer conceptualization of digital literacies and their place in twenty-first century education, in addition to understanding ways to apply appropriate programs and applications to their current teaching practices.

This Graduate Certificate is not eligible to receive Title IV funding – Direct Loans, Pell Grant, TEACH Grant, SEOG Grant, or Federal Work Study. Students enrolled in this program should explore alternative funding options and are encouraged to contact the financial aid office for assistance.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/digital-literacies/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit

Applicants seeking admission to the graduate certificate program in Digital Literacies must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Digital Literacies is designed to provide graduates with the following marketable skills:

- Stay current with existing technology
- Develop communication skills in an online environment
- Learn skills to independently research and problem-solve

Graduate Certificate in Dyslexia

The fully online Graduate Certificate in Dyslexia provides students with the strategies and techniques necessary to effectively assess and plan instruction for students with dyslexia. This certificate will benefit individuals who wish to incorporate instructional strategies in the classroom or as a dyslexia interventionists. This dyslexia certificate coursework covers the necessary components that the State of Texas outlines in The Dyslexia Handbook (2021). SHSU students who complete the course work for this certificate will gain competence in assessment and differential screening, instruction in the components of phonological and graphophonemic knowledge, and instruction that is multisensory, explicit, sequential, and

cumulative. This certificate is not a licensing or national certification program but rather focuses on the classroom practitioner and/or interventionist. Fifty (50) field experience/practicum hours are embedded in the coursework.

The coursework for this certificate can apply toward the Master of Education in Reading/Language Arts degree concurrently and/or post-completion. Information on that program can be found at MEd in Literacy Instruction.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/dyslexia/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate Dyslexia certificate program in Education must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcripts from Bachelor's and Master's degrees
 - a. Minimum GPA of a 3.0, either overall or in the last 60 credit hours
 - b. If you are interested in the program but have less than a 3.0 GPA, contact the program coordinator.
4. Acceptable Professional Goals writing sample. This writing sample should be no more than two pages double-spaced and 12 pt font with proper essay format. The writing sample will be scored on the ability of the applicant to demonstrate awareness of context, audience, and purpose. Additionally, the writing sample should demonstrate the ability to use appropriate and relevant content, to provide at least one credible source to support a point of view(s), and to use written language to convey meaning with clarity.
 - a. What have your professional literacy experiences been thus far which have led you to pursue the Dyslexia graduate certificate?
 - b. Select one belief about teaching literacy that you feel passionate about and explain why, as well as how, you came to this belief.
 - c. Upon completion of the program, what are your goals for your earned Dyslexia Certificate?

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's 60x30TX plan and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Dyslexia is designed to provide graduates with the following marketable skills:

- Learn appropriate learning activities and assessments for students
- Diagnostic skills for assessing students
- Learn structured literacy planning and teaching

Graduate Certificate in Early Childhood Education

The Early Childhood Education Certificate offers additional coursework in Early Childhood Education to public and private school teachers, administrators, and support professionals who hold a baccalaureate degree and who are seeking additional knowledge and training in the field of Early Childhood Education. This Certificate can be used as an area of emphasis in many M.Ed programs within the College of Education.

This Graduate Certificate is not eligible to receive Title IV funding – Direct Loans, Pell Grant, TEACH Grant, SEOG Grant, or Federal Work Study. Students enrolled in this program should explore alternative funding options and are encouraged to contact the financial aid office for assistance.

Note: The graduate certificate in Early Childhood Education DOES NOT lead to teacher certification.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/early-childhood-education/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate certificate program in Early Childhood Education must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree granting institution
4. Minimum undergraduate GPA of a 3.0, either overall or in the last 60 credit hours
5. Two Recommendation Forms

For recommendation forms, please contact the School of Teaching and Learning (stlgraduate@shsu.edu) or visit the Graduate Certificate in Early Childhood Education program landing page. (<http://www.shsu.edu/programs/graduate-certificate-in-early-childhood-education/>)

Fall 2024

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree granting institution
4. A list of 3 professional references with contact information.
5. Writing sample

For recommendation forms and writing sample instructions, please contact the School of Teaching and Learning (stlgraduate@shsu.edu) or visit the Graduate Certificate in Early Childhood Education program landing page. (<http://www.shsu.edu/programs/graduate-certificate-in-early-childhood-education/>)

¹ One graduate early childhood (ECHE) course is offered per semester.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's 60x30TX plan and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Early Childhood Special Education is designed to provide graduates with the following marketable skills:

- Learn about child development and best practices for students with special needs
- Teaching methods for young children and families
- Learn how to assess young children with additional learning needs
- Community and family relations skills

Graduate Certificate in Second Language Instruction

The Second Language Instruction certificate is designed for national and international in-service teachers who work with students learning English as a second or foreign language in elementary, secondary, university, or adult education programs. Courses include training in theoretical and applied linguistics, second language teaching methodology, and the cultural aspects of language learning, teaching, and assessment.

This certificate has been approved by the Higher Education Coordinating Board and is awarded by Sam Houston State University.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/second-language-instruction/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate certificate in Second Language Instruction must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's 60x30TX plan and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Second Language Instruction is designed to provide graduates with the following marketable skills:

- Culturally responsive teaching skills
- Best practice instructional skills
- Lesson design and planning
- Curriculum development
- Working with cultural and linguistically diverse families

Graduate Certificate in Special Education Transition Services

The Graduate Certificate in Special Education Transition Services is designed for post-bachelor's degree students interested in developing and increasing their skills in the area of special education transition services. The training is also of benefit to special educators seeking a master's degree with an emphasis on transition services and to employees in state agencies with responsibility for supporting adults with disabilities in the workforce and vocational rehabilitation fields. The Graduate Certificate in Special Education Transition Services courses are aligned with the Council for Exceptional Children's Advanced Special Education Transition Specialist standards.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/special-education-transition-services/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Graduate Certificate in Special Education Transition Services must submit the following directly to the Office of Graduate Admission:

Spring 2025

- Graduate Application (<https://www.shsu.edu/admissions/apply-texas.html>)
- Application Fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>)
- Official transcripts from all degrees earned
- Minimum undergraduate GPA of a 3.0, either overall or in the last 60 credit hours
- Two recommendation forms
- Curriculum vitae or resume

Fall 2024

- Graduate Application (<https://www.shsu.edu/admissions/apply-texas.html>)
- Application Fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>)
- Official transcript from the colleges and universities attended, both undergraduate and graduate, that reflect a 2.75 GPA overall or in the last 60 hours
- Contact information for two references

- Curriculum vitae or resume
- Writing sample (https://www.shsu.edu/academics/school-of-teaching-and-learning/documents/Writing_Sample_Instructions.pdf)

The Graduate Certificate in Special Education Transition Services is comprised of four special education courses to facilitate transition from secondary education to adult settings. This program affords access to the necessary online learning resources, including access to materials and support from the SHSU Newton Gresham Library (<https://library.shsu.edu/>) as well as technology support from IT@Sam (<https://www.shsu.edu/dept/it@sam/>).

The specialization courses for the Graduate Certificate in Special Education Transition Services is offered online and includes the following required courses:

Code	Title	Hours
Graduate Certificate in Special Education Transition Services		
Required Courses		
SPED 5306	Transition Services for Individuals with Disabilities	3
SPED 5307	Transition Assessment and Instruction	3
SPED 5308	Career Development & Employment for Youth with Disabilities	3
SPED 5309	Leadership in Transition Services	3
Total Hours		12

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's 60x30TX plan and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Special Education Transition Services is designed to provide graduates with the following marketable skills:

- Learn about adolescent to adult development and best practices for students with special needs as they transition to adulthood
- Community and family relations skills for the transition from K-12 to work or post-secondary education

Educational Diagnostician Certification

The Educational Diagnostician Certification program is designed for individuals seeking to improve and extend their professional skills in special education. The coursework provides candidates with the academic foundations for certification as an Educational Diagnostician. Courses are taught online, one (1) asynchronous online course and four (4) synchronous online courses.

To be eligible to receive the standard Educational Diagnostician Certificate, a candidate must:

- Successfully complete an educational diagnostician preparation program that meets the requirements of TAC §239.82 (complete all the requirements on the SHSU Course Plan) and TAC §239.83.
- Successfully complete the examination based on the standards identified in TAC §239.83.
- Hold, at a minimum, a master's degree from an accredited institution of higher education that at the time was accredited or otherwise approved by an accrediting organization recognized by the Texas Higher Education Coordinating board.
- Hold a valid classroom teaching certificate.
- Have three creditable years of teaching experience as a classroom teacher (1 year of service may be earned while enrolled in the program)

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certification/educational-diagnostician/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission for the Educational Diagnostician Certification must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Spring 2025

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (https://secure.touchnet.com/C21329_ustores/web/product_detail.jsp?PRODUCTID=1601) (paid to the TEA as required by TAC 229.9.7)
4. Official transcripts for Bachelor's and Master's degrees
5. Minimum GPA of a 3.0, either overall or in the last 60 credit hours
6. Two Recommendation Forms
7. Copy of applicant's Teaching Certificate

8. Teacher Service Record with at least 2 years of creditable service as a teacher of record
9. Interview video

Fall 2024

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (https://secure.touchnet.com/C21329_ustores/web/product_detail.jsp?PRODUCTID=1601) (paid to the TEA as required by TAC 229.9.7)
4. Official transcripts from all colleges and universities attended, both undergraduate and graduate, that reflect an overall GPA or last 60-SCH GPA of at least 2.75. Additional courses may be required after transcripts are evaluated.
5. Contact information for two references
6. Writing Sample (https://www.shsu.edu/academics/school-of-teaching-and-learning/documents/Writing_Sample_Instructions.pdf)
7. Copy of applicant's Teaching Certificate
8. Official GRE (<http://www.ets.org/gre/>) scores, if GPA in last 60 hours is below a 2.75. Minimum scores required are listed in the table below.
9. Teacher Service Record with at least 2 years of creditable service as a teacher of record
10. Interview video

GRE revised General Test Score Bands to be used for Admission to an Educator Preparation Program under the 10% Exception Rule in 19 TAC §227.10(a)(3)(D)

Self-reported Undergraduate GPA	GRE Verbal Reasoning ¹	GRE Quantitative Reasoning ¹	GRE Analytical Writing ²
B-(2.7 GPA)	143-157	140-155	3.0-4.5

¹ GRE Verbal and Quantitative scores are reported on a 130 to 170 scale.

² GRE Analytical Writing scores are reported on a 0 to 6 scale in half-point increments.

Under these circumstances, the GRE may not be waived.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certification/educational-diagnostician/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Code	Title	Hours

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's 60x30TX plan and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Educational Diagnostician Certificate is designed to provide graduates with the following marketable skills:

- Interpreting evaluation results to parents and stakeholders
- Assessment practices
- Diagnoses skills and learning ability
- Reporting and data analysis

Reading Specialist Certification (Post Graduate)

This ILA Nationally Recognized program is a stand-alone 24 credit hour fully online certification. This program is for applicants who currently hold a Masters or higher graduate degree. The Certification is designed for teacher practitioners who are interested in obtaining a Texas Reading Specialist Certification to strengthen their understanding of literacy for application in their classroom or other school settings. This program develops reflective practitioners with the knowledge and skills for effective reading/language arts instruction for Early Childhood through Secondary learners. Candidates will develop expertise as literacy specialists utilizing resources and methods, literacy assessments, and designing interventions to address varied learning needs of all students. Candidates will have the ability to become proactive instructional leaders and literacy advocates of students at all levels of literacy development. Practicum/Field experience hours with a diverse learner population are embedded in both programs.

Graduates of this program have the potential to enhance their literacy classroom practices and/or pursue roles such as literacy coach/specialists, literacy interventionists, and adjunct instructors of undergraduate-level literacy courses.

Candidates for the Texas Reading Specialist Certification must have a valid elementary or secondary Texas teaching certification, along with two years of successful teaching experience before taking the Reading Specialist exam (Two years can be concurrent with the program). One hundred and sixty hours of practicum/field experience with diverse learner populations are embedded in the program. Field experience hours must be completed at a Texas Education Agency (TEA) approved location.

Students must successfully complete coursework within the M.Ed. in Literacy Instruction program and 160 hours of documented field experience to be recommended to take the exam. Field hours are embedded in the course work. Candidates are required to secure their own TEA-approved location for practicum experiences.

TEA requires a graduate degree to be recommended for the Texas Reading Specialists certification; therefore, this stand-alone certification is only offered for those holding a graduate degree. All others should seek the M.Ed. in Literacy Instruction program.

If an applicant does not hold a graduate degree, lives out-of-state, teaches at a private school, or is not able to complete the field experience hours in a TEA location, the M.Ed. in Reading/Language Arts is nationally accredited by the International Literacy Association to develop all-level Reading Specialist dispositions. This route will strengthen their understanding of literacy for application in their classroom or other school settings. Such an applicant would seek the M.Ed. in Literacy Instruction route.

Currently not eligible for financial aid assistance.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certification/reading-specialist/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Admission Requirements

To be regularly admitted to the Graduate School, applicants must submit the following to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

Spring 2025

University Application Deadlines:

Fall: August 1st

Spring: December 15th

Summer: May 15th

1. Proof of holding a graduate degree
2. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
3. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
4. Pay the \$35 Texas Education Accountability System for Educator Preparation Programs Fee (<http://tinyurl.com/SHSU-EPP-Tech-Fee/>) (paid to the TEA as required by TAC 229.9.7 ([http://texreg.sos.state.tx.us/public/readtac\\$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A](http://texreg.sos.state.tx.us/public/readtac$ext.TacPage/?sl=R&app=9&p_dir=&p_rloc=&p_tloc=&p_ploc=&pg=1&p_tac=&ti=19&pt=7&ch=229&rl=9%E2%88%9A)))) if seeking Texas Reading Specialist certification
5. Official transcripts from Bachelor's and Master's degrees
 - a. Minimum GPA of a 3.0, either overall or in the last 60 credit hours, for both Bachelor's and Master's degrees. If you are interested in the program but have less than a 3.0 GPA, contact the program coordinator.
6. A copy of applicant's Texas teaching certificate
7. A teacher service record with at least one year of creditable teaching experience
8. Acceptable Professional Goals writing sample. This writing sample should be no more than two pages double-spaced and 12 pt font with proper essay format. The writing sample will be scored on the ability of the applicant to demonstrate awareness of context, audience, and purpose. Additionally, the writing sample should demonstrate the ability to use appropriate and relevant content, provide at least one credible source to support a point of view(s), and the ability to use written language to convey meaning with clarity.

- a. What have your experiences with reading/language arts been thus far which has led you to pursue a graduate degree?
 - b. Select one belief about teaching literacy that you feel passionate about and explain why as well as how you came to this belief?
 - c. Upon completion of the program, what are your goals for your earned Master of Education in Reading/Language Arts degree (If you are seeking Texas Reading Specialist Certification, include those goals as well.)?
9. Video Interview. Video link uploaded with the application. The oral communication sample will be scored on the ability of the applicant to use an organizational pattern to communicate points; use appropriate language; be aware of the intended audience; use a variety of delivery techniques to make the presentation tentative; use supporting materials such as showing examples, visuals, explanations, and/or other appropriate sources to establish support on the topic; and clearly has a central message to convey. Record a 3-4 minute video of yourself that answers the following questions.
- a. How many years have you been a classroom teacher?
 - b. What experiences do you have teaching reading and/or language arts and what led you to pursue graduate studies specializing in literacy?
 - c. What does it mean to be understanding, respectful, and inclusive of diverse populations?
 - d. Explain and offer an example of how you would use technology to create authentic [literacy] learning.
 - e. What are your expectations of this master's program, why should you be admitted into the program, and what do you intend to do once you have earned this degree?

For information regarding the recommendations, interview, and writing sample, please contact the COE Grad Hub at (936) 294-4857.

Applicants with completed files are reviewed for regular admission by graduate faculty in each program area and are selected by faculty based on information in the completed file.

Fall 2024

Admission Deadlines

Summer start: May 15th application due date

Fall start: August 1st application due date

1. Proof of holding a graduate degree

⁴ Includes 30-40 hours of field experience with secondary populations.

⁵ Includes 30-35 field experience hours.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's 60x30TX plan and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Reading Specialist Certification (Post Graduate) Certificate is designed to provide graduates with the following marketable skills:

- Research and theoretical knowledge of literacy
- Learn evidence-based practices in curriculum, instruction, assessment, and leadership
- Learn the need for a broader definition of literacy beyond reading to include writing, speaking, listening, and viewing

Teacher Certification

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/academics/education/altcert/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Code	Title	Hours
Teacher Certification		
Required Courses		
CIED 5301		3
CIED 5302		3
Prescribed Electives		
CIED 5398	Practicum in Classroom Instruction I	3
CIED 5399	Practicum in Classroom Instruction II	3
Total Hours		12

Applicants seeking admission to the Alternative Teacher Certification program must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/beabearkat/graduate-journey/>):

- Graduate Application (<https://www.shsu.edu/apply/>)
- Application fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>): An application fee is required for all applications to graduate programs at SHSU.
- Application to the Educator Preparation Program
- Pass a pre-admission diagnostic test from 240 Tutoring in the certification area you want to teach.
- Writing Sample
- Official transcript (indicating an undergraduate degree) from an accredited academic institution.
- Candidates must have a minimum 3.0 GPA for the baccalaureate degree or the last 60 hours of coursework

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's 60x30TX plan and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

Teacher Certification is designed to provide graduates with the following marketable skills:

- Best practice instructional skills
- Lesson design and planning
- Assessment
- Curriculum development

Mission

The College of Health Sciences collaborates with community and global partners to advance knowledge and practice to inspire the lifelong pursuit of health and well-being.

Vision

The College seeks to empower society to cultivate the enduring health of individuals and communities.

Graduates will be prepared to succeed in their chosen health profession through mastery of the appropriate knowledge and skills, a well-developed sense of professionalism, and a strong commitment to promoting health and providing quality care.

Core Values

Teamwork: Engage in active participation to foster an environment of shared responsibility.

Outreach: Serve the current and future needs of individuals, families, and communities.

Excellence: Strive for the highest standards and quality in all that we do.

Diversity: Embrace our differences to ensure each unique voice is encouraged and valued.

Curiosity: Nurture innovation/creativity through consumption, creation, and dissemination of knowledge.

Entrepreneurism: Welcome risk-taking and view failure as an opportunity for discovery.

Master of Science in Dietetics

This 17 month non-thesis degree is an accredited, advanced degree and dietetic internship program designed for students who want to complete their ACEND accredited 1000 hour supervised practice experience concurrently with related graduate coursework. The Masters of Science in Dietetics and Dietetic Internship program requires 36 graduate hours including 9 hours of internship practicum. Graduates of this program become eligible to sit for the Registration Examination for Dietitians.

Students must pass a written comprehensive exam at the end of the program in order to obtain a M.S. degree. Students must be enrolled in the University during the semester or summer session in which the comprehensive exam is administered.

The SHSU program is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics; 120 South Riverside Plaza, Suite 2190, Chicago, IL 60606-6995, (800) 877-1600, ext. 5400. Academy of Nutrition and Dietetics website (<http://www.eatrightpro.org/resources/acend/>).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/dietetics/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Admission Requirements

All applicants must meet the following criteria to be considered for program admission:

- GPA Requirement: Overall GPA of 3.0 or GPA of 3.0 or greater within the last 60 hours of academic work.
- GRE Requirement: The GRE requirement will be WAIVED if the applicant graduated with a cumulative GPA of 3.0 or higher. However, if the applicant has a cumulative GPA less than 3.0, the GRE will be required with a minimum score of 290.
- Verification Statement or Declaration of Intent to Complete Degree from an ACEND-accredited Didactic Program in Dietetics (DPD). Students who have completed the DPD five or more years prior to the internship start date are required to update their core knowledge with at least two additional upper-level dietetics courses prior to potential admission to the program. Courses must be completed through an ACEND-accredited nutrition and dietetics program. One course must be in the subject area of Medical Nutrition Therapy. The student should contact the program director to discuss additional coursework.
- Completion of a baccalaureate degree from an accredited college or university.

Dietetic Internship Application Instructions

Important Application dates:

- October 1st, 2024, for Priority Applications in DICAS open
- November 1st, 2024, is the Priority DICAS Application deadline
- January 20th, 2025, is the Regular DICAS Application deadline
- All applicants will be notified on or before March 1st, 2025
- All applicants are required to accept or decline their acceptance on or before March 15th, 2025.

Students applying for the MSDI Program are required to submit their application through DICAS (<https://portal.dicas.org>). The prospective student applicant is responsible for any fees associated with DICAS (<https://portal.dicas.org>).

Step 1: Submit your completed application through the online centralized internship application DICAS (<https://portal.dicas.org>)

Application through the online centralized internship application, DICAS (<https://portal.dicas.org>) must include:

- Personal Statement
- Three recommendation letters must be from 1) a dietetic academic professor, 2) a work or volunteer supervisor, and 3) a final reference of the applicant's choice.
- The fees to applicants for using DICAS (<https://portal.dicas.org>) will be \$50

Step 2: The Program Director will contact you to schedule an interview

Step 3: Students accepted into the MSDI program will be required to complete a SHSU Graduate Application (<https://www.shsu.edu/dept/graduate-admissions/>)

Application Review

Applications of qualified candidates will be reviewed by a selection committee and scored on GPA, GRE score, personal statement, recommendation letters, work & volunteer experience, awards, scholarship, and service (in that order).

Interviews: Applicants will be required to complete a virtual interview.

Code	Title	Hours
Master of Science in Dietetics		
Specified Courses		
DIET 5079	Dietetic Internship Practicum ¹	9
DIET 5367	Consumer & Food Technology	3
DIET 5383	Research Problems	3
DIET 5385	Sports Nutrition	3
DIET 5395	Dietary Supplements	3
DIET 5396	Cultural Food Counseling	3
DIET 5398	Public Health Nutrition	3
HUSC 5330	Seminar in Human Science Research	3
HUSC 5375	Seminar in Recent Developments in Human Science	3
SOCI 5314	Social Statistics	3
Total Hours		36

¹ DIET 5079 is taken three times for a total of nine hours.

Note: All courses require Graduate Standing and admittance in MS in Dietetics program.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MS in Dietetics is designed to provide graduates with the following marketable skills:

- Review literature and research for best evidence-based practices.
- Nutrition counseling and presentations.
- Implementation of research methods.
- Analysis and interpretation of data.
- Work with an interdisciplinary team towards a common goal.

Department of Kinesiology

Chair: Dr. Jennifer J. Didier (<https://www.shsu.edu/academics/health-sciences/kinesiology/kinesiology-faculty-pages/jennifer-didier.html>)

Contact: 936-294-1398

Website: The Department of Kinesiology (<http://www.shsu.edu/academics/health-sciences/kinesiology/>)

Mission

The mission of the Department of Kinesiology is to advance students' understanding of relationships among movement, exercise, and skill that occur in the contexts of development, learning, rehabilitation, athletic training, and sport management. The programs in the Department of Kinesiology seek to prepare future professionals for movement-related fields such as athletic training, teaching, coaching, training, fitness, and sport management. Learning occurs through the study of movement, exercise processes, and/or sport industry settings within a framework that emphasizes the clinical and practical implications of theory and research. The curricula provides hands-on learning and application of theory and research through experienced professors and community engagement.

Highlights

- Excellent field-based opportunities through community-engaged courses and internships.
- Wide variety of laboratory and practical experiences.
- Extensive professional networks in many different sub-fields in Kinesiology.
- Online courses are available for many of the courses.
- Quality instructors, many who have been awarded for their teaching excellence.
- Outstanding faculty and staff with extensive experience in their professional fields.

Career Opportunities

- Corporate fitness
- Commercial fitness
- Hospital-based wellness
- Pre-professional programs for graduate school in Chiropractic, Occupational Therapy, Physical Therapy, and many other allied health and exercise science-related areas
- Cardiac rehabilitation
- Aids to chiropractors, occupational therapists, and physical therapists
- Collegiate, community, and/or professional sport industry professionals
- Event management, marketing, and sales positions with professional sport franchises
- Event management, marketing, compliance, and development opportunities within college athletics
- Program management, marketing, community relations, and event management with community sport organizations
- Athletic Training
- Physician Extender
- Higher Education

Programs

- Master of Science in Athletic Training
- Master of Science in Kinesiology - (Sport and Human Performance)
- Master of Science in Sport Management

Scholarships

The SHSU Graduate School provides an opportunity for interested students pursuing their graduate degree to receive scholarships and funding for course work.

These opportunities are listed below and can be found through the following links:

Master of Science in Athletic Training

Athletic trainers (ATs) are highly qualified, multi-skilled healthcare professionals who collaborate with physicians to provide preventative services, emergency care, clinical diagnosis, therapeutic intervention, and rehabilitation of injuries and medical conditions. Athletic Training encompasses the prevention, examination, diagnosis, treatment, and rehabilitation of emergent, acute or chronic injuries and medical conditions. Athletic training is recognized by the American Medical Association (AMA), Health Resources Services Administration (HRSA), and the Department of Health and Human Services (HHS) as an allied health care profession (National Athletic Training Association (<https://www.nata.org/about/athletic-training/>)).

Mission

The mission of the Master of Science in Athletic Training (MSAT) degree program is to develop contemporary clinicians who collaborate with healthcare professionals and community partners to deliver patient-centered culturally competent care. The program strives to instill the qualities of a life-long learner that will progress graduates to clinical expertise.

Objectives

The MS in Athletic Training degree program strives to:

1. Pursue academic excellence to equip students for contemporary jobs in an ever-changing healthcare system;
2. Value professional development of faculty, staff, and students to inspire life-long learning that aligns with personal and professional goals;
3. Engage and promote interprofessional education and practice with other professions;
4. Seek out diverse faculty, staff, students, and clinical placement sites to grow cultural competence and collaboration in patient-centered clinical decisions;
5. Incorporate outreach opportunities for faculty, staff, and students to engage with community stakeholders through service; and
6. Provide a research experience for students to become creative in their discovery of new and ever advancing knowledge to help inform clinical decision-making.

Accreditation

- *Sam Houston State University is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).*

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/athletic-training/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applications to the Master of Science in Athletic Training (MSAT) program are reviewed on a rolling basis with one admission process annually. The priority deadline for admissions is **November 15** and the final deadline is **April 15**, annually. The MSAT program is a cohort model which starts each summer during the Summer 1 term. Applicants to the MSAT must meet the following requirements to be considered for regular admission.

Admission Requirements

Students must meet the following admission requirements to be considered for full regular admission (<http://catalog.shsu.edu/graduate-and-professional/academic-policies-procedures/admission/#admission-types>) to the MSAT program:

1. Demonstrate completion of a bachelor's degree with an official transcript from the awarding institution or SHSU transcript for 3+2 students showing completion of prescribed coursework.
2. Have a cumulative undergraduate GPA of 3.25 or higher for full regular graduate admission.
3. Have earned a grade of C or higher in all program prerequisite coursework.
4. Completed a minimum of 50 clinical observation hours under the supervision of a Certified and Licensed Athletic Trainer.
5. Have proof of current Basic Life Support (BLS) Certification from the American Heart Association.
6. Have a completed program Immunization Review Form (https://www.shsu.edu/academics/health-sciences/kinesiology/graduate/msat-documents/Immunization+April+2021.pdf?language_id=1) that is signed by a Primary Care Provider (MD, DO, PA, NP).
7. Have a minimum of two signed evaluation forms. One of the forms must be from a licensed and certified Athletic Trainer who supervised your observation hours.
8. Complete all program prerequisites prior to the start of the program.

Application Process

Applicants must complete the following **two-step** application process, which involves two separate application fees:

- **The SHSU Graduate School application fee is \$50.**
- **ATCAS charges \$90 for the first program you apply to and \$55 for each additional program.**

- **ATCAS offers a Fee Assistance Program** (https://help.liaisonedu.com/ATCAS_Applicant_Help_Center/Starting_Your_ATCAS_Application/Getting_Started_with_Your_ATCAS_Application/2_Application_Fees/)

Step 1: Apply to the Graduate School (<http://www.shsu.edu/dept/graduate-studies/>) at SHSU by using the ApplyTexas Portal. (<https://www.applytexas.org/>)

Step 2: Apply to the MSAT Program at SHSU using the ATCAS Submission Portal (https://help.liaisonedu.com/ATCAS_Applicant_Help_Center/Starting_Your_ATCAS_Application/Getting_Started_with_Your_ATCAS_Application/2_Application_Fees/).

The following documents will need to be submitted to ATCAS:

- Official Transcripts
 - Official transcripts from all institutions attended must be sent directly to ATCAS.
- Clinical Observation Hours Log (minimum of 50 clinical observation hours signed by a certified and licensed athletic trainer)
- Proof of Basic Life Support (BLS Certification) from the American Heart Association
- Completed Immunization Review Form (https://www.shsu.edu/academics/health-sciences/kinesiology/graduate/msat-documents/Immunization+April+2021.pdf?language_id=1)
- Two completed references. One of the forms must be from a Licensed and Certified Athletic Trainer who supervised your observation hours.
- Personal Statement

Program Prerequisites

The following prerequisite coursework is designated as either required or recommended. The required coursework must be satisfactorily completed (a grade of C or better) to be considered for regular admission to the MSAT program. The recommended coursework is optional but completed work in this area may benefit the student in their pursuit of admission to the MSAT program. Recommended prerequisite coursework that is completed at the time of program application will add additional points to the candidate acceptance rubric for the proposed degree.

MSAT Program Required Prerequisite Coursework

The following bachelor's level coursework must be completed prior to applying to the MSAT Program to be considered for full admission. Prerequisite coursework can be in progress when the application is submitted for Conditional Admission. All required coursework **must** be completed prior to starting the MSAT program and includes:

Code	Title	Hours
SHSU Course Listing: Required Program Prerequisites ¹

MSAT Program Recommended Prerequisite Coursework

The recommended prerequisites for the MSAT are not required for admission to the program but can increase the admission score if completed with a grade of **C or higher**. Students seeking admission to the SHSU MSAT program are encouraged to enroll in these courses if electives are available on a student's undergraduate degree plan.

The following bachelor's level coursework is **recommended** to be completed prior to applying to the MSAT Program:

Code	Title	Hours
SHSU Course Listing: Recommended Program Prerequisites ¹		
ATTR 2300	Introduction to Athletic Training	3
HLTH 2372	Health & Medical Terminology	3
HLTH 2383	Multicultural Health Issues	3
HLTH 3350	Principles of Public Health	3
HLTH 3360	Epidemiology	3
KINE 4335	Sport and Exercise Psychology	3
KINE 4362	Biomechanical Analysis	3
SOCI 2319	Introduction To Ethnic Studies	3

¹ Or equivalent.

Retention Requirements

In alignment with the requirements of all graduate students at Sam Houston State University (Academic Policy Statement 910312 (https://www.shsu.edu/dept/academic-affairs/documents/aps/curriculum/910312%20Academic%20Probation%20and%20Suspension_22.pdf)), students must meet the following requirements to remain in good academic standing:

- Maintain an SHSU GPA of 3.0 or higher each semester.
- Additionally, each MSAT student must meet the following program specific benchmarks at their respective level to progress to the next level in the MSAT program:
 - Maintain a Cumulative MSAT GPA of 3.0 or higher,
 - Complete specified didactic assessments (as outlined in the course syllabus) at a grade of 75 percent or higher,
 - Complete all Lab Objective Structured Clinical Examination (OSCE) assessments with a grade of 75 percent or higher, and
 - Complete all assessed skills in the clinical setting at the level of 'proficient' or 'exceeds proficient'.
- *The MSAT program at SHSU has established 75% as the benchmark for competency and proficiency within the specific assessments listed here. Students who do not meet these benchmarks within the policies outlined in the course syllabi will be placed on probation within the MSAT program and will need to retake the course the next time it is offered. This will delay the student's progression in the MSAT program. Students who do not meet programmatic benchmarks a second time will be terminated from the MSAT program. Students who fail to meet two or more programmatic retention criteria which are unrelated to one another (i.e., separate courses) in a single semester will be terminated from the MSAT program.*

Academic Probation, Termination, or Dismissal for graduate students at SHSU can be found in Academic Policy Statement 910312 and includes the following:

- A graduate student who falls below a 3.0 SHSU GPA at the close of any semester or summer semester will be placed on probation. Two summer sessions are equivalent to one long semester. If an enrolled student fails to achieve a minimum of a 3.0 SHSU GPA at the close of the next semester following the start of the probation, the student will be terminated from graduate studies.
- A graduate student that earns an F in any graduate course at SHSU will be terminated from graduate studies.
- A student who earns a grade of C or below in any course at SHSU (repeated or distinct course) within the academic program may have their graduate status reviewed by a committee of the department or college graduate faculty. The committee will recommend appropriate remediation for the student.
- A student who fails to meet any approved program-specific standards for academic performance will be placed on programmatic probation with remediation or terminated from the program and not permitted to register for the subsequent cohort courses in the program.

Removal of Academic Probation for Graduate Students:

- The student will be removed from probation at the close of the semester or summer semester in which the SHSU GPA achieves the required standard or
- In the case of program specific benchmark requirements for the MSAT, the student will be removed from probation when the remediation requirements set forth by the program have been met.

Appeals

- All graduate students in the MSAT program must use procedures outlined specifically in SHSU Policy 910312 for filing an appeal.

Degree Awards

- MSAT degrees will be awarded at the completion of the degree plan only when a student is in good standing with a 3.0 GPA or higher and has met all program specific benchmarks within didactic, laboratory, and clinical courses.
- For students in 3+2 MSAT degree options, both the undergraduate and graduate degree of MSAT will be awarded at the completion of the MSAT requirements only when a student is in good standing only when a student is in good standing with a 3.0 GPA or higher and has met all program specific benchmarks within didactic, laboratory, and clinical courses. 3+2 MSAT students who are not able to complete the MSAT degree are encouraged to revert back to their original BS degree plan and complete the undergraduate degree.
- MSAT students are required to complete a research project to complete the degree. The student's research faculty mentor must verify that all components of the research project have been met in order for degrees to be awarded.

Code	Title	Hours
Master of Science in Athletic Training		
Required Courses		
ATTR 5121	Prehospital Emergency Medicine and Acute Care Lab	1
ATTR 5140	Clinical Experiences in Athletic Training IV	1
ATTR 5210	Clinical Experiences in Athletic Training I	2
ATTR 5220	Clinical Experiences in Athletic Training II	2
ATTR 5230	Clinical Experiences in Athletic Training III	2
ATTR 5300	Injury Prevention and Protective Strategies	3
ATTR 5310	Clinical Evaluation and Assessment Fundamentals	3
ATTR 5311 & ATTR 5111	Lower Extremity Injuries and Lower Extremity Injuries Lab	4
ATTR 5312 & ATTR 5112	Upper Extremity Injuries and Upper Extremity Injuries Lab	4
ATTR 5313	Head and Facial Injuries in Sport	3
ATTR 5314	Spine and Pelvis Injuries	3
ATTR 5315	Non-Orthopedic Pathologies in Sport and Exercise	3
ATTR 5321	Prehospital Emergency Medicine and Acute Care	3
ATTR 5330 & ATTR 5130	Therapeutic Interventions I and Therapeutic Intervention I Lab	4
ATTR 5331 & ATTR 5131	Therapeutic Interventions II and Therapeutic Intervention II Lab	4
ATTR 5340	Administration in Athletic Training	3

HLTH 5378	Health Care Informatics	3
KINE 5374	Applied Research Methods in Kinesiology	3
ATTR 5450	Immersive Clinical Experiences in Athletic Training	4
Total Hours		58

Notes

- Maintain an overall graduate GPA of 3.0 or higher (A 3.0 is the absolute minimum required for graduation).
- Grades of "B" or better are required for all graduate-level coursework. A student who earns a "C" in any course within the program will have his/her graduate status reviewed by a committee comprised of the department or college's graduate faculty, and appropriate remediation will be implemented. If a second grade of "C" is earned the student will be terminated from the program and from graduate studies at SHSU.
- Complete all assessed skills in the clinical setting at the level of 'proficient' or 'exceeds proficient.'
- Complete all lab practical assessments with a grade of 75 percent or higher.

Accreditation

- *Sam Houston State University is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).*

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Master of Science in Athletic Training is designed to provide graduates with the following marketable skills:

- Communicate and collaborate with other healthcare professions.
- Promote healthy lifestyle behaviors to minimize the risk of injury and illness.
- Implement systematic, evidence-based examinations and assessments to determine best care for active patient populations.
- Utilize best practices in immediate and emergency care situations.
- Apply therapeutic interventions, including therapeutic modalities, manual therapies, and therapeutic exercise.
- Integrate best practices of policy development, documentation practices, and basic business practices to promote optimal patient care.

Master of Science in Kinesiology (Sport and Human Performance)

The graduate program in Kinesiology focuses on Sport and Human Performance. The program is **100% online** with the option of on-campus lab days, online live, hybrid, and face-to-face classes for certain courses in the program are offered to allow for some synchronous meetings with the professors and students throughout the semester.

This program also offers graduate assistantships for both research and teaching. Research assistants work in the labs listed below. Teaching assistants teach the exercise physiology lab classes and/or activity courses. Graduate assistants may also work in the labs and teach the lab class. Graduate assistants must live within Huntsville, TX, or within commuting distance to campus and work 10 – 20 hours per week.

The Department of Kinesiology is now located on the first floor of the Lee Drain Building and has 4 new research labs and 2 teaching labs. The research labs include:

1. Motor Behavior/Biomechanics Lab,
2. Human Performance Lab,
3. Muscle Physiology/Exercise Biochemistry Lab, and
4. Strength Training Lab.
5. Athletic Training Teaching and Research Lab, and
6. Exercise Science Teaching Lab

This program is designed to prepare students for success in their chosen professional careers within a variety of sport, exercise, recreation, education, and fitness settings by providing the highest quality educational experiences. This graduate degree is also appropriate for students planning to continue their training in doctoral programs at other institutions, and students are highly encouraged to complete a thesis if on this track.

Students complete a core block of four courses and have the option of completing:

1. a thesis (both on- and off-campus when applicable),
2. a 200 contact-400 hour internship embedded in a 3-SCH course which is to be completed in one semester (Graduate Internship II can also be taken if the student wants an additional 200 contact hours for an additional 3-SCH course), or
3. taking additional elective hours to complete their 30-36 hour degree. These elective hours include any internship courses completed.

We encourage all students to take research methods in their first or second semester in the program. Students interested in completing a thesis should start discussing their ideas with the Kinesiology Graduate Coordinator and their professors as they complete the first or second semester. Students can complete their thesis at SHSU using the labs and equipment, or in some cases, complete the thesis research project from out of town through remote or external supervision. Each student interested in completing a thesis must communicate with a professor and secure a thesis chair to help them through the process. In consultation with the thesis chair, the student will also build a thesis committee with additional SHSU faculty and, if needed, an outside member.

Listed below are the typical rotation of classes offered each semester:

Typical Fall Semester Courses

Code	Title	Hours
KINE 5367	Advanced Physiology of Exercise (Core class - all students must complete) ¹	3
KINE 5374	Applied Research Methods in Kinesiology (Core class - all students must complete) ¹	3
KINE 5372	Youth Fitness	3
KINE 5381	Clinical Exercise Physiology	3
KINE 5385	Biomechanics of Injury	3

Typical Spring Semester Courses

Code	Title	Hours
KINE 5395	Advanced Biomechanics (Core class - all students must complete) ¹	3
KINE 5398	Significance of Motor Learning (Core class - all students must complete) ¹	3
KINE 5379	Management of Adult Fitness Programs	3
KINE 5386	EKG/Cardiac Conditions	3
KINE 5393	Advanced Studies in Psychology of Sport	3

Typical 10-Week Summer Semester Courses

Code	Title	Hours
KINE 5388	Strength Training Principles	3
KINE 5391	Motor Control in Practice	3
KINE 5396	Aerobic and Anaerobic Training	3

Summer Mini-Mester Course (will require both on-campus days and online work)

Code	Title	Hours
KINE 5390	Exercise Science Lab Practicum	3

Internship and Independent Study Courses (offered each semester as needed)

Code	Title	Hours
KINE 5377	Independent Studies	3
KINE 6098	Sport and Human Performance Thesis I	1-3
KINE 6099	Sport and Human Performance Thesis II	1-3
KINE 5334	Sport and Human Performance Internship I	3
KINE 5335	Sport and Human Performance Internship II	3

¹ Indicates this is one of the four core courses in the program.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/kinesiology-sport-and-human-performance/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Please submit the following documents to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Admissions Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application Fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Minimum undergraduate GPA of 3.0
4. Official transcript from the baccalaureate degree-granting institution
5. Bachelor's degree with a major or minor in Kinesiology or a related field
6. Applicants should have experience in coursework or related certifications in the following areas: motor learning, exercise physiology, biomechanics, and research, statistics, or technical writing
7. Contact information for 2-3 references. This list should include the full names, emails, phone numbers, professional titles, and relationship to applicant.
8. Statement of intent/interest - This letter of intent should include the following:
 - Applicant's background
 - Undergraduate degree/classes/emphasis
 - Work experience
 - Research experience and interests
 - Purpose of applying for admittance as it relates to the Sport and Human Performance degree
 - Future plans related to the Sport and Human Performance degree

If unable to submit any of the above documents, prospective students should contact the Kinesiology Graduate Coordinator. Entrance into the program is based on GPA, recommendation letters, coursework/certifications in core subject areas, and letter of intent. Students who do not meet the entrance requirements may be conditionally admitted for one semester, pending approval from the Kinesiology Graduate Coordinator. Students

admitted to the program on a conditional basis must complete a maximum of 6 graduate hours and earn a minimum of 3.0 GPA in completed coursework.

The mission of the Sport and Human Performance specialization is to advance students' understanding of relationships among movement, exercise, and skill that occur in the contexts of development, learning, rehabilitation, and training. The Masters of Science in Kinesiology - Sport and Human Performance (SHP) track is focused on helping students apply exercise science concepts in clinical, commercial, and athletic settings. The SHP program uses foundational classes in biomechanics, exercise physiology, motor learning, and research to support the application of exercise principles to a wide variety of populations in various clinical and applied settings.

Students must maintain a 3.0 GPA to remain in good standing.

Plan 1 - MS in Kinesiology - Sport and Human Performance (Non-thesis)

Code	Title	Hours
Master of Science in Kinesiology Sport and Human Performance (Non-thesis option)		
Specified Courses		
KINE 5367	Advanced Physiology of Exercise ¹	3
KINE 5374	Applied Research Methods in Kinesiology ¹	3
KINE 5395	Advanced Biomechanics ¹	3
KINE 5398	Significance of Motor Learning ¹	3
Electives (24 credit hours) ²		24
Electives to meet 36 hours to be chosen from this list or as approved by the Kinesiology Graduate Coordinator.		
KINE 5097	Special Topics in Kinesiology ⁴	3
KINE 5334	Sport and Human Performance Internship I ³	3
KINE 5335	Sport and Human Performance Internship II ³	3
KINE 5368	Research in Sport and Human Performance	3
KINE 5372	Youth Fitness	3
KINE 5375	Statistical Design in Kinesiology	3
KINE 5377	Independent Studies	3
KINE 5379	Management of Adult Fitness Programs	3
KINE 5381	Clinical Exercise Physiology	3
KINE 5385	Biomechanics of Injury	3
KINE 5386	EKG/Cardiac Conditions	3
KINE 5388	Strength Training Principles	3
KINE 5390	Exercise Science Lab Practicum	3
KINE 5391	Motor Control in Practice	3
KINE 5393	Advanced Studies in Psychology of Sport	3
KINE 5396	Aerobic and Anaerobic Training	3
KINE 5399	Workshop in Kinesiology ⁴	3
Students may choose to take up to 6 credit hours outside of the department. These outside electives must be approved by the Kinesiology Graduate Coordinator.		
Total Hours		36

¹ Indicates this is a core course.

² Must be approved by the Kinesiology Graduate Coordinator.

³ Includes 200 contact hours per course (KINE 5334 and KINE 5335) to fulfill the requirements of an internship. These courses may be taken concurrently if a student is interested in pursuing 400 contact hours in one semester. Please, discuss options with the Kinesiology Graduate Coordinator.

⁴ Course can be repeated for credit.

Notes

Students must have Graduate Standing for all courses in the program.

At the conclusion of the program, non-thesis students are required to pass a comprehensive examination covering content from select courses. The comprehensive examination can be taken when the student is within his/her final 6-hours of coursework and must be completed at least three weeks prior to the graduation date. Students must be enrolled during the semester in which the comprehensive examinations are taken. The

comprehensive examination will include questions from KINE 5374 for all students, students then select from 2 of the 3 remaining core classes (KINE 5398, KINE 5395, and KINE 5367) for the 2nd and 3rd question areas. The 4th question area will come from any approved class (communicate with the program coordinator) completed prior to the final semester. Students who fail one or more subject areas of the comprehensive exam must enroll in an additional semester (minimum of 1 credit hour) and retake the comprehensive exam during the additional semester.

Plan 2 - MS in Kinesiology - Sport and Human Performance (Thesis Option)

Code	Title	Hours
Master of Science in Kinesiology Sport and Human Performance (Thesis option)		
Specified Courses		
KINE 5367	Advanced Physiology of Exercise	3
KINE 5374	Applied Research Methods in Kinesiology	3
KINE 5395	Advanced Biomechanics	3
KINE 5398	Significance of Motor Learning	3
Thesis		
KINE 6098	Sport and Human Performance Thesis I ¹	3
KINE 6099	Sport and Human Performance Thesis II ¹	3
Electives (12 hours)		12
KINE 5097	Special Topics in Kinesiology ⁴	3
KINE 5368	Research in Sport and Human Performance	3
KINE 5372	Youth Fitness	3
KINE 5375	Statistical Design in Kinesiology	3
KINE 5377	Independent Studies ²	3
KINE 5379	Management of Adult Fitness Programs	3
KINE 5381	Clinical Exercise Physiology	3
KINE 5385	Biomechanics of Injury	3
KINE 5386	EKG/Cardiac Conditions	3
KINE 5388	Strength Training Principles	3
KINE 5390	Exercise Science Lab Practicum	3
KINE 5391	Motor Control in Practice	3
KINE 5393	Advanced Studies in Psychology of Sport	3
KINE 5396	Aerobic and Anaerobic Training	3
KINE 5399	Workshop in Kinesiology	3
Total Hours		30

¹ Once enrolled in KINE 6098 and/or KINE 6099, students must continuously enroll in this course until graduation. Please visit with Kinesiology Graduate Coordinator for more details regarding continuous enrollment requirements.

² Students completing the thesis option are highly encouraged to take KINE 5377 the semester prior to starting thesis work to establish the research project, write the literature review and methods and start completing the IRB documents.

Notes

For a 30-hour program, a maximum of 6 hours of coursework can be transferred from another institution, or applied to the graduate program from an area of study outside of Kinesiology. Transferred coursework must be approved by the Kinesiology Graduate Coordinator. For any of the graduate degree options, only one independent study (KINE 5377) may be applied to the coursework. Consult the graduate catalog for course descriptions. All coursework falling under one of these considerations must have the approval of the graduate coordinator for the program. Application of workshops (KINE 5399) is limited to 6 hours.

Those selecting the thesis option are required to successfully complete an oral defense of their research study. A successful thesis defense and approval for publication fulfill the comprehensive exam requirement for thesis students. Students must also maintain continuous enrollment in thesis courses until the thesis has been successfully completed. Please consult the Graduate Catalog for more details. Those selecting the non-thesis option must successfully pass all portions of the Comprehensive Exams for graduation. If a student does not pass the Comprehensive Exams, then they must maintain continuous enrollment until they pass.

Students should consult the Academic Calendar (<https://www.shsu.edu/dept/registrar/calendars/academic-calendar.html>) for the established timeline for thesis defense and submission.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MS in Kinesiology is designed to provide graduates with the following marketable skills:

- Advanced fitness program design.
- Advanced content knowledge in research and areas of study including exercise physiology, biomechanics, and motor learning.
- Ability to understand and formulate theories and implement those into fitness and wellness practices.
- A solid research base of knowledge in sport and human performance related topics.
- Ability to implement critical areas of human performance into fitness and wellness occupations.
- Advanced ability to apply knowledge to sport and human performance settings.

Master of Science in Sport Management

The mission of the graduate Sport Management degree program is to effectively prepare students for a variety of executive positions within athletic and sport organizations at the community, educational, and/or professional levels. Students will be provided quality instruction, the latest technology, opportunities for research and professional development, field-based experiences, and excellent internship opportunities. In return, students are required to become acquainted with relevant issues in the field, understand the research process, and represent the program's goals and objectives in the industry. Individuals completing the program will be ready to assume leadership positions in the sport management and/or academic domains. The curriculum is currently offered 50% face-to-face at SHSU-The Woodlands Center and 50% Online.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/sport-management/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Please submit the following documents to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Admissions Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application Fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Minimum undergraduate GPA of 3.0
4. Official transcript from the baccalaureate degree-granting institution
5. Contact information for 2-3 references. This list should include the full names, emails, phone numbers, professional titles, and relationship to applicant.
6. A letter of intent outlining educational/career goals and how the sport management program at SHSU could help the applicant meet those goals

Students who do not meet the entrance requirements may be conditionally admitted for one semester, pending approval from the Sport Management Graduate Coordinator. Students admitted to the program on a conditional basis are allowed to complete a maximum of 6 graduate hours in their first semester. After this first semester of completed coursework, conditionally admitted students will then be reviewed for regular admission.

The Master of Science in Sport Management degree program offers two options: thesis and non-thesis. Students choosing the thesis option are required to complete 36 credit hours comprised of 30 hours of coursework and 6 hours of thesis. Students choosing the non-thesis option are required to complete 36 credit hours comprised of 30 hours of coursework and 6 hours of Graduate Internship (SPMT 5334 and SPMT 5335).

Per Academic Policy Statement 910312, a 3.0 overall grade point average is the absolute minimum required for graduation. A graduate student who falls below a 3.0 overall grade point average at the close of any semester during which one or more semester credit hours are attempted will be placed on probation. If an enrolled student on probation fails to achieve a minimum 3.0 overall grade point average at the close of the next semester following the starting of the probation, the student will be academically terminated.

Student must have Graduate Standing for all courses in the program.

At the conclusion of the program, non-thesis students are required to pass a comprehensive examination covering content from select courses. The comprehensive examination can be taken when the student is within his/her final 6-hours of coursework and must be completed at least three weeks prior to the graduation date. Students must be enrolled during the semester in which the comprehensive examinations are taken.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MS in Sport Management is designed to provide graduates with the following marketable skills:

- **Professionalism and Ethical Decision Making:** Students are taught what it means to be a "professional" in the sport industry. Students must demonstrate a high standard of professionalism in the classroom, during internship experiences, and through class projects with various stakeholders in the field. In addition, students are taught the importance of ethical and responsible decision making.
- **Sales Experience:** Students are taught valuable sales skills and strategies throughout the program by professors and sport industry leaders. Students will gain valuable sales experience through a variety of different opportunities with our intercollegiate athletic and professional sports partners.
- **Social Awareness:** Students are provided training and education of the alignment between social issues and the sport industry. Such issues include: diversity, gender equity, race issues, media influence, violence, etc. Students are taught the importance of being a socially responsible leader in the sport industry.
- **Risk Management Skills:** The sport management program is designed to prepare students to become effective leaders and managers in the sport industry. Students are taught the importance of developing a preventative law plan to deal with potential risks that may effect his/her sport organization.
- **Event Management and Marketing Skills:** Students are provided opportunities to produce and market a major event. As a part of the process, students engage in budgeting, event development and planning, marketing, and sales to execute a major event for the program, department, college, and university. The applied nature of the project utilizes existing program relationships to build course concepts into real-world settings.

Department of Public Health

Chair: Ray G. Newman, PhD (rgn006@shsu.edu). (hpe_rsk@shsu.edu)(936) 294-2665

Associate Chair: Amanda Scarbrough, PhD. (aes060@shsu.edu) (936) 294-1168

Daphne Fulton, PhD. (dsf005@shsu.edu) (936) 294-2668

Website: Department of Public Health (http://www.shsu.edu/academics/health-sciences/health/index_new.html)

Mission

The mission of the Department of Public Health is to foster student-centered learning for early and advanced health professionals; to conduct applied, evidence-based research in population health; and to improve health and well-being through community engagement at the local, state, and global levels.

Highlights

- Nationally recognized degree programs
- Student health science honorary affiliation-Eta Sigma Gamma
- Specialized student organization-Healthcare Administration Student Organization
- Career focused program content, activities, and internships
- Diverse student population of various cultural and ethnic backgrounds
- Student centered faculty and staff
- Graduates are prepared for successful entry into the workforce

Degree Programs

- Master of Public Health
- Master of Science in Health Care Quality and Safety
- Graduate Certificate in Health Care Quality and Safety

Dual Degree Programs

- Doctor of Osteopathic Medicine and Master of Public Health

Career Opportunities

- Public and private hospitals and clinics
- Public health education and operations
- Health service managers
- Epidemiological research and practice
- Environmental health field stations and research
- Disaster response and preparedness
- International health outreach organizations
- City, county, and state health departments
- Corporate health promotion programs
- Community, and medical, and Public health navigators
- Federal, state, and local health agencies
- School, community college, and university settings
- Manage quality operations in health care settings
- Direct patient safety initiatives
- Voluntary health agencies and foundations
- Correctional health care operations
- Retirement, assisted living, and skilled nursing facilities

Student Organizations

- Population Health Student Organization: Students must be enrolled in graduate coursework and maintain a 3.00 GPA in graduate courses at SHSU.
- Eta Sigma Gamma - National Health Science Honorary Society - requires a 3.0 GPA in Health and an overall 2.5 GPA; focus is research, service, and education; volunteer hours required.

Internships

The graduate Public Health and Health Care Quality and Safety programs offer a 200 to 300-hour professional internship. The internship will be conducted in either the public, community, medical, or corporate health setting under the instruction and supervision of a qualified professional. The graduate internship site and supervisor must be approved by the graduate program coordinator.

Scholarships

The SHSU Graduate School provides an opportunity for interested students pursuing their graduate degree to receive scholarships and funding for course work.

These opportunities are listed below and can be found through the following links:

- Financial Aid for Graduate Students (<https://www.shsu.edu/dept/graduate-studies/paying-for-school.html#d455b79d-2b6e-417b-b0b0-cb683222f0bb>)
- The General Graduate School Scholarship Application (<https://www.shsu.edu/dept/graduate-studies/paying-for-school.html#d455b79d-2b6e-417b-b0b0-cb683222f0bb>)
- Graduate A.S.P.I.R.E. (Academic Success Program in Research Empowerment) Program (<https://www.shsu.edu/dept/graduate-studies/paying-for-school.html#d455b79d-2b6e-417b-b0b0-cb683222f0bb>)
- Graduate School R.O.A.D. to PhD program (<https://www.shsu.edu/dept/graduate-studies/paying-for-school.html#d455b79d-2b6e-417b-b0b0-cb683222f0bb>)

Adannaa Oparanozie Alexander, MPH (aoalexander@shsu.edu), *Clinical Assistant Professor of Public Health, Department of Public Health*, MPH, Emory University; AB, Washington University

Stephen L Brown, PHD (sbrown@shsu.edu), *Professor of Public Health, Department of Public Health*, PHD, Univ of Maryland-College Park; MS, Arizona State University; BS, Brigham Young University

Daphne K Fulton, DPH (dsf005@shsu.edu), *Clinical Assistant Professor of Public Health, Department of Public Health*, DPH, Texas A&M University; MPH, Texas A&M University; BS, Sam Houston State University

Praphul Joshi, PHD (pxj015@shsu.edu), *Professor of Public Health, Department of Public Health*, PHD, Univ of S Carolina-Columbia; MPH, Univ of S Carolina-Columbia; BDS, Bangalore University

Rosanne S Keathley, PHD (hpe_rsk@shsu.edu), *Professor of Public Health, Department of Public Health*, PHD, Texas A&M University; MA, Sam Houston State University; BAT, Sam Houston State University

Yue Xie, PHD (yxx008@shsu.edu), *Associate Professor of Practice in Public Health, Department of Public Health*, PHD, Univ of Tx Health Science Cntr; ME, Massachusetts Inst of Tech; MHA, Tulane University; BBA, Univ of Miami

Master of Public Health

Program Coordinator: Dr. Praphul Joshi, PhD (pxj015@shsu.edu), 936-294-2767

The Master of Public Health (MPH) degree program prepares professionals with the knowledge, skills, and practices to manage the health and safety concerns of local and global communities. Students study the impact of recent public health issues, policy and procedures, and develop hands-on experience through a culminating experience such as a practicum with a public health agency. The MPH program offers a thesis and non-thesis option for the degree.

Classes are offered 100% online.

MPH Concentrations

The **Global Health and Social Justice** concentration, which includes the rural health aspect, teaches students about health issues that impact public health on a local as well as global scale. Many public health issues are found in rural settings, whether it be in the U.S. or other countries. The poor, the unemployed, the homeless, and those with limited or no access to healthcare constitute some of the challenges for health policy and public health solutions. These issues span countries and influence healthcare within a local and global context.

A graduate of this program will function as a public health specialist or manager of health services in accordance with national standards. He/she will be expected to provide leadership roles in improving the health of populations, oversee clinical health care delivery, promote health, prevent disease, and supervise provision of health services.

Competencies gained will enable graduates to specifically interpret national health data and use relevant information to plan for policy changes and advocate for improved quality management methods in the healthcare industry.

The **Health Education and Promotion** concentration incorporates the principles, practices, and development of a working philosophy of health education to prepare students for engagement in four broad areas: community health, medical or clinical health, school health, and worksite health promotion. Students receive training in public health promotion and interventions. They learn to address factors in the broader social, economic, and policy environments to improve the health of populations. Students develop practice and research skills for population-level interventions, including program development, implementation and evaluation. A graduate of this program will be able to effectively recognize and assess health disparities, communicate health information, promote health equity, and mobilize resources for social change.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/public-health/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students must meet the following requirements for admittance to the Master of Public Health (MPH) degree program:

- Graduate Admissions Application (submitted online through ApplyTexas (<https://www.shsu.edu/preview/admissions/apply-texas.html>)).
- Application Fee.
- An earned baccalaureate degree from an accredited institution with a minimum GPA of 3.0 for the last 60 credit hours.
- Official transcripts of bachelor and any graduate degrees.
- Three letters of recommendation (from professors and/or employers).
- A written summary (minimum 500 words) on why you seek an MPH, and how you plan to use the degree.
- A resume (to include all professional, employment, and volunteer activities).
- An interview by Skype (or other means).

Additional requirements for International Applicants:

- Official scores for the TOEFL or IETLS.
- English translation and evaluation of official transcripts for applicants with undergraduate degrees from non-U.S. institutions.
- The program does consider international students, however, SHSU will not be able to issue an I-20 to students seeking an F-1 Student Visa.

Non-Thesis Track

Code	Title	Hours
Master of Public Health in Public Health (Non-Thesis)		
Required Courses		
HLTH 5318	Current Topics in Environmental Health	3
HLTH 5353	Epidemiology	3
HLTH 5355	Health Services Administration	3
HLTH 5361	Social and Behavioral Determinants of Public Health	3
HLTH 5376	Public Health Biostatistics	3

HLTH 6352	Public Health Grant Writing	3
HLTH 6396	Health Program Planning/ Pre-Capstone	3
HLTH 6397	Public Health Capstone / Practicum	3
Required Concentration Courses ¹		12
Choose one of the following concentrations:		
Global Health and Social Justice		
HLTH 5350	Public Health and Social Justice	
HLTH 5351	Immigrant and Refugee Health	
HLTH 5363	Management and Leadership for Health Professionals	
HLTH 6365	Health Care Policy	
Health Education and Promotion		
HLTH 5331	Foundations of Community Health	
HLTH 5332	Human Ecology	
HLTH 5360	Communication Theory and Practice for Health Professionals	
HLTH 5374	Research Seminar	
Prescribed Electives ²		6
Total Hours		42

¹ All required concentration courses (12 SCH) must be taken from one concentration either Global Health and Social Justice OR Health Education and Promotion.

² Choose 2 courses from the appropriate Concentration Prescribed Electives course lists below.

Thesis Track

Code	Title	Hours
Master of Public Health in Public Health (Thesis)		
Required Courses		
HLTH 5318	Current Topics in Environmental Health	3
HLTH 5353	Epidemiology	3
HLTH 5355	Health Services Administration	3
HLTH 5361	Social and Behavioral Determinants of Public Health	3

HLTH 5374	Research Seminar	
Thesis Option ²		
HLTH 6098	Thesis I	3
HLTH 6099	Thesis II	3
Total Hours		42

¹ All required concentration courses (12 SCH) must be taken from one concentration either Global Health and Social Justice OR Health Education and Promotion.

² The thesis track requires a more academically-focused research thesis (instead of the capstone project) to be completed before awarding the degree. Those selecting the thesis option are required to successfully complete an oral defense of their research study. A successful thesis defense and approval for publication fulfill the comprehensive exams requirement for thesis students. Students must also maintain continuous enrollment in thesis courses until the thesis has been successfully completed. Please consult the Graduate Catalog for more details and visit with the Master of Public Health Graduate Coordinator for more information.

Concentration Options

HLTH 6365	Health Care Policy	3
SOCI 5322	Seminar In Medical Sociology	3
Graduate level courses in related disciplines approved by the Graduate Program Coordinator		3-6

The MPH program includes a capstone/practicum course at, or near the end of the program of study (e.g., in the final year or term), that incorporates both the applied practical experience and the integrative learning experience. The HLTH 6397 course includes a practicum that generates a practice-based project and culminates with an extensive student evaluation of the experience. Each student will develop a summary of the integration of the public health knowledge, skills, and dispositions they experienced during the practicum and assess their knowledge and mastery of public health foundational and concentration courses. The supervisor of the capstone/practicum will complete a comprehensive evaluation of the student's performance during the applied experience and submit it to the MPH Coordinator for review. The HLTH 6397 course serves as the comprehensive exam component for the MPH program. Students must earn a grade of "B" or higher in HLTH 6397 to be eligible for graduation. Please, contact the Master of Public Health Graduate Coordinator for more information.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MPH is designed to provide graduates with the following marketable skills:

- Prepare to be community leaders to increase public and social awareness of public health topics.
- Serve in important roles in the overall well-being of communities (including under-served and unserved portions of the population).

- Acquire communication and leadership skills.
- Develop analytical and assessment skills.
- Employ critical thinking and system skills.
- Demonstrate cultural competency.
- Gain knowledge of the history and current structure of the inequality of local, national, and global health trends and disparities, particularly for the immigrant and refugee populations.
- Participate in group and collaborative projects, some in concert with community agencies.

Master of Science in Health Care Quality and Safety

Faculty Advisor: Dr. Praphul Joshi, PhD (pxj015@shsu.edu), 936-294-2767

The Online Master of Science in Health Care Quality and Safety degree program is targeted toward health care professionals engaged or planning to be engaged in leadership roles in the quality and safety areas in hospitals, nursing homes, clinics, and other health care organizations. Professionals in health care quality and safety manage the strategic and operational aspects of quality operations; establish goals and standards; lead the quality improvement programs; provide training and coaching in quality improvement tools and techniques; develop, implement and monitor measures to assess quality performance; direct organization-wide quality initiatives including the National Patient Safety Initiatives; and direct ongoing monitoring of accreditation survey readiness activities. The MS in Health Care Quality and Safety degree offers a non-thesis option for the program.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/health-care-quality-and-safety/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students must meet the following requirements for admittance to the Master of Science in Health Care Quality and Safety Program:

- Graduate Admissions Application (submitted online through ApplyTexas).
- Application Fee.
- An earned baccalaureate degree from an accredited institution with a minimum GPA of 3.0 for the last 60 credit hours.
- Official transcripts of bachelor and any graduate degrees.
- Three letters of recommendation (from professors and/or employers).
- A written summary (minimum 500 words) on why you seek an MS in Health Care Quality and Safety, and how you plan to use the degree.
- A resume (to include all professional, employment, and volunteer activities).
- An interview by Skype (or other means).
- The program currently does not accept international students on F-1 student visas. If you are on another type of visa, or have additional questions regarding your eligibility to apply, please, contact the Office of International Programs at 936-294-4737 or nld015@shsu.edu.

Select any HLTH 5000 or 6000 level course or approved by advisor		3
Total Hours		36

Note: All courses require Graduate Standing in the program.

The non-thesis track of the Master of Science in Health Care Quality and Safety (HCQ&S) program requires a real-life health care quality or safety improvement capstone project to be completed by the student prior to awarding the degree. The project will be completed as part of the required capstone course during the last semester of the student's studies. Please contact the Health Care Quality and Safety Graduate Coordinator for more information.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MS in Health Care Quality and Safety is designed to provide graduates with the following marketable skills:

- Demonstrate knowledge of the health care quality and safety profession.
- Demonstrate ability to recognize and solve health care quality and/or safety issues.
- Participate in research of and find solutions to problems in the field of Health Care Quality and Safety.
- Recognize leadership and management theories and practices, including those of change management.
- Apply knowledge of the current United States health care system in solving problems.

Graduate Certificate in Health Care Quality and Safety

The online Graduate Certificate in Health Care Quality and Safety is targeted toward busy health care professionals engaged or planning to be engaged in leadership roles in the quality and safety areas in hospitals, nursing homes, clinics, and other health care organizations. Professionals in health care quality and safety manage the strategic and operational aspects of quality operations; establish goals and standards; lead the quality improvement programs; provide training and coaching in quality improvement tools and techniques; develop, implement, and monitor measures to assess quality performance; direct organization-wide quality initiatives, including the National Patient Safety Initiatives; and direct ongoing monitoring of accreditation survey readiness activities.

This certificate program is designed for health care professionals and administrators, who are at a point in their careers where they require advanced skills and knowledge to develop, manage, and sustain a culture of excellence in organizations and health systems.

This Graduate Certificate is not eligible to receive Title IV funding – Direct Loans, Pell Grant, TEACH Grant, SEOG Grant, or Federal Work Study. Students enrolled in this program should explore alternative funding options and are encouraged to contact the financial aid office for assistance.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/health-care-quality-and-safety/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants must have earned an undergraduate or graduate degree and be currently working or have worked in a health care related field for more than 3 years.

Specific requirements for admission to the Graduate Certificate in Health Care Quality and Safety program are as follows. All required items should be submitted to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<https://www.shsu.edu/admissions/apply-texas.html>)
2. Application Fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>)
3. Undergraduate degree from an accredited U.S. institution or with Admission Committee approval
4. Official transcript(s) from all post-secondary schools attended
5. Minimum GPA of 3.0
6. Writing samples:
 - a. Please, include a 250- to 500-word essay describing your reasons for undertaking study at Sam Houston State University, and your academic objectives, career goals, and related qualifications, including collegiate, professional, and community activities, relevant to your program of interest. Include any substantial accomplishments.
 - b. Please, provide a 500-word description of one key issue in Health care Quality or Patient Safety and discuss possible solutions.
7. Two letters of recommendation from:
 - a. Individuals who served in a supervisory capacity, and who can strongly attest to the applicant's work ethic, and/or
 - b. Academic instructors who can strongly attest to the applicant's academic ability.
8. A CV or resume
9. On-campus, video, or phone interview with the M.S. in Health Care Quality and Safety coordinator or admission committee member for selected competitive applicants meeting all admissions criteria

The coordinator and the admissions committee of the certificate program and the M.S. in Health Care Quality and Safety program will review all applications and will determine satisfactory completion of certificate requirements.

Note: Transfer of credit from other institutions may not be applied toward the credits required for the certificate.

The Graduate Certificate in Health Care Quality and Safety requires five (5) graduate courses or 15 semester credit hours. These courses will be offered online. The certificate program may be obtained in as little as 9 months, depending on the chosen elective course.

About the College

The College of Humanities and Social Sciences consists of seven academic units, the Departments of :

- Communication Studies
- English
- History
- Political Science
- Psychology and Philosophy
- Sociology
- World Languages and Cultures

Mission

The College of Humanities and Social Sciences provides an essential component to a liberal arts education: understanding all human beings as expressed in their literatures, histories, ideas, values, oral and written expressions, and behavior. By promoting analytic, interpretive, interpersonal, research, and communication skills, the College of Humanities and Social Sciences facilitates personal growth, competent professionals, and responsible citizens.

CHSS Building 290

Website

College of Humanities and Social Sciences (<https://www.shsu.edu/academics/humanities-and-social-sciences/>)

Highlights

- Faculty in the College of Humanities and Social Sciences (CHSS) are committed to teaching excellence, curriculum innovation, research/scholarship, and community and university service.

- Faculty in the College of Humanities and Social Sciences have been recognized for their research and scholarship with national awards. Among these awards is a finalist for the 2016 Pulitzer Prize in History, a National Endowment for the Arts Fellow in Literature, and a National Endowment for the Arts Fellow in Creative Writing.
- Faculty in the College of Humanities and Social Sciences have been recognized for their teaching excellence with national and local awards. CHSS is home to five Minnie Stevens Piper Professors. Only 10 Piper Professors are identified each year across Texas.
- A national survey ranked the Psychology Program at Sam Houston State in the top ten of emerging Clinical Psychology Doctoral Programs.
- Courses in the College of Humanities and Social Sciences exceed the national norms in teacher effectiveness and course excellence.
- CHSS is home to many student organizations, both honorary and professional, to help build student resumes with active learning opportunities. Several of these clubs have been recognized regionally and nationally.
- A student in the Clinical Psychology PhD program received the David Pilon Scholarship for Training in Professional Psychology from the American Psychological Association of Graduate Students. This national award is made to one graduate student in psychology each year.
- CHSS houses two Research Centers:
 - The Center for the Study of Disasters & Emergency Management (CDEM)
 - The Center for Multi-cultural Rural Development (CMRD)

CHSS Graduate Scholarship

This enrollment-based scholarship awards \$1000 per semester for full-time students and \$500 per semester for part-time students. Application is located in Scholarships4kats.

Other

Departments within the college have numerous scholarships accessible through the Scholarships4kats application process.

Several of the department graduate programs have academic clubs that support students' integration into graduate studies and provide networking opportunities for students and faculty.

Departments often provide internship/practicum experience in the application of academic work to worlds of practice.

Department of Communication Studies

About

The Masters in Communication Studies provides for aspiring students in communication studies, professionals wishing to advance their careers, and educators seeking to teach dual-credit courses. For those who aspire to a PhD, an MA emphasizing interpersonal communication could be a useful stepping stone. Students in the MA program may apply for the Certificate in Communication Studies after successfully completing 18 credit hours and the required courses.

Mission

The mission of the Department of Communication Studies is to provide students with understanding and competency related to human communication as it occurs in a variety of settings and contexts. In the process, faculty are devoted to developing their expertise to the highest level and to developing the potential of students to obtain the knowledge and skills they need to live fulfilled and productive lives.

Highlights

- Graduate assistantships are available on a competitive basis.
- Graduates have gone on to Ph.D. programs at elite universities.
- Faculty provide collaboration opportunities for publication.
- Travel support available for graduate students for professional conference attendance/presentations.
- Master of Arts in Communication Studies
- Graduate Certificate in Communication Studies

Michael I Arrington, PHD (mia016@shsu.edu), Associate Professor of Communication Studies, Department of Communication Studies, PHD, Univ of South Florida; MA, Univ of South Florida; BA, Univ of Southern Mississippi

Frances Elizabeth Brandau, PHD (scm_feb@shsu.edu), Professor and Chair of Communication Studies, Department of Communication Studies, PHD, LSU & A&M College; MA, Univ of Southern Mississippi; BS, Univ of Southern Mississippi

Yixin Chen, PHD (cindychen@shsu.edu), Associate Professor of Communication Studies, Department of Communication Studies, PHD, University at Buffalo, Suny; MA, Univ of Texas-El Paso; ME, Huaqiao University; BE, Huaqiao University

Lisa Joanne Dahlgren, PHD (lxv024@shsu.edu), Associate Professor of Communication Studies, Department of Communication Studies, PHD, Arizona State University; MA, Univ of Hawaii At Manoa; BA, Univ of Hawaii At Manoa

Caleb George Hubbard, PHD (cgh034@shsu.edu), Assistant Professor of Communication Studies, Department of Communication Studies, PHD, Univ of Oklahoma-Norman; MA, West Texas A&M State Univ; BS, West Texas A&M State Univ

Colton Ellis Krawietz, PHD (cek043@shsu.edu), Assistant Professor of Communication Studies, Department of Communication Studies, PHD, Univ of Texas At Austin; MED, Univ of Texas At Austin; MA, Univ of Texas At Austin; BA, LSU & A&M College

Anna Hommadova Lu, PHD (anyalu@shsu.edu), Assistant Professor of Communication Studies, Department of Communication Studies, PHD, Arizona State University; PHD, University of Tsukuba; MA, University of Tsukuba; BA, Minnesota State Un-Moorhead

Anne Bennett Cook Smithson, PHD (abs055@shsu.edu), Lecturer of Communication Studies, Department of Communication Studies, PHD, George Mason University; JD, Northern Kentucky; MA, Georgetown University; BA, Univ of Kentucky

Kelly Lynn Matheney Weikle, PHD (klw121@shsu.edu), Lecturer of Communication Studies, Department of Communication Studies, PHD, Ohio University; MA, Ohio University; MMC, Univ of S Carolina-Columbia; BSJ, West Virginia University

Shuangyue Zhang, PHD (sxz002@shsu.edu), *Professor of Communication Studies, Department of Communication Studies*, PHD, Ohio State University; MA, Kent State University; MA, Shandong University; BA, Shandong Normal University

Master of Arts in Communication Studies

Communication Studies is an academic discipline that concerns human communication—both verbal and nonverbal. It deals with a variety of issues related to these processes, including the sharing of meaning, the encoding and decoding of messages, and the development of relationships using communication in a variety of contexts. Our department has a strong focus on interpersonal communication across a variety of contexts.

The online graduate program in Communication Studies focuses on advanced topics in the field, including:

- interpersonal conflict
- intercultural communication
- health communication
- computer mediated communication
- risk communication
- persuasion and social influence

These areas of study exemplify common topics in communication research. The Department of Communication Studies offers a useful and innovative offering of courses in its online master's degree.

This program is designed for working professionals wishing to advance their careers. It is also an attractive option for aspiring graduate students who wish to pursue a doctoral degree in Communication Studies. For those who aspire to a PhD in other fields, a Master of Arts emphasizing Interpersonal Communication could be a useful stepping stone.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/communication-studies/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applications to the online Communication Studies Master's Program are reviewed on a rolling basis, with **priority application deadlines** of: March 1st for the fall semester; October 1st for the spring semester. **We will accept and continue to review applications until all program slots are filled.**

Students seeking admission to the graduate program in Communication Studies must submit the following documents to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>): The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>): An application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting all prior degrees.*
4. Two letters of recommendation that discuss the applicant's suitability for graduate study. Letters should be from professional sources.
5. A letter of interest that summarizes the applicant's educational and professional goals, how a Communication Studies degree or certificate will help the applicant obtain his/her professional goals, and how the applicant's personal and professional experiences have prepared him/her for our graduate program.
6. An undergraduate GPA of 3.0 or higher is expected. Applicants who do not possess a graduate degree and have an undergraduate GPA below 3.0 must submit additional information as evidence of their academic and professional potential. Additional information may include, but is not limited to: GRE scores, a narrative that provides an explanation for the applicant's low GPA and why the GPA is not indicative of the applicant's academic and professional potential, etc.
7. A resumé.

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

Applicants must submit all application materials directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/transition.html>) by the university deadlines of August 1 for Fall, December 1 for Spring, and May 15 for Summer. A holistic review of each applicant's file will then be completed, with admission to the MA in Communication Studies program awarded on a competitive basis.

Note: Incomplete applications are held in the Graduate Admissions until they are complete. If you have any questions about your admission file, please contact the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>).

Students enrolled in the Master's Program in Communication Studies must complete 36 hours of coursework. (Please note that there is, currently, no thesis option available in the program.)

Of these hours, at least 30 must be completed within the Department of Communication Studies at Sam Houston State University.

All graduate students are required to take a written comprehensive examination over all coursework taken for the MA degree. Students must be enrolled in the University the semester or summer session in which the comprehensive exam is administered.

The four required courses for the M.A. program may not be offered every academic year. These courses are COMS 5331 Communication Studies Methods and Research, COMS 5332 Statistical Methods For Communication, COMS 5335 Advanced Communication Theory, and COMS 5360 Advanced Interpersonal Communication. It is important, therefore, that when students notice any one of these courses being offered in a given semester, they should register to take the course during that semester. Otherwise, the student may not be able to graduate on time, even if he or she takes a full load every semester because he or she is lacking a core course. Students should contact the Graduate Director for academic advisement.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Communication Studies is designed to provide graduates with the following marketable skills:

- Professional oral and written communication.
- Effective Presentation skills.
- Research and analytical skills.
- Evaluation of sources and information validity.
- Data synthesis.
- Critical thinking and the ability to compare and contrast information.
- Multi-cultural and diversity competencies.
- Conflict management and resolution.
- Interpersonal communication.
- Listening skills.
- Leadership and teamwork.

- Problem solving.
- Ethical communication

Graduate Certificate in Communication Studies

The Graduate Certificate in Communication Studies is an 18-hour online program. The certificate consists of two required courses and four elective courses. Full-time students will be able to complete the program in a year. Using summer classes, part-time students will be able to complete the certificate in a year and a half.

The elective coursework can be tailored to advance various professional goals in areas such as education, management, leadership, diversity and inclusion, human resources, and more.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/communication-studies/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applications to the online Communication Studies Certificate Program are reviewed on a rolling basis, with **priority application deadlines** of: March 1st for the fall semester; October 1st for the spring semester. We will accept and continue to review applications until all program slots are filled.

Students seeking admission to the graduate program in Communication Studies must submit the following documents to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>): The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>): An application fee is required for all applications to graduate programs at SHSU.

Department of English

Chair: Dr. Jacob Blevins (jblevins@shsu.edu)

Assistant to the Chair: Sarie Fuller

Contact Information:

(936) 294-1404
Evans Building 458

Website: Department of English (<http://www.shsu.edu/academics/english/>)

Mission

English forms the cornerstone of the humanities. In a variety of courses in literature, writing, and the English language, English students find a source of personal enrichment, and they develop verbal, analytic, and cultural skills readily adaptable to a variety of careers. English students learn to write with grace and precision, to read and analyze texts with accuracy, to conduct research and organize a welter of materials, to speak and listen well—in short, to sharpen their critical thinking and critical inquiry skills. These skills are highly valued by prospective employers. When our graduates leave with a degree in English, they are prepared for career opportunities or advanced study in literature and language, technical and professional communication, teaching, and/or creative writing.

Highlights

- The English Department focuses on excellent teaching and research, featuring a Minnie Stevens Piper Teaching Award winner, a Texas State University Regents' Professor and Distinguished Professor, a former Senior Fulbright Scholar, an American Council of Learned Societies Fellow, National Endowment of the Arts Fellow, and numerous Sam Houston State University Teaching Excellence Award winners.
- Faculty actively publish in national and international journals, win national literary awards, and have served as editors and co-editors of professional journals such as *Nathaniel Hawthorne Review*, *Intertexts*, *The Texas Review*, and *The Journal of Finnish Studies*. The department has recently hosted conferences of the North American Society for the Study of Romanticism, the Society of Comparative Literature and the Arts, as well as, conferences in Medieval and Renaissance literature and Medical Humanities.
- Nationally recognized writers are brought to campus each year to read their works to students and discuss the writing and publishing process. Such writers have included Tim O'Brien, Larry McMurtry, Richard Bausch, George Garrett, X.J. Kennedy, Galway Kinnell, Allison Joseph, Maurice Kilwein, Marilyn Nelson, and Alex Lemon.
- Students are provided opportunities to publish and present their scholarly and creative writing and to enter writing contests (such as the Academy of American Poets Prize). Numerous students have published works in regional and national journals.
- Students have the opportunity to write technical documents for non-profit and other community groups.

Career Opportunities

Students who earn a Master's degree in English find themselves well-prepared for further graduate study, community college teaching, and enriched secondary teaching as well as publishing, editing, and professional writing.

- Master of Fine Arts in Creative Writing, Editing, and Publishing
- Master of Arts in English/Master of Fine Arts in Creative Writing, Editing, and Publishing (Dual Degree)
- Master of Arts in English
- Master of Arts in Technical Communication
- Graduate Certificate in English

Student Organizations and Activities

Students in English may participate in many activities that will enrich their graduate experience and support the courses they take. These include the following:

- **Teaching Assistantships** provide opportunities for students to teach college-level writing courses. A limited number of **Research Assistantships** are also offered.
- **Scholarly and Creative Writing Colloquia** provide students with the opportunity to present their work.

Internships and Study Abroad

- **Texas Review Press** - Students may serve as interns at Texas Review Press. Interns are involved in a variety of tasks, ranging from charting the development of a manuscript to evaluating submissions to the literary journal.
- **The Texas Review** is a nationally recognized literary magazine that, twice a year, publishes fiction, poetry, nonfiction prose, and reviews by writers from around the world. Qualifying graduate students may serve as interns while working as members of the *Review* and Press staff.

- A graduate **exchange program** with the English Department at the University of Turku, Finland, provides students with an opportunity to study abroad for either a semester or a full year and transfer coursework toward their SHSU degree.

Scholarships

Several scholarships are available for outstanding students. Please see the Department Chair and/or the Department's website for more information. Information on University scholarships may be obtained from the Office of Academic Scholarships website (<http://www.shsu.edu/scholarships/>) or telephone (936) 294-1672.

Katie Jean Shinkle, PHD (kjs078@shsu.edu), *Assistant Professor of English, Department of English*, PHD, Univ of Denver; MFA, Univ of Alabama-Tuscaloosa; BA, Grand Valley State University

Yingying Tang, PHD (yxt045@shsu.edu), *Assistant Professor of English, Department of English*, PHD, Auburn University; MS, North Carolina State Univ

Kandi A Tayebi, PHD (eng_kat@shsu.edu), *Professor of English, Department of English*, PHD, Univ of Denver; MA, Univ of Northern Colorado; BA, Univ of Northern Colorado

Xiaobo Wang, PHD (xiaobo.belle.wang@shsu.edu), *Assistant Professor of English, Department of English*, PHD, Georgia State University; BA, Northwest Normal University

Master of Fine Arts in Creative Writing, Editing, and Publishing

The Master of Fine Arts in Creative Writing, Publishing, and Editing is designed

- to assist students in their development as writers of fiction, poetry, and/or creative nonfiction;
- to provide practical, hands-on experience in the field of editing and publishing;
- to deepen a student’s critical engagement with language and literature, and
- to prepare students for careers as published authors, as well as teachers of creative writing in community colleges and universities, secondary schools, prisons, libraries, and community centers of various types.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/creative-writing-editing-publishing/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit

Students seeking admission to the MFA in Creative Writing, Editing, and Publishing must supply the following materials directly to the Office of Graduate Admissions: (<https://www.shsu.edu/dept/graduate-admissions/transition.html>)

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>): The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>): An application fee is required for all applications to graduate programs at SHSU.
3. A statement of purpose, of 500 to 1000 words, articulating the applicant’s intentions for pursuing an MFA from our program.
4. Transcripts documenting all prior degrees.* (Note: Students with credentials from foreign universities must have their transcripts reviewed by a transcript evaluation service.)
5. Three letters of recommendation that discuss the applicant’s potential for success in a creative writing graduate program.
6. A creative writing sample of either 20 pages of prose or a collection of 8 - 10 poems.
7. International applicants ONLY: Official TOEFL scores

The MFA Program only accepts applicants for the Fall semester; the priority deadline for applying to the Fall semester is March 15th.

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

The MFA Program welcomes qualified international applicants; however, an individual who does not hold American citizenship must be accepted in regular admission status, without qualifications.

A holistic review of each applicant’s file will be completed, and admission will be granted on a competitive basis.

Note: Incomplete applications will not be reviewed.

To earn the MFA in English, students must complete a minimum of forty-eight hours of graduate credit with a focus in either Fiction, Creative Nonfiction, or Poetry, as indicated below.

- All MFA students are required to take ENGL 5340 at the first opportunity.
- Before beginning work on a thesis or undertaking a directed study, the student must have completed at least twelve hours of graduate English coursework at Sam Houston State University, including ENGL 5340 in good standing.
- All MFA students complete a two-semester thesis sequence (ENGL 6096 and ENGL 6097).
- All MFA students must pass the MFA program’s portfolio requirement. Students must be enrolled in the University for the terms in which they complete and defend the portfolio.
- A student may take ENGL 5312 twice, with approval of the Department Chair.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MFA in Creative Writing, Editing, and Publishing is designed to provide graduates with the following marketable skills:

- Effective written and oral communication.
- Critical Thinking.
- Editing skills for publishing industry.

M.A. in English/M.F.A. in Creative Writing, Editing, and Publishing (Dual Degree)

The MA in English/MFA in Creative Writing, Editing, and Publishing (Dual Degree) program gives students the opportunity to earn both the MA in English and the MFA in Creative Writing, Editing, and Publishing in a single 60-hour program. This program is intended for those students interested in advanced graduate work in both creative writing and academic literary studies.

Students seeking admission to the MA in English/MFA in Creative Writing, Editing, and Publishing (Dual Degree) program must supply the following materials directly to the Office of Graduate Admissions: (<https://www.shsu.edu/dept/graduate-admissions/transition.html>)

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>): The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>): An application fee is required for all applications to graduate programs at SHSU.
3. A statement of purpose, of 500 to 1000 words, articulating the applicant's intentions for pursuing our dual MA/MFA program.
4. Transcripts documenting all prior degrees.* (Note: We expect students to have completed at least twelve hours of upper-division English courses with a 3.0 GPA or better; students with credentials from foreign universities must have their transcripts reviewed by a transcript evaluation service.).

5. Four letters of recommendation that discuss the applicant's potential for success in a dual creative and academic English graduate program. Ideally, applicants will have two letters that address academic preparation for the MA and two letters that address creative writing preparation for the MFA.
6. A creative writing sample of either 20 pages of prose or a collection of 8 - 10 poems.
7. A critical writing sample of at least ten pages, preferably one that demonstrates research and critical writing skills particular to the study of literature and language and your ability to defend a cogent critical argument in a scholarly idiom appropriate to upper-division English classes. While the writing sample should be a single, sustained piece of work, typical of graduate-level writing, we will accept combinations of shorter pieces in exceptional cases.
8. **International applicants ONLY:** Official TOEFL scores

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

The MA in English/MFA in Creative Writing, Editing, and Publishing (Dual Degree) program welcomes qualified international applicants; however, an individual who does not hold American citizenship must be accepted in regular admission status, without qualifications.

A holistic review of each applicant's file will be completed, and admission will be granted on a competitive basis.

Note: Incomplete applications will not be reviewed.

Please note that the MFA program only admits students in the fall semester, and this affects the timeline for how students can apply to or switch into the MA/MFA Dual Degree:

- A prospective student who wishes to be admitted simultaneously to both programs of the MA/MFA Dual Degree must apply to begin the Dual Degree in the fall.
- A prospective student may apply to begin the MA program in the spring, and during that first semester may then apply to the MFA program to begin in the fall. If admitted to the MFA program, the student can then switch to the Dual Degree starting in the fall.
- A prospective student may apply to begin the MA program in the fall, and during their first or second semester may then apply to the MFA program to begin in the fall of their second year. If admitted to the MFA program, the student can then switch to the Dual Degree starting in the fall of their second year.
- A prospective student may apply to begin the MFA program in the fall, and during their first or second semester may then apply to the MA program to begin in the spring or the next fall. If admitted to the MA program, the student can then switch to the Dual Degree program starting in the semester they would start the MA program.
- No student may switch from a single degree program to the dual degree program after completing more than 18 credit hours in the first program.
- To earn the MA in English/MFA in Creative Writing, Editing, and Publishing (Dual Degree), students must complete a minimum of 60 hours of graduate credit in accordance with core components of each degree plan.
- All students must complete the following core MFA requirements:
 - 15 hours of creative writing workshops
 - 6 hours of Publishing and Editing
 - 3 hours of narrative or poetic theory
 - ENGL 5340 The Writers Life
 - MFA Thesis, ENGL 6096 and ENGL 6097
 - successfully pass the MFA program's portfolio requirement. Students must be enrolled in the University for the terms in which they complete and defend the portfolio.
- All students are required to complete the following core MA requirements
 - ENGL 5301 and ENGL 5302 must be taken at the first opportunity.
 - 21 hours of graduate English electives; at least 9 hours must be at the 6000 level
 - successfully complete the graduate comprehensive exam (which includes a presentation of graduate research). Students must be enrolled in the University for the term in which they complete the graduate comprehensive exam.
- Students MAY choose to do an MA Thesis (in addition to the required MFA thesis) in lieu of 6 hours of Electives. Thesis students would then complete a two-semester MA thesis sequence (ENGL 6098 (<http://catalog.shsu.edu/search/?P=ENGL%206098>) and ENGL 6099 (<http://catalog.shsu.edu/search/?P=ENGL%206099>)).
- Before beginning work on a thesis, undertaking a directed study, or taking the oral examination (graduate research presentation), a student must complete at least twelve hours of graduate English coursework at Sam Houston State University, including ENGL 5301 and ENGL 5302 and be in good standing.
- After taking ENGL 5301 and ENGL 5302, all MA students must complete the English graduate assessment examination conducted each May.
- A student may take ENGL 5339 (<http://catalog.shsu.edu/search/?P=ENGL%205339>) twice, with approval of the Department Chair.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The M.A. in English/M.F.A. in Creative Writing, Editing, and Publishing is designed to provide graduates with the following marketable skills:

- Think critically.
- Communicate effectively through writing and oral communication.
- Conduct and interpret various modes of research.
- Edit texts for publishing.

Master of Arts in English

The MA Program in English at Sam Houston State University has four defined goals, all of which share the common aim of preparing graduates as scholars, teachers, writers, and advocates for the Humanities. The program strives to be dynamic, encompassing, and diverse in its approach to the study of language and literature, offering both surveys of Classical, British, and American literature, as well as seminars that challenge these traditions

by taking into account diverse perspectives, other literatures, and a broad range of methodologies. By completing a series of seminars in the English language, in literature and textual studies, and in research methods and literary theory, the program aims to teach students how to:

1. demonstrate the ability to think theoretically and critically about language and literature, including the ability to apply research methods and critical theories reflective of the current state of scholarship;
2. demonstrate the ability to write cogently about language and literature, with an awareness of interdisciplinary connections;
3. demonstrate effective professional practices in research, analysis, and communication;
4. demonstrate a commitment to diversity and inclusion.

These goals are aligned with the University's mission of providing high quality education, scholarship, and service to qualified students for the benefit of regional, state, national, and international constituencies.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/english/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants must submit all application materials directly to the (<http://www.shsu.edu/dept/graduate-admissions/prospective-students.html>) Office of Graduate Admissions by the relevant deadline (see below). A holistic review of each applicant's file will then be completed with admission to the MA in English program offered to applicants on a competitive basis. Applications are reviewed on a rolling basis in accordance with these deadlines:

Fall semester: August 1st

Spring semester: December 1st

Summer semester: May 15th

Please, note incomplete applications will not be reviewed; applicants should confirm with Graduate Admissions that their applications are complete before the application deadlines.

Students seeking admission to the Master of Arts in English program must submit online through ApplyTexas the following materials directly to the Office of Graduate Admissions: (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>)

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>): the Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>): an application fee is required for all applications to graduate programs at SHSU.
3. Statement of purpose: a summary of the applicant's academic or professional goals, how an MA degree will help the applicant obtain their academic or professional goals, and how the applicant's academic and possibly professional experiences have prepared them for the MA program. The statement should be no more than two single-spaced pages.
4. Transcripts documenting all prior degrees.* (Note: applicants are expected to have completed at least twelve hours of upper-division English courses with a 3.0 GPA or better; students with credentials from foreign universities must have their transcripts reviewed by a transcript evaluation service.)
5. Letters of recommendation: applicants must submit at least two but no more than four letters. The letters should discuss the applicant's potential for success in an English graduate program.
6. A scholarly/critical writing sample: a demonstration of the applicant's ability to analyze literary texts and present critical research. The sample should be a minimum of ten pages double-spaced.
7. **International applicants ONLY:** official TOEFL scores.

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

- To earn the MA in English, students must complete a minimum of thirty-six hours of graduate credit in accordance with one of two degree plans (thesis plan or non-thesis plan).
- **Thesis plan:** A student takes thirty-six hours of graduate coursework, twenty-four hours of which must be in English, including a six-hour MA thesis (ENGL 6098 and ENGL 6099). The student must take the required core courses, ENGL 5301 and ENGL 5302, at the first opportunity; three additional ENGL 5000-level courses; the Graduate Assessment Examination; ENGL 6098 and ENGL 6099; one additional ENGL 6000-level course; and twelve hours of additional graduate course work. Students must be enrolled in the University for the terms in which they complete and defend their thesis. Students must successfully defend their thesis.
- **Non-thesis plan:** A student takes thirty-six hours of graduate coursework, twenty-four hours of which must be in English. The student must take the required core courses, ENGL 5301 and ENGL 5302 at the first opportunity; three additional ENGL 5000-level courses; the Graduate Assessment Examination; three ENGL 6000-level courses; and twelve hours of additional graduate course work. Students must successfully complete the graduate comprehensive exam (which includes a presentation of graduate research). Students must be enrolled in the University for the term in which they complete the graduate comprehensive exam.

- Before beginning work on a thesis, undertaking a directed study, or taking the oral examination (graduate research presentation), the student must have completed at least twelve hours of graduate English coursework at Sam Houston State University, including ENGL 5301 and ENGL 5302, and be in good standing.
- After taking ENGL 5301 and ENGL 5302, all MA students must complete the English graduate assessment examination conducted each May.
- A student may take ENGL 5312 twice, with approval of the Department Chair.

A graduate student in English may pursue one of two degree plans. Plan 1 requires a thesis; Plan 2 does not require a thesis.

Plan 1 – MA in English

This degree plan is designed for students who plan to continue their studies at a doctoral level and for teachers of high school English who wish to increase scope, depth, and expertise in their teaching specialties. Under Plan 1 the student must write a thesis. Under this plan, students take thirty hours of coursework and six hours of thesis.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in English is designed to provide graduates with the following marketable skills:

- Think critically.
- Communicate effectively through writing and oral communication.
- Conduct and interpret various modes of research.

Master of Arts in Technical Communication

The Master of Arts in Technical Communication equips students with the theory and practical skills to communicate complex information efficiently and effectively. This program is designed for multiple types of students:

- Those seeking careers or pursuing doctoral studies in technical communication.
- Established professionals from other fields seeking graduate-level development to enhance their skill-set and increase their value within their areas of expertise (including medical, industrial, and managerial).

Students in this program learn to analyze writing situations, design documents for print and digital media, produce texts for a variety of audiences, and manage large documentation projects. Technical communicators frequently consult with varied industries or find employment in medicine, petroleum/engineering, software/web development, or other fields that require superior communication skills.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/technical-communication/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students applying for admission to the Master of Arts in Technical Communication should submit the following materials to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/transition.html>):

1. Graduate Application (<https://www.shsu.edu/admissions/apply-texas.html>): the Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee: (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>) An application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting all prior degrees.*
4. Expected undergraduate GPA of 3.0 or higher in the undergraduate major. Applicants with a GPA of less than 3.0 in the undergraduate major are encouraged to submit additional information (e.g., GRE scores, a narrative explaining why the GPA isn't indicative of the applicant's academic/professional potential, etc.) to support consideration for admittance.
5. 3 references: Provide a reference sheet containing the name, organization, job title, phone, and email address for each of 3 references.
6. A personal statement of intent (750–1000 words) explaining the applicant's perceptions of technical communication and thoughts about how the M.A. in Technical Communication might apply to the applicant's professional goals.
7. Résumé

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

The Admissions Committee will review applications for completeness before conducting a holistic review for competitive admission to the program. Incomplete applications will not be reviewed.

Note: The portfolio review takes the place of comprehensive exam requirements.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Technical Communication is designed to provide graduates with the following marketable skills:

- Content creation and management.
- Process development and documentation.
- Usability research and development.
- Proposal and grant writing.
- Document and interface design.

Graduate Certificate in English

To teach college-level, dual-credit classes in the State of Texas, high school teachers must hold a graduate degree (Master's or PhD) and have eighteen graduate hours (six courses) in the teaching field. The English teaching certificate program gives students who hold graduate degrees in fields other than English graduate training designed to enhance students' ability to teaching dual-credit and community college courses.

The dual credit teaching certificate program allows students to

- work with specialists in literature, rhetoric, and writing disciplines;
- complete the eighteen-hour program completely online; and,
- apply all 18 hours of the certificate to the full MA degree in English at Sam Houston State University.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/english/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students applying for the Graduate Certificate in English at Sam Houston State University must submit the following materials to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/transition.html>):

1. Graduate Application: (<http://www.shsu.edu/admissions/apply-texas.html>) The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>): An application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting the conferral of an undergraduate degree and conferral of a graduate degree from accredited institutions* (graduate GPA of 3.4 or higher is expected);
4. A letter of purpose stating your professional intentions for applying to the certificate program and discussing your teaching career, works of literature you have taught, and your approach to teaching them.

Application Deadlines

For Summer admission: May 1

For Fall admission: August 1

For Spring admission: December 1

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts

Application for MA Degree Program

Students who are accepted into the Graduate Certificate in English and later wish to apply to the MA in English program will be required to submit additional materials related to the MA application process in effect at the time of their application.

Students enrolled in the MA in English may complete the Graduate Certificate in English as part of the MA degree plan. Students who enroll only in the certificate, may (if accepted for degree candidacy) apply the 18 hours of graduate English credit earned in the certificate program to the MA degree.

SHSU requires that a student complete a graduate degree within six years of matriculation. A certificate student who subsequently pursues the MA in English has six years to complete the degree from the first term of enrollment in the certificate program.

Code	Title	Hours
Graduate Certificate in English		
Required Courses

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's 60x30TX plan and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in English is designed to provide graduates with the following marketable skills:

- Provides the credentials for teaching college credit bearing English courses for dual credit or community colleges.
- Improves writing skills.
- Gives students practice in analysis of written and multimodal texts.

Department of History

About

Chair: Dr. (Bmj018@shsu.edu) Brian Jordan

Contact Information

(936) 294-4460
AB4 Room 441

Website: Department of History (<http://www.shsu.edu/academics/history/>)

Mission

The Department of History prepares students to learn about and analyze historical events; evaluate change over time; assess complex forces at work in the past; and learn how, in written and oral expression, to explain these various phenomena. In doing so, the department prepares students for any career requiring critical thinking and analytical skills. The Department of History is a vehicle—through teaching, research and service—for exploring the past on its own terms.

- Master of Arts in History
- Graduate Certificate in American History
- Master of Arts in History and Political Studies

Director/Chair: **Brian Matthew Jordan**

Master of Arts in History

The Master of Arts in History program at Sam Houston State University prepares students to critically analyze historical events; to assess major interpretive problems and historiographical debates; to weigh and interpret conflicting evidence; to evaluate change over time; to acknowledge the complexities and contingencies of the past; and to appreciate the texture and diversity of human experiences. Students who complete the MA in History degree should be able to make and sustain an historical argument in professional prose; to position those arguments in larger interpretive frameworks; to evaluate the merits of an historical argument; and to pose good questions, both about the past and their own particular moment. Courses are delivered online and asynchronously, but small class sizes ensure that students have ample opportunities for engagement with their instructional faculty. This degree prepares students who wish to pursue a doctoral degree in the discipline or who wish to gain certification to teach dual-credit or two-year college courses in History. The program also serves general interest learners who wish to enrich their understanding of the past.

To organize their coursework, students select one of the following thematic tracks, each of which represent mainstays of the human experience. Each track transcends time and space, inviting students to ask thematic questions and to build connections between courses and historiographies.

Rights & Identity: Students explore how individuals and collectives have defined themselves at different times and places around the world. Students will examine how such matters as social order, race, ethnicity, religion, gender, sexuality, national origins, and other factors have shaped personal identity and group consciousness. In addition, classes in this track will explore how custom, rights, citizenship, and belonging have been negotiated and contested by various states and non-state actors around the world.

War & Violence: War and violence have been mainstays of human history. Students examine how various societies throughout history have experienced, conducted, and remembered military conflict, mass killing, and genocide. How has the conduct of war changed over time? What are the human, emotional, and cultural consequences of war? When and why do societies resort to armed conflict?

Encounters & Exchanges: Students examine the themes of encounter and exchange throughout history. Cross-cultural encounters have been central to the human experience since antiquity and have sometimes manifested themselves on the large scale, as is evident with the Silk Roads, the Atlantic Slave Trade, and, most recently, globalization. Trade, missionary activity, and imperialism are other avenues by which the world's diverse peoples have interacted.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/history/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students seeking admission to the MA in History must meet the following requirements and submit all documents to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/transition.html>):

1. Graduate Application (<https://www.shsu.edu/admissions/apply-texas.html>): The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>): An application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting all prior degrees.*
4. Two letters of recommendation that discuss the applicant's academic and professional potential.
5. Statement of Intent: Applicants should submit a written statement explaining why they wish to pursue an MA in History; how their educational background or work experience has prepared them to undertake a graduate degree in history; and what they plan to do professionally with the degree.
6. An academic writing sample demonstrating the applicant's ability to advance an argument in professional prose.
7. Completion of at least eighteen semester credit hours in history at the undergraduate level. Courses from other disciplines may be counted toward this requirement if they had a strong historical focus.

Applicants may submit additional information about relevant coursework with their application file.

Applicants who have not completed eighteen semester credit hours in history may be probationally accepted to the program after a holistic review of their application file.

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

Admission Deadlines:

Fall: March 1

Summer: March 1

Spring: October 1

Applicants must submit all application materials directly to the Office of Graduate Admissions by the relevant deadline. A holistic review of each applicant's file will then be completed, with admission to the MA in History program offered to applicants on a competitive basis.

Note: Incomplete applications will not be considered.

During a student's final semester of coursework, non-thesis students will submit a portfolio of their written work. In addition to a cover sheet and table of contents, this portfolio will include one sample of written work from each course, an annotated bibliography of books and articles read in those courses, and an original essay reflecting on their major thematic track. Thesis students shall be exempt from the portfolio requirement.

Plan 1 - MA in History (Thesis)

Code	Title	Hours
Master of Arts in History (Thesis)		
Required Courses

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in History is designed to provide graduates with the following marketable skills:

- Engage effectively in regional, national, and global communities while promoting civil discourse and civic participation.
- Express ideas in written, oral, and visual communication.
- Think critically and analytically.
- Evaluate and interpret textual and non-textual evidence/sources of information.
- Build an informed belief system by synthesizing knowledge and posing questions about different societies and cultures.

Graduate Certificate in American History

The 18-hour certificate program in American history will prepare graduate students to read, analyze, and write about the past in a way that is meaningful today. In keeping with this philosophy, the program will offer a unique experience, which allows students to participate in graduate education through online classes. Students in the program will find a broad-based education incorporating in-depth studies of American history, immersion in the latest historiographical theories, and training in advanced research methods.

The 18-hour graduate certificate program in history will allow secondary school teachers who already hold a master's degree in another field to earn the credentials needed to teach courses for joint high school and college credit.

Through this program teachers will be able to:

- Work with leading scholars from SHSU's faculty members in history;
- Complete the 18-hour program completely online from their homes or offices;
- Finish the 18-hour program in a single year;
- Apply coursework from this 18-hour program to a full MA degree in history at SHSU.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/american-history/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Graduate Certificate in American History submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/transition.html>):

1. Graduate Application: (<https://www.shsu.edu/admissions/apply-texas.html>) The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>): An application fee is required for all applications to graduate programs at SHSU.
3. Possession of undergraduate and master's degrees from accredited institutions.
4. Transcripts documenting all prior degrees.*
5. Two letters of recommendation that discuss the applicant's academic and professional potential.
6. An academic writing sample demonstrating the applicant's ability to advance an argument in professional prose.

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

Admissions Deadlines:

Fall: March 1

Summer: March 1

Spring: October 1

Note: Incomplete applications will not be considered.

About

The Department of Political Science offers three graduate programs: Master of Arts in Political Science, Masters of Public Administration, and Master of Arts in History and Political Studies (a joint program with the History Department). The department also offers an 18-hour Graduate Certificate in Political Science. All graduate programs are offered fully online. Courses are offered summer, fall, and spring.

Mission

The mission of the Department of Political Science is to provide students with theoretical knowledge and understanding of core concepts and principles in political science and public administration and to help students develop the skills and experience necessary for professional careers in the 21st century.

- Master of Arts in Political Science
- Master of Public Administration (M.P.A.)
- Master of Arts in History and Political Studies (with Department of History) (<http://catalog.shsu.edu/graduate-and-professional/college-departments/humanities-social-sciences/history-and-political-studies-ma/>)

Master of Arts in Political Science

The Master of Arts in Political Science is an online degree program designed for both recent college graduates and individuals seeking to advance their professional or academic careers. The program serves students preparing for doctoral studies or law school, high school teachers seeking to improve their professional credentials, individuals wanting to teach in the community colleges, and individuals preparing for careers or advancement in nonprofit organizations (international and domestic) and the public sector.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/political-science/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students are admitted to the graduate program for the Fall, Spring, and Summer semesters, with the following application deadlines:

Fall semester enrollment: August 1
 Spring semester enrollment: December 1
 Summer enrollment: May 15

Admission into the program is based on the listed requirements and faculty/student ratios. The following are required for admissions consideration:

1. Graduate Studies Application (<http://www.shsu.edu/admissions/apply-texas.html>): The Graduate Studies Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee: An application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting all prior degrees.*
4. Minimum undergraduate GPA of 3.0: Applicants who do not possess a graduate degree from an accredited institution are expected to have earned a minimum GPA of 3.0 in an undergraduate degree from an accredited institution. However, applicants who possess neither a graduate degree nor a minimum undergraduate GPA of 3.0 may submit additional information as evidence of their academic and professional potential. Such additional information may include, but is not limited to: GRE scores, an academic writing sample, a narrative that provides an explanation for the applicant's low GPA and for why the GPA is not indicative of the applicant's academic and professional potential, etc.
5. Statement of Intent: Applicants should submit a written statement that specifically addresses at least the following three elements: a) why they are applying to the program; b) how their experience (academic, work, etc.) has prepared them to enter the program; and c) what they plan to do – professionally – with the degree.
6. A current resume or curriculum vitae.
7. Names and contact information for at least two individuals who can speak to applicant's academic and professional potential.

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

Applicants must submit all application materials directly to the Office of Graduate Studies (<http://www.shsu.edu/dept/graduate-admissions/prospective-students.html>) by the relevant deadline. A holistic review of each applicant's file will then be completed, with admission to the MA Program offered to applicants on a competitive basis.

Incomplete applications will not be considered.

The program entails 36 hours of coursework and a portfolio of written work.

All students are required to take four overview courses on (1) Political Science as an academic discipline and its main subfields of (2) American Politics, (3) Comparative Politics, and (4) International Relations. Alongside those four requirements, which account for twelve credit hours, students can choose any eight other non-thesis POLS graduate courses as electives that best suit their academic interests and professional goals. With graduate advisor approval, students may satisfy some of their elective credit hours by pursuing an informal concentration in a relevant area from one or more other departments or graduate programs.

All students must complete and submit a portfolio of written work in their last semester of coursework. The portfolio can be structured as a teaching portfolio or a research portfolio, depending on the student's academic interests and professional goals. Students are required to be enrolled in the University during the semester or summer session in which the portfolio is submitted.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Political Science is designed to provide graduates with the following marketable skills:

- Analytical and writing skills.
- Incorporate technology to solve problems and accomplish goals.
- Prepare students for professional careers in the 21st century.
- Prepare students to make meaningful contributions to local, state, national, and global communities.

Master of Public Administration (M.P.A.)

The Master of Public Administration program is an online degree program designed to empower those seeking a career in public service as well as those already employed who desire to enhance their current career trajectory. The program prepares professionals for work in government at the local, state, or national level as well as nonprofit organizations. Those in the private sector may also find the curriculum valuable.

The MPA degree requires a total of 36 hours of coursework:

- 21 hours of core coursework; and
- 15 hours of concentration coursework.

Prior to graduation, all students must also complete and pass the comprehensive exams, which encompass key learning objectives from the core coursework. Students are expected to complete all core coursework prior to taking the comprehensive exams. Students with one core course remaining may take the comprehensive exams with the approval of the MPA Director. Comprehensive exams are administered during the fall, spring, and summer semesters. Students must be enrolled in the university the semester or summer session in which the comprehensive exams are administered.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/public-administration/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applications to the online Master of Public Administration (MPA) Program are reviewed on a rolling basis, with application deadlines of: August 1st for the fall semester; December 1st for the spring semester; and May 15th for the summer semester. The MPA Program's admission considerations include the following:

1. Graduate Admissions Application (https://www.applytexas.org/adappc/gen/c_start.WBX): The Graduate Studies Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application Fee (http://www.shsu.edu/~grs_www/ApplicationFee.html): An application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting all prior degrees.¹
4. A current resume or curriculum vitae.
5. A writing sample of scholarly or professional work.
6. A statement of interest that summarizes the applicant's professional goals, how an MPA degree will help the applicant obtain their professional goals, and how the applicant's personal and professional experiences have prepared them for the MPA program. The statement of interest should be between one and two single-spaced pages.
7. Names and contact information for at least two individuals who can speak to applicant's academic and professional potential.
8. Applicants who do not possess a graduate degree from an accredited institution, are expected to have earned a minimum undergraduate GPA of 3.0 from the accredited institution granting the undergraduate degree.
9. Applicants who do not possess a graduate degree and have an undergraduate GPA below 3.0 may submit additional information as evidence of their academic and professional potential. Additional information may include, but is not limited to: a narrative that provides an explanation for the applicant's low GPA and why the GPA is not indicative of the applicant's academic and professional potential or GRE scores. Applicants can submit the GPA narrative as part of their statement of interest.
10. If the MPA Admissions Committee needs additional information for an admission decision, the MPA Admissions Committee Chair may schedule an interview with an applicant or request an applicant provide additional information via email.

Applicants must submit all application materials directly to the Office of Graduate Studies (<http://www.shsu.edu/dept/graduate-admissions/prospective-students.html>) by the relevant deadline. A holistic review of each applicant's file will then be completed with admission to the MPA Program offered to applicants on a competitive basis.

¹ Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

MPA Core Courses

PADM 5362	Managing the Nonprofit Organization	
Total Hours		36

¹ Internships are not required; no more than 6 credit from PADM 5002 and PADM 5003 can apply to MPA degree plan.

² Special topics courses are offered occasionally.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The M.P.A. is designed to provide graduates with the following marketable skills:

- Develop students' analytical and writing skills.
- Develop students' ability to utilize technology to solve problems and accomplish goals.
- Prepare students for professional careers in the 21st century.
- Prepare students to make meaningful contributions to local, state, national, and global communities.

Graduate Certificate in Political Science

The Graduate Certificate in Political Science is designed for high school and community college instructors who wish to obtain 18 hours of graduate coursework relevant to key fields in the discipline of political science, such as the field of American Politics. Course offerings allow students to complete the certificate in one year if students take two courses per semester including summer.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/political-science/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Those wishing to pursue the certificate should hold a graduate degree from an accredited college or university and submit the following to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

- An application with accompanying application fee to the Sam Houston State University Office of Graduate Studies.
- Transcripts documenting all prior degrees.

- Names and contact information for at least two individuals who can speak to applicant's academic and professional potential.
- A letter of interest that specifically addresses at least the following three elements: a) why they are applying to the program; b) how their experience (academic, work, etc.) has prepared them to enter the program; and c) what they plan to do professionally after completing the program.
- A current resume or curriculum vitae.

Note: Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

¹ It is strongly recommended that students contact their employer, prior to registration, to request a credentialing review for elective courses.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's 60x30TX plan and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Political Science is designed to provide graduates with the following marketable skills:

- Problem solving: Critical, analytical, and evaluative thinking.
- Communication: Professional expression of ideas through written, verbal, and visual work.
- Leadership: Effective engagement as professional educators in local, state, national, and global communities.

Department of Psychology and Philosophy

Chair: Jorge G. Varela (jgv002@shsu.edu), Ph.D.

Mission

The Department of Psychology and Philosophy supports the Mission Statement of the University and that of the College of Humanities and Social Sciences. The Department is committed to providing a quality educational environment conducive to scholarship and the acquisition of knowledge and applicable skills. We recognize that this ideal requires the effective use of faculty expertise and creativity, a sensitivity to the needs of the university and to the community, and a genuine concern for the abilities and goals of students.

- Doctor of Philosophy in Clinical Psychology
- Master of Arts in Clinical Psychology: Pre-Doctoral Track (**Doctoral Students Only**)
- Master of Arts in Clinical Psychology
- Master of Arts in Experimental Psychology
- Specialist Degree in School Psychology

Ph.D. in Clinical Psychology

The Clinical Psychology Ph.D. program seeks to train professionals with a broad knowledge of scientific psychology who will be skilled clinicians. The program's educational philosophy is to produce scientist/practitioners who possess expertise in both research and clinical practice. The department believes that experience in applied settings produces scientists who are sensitive to pragmatic issues and who are on the cutting edge of research questions essential to practitioners in the field. Conversely, clinicians who have been trained as scientists understand emerging research and incorporate new findings into their daily practice. The program uses a flexible mentor model in which students are accepted to work with a particular member of the faculty for their degree-required research, but also are encouraged to seek research opportunities with other members of the Department faculty. All students are required to complete a dissertation and to be enrolled full-time. The demands of the program's training are not amenable to part-time or weekend course schedules.

Additionally, the Ph.D. program includes a strong forensic emphasis. We train all students to be legally informed clinicians, who can explain psychological phenomena to courts or administrative agencies, intervene with individuals and families at various junctures in the social system, and provide assessment and treatment for both victims and offenders. All students have the opportunity to participate in performing forensic evaluations for the courts. Students will complete the program with the basic preparation they need to pursue postdoctoral specialty training and legally relevant clinical psychology research.

Clinical psychology is the psychological science that seeks to understand, assess, and treat psychological disorders and conditions. SHSU psychology students' published research has examined test development, personality assessment, psychopathology, gender and minority issues, jury processes, and public policy, among other topics. Students' practicum experiences have involved work with severely disturbed clients, people with brain injuries, persons with addictions, troubled adolescents, children and families, and persons in the legal system. Practicum settings have included a variety of inpatient and residential settings (neuropsychiatric, rehabilitation, and university medical center), private psychological practices, and correctional settings. In addition, the program operates its own Psychological Services Center where students provide services to a broad range of community clientele.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/doctorate/clinical-psychology/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the doctoral program in clinical psychology must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/transition.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>): The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>): An university application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting all prior degrees.* Applicants are welcome to submit transcripts for coursework from additional institutions, though this is not necessary.
4. Program application with the fee
5. A minimum of two letters of recommendation (three are preferred)
6. Personal Statement/Essay
7. Current resume or curriculum vitae
8. TOEFL score (if applicable)

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

Note: GRE Scores are not needed and will not be reviewed for the 2024-2025 admission cycle.

The application deadline is December 1, 2023.

The Doctoral Program seeks promising students from all backgrounds in the service of creating a diverse intellectual community. High test scores and grades do not guarantee acceptance, and students whose lower scores are offset by other exceptional qualifications may be admitted. New students may join the program with either a baccalaureate or a master's degree.

For application forms or further information, write, or call:

Clinical Psychology Ph.D. Program
Department of Psychology and Philosophy
Sam Houston State University
Box 2210
Huntsville, TX 77341-2210
Telephone: (936) 294-1210

E-mail: clinpsy@shsu.edu

Note: Incomplete applications will not be reviewed.

All formal requirements for completion of the Ph.D. are described in the Clinical Psychology Doctor of Philosophy Program Handbook and may vary from one student to another depending on previous academic preparation. The following guidelines are offered to demonstrate the nature of the doctoral program and should not be misconstrued as representing the formal requirements for the PhD:

1. A course of study that includes training in the discipline-specific knowledge of psychology, including research and quantitative methods; history and systems of psychology; and the affective, biological, cognitive, developmental, and social bases of behavior. Students are also trained in the profession-wide competencies associated with clinical psychology, which include research, ethical and legal standards, individual and cultural diversity, professional values and attitudes, communication and interpersonal skills, assessment, intervention, supervision, and consultation and interprofessional/interdisciplinary skills. This course of study is sequential, cumulative, graded in complexity, and designed to prepare students for entry-level practice and further organized training.
2. Enrollment as a full-time student (i.e., a minimum of 9 credit hours per semester) on campus for at least four consecutive long (i.e., Fall, Spring) semesters.
3. Earned grades of B or better in all classes. Please consult the Program Handbook for a more detailed description of policies regarding academic standards.
4. Completion with a passing score on a written comprehensive examination.
5. Completion and defense of a doctoral dissertation that is the product of original scholarly research and is of such quality as to represent a meaningful contribution to knowledge in the field of psychology.
6. Completion of a year-long pre-doctoral internship, during which the student works full-time in an applied clinical setting.
7. Completion of the degree within 6 years from the first semester of registration as a doctoral student (i.e., following completion of requirements for the master's degree).

Students entering with a master's degree in psychology and who have completed similar courses as part of their degree may have courses waived at the discretion of the Doctoral Program Faculty.

¹ Students must take PSYC 8383 for a minimum of nine hours and until such time as they enroll in Internship PSYC 8110.

² Once enrolled in PSYC 6099, students must enroll in this course every semester until the thesis route sheet is received by the Office of the Registrar.

³ Once enrolled in PSYC 8099, students must enroll in this course every semester until the dissertation route sheet is received by the Office of the Registrar.

Note: Doctoral students must earn a grade of B or above in all classes.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Ph.D. in Clinical Psychology is designed to provide graduates with the following marketable skills:

- Graduates will meet the educational requirements for licensure as a psychologist in Texas.
- As licensed psychologists, or while working under supervision, graduates will be able to provide comprehensive, multi-method psychological evaluations to answer a wide range of referral questions.
- As licensed psychologists or while working under the supervision, graduates will be able to provide psychotherapy services to diverse clients using empirically supported treatment techniques.
- Graduates will be competent to conduct psychological research, including developing research questions, designing empirical research, and using quantitative methods.

Master of Arts in Clinical Psychology: Pre-Doctoral

The MA in Clinical Psychology: Pre-Doctoral degree offers students the opportunity of earning their Masters degree on their way to earning the Ph.D. in Clinical Psychology. Please, note that this option is only available to students who have been admitted to Sam Houston State University as doctoral students. As with the Ph.D. program, the demands of the MA: Pre-Doctoral degree's training requirements are not amenable to part-time or weekend course schedules.

Clinical psychology is the psychological science that seeks to understand, assess, and treat psychological disorders and conditions. SHSU psychology students' published research has examined test development, personality assessment, psychopathology, gender and minority issues, jury processes, and public policy, among other topics. Students' practicum experiences have involved work with severely disturbed clients, people with brain injuries, persons with addictions, troubled adolescents, children and families, and persons in the legal system. Practicum settings have included a variety of inpatient and residential settings (neuropsychiatric, rehabilitation, and university medical center), private psychological practices, and correctional settings. In addition, the program operates its own Psychological Services Center where students provide services to a broad range of community clientele.

Students applying to this program must be admitted to Sam Houston State University as doctoral students. Doctoral students admitted to the university who have not received a Masters degree at another institution obtain the MA in Clinical Psychology: Pre-Doctoral on their way to obtaining the Ph.D. in Clinical Psychology. Applicants seeking admission to the doctoral program in clinical psychology must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/transition.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>): The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>): An university application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting all prior degrees.* Applicants are welcome to submit transcripts for coursework from additional institutions, though this is not necessary.
4. Program application with the fee.
5. A minimum of two letters of recommendation (three are preferred).
6. Personal Statement/Essay.
7. Current resume or curriculum vitae.
8. TOEFL score (if applicable).

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

Note: GRE scores are not needed and will not be reviewed for the Academic Year 2024-2025 admissions cycle.

The application deadline is December 1, 2023.

¹ Once enrolled in PSYC 6099, students must enroll in this course in every semester until Thesis is completed.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

Following the completion of the MA in Clinical Psychology: Pre-Doctoral, the student will proceed with the degree requirements for the Ph.D. in Clinical Psychology. Completing the doctoral degree will meet the educational requirements designed to provide graduates with the following marketable skills:

- Graduates will meet the educational requirements for licensure as psychologist in Texas.
- As licensed psychologists or while working under supervision, graduates will be able to provide comprehensive, multi-method psychological evaluations to answer a wide range of referral questions as licensed psychologists.
- As licensed psychologists or while working under the supervision, graduates will be able to provide psychotherapy services to diverse clients using empirically-supported treatment techniques.
- Graduates will be competent to conduct psychological research, including developing research questions, designing empirical research, and using quantitative methods.

Master of Arts in Clinical Psychology

The Master of Arts degree in Clinical Psychology is designed to produce Master's-level practitioners who are qualified to apply for licensure as a Licensed Psychological Associate (LPA) by the Texas State Board of Examiners of Psychologists. Recent changes to Texas state licensure rules and regulations require 60 hours of coursework in order to be eligible to obtain an LPA and practice independently. The program provides supervised practicum experiences and equips students with applied skills in psychological assessment, diagnosis and clinical intervention. A Master's degree in

Clinical Psychology from SHSU also prepares students for further graduate study and/or community college teaching. Students must successfully complete two capstone evaluations in assessment and psychotherapy typically during their last semester of the program.

While the program is primarily practitioner-oriented and all students are admitted under the non-thesis degree plan, students may gain valuable research experience by joining faculty members' research labs. In addition, a limited number of students may pursue a formal thesis when a faculty mentor supports their prospectus and agrees to supervise their thesis research.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/clinical-psychology/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students seeking admission to the Master of Arts in Clinical Psychology must submit the following documents to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/transition.html>):

1. Graduate Application: (<http://www.shsu.edu/admissions/apply-texas.html>) The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee: (<http://www.shsu.edu/admissions/apply-texas.html>) An application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting all prior degrees.* (12 hours of coursework in psychology is required)
4. Applicants are expected to have earned a minimum undergraduate GPA of 3.0 from the accredited institution granting the undergraduate degree. Applicants who have an undergraduate GPA below 3.0 and do not possess graduate coursework demonstrating significant improvement are encouraged to provide an explanation for the applicant's low GPA and why the GPA is not indicative of the applicant's academic and professional potential in the Letter of Intent.
5. Letter of intent: The Letter of Intent is your opportunity to discuss your fit with the program offered at Sam Houston State University. While you have a significant amount of freedom to discuss anything you would like in your letter of intent, please address your short-term and long-term academic/professional goals, your research interests, and how these interests align with specific faculty research agendas. In addition, please discuss your expectations for training in light of the changing demographics of the U.S.
6. Three completed recommendation forms that comment on the applicant's suitability for graduate study. The most useful recommendations come from university faculty who are able to describe the applicant's potential for success in graduate study.
7. Official GRE General Exam scores.
8. Curriculum Vita (CV) with sections emphasizing education, research experience, volunteer or clinical experience, and any notable achievements, awards, or proficiencies.

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

Students will be admitted for the Fall (no spring or summer admissions). The application deadline for Fall enrollment is February 15.

Admission to the MA in Clinical Psychology program is competitive and the number of available positions is limited.

Note: Incomplete applications will not be reviewed.

In addition to the courses listed below, all students must complete two capstone evaluations in assessment and psychotherapy near the end of their program. The details of the comprehensive examinations are set out in the Program Handbook.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Clinical Psychology is designed to provide graduates with the following marketable skills:

- Eligibility to pursue licensure at the Master's level as a Licensed Psychological Associate (LPA) in the state of Texas.
- Clinical skills for conducting psychological interventions with a variety of clinical populations.
- Assessment skills for conducting psychological evaluations of cognitive and emotional functioning.
- Research skills that allow graduates to be effective scholars and consumers of the scientific literature.
- Qualification to teach in community college and other educational settings.

Master of Arts in Experimental Psychology

The MA in Experimental Psychology provides training in the scientific sub-disciplines of psychology. The program is an experimentally oriented program that is designed to give students a broad foundation in psychological science and does not provide training in the delivery of psychological services. Instead, students learn about human behavior and gain key analytical skills that will prepare them for further doctoral education or to enter the work force in research management or teaching positions. Students may pursue a formal research thesis when a faculty mentor supports their prospectus and agrees to supervise their thesis research. In addition, in order to graduate with an MA degree in this program, students take a comprehensive examination in their final semester, which assesses their knowledge of the areas to which they have been exposed.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/psychology/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students seeking admission to the Master of Arts program in Experimental Psychology must submit the following documents to the Office of Graduate Admissions: (<https://www.shsu.edu/dept/graduate-admissions/transition.html>)

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>): The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee: (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>) An application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting all prior degrees.* (12 hours of psychology coursework required; a statistics and/or research methods course is strongly encouraged)
4. Applicants are expected to have earned a minimum undergraduate GPA of 3.0 from the accredited institution granting the undergraduate degree. Applicants who have an undergraduate GPA below 3.0 and do not possess graduate coursework demonstrating a higher GPA are encouraged to provide an explanation for the applicant's low GPA and why the GPA is not indicative of the applicant's academic and professional potential in the Letter of Intent.
5. Letter of Intent/Personal Statement: The Letter of Intent--also referred to as a Personal Statement--is your opportunity to discuss your fit with the program offered at Sam Houston State University. While you have a significant amount of freedom to discuss anything you would like in your letter of intent, you may want to address your short-term and long-term academic/professional goals and how your interests and goals fit with our program. In addition, if planning a thesis, please describe your research interests and how they align with specific faculty research agendas.

6. Three completed recommendation forms that comment on the applicant's suitability for graduate study. The most useful recommendations come from university faculty who are able to describe the applicant's potential for success in graduate study.
7. Official GRE General Exam scores.
8. Curriculum Vita (CV) with sections emphasizing education, research experience, volunteer experience, and any notable achievements, awards, or proficiencies.

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

Students will be admitted for the Fall (no spring or summer admissions). The application deadline for Fall enrollment is February 15.

Notes

Admission to the MA Program in Experimental Psychology is competitive and the number of available positions is limited.

Incomplete applications will not be reviewed.

In addition to the courses listed below, all students must complete a comprehensive examination near the end of their program. The details of the comprehensive examinations are set out in the Program Handbook.

Plan 1 - MA in Experimental Psychology (Non-thesis)

Code	Title	Hours
Master of Arts in Experimental Psychology (Non-thesis)		
Specified Courses		
PSYC 5331	Seminar in Experimental Psychology	3
PSYC 5332	Advanced Social Psychology	3
PSYC 5336	Advanced Cognitive Psychology	3
PSYC 5360	Advanced Physiological Psychology	3
PSYC 5381	Advanced Learning Theory	3
PSYC 5387	Advanced Statistics	3
PSYC 5388	Experimental Design	3
PSYC 5389	Applied Multivariate Statistics for Psychology	3
PSYC 5397	Advanced Developmental Psychology	3
Electives		
Select three graduate courses in an approved field ^{1,2}		9
Total Hours		36

¹ Selections should be made in consultation with the Graduate Advisor and cannot include PSYC 5395, PSYC 5396, nor any thesis courses.

² Students interested in teaching in higher education settings are encouraged to take PSYC 5392, History and Systems of Psychology and PSYC 5390, Teaching of Psychology.

Plan 2 - MA in Experimental Psychology (Thesis)

Code	Title	Hours
Master of Arts in Experimental Psychology (Thesis)		
Specified Courses		
PSYC 5331	Seminar in Experimental Psychology	3
PSYC 5332	Advanced Social Psychology	3
PSYC 5336	Advanced Cognitive Psychology	3
PSYC 5360	Advanced Physiological Psychology	3
PSYC 5381	Advanced Learning Theory	3
PSYC 5387	Advanced Statistics	3
PSYC 5388	Experimental Design	3
PSYC 5389	Applied Multivariate Statistics for Psychology	3
PSYC 5397	Advanced Developmental Psychology	3
Electives		
Select two graduate courses in an approved field ¹		6

Thesis		
PSYC 6098	Thesis I	3
PSYC 6099	Thesis II ²	3
Total Hours		39

¹ Selections should be made in consultation with the Graduate Advisor and cannot include PSYC 5395 or PSYC 5396.

² Once enrolled in PSYC 6099, students must enroll in this course in every semester until graduation.

Note: Students must pass a written Comprehensive Exam at the close of their training in order to obtain an M.A. degree. Students must be enrolled in the University during the semester in which the comprehensive exam is administered.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Experimental Psychology is designed to provide graduates with the following marketable skills:

- Knowledge in the scientific process, which is an essential skill for employment in research and development.
- A thorough understanding of physiological, cognitive, social, and emotional determinants of behavior.
- The ability to write and disseminate findings from research.
- Proficiency in critical analysis.
- Qualification to teach at the Community College level and other educational settings.

Specialist Degree in School Psychology

The Specialist Degree in School Psychology is designed to produce effective independent providers of psychological services within the schools. Completion of the degree program also prepares students for further graduate study and/or junior college teaching. This program is fully approved by the National Association of School Psychologists (NASP), and graduates are eligible for licensure as a Licensed Specialist in School Psychology (LSSP) in Texas and the Nationally Certified School Psychologist (NCSP) credential provided by NASP.

This degree program includes a minimum of 60 graduate credit hours, 54 of which are typically taken full-time and year round for two consecutive years, followed by an academic year of full-time internship experience (6 credit hours). Students will gain 300+ hours of practicum experience prior to the internship and are license eligible immediately upon graduation. Internship placements are competitive, but our program boasts a 100% intern employment rate, with most students acquiring paid internship placements.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/school-psychology/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the school psychology program must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>): The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee: (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>) An application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting all prior degrees.*
4. Official GRE scores (completed within the past five years).
5. Three letters of recommendation preferably from faculty at the undergraduate degree-granting institution that discuss the applicant's academic and professional potential.
6. Letter of Intent/Personal Statement: Applicants should submit a written statement discussing their fit with the SSP Program. While the applicant has a significant amount of freedom to discuss anything they wish in the statement, they are encouraged to explain why they wish to pursue the Specialist degree in School Psychology, how their educational background and/or work experience has prepared them to undertake a graduate degree in psychology, and what they plan to do professionally once they have completed the degree program.
7. Applicants are expected to have earned a minimum undergraduate GPA of 3.0 or higher from the accredited institution granting the undergraduate degree. Applicants who have an undergraduate GPA below 3.0 are encouraged to provide an explanation for the applicant's low GPA and why the GPA is not indicative of the applicant's academic and professional potential in the Letter of Intent.

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

Note: Incomplete applications will not be reviewed.

In addition to the courses listed below, all students must complete a comprehensive examination near the end of their program. In lieu of traditional comprehensive examinations, students must take the Praxis II, the standardized examination required for professional licensure in school psychology, and receive a passing score—as established by the State Board.

Code	Title	Hours
Specialist Degree in School Psychology		
Specified Courses		
PSYC 5330	Psychopathology	3
PSYC 5338	Consultation In School Psychology	3
PSYC 5339	Advanced School Psychology	3
PSYC 5340	Evidence-Based Child Therapy	3
PSYC 5361	Neuropsychopharmacology	3
PSYC 5370	Academic Assessment and Consultation	3
PSYC 5379	Ethical Practice in Psychology	3
PSYC 5380	Psychology of Diversity	3
PSYC 5381	Advanced Learning Theory	3
PSYC 5387	Advanced Statistics	3
PSYC 5394	Psychometrics	3
PSYC 5395	Assessment of Intelligence and Achievement	3
PSYC 5397	Advanced Developmental Psychology	3
PSYC 5398	Advanced Child Assessment	3
PSYC 6371	Internship in Psychology ¹	6
PSYC 6394	Practicum in Psychometrics	3
PSYC 6395	System Organization, Administration, and Change	3
PSYC 6396	Practicum in School Psychology I	3
PSYC 6397	Practicum in School Psychology II	3
Total Hours		60

¹ PSYC 6371 is taken twice for 6 hours (PSYC 6371A and PSYC 6371B).

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Specialist Degree in School Psychology is designed to provide graduates with the following marketable skills:

- Eligibility to pursue licensure as a Licensed Specialist in School Psychology (LSSP) in Texas or the equivalent in other states.
- Eligibility to pursue the Nationally Certified School Psychologist (NCSP) credential granted by the National Association of School Psychologists (NASP).
- Knowledge and practical skills needed to conduct high quality psychological and psychoeducational assessments.
- Knowledge and practical skills required to provide both academic and behavioral consultation services, including the development and implementation of both academic and behavioral interventions.
- Knowledge and practical skills necessary to provide both individual and group counseling services to children and adolescents.

Department of Sociology

About

Chair: Dr. (jtk007@shsu.edu) Jason Konefal

Graduate Director:

Dr. Tze-Li Hsu

Phone: 936-294-2675

CHSS 270 B2

Website: Department of Sociology (<http://www.shsu.edu/academics/sociology/>)

Mission

Sociology is a discipline concerned with equality, justice, and social responsibility within society's cultural, political, and economic systems. The mission of the Sociology Department at Sam Houston State University is to cultivate sociological mindfulness, which involves understanding how social forces and cultural contexts shape people's experiences, how personal troubles are connected to broader social issues, and how social arrangements create both constraints and opportunities for individuals and groups. Sociological mindfulness promotes critical and analytical thinking and equips students with the theoretical, methodological, and communication skills to work with others to solve problems and improve social conditions in local communities and the broader society.

Programs

The Sociology Department at Sam Houston State University offers unique master's and certificate programs designed to meet the needs of active students and professionals. Both the Master of Arts in Sociology and Graduate Certificate in Sociology are entirely *online* programs designed to provide students with advanced instruction in quantitative and qualitative techniques of sociological research, theory, and leading topical areas in sociology. In both programs, students develop the professional skills necessary to analyze social issues in applied settings and advance their careers.

Curriculum

The graduate programs in Sociology are designed to provide students with advanced instruction in methodological techniques, theoretical perspectives, and empirical evidence in substantive areas that guide sociological inquiry. Given our faculty's varying research agendas, our program emphasizes Public Sociology. Upon completing our program, students cultivate skills that bring sociology to the public sphere through foci such as grant writing, program evaluation, impact assessment, social justice, and community-based research. The program has strengths in the following specialty areas: social inequality, health and well-being, and community, food, and the environment.

- Master of Arts in Sociology
- Graduate Certificate in Sociology

Master of Arts in Sociology

The Master of Arts in Sociology is a completely online program designed to provide students with advanced instruction in quantitative and qualitative techniques of sociological research, theory, and sociological analysis. Students will develop the advanced professional skills necessary to analyze social issues in applied settings and advance their careers. The Master of Arts in Sociology degree program emphasizes public sociology. Public Sociology takes many forms and ranges from community-based research and partnerships to the publication of research briefs that seek to engage the broader public to engagement in local social movements. Students have the option of completing a thesis or capstone project.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/sociology/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit

Students seeking admission to the Master of Arts program in Sociology must submit the following documents to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/transition.html>):

1. Graduate Application (<https://www.shsu.edu/admissions/apply-texas.html>): The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee: (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>) An application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting all prior degrees.*
4. Applicants who do not possess a graduate degree from an accredited institution are expected to have earned a minimum undergraduate GPA of 3.0 from the accredited institution granting the undergraduate degree. Applicants who do not possess a graduate degree and have an undergraduate GPA below 3.0 are encouraged to provide an explanation for the applicant's low GPA and why the GPA is not indicative of the applicant's academic and professional potential in the Letter of Intent.
5. Letter of intent: The Letter of Intent is your opportunity to discuss your fit with the program offered at Sam Houston State University. While you have a significant amount of freedom to discuss anything you would like in your letter of intent, you may want to address your short-term and long-term academic/professional goals, why you would like to attend our program, and why your interests fit with our program.
6. Two letters of recommendation that discuss the applicant's suitability for graduate study.
7. Writing sample to highlight the applicant's ability to think critically, apply a sociological perspective, and clearly communicate original ideas in writing.

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

Students will be admitted for the Fall and Spring semesters (no summer admissions). The application deadline for Spring enrollment is December 1st; the application deadline for Fall enrollment is August 1st.

Notes

Admission to the MA Program in Sociology is competitive and the number of available positions is limited.

Incomplete applications will not be reviewed.

The Master of Arts in Sociology requires a minimum of 30 hours of 5000-level SOCI courses.

Students can select between a Thesis Option and a Non-Thesis Option.

Requirements

Thesis Option (30 semester hours)

- Must complete 9 hours of Core Requirements
- SOCI 6098 and SOCI 6099, which represent the completion of a formal MA thesis
- Minimum of 15 credit hours of Sociology Electives

Non-Thesis Option (30 semester hours)

- Must complete 9 hours of Core Requirements
- Minimum of 21 hours of Sociology Electives
- Must complete the Capstone Project. The requirements for the capstone project include a formal paper and professional presentation.

Required Courses

Students pursuing a Master's Degree in Sociology must take the following core courses.

Code	Title	Hours
Course Requirements		
SOCI 5310	Seminar In Sociological Theory	3
SOCI 5312	Seminar in Sociological Research	3
SOCI 5314	Social Statistics	3
Total Hours		9

Degree Plan 1 - MA in Sociology (Thesis Option)

Code	Title	Hours
Master of Arts in Sociology (Thesis Option)		
Specified Courses		
SOCI 5310	Seminar In Sociological Theory	3
SOCI 5312	Seminar in Sociological Research	3
SOCI 5314	Social Statistics	3
SOCI 6098	Thesis Practicum	3
SOCI 6099	Thesis	3
Prescribed Electives: SOCI		
Select five of the following:		15
SOCI 5313	Qualitative Methods	
SOCI 5320	Sociology of Community	
SOCI 5321	Cultural Sociology

Notes: Must complete the Capstone Project. The requirements for the capstone project include a formal paper and professional presentation.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Sociology is designed to provide graduates with the following marketable skills:

- Expertise in core sociological theories, concepts, and methods.
- Expertise in multiple topical areas in sociology.
- Knowledge of sociology pedagogy.
- Applied skills in data management and analyses.
- Competency to teach sociology courses at the community college and high school levels.

Graduate Certificate in Sociology

The Graduate Certificate in Sociology is designed for post-baccalaureate students interested in attaining the necessary expertise to teach sociology at the high school and community college levels. The program is intended to assist individuals with the skills and knowledge to teach courses in the area of sociology.

Upon completion of the certificate program, students will have:

- Expertise in core sociological theories, concepts, and methods;
- Expertise in multiple topical areas in sociology;
- Knowledge of sociology pedagogy;
- Competency to teach sociology courses at the community college and high school levels.

The program is intended to serve:

- Community college teachers
- High school teachers

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/sociology/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

To be considered for admission, students will need to meet the following requirements and submit all required items below to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (https://www.applytexas.org/adappc/gen/c_start.WBX): The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application Fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>): An application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting all prior degrees.
4. Applicants who do not possess a graduate degree from an accredited institution are expected to have earned a minimum undergraduate GPA of 3.0 from the accredited institution granting the undergraduate degree. Applicants who do not possess a graduate degree and have an undergraduate GPA below 3.0 are encouraged to provide an explanation for the applicant's low GPA and why the GPA is not indicative of the applicant's academic and professional potential in the Letter of Intent.
5. Letter of intent: The Letter of Intent is your opportunity to discuss your fit with the program offered at Sam Houston State University. While you have a significant amount of freedom to discuss anything you would like in your letter of intent, you may want to address your short-term and long-term academic/professional goals, why you would like to attend our program, and why your interests fit with our program.
6. Two letters of recommendation that discuss the applicant's suitability for graduate study.

Students will be admitted for the Fall and Spring semesters (no summer admissions). The application deadline for Spring enrollment is December 1st; the application deadline for Fall enrollment is August 1st.

Notes

Students admitted into the Graduate Certificate Program are eligible to transfer into the Master of Arts in Sociology program if they meet the program requirements.

Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

Master of Arts in Spanish

The Master of Arts in Spanish is designed to prepare students for careers as Spanish instructors in secondary and higher education institutions, for employment as professional interpreters within various industries, for future advanced study, and for advancing their proficiency in a second language and culture.

This non-thesis program provides a thorough foundation in practical fluency and cultural skills through 36 credit hours of analytical and linguistic coursework.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/spanish/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applications to the Masters of Arts in Spanish Program are reviewed on a rolling basis, with application deadlines of: July 15th for the fall semester; November 15th for the spring semester; and April 15th for the summer semester. The Program's admission considerations include the following:

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>): The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application Fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>): An application fee is required for all applications to graduate programs at SHSU.
3. Transcripts documenting all prior degrees.*
4. A current resume or curriculum vitae (in English).
5. A writing sample of scholarly or professional work (in Spanish), showcasing the applicant's writing ability (1000 words minimum).
6. A statement of interest (in English) that summarizes the applicant's professional goals, how this degree will help the applicant obtain their professional goals, and how the applicant's personal and professional experiences have prepared them for the MA program. The statement should be no more than two single-spaced pages
7. Name and contact information for at least two individuals who can speak about the applicant's academic and professional potential.
8. Applicants who do not possess a graduate degree from an accredited institution, are expected to have earned a minimum undergraduate GPA of 3.0 from the accredited institution granting the undergraduate degree
9. Applicants are expected to have at least 18 undergraduate hours of Spanish.
10. Applicants who do not possess 18 undergraduate hours of Spanish or have an undergraduate GPA below 3.0 may submit additional information as evidence of their academic and professional potential. Additional information may include, but is not limited to: GRE scores, a narrative that provides an explanation for the applicant's low GPA and why the GPA is not indicative of the applicant's academic and professional potential, and/or a narrative that explains in what other ways the applicant has acquired knowledge of Spanish language and Hispanic culture, etc.

*Applicants may submit unofficial transcripts for review by the admissions committee. However, under university policy, admission decisions are contingent upon receipt of official transcripts.

Applicants must submit all application materials directly to Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>) by the relevant deadline.

A holistic review of each applicant's file will then be completed, with admission to the MA in Spanish program offered to applicants on a competitive basis.

Note: Incomplete applications will not be considered.

The M.A. in Spanish requires a minimum of thirty-six hours of graduate credit. At the end of the program, students must also take and pass a comprehensive exam covering three specific areas of study in the MA program.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Spanish is designed to provide graduates with the following marketable skills:

- Assesses best cultural language practices and competences to engage with others in professional, academic, and social contexts.
- Engage in pluricultural identities, mediate among cultures, and navigate cultural differences.
- Evaluate assumptions, concepts, language, and culture to develop feasible solutions based on analysis and interpretation of results.
- Apply knowledge and skills to implement sophisticated, appropriate, and workable solutions to address complex problems using multilingual and multicultural perspectives.
- Adapts and applies a deep understanding of multiple world views, experiences, and power structures while initiating meaningful cross-cultural interaction to address significant global questions.

Master of Arts in History and Political Studies

The Master of Arts in History and Political Studies is a fully online degree program designed for graduate students who have interdisciplinary interests and for educators who want to expand their professional credentials to teach courses in both history and government.

Requirements

The program entails 36 hours of coursework, split evenly between history and political science, and an interdisciplinary portfolio.

Coursework

All students are required to start with two introductory courses that provide an overview of the disciplines of history and political science as well as a grounding in each field's methodological approaches. Students are then required to take one course in each of the History Department's three thematic tracks (War & Violence, Rights & Identity, and Encounters & Exchanges) and the Political Science Department's three principal subfields (American Politics, Comparative Politics, and International Relations). Following those requirements, which account for twenty-four credit hours, students can choose any two other history courses and any two other political science courses as electives that best suit their professional objectives.

Thematic Tracks for History

- **War & Violence:** Courses examine how different societies have experienced, conducted, and remembered military conflict, mass killing, and genocide.
- **Rights & Identity:** Courses explore how individuals and collectives have defined themselves at different times and places around the world.
- **Encounters & Exchanges:** Courses explore how the world's diverse peoples have encountered and interacted with one another on a large scale over time.

Subfields for Political Science

- **American Politics:** Courses examine political institutions and political behavior in the United States.
- **Comparative Politics:** Courses explore the diverse political systems around the world.
- **International Relations:** Courses explore the cooperative and conflictual interactions of sovereign states and non-state actors on the global stage.

Portfolio

Students will submit an interdisciplinary portfolio in their final semester, reflecting their development and work in the program, and consisting of the following components:

- **A synthetic essay** that builds connections between history and political science courses and addresses a broader interdisciplinary question.
- **Either an annotated bibliography** of books and major articles read throughout the program, organized by course, **OR a teaching portfolio** consisting of a teaching statement that describes their philosophy, strategies, and objectives for teaching both history and political science courses; a draft syllabus for a course in history and a course in political science; and a sample of course materials.
- **A compilation of written work from completed courses**, such as research essays, book reviews, and response papers.

Additional Information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/history-and-political-studies/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students seeking admission to the MA in History and Political Studies must meet the following requirements and submit all documents to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/transition.html>):

1. Graduate Application (<https://www.shsu.edu/admissions/apply-texas.html>): The Graduate Application is an institutional application required by SHSU. Students must provide biographical and educational information and information relevant to determining State of Texas residency.
2. Application fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>): An application fee is required for all applications to graduate programs at SHSU.
3. Statement of intent: This is a written statement explaining why the applicant wishes to pursue an MA in History and Political Studies; how the applicant's educational background or work experience has prepared him/her to undertake an interdisciplinary graduate degree; and what the applicant plans to do professionally with the degree.
4. Transcripts documenting all prior degrees.
5. Two letters of recommendation that discuss the applicant's academic and professional potential.
6. An optional academic writing sample demonstrating the applicant's ability to advance an argument in professional prose.

About the College

The College of Osteopathic Medicine consists of the following offices and departments.

Dean's Office

- Clinical Affairs
- Graduate Medical Education
- Osteopathic Integration
- Research, Innovation, and Collaboration
- Educational Affairs
- COM Operations

Academic Departments and Offices

- Department of Primary Care and Clinical Medicine
- Department of Osteopathic Principles and Practice
- Office of Clinical Skills
- Department of Physiology and Pharmacology
- Department of Molecular and Cellular Biology
- Department of Clinical Anatomy
- Office of Clinical Education
- Office of Assessment, Evaluation, and Accreditation
- Office of Academic Infrastructure and Professional Development
- Office of Medical Student Affairs

Mission

The mission of the Sam Houston State University (SHSU) College of Osteopathic Medicine (COM) is to prepare students for the degree of Doctor of Osteopathic Medicine with an emphasis toward primary care and rural practice, to develop culturally aware, diverse and compassionate physicians,

who follow osteopathic principles, that are prepared for graduate medical education, and will serve the people of Texas with professionalism and patient-centered care.

A significant part of the mission of the COM is to increase the physician workforce in the eastern region of Texas and to increase access to primary care. The COM will accomplish this by recruiting qualified applicants from areas to which they would likely want to return and establish their practice.

College of Osteopathic Medicine

Highlights

SHSU-COM has been awarded Pre-Accreditation from the Commission on Osteopathic College Accreditation (COCA).

- The SHSU College of Osteopathic Medicine is the eighth college of the university and only the third college of osteopathic medicine in the state.
- HB2867 (86R) designates the Sam Houston State University College of Osteopathic Medicine as an official Texas State Medical School.
- The state-of-the-art medical school facility is 108,000 square feet with surface parking on 7.3 acres in Conroe, Texas.
- SHSU's history of contributing to the well-being of the state started over 139 years ago, when the university was established to respond to the need for trained teachers. At the time, state leaders recognized that education was key to improving quality of life and the subsequent prosperity of Texas.
- Today, the university is responding to another critical workforce demand, where education, again, is key to elevating the quality of life for millions of Texans. This led to the development of the College of Osteopathic College, which shares the mission of changing the medical work force in Eastern Texas by improving access to primary care, general surgery, and mental health to name a few of the critical shortages.

Doctoral Degree

- Doctor of Osteopathic Medicine

Dual Degree Program

- Doctor of Osteopathic Medicine and Master of Public Health

Scholarships

The SHSU-COM is developing scholarship opportunities accessed through the Scholarships4kats (<https://www.shsu.edu/dept/financial-aid/aid/scholarships/>) application process.

Other

SHSU-COM has programs and organizations that support students' integration into medical school and provide networking and service opportunities for students and faculty.

Doctor of Osteopathic Medicine

The Doctor of Osteopathic Medicine degree program is focused on improving the physician workforce in the Eastern region of Texas. The Sam Houston State University College of Osteopathic Medicine (SHSU-COM) emphasizes primary care and other needed specialties to develop culturally aware and compassionate physicians who follow the principles of osteopathic medicine.

The D.O. program follows a vertically and horizontally integrated, biomedical sciences and clinical, systems-based curriculum. The program utilizes multiple teaching modalities such as lecture, small group, case-based learning, clinical practice, simulation, and active learning to promote deep and complete mastery of the concepts. Research, ethics, statistics, and osteopathic principles and practices are embedded within all realms of clinical and pre-clinical education. The clinical years are spent in community-based settings at community hospitals, rural and critical access hospitals, and clinics that provide care to underserved populations, including community mental health services and federally qualified health centers (FQHCs). Providing educational experiences in these facilities demonstrate the importance of caring for Texas populations in need of physicians. Students complete this program as lifelong learners prepared with the knowledge and skills needed to be successful in residency and practice.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/academics/osteopathic-medicine/prospective-students/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Doctor of Osteopathic Medicine program must complete the following steps.

1. Complete the Texas Medical & Dental Schools Application Service (TMDSAS) (<https://www.tmdsas.com/>) online application (primary application) by **5:00 p.m. CST, Oct. 1st**.
2. Submit the following to TMDSAS to complete the application file:
 - a. Application Fee – non-refundable fee of \$185.00 required to begin processing.
 - b. Official Transcripts - not required at time of submission, due by **Oct. 15th**.
 - c. Letters of Evaluation and/or Health Professions Evaluations (HPE)
 - d. Official MCAT Score Report
 - e. Spring grades of application year (or Winter of application year, if on quarter system)
3. Complete the Sam Houston State University – College of Osteopathic Medicine (SHSU-COM) online Supplemental Application and non-refundable application fee of \$75.00 by **5:00 p.m. CST, Nov. 15th**.
 - a. Applicants will receive an email invitation from SHSU-COM to complete the supplemental application after their completed primary application has been received from TMDSAS. The supplemental application and fee are required for consideration.

Note: Incomplete applications will not be reviewed.

The D.O. Program seeks promising students from all backgrounds and is focused on recruiting qualified applicants from areas to which they would likely want to return and establish their practice.

Bachelor's degree from a U.S. College or University accredited by a Texas Higher Education Coordinating Board recognized accrediting body. (Some courses may be in progress, but must be completed prior to enrollment.)

1. Complete the following courses with no grade below "C" (2.0 on a 4.0 scale):
 - a. English, 6 credit hours
 - b. Biology, including laboratory; 8 credit hours
 - c. Physics, including laboratory; 8 credit hours
 - d. General Chemistry, including laboratory; 8 credit hours
 - e. Organic Chemistry, including laboratory; 8 credit hours
 - i. Biochemistry can be substituted for Organic Chemistry II
 - f. Mathematics, 6 credit hours; 3 hours must be Statistics
2. Meet minimum technical skills and abilities.
3. Pass a criminal background check prior to enrollment.

Website: Department of Primary Care and Clinical Medicine (<https://www.shsu.edu/academics/osteopathic-medicine/divisions/>)

Mission

The mission of The Department of Primary Care and Clinical Medicine is to provide the support, education, and training to create physicians capable of providing compassionate, high quality, personalized, and efficient care across all spectrums of human health: body, mind, and spirit.

Academic Programs

- Doctor of Osteopathic Medicine

Director/Chair: **Brent W Sanderlin**

Craig S Boudreaux, DO (c.boudreaux@shsu.edu), *Assistant Professor of Family Medicine; Assistant Dean, COM, Department of Primary Care & Clinical Medi*, DO, Univ of North TX Hlth Sci Cntr; BBA, Univ of Texas At Austin

Ouida M Collins, MD (omc007@shsu.edu), *Assistant Professor of Family Medicine, Department of Primary Care & Clinical Medi*, MD, Meharry Medical College; MPH, Univ of Texas HSC-Houston; BS, Xavier University of Louisiana

Lesley Ann Gardiner, MD (lesley.gardiner@shsu.edu), *Assistant Professor of Pediatrics, Department of Primary Care & Clinical Medi*, MD, Texas A&M University; BS, Texas A&M-Corpus Christi

Janet Lynn Gregory, DO (jlg160@shsu.edu), *Assistant Professor of Clinical Medicine, Department of Primary Care & Clinical Medi*, DO, Univ of N. Texas Hlth Sci Cnt; BA, Univ of Louisiana-Monroe

Valerie Christine Hopper, DO (vxh026@shsu.edu), *Assistant Professor of Family Medicine, Department of Primary Care & Clinical Medi*, DO, Univ of N. Texas Hlth Sci Cnt; BS, University of Tulsa

Glenda Read Hsiao, MD (grh031@shsu.edu), *Assistant Professor of Primary Care, Department of Primary Care & Clinical Medi*, MD, Un of Tx-HSC At Houston; BS, Baylor University

Victor Kaifu Hsiao, MD (vkh003@shsu.edu), *Assistant Professor of Primary Care, Department of Primary Care & Clinical Medi*, MD, Un of Tx-HSC At Houston; BS, Baylor University

Townes Randolph Leigh, DO (trl027@shsu.edu), *Assistant Professor of Family Medicine, Department of Primary Care & Clinical Medi*, DO, West Virginia School Osteo Med; BS, Univ of Tennessee-Martin

Karen Lee Nelson, PHD (kln005@shsu.edu), *Assistant Professor of Clinical Psychology, Department of Primary Care & Clinical Medi*, PHD, Univ of Houston-Main; MED, Univ of Houston-Main; BA, Southwestern University

Megan Becker Powell, MD (stdmdb26@shsu.edu), *Assistant Professor of Clinical Medicine, Department of Primary Care & Clinical Medi*, MD, Univ. of Texas-Med-Galveston; BS, Sam Houston State University

Brent W Sanderlin, DO (b.sanderlin@shsu.edu), *Associate Professor of Family Medicine; Chair, Primary Care & Clinical Medicine, Department of Primary Care & Clinical Medi*, DO, Univ of North TX Hlth Sci Cntr; BS, Texas State Univ-San Marcos

Elizabeth Harris Sargent, DO (ehs008@shsu.edu), *Assistant Professor of Clinical Medicine, Department of Primary Care & Clinical Medi*, DO, William Carey University; BA, Univ of Mississippi

Natasha Vipul Shah, MD (nxs059@shsu.edu), *Assistant Professor of Pediatrics, Department of Primary Care & Clinical Medi*, MD, Texas A&M University; BS, Univ of Texas At Austin

Gregg Stephen Silberg, DO (gss023@shsu.edu), *Professor of Clinical Medicine, Department of Primary Care & Clinical Medi*, DO, Kansas City Univ of Med&BioSci; MBA, Univ of Tennessee-Knoxville; BS, Drake University

Peggy Hejtmancik Taylor, MD (pht005@shsu.edu), *Assistant Professor of Obstetrics and Gynecology, Department of Primary Care & Clinical Medi*, MD, Univ of Texas HSC-Houston; MS, Sam Houston State University; BA, Texas A&M University

Kimberly M Waaso, DO (kmw135@shsu.edu), *Assistant Professor of Clinical Medicine, Department of Primary Care & Clinical Medi*, DO, Kansas City Univ of Med&BioSci; BS, Michigan State University

Candace Lynn Walkley, MD (clw117@shsu.edu), *Assistant Professor of Internal Medicine, Department of Primary Care & Clinical Medi*, MD, Univ of Texas SW Medical Cente; BS, Univ of Texas-Arlington

Courtney Ann West, PHD (west@shsu.edu), *Asst Dean of Osteopathic Medicine for Educational Development, Adjunct Faculty, Department of Primary Care & Clinical Medi*, PHD, Texas A&M University; MED, Sam Houston State University; BS, Sam Houston State University

Megan Leigh Woolford, MD (mlw090@shsu.edu), *Assistant Professor of Family Medicine, Department of Primary Care & Clinical Medi*, MD, Baylor College of Medicine; BS, Texas A&M University

Paul W Zarutskie, MD (pwz001@shsu.edu), *Associate Professor of Clinical Medicine, Department of Primary Care & Clinical Medi*, MD, Drexel University; BS, Duke University; BS, Duke University

Department of Biological Sciences	Aaron Lynne, Ph.D., Chair aaronlynne@shsu.edu; 936-294-1544
Department of Chemistry	Donovan C. Haines, Ph.D., Chair dch009@shsu.edu; (936) 294-1530
Department of Computer Science	Bing Zhou, Ph.D., Chair bxz003@shsu.edu; (936) 294-1590
Department of Engineering Technology	Faruk Yildiz, Ph.D., Chair fxy001@shsu.edu; (936) 294-3774
Department of Environmental and Geosciences	Joseph Hill, Ph.D., Chair geojoe@shsu.edu; (936) 294-1560
Department of Mathematics and Statistics	Damon Hay, Ph.D., Chair dmh035@shsu.edu; (936) 294-4859
Department of Physics and Astronomy	Joel W. Walker, Ph.D., Chair jwalker@shsu.edu; (936) 294-4803

Mission

The College of Science and Engineering Technology strives to foster scientific literacy, analytic abilities, and the knowledge and competencies necessary for graduates to succeed as professionals working in science-based careers. The College of Science and Engineering Technology also strives to enhance interpersonal abilities and communication skills, both oral and written, which are fundamental to functioning effectively in the University and in the larger community. In providing educational foundations that enable students to develop, evaluate, and express ideas critically, the College hopes to contribute to the formation of responsible citizens and competent professionals.

Vision

The College of Science and Engineering Technology aspires to be a gateway of opportunity and a catalyst for personal and professional development. Embracing high standards, ethical practices, and personalized student-faculty interaction, the College dedicates itself to excellence in teaching, engagement in quality research, and active community service. The College of Science and Engineering Technology will pursue its vision by:

- preparing students for continued intellectual growth throughout productive and personally rewarding careers;
- fostering the development and dissemination of knowledge through scientific inquiry;
- promoting continual professional growth and scholarly activity;
- exemplifying high ethical standards and teaching the importance of ethics in professional practice;
- increasing scientific literacy in the populace, and instilling a high regard for nature and humankind;
- understanding and respecting diversity among people, cultures, and ideas; and
- assuming the responsibilities of academic community engagement and membership in a global society.

College of Science and Engineering Technology (<http://www.shsu.edu/academics/science-and-engineering-technology/>)

Highlights

- Faculty members in the College of Science and Engineering Technology have been recognized nationally and internationally for their expertise through national grants and awards, publications, and presentations.
- Undergraduate research is encouraged through partnerships with faculty members.
- Students in the College of Science and Engineering Technology have presented and published nationally and internationally.
- The Math Center at the Academic Success Center provides free tutoring in mathematics and statistics courses.
- The College of Science and Engineering Technology houses the Sam Houston State University Center of Excellence in Digital Forensics.
- Departments in the College of Science and Engineering Technology annually host state and regional conferences and symposiums.

School of Agricultural Sciences

About

Chair: Mark J Anderson, Ph.D. (mjanderson@shsu.edu)

Contact Information: (936) 294-1216 or mjanderson@shsu.edu

Graduate Program Coordinator: Tim Pankkuk, Ph.D (agr_trp@shsu.edu).

Contact Information

(936) 294-1216 or agr_trp@shsu.edu

Website

The School of Agricultural Sciences (<http://www.shsu.edu/academics/agricultural-sciences-and-engineering-technology/>)

Highlights

The graduate program in agricultural sciences is designed to further the professional competence of those individuals engaged in production agriculture, careers in agricultural and related agencies, businesses and industries, and/or agricultural education and extension.

The Pirkle Engineering Technology Center provides specialized classrooms and an animal science research lab to service the Agricultural Sciences program with four additional support facilities with working laboratories. The Agriculture Center is home to the Indoor Arena, Meat Science Lab, Equine Science facilities, and a greenhouse. Nearby is the Horticulture Center with greenhouses and classroom. The William R. Harrell Engineering Technology Center provides excellent advanced teaching and research opportunities in the areas of power and machinery, electrification, geometrics, soil and water conservation, irrigation, drainage, landscaping, bio-fuels, and wood/metal construction and fabrication. The 1620+ acre Gibbs Ranch is home to purebred and crossbred beef cattle herds, a meat goat flock, and additional plant, soil, and animal resources used for instructional and research purposes. A new Agricultural Center is currently being built at Gibbs Ranch. Phase I will be completed in Fall 2023 and includes a new Plant & Soil Sciences head house, two modern greenhouses, a learning center, and a covered multi-purpose arena with an attached stall barn. Phase 2 includes a new equestrian center and meats/food technology laboratory.

Career Opportunities

Approximately twenty percent of our population is involved in occupations directly related to agriculture. Sectors such as production, banking, marketing, teaching, processing, and service in governmental agencies rely on the productivity of modern agriculture in meeting the daily needs of society.

- Master of Agriculture in Sustainable Agriculture and Food Environment
- Master of Science in Agriculture
- Graduate Certificate in Sustainable Agriculture

Scholarships

The department is pleased to have various scholarships available to graduate students. Scholarships are usually one-time awards and are not automatically renewable. A student may reapply in subsequent years if eligibility requirements are met. Students MUST be registered for six or more hours in Agriculture or related courses each semester or forfeit the scholarship for that semester.

The Scholarship4Kats (<http://www.shsu.edu/dept/financial-aid/scholarships/>) program must be used to apply for departmental scholarships. Please note that application and admittance to the University is required prior to being able to access Scholarship4Kats. The program enables students to apply for all scholarships for which they are eligible, including those outside the Department of Agricultural Sciences. The deadline for departmental scholarships is November 1; non-departmental scholarship deadlines vary.

Master of Agriculture in Sustainable Agriculture and Food Environment

The Sustainable Agriculture and Food Environment (SAFE) degree program is an online degree designed to prepare working professionals for studies in agriculture that focus on sustainable practices.

This program's curriculum explores a variety of modern agricultural pursuits framed by sustainable practices that include non-traditional and viable enterprises in agriculture, alternative value-added products, modern farming techniques, food safety, and small business marketing. It is a program ideal for small landowners, urban farmers, value-added and cottage food makers, educators, government agents, or anyone interested in local food production.

Explore about this degree at School of Agricultural Science's Graduate Degrees (<https://www.shsu.edu/academics/agriculture/graduate-Programs.html>).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/sustainable-agriculture-and-food-environment/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students are accepted for fall admission only. Students seeking admission to the graduate program in Sustainable Agriculture and Food Environment must submit the following to the Office of Graduate Admissions (<https://www.shsu.edu/beabearkat/graduate-journey/>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. A bachelor's degree from an accredited baccalaureate-granting university in any field (degree need not be in Agriculture). Overall GPA of 2.5 or higher
4. A resume of professional work experience
5. A personal essay that addresses your interest in the program, post-graduation intentions, learning expectations, and current involvement in agriculture
6. Three letters of recommendation from professional references
7. Applicants from non-English speaking countries must present a score of at least 550 on the paper version, 213 on the computer version, or 79 on the internet-based version of the Test of English as a Foreign Language (TOEFL).

A holistic review of each student's application file will be completed on a competitive basis.

This program's thirty-six hour curriculum explores a variety of modern agricultural pursuits framed by sustainable practices that include non-traditional and viable enterprises in agriculture, alternative value-added products, modern farming techniques, food safety, and small business marketing. It is a program ideal for small landowners, urban farmers, value-added and cottage food makers, educators, government agents, or anyone interested in local food production.

Code	Title	Hours
Master of Agriculture in Sustainable Agriculture and Food Environment

SAFE 5373	Food Safety and Regulation	
SAFE 5391	Soil Ecology	
Total Hours		36

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MAg in Sustainable Agriculture and Food Environment is designed to provide graduates with the following marketable skills:

- Demonstrate competency in communication skills and professional presentation skills of scientific knowledge.
- Demonstrate a global perspective of agriculture.
- Demonstrate scientific and technical knowledge in sustainable agriculture and related sciences.
- Critically analyze information and make informed decisions.

Master of Science in Agriculture

The graduate program in Agricultural Sciences is designed to further the professional competence of those individuals engaged in production agriculture, careers in agricultural and related agencies, businesses and industries, and/or agricultural education and extension.

The School of Agricultural Sciences maintains five locations with specialized classrooms and laboratories. The Fred Pirkle Engineering Technology Center provides academic space for an interactive learning environment with specialized classrooms and laboratory space. The Agriculture Center is home to the Indoor Arena, Meat Science Lab, Equine Science Facilities, and a greenhouse. Nearby is the Horticulture Center with two greenhouses and a classroom. The William R. Harrell Engineering Technology Center provides excellent advanced teaching and research opportunities in the areas of Agricultural Engineering Technology.

The 1650+ acre Gibbs Ranch is home to purebred and crossbred beef cattle herds, a meat goat flock, and an orchard. Additional plant, soil, and animal resources are used for instructional and research purposes.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/agriculture/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students seeking admission to the graduate program in Agricultural Sciences must submit the following to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcripts of all college-level work, including the transcript that shows the date the undergraduate degree was conferred in agriculture, engineering technology, industrial technology, technology, or related field from an accredited four-year institution (Note: Applicants without an acceptable background in agriculture or technology must complete 12 hours of undergraduate stem work earning a minimum GPA of 3.0)
4. GRE scores
5. Two letters of recommendation from faculty in the undergraduate major field of study (not required for SHSU Agriculture graduates)

A holistic review of each student's application file will be completed on a competitive basis.

This degree is designed to be a broad-based degree, including thirty-seven hours of coursework. A minimum of fifteen hours from agri-business, agricultural education, agricultural engineering technology, animal science, equine science, and plant and soil sciences is required. In addition, the curriculum includes courses in research methodology and agricultural statistics, and graduate seminar. The remaining semester hours are designated as electives and can be taken in agriculture or from a related field. The degree is designed to provide comprehensive knowledge and capabilities in several fields of agriculture.

Plan 1 - MS in Agricultural Science - Thesis Option

Code	Title	Hours
MS in Agriculture - Thesis Option		
Required Courses		
STAT 5375	Statistical Methods for Agriculture	3
AGRI 6140	Graduate Seminar	1
AGRI 6350	Techniques & Interpretation of Agricultural Research	3
Prescribed Electives		
Select eight graduate courses in AGRI or approved courses in other fields		24
Thesis		
AGRI 6398	Thesis	3

AGRI 6099	Thesis	3
Total Hours		37

Note: The thesis option must have prior approval by the chair of the thesis committee and includes an oral comprehensive exam and thesis defense. Once enrolled in a thesis course, a student must be continually enrolled until graduation.

Plan 2 - MS in Agricultural Science - Non-thesis Option

Code	Title	Hours
MS in Agriculture - Non-thesis Option		
Required Courses		
STAT 5375	Statistical Methods for Agriculture	3
AGRI 6140	Graduate Seminar	1
AGRI 6350	Techniques & Interpretation of Agricultural Research	3
Prescribed Electives		
Select ten graduate courses in AGRI or approved courses in other fields		30
Total Hours		37

Note: The non-thesis option includes the thirty-seven hours listed above and a written or oral comprehensive capstone exam.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MS in Agriculture is designed to provide graduates with the following marketable skills:

- Competency in communication skills and professional presentation skills of scientific knowledge.
- Demonstrate a global perspective of agriculture.
- Demonstrate scientific and technical knowledge in agriculture and related sciences.
- Critically analyze information and make informed decisions.

Graduate Certificate in Sustainable Agriculture

The School of Agricultural Sciences offers an online Sustainable Agriculture Graduate Certificate Program to prepare working professionals for theories and practices in sustainable agriculture with a focus on agriculture food environment and production practices.

This program's curriculum will enable students to acquire professional development and continuing education hours with specific courses in modern agricultural pursuits framed by sustainable practices with options in agricultural sales, agritourism, entrepreneurship and soil ecology. The curriculum is designed to include non-traditional and viable enterprises in agriculture and small business marketing. The program is ideal for small landowners, urban farmers, value-added and cottage food makers, educators, and government agents, seeking knowledge, professional development or continuing education credit.

Explore about this degree at: The School of Agricultural Sciences Graduate Programs (<https://www.shsu.edu/academics/agriculture/graduate-Programs.html>)

The program is intended to serve:

- those seeking professional development or continuing education credit;
- non-agriculture graduates who wish to gain knowledge in sustainable agriculture practices; and,
- small land owners seeking advocacy concepts, marketing models, and entrepreneurship ideas for sustainable agriculture enterprises.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/sustainable-agriculture/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Students seeking admission to the Graduate Certificate program in Sustainable Agriculture must submit the following to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. A bachelor's degree from an accredited baccalaureate granting university in any field (degree need not be in Agriculture).
4. Overall GPA of 2.5 or higher from BS conferring institution
5. A resume of professional work experience
6. A personal essay that addresses your interest in the program, post-graduation intentions, learning expectations, and current involvement in agriculture
7. Three letters of recommendation from professional references
8. Applicants from non-English speaking countries must present a score of at least 550 on the paper version, 213 on the computer version, or 79 on the internet-based version of the Test of English as a Foreign Language (TOEFL).

A holistic review of each student's application file will be completed on a competitive basis.

Department of Biological Sciences

About

Chair: Aaron Lynne, Ph.D. (aaronlynne@shsu.edu)

Contact Information: (936) 294-1540

Website: Department of Biological Sciences (<https://www.shsu.edu/academics/biological-sciences/>)

Mission

The Department of Biological Sciences is dedicated to the pursuit and dissemination of knowledge and scientific discovery in the life sciences through innovative teaching and research programs. The department strives to instill in its students the philosophy of lifelong scholarship, producing scientifically literate members of society who have the knowledge to contribute and compete in a rapidly changing world.

Highlights

The graduate program in biology is designed to prepare students for both a related doctoral program and for a career as a professional biologist in industry, government, and academia. This degree is research-oriented, requiring 26 hours of course work, and 6 hours of thesis. A diverse faculty allows students to choose among the gamut of biological research options, from studying the molecular basis of disease to investigating the ecological and evolutionary processes of macroorganisms. Faculty disciplines include:

- Cell and Molecular Biology
- Genetics
- Microbiology
- Physiology
- Forensic Science
- Systematics
- Animal Behavior
- GIS
- Ecology
- Entomology
- Botany
- Parasitology
- Ichthyology
- Herpetology
- Ornithology
- Mammalogy

Explore more about the faculty (<https://www.shsu.edu/academics/biological-sciences/people/faculty.html>) on the departmental website.

The Department of Biological Sciences houses greenhouses as well as laboratories with a confocal microscope, scanning electron microscope, transmission electron microscope, and modern cell and molecular biology research equipment. The department also maintains the Pineywoods Environmental Research Laboratory (PERL), a 250-acre field station that contains the Applied Anatomical Research Center, dedicated to biological and environmental research and teaching and is affiliated with the Sam Houston State University Natural History Collections.

- Master of Arts in Biology
- Master of Science in Biology
- See also Master of Science in Forensic Science in the College of Criminal Justice

Student Organizations and Activities

The Biological Sciences Graduate Student Organization (BSGSO) was established by graduate students. The purpose of the organization is to foster the interests of graduate students in the Department of Biological Sciences, to promote and support academic and social activities of interest to graduate students, and to serve as a liaison between the graduate students, faculty, staff, and other organizations. Membership in BSGSO consists of being a graduate student in the Department of Biological Sciences. Dr. Patrick Lewis is the faculty advisor for BSGSO.

Scholarships

Academic scholarships and research and travel awards are available from the Department of Biological Sciences, the College of Science and Engineering Technology, and the Graduate School. These awards include:

- The Joey Harrison Scholarship from the Department of Biological Sciences
- The College of Science and Engineering Technology Graduate Achievement Scholarship
- The College of Science and Engineering Technology Graduate Recruitment Scholarship
- The General Graduate School Scholarship
- The Graduate School Graduate Student Travel Award

Departmental scholarship information may be obtained by writing to:

SHSU
Huntsville, Texas 77341-2116

Please visit the College of Science and Engineering Technology and The Graduate School websites for specifics on their application processes.

Graduate Student Support

Competitive teaching and research assistantships are available to graduate students in Biology through the Department of Biological Sciences (<https://www.shsu.edu/academics/biological-sciences/>) and individual faculty members. The Graduate School offers funding to graduate students to support travel to scientific meetings to present research findings. For details and application materials, contact:

Graduate Committee Chair

James Harper (jmharper@shsu.edu)
Department of Biological Sciences
Box 2116
Sam Houston State University
Huntsville, TX 77341-2116
(936) 294-1544

Details are also available at the Department of Biological Sciences (<http://www.shsu.edu/academics/biological-sciences/.html>).

Master of Arts in Biology

The Master of Arts in Biology is a non-thesis program primarily designed for secondary education teachers who wish to increase their competency in the field of biology. The program allows students to elect a twelve hour secondary field that logically supports the biology major. Students who plan to pursue doctoral studies are strongly encouraged to pursue the M.S. in Biology.

Applicants seeking admission to the graduate program in biology must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/beabearkat/graduate-journey/>):

1. Graduate Application (<https://www.shsu.edu/apply/>)
2. Application Fee (<https://www.shsu.edu/dept/graduate-admissions/application-fee.html>)
3. Official transcript(s) of all previous college work
4. Two letters of recommendation from faculty in the student's major at the undergraduate degree-granting institution
5. Statement of Purpose outlining the student's goals in the program

To be granted regular admission, applicants must have an undergraduate degree in biology or a related field. Applicants having an undergraduate degree in a discipline other than biology must successfully complete the equivalent of an undergraduate minor in the biological sciences before being considered for regular admission.

Applicants from non-English speaking countries must also present a score of at least 78 on the internet-based (iBT), 550 on the paper version (PBT), or 213 on the computer version (CBT) of the Test of English as a Foreign Language (TOEFL). In addition, International Students are required to have an SHSU Biological Sciences Graduate Faculty member write a letter of support for their application to the program.

More detailed information on admission, competitive GRE scores, and undergraduate GPA can be found in the Graduate Student Handbook (<https://www.shsu.edu/academics/biological-sciences/programs/graduate-biology-program.html>).

There are two different plans leading to the Master of Arts in Biology. Plan 1 requires 32 semester hours of graduate credit in biology. In Plan 2, students take 26 hours in biology with 12 hours of supporting coursework in a chosen minor for a total of 38 hours of graduate credit.

All graduate students are required to pass a comprehensive examination on general biological concepts based on their coursework. The nature of this examination, which may be written and/or oral, will be determined by the student's comprehensive exam committee. Students must be enrolled the semester they take the comprehensive examination.

In addition, a literature-based review paper is prepared in consultation with the student's faculty advisor. Students must defend the literature-based review before their advisor committee and present it to the faculty in seminar format.

Plan 1 - M.A. in Biology

Code	Title	Hours
Master of Arts in Biology (Plan 1)		
Specified Course		
BIOL 5301	Seminar in Biology Research I	3
BIOL 5095 or BIOL 5394	Independent Graduate Study in Biology Special Topics In Graduate Biology	2-3
Electives		
Select nine graduate courses in BIOL in consultation with the Graduate Advisor, excluding Thesis courses		27
Total Hours		32-33

Plan 2 - M.A. in Biology with a Secondary Field

Code	Title	Hours
Master of Arts in Biology (Plan 2)		
Specified Course		
BIOL 5301	Seminar in Biology Research I	3
BIOL 5095 or BIOL 5394	Independent Graduate Study in Biology Special Topics In Graduate Biology	2-3
Electives		
Select seven graduate courses in BIOL in consultation with the Graduate Advisor, excluding Thesis courses		21
Secondary Field		

Select four graduate courses in an approved secondary field in consultation with the Graduate Advisor

12

Total Hours**38-39**

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Biology is designed to provide graduates with the following marketable skills:

- Master the depth of knowledge required for a master's degree in biological sciences.
- Demonstrate critical thinking.
- Communicate effectively.
- Work collaboratively.

Master of Science in Biology

The Master of Science in Biology is designed to prepare students for both a related doctoral program and for a career as a professional biologist in industry, government, and academia. This degree is research-oriented, requiring two seminars in biology research, six graduate level courses, and 6 hours of thesis. A diverse faculty allows students to choose among the gamut of biological research options, from studying the molecular basis of disease to investigating the ecological and evolutionary processes of macroorganisms. Faculty disciplines include:

- Cell and Molecular Biology
- Genetics
- Microbiology
- Physiology
- Forensic Science
- Systematics
- Animal Behavior
- GIS
- Ecology
- Entomology
- Botany
- Parasitology
- Ichthyology
- Herpetology
- Ornithology
- Mammalogy

To explore more about the faculty visit the Department of Biological Sciences (<https://www.shsu.edu/academics/biological-sciences/>).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/biology/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate program in biology must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript(s) of all previous college work
4. Two letters of recommendation from faculty in the student's major at the undergraduate degree-granting institution
5. A statement of purpose outlining the student's goals in the program
6. C.V.

To be granted regular admission, applicants must have an undergraduate degree in biology or a related field. Applicants having an undergraduate degree in a discipline other than biology must successfully complete the equivalent of an undergraduate minor in the biological sciences before being considered for regular admission.

Applicants from non-English speaking countries must also present a score of at least 78 on the Internet-based (iBT), 550 on the paper version (PBT), or 213 on the computer version (CBT) of the Test of English as a Foreign Language (TOEFL). In addition, International Students are required to have an SHSU Biological Sciences Graduate Faculty member write a letter of support for their application to the program.

More detailed information on admission, competitive GRE scores, and undergraduate GPA can be found in the Graduate Student Handbook (<http://www.shsu.edu/academics/biological-sciences/programs/graduate-biology-program.html>).

Assistantships

Teaching Assistantships are available through the Department of Biological Sciences (<https://www.shsu.edu/academics/biological-sciences/>) in conjunction with the College of Science and Engineering Technology (<https://www.shsu.edu/academics/science-and-engineering-technology/>) and the Graduate School. (<https://www.shsu.edu/dept/graduate-studies/>) They are limited in number and awarded on a competitive basis. An Application for Teaching Assistantship should be submitted separately to the Graduate Coordinator by the 12th week of the semester prior to the semester the student is applying. Assistantships are awarded for four semesters.

A Teaching Assistantship application can be found in the Graduate Student Handbook (<http://www.shsu.edu/academics/biological-sciences/programs/graduate-biology-program.html>).

There are two different plans leading to the M.S. in Biology. Plan 1 requires completion of a thesis for a total of thirty hours of graduate credit in biology. In Plan 2, students take twenty-seven hours of biology (including thesis hours) with 12 hours of supporting coursework in a chosen secondary field for a total of thirty-nine hours of graduate credit.

All graduate students are required to pass a comprehensive examination on general biological concepts based on their coursework. The nature of this examination, which may be written and/or oral, will be determined by the student's comprehensive exam committee. Students must be enrolled the semester they take the comprehensive examination.

A thesis research project is conducted under supervision of the student's thesis advisor, and the student will present the thesis to the faculty in seminar format. The thesis must be defended before the student's thesis committee.

Students must complete six credit hours of thesis coursework. This entails three credit hours of BIOL 6398 and three credit hours of BIOL 6099. Once enrolled in BIOL 6099, a student must be continually enrolled in that course until graduation.

Plan 1 - M.S. in Biology (Thesis)

Code	Title	Hours
Master of Science in Biology (Thesis)		
Specified Courses		
BIOL 5301 & BIOL 5302	Seminar in Biology Research I and Seminar in Biology Research II	6
Electives		
Select six graduate courses in BIOL in consultation with the Graduate Advisor excluding thesis courses		18
Thesis		
BIOL 6398	Thesis	3
BIOL 6099	Thesis	3
Total Hours		30

Plan 2 - M.S. in Biology with a Secondary Field (Thesis)

Code	Title	Hours
Master of Science in Biology (Thesis)		
Specified Course		
BIOL 5301 & BIOL 5302	Seminar in Biology Research I and Seminar in Biology Research II	6
Electives		
Select five graduate courses in BIOL in consultation with the Graduate Advisor excluding thesis courses		15
Secondary Field		
Select four graduate courses in an approved secondary field in consultation with the Graduate Advisor		12
Thesis		
BIOL 6398	Thesis	3
BIOL 6099	Thesis	3
Total Hours		39

- Demonstrate critical thinking.
- Communicate effectively.
- Work collaboratively.

Department of Chemistry

About

The Department of Chemistry is approved by the American Chemical Society.

Chair: Donovan C. Haines, Ph.D. (dch009@shsu.edu)

Contact Information: (936) 294-1532

Website: Department of Chemistry (<http://www.shsu.edu/academics/chemistry/>)

Mission

The Department of Chemistry is committed to providing an educational environment conducive to scholarship, intellectual development, and the acquisition of a foundation of knowledge and techniques required of professional chemists. This goal requires the effective representation of the fundamental areas of chemistry, a dedicated and creative faculty, and support for the many functions of the department.

Academic Program

General Information

Advisory Committee

For students completing a thesis, a thesis advisor will be selected and the research project will begin in the first semester of graduate work. The student and the thesis director, with approval from the chair, will select two additional faculty members to serve on the thesis committee.

Period of Study

Students taking 6-9 semester hours of coursework each long semester and three semester hours during summer sessions will typically finish their graduate program in two years. A minimum of three long semesters and one summer session is required. Registration for the research course will typically occur during the summer term.

Comprehensive Exam and Oral Thesis Defense

An oral presentation of the thesis to the faculty in a seminar format is required, and the thesis must be defended before the student's thesis committee. All graduate students are required to pass an oral comprehensive exam based on their coursework. The oral comprehensive exam is typically concurrent with the thesis defense. Once enrolled in a thesis class, a student must be continually enrolled until graduation.

Highlights

- Students work with Chemistry faculty on state-of-the-art research in the Chemistry and Forensic Science Building research laboratories.
- The Department of Chemistry recently purchased an X-ray diffractometer and continually looks for ways to improve and enhance their research equipment.
- Master of Science in Chemistry

Scholarships

Scholarships are available from the College of Science and Engineering Technology and from The Graduate and Professional School to support students' studies. Please check the websites for the College and Graduate and Professional School for more information.

Director/Chair: **Donovan C Haines**

Christopher M Zall, PHD (cxz027@shsu.edu), *Associate Professor of Chemistry, Department of Chemistry*, PHD, Univ of Minnesota-Twin Cities; MS, Univ of Minnesota-Twin Cities; BA, Carleton College

Master of Science in Chemistry

The Master of Science in Chemistry is designed to train chemists for careers in business, industry, or academics. This degree is also appropriate for those students planning to continue their training in Ph.D. programs at other institutions.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/chemistry/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate program in chemistry must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript(s) of all previous college work
4. Three letters of recommendation

Applicants must have a major or minor in chemistry (with at least a 2.5 GPA in their undergraduate chemistry courses typically including Analytical or Quantitative Chemistry, Instrumental Methods, one year of calculus-based Physical Chemistry, and Inorganic Chemistry) or commensurate industrial experience. While GRE scores are not required, they may be submitted with the application for consideration during application review.

For a final admissions decision, a holistic review of each student's application file will be completed on a competitive basis. Currently a 3.0 GPA is required for financial support.

The Department of Chemistry (<https://www.shsu.edu/academics/chemistry/>) offers classes in a wide variety of chemical subjects including analytical, forensic, inorganic, organic, physical, and polymer chemistry, toxicology, and biochemistry.

Total Hours	36

¹ CHEM 5100 must be taken three times for a total of three credit hours.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MS in Chemistry is designed to provide graduates with the following marketable skills:

- Work safely with standard chemicals in a chemistry laboratory.
- Keep thorough and accurate records of chemistry experiments.
- Write final research reports and orally present results of experiments.
- Analyze and interpret experimental data, including spectrophotometric data.
- Understand the use of the major methods of purification of chemical compounds, including chromatographic techniques.

Department of Computer Science

About

Chair: Bing Zhou, Ph.D. (bxz003@shsu.edu)

Contact Information: (936) 294-3846

Websites:

Department of Computer Science (<http://cs.shsu.edu>)

Cyber Forensics Intelligence Center (<https://df.shsu.edu/>)

Mission

The Department of Computer Science is a community of faculty, staff, and students centered in the computer science disciplines. The Department of Computer Science is dedicated to providing the highest quality education possible to its graduate and undergraduate students through excellence in teaching and excellence in research. The department is committed to furthering the pursuit of knowledge and meeting the needs of a diverse society.

The Department of Computer Science seeks to provide an environment that encourages innovative thinking, academic rigor, and the pursuit of scholarship in an atmosphere that promotes high ethical and moral values and mutual respect, embracing diversity and working towards a goal of instilling a life-long love of learning.

Highlights

Sam Houston State University provides a comprehensive computing environment for students. The Division of Informational Technology operates a large number of computing laboratories containing desktop computers and workstations. A variety of operating systems, network protocols, programming languages and application packages are available. In addition to the institutional facilities, the Department of Computer Science operates a range of lab facilities to support its mission and programs, including network robotics and Unix labs, a data recovery lab, and a network security lab. The department operates a 40-node symmetric multiprocessing system for use in parallel processing, digital forensics, cryptanalysis, and steganographic research. The department also has access to state of the art visualization facilities. As part of its operations, the Department of Computer Science houses the Sam Houston State University Cyber Forensics Intelligence Center, a center dedicated to the development of digital forensics training for law enforcement personnel and research opportunities into forensics and security issues.

Career Opportunities

Computing professionals support many scientific, governmental, and commercial enterprises through network and communication systems management, application (computer program) development and maintenance, and hardware design. The management of computing resources within organizations is typically a mission critical activity and computing professionals occupy key organizational roles as network and database administrators, software engineers, systems analysts and programmers. Of key concern in today's modern environment is the protection, assurance, and recovery of computing resources, providing opportunities for those wanting to work in the information assurance and digital forensics fields.

- Ph.D. in Digital and Cyber Forensic Science
- Master of Science in Computing and Data Science
- Master of Science in Digital Forensics
- Master of Science in Information Assurance and Cybersecurity
- Graduate Certificate in Cyber Security
- Graduate Certificate in Data Assurance
- Graduate Certificate in Data Science
- Graduate Certificate in Digital Investigation

Student Organizations and Activities

The student chapter, ACM@SHSU - The student chapter sponsors field trips, campus visits by guest speakers, and occasional student/faculty outings.

Scholarships

The Department of Computer Science offers the following scholarship:

- The Kailas and Becky Rao Scholarship in honor of Mr. Albert Kidd: awarded to full time graduate or undergraduate students in good standing and majoring in Computer Science.

This scholarship requires a minimum GPA of 3.0 and registration in courses leading to a degree in Computer Science. Other criteria are also pertinent to individual scholarships. More information can be obtained through the department.

Ph.D. in Digital and Cyber Forensic Science

The Doctor of Philosophy in Digital and Cyber Forensic Science is designed to produce students of the digital forensics and cyber-security realms with the technical skills, critical thinking ability, problem-solving skills, and advanced, discipline-specific knowledge to allow them to advance into leadership positions in business and industry as well as academia. This is accomplished by demonstrating the ability to perform independent and collaborative original research, the successful completion of academic coursework, hands-on experience in the laboratory, and collaboration with digital forensics and cyber-security agencies, institutes, and partners. The program will provide students with the theoretical, conceptual, methodological, and computational skills needed to understand the role of digital and cyber forensic science in post technological societies. The program will allow students to explore the potential for forensically sound digital data capture and analysis and to develop new tools and methods for handling digital and cyber forensic evidence. In doing so, this program has, as its primary focus, research into the computational and scientific basis for forensic and cyber technologies.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/doctorate/digital-and-cyber-forensic-science/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

The Ph.D. in Digital and Cyber Forensic Science is a full-time, on campus program. Admission to the program requires devoting a significant amount of time to the program. Students are admitted as part of an annual cohort and have a fixed program of study in the first two years of the program.

Applicants seeking admission to the doctoral program in forensic science must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

- Graduate Admissions Application (<http://www.shsu.edu/admissions/apply-texas.html>)
- Application Fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
- Bachelor's degree conferred by a regionally accredited institution in computer science, digital forensics, or a closely related field
- Official transcript(s) from degree granting institution(s)
- Official transcripts from all colleges/universities attended
- GPA of 3.5 or higher
- Program Application (https://cs.shsu.edu/programs/DCFS-PhD-Application3_.pdf)
- Personal statement (https://cs.shsu.edu/programs/DCFS+PhD.+Application3_.pdf), not to exceed 1000 words
- Three letters of recommendation. A minimum of two letters must be from faculty who are sufficiently acquainted with the student to comment on potential for success in the doctoral program
- Current resume or vita
- In some instances, a personal interview may be requested.

The program requires the completion of a minimum of eighty-five hours of graduate credit, as prescribed in the degree plan.

Students must register full-time and maintain a 3.0 grade point average in all courses. In order to advance to candidacy, students must have successfully completed forty-six graduate credit hours of coursework and internship, submit a portfolio for review, and pass Comprehensive Examinations. Once the doctoral program committee determines that the portfolio, proposal, and comprehensive examinations are satisfactory, the student may enroll in dissertation credits.

A minimum of fifteen hours of dissertation credits are required, and students must maintain continuous enrollment in DFSC 8370 Dissertation until they graduate. Students must complete and defend a doctoral dissertation, which is the product of original scholarly research and is of sufficient publishable quality to represent a meaningful contribution to knowledge in the field of digital and cyber forensic science.

The Ph.D. in Digital and Cyber Forensic Science requires the completion of 85 credit hours beyond the bachelor's degree. Students complete:

Code	Title	Hours
Requirements		
	Core Coursework	52
	Dissertation Research	15
	Electives	12
	Internship	6
Total Hours		85

The curriculum is designed to deliver an essential core curriculum in digital and cyber forensic science, together with specialized electives and intensive research in the area of interest. Students are expected to fulfill the requirements during four to five years of full-time study.

Total Hours		85

¹ DFSC 7106 must be taken for a total of four credit hours.

² Once enrolled in DFSC 8370, students must enroll in this course every semester until graduation.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Ph.D. in Digital and Cyber Forensic Science is designed to provide graduates with the following marketable skills:

- Solve complex cybersecurity-related problems.
- Apply theoretical principles to the development of digital forensics tools and techniques.
- Post-secondary teaching capability.
- Technical communication ability.
- Strong research-oriented capabilities.

Master of Science in Computing and Data Science

The Computing and Data Science curriculum utilizes state-of-the-art software, software development methodologies, project management techniques, data science, and systems. Emphasis is placed on preparing students for an environment where change is the norm. Computing and Data Science may be selected as the major for the Master of Science degree.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/computing-and-data-science/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate program in Computing and Data Science must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript(s) of all previous college work
4. Two letters of recommendation that address the applicant's qualifications for graduate study
5. International Applicants Only: TOEFL or IELTS scores. The minimum requirement for TOEFL is 550 paper-based, 213 computer-based, and 79 internet-based. The minimum requirement for IELTS is 6.5

Graduate study in Computing and Data Science is accessible to students who have completed undergraduate computer science majors or minors and to students with baccalaureate degrees in related fields with the equivalent of a computer science minor in formal coursework or professional experience.

At the minimum, candidates are expected to present a background comparable to that provided in the following courses as described in the Undergraduate Catalog of Sam Houston State University.

Background Courses

Code	Title	Hours
Courses		
COSC 1436	Programming Fundamentals I	4
COSC 1437	Programming Fundamentals II	4
COSC 3318	Data Base Management Systems	3
COSC 3319	Data Structures and Algorithms	3

Graduate Stem Course Requirements

Code	Title	Hours
Graduate Stem Course Requirements		
COSC 5301	Quantitative Foundations of Computer Science	3
COSC 5302	Computer Science Core Topics	3

In general, applicants whose GRE score exceeds 300 will likely be able to complete the master's degree successfully. Admission preference is given to those applicants with an undergraduate GPA in excess of 3.0. However, please note that a holistic review of each student's application file will be completed, and admission will be granted on a competitive basis.

The MS in Computing and Data Science requires a minimum of thirty hours of graduate credit. There are two plans leading to the degree: a thesis and a non-thesis option.

A thesis / MS Project committee will be established either before or during the student's penultimate semester. The committee should consist of a committee chair (supervisor) and a minimum of two additional committee members, all holding the appropriate graduate faculty status. With the approval of the department, academic dean, and Dean of The Graduate School, the committee may include one member who is not employed by SHSU, as per Academic Policy Statement 950601. The selection of the committee chair hinges on the student's preference, faculty availability, and expertise. Once a faculty member agrees to assume the role of chair, the student, under the chair's guidance, will proceed to select the remaining committee members. Subsequently, the committee's constitution needs approval from both the Graduate Coordinator and the Dean. Any alterations to the committee's composition will similarly require approval through the same process.

All MS students in Non-Thesis Option are obligated to fulfill and achieve a passing grade in written or oral comprehensive exams for core subjects where they obtained a grade of B or lower. Exams are conducted during their terminal semester. Should a student fail one or more examinations, a re-examination shall be permitted per department approval. A third examination may be permitted only with the approval of the appropriate academic dean and the department. Students must be enrolled at SHSU in the semester in which the comprehensive exams are administered.

Once enrolled in COSC 6347 or COSC 6348/COSC 6049 a student must be continually enrolled each semester until graduation.

Plan 1 - MS in Computing and Data Science (Thesis Option)

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MS in Computing and Information Science is designed to provide graduates with the following marketable skills:

- Identify and solve complex computing problems in information technology, business, medicine, and other essential industries.
- World-class soft skills in complex problem-solving, communication, and creative thinking.
- Strong technical skills and interpersonal skills to work as a group.
- Superior technical writing skills to document and publish their findings.

Master of Science in Digital Forensics

The Master of Science in Digital Forensics is a thirty hour program that prepares students for service in a variety of public and commercial arenas such as digital forensics or as network security professionals. In particular, graduates from the Digital Forensics program will be able to effectively plan, establish, and administer security and information assurance systems in commercial settings and law enforcement. This program utilizes state-of-the-art facilities, like Sam Houston State University's Cyber Forensics Intelligence Center. The facility includes a Network Security Lab, accommodating training in data, network and cyber security intrusion detection, prevention and tracing, and a Data Recovery Lab that will provide training in the identification, recovery, and preservation of data for legal purposes.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/digital-forensics/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Master of Science in Digital Forensics must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

The MS in Digital Forensics is designed to provide graduates with the following marketable skills:

- Establish & operate an investigator's lab and process digital evidence.
- Develop plans to safeguard digital files against unauthorized modification and destruction.
- Create plans and implement strategies for preventing attacks to a network.
- Acquire a strong academic foundation in Cyber Security needed to pursue Doctoral level programs.

Master of Science in Information Assurance and Cybersecurity

Graduate study in Information Assurance and Cybersecurity is accessible both to students who have completed undergraduate Computer Science or Management Information Science majors or minors and to those with baccalaureate degrees in technical fields with the equivalent of a Computer Science or Management Information Science minor in formal coursework or professional experience. Applicants who do not possess the appropriate academic, technical, or experiential backgrounds may be required to take stem work courses to ensure a minimum standard of technical competence. Stem work decisions are made on an individual basis by the department chair.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/information-assurance-and-cybersecurity/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

- Create plans and implement strategies for preventing attacks to a network.
- Analyze and assess risk and identify vulnerabilities in an organization's network.
- Acquire the professional competency and cybersecurity expertise necessary for roles and responsibilities in business, industry, and governmental positions.

Graduate Certificate in Cyber Security

The Cyber Security certificate provides students with a concentrated and in-depth exposure to critical infrastructure security concerns to enhance professional capability. Individuals holding a baccalaureate degree in Computer Science or a related field would be suitable candidates for this program.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/cyber-security/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate certificate program in Cyber Security must submit the following directly to the Office of Graduate Admissions: (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>)

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree granting institution
4. Bachelor's degree in Computer Science or a closely related field with a minimum GPA of 3.0
5. Up-to-date Resume

Stem Requirement

At the minimum, students are expected to present a background comparable to that provided in the following courses as described in the Undergraduate Catalog of Sam Houston State University:

Prerequisite courses

Code	Title	Hours
Prerequisite Courses		
COSC 2327	Introduction to Computer Networks	3
COSC 3318	Data Base Management Systems	3
MATH 1420	Calculus I	4
STAT 3379	Statistical Methods in Practice	3

Students who **have not fulfilled** the prerequisites in formal coursework **are required** to take one or more of the graduate stem courses, in addition to the 30 semester credit hours required in the Graduate Certificate in Cyber Security.

Graduate Stem Course Requirements

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Cyber Security is designed to provide graduates with the following marketable skills:

- Analyze and assess risk and identify vulnerabilities in an organization's network.
- Create plans and implement strategies for preventing attacks to a network.
- Acquire the professional competency and cybersecurity expertise necessary for roles and responsibilities in business, industry, and governmental positions.
- Cyber security research.

Graduate Certificate in Data Assurance

The Data Assurance certificate provides students with a concentrated and in-depth exposure to the management, mining, and security concerns of enterprise database administrators enhancing their professional capability and employability. Individuals holding a baccalaureate degree in Computer Science, Management Information Systems, or a related field would be suitable candidates for this program.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/data-assurance/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate certificate program in Data Assurance must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree granting institution
4. Bachelor's degree in Computer Science or a closely related field with a minimum GPA of 3.0
5. Up-to-date Resume

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Data Assurance is designed to provide graduates with the following marketable skills:

- Enterprise data management skills.
- Business continuity management skills.
- Risk management skills.
- Cryptanalysis and steganalysis skills.

Graduate Certificate in Data Science

The fully online Graduate Certificate in Data Science is designed to educate professionals or non-traditional students with a stackable set of core Data Science courses, which help students obtain industry-recognized, immediately valuable, and in-demand skills in the workplace.

This Graduate Certificate is not eligible to receive Title IV funding – Direct Loans, Pell Grant, TEACH Grant, SEOG Grant, or Federal Work Study. Students enrolled in this program should explore alternative funding options and are encouraged to contact the financial aid office for assistance.

Additional Information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/data-science/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the Graduate Certificate in Data Science program must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

- Networking security planning and implementation.

Department of Engineering Technology

About

Chair: Dr. Faruk Yildiz (fxy001@shsu.edu)

Contact Information: (936) 294-1216 OR (936) 294-1191

Website: Department of Engineering Technology (<https://www.shsu.edu/academics/engineering-technology/>)

Mission

The mission of the Engineering Technology Department is to provide educational program designed to provide academic and practical experiences in the areas of management, engineering design, leadership, engineering technology for students to prepare to meet industry challenges and the needs.

Academic Programs

The Department of Engineering Technology currently **offers only undergraduate degree programs**. See the current undergraduate catalog for more details.

Director/Chair: **Faruk Yildiz**

Junkun Ma, PHD (jxm158@shsu.edu), *Professor of Engineering Technology, Department of Engineering Technology*, PHD, Univ of Calif-San Diego; MS, N China Electric Power Univ; BE, Tsinghua University

Recayi Pecan, PHD (regpecen@shsu.edu), *Professor of Engineering Technology, Department of Engineering Technology*, PHD, Univ of Wyoming; MS, Univ of Colorado; MSC, Istanbul Univ; BSC, Istanbul Univ

Min Jae Suh, PHD (mjs068@shsu.edu), *Associate Professor of Engineering Technology, Department of Engineering Technology*, PHD, Virginia Polytechnic&State U; MS, Stanford University; BENG, Yeungnam University

Terrence R Waugh, PHD (trw006@shsu.edu), *Lecturer of Engineering Technology, Department of Engineering Technology*, PHD, Univ of Nebraska-Lincoln; MS, Univ of Nebraska-Omaha; BA, Creighton University

Faruk Yildiz, DIT (fxy001@shsu.edu), *Professor and Chair of Engineering Technology, Department of Engineering Technology*, DIT, Univ of Northern Iowa; MS, Cuyahoga Coll; BS, MKU Dumlupinar State Univ

Department of Environmental and Geosciences

Chair: Joseph Hill, Ph.D. (jch031@shsu.edu)

Contact Information: (936) 294-1451

Website: Department of Environmental and Geosciences (<https://www.shsu.edu/academics/geography-geology/>)

Mission

The primary mission of the Department of Environmental and Geosciences is to provide students of the complementary programs a comprehensive understanding of the range and depth of these scientific disciplines which encompass, respectively, environmental science and sustainability, the human and physical domains of geography, and the physical and historical domains of geology. This understanding is intended to enable our students to achieve their full potential as skilled professionals and well-qualified technical employees in a diverse range of companies and governmental organizations, and to become effective teachers and community leaders. Our programs enable students to become informed users of a range of technologies and prudent stewards of our natural resources. This understanding of the world will promote successful careers, active life-long learning, and an ability and desire to contribute positively to society.

Highlights

Located on the third floor of the Lee Drain Building, the department maintains both a Geographic Information System (GIS) lab and a combination GIS and remote sensing lab. These labs contain state-of-the-art computers, software, and scanners. We also have a van for fieldtrips, a pickup truck and trailer used for field research, a coring device capable of taking up to 6m core samples, high-quality GPS receivers, a large-scale flume to demonstrate sedimentation processes, and a Ground Penetrating Radar System. In order to enhance learning, all of our rooms are outfitted with video-projection systems, and our lecture rooms have sound systems and dedicated computers with Internet access that are used by the instructors for teaching purposes. Many of our students obtain internships and work with faculty members on research projects.

Academic Programs

Geography Program

Coordinator: John Strait (jstrait@shsu.edu) (936) 294-4077

Website: Department of Environmental and Geosciences (<https://www.shsu.edu/academics/geography-geology/>)

Geography is an interdisciplinary field of study that provides students the skills and technical knowledge needed to address issues, challenges, and opportunities associated with how humans interact with their local and global environments. As an academic subject, it focuses on both the physical and cultural environments and incorporates the use and application of a host of geospatial technologies as a means to study and analyze these subject matters, such as geographic information systems (GIS), remote sensing, digital image processing, and global positioning systems. Geographers can study an exceptionally eclectic range of phenomena, including demographics, landforms, soil fertility, plant and animal wildlife, weather and climate, religion, language, ethnicity, urban planning, and international affairs, just to name a few. Geographers are behind the maps you use every day, as well as the policies that shape our cities, and the analysis that sustains and protects our environment. Geographers help shape the future design of cities and infrastructure. Geographers assess the impacts of rising sea levels, volcanic eruptions, floods, heat waves, and tropical storms, while others study impacts of wildfires or manage wetlands. Geographers investigate the environmental and economic impacts of tourism and gauge the cultural impacts of globalization. Geographers use cutting edge satellite data to explore alternative energy sources and assess natural resource utilization and population growth. Geographers also work directly with local people on socioeconomic issues such as health, migration, and housing affordability. Moreover, geographers play a vital role in teaching this eclectic subject matter in school districts across the nation and around the world. If you want to learn about and change our world, there is no better discipline for people who thrive on complex challenges and want to make a real impact on lives and our environment. In the age of global markets, global culture, global transportation systems, and global telecommunications, we are increasingly faced with the reality that our welfare is highly interdependent with the rest of the world. A geographic education represents an excellent way to understand how to deal with environmental, social, and economic issues associated with this reality. For an individual curious about the world and his or her place in it, few disciplines satisfy that curiosity as much as geography.

Geography Concentrations

The Geography program incorporates a two-track curriculum and is designed to fit the particular academic interests of our students and better prepare them for life beyond SHSU, particularly in terms of graduate study or employment opportunities. Students majoring in geography focus their studies within one of two concentrations; 1) Environment, Culture, and Development, or 2) GIS (Geographic Information Science). Both concentrations are somewhat flexible and enable students to tailor their degree plans toward a mix of coursework most appropriate to their career goals. The Environment, Culture, and Development Concentration truly integrates the strengths of environmental and human geography, with the application of geospatial techniques. For example, students choosing this concentration matriculate through a degree that integrates scientific study of the environment with the perspectives of such topics as hydrology, conservation, culture, economic change, development, population, and public health, while gaining experience using geospatial techniques. Students choosing this concentration can pursue either Bachelors of Arts (BA) or Bachelors of Science (BS) degrees. The GIS Concentration, available as a BS degree, is designed for students desiring more advanced and intensive training with a broad range geospatial tools and technologies, such as Advanced GIS, Remote Sensing, and Digital Image Processing.

Career Opportunities

Because of the breadth of geography, there are a wide variety of career opportunities for geography graduates. These opportunities include careers in the following:

- surveying and geomatics
- geophysics
- wetlands delineation
- water quality analysis
- photogrammetry
- urban planning
- computer mapping and geospatial technologies
- environmental companies and state environmental agencies
- state transportation departments
- city, county, state, and federal government
- education
- historical preservation
- marketing agencies
- energy companies
- emergency management and law enforcement
- tourism & travel writing
- military

Geography's focus on spatial relationships, in conjunction with new advances in technology, have led to the development of new geographical tools—principally Geographic Information Systems (GIS) and Global Positioning Systems (GPS)—that are now used by many geographers in a wide variety of fields. Because these technologies can be applied within virtually any field (government, business, military, etc.) it is one of the fastest growing job fields and the demand for people with experience using them exceeds the supply. Aside from offering a track with our program that emphasizes these technologies, we also offer students an Interdisciplinary Minor in GSS that emphasizes GIS, remote sensing and computer cartography. The combination of a geography major and a GSS minor is highly marketable. With their broad background, geography graduates have an ability to see connections where others do not, and this enables geographers to work in many different fields. Geography literally offers a world of opportunities.

- Master of Science in Geographic Information Systems
- Graduate Certificate in Geographic Information Systems

Student Organizations and Activities

- **Geographers of Sam Houston (GOSH)** - GOSH is intended to enhance appreciation for geography through club-sponsored field trips, guest lectures, and other activities, and to promote camaraderie among geography students.
- **Gamma Theta Upsilon (GTU)** - GTU is the National Geography Honor Society and was established to promote geographic awareness and the pursuit of geographic knowledge. To be eligible for membership in this honor society, students must have at least 12 hours of geography coursework, a minimum GPA of 3.25 in their geography coursework, and an overall GPA of at least 3.0.

Internships

Educational and research opportunities using GIS are available through a variety of internship opportunities that will increase students' skills and employment opportunities.

Scholarships

- **COSET GRADUATE RECRUITMENT SCHOLARSHIP:** The College of Science and Engineering Technology (COSET) Graduate Recruitment Scholarship is a \$1000 competitive scholarship awarded to outstanding students entering their first semester of a COSET master's program at SHSU and who have not been awarded a graduate assistantship. More information can be found on the College of Science and Engineering Technology website (<https://www.shsu.edu/academics/science-and-engineering-technology/>).
- **AMATO BROTHERS SCHOLARSHIP:** \$3,000 per year; Recipient must be a full-time undergraduate or graduate student, majoring in any discipline, demonstrate financial need, and exhibit commitment to continue and complete their education. The recipient must maintain a 2.5 GPA or higher in major and overall.
- **COSET GRADUATE ACHIEVEMENT SCHOLARSHIP:** The College of Science and Engineering Technology (COSET) Graduate Achievement Scholarship is a \$1000 competitive scholarship awarded to students demonstrating outstanding academic progress in a COSET master's program. More information can be found on the College of Science and Engineering Technology website (<https://www.shsu.edu/academics/science-and-engineering-technology/>).

- **THE GRADUATE STUDIES SCHOLARSHIP:** The Graduate Studies Scholarship is intended for high-quality students in SHSU graduate programs. Nominations will be accepted for both new and current students. Application Open: Scholarship Application Form (<http://www.shsu.edu/dept/graduate-studies/forms/The%20Graduate%20School%20General%20Scholarship%20Application%20Form.pdf>) (Updated 9/13/18)
- **JAMES ELLISON KIRKLEY AWARD:** Two awards (amounts vary) to majors in history, political science, geography, or sociology. Recipients are selected on basis of high academic achievement.
- For more scholarship opportunities please visit, Paying For School. (<https://www.shsu.edu/dept/graduate-studies/paying-for-school.html>)

Director/Chair: **Joseph C Hill**

Samuel Adu-Prah, PHD (sxa054@shsu.edu), Associate Professor of Geography, Department of Environmental & Geosciences, PHD, Southern Illinois U-Carbondale; MSED, Alcorn State University; MPHIL, University of Cambridge; BA, University of Ghana

Donald P. Albert, PHD (geo_dpa@shsu.edu), Professor of Geography, Department of Environmental & Geosciences, PHD, Univ of N Carolina-Chapel Hill; MA, Appalachian State University; BS, Salem State College

Leila Dolce Character, PHD (leilacharacter@shsu.edu), Assistant Professor of Environmental and Geosciences, Department of Environmental & Geosciences, PHD, Univ of Texas At Austin; MA, Univ of Texas At Austin; BS, Univ of The South

Brian Jay Cooper, PHD (bio_bjc@shsu.edu), Associate Professor of Geology, Department of Environmental & Geosciences, PHD, Virginia Polytechnic&State U; MS, Virginia Polytechnic&State U; BA, Univ of Calif-Santa Barbara

Joshua M Gilliland, PHD (jmg177@shsu.edu), Assistant Professor Environmental and Geosciences, Department of Environmental & Geosciences, PHD, LSU & A&M College; MS, Western Kentucky University; BS, University of Tulsa

Ross Joseph Guida, PHD (ross.guida@shsu.edu), Associate Professor of Geography, Department of Environmental & Geosciences, PHD, Southern Illinois U-Carbondale; MS, Univ of Nevada-Las Vegas; BA, Univ of Wisconsin-Eau Claire

John P Harris, PHD (jph020@shsu.edu), Associate Professor of Geology of Environmental and Geosciences, Department of Environmental & Geosciences, PHD, Texas A&M University; MS, Univ of Arkansas-Fayetteville; BS, Univ of Arkansas-Fayetteville

Joseph C Hill, PHD (jch031@shsu.edu), Associate Professor and Chair of Environmental and Geosciences, Department of Environmental & Geosciences, PHD, Univ of Missouri-Columbia; PHD, Univ of Missouri-Columbia; MS, Univ of Tennessee-Knoxville; MS, Univ of Tennessee-Knoxville; BS, Univ of Tennessee-Knoxville; BS, Univ of Tennessee-Knoxville

Mark R Leipnik, PHD (geo_mrl@shsu.edu), Professor of Geography and Geology, Department of Environmental & Geosciences, PHD, Univ of Calif-Santa Barbara; MBA, Rice University; BA, Univ of Calif-Santa Barbara; BA, Univ of Calif-Santa Barbara

Falguni Shyamal Mukherjee, PHD (fsm002@shsu.edu), Associate Dean of The Graduate School, Ombuds, and Professor of Geography, Department of Environmental & Geosciences, PHD, Univ of Wisconsin-Milwaukee; MS, Univ of Texas At Dallas; BE, Birla Institute of Tech & Sci

Velvet A Nelson, PHD (van001@shsu.edu), Professor of Geography, Department of Environmental & Geosciences, PHD, Kent State University; MA, East Carolina Univ; BSBA, West Liberty State College

John B Strait, PHD (jbs008@shsu.edu), Professor of Geography, Department of Environmental & Geosciences, PHD, Univ of Georgia; MA, Georgia State University; BA, Wittenberg University

Master of Science in Geographic Information Systems

The applied Geographic Information System (GIS) graduate program will give students the critical knowledge to succeed in the challenging world of geospatial technologies. This includes advanced classes and labs in GIS (ArcGIS, ArcGIS Pro, and ArcGIS Online); remote sensing (ERDAS IMAGINE); web-based mapping; model builder; programming; spatial database; and spatial analysis. In particular, this program is designed to enhance an individual's knowledge in geographic information science and technology. Additionally, applications of the technology in the oil and gas industry, public health sector, parcel mapping, local government, law enforcement, national security, and market research are featured.

The GIS master's program offers two tracks; a **Traditional track** (thesis and non-thesis option) that offers a mix of face-to-face and online classes and a **Professional track** that is offered completely online.

The traditional track (thesis and non-thesis option) of the GIS master's degree is geared towards students with no prior experience/background in GIS or for students who have completed an undergraduate degree with no work experience.

The professional track is geared towards professionals who are engaged in the geospatial industry for at least 2 -3 years, utilizing GIS/Remote Sensing for their day-to-day operations and decision making, and aspiring for an advanced degree in GIS. The goal of the professional track is to train employed and experienced professionals from the GIS industry with strong scientific and geospatial qualifications, geospatial management and business skills, and an in-depth understanding of GIS ethics and ethical practices in geospatial business.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/geographic-information-systems/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the **Master of Science in Geographic Information Systems** must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript(s) of all previous college work (international students must submit third party evaluation of official transcripts for degrees from universities outside the United States)
4. TOEFL scores for international students.
5. Two letters of recommendation from faculty in the student's major at the degree-granting institution.

Applicants seeking admission to the **Master of Science in Geographic Information Systems: Professional Track** must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript(s) of all previous college work (international students must submit third party evaluation of official transcripts for degrees from universities outside the United States).
4. TOEFL scores for international students
5. Two letters of recommendation one from faculty in the student's major at the degree-granting institution and the other from an immediate supervisor.
6. Resume
7. Statement of purpose that explains:
 - a. Description of current and past involvement and employment using GIS and Remote Sensing technologies
 - b. Expected outcome of program
 - c. Intent of degree

The degree requires successful completion of thirty-six hours of graduate credit. Students must also take a graduate comprehensive exam and successfully pass the exam. A written comprehensive examination is administered by a comprehensive exam advisory committee for each degree candidate. The written examination must be scheduled with the GIS Graduate Program Coordinator at least four weeks in advance. Students must be enrolled the semester in which they take the comprehensive examination.

Requirements specified in the degree plan are subject to minor modification. All graduate coursework must be approved by the GIS Graduate Program Coordinator.

Plan 1 - MS in Geographic Information Systems (Non-Thesis Option)

Code	Title	Hours
Master of Science in Geographic Information Systems (Non-thesis option)		
Specified Courses		

GEOG 5362	GIS Principles and Application	3
GEOG 5363	Web GIS	3
GEOG 5364	Spatial Analysis	3
GEOG 5365	Digital Image Processing	3
GEOG 5366	Cartography And Visualization	3
GEOG 5367	GIS Programming	3
GEOG 5310	GIS Project Management	3
GEOG 5312	GIS ModelBuilder	3

Elective Courses

Select four of the following:		12
GEOG 5311	GIS in Law Enforcement	
GEOG 5313	Ethics in GIS	
GEOG 5314	GIS for Professionals	
GEOG 5315	Spatial Database	
GEOG 5371	Geographic Information Systems in Energy-Related Fields	
GEOG 5373	Introduction to LiDAR & Radar	

Total Hours **36**

Plan 2 - MS in Geographic Information Systems (Thesis Option)

Code	Title	Hours
Master of Science in Geographic Information Systems (Thesis option)		
Specified Courses		
GEOG 5362	GIS Principles and Application	3
or GEOG 5314	GIS for Professionals	
GEOG 5364	Spatial Analysis	3
GEOG 5365	Digital Image Processing	3
GEOG 5366	Cartography And Visualization	3
GEOG 5367	GIS Programming	3
GEOG 5310	GIS Project Management	3
GEOG 5312	GIS ModelBuilder	3
GEOG 5313	Ethics in GIS	3
GEOG 5363	Web GIS	3
GEOG 5373	Introduction to LiDAR & Radar	3
or GEOG 5315	Spatial Database	
Thesis		
GEOG 6398	Thesis I	3
GEOG 6099	Thesis II ¹	3
Total Hours		36

¹ Once enrolled in GEOG 6099, students must continuously enroll in this course until graduation.

Plan 3 - MS in Geographic Information Systems (Professional Track)

Code	Title	Hours
Master of Science in Geographic Information Systems (Professional Track)		
Specified Courses		
GEOG 5310	GIS Project Management	3
GEOG 5312	GIS ModelBuilder	3
GEOG 5313	Ethics in GIS	3
GEOG 5314	GIS for Professionals	3
GEOG 5315	Spatial Database	3
GEOG 5363	Web GIS	3
GEOG 5364	Spatial Analysis	3

GEOG 5365	Digital Image Processing	3
GEOG 5367	GIS Programming	3
GEOG 5369 or GEOG 5366	Internship in GIS Cartography And Visualization	3
GEOG 5371	Geographic Information Systems in Energy-Related Fields	3
GEOG 5373	Introduction to LiDAR & Radar	3
Total Hours		36

The MS in Geographic Information Systems is designed to provide graduates with the following marketable skills:

- Hands-on technical skills in GIS and Remote Sensing softwares, viz. ArcGIS Pro, ArcGIS Online for Organizations (AGOL), ERDAS Imagine, QGIS, etc.
- Comprehensive understanding of the data models and structures used in the input, management, analysis, and output of various geographic data.
- Use Python programming language to complete geoprocessing tasks. Ability to carry out specialized tasks, such as map scripting, debugging, error handling, creating and sharing custom tools using Python scripts, and creating Python functions and classes in ArcGIS environment.
- Thorough understanding of the critical steps necessary in order to successfully implement a GIS project within an organization and ability to conduct evaluations of GIS-related technology and assess their appropriateness for a particular purpose, project or application.
- Share GIS content on the Web or across the enterprise; publish maps, imagery, and geoprocessing models on the web; create and publish feature templates for use in Web applications that support visualization, analysis, and editing of GIS resources.
- Knowledge of image acquisition, image enhancement, image restoration, color image processing, image segmentation, image compression, image recognition, image quality assessment, and statistical evaluation and change detection.
- Cartographic visualization skills and various statistical and graphical approaches for mapping and visualization techniques.

Graduate Certificate in Geographic Information Systems

The Department of Environmental and Geosciences at SHSU offers a GIS Graduate Certificate to provide students with GIS skills required in today's job market. The GIS Graduate Certificate curriculum is developed with the objective of providing a solid hands-on experience in GIS applications. Students enrolled in the GIS Graduate Certificate program at SHSU will learn to use and apply technological tools and skills in their areas of expertise as well as in several major application areas. This includes use of GIS in infrastructure management, the oil and gas industry, public health, planning, and business applications. The curriculum will provide students with hands-on experience in major GIS and remote sensing vendor-specific as well as open source software packages, such as ArcGIS, ArcGIS Pro, ArcGIS Online, ERDAS IMAGINE, Python programming, Geoda, and Fusion. Students will learn:

- different spatial data structures and their essential properties;
- principles and methods for collecting spatial data;
- principles of map design and effective cartographic communication;
- methods of spatial analysis, ways spatial data can be used to investigate complex problems; and
- how to customize GIS software to meet organizational needs.

The program is intended to serve:

- recent graduates who wish to acquire technical expertise to support the knowledge gained in their undergraduate major;
- returning students who wish to acquire specialized training to meet current or future job requirements; and
- students at the graduate level who wish to demonstrate a level of mastery of the subject area by obtaining a certificate.

This Graduate Certificate is eligible to receive Title IV funding – Direct Unsubsidized Loans and Graduate PLUS loans by request. To be considered for aid, students need to submit a Free Application for Federal Student Aid (FAFSA).

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/certificate/geographic-information-systems/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to pursue a Graduate Certificate in Geographic Information Systems must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript from the baccalaureate degree granting institution
4. Resume

The graduate GIS Certificate curriculum consists of three core courses and a minimum of two electives.

Students must complete a minimum of 15 graduate credits.

Code	Title	Hours
Graduate Certificate in Geographic Information Systems		
Core Courses		
GEOG 5361 or GEOG 5366	Geographic Information Cartography And Visualization	3
GEOG 5362 or GEOG 5314	GIS Principles and Application GIS for Professionals	3
GEOG 5364	Spatial Analysis	3
Prescribed Electives		
Select two of the following:		6
GEOG 5310	GIS Project Management	
GEOG 5311	GIS in Law Enforcement	
GEOG 5312	GIS ModelBuilder	
GEOG 5315	Spatial Database	
GEOG 5363	Web GIS	
GEOG 5365	Digital Image Processing	
GEOG 5366	Cartography And Visualization	
GEOG 5367	GIS Programming	
GEOG 5371	Geographic Information Systems in Energy-Related Fields	
GEOG 5373	Introduction to LiDAR & Radar	
GEOG 5374	Advanced GIS Analysis	
Total Hours		15

Note: The GIS graduate certificate is also offered in coordination with the MS in Geographic Information Systems (<https://www.shsu.edu/programs/graduate/geographic-information-systems/>).

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The Graduate Certificate in Geographic Information Systems is designed to provide graduates with the following marketable skills:

- Integrate data from a variety of sources, viz. surveys, satellite images, and digitized images, and then utilize the information to build, maintain and update databases.
- Review geospatial datasets and maps for quality.
- Create maps and graphic representations with multiple layers of information for visualization purposes.
- Analyze geospatial data to find patterns, trends and connections to guide project planning and strategy.
- Use GIS software, viz. ArcGIS Pro, QGIS, etc. for data modeling, cartographic visualization.

Department of Mathematics and Statistics

Chair: Dr. Damon Hay (dhay@shsu.edu), (936) 294-4859

Contact Information: (936) 294-1564

Website: Department of Mathematics and Statistics (<http://www.shsu.edu/academics/mathematics-and-statistics/>)

Mission

The Department of Mathematics and Statistics will provide all students with the opportunity to receive an educational experience in mathematics and statistics of the highest quality, both inside and outside the classroom. By actively engaging in research and professional development, the faculty will promote quality scholarship among themselves as well as their students.

Highlights

- Opportunities for research through numerous grants with industry, government and education agencies
- Support for travel and presentations at local and national professional meetings
- Opportunities for discipline-related employment, including classroom teaching, grading and tutoring

Career Opportunities

- Accounting and Finance
- Computer Programming
- Data Science
- Sales and Marketing
- Management and Related Positions
- Actuarial Science
- Computer Systems Analysis
- Engineering
- Statistics
- Mathematics
- Operations Research
- Modeling
- Academic Positions - High School or College
- Master of Arts in Mathematics
- Master of Science in Mathematics
- Master of Science in Statistics and Data Science

Student Organizations

- American Mathematical Society (AMS) Student Chapter
- Mathematical Association of America (MAA)
- Pi-Mu-Epsilon Mathematics Honor Society
- Stat Club

Assistantships

The Department of Mathematics and Statistics offers a significant number of graduate teaching assistantships each year. For more information, call (936) 294-1564.

Scholarships

The Department of Mathematics and Statistics offers several scholarships each year and Sam Houston State University offers additional, university-wide scholarships. For information on departmental scholarships, visit the departmental website (<https://www.shsu.edu/academics/mathematics-and-statistics/scholarships.html>). Information on University scholarships may be obtained from the Financial Aid and Scholarships Office (<http://www.shsu.edu/dept/financial-aid/scholarships/>).

Director/Chair: **Damon Martin Hay**

John G Alford, PHD (jga001@shsu.edu), *Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Univ of Houston-Main; MS, Univ of Houston-Main; BS, Univ of Calif-Los Angeles

Emma Kathleen Price Bullock, PHD (exb051@shsu.edu), *Associate Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Utah State University; MMATH, Utah State University; BS, Brigham Young University

Ferry Butar Butar, PHD (mth_fbb@shsu.edu), *Professor of Statistics, Department of Mathematics & Statistics*, PHD, Univ of Nebraska-Lincoln; MA, Univ of Nebraska-Lincoln; MS, Univ of Nebraska-Lincoln; BS, Academy of Statistics; DRS, University of Indonesia

Ram Chandra Kafle, PHD (rckafle@shsu.edu), *Associate Professor of Statistics, Department of Mathematics & Statistics*, PHD, Univ of South Florida; MS, Univ of Akron; MS, Tribhuvan University; BS, Tribhuvan University

Doo Young Kim, PHD (dkim@shsu.edu), *Associate Professor of Statistics, Department of Mathematics & Statistics*, PHD, Univ of South Florida; MA, Ball State University; BS, Gachon University

Naomi Lynne Krawzik, PHD (stdnlv11@shsu.edu), *Assistant Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Univ of North Texas; MS, Sam Houston State University; BS, Alma College

Brian M Loft, PHD (mth_bml@shsu.edu), *Associate Professor of Mathematics, Assistant Provost of Sponsored Programs, Department of Mathematics & Statistics*, PHD, Univ of Oregon; MS, Texas State Univ-San Marcos; BS, Louisiana Tech University

Martin E Malandro, PHD (mem037@shsu.edu), *Associate Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Dartmouth College; AM, Dartmouth College; BS, Texas Tech University

Ananda Bandulasiri Manage, PHD (amanage@shsu.edu), *Professor of Statistics, Department of Mathematics & Statistics*, PHD, Texas Tech University; MS, Texas Tech University; MS, Sam Houston State University; BS, University of Kelaniya

Taylor Elizabeth Martin, PHD (taylor.martin@shsu.edu), *Associate Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Rice University; MA, Rice University; BA, Univ of Rochester; BS, Univ of Rochester

Giuseppe Martone, PHD (gxm120@shsu.edu), *Assistant Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Univ of Southern California; MS, University of Rome, Sapienza; BS, University of Rome, Sapienza

Chi Hoang Do Phan, PHD (chp007@shsu.edu), *Assistant Professor of Mathematics and Statistics, Department of Mathematics & Statistics*, PHD, Univ of South Florida; MA, Univ of South Florida; BA, Univ of South Florida

Amy E Ray, PHD (aer066@shsu.edu), *Assistant Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Michigan State University; MS, Michigan State University; MED, Texas Christian University; BS, Texas Christian University

Supun Tamara Samarakoon, PHD (ssamarakoon@shsu.edu), *Assistant Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Texas A&M University; MS, Sam Houston State University; BS, University of Colombo

Stephen Mark Scariano, PHD (sms049@shsu.edu), *Professor of Statistics, Department of Mathematics & Statistics*, PHD, Texas Tech University; MS, Texas Tech University; BS, Loyola Univ-New Orleans

Mary B Swarthout, PHD (mbs001@shsu.edu), *Associate Professor of Mathematics Education, Department of Mathematics & Statistics*, PHD, Ohio State University; MA, Miami University; BA, Berea College

Edward W. Swim, PHD (ews007@shsu.edu), *Associate Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Texas Tech University; MS, Colorado School of Mines; BS, Angelo State University

Timothy O Trujillo, PHD (txt031@shsu.edu), *Associate Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Univ of Denver; MS, New Mexico Inst/Mining/Tech; BS, New Mexico Inst/Mining/Tech

Linda Reichwein Zientek, PHD (lrz002@shsu.edu), *Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Texas A&M University; MS, Sam Houston State University; BS, Sam Houston State University

Master of Arts in Mathematics

The Master of Arts in Mathematics is a thirty-six hour, non-thesis program designed for those who desire to teach undergraduate community college-level and/or dual-credit or AP-level high-school mathematics classes. Recipients of the MA degree are also prepared for admission to a doctoral program in mathematics education. The MA in Mathematics program is an online program; however, it can accommodate students who wish to take some face-to-face courses.

Students who wish to work in industry, teach at the upper post-secondary level, or pursue doctoral studies in mathematics are encouraged to pursue the MS in Mathematics.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/mathematics/ma.html>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate program in Mathematics must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/beabearkat/graduate-journey/>):

- Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
- Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
- Official transcript(s) of all previous college work
- Two letters of recommendation

An overall undergraduate GPA of 3.0 or higher is preferred for admission into the Mathematics program. However, GPA is not the sole criterion for admission. Based on a review of an applicant's undergraduate transcript, the Department of Mathematics and Statistics may require completion of undergraduate stem courses as a condition for admission. Required prerequisites include three semesters of calculus and one semester of linear algebra.

The degree requires a minimum of thirty-six hours of graduate credit. An oral comprehensive examination covering the four core MA courses is administered by the advisory committee for each degree candidate. The oral examination must be scheduled with the Graduate Advisor at least three weeks in advance. Students must be enrolled in the MA program during the semester in which they take the comprehensive examination. Requirements specified in the degree plan are subject to minor modification by the department. Also, to ensure a balanced program, all electives must be approved by the department chair or an authorized representative of the graduate Mathematics faculty.

Code	Title	Hours
Master of Arts in Mathematics		
Required Courses		
MATH 5380	Research Project In Mathematics Education	3
MATH 5386	Concepts in Modern Algebra	3
MATH 5387	Transformational Geometry	3
MATH 5388	Concepts in Analysis	3
MATH 5389	Concepts in Probability and Statistics	3
Prescribed Electives		
Select three graduate courses in MATH		9
Additional Coursework		
Select 12 hours of the following:		12
Graduate courses in a second teaching field ¹		
Graduate MATH courses		
Graduate STAT courses		
Combination of graduate credit in the following areas: Computer Science, Mathematics, Statistics, Secondary Education		
Total Hours		36

¹ Selections must be made in consultation with the Graduate Advisor.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MA in Mathematics is designed to provide graduates with the following marketable skills:

- Teach mathematics at the secondary and post-secondary levels.
- Analyze quantities, magnitude, forms, and their relationships using symbolic logic and language.
- Apply mathematics and statistics to the solution of general problems of interest.

Master of Science in Mathematics

In the MS in Mathematics program students take courses in the fundamental areas of advanced pure and applied mathematics. Small class sizes and close mentoring by faculty create a positive environment designed to help students succeed in their academic and life goals. Graduates of this program have a more comprehensive and deeper view of mathematics, leading to diverse career opportunities in teaching, industry, or doctoral studies in mathematics. Past graduates are employed at community colleges and universities, in actuarial science, computer science, accounting/finance, and the oil and gas industry. A thesis option is available for students interested in doing mathematical research in the areas of combinatorics, commutative algebra, algebraic statistics, functional analysis, algebraic geometry, topology, knot theory, differential geometry, applied mathematics, numerical analysis, mathematical biology, and differential equations.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/mathematics/ms.html>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate program in Mathematics must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/dept/graduate-admissions/prospective-students.html>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript(s) of all previous college work
4. Three letters of recommendation from the Mathematics or Statistics faculty at the student's undergraduate degree-granting institution

An overall undergraduate GPA of 3.0 or higher is preferred for admission into the Mathematics program. Based on a review of an applicant's undergraduate transcript, the Department of Mathematics and Statistics (<https://www.shsu.edu/academics/mathematics-and-statistics/>) may require completion of undergraduate stem courses as a condition for admission.

The degree requires a minimum of thirty-six hours of graduate credit. A comprehensive examination over the algebra and analysis sequences is administered by the Mathematics Graduate Committee at the beginning of the second year of the program. Requirements specified in the degree plans are subject to minor modification by the department. To ensure a balanced program, all electives must be approved by the graduate advisor.

The Texas Higher Education Coordinating Board (THECB) marketable skills initiative is part of the state's **60x30TX plan** and was designed to help students articulate their skills to employers. Marketable skills are those skills valued by employers and/or graduate programs that can be applied in a variety of work or education settings and may include interpersonal, cognitive, and applied skill areas.

The MS in Mathematics is designed to provide graduates with the following marketable skills:

- Expertise in mathematical analysis and problem solving that is applicable in a wide variety of industry-related positions.
- Expertise in mathematical writing.
- Experience in multiple phases of course preparation and teaching of mathematics at the freshman level.
- Preparation for further study at the doctoral level in mathematics and other closely related areas.

Master of Science in Statistics and Data Science

The Master of Science in Statistics and Data Science is a thirty-six hour program designed to produce professionally competent statisticians who will be able to accept positions in business, industry and public service. The degree also provides the academic foundations needed to pursue doctoral studies. The program may be completed with or without a thesis.

Additional information: Reference the Program Landing Page (<https://www.shsu.edu/programs/graduate/statistics/>) for additional information, such as cost, delivery format, contact information, or to schedule a visit.

Applicants seeking admission to the graduate program in Statistics and Data Science must submit the following directly to the Office of Graduate Admissions (<https://www.shsu.edu/beabearkat/graduate-journey/>):

1. Graduate Application (<http://www.shsu.edu/admissions/apply-texas.html>)
2. Application fee (<http://www.shsu.edu/dept/graduate-studies/application-fee.html>)
3. Official transcript(s) of all previous college work
4. Official GRE scores. GRE is recommended but not required. Although it is not required, the graduate admissions committee will use it in ranking purposes.
5. Official TOEFL or IELTS scores (for international applicants)
6. Three letters of recommendation

An overall undergraduate GPA of 3.0 or higher is preferred for admission into the Statistics and Data Science program. However, GPA and GRE scores do not constitute the primary criteria for admission. Based on a review of an applicant's undergraduate transcript, the Department of Mathematics and Statistics may require completion of undergraduate stem courses as a condition for admission.

The degree requires a minimum of thirty-six hours of graduate credit. An oral comprehensive examination is administered by the advisory committee for each degree candidate. The oral examination must be scheduled with the Graduate Advisor at least three weeks in advance. Students must be enrolled the semester in which they take the comprehensive examination. Requirements specified in the degree plan are subject to minor modification by the department. Also, to ensure a balanced program, all electives must be approved by the graduate advisor or an authorized representative of the graduate Statistics faculty.

Department of Physics and Astronomy

Chair: Joel W. Walker, Ph.D. (jwalker@shsu.edu)

Contact Information: (936) 294-4803

Website: Department of Physics and Astronomy (<http://www.shsu.edu/academics/physics/>)

Program Summary

Physics and Astronomy are for creative and curiously-minded students who want a shot at cracking Nature's secret source code — people who are excited by questions like "What happened right after the Big Bang?", "How does time warp near a black hole?", or "Can atomic systems coexist in multiple realities at once?"

Physics and Astronomy are for inventive and enterprising students who want to design humanity's future — people who are motivated by questions like "Can clean fusion energy propel equitable access to technology and resources?", "How will quantum computing revolutionize our link with information?", or "When will self-sustaining communities be established on Mars?"

Physicists work to understand the most basic laws of nature in the most simple and general way possible. Physicists likewise apply this understanding to solving engineering and design problems in every facet of modern life. Our faculty specialize in Materials Science (exploring properties of dense atomic systems computationally and with x-ray / atomic-force imaging, and designing superior molecular compounds for engineering applications like batteries and superconductors) and Particle Physics (theory and high-performance computer simulation involving elementary constituents of matter and their interactions, the Large Hadron Collider in Switzerland, the search for dark matter, and mysterious properties of the neutrino).

Astronomers seek to understand our place in the Universe, and to unravel clues about its history from light reaching us across the expanse of space. Our faculty take a special interest in the data-based improvement of approaches to science education, and have research expertise in the topics of stellar spectroscopy and ionized gas in spiral galaxies. The university observatory houses several telescopes for in-person stargazing, and our indoor planetarium provides immersive simulations of the night sky as viewed from any location and date.

Vision & Mission

The Department of Physics and Astronomy at Sam Houston State University will be a preferred source of technically equipped employees and scholars, and a vital participant in the global pursuit of fundamental scientific knowledge.

- Faculty will make meaningful professional contributions to their respective research disciplines and actively mentor their students in the practice of scientific investigation.
- Students majoring in physics and pre-engineering, and minoring in astronomy, will be effectively prepared to confront the quantitative, conceptual, and analytical challenges associated with a related career or continuing education.
- All students, including those from other degree programs, will be exposed to the sciences in a manner which nurtures curiosity and develops critical thinking and problem-solving skills that may be usefully projected onto their various professional endeavors and roles in society.

Academic Programs

The Department of Physics and Astronomy currently offers only undergraduate degree programs. See the current undergraduate catalog for more details.

Courses

The Department of Physics and Astronomy does not currently offer graduate courses. Please consult the current undergraduate catalog for course offerings.

Dual Degree Programs

Sam Houston State University offers dual-degree programs to help students meet their specific career interests. In addition, a dual-degree program allows students to double-count some credits, shortening the completion time for both programs. Students enrolling in a dual-degree program must apply separately and meet admissions requirements for both programs. Upon dual-degree program completion, students will receive two diplomas.

- Doctor of Osteopathic Medicine and Master of Public Health

Doctor of Osteopathic Medicine and Master of Public Health

The College of Osteopath Medicine and the College of Health Science offer a concurrent degree program that provides a consistent pathway for academically driven medical students to complete a Master of Public Health while pursuing the Doctor in Osteopathic Medicine degree program. Graduate students in the joint program obtain valuable experience through community engagement activities, research projects, clinical rotations, and interactions with public health professions, which foster positive learning opportunities. In addition, by pursuing both the Doctor of Osteopathic Medicine and the Master of Public Health concurrently, students can complete both degrees in a shorter time period (4 years) than if they were to pursue the two independently (6 years).

Application to the joint degree program is continuous, and students have an opportunity to apply to the program during the fall, spring, and summer semesters.

Students must meet the following requirements for admittance to the Doctor of Osteopathic Medicine and Master of Public Health dual degree program:

- Successful acceptance to the SHSU Doctor of Osteopathic Medicine (DO) degree program.
- Successful acceptance to the Master of Public Health (MPH) degree program.
- Achievement of a GPA of 3.00 or higher in major courses.
- Completion of the application requirements for the MPH program, payment of the application fees, and submission of the required documents to the Office of Graduate Admissions. (<https://www.shsu.edu/beabearkat/graduate-journey/>)
- Participation in an interview with the MPH admissions committee.
- Registration for MPH courses in accordance with the guidance provided by the MPH Administrative Associate.

Students accepted into the DO/MPH dual degree program will commence their MPH coursework in the summer prior to beginning the DO program.

The Doctor of Osteopathic Medicine and Master of Public Health dual degree program allows students to utilize up to nine credit hours of coursework across both degrees, therefore, saving time and money in completing both programs. In addition, physicians with an MPH degree typically command higher salaries compared to those with standalone MD/DO degrees. Furthermore, graduates with the DO/MPH dual degree program enhance their career opportunities in working with underserved populations, research settings, and leadership roles.

Students must meet all requirements for both the Doctor of Osteopathic Medicine (DO) and Master of Public Health (MPH)

Code	Title	Hours

Course Descriptions

ARTS 5079. Independent Study. 1-3 Hours.

Students in this course conduct supervised exploration of a specialized interest or pursue enhanced skills. It is designed specifically for advanced students who are capable of independent research and/or creative activity. Variable Credit (1 to 3).

Prerequisite: Approval of instructor and department.

ARTS 5311. Studio Critique. 3 Hours.

Students explore and begin producing a body of work. Weekly group critiques allow students to develop their work while providing a forum for peer review and discussion of critical theory, as well as social, political, and aesthetic aspects of their practice.

ARTS 5312. Studio Seminar. 3 Hours.

Students focus on socially and community engaged art practices. Each semester, the course will focus on a topic related to current theories of contemporary art and social practices. Topics will rotate and vary from semester to semester. Group discussions and individual research on the semester topic will serve as the conceptual and ideological catalyst for the creative work produced in the seminar.

ARTS 5313. Teaching Seminar in Art. 3 Hours.

Students examine teaching pedagogy in higher education. Curriculum development, syllabi development, assessment, and educational objectives will be viewed with a focus on art education and visual culture. This is a required course to prepare students for graduate teaching assistantship opportunities in the Department of Art.

ARTS 5315. Professional & Social Practice. 3 Hours.

Students pursue professional artistic endeavors, including portfolio development and presentation, grant writing, and exhibitions. Emphasis is placed on developing proposals for projects and exhibitions that emphasize community engagement and participation. Students in the course will organize and promote public exhibition of their work.

ARTS 5381. Socially Engaged Art. 3 Hours.

Students consider art, its social contexts, and its engagement with social systems. Socially Engaged Art may incorporate the community, networks of people within a community, political and/or social activism, participation, relationships between people and/or organizations, and include transdisciplinary work that considers societal relations. It will consider the origins and history of socially engaged art as well as its contemporary manifestations.

ARTS 5385. Contemporary Art and Theory. 3 Hours.

Students examine art from late twentieth century onward. Particular focus is granted to ongoing work by significant artists and scholars. Class lectures and discussions alternate between chronological and thematic treatments of contemporary art, and also consider major theories and histories. **Prerequisite:**

ARTS 6079. Special Topic. 1-3 Hours.

This course provides opportunities for special topic courses within the Department of Art. May be repeated for credit. **Prerequisite:** Instructor approval. Variable Credit (1 to 3).

Prerequisite: Instructor Approval .

ARTS 6311. Collaborative Studio. 3 Hours.

Students focus on the exploration and production of a body of work leading up to their thesis project. Students will develop and complete projects that require collaboration with other artists in the program, or with other disciplines, to expand their practices. Weekly group critiques will allow students to develop their work while providing a forum for peer review.

Prerequisite: ARTS 5312 and ARTS 5381.

ARTS 6312. Community Seminar. 3 Hours.

Students pursue the development of a body of creative work through partnerships with community organizations or experiences. Students develop projects that relate to community issues by working with community organizations or creating innovative community-based projects that result in public presentations or exhibitions.

Prerequisite: ARTS 5311 and ARTS 5381.

ARTS 6313. Studio Critique II. 3 Hours.

Students continue to develop their studio practice and refine art and social practice projects working towards their theses. Group and individual critiques will provide a forum for faculty feedback, peer review, and discussions of advanced critical theory, as well as social and political aspects of their practice.

Prerequisite: ARTS 5311.

ARTS 6381. Research Methods in Art. 3 Hours.

Students critically explore approaches and methodologies in studio art research. A variety of research perspectives are considered, with an emphasis on student-conducted research. Students investigate historical, theoretical, and technical aspects of research in an artistic context and develop practices of documenting, disclosing, and disseminating their research.

Prerequisite: ARTS 5381 and ARTS 5385.

ARTS 6385. Seminar in Art History. 3 Hours.

Students study and analyze different Art History topics each semester. Rotating topics focus on different eras and locations; students analyze those periods and incorporate them into their practices.

Prerequisite: ARTS 5385.

ARTS 6398. Thesis Project I. 3 Hours.

Students write a thesis proposal articulating their artistic practice and outlining plans for a thesis exhibition to be completed in ARTS 6399: Thesis Project II. The theoretical foundation of their project is emphasized, alongside the project's context within art history and the student's creative development. Students will complete a Catalog Project for publication in a catalog to accompany the exhibition completed in ARTS 6399.

Prerequisite: ARTS 6381 and Departmental Approval.

ARTS 6399. Thesis Project II. 3 Hours.

Students complete the thesis project developed in ARTS 6398 and exhibit a body of work in the thesis exhibition. The completed thesis describes the conceptual foundation of the student's artistic practice and its relation and significance to society and the community. The thesis exhibition is demonstrative of the written thesis.

Prerequisite: ARTS 6398.

Accounting (ACCT)

ACCT 5080. Independent Study. 1-3 Hours.

Directed study in special topics in accounting. Variable credit (1 to 3). Course Equivalents: ACCT 5380

Prerequisite: Approval of Department Chair and Graduate Coordinator.

ACCT 5085. Special Topic. 1-3 Hours.

This course of faculty-led study is designed to provide graduate students exposure to new Accounting topics and concepts in a course setting.

Variable Credit (1 to 3). Course Equivalents: ACCT 5385 .

ACCT 5300. Analysis of Accounting Information. 3 Hours.

Students are introduced to the accounting principles, concepts, procedures, and techniques underlying financial and managerial accounting and reporting with an emphasis on business and economic information generated in the accounting process and a study of their behavior for planning and control decisions. This course does not apply to the 36-hour graduate credit hour requirement of the MBA degree program or the 30-hour MS in Accounting degree.

ACCT 5302. Financial Reporting & Business Decisions. 3 Hours.

Students study and examine financial reporting from the point of view of management, creditors, and investors. The course specifically addresses how financing, investing, and operating decisions affect financial statements. The course also covers how creditors and investors use financial statements to assess the results of managers' decisions and the effect of alternative accounting methods on the quality of financial reporting. The course emphasizes the effect of internal accounting decisions on external financing and business decision making. The course is designed for non-Accounting majors.

ACCT 5304. Accounting For Management. 3 Hours.

Students examine and apply the concepts useful to management in the analysis of accounting data for the purposes of costing and income determination, decision making and control. The course typically includes readings, cases and discussion of planning and budgeting, activity-based costing, target costing, performance measurement, quality and environmental cost management. This course is designed for non-accounting majors.

Prerequisite: ACCT 2301 and ACCT 2302 or ACCT 5300.

ACCT 5311. Advanced Financial Accounting Research I. 3 Hours.

Students study financial accounting concepts, researching financial accounting standards in the Financial Accounting Standards Board's (FASB) Accounting Standards Codification, current pronouncements of the FASB, and application of principles to practical problems. Financial statement presentation and disclosure requirements for a variety of special areas of financial report are covered. This course is designed to enhance research skills, analytical thinking skills, and written and oral communication skills.

Prerequisite: Admission to the MS in Accounting Program.

ACCT 5312. Advanced Financial Accounting Research II. 3 Hours.

Students explore advanced financial accounting concepts (e.g., revenue recognition of multi-deliverable contracts, stock based compensation models, and foreign currency financial statements) using a case-based approach requiring research in the Accounting Standards Codification.

Prerequisite: ACCT 5311.

ACCT 5315. Seminar in Accounting Theory. 3 Hours.

Students study accounting theory as well as a critical analysis of the history of the development of Generally Accepted Accounting Principles. Students research accounting literature, with the objective of critically evaluating the present status and future course of accounting thought as well as examine theoretical approaches to the solution of current problems in financial reporting.

Prerequisite: Admission to the MS in Accounting program.

ACCT 5324. Information System Auditing & Assurance. 3 Hours.

Students study the linkage between auditing concepts and professional standards and their application to information system principles, processing, and control. Professional practice and experience in the use of the computer as an audit tool is introduced through the use of Generalized Audit Software. Students are provided with an understanding and hands-on familiarity with skills necessary to assess controls over computerized information systems and to accomplish computer assisted auditing procedures to render an opinion regarding the integrity of financial information produced by those systems. Knowledge of these concepts help prepare the student to practice in a technologically enhanced auditing environment.

Prerequisite: Admission to the MS in Accounting Program.

ACCT 5333. Financial Statement Analysis. 3 Hours.

Students are provided an overview of the pertinent theoretics and various applications relevant to the analysis of financial statements by applying both finance and accounting principles. Readings and case studies are applied to provide a contemporary prospective.

Prerequisite: Admission to the MS in Accounting program.

ACCT 5347. Managerial Accounting Application. 3 Hours.

Students study and exam managerial accounting applications that address contemporary managerial issues and problems. Topics may include activity-based costing, target costing, quality costs, environmental costing, capacity costing, theory of constraints, costing for lean production, and other areas. Cases and exercises are used to provide professional practice and experience in the development and use of management accounting information for decision making and the role of the management accountant as part of the management decision making team.

Prerequisite: Admission to the MS in Accounting program.

ACCT 5352. Corporate & Pass Through Entity Taxation. 3 Hours.

Students study the Internal Revenue Code and related tax literature associated with corporate and pass through entity taxation. Students learn the concepts of forming, operating, and liquidating C Corporations, S Corporations, LLCs, and Partnerships. Federal tax returns are prepared for C Corporations, S Corporations and Partnerships. Tax research is emphasized and integrated into each of the above areas. Students obtain proficiency in the use of various internet and paper-based tax services and in the examination of related contemporary accounting literature.

Prerequisite: Admission to the MS in Accounting program.

ACCT 5355. Estate Planning, Trusts, and Nonprofits. 3 Hours.

Students examine concepts of estate planning to enable tax minimized transmittal of property from one generation to the next generation or beyond. Topics may include: lifetime gifts, successive life estates, use of trusts, estate tax technical issues, tax research, formation and use of family partnerships, corporations, LLCs, and other business forms in conjunction with estate planning. Students gain an understanding of charitable entities/devices and their opportunities in estate planning and exposure to other not for profit tax entities and their return problems as well as an understanding and preparation of federal tax forms 709, 706, 1041, and other related forms, including Texas related forms as applicable; an understanding of community property concepts related to estate planning issues; an understanding of property issues as related to estate planning issues; and understanding and proper use of trust devices and potential tax impact (both estate and income taxation).

Prerequisite: Admission to the MS in Accounting program.

ACCT 5357. Multijurisdictional Taxation Concepts. 3 Hours.

Students examine concepts related to the taxation of business entities and individuals by international and state jurisdictions. The concepts of nexus, income allocation, and income apportionment issues as well as cross-border and international tax issues affecting activities of U.S. taxpayers are explored.

Prerequisite: ACCT 5352.

ACCT 5360. Analytics in Accounting. 3 Hours.

Students concentrate on data acquisition, and the analysis, interpretation, presentation, and use of data in decision-making in an accounting context. Students gain hands-on experience with information technology used in the accounting profession. Project-oriented computer-based assignments are used to enhance students' knowledge and skills.

Prerequisite: Admission to the MS in Accounting program.

ACCT 5375. ERP Business Process Integration. 3 Hours.

This course utilizes the SAP information system paradigm as a model for examination and development of integrated business process solutions. The course examines the conceptual background, rationale, methods, and procedures commonly employed by businesses in developing and configuring integrated business systems. Cases and hands-on experience using SAP require students to configure a business process solution through integration of financial, controlling, production, materials management, sales and distribution, manufacturing, and other ERP process modules.

Prerequisite: Admission to the MS in Accounting program.

ACCT 5379. Professional Ethics & Responsibility. 3 Hours.

This course provides prospective accounting professionals an ability to apply philosophic moral theory to particular issues pertaining to the accounting profession. The course may include the examination of contemporary accounting literature related to ethical standards, ethical reasoning, integrity, objectivity, independence, and other core values. Emphasis is placed on dealing with controversial issues and examining the legal and professional responsibilities of public accountants. Topics also may include the examination of the state and AICPA Code of Professional Conduct and other governing authorities' pronouncements, such as SEC, IRS, and similar such bodies. Case studies and exercises with professional responsibility and ethical considerations in "real life" situations are interspersed throughout the curriculum.

Prerequisite: Admission to the MS in Accounting program, ACCT 5311, ACCT 5324, ACCT 5352, and 12 completed graduate credit hours, and concurrent enrollment in ACCT 5399.

ACCT 5399. Advanced Auditing Theory & Practice. 3 Hours.

Students examine the theoretical and application issues of contemporary auditing as identified in the literature and by recent professional pronouncements. Topics may include internal control, control risk, legal liability of auditors, audit failure, audit risk, auditor responsibility for detection of fraud, and the evolving nature of the auditing profession in compliance with new audit standards. Case studies and exercises are used to address these and other topics of importance to professional auditing practice.

Prerequisite: Admission to the MS in Accounting program, ACCT 5311, ACCT 5324, ACCT 5352, and 12 completed graduate credit hours.

Agricultural Sciences (AGRI)

AGRI 5064. Agricultural Internship. 1-6 Hours.

A directed study utilizing industry to develop an understanding of agricultural production and management principles. Course Equivalents: AGRI 5364 .

AGRI 5096. Independent Study. 1-3 Hours.

Students engage in arranged, advanced experiential learning and professional activities through the practical application of agricultural skills and knowledge specific to their individual needs and goals. The topic of study is mutually selected and approved by the student and Agricultural Sciences faculty. Variable Credit (1 to 3).

Prerequisite: Departmental Approval.

AGRI 5300. Advanced Fusing Metals & Non-Metals. 3 Hours.

Students explore principles and techniques of bonding and fusing metallic materials by the electric and oxyacetylene processes. Students study fluxes, chemicals, and oxidants used in joining metal as well as the joining of non-metallic materials by mechanical and chemical means.

AGRI 5310. Mechanized Harvesting & Handling Agricultural Products. 3 Hours.

Students study the fundamentals of selection, service, and operation of agricultural harvesting machines as well as the analysis and development of mechanical systems to feed and care for livestock. In addition, storage and handling facilities for agricultural products are discussed.

AGRI 5330. Advanced Rural Utilities. 3 Hours.

Student study the selection and use of electrical equipment as related to efficiency and economy in agricultural production, processing and storage of feeds, forage crops and grain in connection with livestock enterprises.

AGRI 5337. Behavior & Management of Domestic Animals. 3 Hours.

Students study behavior associated with domesticated animals. The effects of selective breeding, physical and social environments, and the developmental stage on social organization are studied. Additionally, aggressive behavior, sexual behavior, productivity, and the training of domestic animals are examined. Note: Students who have taken ANSC 4337 may not take AGRI 5337.

Prerequisite: Graduate Standing.

AGRI 5340. Advanced Animal Growth & Performance. 3 Hours.

This course is an advanced study of physiological and endocrine factors affecting growth and performance of domestic animals. The course may include the study of meat animal growth and developmental processes as they affect body and carcass composition, carcass quality and retail value.

NOTE: Student who have taken ANSC 4310 may not take AGRI 5340.

Prerequisite: Graduate standing.

AGRI 5341. Contemporary Animal Agriculture Issues. 3 Hours.

Students investigate contemporary issues in animal agriculture and the food/meat industry. Primarily using in-depth discussion and debates, students analyze issues from the standpoint of producers, consumers, processors, and societal forces. This course allows students to explore differing viewpoints on an issue and prepare them to encounter these issues in their professional career.

AGRI 5350. Advanced Principles of Livestock Management. 3 Hours.

Students engage in a survey of current knowledge and concepts of beef production with emphasis on the stocker/feedlot segment. Includes feeding, management, marketing and disease control of stocker and feedlot cattle.

AGRI 5351. Agricultural Biosecurity. 3 Hours.

Students study the potential spread and prevalence of contagious organisms, reproductive diseases and contaminants in the agriculture, food, fiber, and natural resource industries. Concepts dealing with isolation, resistance, sanitation, containment, transportation, and food safety issues and potential economic impact to the agricultural industry and others are major topics. Note: Students who have taken AGRI 4350 may not take AGRI 5351.

Prerequisite: Graduate Standing.

AGRI 5360. Contemporary Agricultural Business Issues. 3 Hours.

Students analyze and discuss current issues in agricultural business with appropriate principles and theories. Issues may include marketing, management, finance, policy, international, legal and ethical topics. Student participation is expected via reports throughout the semester or term reports.

AGRI 5361. Agricultural Policy. 3 Hours.

Students engage in an advanced analysis of government policies and programs important to agriculture. Topics may include: the policy making process and leaders, interest groups, organization and functions of federal and state agencies, policies relevant to production agriculture and natural resources, rural development, consumer and food safety, international marketing and food distribution.

AGRI 5362. Principles of Crop Protection. 3 Hours.

Students study the diagnosis, epidemiology, and control of plant pests. Causative and limiting factors are stressed. Designed for prospective or practicing teachers and technicians in the agro-chemical industry or in federal or state plant pest control agencies.

AGRI 5369. Special Topics in Advanced Agriculture. 3 Hours.

Students examine advanced special topics/issues and (or) subject matter in the field of Agricultural Science. The sub-divisional fields offered are: Agriculture, Animal Science, Agricultural Business, Horticulture and Crop Science, and Agricultural Mechanization. This course may be repeated as topics and subject matter change.

AGRI 5370. Food and Fiber Crops. 3 Hours.

Students study traditional plant breeding techniques and an overview of contemporary crop improvement methods. The physiology, adaptation, classification, taxonomy, and utilization of major crop species used for production of food and fiber are covered. Genetic and environmental influences on crop quality are discussed.

AGRI 5371. Agricultural Safety & Health. 3 Hours.

Students examine the hazards and necessary safety precautions associated with the food, fiber, natural resources and agricultural industry. Control strategies are explored, and prevention methods identified. Hazards examined include machinery, livestock, controlled spaces, pesticides, and other issues common to the food, fiber, natural resources, and agricultural industry. Note: Students who have taken AGRI 4371 may not take AGRI 5371.

Prerequisite: Graduate Standing.

AGRI 5379. Advanced Equine Nutrition. 3 Hours.

This course is an advanced review of the equine digestive system regarding anatomy, physiology, digestive processes, nutrient requirements, feedstuffs, management, and health care. NOTE: Students who have taken EQSC 4379 may not take AGRI 5379.

AGRI 5386. Capital Management in Agricultural Business. 3 Hours.

Students are provided an in-depth understanding of capital marketing, capital budgeting, financial planning, and appraisal principles important in the field of agribusiness.

AGRI 5394. Applied Horticultural Science. 3 Hours.

Students explore the identification, selection, and use of plants to improve the human environment as well as evaluate problems and create solutions to environments where plants and human interact. In addition, students focus on the soil-water-plant relationship of ornamental plants.

AGRI 5397. Animal Diseases & Public Health. 3 Hours.

Students study diseases shared in nature between animals and man. Emphasis is placed on how these diseases exist in natural environments, modes of transmission, and methods of control and prevention. Students explore infectious agents and the clinical signs that they cause in both humans and animals. Note: Students who have taken ANSC 4398 may not take AGRI 5397.

Prerequisite: Graduate Standing.

AGRI 5398. Economics Of Agricultural Production. 3 Hours.

Students explore agricultural production principles applied to the use of resources; cost analyses of production enterprises; linear programming of enterprises for maximizing returns; elements of depreciation schedules; evaluation for income tax purposes.

AGRI 6099. Thesis. 1-3 Hours.

In addition to the preliminary study of the techniques of research, this course involves completion of a bibliography, organization of material, selection of a suitable problem, a digest of related literature, selection of appropriate procedures, formulation of a plan of investigating and reporting, collection and organization of data, and the writing of the thesis. Variable Credit (3 hrs first semester; 1 hour subsequent semesters). Grade is either Credit or No Credit. Course Equivalents: AGRI 6399 .

AGRI 6140. Graduate Seminar. 1 Hour.

This course is designed to provide students a forum for presentation of their graduate project and to provide an opportunity for faculty to present seminars relative to contemporary issues in agriculture. The project is an agreement between student and his/her committee. Course cannot be repeated. Grade is either Credit or No Credit.

Prerequisite: AGRI 5375 or STAT 5360.

AGRI 6350. Techniques & Interpretation of Agricultural Research. 3 Hours.

A course designed to develop the competencies needed to interpret and utilize agricultural research. Topics will include: the philosophy of the scientific method, formats for agricultural research data, interpretation of data, and application of information to specific situations.

Prerequisite: STAT 5360.

AGRI 6398. Thesis. 3 Hours.

In addition to the preliminary study of the techniques of research, these courses involve completion of a bibliography, organization of material, selection of a suitable problem, a digest of related literature, selection of appropriate procedures, formulation of a plan of investigating and reporting, collection and organization of data, and the writing of the thesis. Grade is either Credit or No Credit.

Agriculture Education (AGED)

AGED 5364. Advanced Problems in Agriculture Education. 3 Hours.

A directed individual investigation of advanced problems in Career and Technology Education.

AGED 5376. Personal Leadership & Organizational Dynamics. 3 Hours.

(SH Prior Course ID: AED 576); Concepts and practices in planning and presenting materials to agricultural groups. Includes leadership skills, concepts of community development, and dynamics of technological change.

AGED 5388. Secondary Agricultural Education Program Management. 3 Hours.

Students focus on developing and managing the youth leadership aspect of Agriculture, Food, and Natural Resources programs in public schools. Students examine leadership and career development events, agricultural education record book documentation system, Program of Activity development, financial management, student and chapter awards, community partnerships, program evaluation, and student management during extracurricular activities.

AGED 5393. Methods of Teaching Agricultural Education. 3 Hours.

Students study the professional competencies required for the teaching of agricultural education. Included is the development of curriculum and occupational education programs as well as evaluation of teaching techniques, procedures, and resource materials. Methods of teaching students with disabilities are discussed. Note: Students who have taken AGED 4364 may not take AGED 5393.

Prerequisite: Graduate Standing.

AGED 5394. Agricultural Education Learning Environments. 3 Hours.

Students examine classroom management and discipline approaches appropriate in secondary agricultural education (AGED) classrooms and laboratories. Proactive and preventative measures are discussed to ensure student safety and a successful learning environment. Note: Students who have taken AGED 4394 may not take AGED 5394.

Prerequisite: Graduate Standing.

Anatomy (ANAT)

ANAT 7801. Clinical Anatomy. 8 Hours.

Students explore integrated gross and microscopic human anatomy including a regional focus on embryological development. Laboratory cadaveric dissection, virtual microscopy, radiological imaging, and models are all utilized as learning tools. Students will apply knowledge of the anatomical sciences to understand clinical correlates.

Art (ARTS)

ARTS 5079. Independent Study. 1-3 Hours.

Students in this course conduct supervised exploration of a specialized interest or pursue enhanced skills. It is designed specifically for advanced students who are capable of independent research and/or creative activity. Variable Credit (1 to 3).

Prerequisite: Approval of instructor and department.

ARTS 5311. Studio Critique. 3 Hours.

Students explore and begin producing a body of work. Weekly group critiques allow students to develop their work while providing a forum for peer review and discussion of critical theory, as well as social, political, and aesthetic aspects of their practice.

ARTS 5312. Studio Seminar. 3 Hours.

Students focus on socially and community engaged art practices. Each semester, the course will focus on a topic related to current theories of contemporary art and social practices. Topics will rotate and vary from semester to semester. Group discussions and individual research on the semester topic will serve as the conceptual and ideological catalyst for the creative work produced in the seminar.

ARTS 5313. Teaching Seminar in Art. 3 Hours.

Students examine teaching pedagogy in higher education. Curriculum development, syllabi development, assessment, and educational objectives will be viewed with a focus on art education and visual culture. This is a required course to prepare students for graduate teaching assistantship opportunities in the Department of Art.

ARTS 5315. Professional & Social Practice. 3 Hours.

Students pursue professional artistic endeavors, including portfolio development and presentation, grant writing, and exhibitions. Emphasis is placed on developing proposals for projects and exhibitions that emphasize community engagement and participation. Students in the course will organize and promote public exhibition of their work.

ARTS 5381. Socially Engaged Art. 3 Hours.

Students consider art, its social contexts, and its engagement with social systems. Socially Engaged Art may incorporate the community, networks of people within a community, political and/or social activism, participation, relationships between people and/or organizations, and include transdisciplinary work that considers societal relations. It will consider the origins and history of socially engaged art as well as its contemporary manifestations.

ARTS 5385. Contemporary Art and Theory. 3 Hours.

Students examine art from late twentieth century onward. Particular focus is granted to ongoing work by significant artists and scholars. Class lectures and discussions alternate between chronological and thematic treatments of contemporary art, and also consider major theories and histories. **Prerequisite:**

ARTS 6079. Special Topic. 1-3 Hours.

This course provides opportunities for special topic courses within the Department of Art. May be repeated for credit. **Prerequisite:** Instructor approval. Variable Credit (1 to 3).

Prerequisite: Instructor Approval .

ARTS 6311. Collaborative Studio. 3 Hours.

Students focus on the exploration and production of a body of work leading up to their thesis project. Students will develop and complete projects that require collaboration with other artists in the program, or with other disciplines, to expand their practices. Weekly group critiques will allow students to develop their work while providing a forum for peer review.

Prerequisite: ARTS 5312 and ARTS 5381.

ARTS 6312. Community Seminar. 3 Hours.

Students pursue the development of a body of creative work through partnerships with community organizations or experiences. Students develop projects that relate to community issues by working with community organizations or creating innovative community-based projects that result in public presentations or exhibitions.

Prerequisite: ARTS 5311 and ARTS 5381.

ARTS 6313. Studio Critique II. 3 Hours.

Students continue to develop their studio practice and refine art and social practice projects working towards their theses. Group and individual critiques will provide a forum for faculty feedback, peer review, and discussions of advanced critical theory, as well as social and political aspects of their practice.

Prerequisite: ARTS 5311.

ARTS 6381. Research Methods in Art. 3 Hours.

Students critically explore approaches and methodologies in studio art research. A variety of research perspectives are considered, with an emphasis on student-conducted research. Students investigate historical, theoretical, and technical aspects of research in an artistic context and develop practices of documenting, disclosing, and disseminating their research.

Prerequisite: ARTS 5381 and ARTS 5385.

ARTS 6385. Seminar in Art History. 3 Hours.

Students study and analyze different Art History topics each semester. Rotating topics focus on different eras and locations; students analyze those periods and incorporate them into their practices.

Prerequisite: ARTS 5385.

ARTS 6398. Thesis Project I. 3 Hours.

Students write a thesis proposal articulating their artistic practice and outlining plans for a thesis exhibition to be completed in ARTS 6399: Thesis Project II. The theoretical foundation of their project is emphasized, alongside the project's context within art history and the student's creative development. Students will complete a Catalog Project for publication in a catalog to accompany the exhibition completed in ARTS 6399.

Prerequisite: ARTS 6381 and Departmental Approval.

ARTS 6399. Thesis Project II. 3 Hours.

Students complete the thesis project developed in ARTS 6398 and exhibit a body of work in the thesis exhibition. The completed thesis describes the conceptual foundation of the student's artistic practice and its relation and significance to society and the community. The thesis exhibition is demonstrative of the written thesis.

Prerequisite: ARTS 6398.

Athletic Training (ATTR)

ATTR 5111. Lower Extremity Injuries Lab. 1 Hour.

Students apply practical skills in the areas of evaluation, diagnosis, care, and referral of lower-extremity musculoskeletal pathologies. Course content includes evaluation skills and clinical decision-making that allow for the development of a clinical diagnosis, appropriate referral strategy, and a plan of care for lower-extremity injuries and conditions. Co-requisite: ATTR 5311.

Prerequisite: ATTR 5310.

ATTR 5112. Upper Extremity Injuries Lab. 1 Hour.

Students apply practical skills in the areas of evaluation, diagnosis, care, and referral of upper-extremity orthopedic injuries. Course content includes evaluation skills and clinical decision-making that allows for the development of clinical diagnoses procedures including the assessment of various musculoskeletal conditions, the selection of appropriate referral strategies, and the development of plans of care for upper-extremity injuries and conditions. Co-requisite: ATTR 5312.

Prerequisite: ATTR 5310, ATTR 5311, and ATTR 5111.

ATTR 5115. Non-Orthopedic Pathologies Lab. 1 Hour.

Students apply practical skills and techniques required to assess, manage, and refer non-orthopedic pathologies that occur in active populations. Course content includes evaluation skills and clinical decision-making that allow for the development of clinical diagnoses procedures including the assessment of various non-orthopedic conditions, the selection of appropriate referral strategies, and the development of plans of care for the conditions that may occur in the cardiovascular, respiratory, endocrine, gastrointestinal, genitourinary, integumentary, and reproductive body systems. Co-requisite: ATTR 5315.

Prerequisite: ATTR 5300, ATTR 5310, and ATTR 5320.

ATTR 5121. Prehospital Emergency Medicine and Acute Care Lab. 1 Hour.

Students perform the skills necessary to function as both an EMT-Basic and a Certified Athletic Trainer (ATC). Students practice skills to provide care and transport for critical and emergent patients as part of an emergency medical team. Students will use specific systems that both EMTs and Athletic Trainers employ in the field. Upon completion of this course, students will be eligible to sit for the National Registry Certification for Emergency Medical Technician – Basic (NREMT-B).

Prerequisite: Graduate Standing.

ATTR 5130. Therapeutic Intervention I Lab. 1 Hour.

Students apply practical skills in the application of skills in the areas of therapeutic exercise and therapeutic medications used to treat impairments due to injury or illness. This laboratory includes instruction, practice, and evaluation of clinical skills related therapeutic interventions in the treatment of pain and deficiencies in movement, strength, endurance, speed, neuromuscular control, coordination, agility, cardiorespiratory fitness, and activity specific skills. Co-requisite: ATTR 5330.

ATTR 5131. Therapeutic Intervention II Lab. 1 Hour.

Students apply practical skills in the areas of therapeutic modalities and manual therapies used to treat impairments due to injury or illness. Students demonstrate skills related to cryotherapy, thermotherapy, electrical stimulations, ultrasound, diathermy, light therapy, low level laser, traction, intermittent compression, and manual therapies.. Co-requisite: ATTR 5331.

ATTR 5140. Clinical Experiences in Athletic Training IV. 1 Hour.

Students demonstrate skill proficiency in practice settings under the supervision and guidance of a clinical preceptor. Clinical skills practiced and evaluated in the course include injury prevention and protective strategies, care and management of acute injuries and emergency situations, assessment of lower and upper extremity pathologies, assessment of head, face, spine and pelvis injuries, and integration of therapeutic interventions. This course prepares students for the level-two designation to enable them to practice skills in real-patient contexts. The clinical placement of students must be coordinated and approved by the Athletic Training Coordinator of Clinical Education. This course requires a minimum of 200 clinical education hours. Students cannot progress to the subsequent level in the Master of Science in Athletic Training Program until all course program retention requirements are met. Course Equivalents: ATTR 5240

Prerequisite: Admission to the Athletic Training Program, ATTR 5450, ATTR 5314, KINE 5374, and HLTH 5378.

ATTR 5210. Clinical Experiences in Athletic Training I. 2 Hours.

Students demonstrate skill proficiency in a practice setting under the supervision and guidance of a clinical preceptor. Clinical skills practiced and evaluated in the course include injury prevention and protective strategies, care and management of acute injuries and emergency situations, and assessment of lower extremity pathologies. This course prepares students for the level-one designation to enable them to practice skills in real-patient contexts. The clinical placement of students must be coordinated and approved by the Athletic Training Coordinator of Clinical Education. This course requires 200 clinical education hours. Students cannot progress to the subsequent level in the Master of Science in Athletic Training Program until all course program retention requirements are met.

Prerequisite: Admission to the Athletic Training Program, ATTR 5300, ATTR 5310, ATTR 5320.

ATTR 5220. Clinical Experiences in Athletic Training II. 2 Hours.

Students demonstrate skill proficiency in practice settings under the supervision and guidance of a clinical preceptor. Clinical skills practiced and evaluated in the course include injury prevention and protective strategies, care and management of acute injuries and emergency situations, assessment of lower and upper extremity pathologies, and integration of therapeutic modalities and medications. This course prepares students for the level-one designation to enable them to practice skills in real-patient contexts. The clinical placement of students must be coordinated and approved by the Athletic Training Coordinator of Clinical Education. This course requires a minimum of 200 clinical education hours. Students cannot progress to the subsequent level in the Master of Science in Athletic Training Program until all course program retention requirements are met.

Prerequisite: Admission to the Athletic Training Program, ATTR 5210, ATTR 5311, ATTR 5111, ATTR 5330, and ATTR 5130.

ATTR 5230. Clinical Experiences in Athletic Training III. 2 Hours.

Students demonstrate skill proficiency in practice settings under the supervision and guidance of a clinical preceptor. Clinical skills practiced and evaluated in the course include injury prevention and protective strategies, care and management of acute injuries and emergency situations, assessment of lower and upper extremity pathologies, assessment of head and face injuries, and integration of therapeutic interventions. This course prepares students for the level-two designation to enable them to practice skills in real-patient contexts. The clinical placement of students must be coordinated and approved by the Athletic Training Clinical Education Coordinator prior to beginning the required 250 hours of the clinical experience.

Prerequisite: Admission to the Athletic Training Program, ATTR 5220, ATTR 5331, ATTR 5131, and ATTR 5131.

ATTR 5300. Injury Prevention and Protective Strategies. 3 Hours.

Students examine athletic training through a public health lens and explore injury prevention and protection through data collection and implementation of evidence-based strategies. Course content includes strategies used in athletic training such as the application of protective equipment, taping, bracing, splinting, and casting.

ATTR 5310. Clinical Evaluation and Assessment Fundamentals. 3 Hours.

Students learn skills required for the effective palpation of anatomical structures, assessment of range of motion and strength, neurological screens, and functional assessment screens including qualitative postural and gait analysis. The skills, techniques, and processes taught in the course prepare students for successful completion of clinical examinations.

ATTR 5311. Lower Extremity Injuries. 3 Hours.

Students learn the skills and techniques required to conduct a patient evaluation, develop a clinical diagnosis, refer the patient to appropriate health care providers, and design a plan of care for patients with common lower-extremity injuries and conditions. Co-requisite: ATTR 5111.

Prerequisite: ATTR 5310.

ATTR 5312. Upper Extremity Injuries. 3 Hours.

Students participate in a comprehensive overview of common musculoskeletal injuries and conditions related to the anatomical upper-extremity including the shoulder, elbow, wrist, hand, and fingers. Course content includes the proper evaluative procedures and assessments of various pathologies, the development of clinical diagnoses, the appropriate referral of patients, and the formation of plans of care for common upper-extremity injuries and conditions. Co-requisite: ATTR 5112.

Prerequisite: ATTR 5310, ATTR 5311, and ATTR 5111.

ATTR 5313. Head and Facial Injuries in Sport. 3 Hours.

Students examine head and facial injuries and related pathologies experienced in sport and exercise contexts. Course content focuses on the impact of guiding laws, rules, and current scientific evidence that influence the assessment, care, and return to activity decisions for patients.

Prerequisite: ATTR 5300, ATTR 5310, and ATTR 5320.

ATTR 5314. Spine and Pelvis Injuries. 3 Hours.

Students develop the skills and techniques required to assess and manage injuries to the spine, thorax, abdomen, and pelvis. Students perform patient evaluations and interventions to care for the spine and pelvic injuries most often associated with athletic injuries.

Prerequisite: ATTR 5310, ATTR 5311, ATTR 5111, ATTR 5312, ATTR 5112, and ATTR 5313.

ATTR 5315. Non-Orthopedic Pathologies in Sport and Exercise. 3 Hours.

Students examine the practical skills and techniques required to conduct an evaluation of the condition, develop a clinical diagnosis, appropriately refer, and develop a plan of care for non-orthopedic conditions experienced in active populations. Course content includes the following body systems: cardiovascular, respiratory, endocrine, gastrointestinal, genitourinary, integumentary, and reproductive. Co-requisite: ATTR 5115.

Prerequisite: ATTR 5300, ATTR 5310, and ATTR 5320.

ATTR 5320. Acute and Emergency Care in Athletic Training. 3 Hours.

Students learn the practical skills and techniques required to provide immediate care and appropriately manage acute and emergency conditions. Course content focuses on acute and emergency conditions that arise in sport and exercise contexts.

ATTR 5321. Prehospital Emergency Medicine and Acute Care. 3 Hours.

Students didactically acquire knowledge and skills necessary to cognitively understand emergency situations and care for and transport critical and non-critical patients as part of an emergency medical team. Students learn how to apply care for emergency conditions such as severe bleeding, multi-systems trauma, heat- and cold-related illnesses, allergic reactions, musculoskeletal injuries, cardiorespiratory emergencies, as well as a variety of conditions that may lead to sudden death. Upon completion of this course, students will be eligible to sit for the National Registry Certification for Emergency Medical Technician – Basic (NREMT-B).

Prerequisite: Graduate Standing.

ATTR 5330. Therapeutic Interventions I. 3 Hours.

This course includes the study of fundamental principles of therapeutic exercise, contemporary strength training and conditioning, along with pharmacological principles. Students acquire techniques and timing protocols associated with therapeutic interventions and are prepared to effectively implement, progress, and regress therapeutic exercises, during the patient healing and recovery phases, for pathologies that typically occur in active populations. Co-requisite: ATTR 5130.

ATTR 5331. Therapeutic Interventions II. 3 Hours.

Examines theories, principles, and clinical application of therapeutic modalities and manual therapies that are commonly utilized to treat pathologies in an active population. Students are prepared with the skills and theoretical knowledge required to determine appropriate interventions based on phases of healing, indications, contraindications, and precautions. A patient-centered approach is utilized to determine appropriate care plans. Co-requisite: ATTR 5131.

ATTR 5340. Administration in Athletic Training. 3 Hours.

Students investigate the organizational, professional, and management skills required to work in the athletic training profession. Course content includes risk management, budgeting, policy development, facility design, electronic medical records, medical billing, and management strategies.

Prerequisite: ATTR 5300, ATTR 5320, HLTH 5371, and HLTH 5378.

ATTR 5450. Immersive Clinical Experiences in Athletic Training. 4 Hours.

Students demonstrate skill proficiency in a practice setting under the supervision and guidance of a clinical preceptor. The practice-intensive clinical experience allows students to experience the totality of patient care provided by practicing Athletic Trainers. The clinical placement of students must be coordinated and approved by the Athletic Training Coordinator of Clinical Education. This course requires a minimum of 300 clinical education hours. Students cannot progress to the subsequent level in the Master of Science in Athletic Training Program until all course program retention requirements are met. Course Equivalents: ATTR 5350

Prerequisite: Admission to the Athletic Training Program, ATTR 5210, ATTR 5220, and ATTR 5230.

Bassoon (BSSN)

BSSN 5201. Individual Performances-Bassoon. 2 Hours.

The course consists of advanced individualized instruction on the bassoon. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students. Credit 2

Prerequisite: Admission to the Master of Music program.

Bilingual/Eng as Sec lang (BESL)

BESL 5302. Social and Cultural Language Influences On Learning. 3 Hours.

This course is an integration of concepts fundamental to meeting the needs of students with diverse backgrounds. This course looks at language in its social and cultural contexts. It provides strategies to address the needs of second language learners from varied linguistic backgrounds. It examines sociocultural factors in the language classroom, interpersonal relations, concepts, models, and strategies for pluralistic teaching.

BESL 5303. Teaching ESL: Oral and Written Language. 3 Hours.

This course emphasizes the nature of language; the structure of language, the nature of first and second language acquisition; possible areas of interference; student motivation; trends in effective teaching materials and procedures; observation, testing and evaluation techniques; and the significance of culture.

BESL 5304. Second Language Acquisition and Development. 3 Hours.

This course examines theories of second language acquisition as well as relationship between second language acquisition theory and language teaching. It compares and contrasts different theoretical perspectives of language, the learner, and the language learning process. It explores current research in the field of second language acquisition.

BESL 5311. Applied Linguistics in ESL/EFL Settings. 3 Hours.

This course examines the language subsystems of phonology, morphology, syntax, lexicon and pragmatics from a framework of ESL/EFL language teaching. It emphasizes fundamental language concepts and conventions of the English language and how these are viewed by second language learners.

BESL 5312. Second Language Literacy. 3 Hours.

This course focuses on literacy development from the perspective of the second language learner. It examines on theories related to second language reading and research on the relationship between first and second language literacy. The social contexts of second language reading and instructional practices for second language literacy are analyzed. Course Equivalents: READ 5312 .

BESL 5313. English as a Second/Foreign Language (ESL/EFL) Methodology. 3 Hours.

This course is an in-depth study of various approaches, methods and techniques used in the teaching of language components and language skills (reading, writing, listening and speaking) in English as a Second/Foreign Language (ESL/EFL) settings. The course provides practice in developing and implementing effective language lessons along with evaluating and selecting appropriate ESL/EFL teaching materials.

BESL 5314. Second Language Acquisition for Bilingual Diagnosticians. 3 Hours.

Students examine theories of second language acquisition as well as the relationship between second language acquisition theory and language teaching. They compare and contrast different theoretical perspectives of language, the learner, and the language learning process. They explore current research in the field of second language acquisition as it relates to individuals with special needs. English and Spanish are the languages of instruction.

BESL 5316. Computer Assisted Language Learning in English as a Second Language/English as a Foreign Language. 3 Hours.

This course is an in-depth study of the theoretical, empirical, and pedagogical issues regarding Computer Assisted Language Learning (CALL). Students will synthesize the research base in CALL, as well as analyze and develop practical applications for use in the teaching of language components (grammar, vocabulary, pronunciation) and language skills (reading, writing, listening and speaking) in English as a Second/Foreign Language (ESL/EFL) settings.

BESL 5317. Second Language Assessment. 3 Hours.

In this course, students will analyze the major concepts involved in second language assessment. Research-based methods will be used to design assessment systems to evaluate their students' learning. Students will develop conceptual linkages between assessment and teaching, analyze proficiency level assessments and apply formative assessments to improve learning outcomes.

BESL 5318. Sheltered Instruction in Prekindergarten-12. 3 Hours.

Students develop theoretical and practical knowledge of sheltered instruction methodologies and research-based practices for working with linguistically and culturally diverse students in PK-12 content area classes.

BESL 6088. Special Topics International Literacy. 1-3 Hours.

The topic(s) included will vary with academic program and semester offered. Course Equivalents: BESL 6320 .

BESL 6089. Independent Study in TESOL. 1-3 Hours.

This is a course designed for independent study of selected topics under the supervision of a faculty member. Variable Credit (1-3).

Prerequisite: Consent of Department Chair.

BESL 6301. Multilingual Program Development in Content Areas. 3 Hours.

This course is designed to address basic teaching principles in the areas of science, mathematics, and social studies; the organization and structure of bilingual programs; guidelines for language usage; staffing, scheduling, and physical organization; and learning styles, teaching strategies and use of auxiliary personnel specific to the bilingual classroom.

BESL 6311. English for Specific Purposes. 3 Hours.

This course addresses fundamental aspects related to theory, research and practice in English for Specific Purposes (ESP), including English for Academic Purposes (EAP). It explores a learner-centered approach to ESP/EAP, and practical applications of the course design in the form of syllabi, materials, methodology and assessment for particular ESP professional needs.

BESL 6315. Action Research in Second Language Learning. 3 Hours.

This course engages graduate students in action research, a form of self-reflective systematic inquiry on their own practice with second language learners. Topics include discussion of ethical guidelines, data collection techniques, and action planning. Finally, students use their reflective practices and serve as change agents in educational communities.

Prerequisite: Departmental approval.

BESL 6320. Workshop In Education: Multilingual Education. 3 Hours.

The topic(s) included will vary with academic program and semester offered. Course Equivalents: BESL 6088 .

BESL 6325. Teaching Second Language Writing. 3 Hours.

In this course students will participate in an in-depth study of approaches, methods, and strategies used in the teaching of writing to English language learners. Students synthesize the research base, develop genre-based instruction, and implement strategies for second language writing.

BESL 6335. English as a Second/Foreign Language (ESL/EFL) Practicum. 3 Hours.

Students participate in an in-depth study of English as a Second/Foreign Language (ESL/EFL) instructional methods. Students observe, prepare, and present lessons in ESL/EFL under the guidance of the practicum instructor. (45 hours of field experience in authentic settings required.)

Prerequisite: BESL 5313.

BESL 6336. Teaching ESL and STEM to English Learners. 3 Hours.

Students examine critical issues and explore topics in the area of STEM education for learners of English as a Second Language (ESL). Students analyze the nature of STEM-based texts from an applied linguistic perspective. Students investigate the theoretical and methodological foundation of the critical pedagogical and research-based approaches used to teach ESL and STEM content areas to English Learners (ELs) using developmentally appropriate and culturally responsive pedagogy. Students develop knowledge and skills to engage ELs in STEM content while developing ELs' listening, speaking, reading, and writing skills in both ESL and native language.

Prerequisite: Graduate Standing.

Biology (BIOL)

BIOL 5095. Independent Graduate Study in Biology. 4 Hours.

This course is designed to provide an avenue for selected graduate students to engage in independent studies. Registration is on an individual basis but is limited to students in residence. A topic of study is selected and approved by the Biology faculty. Variable Credit (1-3).

Prerequisite: Graduate standing in Biology and consent of department chair.

BIOL 5300. Professional Aspects of Scientists. 3 Hours.

This is an essential course on scientific professionalism for the beginning M.S. student. Students are provided with an introduction to the professional and ethical responsibilities of scientists. Students discuss philosophical and controversial issues in academia and science, as well as political issues that may influence the process and practice of science. Most importantly, this course encourages and helps students to develop skills needed for presenting their research to fellow scientists through the processes of publishing, giving conference presentations, writing grant proposals, and becoming active in the scientific community. Required of all graduate students in Biology. Course Equivalents: BIOL 5200

Prerequisite: Graduate standing.

BIOL 5301. Seminar in Biology Research I. 3 Hours.

Students examine research strategies used by professional biologists, including experimental design and interpretation of results. Additionally, students develop skills in reviewing and analyzing relevant scientific literature as part of their preparation for planning, executing, and completing an original research project.

BIOL 5302. Seminar in Biology Research II. 3 Hours.

Students will develop skills in hypothesis development, research design, and scientific communication through the production of a research prospectus. This is done in preparation for planning, executing and completing an original research project.

Prerequisite: BIOL 5301.

BIOL 5305. Medical/Criminal Entomology. 3 Hours.

Students discuss the methods and materials necessary for use of insects as forensic evidence in legal investigation. Laboratory included.

Prerequisite: Introductory entomology and graduate standing.

BIOL 5310. Classical and Natural History of Plants. 3 Hours.

Students are presented the classification and natural history of major groups of nonvascular and vascular plants. Emphasis is placed on morphological recognition, ecological and physiological differences and economic importance of major taxa. Laboratory included.

Prerequisite: Introductory botany course and graduate standing.

BIOL 5320. Statistical Design in Biology. 3 Hours.

Students engage in a survey of various experimental designs and associated statistical analyses common in biology. Using primarily the general linear model, students explore in detail appropriate designs for the following statistical applications: independent t-test, Analysis of Variance, block, multivariate, paired t-test, repeated measures, correlation, regression, Analysis of Covariance, ordination, clustering, randomization, and goodness of fit. The class consists of lecture, practical exercises in analyzing data (using SAS, SPSS, or another comparable analytical program), and class discussion of experimental designs published in the primary literature. This course is meant to be a follow-up to Biostatistics (BIOL4374) in that the basic statistical theory are not presented. Rather, this course focuses on the practical use of experimental design for analyzing and interpretation data. Grading in this class is based on exams and individual practical exercises.

Prerequisite: BIOL 4374 (or equivalent), or permission of instructor.

BIOL 5330. Model Organisms. 3 Hours.

Students investigate the ways in which model organisms are employed and used in modern biological research. Primary topics may include genetics, genomics, physiology, and development of model organisms. Experimental design and application of animal models in research are also studied.

BIOL 5350. Plant Evolutionary Biology. 3 Hours.

The developmental program of many plants is sufficiently plastic to allow a suite of evolutionary scenarios not encountered in other major lineages. Mechanisms such as hybridization, polyploidy, somaclonal variation, chromosomal rearrangement, and the evolution of diverse and unique breeding systems have allowed plants to thrive in every terrestrial biome. Additionally, many of these mechanisms allow for rapid evolution that can be documented over the span of a few generations. Students study the myriad ways in which plants have diversified from their endosymbiotic ancestors as well as the hallmarks of evolution that characterize major plant lineages.

Prerequisite: Graduate standing in the Department of Biological Sciences and an introductory course in botany.

BIOL 5360. Principles Of Systematics. 3 Hours.

Systematics is the study of biological diversity, encompassing the evolutionary origins of this diversity and the construction of classification systems that recognize evolutionary lineages. Students study the history and philosophy of classification as a whole, from the development of nomenclature to modern techniques of molecular phylogenetics. Topics may include species concepts, nomenclature, interpreting and inferring phylogenies from many kinds of data, the use of DNA databases, DNA barcoding and alternatives to the Linnaean system of nomenclature.

Prerequisite: Graduate standing and an introductory course in statistics.

BIOL 5361. Evolutionary Biology. 3 Hours.

Evolution is the core theory of modern biology. Students investigate the major principles of evolutionary biology, from the history of evolutionary thought through theory and current concepts of evolution. Emphasis will be placed on molecular and cellular evolution, mechanisms of evolution including natural selection, gene flow, founder effect, and speciation. Note: Students who have taken BIOL 4361 may not take BIOL 5361.

Prerequisite: Graduate Standing.

BIOL 5363. Genomics and Bioinformatics. 3 Hours.

Students analyze advances in genomics and bioinformatics and apply computational and bioinformatic approaches to understand the genome structure, function, and evolution. Topics may include DNA sequencing, sequence assembly, gene and protein sequence alignments, whole genome comparison, annotation of DNA sequences, promoter analysis, transcriptomics, proteomics, and phylogenetic analysis. Note: Students who have taken BIOL 4363 may not take BIOL 5363.

Prerequisite: Graduate Standing.

BIOL 5364. Cell Structure And Physiology. 3 Hours.

Students study of signal transduction pathways in the cell, with emphasis on those relevant to human physiology and disease.

Prerequisite: Cell Biology and Organic Chemistry.

BIOL 5365. Genetic Analysis of Human Disease. 3 Hours.

Students analyze the transmission and molecular basis of human genetic traits and genetic diseases. Various simple and complex genetic disorders are examined using pedigree, molecular, and biochemical analyses. Novel approaches to the diagnosis and treatment of human genetic disorders are discussed. Topics such as the ethical, legal, social issues and concerns of genetic testing and discrimination, germ line therapy, genetic enhancement, and human cloning are examined. Note: Students who have taken BIOL 4360 may not take BIOL 5365.

Prerequisite: Graduate Standing.

BIOL 5368. Advanced Invertebrate Zoology. 3 Hours.

Invertebrates are the dominant form of life on earth, comprising greater than 75% of all described species. Students are briefly introduced to the phylum/class level characteristics of the major groups of invertebrate animals. The majority of the course deals with the evolutionary history and phylogeny of invertebrates, invertebrate ecology, and the myriad solutions invertebrates have evolved to deal with the common problems of reproduction, feeding, osmoregulation, respiration, locomotion and developmental patterns.

Prerequisite: 12 hours advanced biology, invertebrate zoology recommended.

BIOL 5371. Advanced Evolution. 3 Hours.

Students examine the modern concepts of the evolution of organisms. Extended reading and classroom discussion supplement the lecture treatment. Three one-hour lectures a week are scheduled.

Prerequisite: Introductory genetics.

BIOL 5374. Biostatistics. 3 Hours.

Students apply statistical methods to biological problems. Topics may include descriptive statistics, probability distributions, estimation, hypothesis testing, correlation and regression, and analysis of variance. Note: Students who have taken BIOL 4374 may not take BIOL 5374.

Prerequisite: Graduate Standing.

BIOL 5375. Bacterial Physiology. 3 Hours.

Students study bacterial metabolism that includes fermentation, anaerobic respiration, bacterial photosynthesis and nitrogen fixation. Students also discuss how bacteria sense their environment and adjust their metabolism accordingly. Three hours of lecture per week.

Prerequisite: Microbiology, Genetics, and Organic Chemistry II or General Physiology.

BIOL 5378. Virology. 3 Hours.

Students study viruses that infect plants, animals, and bacteria. Areas considered may include chemical and structural properties of viruses, virus-host relations, and infection and growth phenomena, including interference and regulation. In addition, the roles of viruses are included as agents of disease and malignancy, and as gene vectors in natural settings, but also as tools in biotechnology and gene therapy. Three hours of lecture per week.

Prerequisite: Microbiology, Genetics, and Organic Chemistry.

BIOL 5380. Advanced Ecology. 3 Hours.

Students engage in an advanced theoretical and practical study of biotic and abiotic ecosystem interactions encompassing the physiology of individuals, growth of populations, including social and species interactions within populations, analysis of population composition and change, the distribution of communities, and the functioning of ecosystems.

Prerequisite: General Chemistry I and II, General Ecology.

BIOL 5381. Ecological Computer Modeling. 3 Hours.

Students are provided an introduction to the development and application of computer models in ecology and population biology. Principles of modeling, programming concepts, specific model dynamics, and prepackaged computer models are explored. Two hours of lecture and two hours of laboratory per week.

Prerequisite: General Ecology.

BIOL 5382. Ichthyology. 3 Hours.

Students are introduced to general concepts in biology, taxonomy, systematics, evolution, zoogeography and ecology of fishes. Students learn the characteristics and identifying features for most of the dominant fish families on Earth. Moreover, students leave with a working knowledge on the taxonomy and nomenclature of the marine and freshwater fishes of Texas as well as the skills necessary to identify fishes from across the globe. This class includes a 2-hour weekly laboratory and field work.

Prerequisite: Introductory biology plus 12 hours advanced biology.

BIOL 5383. Herpetology. 3 Hours.

Students are introduced to the biology of amphibians and reptiles and one of the most important evolutionary events in natural history: the rise and diversification of terrestrial vertebrates. A comprehensive introduction addresses the taxonomy, systematics, evolution, anatomy, physiology, ecology, distribution, and natural history of these unique vertebrates. Upon completion of this course, students understand and appreciate why amphibians and reptiles serve as excellent biological models in research, and are familiar with the major research questions and programs in herpetology. A laboratory and field component introduce students to a variety of sampling and collecting techniques. Common museum practices for specimen preservation and documentation are also addressed. Although regional species receive the most emphasis, this course addresses the biology of all amphibians and reptiles. Two-hour laboratory plus field work.

Prerequisite: Introductory biology plus 12 hours advanced biology.

BIOL 5384. Ornithology. 3 Hours.

Students study the classification evolution, anatomy, physiology, ecology, behavior and conservation of birds. Laboratories may include general anatomy, taxonomy, identification and field techniques used in the study of behavior and migration. Laboratories may include independent research projects related to topics discussed in this course. Two-hour laboratory plus field work.

Prerequisite: Introductory biology plus 12 hours advanced biology.

BIOL 5385. Mammalogy. 3 Hours.

Students study the taxonomy, systematics, anatomy, ecology, distribution, and life history of mammals. Laboratories may include general taxonomy, identification, and field techniques. Two-hour laboratory plus field work.

Prerequisite: Introductory biology plus 12 hours advanced biology.

BIOL 5390. Limnology. 3 Hours.

Students examine physical, chemical, and biological characteristics of freshwater stream and lake ecosystems. Limnological techniques are stressed with special emphasis on physiochemical conditions of freshwater environments and their effects on aquatic life. Plankton analysis, a study of bottom fauna, lake and stream mapping and evaluation of aquatic productivity are included. Two-hour laboratory plus field work.

Prerequisite: 8 hours college chemistry plus 12 hours advanced biology.

BIOL 5391. Advanced Genetics. 3 Hours.

Students engage in an advanced study of the principles of heredity and the nature and function of genes.

Prerequisite: Introductory genetics with grade of C or better and organic chemistry.

BIOL 5394. Special Topics In Graduate Biology. 3 Hours.

This course of Graduate Faculty-led study is designed to provide exposure of graduate students to new biological topics and concepts in a course setting, prior to that course's formal Department, College, and University course adoption. This course may be repeated for different Advanced Special Topics (different courses).

Prerequisite: Graduate standing in the Department of Biological Sciences or consent of the instructor.

BIOL 5410. General Entomology. 4 Hours.

Students examine insect morphology, taxonomy, development, and life histories. Collection techniques and the use of keys to identify insects are stressed. Note: Students who have taken BIOL 4410 may not take BIOL 5410. Graduate Standing.

Prerequisite: Graduate Standing.

BIOL 5480. Comparative Animal Physiology. 4 Hours.

Students study of the physiological adaptive mechanisms and the comparison of adaptive strategies across vertebrate taxa. Emphasis is directed toward homeostatic mechanisms of water, energy and electrolyte balance, and metabolism. A two-hour laboratory to emphasize investigative skills employing modern laboratory techniques is included. Independent original research project required.

Prerequisite: Organic chemistry, general physiology, or instructor's consent.

BIOL 6099. Thesis. 1-3 Hours.

Students complete and successfully defend their Thesis. Variable credit (1-3.) Course Equivalents: BIOL 6399 .

BIOL 6398. Thesis. 3 Hours.

Students complete and successfully defend their Thesis.

Business Administration (BUAD)

BUAD 5080. Independent Study. 1-3 Hours.

This course is designed for the directed study of individual students who wish for intensive supervision in some vital aspect of Business Administration. Variable Credit (1 to 3). . Course Equivalents: BUAD 5380

Prerequisite: BUAD 5310 and Approval of Department Chair and Graduate Coordinator.

BUAD 5085. Special Topic. 1-3 Hours.

This course of faculty-led study is designed to provide graduate students exposure to new General Business topics and concepts in a course setting. Variable Credit (1 to 3).

BUAD 5310. Managerial Communication. 3 Hours.

This course is designed to expand students' understanding of management and corporate communications and enhance managerial writing and speaking skills. Research projects and case studies prepare students to conduct business research and to report results.

BUAD 5348. Entrepreneurship: Theory and Practice. 3 Hours.

Students engage in an intensive examination of the theories of entrepreneurship, innovation, and intellectual entrepreneurship. Students research the major steps of starting a business, including developing their own Personal Entrepreneurship Plan. An emphasis is placed on converting intellectual capital into financial capital. Topics for extensive research may include self-assessment, opportunity screening, developing a marketing system, growth strategies, and financial strategies.

BUAD 5355. Managerial Law. 3 Hours.

Students are prepared, as managers, to be cognizant of the legal implications of their decisions regardless of their specific area of responsibility with a focus on researching legal issues and developing strategies from the standpoint of management - from supervisory level to Board of Directors. Emphasis is placed on research strategies that executives can use to generate pragmatic legal strategies to minimize legal expenses and legal liabilities. The research strategies are oriented toward sources that can quickly be analyzed and implemented rather than traditional legal research for law firms. Assignments result in real world business research memos.

Business Analysis (BANA)

BANA 5080. Independent Study. 1-3 Hours.

A directed study for individual students who wish intensive work in a special topic area of business analysis. Variable credit (1-3). Course Equivalents: BANA 5380

Prerequisite: Approval of Department Chair and Graduate Coordinator.

BANA 5300. Quantitative Tools For Business. 3 Hours.

An introduction to a variety of quantitative tools used in the business sector. Emphasis is placed on statistical analyses and operations. In this course, students learn descriptive statistics, normal distribution theory, central limit theorem, estimation, hypothesis testing, and may also include linear programming, and forecasting. This course does not apply to the 36-hour graduate credit hour requirement of the MBA degree program.

BANA 5368. Techniques Of Statistical Analysis. 3 Hours.

An integration of the concepts and application of statistical and quantitative techniques currently used in business decision making. Readings in the current literature related to statistical inference, ANOVA, correlation, simple linear regression, multiple regression, questionnaire construction and analysis will be covered.

Career and Technology (CATM)

CATM 5364. Advanced Problems in Career & Technology Education. 3 Hours.

Designed to provide graduate students with the opportunity to gain specialized work-based experiences focused on solving problems in career and technology education.

Chemistry (CHEM)

CHEM 5001. Independent Study in Chemistry. 1-3 Hours.

This course is intended to provide an avenue for selected graduate students to engage in independent studies. Registration is on an individual basis and is restricted to students in residence. Variable Credit (1-3).

Prerequisite: Approval of department chair.

CHEM 5100. Chemical Literature & Seminar. 1 Hour.

Students will participate in the departmental seminar program. This participation will require the preparation and presentation of current research material in a format acceptable to the American Chemical Society.

CHEM 5361. Physical Organic Chemistry. 3 Hours.

This course consists of a study of the effect of structure upon reactivity of organic compounds. The qualitative and quantitative relationship of structure to acidity and basicity in organic chemistry is developed. In addition, reactive intermediates (carbocations, carbanions and free radicals) are studied.

Prerequisite: CHEM 2325, CHEM 2125.

CHEM 5362. Organic Reaction Mechanisms. 3 Hours.

Current models for mechanisms of organic reactions are discussed and applied. The mechanisms and applications of synthetically important reactions are also surveyed. Literature searching for less often utilized but historically important transformations are integral to the course. The methods of determining reaction mechanisms are surveyed along with applications to individual reactions.

Prerequisite: CHEM 2325, CHEM 2125.

CHEM 5367. Chemical Nano Sensing. 3 Hours.

Students learn to set up a conceptual and empirical framework for designing, validating, and using calibrated measurements of chemical abundance within the context of chemical nano sensing. Students employ this framework to examine instruments used to study, and sensors designed to make advantageous use of, nanoscale phenomena in diverse chemical sensing settings.

CHEM 5368. Analytical Spectroscopy. 3 Hours.

Theory and application of selected areas of spectroscopy commonly used in qualitative and quantitative analysis are covered. Topics include atomic and molecular spectroscopy, mass spectrometry, laser analytical methods, fluorescence, phosphorescence, and chemiluminescence and their application to environmental, atmospheric, and bioanalytical problems.

Prerequisite: CHEM 4440.

CHEM 5372. Advanced Biochemistry I. 3 Hours.

The chemical structure and the biological functions and controls of proteins are reviewed. Proteins to be considered include enzymes, transport proteins and structural proteins. Protein biosynthesis and recombinant DNA technology are also discussed.

CHEM 5373. Drug and Toxin Biochemistry. 3 Hours.

Students examines biotransformations of drugs/toxins, mechanisms of drug interactions with biological systems, and selective toxicity. Students gain insight into the design of therapeutic agents and the destruction of harmful toxins/bacterial invaders in living systems. Attention is also given to how molecular structure is related to solubility and permeability and how to design systems for drug delivery within the human body.

CHEM 5374. Chemistry of Coordination Compounds. 3 Hours.

The chemistry of compounds containing metal ions is discussed. Emphasis is placed on the complexes of transition metals. The electronic configurations of these ions in various bonding environments are considered in interpreting their chemical and physical properties.

Prerequisite: CHEM 4367 and CHEM 4448.

CHEM 5375. Organometallic Chemistry. 3 Hours.

Students examine organometallic chemistry through a detailed presentation of structure and bonding. In addition, students focus on these principles with in-depth discussions of organometallic reaction mechanisms, advances in catalysis, carbene complexes, metathesis reactions, application to organic synthesis, and cluster compounds.

Prerequisite: CHEM 4367.

CHEM 5381. Advanced Physical and Chemical Thermodynamics. 3 Hours.

Principles are stressed including the three laws of thermodynamics, thermochemistry and statistical thermodynamics. Applications of the principles to gases, solution, mixtures, solids and interfaces are given.

Prerequisite: CHEM 4448.

CHEM 5382. Symmetry and Spectroscopy. 3 Hours.

Quantum theory and symmetry are studied in detail and applied to the interpretation and prediction of spectroscopic data. Infrared, Raman, and electronic spectroscopic methods are examined in depth.

Prerequisite: CHEM 4448 or departmental approval.

CHEM 5385. Selected Topics in Advanced Chemistry. 3 Hours.

This course is adaptable to the needs and interests of the individual graduate student majoring in Chemistry. Modern developments in specific subdivisions of the field of chemistry are considered. It may be repeated for credit, provided the repetition is not in the same subdivisional field. The subdivisional fields offered are: analytical, biochemistry, environmental, inorganic, organic, and physical chemistry.

Prerequisite: Graduate standing in Chemistry.

CHEM 6099. Thesis. 1-3 Hours.

Students complete and successfully defend their Thesis. Variable Credit (1 to 3). Course Equivalents: CHEM 6399.

CHEM 6398. Graduate Research in Chemistry. 3 Hours.

Students carry out research under the direction of a faculty member.

Clarinet (CLAR)

CLAR 5201. Individual Performances - Clarinet. 2 Hours.

The course consists of advanced individualized instruction on the clarinet. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students. Credit 2

Prerequisite: Admission to the Master of Music program.

Clinical (CLIN)

CLIN 7010. Elective Clerkship. 1-4 Hours.

This course is a clinical clerkship providing the student with the opportunity to gain experience in any specialty with approval. Students are required to do one 4-weeks block in their third year and seven 4-week blocks in their fourth year. The clinical clerkships is accomplished at the assigned facility in the third year and an affiliated facility in fourth year. The student is expected to learn the diagnosis and treatment of patients appropriate for the selected specialty, including interprofessional team based care, outpatient care, hospital care, surgical care, post hospital care and office care, as appropriate for the specialty. Credits: (1-4). Course Equivalents: CLIN 7410

Prerequisite: Successful completion of all coursework in years 1 & 2, passing grade on COMLEX Step 1.

CLIN 7201. Wellness for Healthcare Professionals. 2 Hours.

Students examine wellness in relation to Healthcare. This clerkship is accomplished online with weekly video meetings with faculty. The student is expected to learn methods to improve and maintain physical, mental, spiritual, financial, and institutional wellness for themselves, their patients and their teams.

CLIN 7214. Osteopathic Manipulative Medicine Clerkship 2 Week. 2 Hours.

Students gain advanced skills in osteopathic manipulative medicine through application in patient care activities, didactics, and teaching.

CLIN 7271. Clinical Hematology. 2 Hours.

This course is a 2-week elective clerkship providing the student with the opportunity to gain experience in clinical hematology. The clinical experience will emphasize the diagnosis and management of various hematologic disorders. Participating students will have the opportunity to reinforce clinical skills which include completing an accurate patient history and physical exam. They will also gain understanding on the complex decision making required in caring for patients with hematologic disorders.

CLIN 7401. General Surgery Clerkship. 4 Hours.

This clinical clerkship provides the student with the opportunity to gain experience in General Surgery. Students are assigned to a hospital for their 3rd year core rotations, and this clinical clerkship is accomplished at the assigned facility. The student is expected to learn the diagnosis and treatment of surgical patients, including pre-operative evaluation, intra-operative and post-operative care, post hospital care, interprofessional team care and office care. Credits: 4.

Prerequisite: Successful completion of all coursework in years 1 & 2, Passing grade on COMLEX Level 1.

CLIN 7402. Adult Inpatient Medicine Clerkship. 4 Hours.

This clinical clerkship provides the student with the opportunity to gain experience in Adult Inpatient Medicine. Students complete the four week block in each of the third and fourth years and are assigned to a hospital for their third year core rotations, and this course is accomplished at the assigned facility. The student is expected to learn the diagnosis and treatment of adult patients on the inpatient medicine service, including admission criteria, interprofessional team based care, consultations, bedside diagnosis and management, pre-operative evaluation, post-operative medical management, discharge criteria and procedures and post hospital care. Credits: 4.

Prerequisite: Successful completion of all coursework in years 1 & 2, passing grade on COMLEX Level 1.

CLIN 7403. Emergency Medicine Clerkship. 4 Hours.

This clinical clerkship provides the student with the opportunity to gain experience in Emergency Medicine. Students are assigned to a hospital for their 3rd year core rotations, and this clinical clerkship is accomplished at the assigned facility. The student is expected to learn the diagnosis and treatment of pediatrics and adult patients upon presentation to the emergency department including admission, discharge and transfer criteria, interprofessional team based care, consultations, and bedside diagnosis and management to include trauma care and acute cardiac and respiratory care. Credits: 4.

Prerequisite: Successful completion of all coursework in years 1 & 2, passing grade on COMLEX Level 1.

CLIN 7404. Psychiatry Clerkship. 4 Hours.

This clinical clerkship provides the student with the opportunity to gain experience in psychiatry and mental health. Students are assigned to a hospital for their third year core rotations and this clinical clerkship will be accomplished as part of the core rotations, but may or may not be at the assigned facility, depending on services provided. The student is expected to learn the diagnosis and treatment of patients in a behavioral health setting. Credits: 4.

Prerequisite: Successful completion of all coursework in years 1 & 2, passing grade on COMLEX Level 1.

CLIN 7405. Family Medicine Clerkship. 4 Hours.

This clinical clerkship provides the student with the opportunity to gain experience in Family Medicine. Students are assigned to a hospital for their third year core rotations, and this clinical clerkship is accomplished as part of the core rotations, but may occur in the office or hospital setting, or a combination, depending on services provided by the attending physician. The student is expected to learn the diagnosis and treatment of patients in the family medicine office setting and may follow the family physician to the other sites of care based on their practice. Credits: 4.

Prerequisite: Successful completion of all coursework in years 1 & 2, passing grade on COMLEX Level 1.

CLIN 7406. Pediatrics Clerkship. 4 Hours.

This clinical clerkship provides the student with the opportunity to gain experience in the care of children. Students are assigned to a hospital for their third year core rotations, and this clinical clerkship is accomplished as part of the core rotations, but may occur in the office or hospital setting, or a combination, depending on services provided by the attending physician. The student is expected to learn the diagnosis and treatment of children and may follow the physician to the various sites of care based on their practice. Credits: 4.

Prerequisite: Successful completion of all coursework in years 1 & 2, passing grade on COMLEX Level 1.

CLIN 7407. Ob/Gyn Clerkship. 4 Hours.

Students complete a four week block in each of the third and fourth years. It provides the student with the opportunity to gain experience in the care of women. Students are assigned to a hospital for their third year core rotations, and the third year block is accomplished as part of the core rotations and may include office in addition to hospital practice, depending on structure of the rotation and services provided by the attending physician. The fourth year block may address aspects of women's health that do not include obstetrics and/or gynecology. The student is expected to gain experience in prenatal care, labor and delivery, gynecology and breast health, and the unique aspects of the care of women in areas such as cardiovascular health, osteoporosis, and breast cancer. Credits: 4.

Prerequisite: Successful completion of all coursework in years 1 & 2, passing grade on COMLEX Level 1.

CLIN 7408. Rural & Underserved Medicine Clerkship. 4 Hours.

This clinical clerkship provides the student with the opportunity to gain experience in the care of rural and underserved populations in a variety of settings. Students are assigned to a hospital for their third year core rotations, and this clinical clerkship is accomplished outside of the main assigned hospital. Aspects of this rotation may occur in a rural or critical access hospital, a nursing home, a rural clinic or a community health center in a rural or urban setting. The student is expected to experience the social and diagnostic challenges associated with caring for populations with limited access to health services due to geography, insurance status and/or health access as well as the satisfaction of making a difference in health disparities. Credits: 4.

Prerequisite: Successful completion of all coursework in years 1 & 2, passing grade on COMLEX Level 1.

CLIN 7409. Adult Inpatient Med-II. 4 Hours.

This 3rd year clinical clerkship continues the experience from CLIN 7402: Adult Inpatient Med Clerkship-I, where the student gains experience in Adult Inpatient Medicine. Students will be assigned to a hospital and are expected to learn the specifics of diagnosis and treatment of adult patients, including admission criteria, use of consultation services, bedside diagnosis, pre- and post-operative care, discharge criteria, use of medical procedures, and post-hospital care. This 4-week experience requires students to pass an Internal Medicine assessment from the National Board of Osteopathic Medical Examiners to complete the course.

Prerequisite: CLIN 7402.

CLIN 7411. Womens Health and Wellness. 4 Hours.

This course consists of a 4-week block in the fourth year after completion of the CLIN 7407 - Obstetrics and Gynecology Clerkship. Students will be assigned to an inpatient, outpatient, or mixed clinical experience. The 4th year rotation will focus on aspects of women's health that do not include obstetrics or gynecology. Students gain experience in unique aspects of women's health, which may include prenatal care, gynecology, cardiovascular health, osteoporosis, and breast cancer. Credit: 4

Prerequisite: CLIN 7407 - Obstetrics and Gynecology.

CLIN 7414. Medicine Selective Clerkship. 4 Hours.

This clinical clerkship provides the student with the opportunity to select an area of medicine from a selected group of rotations in medicine. This rotation must be completed within the assigned facility in year three and an affiliated facility in year four. The list of choices for this rotation are: General Internal Medicine, Pediatrics, Family Medicine, Geriatrics, Emergency Medicine, Hospitalist Medicine, Intensive Care, Pulmonology, Cardiology, Gastroenterology, Neurology, Adolescent Medicine, Rural Health, Primary Care Sports Medicine, Public Health, Alcohol and Substance abuse, Adult and Child and Adolescent Psychiatry, Neonatology, Pediatric ICU, and subspecialty pediatrics. Credits: 4.

Prerequisite: Successful completion of all coursework in years 1 & 2, Passing grade on COMLEX 1.

CLIN 7415. Surgery Selective Clerkship. 4 Hours.

This course provides the student with experience in subspecialty surgery. Students are required to take a 4 week Surgery Selective in each of their third and fourth years, and this clinical clerkship is accomplished at the assigned facility in the third year and an affiliated facility in the fourth year. The student is expected to learn the diagnosis and treatment of surgical patients appropriate for the selected specialty, including pre-operative evaluation, intra-operative and post operative care, post hospital care and office care, as appropriate. Credits: 4.

Prerequisite: Successful completion of all coursework in years one and two, successful completion of General Surgery rotation, Passing grade on COMLEX Step 1.

CLIN 7416. Osteopathic Manipulative Medicine Clerkship 4 Week. 4 Hours.

Students gain advanced skills in osteopathic manipulative medicine through application in patient care activities, didactics, teaching, and research.

CLIN 7451. Academic Medicine. 4 Hours.

This course is an elective clerkship providing the student with the opportunity to gain experience in Academic Medicine. This is a 4-week rotation. This clerkship is accomplished at SHSU-COM or online. The student is expected to analyze and practice the fundamentals of academic medicine as outlined in the syllabus.

CLIN 7452. Leadership in Medicine. 4 Hours.

Students will gain experience in leadership in medicine. Students will analyze leadership theory and practice leadership skills specific to medicine, medical education, and public health. The course will end with the students outlining their personal and professional missions and creating a plan to develop leadership skills throughout their careers.

CLIN 7453. Introduction to Spanish for Medical Students. 4 Hours.

This course is a 4-week elective providing the student with the opportunity to gain experience in Spanish for Medical Professionals. This elective is offered online. Students apply medical terms, Spanish language foundations, and gain Hispanic cultural knowledge. This rotation integrates medical topics with general Spanish language and uses research validated pedagogy to facilitate learning.

CLIN 7457. Online Radiology. 4 Hours.

This independent study elective utilizes a significant amount of online module learning to help students develop a basic understanding of the principles and applications of medical imaging. The course focuses on a patient-centered approach to imaging and helps students build clinical problem-solving skills by utilizing the American College of Radiology Appropriateness criteria.

CLIN 7460. Research in Medicine. 4 Hours.

This course is a 4-week elective block providing the student with the opportunity to enhance research knowledge in their chosen area of study. This elective is accomplished through the COM in coordination with faculty. Participating students will enforce previously acquired knowledge and skill, gather and analyze data, and formulate a written report and disseminate their findings.

CLIN 7461. Culinary Medicine. 4 Hours.

This course is an elective clerkship providing the student with the opportunity to gain experience in Culinary Medicine. The working goals are to provide medical students with a basic understanding of the culinary skills required to achieve a patient's dietary and/or nutritional goals. The student is expected to learn how to use food as medicine and decrease it as a risk factor for disease. The course is a hybrid course that will be offered in person and online.

CLIN 7470. Sports Medicine Elective Clerkship. 4 Hours.

This clinical clerkship provides the student with the opportunity to gain experience in Sports Medicine and equip the medical student with a foundation in Sports Medicine to support their maturing clinical judgment and knowledge. This clinical clerkship is accomplished as 4-week elective. The student is expected to learn basic exam findings, diagnoses, and treatment plans of patients in the outpatient setting and may accompany the Sports Medicine physician to the other sites of care based on their practice.

CLIN 7471. Four Week Clinical Hematology Elective. 4 Hours.

This course is a 4-week elective clerkship providing the student with the opportunity to gain experience in clinical hematology. The clinical experience will emphasize the diagnosis and management of various hematologic disorders. Participating students will have the opportunity to reinforce clinical skills which include complete and accurate patient history and physical exam. They will also gain understanding on the complex decision making required in caring for patients with hematologic disorders.

Clinical Medicine (CMED)

CMED 7201. Clinical Medicine 1. 2 Hours.

The student explores foundational skills and knowledge pertinent to becoming a physician. Topics may include ethics, professionalism, self-care, patient centered, and physician centered history taking. A basic physical examination is learned as well. The pre-clinical student have an opportunity to interact with other health care professions students to learn the importance of teamwork and inter-professional collaboration. OMM1 is paired and integrated alongside this course. Course Equivalents: CMED 7501 .

CMED 7304. Clinical Medicine 4. 3 Hours.

The student integrates knowledge and techniques already attained to develop a holistic approach to medicine. Major topics may include cultural diversity, population health, health outcomes, and EBM (evidence based medicine). Simulation and clinical skills focus on the life cycle (pediatrics, women's health, and geriatrics). More advanced simulations and inter-professional events occur. Application of medical decision-making and the performance and documentation of a full history and physical continue to be a focus and requirement for attainment of these skills. This course shares focus and integrated activities with OMM4.

CMED 7402. Clinical Medicine 2. 4 Hours.

The student continues the foundational work of becoming a physician with topics that include ethics, professionalism, and self-care with a particular focus given to the mind, behavioral health, and neurologic system. The student physician begins applying medical decision-making, working in collaborative care teams, and the role of the physician in society through simulation and standardized patient exercises. Use of physical examination to identify abnormal cardiopulmonary findings is emphasized. OMM2 shares an integrated focus.

CMED 7403. Clinical Medicine 3. 4 Hours.

The student develops more advanced skills with further concentration on ethics, professionalism, and self-care with a particular focus on EBM (evidence based medicine) and population health. The abdomen and pelvis physical examinations are learned in detail. A complete new patient history and physical can now be completed and documented. Simulations continue to include collaborative events with other professional students and expands experience in common physician skills, such as suturing and resuscitation tube placements. This course is taught concurrently and aligns with OMM3.

Communication Studies (COMS)

COMS 5331. Communication Studies Methods and Research. 3 Hours.

Students examine graduate level research methods, including quantitative and qualitative approaches. Topics may include data collection, analysis, and interpretation. Students develop individual research proposals.

COMS 5332. Statistical Methods For Communication. 3 Hours.

Students focus on various statistical techniques used in communication research. Topics may include univariate and bivariate techniques, hypothesis testing for single and multiple samples, as well as methods used to investigate relationships between two or more variables such as ANOVA, ANCOVA, and multiple regression analysis. Students participate in research activities using statistical techniques.

COMS 5333. Qualitative Communication Research. 3 Hours.

Students examine various qualitative communication research methods and designs. The focus of this course is on the identification and creation of communication research problems, the development of designs, data collection, and analysis procedures to address those problems.

Prerequisite: Graduate standing.

COMS 5334. Pedagogy of Public Speaking for Novice Instructors. 3 Hours.

Students examine and evaluate theories, techniques, and strategies for teaching public speaking and develop instructional resources for teaching public speaking. Further, students evaluate different course designs and strategies for public speaking classes, including active learning and flipped classroom practices. Topics include public speaking theories, public speaking assessment, and public speaking course design.

Prerequisite: Graduate Standing.

COMS 5335. Advanced Communication Theory. 3 Hours.

Students survey and evaluate communication theory from varied empirical and critical perspectives. Students scrutinize the process of theory building in order to evaluate existing theories.

COMS 5350. Computer Mediated Communication. 3 Hours.

Students examine how computers mediate communication in various contexts, such as interpersonal relationships, privacy, cyberbullying, social support, and family dynamics. Students study and conduct empirical research on the topic. Prerequisite: None.

COMS 5360. Advanced Interpersonal Communication. 3 Hours.

Students explore methodological and theoretical issues in relational communication with special attention to building ongoing research projects in support of theory.

COMS 5361. Dark Side of Communication. 3 Hours.

Students explore some of the darker aspects of communication, such as how negative behaviors can impact both the perpetrator and the victim of such behaviors. Topics may include bullying, criticism, complaints, verbal aggression, and revenge.

COMS 5362. Advanced Intercultural Communication. 3 Hours.

Students explore current theories and research in the area of intercultural communication, mainly from an interpersonal perspective. Topics may include self-disclosure, interpersonal trust, mate selection, love, interracial relationships, and arranged marriage.

COMS 5363. Interpersonal Conflict. 3 Hours.

Students explore current theories and research in the area of intercultural communication, mainly from an interpersonal perspective. Topics may include self-disclosure, interpersonal trust, mate selection, love, interracial relationships, and marriage.

Prerequisite: Graduate standing.

COMS 5364. Contemporary Family Communication. 3 Hours.

Students engage in historical, theoretical, and social research related to families. Students learn how families in the United States are adapting to the current social, economic, and political environments. Students use a comparative approach to family communication, emphasizing diversity, focusing on how social inequity shapes family experiences, and understanding how personal family experiences fit into the larger social, cultural, and historical context.

Prerequisite: Graduate standing.

COMS 5365. Affectionate Communication in Close Relationships. 3 Hours.

Students examine popular theories and research on affectionate communication. Students also investigate the role of affectionate communication in a variety of relationships (e.g., marital and premarital; long-term and short-term; familial relationships; friendships). Students gain knowledge of important theories of affectionate communication and critique research that examines affectionate communication. Students compose a comprehensive literature review on affectionate communication.

Prerequisite: Graduate Standing.

COMS 5366. Sexual Communication. 3 Hours.

Students explore diverse perspectives on sexual communication, investigate different theories and methodologies related to sexual communication, analyze the historical evolution of sexual communication, and critically evaluate existing research in the field. Moreover, students examine sexual communication within various relationship contexts, including marital and premarital, long-term relationships, and casual sexual relationships.

Prerequisite: Graduate Standing.

COMS 5370. Advanced Health Communication. 3 Hours.

Students investigate health communication topics that relate to and influence the family and other relationships. Topics may include perspectives and theories in public health, adolescent alcohol and drug abuse, parent-child-physician communication, telemedicine, and rural health concerns.

COMS 5371. Sex & Gender In Communication. 3 Hours.

Students study sex and gender differences and similarities in communication behavior. Students examine the sex and gender scholarship and assess its implications for understanding communication in interpersonal and family relationships.

COMS 5375. Graduate Readings in Communication. 1-3 Hours.

Students study topics that are not covered elsewhere in the graduate curriculum.

COMS 5380. Advanced Family Communication. 3 Hours.

Students examine methodological and theoretical issues in family communication.

COMS 5381. Intergenerational Family Communication. 3 Hours.

Students assess theory and research on family communication as it occurs between members of different generations. Students also examine how the communication between family members of the same generation differs from the communication between family members of another generation.

COMS 5382. Dark Side of Family Communication. 3 Hours.

Students explore the role communication plays in a variety of family problems. Topics may include jealousy, domestic abuse, negligent parenting, and conflict escalation.

COMS 5390. Seminar In Interpersonal Communication. 3 Hours.

Students study advanced topics in interpersonal communication theory and research. Topics rotate from semester to semester. Students may repeat for credit when topics change.

COMS 5391. Seminar In Family Communication. 3 Hours.

Students study advanced topics in family communication theory and research. Topics rotate from semester to semester. Students may repeat for credit when topics change.

COMS 5395. Social Support and Well-Being. 3 Hours.

Students explore theories and research related to the communication of social support and its role in physical, psychological, and social outcomes.

COMS 5396. Advanced Risk Communication. 3 Hours.

Students examine theories and research related to the communication of health, environmental, and technological risks.

COMS 5397. Persuasion & Social Influence. 3 Hours.

Students analyze theories and research related to persuasion and social influence. Topics may include attitudinal and behavioral change.

Composition (COMP)

COMP 5201. Applied Composition. 2 Hours.

The course consists of advanced individualized instruction in the craft of composition for various musical genres.

Prerequisite: Admission to the Master of Music program.

COMP 5202. Applied Composition Large Ensemble. 2 Hours.

(Prior SH course id: CMP 502X); Students focus on the production of a composition for large ensemble, demonstrating professional capability in the field.

Prerequisite: Admission to the Master of Music program.

Computer Science (COSC)

COSC 5050. Independent Study. 1-3 Hours.

Students work on a specific research topic under a faculty member's supervision. The specific topic or problem is chosen from current trends and future research directions, which are not covered in the current Computer Science graduate curriculum. Therefore, the course content will vary based upon the topic that both the student and the mentoring faculty member choose. Variable Credit (1 to 3).

Prerequisite: Consent of instructor.

COSC 5300. Computer Science Internship. 3 Hours.

Students engage in a supervised work environment that provides on-the-job computer science related experience within a public, non-profit, or private organization. Under the supervision of a faculty internship coordinator, students apply computing knowledge and theory learned in the classroom to real-world applications, gain practical software coding and development skills, and get professional networking opportunities for their careers in computing and data science. Students are required to complete 240 hours of internship experience in analyzing, designing, developing, testing, implementing, and maintaining software.

Prerequisite: Department Approval.

COSC 5301. Quantitative Foundations of Computer Science. 3 Hours.

Students are provided the fundamental quantitative methods needed in the area of computer science (CS). Topics may include numbering systems, propositional logic, digital logic, combinatorics, probability and statistics, and automata theory, focusing on their application to computing and information science. This course serves graduate students without an undergraduate degree in a quantitative field by providing necessary stem work. This course may not be counted toward the requirements for a graduate degree in Computer Information Science, Digital Forensics, or Information Assurance and Security.

Prerequisite: Approval by the graduate advisor.

COSC 5302. Computer Science Core Topics. 3 Hours.

Students are provided a solid foundation of Computer Science core concepts, fundamental principles, generalizations, and theories essential to pursuing the CS graduate program. Topics may include computer programming, database systems, and computer networks. This course provides stem work for those graduate students whose undergraduate degrees are not in CS and thus have little exposure to core CS topics. This course may not be counted toward the requirements for a graduate degree in Computer Information Science, Digital Forensics, or Information Assurance and Security.

Prerequisite: Approval by the graduate advisor.

COSC 5310. Cryptography & Steganography. 3 Hours.

This course is designed to cover the theoretical and practical aspects of cryptography and steganography including specification, design, and programming. Topics may include digital signatures, symmetric and asymmetric (public key) algorithms, hash functions, cryptographic algorithms, cost to break algorithms including key safety, Diffie-Hellmann, RSA, key stores, Secure Socket Layers, Virtual Private Networks (VPN), Certificate Authorities, and important cryptanalysis and steganalysis strategies.

COSC 5313. Artificial Intelligence. 3 Hours.

Students engage in a survey of topics in artificial intelligence. Topics may include: history of AI, knowledge representation, knowledge acquisition, search techniques, control strategies, and AI languages. Applications include natural language processing, neural nets, and expert systems.

COSC 5318. Database Systems. 3 Hours.

Students engage in a survey of contemporary topics in database systems. Topics may include: relational database theory, database design issues, normalization, functional dependency, transaction management, indexing, query processing, security integrity issues, data recovery, concurrency problems, optimization, distributed database systems, the client/server model, object-oriented databases, logic/knowledge based systems, and other related topics.

COSC 5319. Algorithm Design and Analysis. 3 Hours.

Students focus on how to design and analyze computing algorithms with emphasis on correctness, -efficiency, and feasibility. Topics may include asymptotic analysis, recurrences and divide-and-conquer algorithms, greedy algorithms, dynamic programming, graph algorithms, and randomized algorithms. Computational complexity theory and computability will also be discussed.

COSC 5320. Computer Architecture & Organization. 3 Hours.

Students are introduced to Computer Architecture and Organization. Topics may include computer evolution and performance issues, the computer systems including system buses, internal and external memory, input/output, and operating system support, CPU issues including computer arithmetic, instruction sets, addressing modes, RISC and superscalar organization, control unit issues, microprogramming, and parallel organization.

COSC 5321. Parallel Computing. 3 Hours.

Students study large-scale parallel processing systems. The central themes are theoretical models, machine architecture, computer algorithms, and programming languages that model, support, describe and implement parallel processing.

Prerequisite: COSC 5319.

COSC 5322. Real-Time and Embedded Systems. 3 Hours.

Students explore real-time and fault-tolerant computing systems. Topics may include interrupt processing, real-time programming and scheduling, fault-tolerant architectures and systems, and robotic programming. Extensive programming will be done.

COSC 5325. Operating System Security. 3 Hours.

Students are provided the rationale and necessity for a full range of security concepts and techniques and how to apply them to multiple operating systems. Students study methodologies for the design of operating system security and forensic techniques for operating systems as well as the identification of best practices in the administration, testing, and security for operating systems.

COSC 5326. Networks & Data Communications. 3 Hours.

Students are introduced to the basic techniques for interconnecting computers and peripherals for decentralized Computer. Network components, digital communications, interconnection architectures, communications protocols for geographic and local area networks and interprocess communications are covered.

COSC 5327. Operating Systems. 3 Hours.

Students engage in a comprehensive study of computer operating systems. Topics may include: computer architecture, concurrent processes, multi-threaded systems, scheduling, memory management, I/O management, file systems, networking and the client/server model, distributed systems, and computer security.

COSC 5329. Mobile Application Development. 3 Hours.

Students learn to create applications for various mobile platforms. Topics may include mobile application development frameworks, software engineering, mobile interface design, programming languages, data management, and application distribution.

COSC 5330. Malware. 3 Hours.

Students are provided an in-depth approach to the identification and deconstruction of malicious software, including static and dynamic analyses, malware deconstruction, and rootkit elimination. The course requires the use of virtual machines to isolate live malware samples, and access to a high-speed internet connection. Credit: 3 hrs.

COSC 5332. Computer Graphics. 3 Hours.

Students study modern Computer Graphics programming techniques. Topics may include: representations, transformations, and analysis of 2-dimensional and 3-dimensional objects; techniques for hidden surface/edge removal, illumination and shading models, rendering, and practical exercises, using Modern OpenGL graphics software libraries and applications.

COSC 5335. Database Security. 3 Hours.

Database security has an immense impact on the design of today's electronic information systems. Students are provided an overview of database security concepts and techniques and discuss new directions of database security in the context of a connected commercial world. Students are provided the information needed to develop, deploy, and maintain a secure database solution. The pitfalls of database design, their means of identification and the methods of exploiting vulnerabilities are exposed. Topics may include database authentication, accounts security, wallets, encrypting data while transit and at-rest, database auditing and virtual private database.

COSC 5340. Special Topics. 3 Hours.

Topics and courses are selected to suit individual needs of students. The course may be repeated for additional credit.

Prerequisite: Approval by the graduate advisor.

COSC 6049. Thesis. 1-3 Hours.

This course focuses on the execution of the research project outlined in Thesis 1. During the graduating semester, students will carry out their research plan, analyze data, and draw meaningful conclusions. They will also develop strong academic writing skills for the preparation of a comprehensive thesis document. This course emphasizes effective project management, data analysis, and scholarly writing to ensure students are well-prepared to present their research findings and defend their thesis successfully. Course Equivalents: COSC 6349

Prerequisite: COSC 6348.

COSC 6312. Multimedia Forensics. 3 Hours.

Students examine the theory and practice of multimedia security and forensics. Topics may include image processing, JPEG compression, audio compression (MP3, Advanced Audio Coding, and VOIP), MPEG compression, multimedia source identification, biometrics, steganography, steganalysis, multimedia forgery detection, and pattern recognition techniques for multimedia analysis, multimedia forensics software, and advances in multimedia forensics.

Prerequisite: Approval by the graduate advisor.

COSC 6313. Neural Networks. 3 Hours.

Students are introduced to Neural Networks. Topics may include discussion of variety of standard neural networks, with architecture, training algorithm, and applications; and development of neural network expert systems.

COSC 6314. Data Mining/Knowledge Discovery. 3 Hours.

Students explore the emerging techniques and methodologies in Data Mining for the automatic extraction of latent information and knowledge from ever-evolving huge data. Topics include discussion of variety of data mining and computational algorithms as well as the logic behind the data mining approaches. Students will learn a comprehensive framework to collect, clean, process, extract novel information from large-scale data, and evaluate the result. Recent trends and applications will also be discussed. Course Equivalents: COSC 6414

Prerequisite: COSC 5318.

COSC 6315. Machine Learning. 3 Hours.

Students are provided with the principles, design, and implementation of a broad range of machine learning algorithms. Topics may include computational learning theory, machine learning algorithms, and algorithm assessment techniques. Both a computational aspect (how to compute the answer) and a statistical aspect (how to ensure that future predictions are accurate) of each machine learning algorithm are discussed. Recent trends and application are covered, as well.

Prerequisite: COSC 5319.

COSC 6318. Language and Compiler Design. 3 Hours.

Students engage in a comprehensive study of computer programming languages. Topics may include: language design principles, formal grammars, procedural operating environment, language standardization, and language support for parallel and distributed programming. Language paradigms to be discussed will include procedural programming, logical programming, functional programming, and object-oriented programming.

COSC 6319. Software Engineering. 3 Hours.

Students explore strategies, techniques, and methodologies that deal with the complexity in developing large-scale information systems. Methods for Software engineering methodologies, conventional as well as object-oriented, are discussed. Software measurement and management are discussed. Formal mechanisms for system specification, software development, and project management are introduced.

Prerequisite: Approval by the graduate advisor.

COSC 6321. Distributed Computing. 3 Hours.

Students exam the principles and theories of distributed systems, which include MapReduce, Raft Algorithm, Remote Procedure Call (RPC), etc. In addition, real distributed systems, such as Google File Systems (GFS) and Distributed Transactions, are discussed as examples of recent distributed systems. The course emphasizes both lectures and programming labs, in order to help students validate their understanding through hands-on exercises.

Prerequisite: Graduate Standing.

COSC 6331. Data Visualization. 3 Hours.

Students organize and derive meaning from data by using visual presentation tools and techniques. Topics may include cognitive science, perceptual psychology, data management, data visualization theory, visual designs, evaluations of visual designs, and visualization application programming.

Prerequisite: Graduate Standing.

COSC 6332. Computer Vision. 3 Hours.

Students learn both theoretical and practical aspects of computer vision problems and applications. Topics may include camera models, multi-view geometry, image reconstruction, image processing, image classification, object detection, computational photography, and applications of deep learning techniques to computer vision problems.

Prerequisite: Graduate Standing.

COSC 6333. Deep Learning. 3 Hours.

Students examine the architectures, platforms, tools, trends, and research directions of deep learning. Topics may include the relevant algorithms, techniques, and methodologies of convolutional neural networks, recurrent neural networks, auto-encoders, generative adversarial networks, gated recurrent units, long short-term memory networks, deep reinforcement learning, and recent new deep learning architectures. Students get hands-on practices for analyzing real-world large data with deep learning open-sourced frameworks and software tools.

Prerequisite: Graduate Standing.

COSC 6335. Big Data Analytics. 3 Hours.

Students examine advanced analytic techniques, methodologies, and tools for processing big data whose volume, velocity, and variety are unconventional. Topics include types and characteristics of big data, flexible data storage and cost-effective data processing techniques and methodologies, trends and research directions, and hands-on practices for collecting, storing, manipulating, visualizing, and analyzing big data. Particularly, students acquire hands-on big data analytics and data science skills with open-source computing platforms and tools.

Prerequisite: Graduate Standing.

COSC 6338. Data Science Capstone. 3 Hours.

Students conduct team-based capstone projects, which require student teams to apply the knowledge and skills they gained throughout the computer science graduate programs. Particularly, students target to solve real world data science problems and demonstrate their skills in data engineering, machine learning, data mining, big data analytics, data visualization, and other data science-related subjects. Through active learning, students develop effective oral, visual, and written scientific communication skills.

Prerequisite: Approval by the Graduate Advisor.

COSC 6347. Programming Practicum. 3 Hours.

The practicum provides the student an opportunity to develop their programming and analytical skills by applying concepts and techniques learned in organized classes to real world projects under the supervision of faculty and/or supervisory Computer professionals. **Prerequisite:** Eighteen hours of Computer and Information Science graduate level coursework. Student must register for this course every semester the practicum is in progress but only three hours of practicum will apply to the student's degree plan.

Prerequisite: Student must register for this course every semester the practicum is in progress but only three hours of practicum will apply to the student's degree plan.

COSC 6348. Thesis. 3 Hours.

This course is designed to guide Computer Science Master's students in the initial stages of their thesis research. In the proposal semester, students will work closely with faculty advisors to identify a research topic, conduct a comprehensive literature review, and formulate a research proposal. The course will emphasize the development of strong research questions, the exploration of relevant methodologies, and the creation of a robust research plan. By the end of this course, students will have a well-defined research proposal ready for approval.

Conducting (COND)

COND 5001. Applied Conducting. 1-4 Hours.

The course consists of advanced individualized instruction in the art of conducting. Instruction focuses on conducting technique, pedagogy and score study. Variable Credit (1-4). Course Equivalents: COND 5201

Prerequisite: Admission to the Master of Music program.

Counselor Education (COUN)

COUN 5011. Counseling Profession & Ethics. 1-3 Hours.

This course is designed to introduce graduate students to the field of counseling, its theoretical and philosophical bases, historical antecedents, ethical issues, professional elements and an overview of current practice environments. Additionally, this course examines the professional codes of ethics and their limitations, the value conflicts in counseling, ethical decision-making models, and the current major ethical issues facing the counseling profession. Variable Credit (1-3).

Prerequisite: Acceptance into a counselor education degree program.

COUN 5088. Special Topics in Counseling. 1-3 Hours.

This course is designed to serve the needs of in-service counselors in schools and those in private practice. Topics will vary as needs demand. May be repeated as scheduled topics vary. Course Equivalents: COUN 5387

Prerequisite: Acceptance into a counselor education degree program.

COUN 5089. Independent Study in Counseling. 1-3 Hours.

This is a course designed for independent study of selected topics under the supervision of a faculty member. Variable Credit (1-3) Consent of Department Chair.

Prerequisite: Acceptance into a counselor education degree program.

COUN 5333. School Counseling: Consulting, Coordinating, Counseling. 3 Hours.

This course introduces students to the field of school counseling. Emphasis is placed on the evolution of counseling professional identity, and professional ethics. The services provided in a comprehensive program of guidance and counseling are discussed.

Prerequisite: Acceptance into a counselor education degree program.

COUN 5334. Diagnostics and Intervention in Counseling. 3 Hours.

Diagnostic methods will be explored with emphasis on the Diagnostic and Statistical Manual of Mental Disorders. A select overview of psychopathology, assessment, and interventions appropriate to the study of mental disorders will be included. Attention is given to mental health and holistic wellness. COUN 5397 with a grade of C or higher, cannot take concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 5336. Advanced Behavior Pharmacology. 3 Hours.

Students study abnormal behavior and psychopathology to include diagnosis, treatment planning, wellness, and psychopharmacology. These topics are specifically designed to provide students in the clinical mental health program specialized knowledge for the profession of licensed professional counselors. Acceptance into a counselor education degree program.

Prerequisite: COUN 5334, cannot be taken concurrently.

COUN 5364. Theories Of Counseling. 3 Hours.

A comprehensive study is made of the major theories of counseling. Attention is given to systematic ways of viewing the counseling process. Divergences and convergences among theories are examined for practical application. COUN 5011 with a grade of C or higher, can be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 5370. Career Counseling Across Lifespan. 3 Hours.

This course is designed to assist the counselor in developing and initiating a comprehensive career education program. A study is made of the world of work as well as the dynamics and developmental aspects of vocational choice. Emphasis is also placed on the use of occupational information, test scores, personal data, grades, and other pertinent information in working with students individually and in groups. COUN 5397 with a grade of C or higher, can be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 5379. Methods Of Research. 3 Hours.

Study is made of types and methods of educational research, the collecting, analyzing and sharing of data with the public. The student is expected to complete a research project or field study utilizing appropriate methods of educational research.

Prerequisite: Acceptance into a counselor education degree program.

COUN 5385. Pre-Practicum: Techniques Of Counseling. 3 Hours.

This course is designed to provide experiences in the exploration and application of individual counseling techniques. Role-playing, self-exploration, and structuring of the counseling relationship are emphasized. COUN 5011 and COUN 5364 can be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 5391. Child & Adolescent Counseling. 3 Hours.

This course is designed to help students develop approaches for putting counseling theories into practice in helping children and adolescents who are experiencing difficulties in their developmental, personal and social growth. COUN 5334 with a grade of C or higher can be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 5392. Cross Cultural Issues In Counseling. 3 Hours.

This course will examine the sociocultural characteristics and counseling issues related to the varied cultures in today's society. Hispanic, African-American, Native American, and Asian American cultures will be examined along with issues related to gender and Gay/Lesbian concerns.

Prerequisite: Acceptance into a counselor education degree program.

COUN 5393. Administrative Clinical Mental Health Services. 3 Hours.

Students will develop knowledge in the areas of management of human-services programs, specifically in program planning, service delivery, and coordination of program components, coordination of human resources, outreach, education, and consultation with other service providers and referral resources. Students will become familiar with policies, laws, legislation, reimbursement, right-to-practice, and issues relevant to Clinical Mental Health Counseling.

Prerequisite: Acceptance into a counselor education degree program.

COUN 5394. Crisis and Trauma Counseling. 3 Hours.

This course reviews crisis-counseling techniques related to a variety of crisis situations that may occur in families and with individuals in mental health agency and school settings. Students learn the foundations of successful crisis intervention to assist in prevention of crisis and encourage personal growth and coping following a crisis experience. Issues related to family violence and other issues of trauma will be discussed. COUN 5364 with a grade of C or higher can be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 5397. Human Growth & Development Across the Lifespan. 3 Hours.

A review of theory and research concerning the growth and development of the individual through the lifespan with emphasis placed on childhood and adolescence. The course attempts to relate theory and research to present concerns and problems of teachers through the study of physiological, psychological and social interrelationships. Experience in the procedures of child study are provided.

Prerequisite: Acceptance into a counselor education degree program.

COUN 5398. Sandtray Therapy. 3 Hours.

This course is designed to provide students with extensive practical experience related to sandtray as a therapeutic intervention for children, adolescents, adults, and families. This course uses both didactic and experiential methods to enhance a student's knowledge, skills and competence in using sandtray as a therapeutic modality with clients. The curricula for this course include knowledge of the literature of the discipline and ongoing student engagement in practice related to professional practice. COUN 5364 with a C or higher cannot take concurrently and COUN 5385 with a B or higher, can be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 5399. Play Therapy Basics. 3 Hours.

This course is designed to enhance/increase the counselor's understanding of the child's world as perceived by the child, the relationship between the child's world and behavior. The major theories of play therapy, and the utilization of play media to facilitate the child's self-exploration, self-expression, self-understanding, and personal growth will be explored. COUN 5364 and COUN 5385 with a B or higher, cannot be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6331. Advanced Play Therapy. 3 Hours.

This course is designed to provide play therapists with extensive practical research experience in regard to issues relative to the play therapy relationship. Case analysis, theoretical application, and current research issues and trends will be investigated. COUN 5399 with a grade of B or higher, cannot be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6332. Theories: Marriage, Couples, and Family Counseling. 3 Hours.

This course focuses on basic concepts in marriage and family therapy, theories of therapeutic change in families, marriage and family development and foundations of family systems therapy. Approval of counselor education department chair.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6333. Techniques Of Couples Counseling. 3 Hours.

Application of the main approaches in family therapy to clinical work. This includes skill development in working with couples and families in a variety of contexts. COUN 6332 with a grade of C or higher, cannot take concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6334. Ethical Issues in Marriage and Family Therapists. 3 Hours.

This course studies the current ethical issues and the professional roles of marriage and family therapists, mental health counselors and school counselors. This includes study of the Texas Family Code, the licensing acts for Marriage and Family Therapists and Professional Counselors, and regulations for school counselors.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6335. School Counseling: Leadership, Advocacy, and Accountability. 3 Hours.

A comprehensive study is made of contemporary practices of consultation and coordination in the school counseling profession. The course includes study of community service agencies, referral sources, legal and ethical practices and the acquisition of practical school counseling skills.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6337. Counseling For Sexual Concerns. 3 Hours.

Students will develop an understanding of sexual anatomy, the physiology of sexual function, and therapeutic applicants for assessing, counseling, and referral procedures for clients who present with sexual concerns. Students will investigate various therapeutic approaches when dealing with sexual concerns. Students will explore how life experiences, sexual values, and beliefs about sexual behavior affect the therapeutic interaction and outcome. COUN 5334 and COUN 6332 with a grade of C or higher, cannot be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6338. Techniques of Family Counseling. 3 Hours.

In this course students will develop skills in the application of the main approaches of family therapy clinical work, including working with families in a variety of contexts. COUN 6332 with a grade of C or higher, cannot be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6350. Counselor Ethics: Management, Law, and Practice. 3 Hours.

Students study counselor ethics relating to record management, business/family law, professional practice, and the study of current board rules/regulations, and codes of ethics. COUN 5011 with a grade of C or higher, cannot take concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6363. Assessment in Guidance and Counseling. 3 Hours.

Study will include the principles of assessment and evaluation in counseling, assessment instruments used in counseling services, elementary statistical concepts, methods of evaluating assessment instruments, the process of synthesizing and interpreting assessment data, and the ethics of assessment.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6364. Counseling For Addictions. 3 Hours.

This course covers the theory, research, and practice of substance abuse prevention and chemical dependency counseling with special application to the functions of counselors. COUN 5334 with a grade of C or higher, can be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6370. Family Therapy Applications. 3 Hours.

This course is designed to promote the development of student proficiencies and to deepen understanding of the standards of the Association of Marital and Family Therapy Regulatory Boards (AMFTRB) as they are applied in practice. Connections will be made between theory and practice in a clinical setting. COUN 6332 with a grade of C or higher, cannot be taken concurrently. COUN 6376 or COUN 6386 with a grade of C or higher, can be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6371. Advanced Grief and Crisis Counseling. 3 Hours.

Students analyze and critique issues related to physiological and psychosocial responses to crisis and grief. Topics include suicide and homicide assessments and interventions, crisis intervention after natural disasters, man-made disasters and unexpected events, and working with uncomplicated and complicated grief.

Prerequisite: COUN 5394.

COUN 6372. Neuroscience of Counseling. 3 Hours.

Students will analyze, and critique issues related to neuroscience of counseling. Topics include, but are not limited to, the definition and basics of neuroscience, introduction to brain and nervous system, impact of life events on brain and brain development, and the mind-body connection. This course is structured to provide information about practical, evidence-based application of counseling practices to help clients who experienced life events that negatively impacted their brain development or brain structure. Credit 3 hours.

Prerequisite: COUN 5394.

COUN 6374. Group Counseling. 3 Hours.

Participation in small group activities is a significant part of this course which has been designed to meet the needs of counselors in a variety of settings. The didactic portion of the course will focus on the knowledge, practice, skills, and person of the effective group counselor. COUN 5364 with a grade of C or higher, cannot be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6376. Supervised Practice In Counseling. 3 Hours.

This laboratory course is designed to prepare the student in the practical application and integration of the principles and methods of counseling. Admission as a Degree Candidate. COUN 5334 and COUN 6374, cannot be taken concurrently. COUN 5385 with a B or higher, cannot take concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6386. Internship. 3 Hours.

The course provides supervised experiences in a counseling setting. Study is made of the duties and responsibilities of the counselor at work. COUN 6376 with a grade of B or higher, cannot be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6387. School Counseling Internship. 3 Hours.

Students participate in supervised experiences in a school counseling setting. Students study the duties and responsibilities of the school counselor at work. Two semesters of this course meets the 160-hour practicum required by TEA for students seeking school counselor certification. Credit: 3. COUN 6376 with a grade of B or higher, cannot be taken concurrently.

Prerequisite: Acceptance into a counselor education degree program.

COUN 6394. Complex Traumatic Stress in Counseling. 3 Hours.

Students analyze and critique issues related to chronic and complex posttraumatic stress and complex dissociative disorders. Topics include attachment and trauma, developmental psychopathology, vicarious trauma, assessment and diagnosis, dissociative related disorders, neuroscience of trauma, betrayal trauma, interpersonal trauma, and counseling models and other treatment models.

Prerequisite: COUN 5394.

COUN 7088. Special Topics in Counselor Education. 1-3 Hours.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7089. Independent Study in Counselor Education. 1-3 Hours.

This course will provide the doctoral student an opportunity to engage in detailed and in-depth study of a program or problem in counselor supervision. The student will work under the supervision of a doctoral faculty member and will be expected to produce a written product or presentation. Approval from doctoral director. Course Equivalents: COUN 7387

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7110. Doctoral Seminar. 1 Hour.

This course is designed to provide an orientation to doctoral studies in counseling, topics of current interest to doctoral students, and the faculty and information regarding areas of study and research related to the doctoral program. This course may be repeated five times, for a maximum of six credits. Must make a B or better.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7331. Advanced Counseling Theories. 3 Hours.

In depth study of major counseling theories, with special emphasis on comparative analysis. Must make a B or better.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7332. Advanced Counseling Appraisal Techniques. 3 Hours.

This is an advanced course in assessment procedures used by counselor educators and directors of counseling and guidance in the schools. A case study approach will be utilized to guide students through the application of assessment, diagnosis and treatment planning for childhood, adolescent, and adult mental disorders and behavior problems. COUN 6363 or equivalent class and COUN 7331 with a grade of B or higher, cannot take concurrently.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7334. Theories Of Counselor Supervision. 3 Hours.

This course is designed to introduce students to models of counselor supervision. The course is conducted in a seminar-discussion format and, as part of the course students will provide one or more counselor trainees with supervision.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7335. Practice Of Counselor Supervision. 3 Hours.

Supervised experience in supervision of counseling. Students meet for individual supervision of supervision and in a seminar group to assess their effectiveness in their supervisory relationships, to obtain feedback on tapes and observation, and to integrate these learnings into their supervisory process. COUN 7334 with a grade of B or higher, cannot take concurrently.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7336. College Teaching In Counseling. 3 Hours.

Application of planning, instructional, and evaluation skills. Doctoral students lead skill training groups, lecture to a masters level class, and guide group discussion with faculty supervision. COUN 7331 with a grade of B or higher, cannot take concurrently.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7337. Advanced Counseling Practicum and Techniques. 3 Hours.

Supervised experience in counseling. Students meet for individual supervision and in a seminar group to assess their effectiveness in their helping relationships, to obtain feedback on tapes and observation, and to integrate these learnings into their counseling behavior. COUN 7331 with a grade of B or higher, cannot take concurrently.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7339. Doctoral Internship In Counseling. 3 Hours.

Professional service in field setting appropriate for counseling, consultation, and personnel work, under supervision. May be repeated for a maximum of 6 credit-hours. COUN 7337 with a grade of B or higher, cannot take concurrently.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7362. Methods Of Counseling Research. 3 Hours.

Study of both quantitative and qualitative research with emphasis upon an understanding of statistical concepts and procedures necessary to create and implement effective counseling research. COUN 5379 or equivalent class with a grade of B or higher, cannot take concurrently.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7363. Application of Counseling Research. 3 Hours.

Fundamental concepts and tools of research applied to educational problems. Each student will prepare a proposal for the dissertation. COUN 7332, COUN 7374, COUN 7362, and COUN 7372, with a grade of B or higher, cannot take concurrently.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7372. Qualitative Methodology. 3 Hours.

This course is designed to teach qualitative research methodology within a counseling problems-based contextual framework. The course will emphasize qualitative techniques through lecture, discussion, readings, and field-based research projects using the methods learned. COUN 7331 with a grade of B or higher, cannot take concurrently.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7373. Statistical Methods for Counselor Education Research. 3 Hours.

This course is designed to teach students how to manage, analyze, and interpret data related to counselor education themes at the doctoral level. The course will address quantitative methods (e.g., descriptive statistics, t-test, one-way and factorial ANOVA) via lectures, exams, small and large group discussions, and computer work both in and outside of class. COUN 7362 with a grade of B or higher, can be taken concurrently.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 7375. Advanced Multicultural Counseling. 3 Hours.

This course focuses on the in-depth study of people from diverse cultures seeking counseling services and the critical issues involved in culturally competent counseling. Using the latest research and professional literature, students will utilize multicultural counseling models in our communities. Students will also explore pedagogies for multicultural counselor training. Can be taken concurrently with COUN 7336. COUN 5392 with a grade of B or higher, cannot take concurrently. COUN 7336 with a grade of B or higher, can take concurrently.

Prerequisite: Acceptance into a counselor education doctoral program.

COUN 8033. Dissertation. 1-6 Hours.

The completion of an approved dissertation which will contribute to counseling. Field-based projects will be emphasized. Must be repeated for a minimum of 9 semester hours. Variable Credit (1-3). Completion of counselor education core, research component and research tools courses, successful completion of comprehensive exam and approval of doctoral advisor. Course Equivalents: COUN 8333

Prerequisite: Acceptance into a counselor education doctoral program.

Criminal Justice (CRIJ)

CRIJ 5330. Critical Analysis Of Justice Administration. 3 Hours.

(SH Prior Course ID: CJ 530); Students engage in an analysis of the criminal justice system in the United States that covers the role of justice agencies as part of societal response to crime, the knowledge base of the criminal justice system, issues, problems, and trends.

CRIJ 5332. Perspectives In Criminology. 3 Hours.

(SH Prior Course ID: CJ 532); Students survey the field of criminology that emphasizes perspectives regarding the making of law, breaking of law, and societal responses to the breaking of law.

CRIJ 5334. Courts As Organizations. 3 Hours.

(SH Prior Course ID: CJ 534); Students engage in a critical evaluation of the dispensing of justice in the United States, using a systems theory approach and current court policy.

CRIJ 5363. The Juvenile Offender. 3 Hours.

(SH Prior Course ID: CJ 563); Students explore theoretical perspectives regarding the causes and correlates of juvenile offending. Particular attention is paid to the role of family, peers, and school.

CRIJ 5367. Gender and Criminal Justice. 3 Hours.

Students explore the role of gender in offending, victimization, and criminal justice processing as well as evaluate the influence of gender on working in criminal justice professions. Criminological and victimological theories are assessed in light of gender and the relationship between gender and criminal justice as drawn from both the social and biological sciences.

Prerequisite: CRIJ 5364.

CRIJ 5372. Community Based Corrections. 3 Hours.

(SH Prior Course ID: CJ 572); Students are provided an overview of techniques and procedures used in the supervision of adult and juvenile probationers and parolees and other residents of community-based corrections facilities in addition to the preparation of social history, pre-hearing, and pre-sentence investigation reports. An emphasis is placed on practical problems confronting the probation and parole officers.

CRIJ 5392. Survey Of Research Methods. 3 Hours.

Students examine the theory and application of social science research techniques and designs, with a focus on the interpretation and use of research findings. Students who have not completed an introductory course in research methods within the past five years must take CRIJ 3378 as a prerequisite.

CRIJ 5393. Legal Aspects of the Criminal Justice System. 3 Hours.

(SH Prior Course ID: CJ 593); Students study the aspects of law which are relevant to and essential for a better understanding of the criminal justice system and its related processes.

CRIJ 6093. Independent Studies in Criminal Justice. 1-3 Hours.

(SH Prior Course ID: CJ 693); This course is designed for the directed study of individual students who wish to engage in intensive study in some specific area of research. Variable Credit (1-3). . Course Equivalents: CRIJ 6393

Prerequisite: Consent of the Assistant Dean for Graduate Programs of the College and of the instructor directing the readings.

CRIJ 6099. Thesis. 1-3 Hours.

(SH Prior Course ID: CJ 699); The completion and defense of the Thesis. (The student must be registered in 6099 the semester in which he/she receives his/her master's degree.) Variable Credit (1-3). Course Equivalents: CRIJ 6399 .

CRIJ 6332. Resource Development in the Organizational Context. 3 Hours.

(SH Prior Course ID: CJ 632); Students explore critical issues and strategic questions regarding managing human resources in criminal justice agencies. Policy areas discussed are: (1) employee influence; (2) human resource flow; (3) reward systems; and (4) work systems. Human resource management as a coherent, proactive management model.

CRIJ 6333. Seminar In Organization and Administration. 3 Hours.

(SH Prior Course ID: CJ 633); Students study the bureaucracy and complex organizations with a strong emphasis on the concepts and practices of the organization and management of public agencies in the United States. Special consideration is given to the various philosophies, typologies, and models of administrative systems in criminal justice.

CRIJ 6334. Research Methods and Quantitative Analysis. 3 Hours.

(SH Prior Course ID: CJ 634); Students explore the methods and techniques of research and research design; conducting and assessing research in the criminal justice agency management environment; translation of research findings to policy; and informational resources readily available to the agency manager. This course is designed to prepare students to gather decision-relevant information.

CRIJ 6335. Seminar In Leadership and Management. 3 Hours.

(SH Prior Course ID: CJ 635); Students explore problems and alternative solutions in criminal justice management. The case study method and current readings provide an admixture of practical and educational experiences intended to foster and disseminate new ideas for management strategies, especially as this is impacted by leadership styles, human resources, and the environment.

CRIJ 6336. Computer/Technology Applications For Criminal Justice. 3 Hours.

Students examine the techniques of data processing with emphasis upon utilization and application to criminal justice information management.

CRIJ 6339. Police In Society. 3 Hours.

(SH Prior Course ID: CJ 639); Students examine the evolution of police in modern society with a special emphasis given to the role of the police play in contemporary society. Current research examining the function of the police will be examined.

CRIJ 6360. Seminar In Deviant Behavior. 3 Hours.

(SH Prior Course ID: CJ 660); Students analyze behavior which violates expectations that are shared and recognized as legitimate. Special attention is focused on societal reactions to such behavior.

CRIJ 6361. Social Policy. 3 Hours.

(SH Prior Course ID: CJ 661); Students evaluate the legal, social, economic, philosophic, and controversial issues of governmental programs, administered by federal, state, local units of government, and the client systems served.

CRIJ 6363. Leadership Psychology In Criminal Justice Management. 3 Hours.

(SH Prior Course ID: CJ 663); Students examine the important psychological processes that are involved in dealing with others. The manner in which an individual's thoughts, feelings, and behaviors are influenced by others, especially in a criminal justice leadership environment, is the focal point.

CRIJ 6365. Community Theory and the Administration of Justice. 3 Hours.

(SH Prior Course ID: CJ 665); Students examine the nature of criminal justice organizations as components of the political, social, and economic inter-organizational networks that comprise communities. Topics such as the intersection of criminal justice, mental health, juvenile justice and educational systems are examined. The impact of criminal victimization and attributes of communities that foster crime are examined in detail. The processes that motivate and implement change in community-based organizations are also addressed.

CRIJ 6368. Seminar on Drugs, Society, and Policy Issues. 3 Hours.

(SH Prior Course ID: CJ 668); Students focus on issues and problems surrounding the problem of illicit drugs in society. Particular emphasis is placed on policy related issues.

CRIJ 6372. Seminar In Criminology and Corrections. 3 Hours.

(SH Prior Course ID: CJ 672); Students explore theory and problems in Criminology and Corrections. One or more term papers evidencing qualities of scholarship will be required.

CRIJ 6385. Statistics For Criminal Justice Research. 3 Hours.

(SH Prior Course ID: CJ 685); Students review descriptive and graphical techniques for criminal justice and criminological research, including probability and sampling theory, the normal curve and statistical inference, Central Limit Theorem, Chi-square, T and F distributions, analysis of variance, and linear regression.

CRIJ 6386. Statistics For Criminal Justice Research II. 3 Hours.

Students cover statistical analyses and techniques such as reliability tests, factor analysis, and multiple imputation. Various modeling strategies are also covered, including logistic regression, ordinal regression, Poisson regression, and negative binomial regression.

Prerequisite: CRIJ 6385.

CRIJ 6387. The Ethics Of Criminal Justice. 3 Hours.

(SH Prior Course ID: CJ 687); Students explore ethics and moral philosophy in criminal justice, including the role of natural law, constitutional law, code of ethics, and philosophical principles. Strong emphasis is placed on examining the role of justice in a free society and the practical implications of justice to practitioners of police, courts, and corrections.

CRIJ 6388. Emergent Issues In Criminal Justice Leadership. 3 Hours.

(SH Prior Course ID: CJ 688); This course serves as a capstone course for the Master of Science in Criminal Justice Leadership program, providing an opportunity for the integration of information offered in the program and its relationship to emergent issues. Students address the effect of emergent perspectives in organization theory on public administration in general and more specifically upon criminal justice management and leadership. Students examine the impact of emergent technology upon criminal justice operations as well as study the integration of organization theory, principles of public administration, and community expectations of criminal justice leaders.

CRIJ 6392. Program Evaluation In Criminal Justice. 3 Hours.

(SH Prior Course ID: CJ 692); Students study the principles and techniques of program evaluation, including models and case studies.

CRIJ 6394. Special Topics-Criminal Justice. 3 Hours.

(SH Prior Course ID: CJ 694); This course is needed to offer master's level students the option of registering for a multi-topic course. Students can take the course under various special topics being offered.

CRIJ 6396. Legal Aspects Of Criminal Justice Management. 3 Hours.

(SH Prior Course ID: CJ 696); Students are provided an overview of the legal issues commonly facing managers in criminal justice agencies. Particular emphasis is placed on public employment law including the hiring, promoting, disciplining and discharging of employees, fair employment practices, and agency and administrator civil liability. Both state and federal statutory and case law are examined.

CRIJ 6398. Thesis Practicum. 3 Hours.

(SH Prior Course ID: CJ 698); Students are provided an overview of research strategies; principles of research writing; and procedures for initiating, executing, and completing a Thesis. Preparation and approval of a Prospectus. (Preliminary planning for the Thesis should begin during the first semester of graduate work; the student should enroll in CRIJ 6398 after he/she has completed 12 semester hours of graduate work.)

CRIJ 7070. Independent Studies in Criminal Justice. 1-3 Hours.

Directed readings designed to give the student flexibility in developing an area of specialization. Variable Credit (1-3). A student can take only two CRIJ 7070 courses. Course Equivalents: CRIJ 7370

Prerequisite: Enrollment requires prior permission of the appropriate Dean and the supervising faculty which is given only when necessary to meet specific needs of the student and the College.

CRIJ 7330. Seminar In Organization Theory. 3 Hours.

(SH Prior Course ID: CJ 730); Students examine organizational thought with application to criminal justice as well as analyze the developmental state of organizational theory, including historical derivations and the implications of various theoretical bases for organizational functioning.

CRIJ 7333. Proseminar In Criminal Justice Issues. 3 Hours.

(SH Prior Course ID: CJ 733); This course is designed to give doctoral students a current, thorough, and comprehensive review of the criminal justice system with a focus on how the system functions in theory and practice and current future needs and trends. Students are required to submit extensive critiques and to participate in panel discussions.

CRIJ 7334. Seminar In American Policing. 3 Hours.

(SH Prior Course ID: CJ 734); Students examine the philosophy and role of policing in the United States, politics of policing, managing police organizations, police community relations, police operational and administrative practices, police research, police executive development, emergent issues and problems in policing.

CRIJ 7336. Seminar In American Correction. 3 Hours.

(SH Prior Course ID: CJ 736); Students engage in an in-depth examination of the various issues and problems in corrections as they relate to administration and management. A variety of problems is explored, including the philosophical justification for prisons, personnel management, sentencing and its implications, community-based corrections, rehabilitation, judicial intervention, and correctional reform.

CRIJ 7337. Criminological Theory. 3 Hours.

(SH Prior Course ID: CJ 737); Students are provided an overview of the major paradigms focusing on the causes of crime and deviant behavior with special attention given to the social, political, and intellectual background, which each perspective arose. The course includes a discussion of criminological theories from a philosophy of science perspective focusing on issues such as theory construction, theoretical integration, and the formal evaluation of theory.

CRIJ 7338. Seminar In American Courts. 3 Hours.

(SH Prior Course ID: CJ 738); Students examine the role and structure of prosecution, public defense, and the courts in the United States jurisprudence with emphasis upon criminal law and problems in the administration of justice.

CRIJ 7339. Distribution and Correlates of Crime. 3 Hours.

(SH Prior Course ID: CJ 739); Students engage in a survey of research on the scope and nature of criminal activity and factors correlated with criminal behavior. Attention specifically on four general categories: race/ethnicity, gender, age, and class. Students examine the issues of etiology, victimology, differential police enforcement, sentencing, and correctional practices.

CRIJ 7340. Administration of Justice. 3 Hours.

Students in this advanced seminar address criminal justice systems theory, discretionary decision-making in criminal justice, and factors related to differences and discrimination in system processing.

CRIJ 7342. Advanced Statistics I. 3 Hours.

Students are introduced to multivariate statistical techniques, including multiple regression, logistic regression, discriminate analysis, multivariate analysis of variance, canonical correlation, factor analysis, cluster analysis, and multidimensional scaling. Course Equivalents: CRIJ 7442

Prerequisite: CRIJ 6385 or equivalent in past years.

CRIJ 7360. Advanced Seminar In Criminological Theory. 3 Hours.

(SH Prior Course ID: CJ 760). Students engage in extensive studies in areas of classical and/or current criminological theory. A basic knowledge of criminology is assumed. Emphasis is placed on analytical, critical evaluation, and the advancement of theory.

CRIJ 7366. Seminar on Penalty of Death. 3 Hours.

Students examine the death penalty with a focus on areas of research needed in order to better evaluate the appropriateness of this sanction. This course includes: 1) a specific focus on the death penalty from a variety of different perspectives; 2) a critical examination of the existing body of scholarship; and 3) the identification of what is needed for evolving scholarship in each area.

CRIJ 7371. Special Topics-Criminal Justice. 3 Hours.

(SH Prior Course ID: CJ 771). This course is needed to offer doctoral level students the option of registering for a multi-topic course. The student can take the course under various special topics being offered.

CRIJ 7373. Research Practicum. 3 Hours.

(SH Prior Course ID: CJ 773); Students engage in supervised training, including special applications in information acquisition, storage, retrieval, analysis, and display in criminal justice.

CRIJ 7375. Seminar in Legal Aspects of Criminal Justice. 3 Hours.

Students address legal research, constitutional law, criminal procedure, criminal law, and juvenile justice as relevant to understanding the criminal justice system and its related processes.

CRIJ 7387. Research Design. 3 Hours.

Students engage in advanced study of scientific inquiry with an emphasis on the practical aspects of research design and implementation. Topics may include the philosophy of science; the relationship of sampling theory to statistical theory; studies in causation; non-experimental research; data systems and modern data processing techniques.

Prerequisite: CRIJ 7434 and consent of instructor.

CRIJ 7389. Advanced Statistics II. 3 Hours.

Students engage in a survey of reliability analysis, loglinear, and logit loglinear analysis, nonlinear, weighted and two stage least-squares regression, probit analysis, survival analysis and Cox regression.

Prerequisite: CRIJ 7434.

CRIJ 7393. Computer Based Data Analysis. 3 Hours.

This course is intended to develop proficiency in data analysis using computerized statistical programs such as SPSS. Statistical theory and research design issues are combined with hands-on computer experience. The course emphasizes data management, multivariate statistics, and diagnostics.

Prerequisite: CRIJ 1387, CRIJ 7389, and CRIJ 7434.

CRIJ 8099. Dissertation IV. 1-3 Hours.

Advanced research in criminology or criminal justice. Variable Credit (1 to 3). Course Equivalents: CRIJ 8399

Prerequisite: CRIJ 8396, CRIJ 8397, and CRIJ 8398.

CRIJ 8396. Dissertation. 3 Hours.

Advanced research in criminology or criminal justice.

CRIJ 8397. Dissertation II. 3 Hours.

Advanced research in criminology or criminal justice.

Prerequisite: CRIJ 8396.

CRIJ 8398. Dissertation III. 3 Hours.

Advanced research in criminology or criminal justice.

Prerequisite: CRIJ 8396 and CRIJ 8397.

Curriculum and Instruction (CIED)

CIED 5087. Workshop in Education. 1-3 Hours.

This course is designed to explore the relation of brain development in school-age children and methods for enhancing this development through the use of technology. Students will have the opportunity to design instructional aids, which seamlessly implement developmentally appropriate technology in the classroom. Variable Credit (1-3). Course Equivalents: CIED 5387 .

CIED 5088. Special Topics in Curriculum and Instruction. 1-3 Hours.

This course will examine special topics in the field of Curriculum and Instruction. Variable credit (1-3.)

CIED 5089. Independent Study in Curriculum and Instruction. 1-3 Hours.

This is a course designed for independent study of selected topics under the supervision of a faculty member. Variable Credit (1 to 3).

Prerequisite: Consent of Department Chair.

CIED 5301. Alternative Teacher Preparation I. 3 Hours.

Students investigate educator best practices with a focus on responsible teaching, instructional strategies, differentiation, and assessment. The course focuses on how common classroom themes can impact the flow and structure of a classroom with intentional focus on best practices and research-based instructional strategies.

CIED 5302. Alternative Teacher Preparation II. 3 Hours.

Students continue to develop their skills of applying educator best practices with a focus on responsible teaching, instructional strategies, differentiation, and assessment. The course focuses on how to implement best practices and research-based instructional strategies for all learners. May be taken concurrently with CIED 5301.

Prerequisite: CIED 5301.

CIED 5333. Role of the Professional Educator. 3 Hours.

In this course, candidates will examine the complexity of the role of professional educators. The history of American education, school reform, professional ethics, technology, and diversity will be addressed.

CIED 5335. Teaching Practices in Science Education. 3 Hours.

Candidates evaluate the conceptual underpinnings of modern approaches to science education and professional development as they relate specifically to teaching and learning science. Principles of learning, students' inquiry strategy development, assessment/evaluation of teaching/learning, and the use of instructional technology are examined using research-based best practices in science inquiry education.

CIED 5337. STEM Education Pedagogy. 3 Hours.

Candidates explore research and practical applications of STEM (Science, Technology, Engineering, and Mathematics) concepts related to STEM education and pedagogy. Graduate students will evaluate both strengths and limitations associated with research-based pedagogies, and gain insights into pedagogical strategies that can serve to enhance practices within STEM education.

CIED 5340. Foundations of United States Education. 3 Hours.

Candidates focus on the historical foundations of elementary, secondary, and post-secondary education with emphasis on teaching and policy in western societies and North American schools.

CIED 5341. Comparative Education. 3 Hours.

Candidates evaluate theories in comparative education, cross-national comparative analysis, educational indicator research, educational transfer and borrowing, and the relationship between culture and education. Special attention is devoted to similarities and differences in educational policy and practice among various nations.

CIED 5342. Socio-Cultural Forces in Education. 3 Hours.

Candidates focus on national and global educational perspectives to examine the social, cultural, political and economic systems that shape society and the role education plays in the process.

CIED 5343. Philosophy of Education. 3 Hours.

Candidates examine educational theory and practice in relation to philosophical perspectives, both classical and contemporary. This course provides graduate students with the knowledge and understanding of various philosophies of education, national and international, and allows them to apply the philosophies to contemporary and classical educational issues.

CIED 5344. Theoretical Foundations for Curriculum. 3 Hours.

In this course, candidates learn the theoretical foundations for curriculum conceptualization, development, evaluation and implementation. Emphasis will be on value and empirical bases of curriculum decision-making strategies for curriculum change.

CIED 5352. Foundations of Project Based Learning. 3 Hours.

Candidates focus on the foundational, research-based elements that are critical to implementation of Project Based Learning, including examination of required elements in pedagogy. These include mastery of skills needed to facilitate K-12 student learning through participation in inquiry, critical thinking, and self-assessment.

CIED 5354. Project Based Learning Culture, Environment, and Management. 3 Hours.

In this course, graduate students focus on leading and managing the learning environment while implementing and maintaining Project Based Learning in a variety of learning venues.

Prerequisite: CIED 5352.

CIED 5356. Project Based Learning Methodology. 3 Hours.

This course focuses specifically on the first three critical elements of an effective Project Based Learning educational setting: planning and developing entry events and driving questions, facilitating student discussions about areas of need, and effectively implementing student voice and choice. This detailed study will prepare graduate students to teach this process to other educators.

Prerequisite: CIED 5352 and CIED 5354.

CIED 5358. Assessment and Analysis of Project Based Learning. 3 Hours.

In this course, candidates focus on the final critical elements of an effective Project Based Learning environment, including development, implementation, and analysis of all assessment components.

Prerequisite: CIED 5352, CIED 5354, and CIED 5356.

CIED 5360. Advanced Techniques and Methods of Instruction. 3 Hours.

Study is made of current and advanced teaching techniques, strategies, and materials. Candidates will identify, research and develop approaches to problems pertaining to their teaching field.

CIED 5370. Foundations of Education Research. 3 Hours.

In this course, candidates will read published research critically, integrate findings with personal experience in order to make reflective instructional decisions, and participate in pedagogical research involving theory building and elementary statistics.

Prerequisite: 9 Graduate level hours in education.

CIED 5371. Applied Research in Education. 3 Hours.

In this course, candidates will analyze educational issues by conducting a research study on a topic of their choosing. A scholarly qualitative or quantitative final paper and presentation of the research will be submitted. Course Equivalents: CIED 5085, CIED 5385

Prerequisite: CIED 5370.

CIED 5382. Instructional Coaching. 3 Hours.

In this course, candidates will examine and engage in a form of job-embedded professional development focused on improving educational practice in order to enhance and build skills as an educational leader.

CIED 5383. Integrating Current Technologies in Education. 3 Hours.

In this course, candidates will study the pedagogical knowledge and instructional skills needed for integrating modern technology tools and approaches in educational process as well as engaging strategies for virtual/online settings and mobile learning.

CIED 5384. Curricular Trends. 3 Hours.

In this course, candidates will examine current trends in curriculum, curriculum development, and assessment of existing curriculum.

CIED 5390. Advanced Methods for Classroom Management and Discipline. 3 Hours.

This course is designed for K-12 educators of all subject areas. Increased proficiency in classroom management skills is the primary objective of the course. Educators will be provided with an understanding of the factors influencing individual and group behavior in school settings; methods of diagnosing school and classroom factors that may be eliciting the problem; and the options available for influencing student behaviors.

CIED 5391. Problems In Teaching Elementary Mathematics. 3 Hours.

Study is made of recent trends in elementary mathematics programs and instructional approaches. Application of research findings to improving the teaching and learning of mathematics is emphasized.

CIED 5392. Problems In Teaching Elementary Science. 3 Hours.

Study is made of recent trends in elementary science programs and instructional approaches. Application of research findings to improving the teaching and learning of science is emphasized.

CIED 5393. Assessment and Accountability. 3 Hours.

In this course, candidates will design and implement effective assessments for a variety of learners as well as provide focused and meaningful feedback. In addition, candidates will critically analyze data for purposes of accountability focused on improving individual and/or organizational performance.

CIED 5394. Curricula for Adult Learning. 3 Hours.

In this course, candidates will examine principles of adult learning, factors affecting curricular design for adults, curriculum planning, implementation, and outcome evaluation. Course Equivalents: CIED 6394 .

CIED 5396. Problems In Teaching Social Studies. 3 Hours.

Study is made of recent trends in elementary social studies programs and instructional approaches. Application of research findings to improving the teaching and learning of social studies is emphasized.

CIED 5397. Human Growth & Learning. 3 Hours.

In this course, candidates will examine theory and current research concerning the growth and development of the individual through the lifespan. Emphasis will be on physiological development including development of the brain, psychological, emotional, and social development.

CIED 5398. Practicum in Classroom Instruction I. 3 Hours.

This course is designed for the candidate who possesses a baccalaureate degree from an accredited university, is seeking Texas teacher certification, has met all requirements for admission to the teacher education program, and is eligible for an internship as defined by the Texas Education Agency guidelines. The intern should be employed as the "teacher of record" in a public school in one of the school districts.

CIED 5399. Practicum in Classroom Instruction II. 3 Hours.

This course is designed for the candidate who possesses a baccalaureate degree from an accredited university, is seeking Texas teacher certification, has met all requirements for admission to the teacher education program, and is eligible for an internship as defined by the Texas Education Agency guidelines. The intern should be employed as the "teacher of record" in a public school in one of the school districts.

Prerequisite: CIED 5398.

CIED 7088. Special Topics. 1-3 Hours.

This course offers graduate students the option of registering for a multi-topic course. The student can take the course under various special topics being offered. Variable Credit (1 to 3). Course Equivalents: LITC 7088, READ 7088 .

CIED 7331. Teaching Strategies for Developmental Mathematics. 3 Hours.

This course explores research and practical application of mathematical concepts related to developmental mathematics education. Principals of learning, students' mathematical strategy development, assessment/evaluation of teaching/learning, and the use of instructional technology will be examined using research-based best practices in developmental mathematics education.

CIED 7339. Policy and the Curriculum. 3 Hours.

Students examine the impact of educational policy as it influences K-12 education and the curriculum in Texas and the United States. Key concepts in educational policy and the way in which the policies impact systems of education at the local, state, and national level are examined, as are power structures created by educational policies. The course also considers the influence of curricular theories and policies.

Prerequisite: Admission to the Ed.D. program in Literacy.

CIED 7349. Curriculum Studies. 3 Hours.

Students engage with the history of curriculum studies while simultaneously looking ahead to its future. They discuss the best in past and present curriculum studies scholarship, engage in thoughtful combinations of well-recognized and pivotal work providing a complete survey of the discipline, coupled with concrete examples of innovative curriculum and an examination of current topics, and analyze contemporary and historical contributions tackling issues such as high-stakes testing, multicultural literacy, and climate change.

Prerequisite: Admission to the Ed.D. program in Literacy.

CIED 7359. Learning Theories and Praxis. 3 Hours.

Candidates integrate foundational research and current knowledge to present original perspectives on learning theories and curricular design from childhood through adulthood. Topics such as the social context of learning, self-directed, informal, and non-formal learning, critical perspectives on learning theories, including epistemological considerations in learning, as well as cognitive and socio-cognitive development are covered.

Prerequisite: Admission to the Ed.D. program in Literacy.

CIED 7369. Philosophical Foundations of Education. 3 Hours.

Students study the strong overlap between philosophy and education with emphasis on the implications of their presuppositions for educational theory and practice. Philosophies of education and theories of schooling are applied to the study of current practices and issues in education and to the development of educational policy and practice.

Prerequisite: Admission to the Ed.D. program in Literacy.

CIED 7379. Educator Activism, Equity, and Advocacy. 3 Hours.

Students investigate educator activism with a focus on tangible steps to create change through advocacy and action. The course focuses on how themes of conflict, compromise, cooperation, and consensus found in curricula can be addressed with an intentional mindset that promotes cooperation and solution driven instruction.

Prerequisite: Admission to the Ed.D. program in Literacy.

CIED 7389. Advanced Survey of Curriculum Research in Education. 3 Hours.

Seminar topics are presented which address a wide variety of current issues and questions of interest to literacy educators and researchers. Topics are designed to assist doctoral students gain currency in specific areas and to explore a possible research agenda. These topics range from international literacy, literacy in an electronic age, to planning literacy pedagogy for teacher preparation programs. Course Equivalents: READ 7301 .

CIED 7390. Assessment Of Math Learning. 3 Hours.

This course will be one of four education classes used in the doctoral program in mathematics education. Topics will include classroom assessment, standardized tests, and assessment instruments for research in mathematics education.

CIED 7393. Research In Mathematics Education. 3 Hours.

This course will be one of four education classes used in the doctoral program in mathematics education. Topics will include selecting a research topic, research instruments, research statistics, and writing the paper.

CIED 7395. Current Issues In Mathematics Education. 3 Hours.

This course will be one of four education classes used in the doctoral program in mathematics education. Topics will include curriculum, textbooks, standards, accountability, parental involvement, legal issues, ethics, and testing.

CIED 7396. Theories Of Learning Math. 3 Hours.

This course will be one of four education classes used in the doctoral program in mathematics education. Topics will include theories of learning mathematics, information processing, cognitive theories, and constructivist theories.

Dance (DANC)

DANC 5092. Special Topics. 1-3 Hours.

Special Topic. The course content and subject matter for this course is adaptable to the needs of the student body and provide additional opportunity for student investigation of a topics not generally offered in the graduate dance curriculum. May be repeated for credit provided the repetition is in a different area of study. Variable credit (1-3).

Prerequisite: Graduate standing or department approval.

DANC 5093. Independent Study. 1-3 Hours.

This course is adaptable to the needs and interests of the individual student. Students with specific interests are provided the opportunity to investigate and make application in theoretical, creative or field experience approaches to their area of concentration. May be repeated provided the repetition is in a different area of study. Course Equivalents: DANC 5377, DANC 5393

Prerequisite: Permission of Dance Program Coordinator.

DANC 5301. Pilates Teaching Methods Seminar. 3 Hours.

Students prepare to teach Pilates Matwork from the fundamental through the Super Advanced level in a class or individual private setting. Essential aspects of the course include personal practice, observation of professional Pilates teachers in practice, and student teaching hours.

Prerequisite: Acceptance into the MFA program.

DANC 5333. Development of Advanced Skills In Dance. 3 Hours.

This course includes theoretical concepts and laboratory experiences in dance technique. Course may be repeated for credit with approval of Graduate Advisor of Dance.

DANC 5360. Seminar In Dance Production. 3 Hours.

This course provides experience and information regarding all aspects of dance performance production. Content areas include costuming, lighting and sound design as well as practical skills, such as light board operation, sound recording, and board operation.

DANC 5371. Theory Of Dance. 3 Hours.

An examination is made of the philosophical context within which of dance as an art form functions. Two vastly contrasting aesthetic theories are presented and explored as a means to developing in the student a well-considered and grounded personal aesthetic.

DANC 5373. Laban Movement Analysis. 3 Hours.

Students are provided an overview of Laban Movement Analysis at the graduate level. Course emphasis is placed on the areas of Body, Effort, Shape, and Space as means of describing and understanding non-verbal communication. Focus is on the psychophysical connections that facilitate efficiency and expressivity in movement. Course concepts are introduced through observation, improvisation, exploration, composition, readings, group discussions, and movement assignments. The methodologies of observation and description are explored as means of identifying and analyzing the meaningful and qualitative aspects of human movement. A brief history/application of LMA is included in the curriculum.

Prerequisite: PHYS 1305 and BIOL 2401 or their equivalents.

DANC 5376. Dance Composition I. 3 Hours.

This course includes the analysis of various components of design and development of basic dance studies into more extended dance works.

DANC 5378. Dance Composition II. 3 Hours.

The purpose of this course is to extend understanding of dance as an art and a craft and to improve ability to choreograph an extended dance work.

Prerequisite: DANC 5376 or permission of instructor.

DANC 5380. Dance Composition III. 3 Hours.

This graduate level choreography course builds upon earlier classes as students examine various approaches to the creative process. Emphasis is placed on preparing students for the graduate thesis concert. Exercises and assignments test the student's ability to adapt to a variety of situations and hone problem-solving skills.

Prerequisite: DANC 5376, DANC 5378.

DANC 5384. Dance Pedagogy in Higher Education. 3 Hours.

Students examine various philosophical, theoretical, and methodological approaches to dance pedagogy for teaching at the collegiate level. Content areas include practical application of methods and theories, including designing lesson and unit plans, and composing teaching philosophies.

DANC 5385. Research Methods In Dance. 3 Hours.

Research methods specific to dance theory, choreography, and performance are introduced. Standard and electronic information resources, methods of investigation, and various means of organizing a review of literature are examined. Written and organizational skills are evaluated.

Prerequisite: Graduate standing or permission of the instructor.

DANC 5388. Dance and Integrated Technology. 3 Hours.

Students are introduced to methods of integrating media technologies into the dancer's experience in the areas of dance graphics, sound design for dance, and dance video. Graduate students learn camera, computer and software skills that facilitate their ability to expand creative expression as well as enhance their ability to package and promote themselves as artists in a variety of media.

DANC 5389. Professional Issues in Dance. 3 Hours.

This course is designed for the graduate level student who is preparing to enter the dance profession. Major emphasis will be placed on identifying professional issues in the field of dance and preparing the student for career advancement. By the end of this course, each student will create and package a portfolio in the areas of performance, choreography and academia.

DANC 6098. Thesis. 1-3 Hours.

This phase of the thesis development involves the selection and design of a suitable performance and/or creative project with the completion of review of related literature and research work necessary. The thesis committee must approve a pilot showing of the work-in-progress. Variable Credit (1-3). Course Equivalents: DANC 6398.

DANC 6099. Thesis. 1-3 Hours.

The exhibition of the thesis consist of a formal thesis concert of the student's performance and/or creative work accompanied by a supporting thesis portfolio. The written paper must comply with the specifications of the written thesis, which are available online via SHSU's Newton Gresham Library website. The student must also pass an oral examination, testing general knowledge of dance concepts and traditions that relate to his/her thesis work. (The student must be registered in DANC 6099 the semester in which he/she receives the M.F.A. degree.) Variable Credit (1-3). Course Equivalents: DANC 6399

Prerequisite: Dance 6098 and permission of thesis committee.

Developmental Education (DVED)

DVED 7088. Special Topics in Developmental Education Administration. 3 Hours.

This course offers graduate students the option of registering for a multi-topic course. The student can take the course under various special topics being offered.

DVED 7089. Independent Study in Developmental Education Administration. 1-3 Hours.

Students are provided an opportunity to engage in a detailed field study of a program or problem in developmental education administration. The student works under the supervision of a doctoral faculty member and is expected to produce a written product or presentation.

DVED 7110. Doctoral Study - Developmental Education Administration. 1 Hour.

Students are provided an orientation to doctoral studies in educational leadership, topics of current interest to doctoral students in developmental education administration, and information regarding areas of study and research related to the doctoral program. May be repeated for a total of three credits.

Prerequisite: Admission to the Ed.D. in Developmental Education program.

DVED 7336. Internship in Developmental Education. 3 Hours.

Students participate and are evaluated in an intensive study and field experience relating to positions in developmental education. Doctoral students acquire insight into problems in the leadership process in an operational setting distinct from prior or concurrent work experience.

DVED 7360. Developmental Education and Postsecondary Students. 3 Hours.

Students focus on the populations served by developmental education programs, define developmental education, and explore the historical perspective of the need for developmental education and student development theories. Students' needs, model programs, and best-practices for student learning, development, and retention are explored through collaboration, research and independent inquiry. Course Equivalents: EDLD 7360 .

DVED 7364. Advanced Learning Theory in Developmental Education. 3 Hours.

Students explore an advanced array of learning theories and how these apply specifically to developmental education. Students are required to develop operational models using research in learning theory to facilitate organizational change and implementation of new paradigms in developmental education. An understanding of student learning utilizing the latest pedagogy and technologies grounded in the neurosciences and the new sciences are included. Students become familiar with learning theories and how these theories are applied to diverse educational environments. Course Equivalents: EDLD 7364 .

DVED 7365. Student Noncognitive Development. 3 Hours.

Students explore the development of the whole student with particular interest on areas other than the growth of intellectual competence. Psychological, economic, social and physical barriers to student development are studied. D. program in Developmental Education.

Prerequisite: Admission to the Ed.

DVED 7366. Outcome Assessment in Developmental Education. 3 Hours.

Students focus on evaluation criteria and formative and summative evaluation of developmental students. A general model for evaluation of developmental programs, preparation of evaluation reports, and relevant research findings on student and program evaluation are explored and examined. Course Equivalents: EDLD 7366 .

DVED 7367. Designing Learning Environments in Developmental Education. 3 Hours.

Students focus on instructional design and development, theoretical/philosophical approaches to teaching, current research in developmental instruction, and cognitive and non-cognitive factors in learning and classroom assessment. Students explore major issues, problems, methods, and best practices in the design and delivery of developmental education and learning assistance. Course Equivalents: EDLD 7367 .

DVED 7373. Statistical Methods for Developmental Education. 3 Hours.

This course is designed to familiarize doctoral students with the logic and dynamics of the research process in education and provide students with the opportunity to develop skills in posing research questions, designing studies, collecting and examining data, and interpreting and reporting research results. In particular, students are taught how to use a variety of introductory-level statistical techniques to analyze quantitative data in education research. Students learn to (a) use statistical software to analyze data and (b) present results in an acceptable written format for social scientists. The curricula for this course include knowledge of the literature of the discipline and ongoing student engagement in research related to professional practice. Credit 3

Prerequisite: EDLD 7362.

DVED 7387. Independent Study. 3 Hours.

Students are provided an opportunity to engage in a detailed field study of a program or problem in developmental education. Students work under the supervision of a doctoral faculty member and are expected to produce a written product or presentation.

DVED 8033. Dissertation Preparation. 1-6 Hours.

Students work to complete an approved dissertation which will contribute to developmental education. Minimum of 9 hours total required.

Prerequisite: Completion of required Leadership Core and Research Component coursework and successful completion of comprehensive exam.

Dietetics (DIET)

DIET 5079. Dietetic Internship Practicum. 1-3 Hours.

This course is composed of a supervised internship in an area of specialization. Course may be repeated for credit. Variable Credit (1-3).

DIET 5367. Consumer & Food Technology. 3 Hours.

Investigations of recent developments in food production and marketing; consideration of physical and chemical factors influencing the quality of food; implications and guidelines for the consumer. Course Equivalents: FACS 5367 .

DIET 5383. Research Problems. 3 Hours.

This course is tailored to the needs of students in the Dietetic Internship (DI) Program in regard to research, project development, and problem solving. Each student will conduct an individual project. As a team, students will develop a case study based on a nutrition problem with a culturally diverse target population group. Students will develop and market a brochure based on solutions to the developed study. Course Equivalents: FACS 5383

Prerequisite: HUSC 5330 and SOCI 5314.

DIET 5385. Sports Nutrition. 3 Hours.

This course is designed for students to review evidence-based research of nutrient requirements of health promotion and wellness, and for competitive sports in children, adolescents, adults and the elite athlete. Students will be taught various strategies and interventions to provide effective dietary changes for the performance enhancement of athletes across the life cycle in multiple levels of sport activities. Course Equivalents: FACS 5385

Prerequisite: Graduate Standing.

DIET 5395. Dietary Supplements. 3 Hours.

This course will prepare students for identifying the potential benefits or harmful effects of dietary supplements for health, wellness, and medical intervention for illness or athletic performance. A review of the botanical properties and complementary medicinal claims of popular dietary supplements commonly used in various cultures will be reviewed for preventative health, medicinal intervention, and potential ergogenic aids. The Dietary Reference Intakes (DRI)'s for several vitamins and minerals released by the Institute of Medicine's Food and Nutrition Board will also be reviewed. Credit 3 Course Equivalents: FACS 5395

Prerequisite: Graduate Standing.

DIET 5396. Cultural Food Counseling. 3 Hours.

This course focuses on nutrition education strategies and interventions that will improve dietary patterns that relate to cultural values and mores associated with food habits and behaviors. Students will explore and appreciate the cultural factors that affect food patterns, cultural competency, and appropriate medical nutrition therapies and interventions. Course Equivalents: FACS 5396

Prerequisite: Graduate Standing.

DIET 5398. Public Health Nutrition. 3 Hours.

This course emphasizes the various roles of public health nutritionists in the context of global public health concerns and programs, and the role dietitians play in numerous public health programs. Research approaches and core competencies of public health nutritionists, global, and national public health goals and objectives, and interventions within public health nutrition programs are investigated in the course. Course Equivalents: FACS 5398 .

Digital Forensics (DFSC)

DFSC 5050. Independent Study. 1-3 Hours.

Students work on a specific research topic under a faculty member's supervision. The specific topic or problem will be chosen from current trends and future research directions, which are not covered in the current Digital Forensics curriculum, and Information Assurance and Security graduate curriculum. Therefore, the course content will vary based upon the topic that both the student and the mentoring faculty member choose. Variable Credit (1 to 3).

Prerequisite: Consent of instructor.

DFSC 5310. Principle and Policy in Information Assurance. 3 Hours.

Students engage in an investigation into the development of security planning and policy formation, risk management, security education, training and awareness programs. Students examine physical and electronic approaches to data protection and derive appropriate assessment strategies for determining the assurance quality of target systems.

DFSC 5315. Network and Cyber Security. 3 Hours.

Students are provided the framework and procedures for securing computer systems and data networks. Topics may include the methodologies for the design of security systems, establishing security protocols, and the identification of best practices in administration, testing, and response protocols for secure communications systems.

DFSC 5316. File System Forensics. 3 Hours.

Students focus on the important concepts associated with the structures, encoding, boot process and storage technologies of modern computers, and the implications of those concepts regarding the analysis of volumes and file systems for forensics purposes.

DFSC 5317. Digital Security. 3 Hours.

Students are introduced to basic security needs. Topics may include, but are not limited to examination of individual vs. government privacy issues, federal encryption standards, the different layers of security currently available, cryptography, and strategies for evaluation and selection of security methods.

DFSC 5318. Cyber Law. 3 Hours.

Students focus on how the law impacts digital security in diverse ways. Discussion will emphasize the concept of criminal intent, the digital victim as well as address jurisdictional issues and provide an overview of legal terms and issues with which the security manager must address.

DFSC 5325. Organization System Security. 3 Hours.

Students engage in an advanced study of system security concepts as applied to the protection of organizational systems, including (1) principles of security modeling, accountability, and access control; (2) the ISO model for network infrastructure design and protection; (3) communication security and control management; (4) auditing and monitoring; (5) incident management; and (6) law, investigations, and ethics.

Prerequisite: DFSC 5310.

DFSC 5327. Digital Forensics Investigation. 3 Hours.

Students explore tools for the recovery of information on hardware or hidden within other formats. Topics may also include cryptographic analysis, password recovery, the bypassing of specific target operating systems, and obtaining data from a digital device that has been destroyed.

DFSC 5328. Software Forensic Evidence Management. 3 Hours.

Students engage in an analysis of investigative techniques and tools in the detection, investigation, and analysis of digital crimes. Students examine the nature of cyberevidence and the tracking and identification of cybercriminals.

DFSC 5336. Business Continuity Management. 3 Hours.

Students examine identification and assessment of threat, risk, vulnerability, and business continuity in case of disaster, as applied to enterprise IT systems. Students explore the physical safeguards and policies necessary to meet the requirements for the protection of data in a fixed site. In addition, techniques and strategies designed to keep enterprise data in service under critical circumstances are discussed.

DFSC 5338. Ethical Hacking. 3 Hours.

Students learn penetration testing and vulnerability analysis of information technology systems. Topics may include in-depth methodologies, techniques, and tools to identify and exploit vulnerabilities, and also assess security risks to networks, operating systems, and software applications.

DFSC 5340. Special Topics in Digital Forensics. 3 Hours.

Topics and courses are selected to suit individual needs of students. The course may be repeated for additional credit.

Prerequisite: Approval by the graduate advisor.

DFSC 6310. Cyber Warfare & Terrorism. 3 Hours.

Students focus on philosophies, tactics, and targets of cyber terrorist organizations. The course may include discussion of emerging cyber war trends and the roles of the private sector and U.S. Government in responding to, mitigating and preventing electronic offensive actions.

DFSC 6312. Multimedia Forensics. 3 Hours.

Student examine the theory and practice of multimedia security and forensics. Topics may include image processing, JPEG compression, audio compression (MP3, Advanced Audio Coding, and VOIP), MPEG compression, multimedia source identification, biometrics, steganography, steganalysis, multimedia forgery detection, and pattern recognition techniques for multimedia analysis, multimedia forensics software, and advances in multimedia forensics.

DFSC 6313. Wireless Network Security. 3 Hours.

Students are provided advanced study of the full range of algorithms, mechanisms, and technologies in securing various types of wireless communication networks, such as cellular networks, Wireless Local Area Networks, Bluetooth Networks, Mobile Ad Hoc Networks, and Wireless Sensor Networks. Research and applications are explored.

DFSC 6347. Directed Management and Development Project. 3 Hours.

Students are provided the rationale and necessity for a full range of security concepts and techniques and how to apply them to multiple operating systems. Students cover methodologies for the design of operating system security and forensic techniques for operating systems. In addition, the identification of best practices in the administration, testing, and security for operating systems is covered. Continuous enrollment in DFSC 6347 is required until graduation.

Prerequisite: 24 hours graduate coursework.

DFSC 6410. Cyber Forensics Principles. 4 Hours.

Students explore the skill set and conceptual understanding required by digital and cyber forensic scientists and researchers operating in a heterogeneous hardware, software, and network environment. Topics may include hardware and software principles, forensic protocols, data acquisition and discovery of evidence, applicable law, the design, benefits and limitations of digital forensics tools, analysis techniques, and report writing.

DFSC 7106. Seminar in Digital Forensics. 1 Hour.

Students are immersed in emerging trends and issues in digital and cyber forensics. The content of the course may vary from semester to semester but includes analysis of current research, security concerns, standards publications, and professional issues.

DFSC 7300. E-Discovery. 3 Hours.

Students explore the initial phase of litigation to find and provide relevant electronic information and records, or electronically stored information, related to a legal case. Technical content of this course includes records management policies and procedures, and E-Discovery applications and technologies for locating and extracting information and records from massive volumes of data in timely and cost efficient ways.

DFSC 7320. Ethics for Digital Forensics. 3 Hours.

Students examine the ethical issues surrounding the collection, preparation, interpretation, and reporting of digital evidence. The American Academy of Forensic Sciences Code of Conduct and the Digital Forensics Certification Board's Code of Ethics and Standards of Professional Conduct are critically examined and explored. Students examine case materials that feature ethical conflicts and approaches to resolving ethical dilemmas.

DFSC 7330. Digital Forensics Laboratory Management. 3 Hours.

Students examine techniques to cost-effectively establish and manage a computer forensics laboratory, and its subsequent support to successfully conduct computer-related criminal investigations. Topics may include case and evidence management, development of laboratory policies and procedures, funding a digital forensic lab, competency and proficiency testing, equipment validation and verification, lab accreditation from organizations such as the American Society of Crime Lab Directors (ASCLD), and compliance with ISO standards.

DFSC 7340. Digital Forensics Tools & Techniques. 3 Hours.

Students explore the use of commercial and open-source tools for the identification, collection, and analysis of digital evidence. Topics may include the principles of locating and seizing digital evidence, best practices in evidence management, protocols for comprehensive analysis, and a comparative analysis of digital and cyber forensic tool performance.

DFSC 7341. DF Infrastructure. 3 Hours.

Students focus on the development of laboratory policies and procedures, funding a digital forensics lab, training and certification of examiners, competency and proficiency testing. Topics may include validation and verification of digital forensics equipment, compliance with ISO standards, and management of the forensic laboratory.

DFSC 7350. Operating System Forensics. 3 Hours.

Students explore required background knowledge, theory, and practical skills in operating system forensics, including hard disk data acquisition, volume analysis, file system data structure analysis, registry analysis, memory analysis, malware detection, and timeline analysis.

Prerequisite: DFSC 5316.

DFSC 7351. Cloud Computing Forensics. 3 Hours.

Students focus on the security, vulnerabilities, digital evidence retrieval, analysis, and maintenance in virtualized infrastructures and cloud environments. Topics may include the chain of cloud service providers, cloud customers and the complexity of dynamic chain of dependencies between them, and the approaches, methods, and tools that can be used in forensic analysis in virtual and cloud environments.

DFSC 7352. Network Forensic Analysis. 3 Hours.

Students examine start-to-finish methodology and tools for managing network forensics investigation, enabling students to uncover powerful forensic evidence from routers, firewalls, intrusion detection and prevention systems, web proxies, and other network devices. Topics may include network evidence acquisition, packet analysis, network flow analysis, wireless network forensics, network log analysis, and network device forensics.

Prerequisite: DFSC 6410.

DFSC 7353. RAID & Remote System Forensics. 3 Hours.

Students examine the theories and practices of RAID (Redundant Array of Inexpensive Disks) and remote system forensics. Concepts addressed in this course include disk imaging, retrieval, maintenance, backup, analysis, and presentation of digital evidence from RAID and remote systems.

Prerequisite: DFSC 7340.

DFSC 7355. Intrusion Forensic Analysis. 3 Hours.

Students study and practice intrusion detection, vulnerability assessment, and penetration testing. Topics may include traffic analysis, intrusion detection methods and systems, intrusion detection system evaluation, vulnerability assessment, methods, techniques, and tools for penetration testing, and system and network security evaluation and assessment.

Prerequisite: DFSC 6410.

DFSC 7356. Mobile Device Forensics. 3 Hours.

Students explore the required background knowledge, theory, and practical skills pertaining to mobile device forensics. Topics focus on the most widespread operating systems on the mobile market. Students examine mobile device evidence collection, data recovery and analysis techniques and tools, system file recovery, deleted file recovery, and the examination of unallocated space.

Prerequisite: DFSC 7350.

DFSC 7357. Malware Forensic Analysis. 3 Hours.

Students explore the concepts and techniques for analyzing, dissecting, debugging, and reverse engineering malicious software. Forensic techniques for protection and recovery from malicious code are examined in detail.

DFSC 7358. Live System & Memory Forensics. 3 Hours.

Students examine advanced collection and analysis of digital evidence from systems and networks when they are running. Topics may include data acquisition, memory, network connections and traffic, user accounts and passwords, environmental variables, and system and application logs. The course also includes the comparison and evaluation of live forensic tools and techniques.

Prerequisite: DFSC 5316.

DFSC 7359. Social Network Forensics. 3 Hours.

Students examines techniques used to conduct a digital forensic analysis of social networking websites and smart phone social networking applications. In addition, students explore social media artifacts left on computers, such as artifacts in Internet history files, cache, chat logs, web logs, comments, and requests in blogs.

DFSC 7360. Digital Forensics Research Methods. 3 Hours.

Students examine appropriate techniques for the construction of sound research projects. Identification of appropriate research questions and hypotheses, the critical analysis of sources, the development of explanatory models, the selection of appropriate testing mechanisms, and the presentation and interpretation of results are addressed. Emphasis is placed on the development of research and writing capabilities. Case studies from current digital and cyber forensic research are presented.

Prerequisite: DFSC 7362.

DFSC 7362. Computational Forensics. 3 Hours.

Students examine principles and uses of computational intelligence methodologies and algorithms in soft computing and digital forensics. Students become familiar with core concepts of each algorithm and a broad perspective of emerging applications to practical problems in digital forensics. Topics may include fuzzy sets, rough sets, artificial neural networks, evolution computing, probabilistic reasoning, and their applications to digital forensics.

DFSC 7364. Scientific Communications. 3 Hours.

Students examine aspects of scientific communication, specifically writing in the disciplines. The goal of this course is to enable students to write professionally in the field of digital and cyber forensic science. The course includes strategies on writing research papers, dissertations, grants, and conference presentations. Emphasis is placed on how to use multi-media effectively in presentations and technical communications.

DFSC 7365. Commercial Tool Verification. 3 Hours.

Students focus on the principles and techniques in software testing, including the design of high quality tests, the theory behind criteria-based test design, and its application in practice. Topics may include test design, test automation, test coverage criteria, and how to test software in cutting-edge software development environments. Topics may also include proving correctness and static and dynamic analysis.

Prerequisite: DFSC 7340.

DFSC 7600. Internship. 6 Hours.

This is a ten-week, full-time internship in an approved digital forensic science laboratory. This opportunity allows graduate students to apply their theoretical knowledge, practical skills and abilities in a digital forensic science setting.

DFSC 8370. Dissertation. 3 Hours.

This course must be taken five times to obtain 15 hours of credit to satisfy degree requirements for the PhD in Digital and Cyber Forensics Science.

Prerequisite: Successful completion of requirements for admission to candidacy in the Digital and Cyber Forensic Science PhD program.

DFSC 8670. Dissertation II. 6 Hours.

Doctoral candidates develop and finalize their dissertation during this second step of the dissertation process. Under the direction of a dissertation chair and dissertation committee, each doctoral candidate writes a dissertation manuscript in preparation for the dissertation defense. Topics may vary with scopes and stages of individual research projects, and they may include problem statement, research questions, literature review, proposed methodology, system implementation, data collection, data analysis, platform presentation, and dissertation publication.

Prerequisite: Doctoral candidacy in the PhD program in Digital and Cyber Forensics.

Early Childhood Education (ECHE)

ECHE 5343. Curriculum Development-Early Childhood Education. 3 Hours.

Study is made of the scope and sequence of learning experiences for young children. Current research on early childhood curriculum development and model programs is examined. The professional standards and Texas Essential Knowledge and Skills (TEKS) for Pre-kindergarten and Kindergarten are presented.

ECHE 5349. Language and Literacy Development in the Young Child. 3 Hours.

A study is made of the current theories, research, and myths surrounding the development of language in the young child. Students will examine language programs and prepare appropriate language materials for preschool/primary children.

ECHE 5355. Current Practices in Early Childhood Settings. 3 Hours.

The course includes planning and developing research-based materials and thematic units for use with young children. An in-depth study of the project approach is presented.

ECHE 5363. Building Relationships with Diverse Families and Children. 3 Hours.

This course is an in-depth study of the relationship between families and schools in diverse communities. Topics addressed include discussions of major theories that support partnerships with parents; models for parent, school, and community partnerships; home, school, and community influences on children's lives; parenting styles; family dynamics; parent education strategies; communicating with parents; and the rights and responsibilities of parents, children, and teachers. Experiences with young children and their families will be required.

ECHE 5373. Theoretical Perspectives in Early Childhood Education. 3 Hours.

Study is made of the historical and philosophical roots of early childhood education from the middle ages to contemporary practice. An in-depth study of theorists, programs, and methods will be an integral part of the course.

ECHE 5375. Development Of The Young Child. 3 Hours.

An examination of theory and current research concerning the growth and development of the individual through the eighth year of life is made. The course relates theory and research to present concerns of individuals in the helping profession through the study of intellectual, psychological, and social interrelationships. Experiences in the procedures of child study is provided.

ECHE 6088. Special Topics in Early Childhood Education. 1-3 Hours.

The topic(s) included will vary with academic program and semester offered. Course Equivalents: ECHE 5388 .

ECHE 6089. Independent Study in Early Childhood Education. 1-3 Hours.

This is a course designed for independent study of selected topics under the supervision of a faculty member. Variable Credit (1-3).

Prerequisite: Consent of Department Chair.

Economics (ECON)

ECON 5080. Independent Study. 1-3 Hours.

A directed individual study is made of a selected problem in the field of economics. Variable credit (1-3). Course Equivalents: ECON 5380

Prerequisite: Approval of Department Chair and Graduate Coordinator.

ECON 5085. Special Topic. 1-3 Hours.

This course of faculty-led study is designed to provide graduate students exposure to new Economics topics and concepts in a course setting. Variable credit (1-3). Course Equivalents: ECON 5385 .

ECON 5300. Economic Principles And Policy. 3 Hours.

An intensive study of microeconomic and macroeconomic concepts; the price system and how it functions under various market structures including perfect competition, pure monopoly, and imperfect market structures including monopolistic competition and oligopoly; resource markets; national income measurement and determination; inflation and unemployment; money and banking; economic stabilization including monetary and fiscal policy; international policy. This course does not apply to the 36-hour graduate credit hour requirement of the MBA degree program.

ECON 5301. Mathematical Methods for Applied Economics. 3 Hours.

Students analyze and apply mathematical methods that are essential to graduate studies in economics and related disciplines. Topics include matrix algebra, differential calculus, optimization, and their applications to economic modeling.

ECON 5305. Microeconomics. 3 Hours.

Students analyze the behavior of consumers, firms, and markets. Topics include consumer choice models, firms' costs, profits maximization, market structures, uncertainty, and market failures.

Prerequisite: ECON 5301.

ECON 5307. Macroeconomics. 3 Hours.

Students analyze current evidence and theories concerning economic growth and business cycles. Moreover, students will examine the use of fiscal and monetary policies to achieve competing macroeconomic goals of price stability and full employment.

Prerequisite: ECON 5301.

ECON 5325. Econometrics. 3 Hours.

Students examine methods used to estimate, interpret, and apply econometric methods for statistical models in a variety of business and economics settings. Topics include methods for linear cross-sectional models, linear panel-data models, and binary-outcome models.

Prerequisite: BANA 5368.

ECON 5340. International Economics. 3 Hours.

Students analyze a range of topics in international economics with a focus on trade theories, globalization, and financial systems.

Prerequisite: ECON 5305.

ECON 5348. Development Economics. 3 Hours.

Students focus on the microeconomic approaches to poverty-related problems faced by low-income countries. Students analyze the role of human capital, nutrition, infrastructures, credit market, agriculture, program evaluation, and institutions in the development process of low-income countries.

ECON 5350. Applied Topics in Health Economics. 3 Hours.

Students analyze the structure and functioning of the healthcare markets and economic equilibrium in healthcare markets using microeconomic and industrial organization principles. Topics include Grossman's model of demand for healthcare, supply of healthcare, equilibrium in healthcare market under uncertainty and asymmetric information, market failure, role of insurance and risk analysis, and cost-effectiveness/benefit analysis.

ECON 5351. Seminar In Labor Economics. 3 Hours.

Labor economics focuses on short-run and long-run aspects of supply and demand of labor, including theory and empirical analysis of the behavior of participants in the labor force. Readings in current labor economics literature and appropriate research topics will be covered, including the history of labor organizations. Frequent topics include the microeconomic effects of marriage, fertility, and mobility on labor supply, as well as the macroeconomic effects of unemployment on inflation.

ECON 5352. Energy Economics. 3 Hours.

Students use microeconomic techniques to rigorously examine contemporary energy issues. The market structures for various international energy markets are analyzed, as well as the opportunities and challenges of government regulation and de-regulation of energy markets. Economic analysis of business practices and consumer behavior in markets for renewable energy are emphasized.

ECON 5357. Seminar in Managerial Economics. 3 Hours.

This course surveys the fundamental principles of economics that are most relevant to managerial decision-making. Students apply recent developments in economic analysis to topics such as market analysis, profitability and pricing, strategic behavior, and choice under risk and uncertainty.

ECON 5360. Economic Analysis Of Strategy. 3 Hours.

A study of game theoretical tools and their application of important real-world economic phenomena. Topics include: the organization of industry, labor and work-place economics, international trade policies, government and voting strategies, the role of legal institutions in the economy, and bargaining and bidding strategies.

ECON 5370. Economic Theory. 3 Hours.

An integration of micro and macro economic theory with special emphasis on how various economic policy choices may impact the operation of business firms and the national economy. The course requires students to find micro and macroeconomic issues of current interest, gather related quantitative data, and review recent research that apply/test the theories covered in this course.

ECON 5373. Urban Economics. 3 Hours.

Students analyze the economic forces that determine location choices of firms and individuals, as well as the existence and performance of urban agglomerations resulting from these location choices. The methodologies used to measure the spatial distribution of economic activity, public policy solutions to market failures, and urban economic development are examined.

Education Administration (EDAD)

EDAD 5088. Special Topics in Education Administration. 1-3 Hours.

The topic(s) included will vary with academic program and semester offered. Note: Maximum of six hours of coursework allowed in a student's program. Course Equivalents: EDAD 5387 .

EDAD 5089. Independent Study in Education Administration. 1-3 Hours.**EDAD 5332. School Leadership. 3 Hours.**

Students are introduced to the basic activities of educational management, theories and concepts, organization, and governance of the public schools.

EDAD 5352. Communication for Educational Leadership. 3 Hours.

Students are provided with the opportunity to assess and improve their verbal, written, and oral communication skills. Group dynamics and leadership approaches to conflict management, team building, and crisis management are addressed. The content is designed to familiarize students with communication skills necessary for leadership in educational organizations and facilitate their communication skills with others.

EDAD 5372. Federal, State, and Local School Law. 3 Hours.

Students study the legal basis of school control; the relation of the federal government to public education, the state as the fundamental legal unit in organization and administration of a state system of schools; the district as the unit of local school control; and legal duties and responsibilities of the state and local boards of education.

EDAD 5386. Special Populations and Special Programs. 3 Hours.

Students learn about special programs offered in public schools such as the following: special and compensatory education, bilingual and ESL education, adult and continuing education, gifted/talented, and vocational and technical education.

EDAD 6110. Workshop in Educational Leadership. 1 Hour.

Students in this course examine current topics in educational leadership. The topics selected for the workshop will be based on needs identified through collaborative endeavors with schools, service centers, professional organizations and governmental agencies. The course may be repeated for a maximum of three hours.

EDAD 6310. School Culture and Communication. 3 Hours.

Students explore effective leadership strategies and practices to improve the school culture, student learning, and teacher growth as well as to ensure the development of collegial relationships and effective collaboration.

EDAD 6362. Principal Practicum/Internship. 3 Hours.

This laboratory course is designed to provide students intensive study and field experience in problems relating to a specific job at the elementary, middle or senior high school level.

EDAD 6370. Campus Business Management. 3 Hours.

Students learn basic campus accounting and budgetary functions as well as the management of the school facility/plant. Students study basic concepts of management of campus activity funds, personnel management, budgetary functions, translating student academic needs into the budget, public finance, facility management; and problems in local, state, and federal support of education.

EDAD 6371. Role of Principal in School Administration. 3 Hours.

This course is designed for school leaders. Consideration is given to organization, program curriculum, plant supervision, and evaluation for the principal functioning at the elementary, middle, or senior high school level.

Prerequisite: Graduate standing.

EDAD 6375. Women in Educational Leadership. 3 Hours.

Students address issues and challenges of particular interest to women in educational leadership positions. The course is designed to encourage prospective women administrators by enhancing leadership, interpersonal, and motivational skills.

EDAD 6378. Instructional Supervision. 3 Hours.

Students explore the development of effective leadership strategies to improve student achievement through curriculum, instruction, assessment, and professional development.

EDAD 6379. Program Evaluation For School Improvement. 3 Hours.

Students develop an understanding of the program evaluation process for overall school improvement and become critical consumers of research to guide decision-making; access resources, databases, and best practice models to inform effective leadership; and effectively use student assessment data to promote academic achievement and intervention programs.

EDAD 6380. Executive Leadership for Superintendents. 3 Hours.

Students develop skills to assume the role of the contemporary superintendent. This course consists of topics, content, and independent inquiry that address the specific and unique leadership needs of districts.

EDAD 6381. District Business and Financial Management. 3 Hours.

Students develop skills to understand basic district accounting and budgetary functions as well as the management of district facilities. This course deals with basic concepts of management of campus activity funds, personnel accounting, instructional budgetary functions, translating student academic needs into the budget, public finance; problems in local, state, and federal support of education and state financial systems with emphasis on Texas; local taxation; budgeting; financing capital items; and fiscal management.

EDAD 6382. Human Resource Management. 3 Hours.

Students study the administrator's role in recruiting and retaining adequate staff. Such topics as recruitment, salary policy, tenure, leaves, contractual obligations, evaluation systems, and academic freedom are considered.

Prerequisite: 12 hours of Principalship core coursework.

EDAD 6383. Learner Centered Leadership. 3 Hours.

Students study the duties and responsibilities of the school district superintendent related to instructional leadership at the district level. This course includes the leadership responsibilities including the importance of collaborative district improvement planning, developing a district culture of high academic expectations, the current state academic accountability system, as well as a systematic coordination of the curriculum, instruction and assessment programs.

EDAD 6384. Superintendent Practicum. 3 Hours.

Students are provided specific opportunities, independent inquiry, and experiences that are necessary for the dispositional and affective elements of the superintendency as candidates learn to manage organizational behavior and district performance.

EDAD 6385. Culturally Proficient School Leadership. 3 Hours.

Students develop an understanding of how organizational culture and climate intersects with diverse subcultures in the school and school community. Students reflect on their own cultural biases and collect data on school culture, climate, and community to develop action plans that address need areas. Students explore the application of organizational, communication, multicultural, and cultural proficiency theories and models to practice.

EDAD 6387. Thesis. 3 Hours.

Students engage in a detailed field study under the direction of graduate faculty. The topic and area of study must be approved by the supervising faculty member.

EDAD 6390. The School Plant. 3 Hours.

The course is designed for school superintendents, business managers, and other school personnel whose responsibilities include school plant planning and management. Topics considered may include how to use and maintain present school plants, keeping the school board and community informed as to building needs, selecting architects, and financing construction, and the developing educational specifications.

EDAD 6394. Advancing Educational Leadership. 3 Hours.

This course is designed to certify individuals as having completed Advancing Educational Leadership. Emphasis is also placed on the improvement of instruction based on data and research findings and demonstration of leadership knowledge and skills.

EDAD 6397. Current Issues For School Administrators. 3 Hours.

This course will provide practicing and prospective school administrators an opportunity to become current with state and national education issues. These issues may include school finance, school law, special programs, leadership and management, instructional issues, evaluation of programs and personnel, and changing policies at the state and national level.

Educational Leadership (EDLD)

EDLD 7088. Special Topics in Educational Leadership. 1-3 Hours.

This course offers students studying educational leadership the opportunities for structured coursework on emergent issues or other topics for which courses do not exist in the current catalog. Course Equivalents: EDLD 7110

Prerequisite: Admission to Ed.D. Program in Educational Leadership.

EDLD 7089. Independent Study Educational Leadership. 1-3 Hours.

Variable Credit (1 to 3).

EDLD 7111. Doctoral Studies in Educational Leadership. 1 Hour.

Students explore research in educational leadership, topics of interest to doctoral students in educational leadership, and research tools related to the doctoral program. Will be repeated with a different topic for a total of three credits.

EDLD 7331. Leadership Theory/Application. 3 Hours.

Students examine the many leadership theories, models, and processes with emphasis on the results of the applications of various theories, models, and processes to educational leadership. This course requires knowledge of the literature and ongoing student engagement in research.

Prerequisite: Admission to Ed.D. Program in Educational Leadership.

EDLD 7332. Instructional Theory and Applications. 3 Hours.

Students engage in a systematic study of existing research on key factors influencing instructional effectiveness and on models for school restructuring. The relationship of instruction and school effectiveness is explored in depth. This course requires knowledge of the literature and ongoing student engagement in research.

Prerequisite: Admission to Ed.D. Program in Educational Leadership.

EDLD 7333. Societal Factors Affecting Education. 3 Hours.

Students examine the political, economic, and cultural factors affecting public school education and instructional leadership today. This course is designed to provide instructional leaders with insight and background into the life styles, values, and aspirations of various cultural groups as related to the leadership process.

Prerequisite: Admission to the Ed.D. Program in Educational Leadership.

EDLD 7334. Issues in Contemporary Education. 3 Hours.

Students complete an analysis of the research literature and field-based data relative to current issues facing instructional leaders in contemporary schools. Assessment of enrollment trends, curriculum changes, personal problems, and financial patterns are issues that are addressed. This course requires knowledge of the literature and ongoing student engagement in research.

Prerequisite: Admission to the Ed.D. Program in Educational Leadership.

EDLD 7335. Conflict Arbitration for Contemporary Education. 3 Hours.

Students examine conflict management processes and skills with emphasis on interaction patterns, interpersonal relationships, and communication skills.

Prerequisite: Admission to the Ed.D. Program in Educational Leadership.

EDLD 7336. Educational Leadership Internship. 3 Hours.

Students participate and are evaluated in an intensive study and field experience relating to positions in educational leadership. This course is designed to provide students insight into problems in the leadership process in an operational setting distinct from prior or concurrent work experience.

Prerequisite: Completion of 12 hours of leadership area core.

EDLD 7337. Academic Writing & Research. 3 Hours.

Students develop the skills and strategies for academic literacy, including critical reading and clear writing. Students utilize scientific writing styles and complete a written review of research literature.

EDLD 7338. Organizational Behavior and Theory in Education. 3 Hours.

Students explore the study of organizational theory and behavior. This field is an integration and application of behavioral science knowledge and is built upon contributions from a number of behavioral disciplines. The prominent areas are psychology, sociology, social psychology, anthropology, and political science. Students learn to understand and guide the behavior of others in the workplace.

EDLD 7361. Program Evaluation in Education. 3 Hours.

Students study educational problem solving and accountability and their relationship to needs assessment techniques, evaluation methodologies, and decision-making processes.

Prerequisite: Admission to the Ed.D. Program in Educational Leadership and EDLD 7372.

EDLD 7363. Proposal Development. 3 Hours.

Students apply fundamental concepts and tools of research to educational problems. Each student prepares a proposal for the dissertation. This course requires knowledge of the literature and ongoing student engagement in research.

Prerequisite: Admission to the Ed.D. Program in Educational Leadership and EDLD 7361.

EDLD 7365. Applied Statistics I for Educational Leaders. 3 Hours.

This course is designed to familiarize doctoral students with the logic and dynamics of the research process in education and provide students with the opportunity to develop skills in posing research questions, designing studies, collecting and examining data, and interpreting and reporting research results in educational leadership.

Prerequisite: EDLD 7362.

EDLD 7368. Applied Statistics II for Educational Leaders. 3 Hours.

Doctoral students compute and interpret multivariate statistics to analyze quantitative data used in educational settings. A strong focus is placed on the use of statistical software to analyze data and written presentation results. The curricula for this course include knowledge of the literature of the discipline and ongoing student engagement in research related to processional practice.

Prerequisite: EDLD 7365.

EDLD 7370. Education Policy and Ethics. 3 Hours.

Students are provided opportunities to study how educational policy is developed through micro and macro political elements, to examine ethical and value issues confronting educational leaders, and to demonstrate how individual values drive ethical behavior and ethical decisions. This course requires knowledge of the literature and ongoing student engagement in research.

Prerequisite: Admission to Ed.D. Program in Educational Leadership.

EDLD 7371. Contemporary Issues in Higher Education Leadership & Admin. 3 Hours.

Students develop leadership skills in higher education through the integration of knowledge, skills, and practice in finding effective solutions for student success strategies, cultural proficiencies, and enrollment management initiatives. Through research, collaboration, and independent inquiry, students address academic advisement, developmental education, and other higher education initiatives in preparation for higher education leadership.

EDLD 7379. Leadership in Academic Advising. 3 Hours.

Candidates examine the best practices, key concepts, and exploration of delivery systems for academic advising through collaboration, research and independent inquiry, applying essential concepts of academic advising as a component of student success and retention. Factors to be considered in establishing an advising program include organization and administration of an effective advisement model for diverse populations and the training, development, and assessment of advisors and advising programs.

EDLD 7380. Mixed Methods Research. 3 Hours.

Students gain the knowledge and skills to answer complex educational research questions using a mixed methods research approach. By utilizing a variety of quantitative and qualitative approaches at various stages of the research process, students develop an ability to apply methods of inquiry to problems in education.

Prerequisite: EDLD 7365 and 7372.

EDLD 7387. Doctoral Field Study in Educational Leadership. 3 Hours.

Students are provided an opportunity to engage in a detailed and in-depth field study of a program or problem in educational leadership. The student works under the supervision of a doctoral faculty member and is expected to produce a written product or presentation.

Prerequisite: Admission to the Ed.D. Program in Educational Leadership and permission of Supervising Professor.

EDLD 8033. Dissertation. 1-6 Hours.

The completion of an approved dissertation which will contribute to Instructional Leadership. Minimum of 9 hours total required. Field-based projects will be emphasized. May be repeated. Variable Credit (1-3). Course Equivalents: EDLD 8333

Prerequisite: Admission to the Ed.D. Program in Educational Leadership; completion of required Leadership Core and Research Component coursework and successful completion of comprehensive exam.

Educational Research (EDER)

EDER 7362. Methods of Education Research. 3 Hours.

Students explore various research paradigms and strategies for educational research. Concepts explored include developing problem statements, research questions, sampling, and methods of data collection. Students will analyze ethical issues in research situations. Course Equivalents: EDLD 7362

Prerequisite: Acceptance to an education doctoral program.

EDER 7365. Statistical Methods. 3 Hours.

This applied foundational statistics course is designed to develop the requisite level of critical thinking for conducting valid quantitative research. Doctoral students will learn to compute and meaningfully interpret descriptive and inferential statistics, including tests of relationship and difference. Course Equivalents: CIED 7372, ISDT 7372

Prerequisite: Acceptance to an education doctoral program.

EDER 7372. Qualitative Inquiry. 3 Hours.

This course emphasizes knowledge and skills needed for qualitative inquiry within an educational context. Emphasis is on theoretical foundations of qualitative inquiry along with practical application of methods through field-based activities. Course Equivalents: EDLD 7372

Prerequisite: Acceptance to an education doctoral program and EDER 7362.

EDER 7374. Advanced Statistical Methods. 3 Hours.

This applied advanced statistics course is designed to enhance foundational analytical skills for conducting valid quantitative research. Doctoral students will learn to compute and meaningfully interpret advanced statistical tests, including tests of relationship and differences. COUN 7337 with a grade of B or higher, cannot take concurrently. Course Equivalents: COUN 7374

Prerequisite: Acceptance to an education doctoral program.

EDER 7375. Advanced Qualitative Inquiry. 3 Hours.

This course exposes students to advanced qualitative inquiry in education. Students explore emerging methodologies, theories, analytical trends/approaches, technologies, and modes of presenting information on educational research from advanced qualitative perspectives. Course Equivalents: LITC 7351, READ 7351

Prerequisite: EDER 7372, COUN 7372, or LITC 7350 and permission of the instructor.

Engineering Technology (ETEC)

ETEC 5369. Special Topics in Advanced Industrial Technology. 3 Hours.

This course will examine advanced special topics/issues and (or) subject matter in the field of Industrial Technology. The sub-divisional fields offered are: Industrial Technology, Industrial Management, Design and Development, and Construction. This course may be repeated as topics and subject matter change. Course Equivalents: ITEC 5369 .

ETEC 5390. Directed Studies. 3 Hours.

This course is designed to provide students with the opportunity to gain specialized experience in one or more of the following areas: Internship, Laboratory Procedures, Individualized Study, Innovative Curriculum, Workshops, Specialized Training Schools, Seminar. In the internship and laboratory procedures segment, the student will gain organization and management techniques through observation and participation in conducting classroom activities and associated laboratory experience. The student may gain experience in a maximum of two areas of competency. In the individualized studies segment, the student will select a problem and work under the direction of a major professor. 1-6 hours, may be repeated or taken concurrently for a maximum of six hours. (Area of study to be indicated on transcript.) Course Equivalents: ITEC 5390 .

ETEC 5398. History and Philosophy of Industrial Education. 3 Hours.

This course is designed to provide the opportunities for in-depth study of the historical background of the industrial education movement. Course Equivalents: ITEC 5398 .

ETEC 6099. Thesis. 1-3 Hours.

Students complete and successfully defend their Thesis. Variable credit (1-3.)

ETEC 6331. Plant Layout And Materials Handling. 3 Hours.

A study of the methods in planning and control of production; operation analysis; routing; scheduling and dispatching; production charts and boards; inventory control; accumulation of material requirements; and use of critical path techniques used in industry. Course Equivalents: ITEC 6331 .

ETEC 6334. Materials Test Technology. 3 Hours.

A study of internal stresses and deformation of bodies resulting from the action of external forces; concepts and techniques of testing tensile, compression, shear, transverse, hardness and the elasticity on various materials and fasteners.

ETEC 6335. Principles And Techniques Of Research In Industrial Education. 3 Hours.

A study of the basic principles of research and the techniques of application as related to Industrial Education. Course Equivalents: ITEC 6335 .

ETEC 6398. Thesis. 3 Hours.

In addition to the preliminary study of the techniques of research, this course involves completion of a bibliography, organization of material, selection of a suitable problem, a digest of related literature, selection of appropriate procedures, formulation of a plan of investigating and reporting, collection and organization of data, and the writing of the thesis. Course Equivalents: ITEC 6398 .

ETEC 6399. Thesis. 3 Hours.

In addition to the preliminary study of the techniques of research, this course involves completion of a bibliography, organization of material, selection of a suitable problem, a digest of related literature, selection of appropriate procedures, formulation of a plan of investigating and reporting, collection and organization of data, and the writing of the thesis. Course Equivalents: ITEC 6399 .

English (ENGL)

ENGL 5301. Graduate Research: Methods and Theories. 3 Hours.

Students learn graduate-level research methods in literature and the study of the book. Required of all English majors under MA Plan I, MA Plan II, and MEd Plan II. Course Equivalents: ENGL 5330, ENGL 6397 .

ENGL 5302. Literary Theory. 3 Hours.

Students study various theories and theorists of literary interpretation with application and practice in writing criticism. Course Equivalents: ENGL 5368 .

ENGL 5303. History of the Development of the English Language. 3 Hours.

Students study cultural, historical, and philological concepts in the development of the English language from its Indo-European prototype through Anglo-Saxon, Anglo-French, and Early Modern English to its present form. Course Equivalents: ENGL 5389 .

ENGL 5304. English Linguistics. 3 Hours.

Students study sociolinguistics, dialectology, lexicography, stylistics through linguistic analysis, principles of semantics, and linguistics in relation to the teaching of English. Course Equivalents: ENGL 5383 .

ENGL 5306. American Literature: Pre-Civil War. 3 Hours.

Students examine selected works and movements in American literature from the colonial period to the Civil War. Students explore critical issues such as the histories of discovery and conquest, nations and empire, race and slavery, and gender and sexuality. Topics will vary. May be repeated once with permission of department Chair.

Prerequisite: Graduate Standing.

ENGL 5307. American Literature: Post-Civil War. 3 Hours.

Students explore how regional and national American literature after the Civil War attempts to define an American identity and the American experience. Coursework might involve literary exploration of the opening of the American West, the development of African-American literature, and the rise of the great American novel. Topics will vary. May be repeated once with permission of department Chair.

Prerequisite: Graduate Standing.

ENGL 5308. United States Ethnic Literatures. 3 Hours.

Students examine the literary production of various ethnic groups in the United States, and analyze literature of marginalized populations, migrants, and diasporas. Analysis includes critical discussion of political forces that have shaped ethnic literatures. Topics will vary. May be repeated once with permission of department Chair.

Prerequisite: Graduate Standing.

ENGL 5309. British Literature: Pre-Industrial. 3 Hours.

Students analyze literature produced in pre-industrialized Britain and explore the evolution of the English language and literature in its early phases. Topics might include the Icelandic epics, the early and middle English genres, or the impact of the Norman Invasion on Saxon. Topics will vary. May be repeated once with permission of department Chair.

Prerequisite: Graduate Standing.

ENGL 5310. British Literature: Post-Industrial. 3 Hours.

Students explore major developments in the literature of post-industrial Britain by analyzing the aesthetic trends that led to literary movements. Topics might include Romanticism, Realism, Modernism, Post-Modernism, or students might explore the history of particular genres, such as the rise of the novel, lyrical poetry, autobiography, or news reporting. Topics will vary. May be repeated once with permission of department Chair.

Prerequisite: Graduate Standing.

ENGL 5311. Anglophone Literature. 3 Hours.

Students examine world, multicultural, and post-colonial literature, analyzing how global history and politics both shape and are reflected in literary traditions that, in turn, have influenced the history of literature written in English. Students appraise the impact of non-English literatures on writers in the Anglophone tradition to gain an appreciation for the global history and scope of literary traditions. Topics will vary. May be repeated once with permission of department Chair.

Prerequisite: Graduate Standing.

ENGL 5312. Directed Study. 3 Hours.

Students engage in a specialized topic in literature or language under the direct supervision of a faculty member and with written consent of the Department Chair. A student may take no more than six credit hours of directed study during his or her graduate career. Topics will vary. May be repeated once with permission of department Chair. Course Equivalents: ENGL 5339 .

ENGL 5313. Studies in Technical Communication. 3 Hours.

Students undertake an in-depth study of technical and professional communication. Students examine the field and conduct primary research.

Prerequisite: Admission to Graduate Study.

ENGL 5331. Creative Writing: Fiction. 3 Hours.

Students actively participate in a workshop that emphasizes the writing and revision of fiction.

ENGL 5332. Creative Writing: Poetry. 3 Hours.

Students actively participate in a workshop that emphasizes the writing and revision of poetry.

ENGL 5333. Practicum: Editing and Publishing. 3 Hours.

Students study and apply current scholarship in editing and publishing. They have the opportunity to work both on and off campus as writers and editors in various professions.

ENGL 5334. Creative Writing: Nonfiction. 3 Hours.

Students study the art and craft of creative nonfiction across a range of its broadly-defined forms with the purpose of writing original and publishable texts.

Prerequisite: Graduate Standing.

ENGL 5335. Workshop In Teaching Writing. 3 Hours.

Students participate in a workshop format designed for teaching writing in the secondary schools. Topics emphasize applications of current writing theory and research.

ENGL 5336. Narrative Theory. 3 Hours.

Students study primary texts in narrative theory, in addition to the secondary texts that analyze concepts and research in the field. Students spend considerable attention to ideological contributions to narrative theory, past and present.

ENGL 5337. Poetic Theory and Prosody. 3 Hours.

Students study primary texts and readings along with secondary texts that provide analyses of the concepts and research in poetic theory and English prosody. Students spend considerable attention to ideological contributions to poetic theory from a historical perspective.

ENGL 5338. Creative Writing Pedagogy. 3 Hours.

Students examine the pedagogical theories of, and provides practical training in, the teaching of creative writing, both inside and outside of academia.

Prerequisite: Approval from Program Director.

ENGL 5340. The Writer's Life. 3 Hours.

Students examine the writer's life within and beyond the program, both inside and outside of academia. The course will function both as an introduction to graduate-level work in creative writing, editing, and publishing, and as an introduction to the various ways in which writers establish professional lives after the degree.

Prerequisite: Admission to the MFA in Creative Writing, Editing, and Publishing or Approval from Program Director.

ENGL 5367. Practicum in Teaching College Composition. 3 Hours.

Students study modern rhetorical principles and methodologies used in teaching college-level writing.

ENGL 5374. Gender, Sexuality & Literature. 3 Hours.

Students apply current theory and conduct original research to analyze the intersection of gender, sexuality, and literature from various genres, nationalities, and historical ages. Emphases may vary.

ENGL 5384. Rhetoric & Composition Theory. 3 Hours.

Students study selected topics in historical and contemporary rhetoric, rhetorical criticism, and composition theory. Students will apply current theory and research in rhetoric and composition to primary research.

ENGL 6096. MFA Thesis I. 1-3 Hours.

In the first semester of MFA graduate thesis, the student works under close faculty supervision to produce a thesis prospectus approved by all members of the reading committee and submits a plan for completion. Variable Credit (1 to 3).

Prerequisite: Approval of Program Director.

ENGL 6097. MFA Thesis II. 1-3 Hours.

In the second semester of MFA graduate thesis, the student works under close faculty supervision to complete the thesis. The student must enroll in this class from term to term until the thesis is completed. Variable Credit (1 to 3).

Prerequisite: ENGL 6096.

ENGL 6098. MA Thesis I. 1-3 Hours.

In this first semester of graduate thesis, the student works under close faculty supervision to produce a thesis prospectus approved by all members of the reading committee and submits a draft of the introduction. Variable Credit (1-3). Course Equivalents: ENGL 6398 .

ENGL 6099. MA Thesis II. 1-3 Hours.

In this second semester of graduate thesis, the student works under close faculty supervision to complete the thesis. The student must enroll in this class from term to term until the thesis is completed. Variable Credit (1-3). Course Equivalents: ENGL 6399 .

ENGL 6301. Literary Theory Seminar. 3 Hours.

Students thoroughly examine a theory or major theorist in literary studies following contemporary scholarship methods. Students might explore psychoanalysis, ecocriticism, deconstruction, rhetorical analysis, or another major theoretical methodology. Topics will vary. May be repeated once with permission of department Chair.

Prerequisite: Graduate Standing.

ENGL 6302. Seminar in Major Author. 3 Hours.

Students engage in a sustained study and analysis of the career and canon of a major author who has made substantial contributions to the development of American, British, and/or Anglophone Literature. Students synthesize biographical and historical data with an author's literary works in order to fully evaluate the author's major status. Topics will vary. May be repeated once with permission of department Chair.

Prerequisite: Graduate Standing.

ENGL 6303. English Linguistics Seminar. 3 Hours.

Students explore advanced questions about the structure and evolution of the English language. Topics might include phonology, morphology, syntax, semantics, or pragmatics, or explore issues in socio-linguistics present in all works of literature. Topics will vary. May be repeated once with permission of department Chair.

Prerequisite: Graduate Standing.

ENGL 6304. Literary Movements Seminar. 3 Hours.

Students explore the collaborative nature and sociability of authors within international literary movements or traditions, such as Naturalism, Transcendentalism, or Surrealism. Students work with primary texts within the chosen movement and explore how the authors' interactions affect literary production. Topics will vary. May be repeated once with permission of department Chair.

Prerequisite: Graduate Standing.

ENGL 6305. Literary Genre Seminar. 3 Hours.

Students explore the aims, history, and form of a literary genre, such as the novel, the pastoral ode, or the essay. Students deepen their understanding of generic classifications, the relationship between genres, and how generic conventions persistently shape our perceptions of the world. Topics will vary. May be repeated once with permission of department Chair.

Prerequisite: Graduate Standing.

ENGL 6306. Global Ethnic Literatures. 3 Hours.

Students explore the literary production of various underrepresented ethnic groups in the world that influence the history of literature in English. Topics might include political hegemony, immigration and diasporas, national and cultural identity, and the literary marketplace. Topics will vary. May be repeated once with permission of department Chair.

Prerequisite: Graduate Standing.

ENGL 6330. Special Topics in English. 3 Hours.

Students apply current research to an analysis and understanding of a special topic in English language, literature, theory, and/or a writing discipline. The contents and approaches to the materials vary from term to term. Topics will vary. May be repeated twice with permission of the Department Chair.

Finance (FINC)

FINC 5080. Independent Study. 1-3 Hours.

This course is designed for the directed study of individual students who wish for intensive supervision in some vital aspect of Finance. Variable Credit (1 to 3). Course Equivalents: FINC 5380

Prerequisite: BUAD 5310, FINC 5300, and approval of Department Chair and Graduate Coordinator.

FINC 5085. Special Topic. 1-3 Hours.

This course of faculty-led study is designed to provide graduate students exposure to new Finance topics and concepts in a course setting. Variable Credit (1 to 3). Course Equivalents: FINC 5385.

FINC 5300. Business Finance Environment. 3 Hours.

Students examine business financial decision methods, the financial sector, and the economic and legal environment. Students are introduced to financial principles and decision techniques as well as analytical models and software tools. This course does not apply to the 36-hour graduate credit hour requirement of the MBA degree program.

FINC 5310. Financial Management. 3 Hours.

Students examine financial management in today's interdependent and integrated global environment. Topics may include managerial applications, including the use of current techniques for financial analysis, capital allocation, and capital structure.

FINC 5320. Seminar in Commercial Banking. 3 Hours.

Students study the current developments within commercial banking and examine the specific aspects of the banking industry. Both student research and case studies that emphasize managerial application of the literature reviewed are utilized.

FINC 5333. Financial Statement Analysis. 3 Hours.

Students examine how financing, investing, and operating decisions affect financial statements as well as how creditors and investors use financial statements to assess the results of managers' decisions and the effect of alternative accounting methods on the quality of financial reporting.

Prerequisite: FINC 5310 or FINC 5370.

FINC 5338. Selected Topics in Money, Capital, and Security Markets. 3 Hours.

Students engage in an in-depth topical exploration of various aspects of money, capital, and security markets. Topics are explored via analysis of current events and case studies, through examination of the intricacies of financial innovation and adaptation, and/or via individual research projects.

Prerequisite: FINC 5310 or FINC 5370.

FINC 5340. International Finance. 3 Hours.

Student apply theories of managerial and international finance to the problems of financial management in a global business environment. Topics may include investment analysis, financing choices, identification, measurement and management of foreign exchange risks, trade financing, and financial control of international operations.

Prerequisite: FINC 5310 or FINC 5370.

FINC 5345. Seminar in Investments. 3 Hours.

Student study financial securities, their valuation techniques, and the markets in which they are traded. In addition, students are provided an overview of portfolio theory and the analytical tools of portfolio management as well as the relationship between risk and return. Includes a survey of current research in investments.

Prerequisite: FINC 5310.

FINC 5370. Administrative Problems in Finance. 3 Hours.

Students review advanced finance topics in business administration and their direct application to administrative challenges. Coverage includes financial modeling with spreadsheets, advanced time value of money, analysis of the financial performance and condition of a business firm, determination of marginal cost of capital, advanced capital budgeting, cash flow analysis, working capital management, and financial policies.

Prerequisite: FINC 5310.

FINC 5390. Seminar in Business Finance. 3 Hours.

Students study theory and practice of assembling, investing, and managing capital. Major topics may include estimating a firm's cost of funds; basic and advanced capital budgeting techniques, including payback period, NPV, IRR, and MIRR; capital structure analysis; dividend policy and practice; risk management; and portfolio diversification. Cases, current developments and readings in business finance are used as appropriate.

Prerequisite: FINC 5310 or FINC 5370.

FINC 5395. Seminar in Commercial Lending. 3 Hours.

Student engage in an in-depth coverage of the current lending and regulatory issues and techniques appropriate for management of commercial lending activities in modern financial institutions. Research, readings, and case studies are employed to provide students the opportunity to apply the literature in the dynamic financial institutions industry.

Prerequisite: FINC 5310 or FINC 5370.

Flute (FLUT)

FLUT 5201. Individual Performances-Flute. 2 Hours.

The course consists of advanced individualized instruction on the flute. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students. Credit 2

Prerequisite: Admission to the Master of Music program.

Forensic Science (FORS)

FORS 5114. Firearms and Toolmarks. 1 Hour.

Students are provided a broad overview of firearm and toolmark identification for forensic purposes. Terminology, function testing and ammunition are discussed, together with class and individual characteristics, identification criteria and instrumentation. Determination of caliber/gauge, trajectory and distance determination are also covered. Basic toolmark nomenclature, class and individual characteristics, fracture matching and serial number restoration are also addressed.

FORS 5116. Seminar In Forensic Science. 1 Hour.

This graduate seminar series focuses on current topics and research in forensic science.

FORS 5117. Controlled Substances. 1 Hour.

Students are introduced to the concepts, theories, and principles used in the forensic analysis of controlled substances. Methods of forensic analysis of drugs, including pill identification, microscopic examination, color tests, microcrystalline tests, thin layer chromatography (TLC), Fourier transform infrared spectroscopy (FTIR) and gas chromatography-mass spectrometry (GC-MS) will be explored. The source, origin, chemical properties and clandestine manufacture of controlled substances are also discussed. Students gain a fundamental understanding of controlled substance analysis in accordance with the standard of practice in an accredited crime laboratory.

FORS 5118. Questioned Documents. 1 Hour.

This course is designed to provide students with an understanding of techniques and procedures used for forensic document examination. Students explore handwriting comparisons, printed document alterations, and ink analysis.

FORS 5119. Fire Debris. 1 Hour.

Students address evidence collection, analytical techniques, instrumentation and data interpretation related to fire debris. Students learn to interpret analytical results within forensic contexts.

FORS 5226. Law And Forensic Sciences. 2 Hours.

Students are provided an overview of the law-forensic science interface. This includes legal concepts of admissibility of evidence and proof, rules of evidence, structure and hierarchy of criminal courts, and expert testimony. The course also includes direct and cross examination of students in a moot court setting.

FORS 5310. Forensic Molecular Biology. 3 Hours.

Students explore theories, methods, and techniques used in the study and analysis of gene structure, organization, and function in a forensic biology context.

FORS 5333. Forensic Anthropology. 3 Hours.

Students address theories, methodologies, and applications of forensic anthropology. The course covers advanced human osteology and includes hands-on training with skeletal remains. Students learn and apply the methods used to construct a human biological profile, which includes the determination of sex, age, and race based on skeletal features. The processes of human decomposition, and the identification of skeletal pathologies and trauma are also introduced. Three-hour laboratory.

FORS 5337. Fundamentals of Criminalistics. 3 Hours.

Students address the fundamentals of physical evidence concepts, pattern evidence, and forensic biology. Students acquire standards and general practices in criminalistics.

FORS 5360. Pattern and Physical Evidence Concepts. 3 Hours.

Students are introduced to the interpretation of pattern evidence and the forensic analysis of physical evidence. Scientific experiments and analysis of pattern in support of crime scene reconstruction are discussed. Pattern recognition of physical evidence, such as bloodstains, gunshot residues, tire prints, shoeprints, fire debris, explosive, glass fracture, body gesture, and wound patterns, are covered. Physical and chemical techniques for the visualization or enhancement of various types of patterns are also introduced. Expert interpretation of observed pattern of physical evidence are discussed. Four-hour laboratory. Course Equivalents: FORS 5260 .

FORS 5362. Techniques for Crime Scene Investigations. 3 Hours.

Students are provided an advanced comprehensive review of contemporary techniques for the identification, collection, preservation, and evaluation of evidence found at the crime scene. The assistance of different items of physical evidence in the reconstruction of a crime are studied. The course includes the application of CSI theory in various applied scenarios. Concepts of physical evidence, evidence collection, quality assurance, and chain custody procedures in forensic analysis are also covered.

FORS 5435. Trace/Microscopical Analysis. 4 Hours.

Students engage in the review of the classifications and characteristics of trace evidence and are provided hands-on experience in microscopic examination of physical evidence. A wide variety of chromatographic, spectroscopic, and microscopic techniques, such as stereo microscope, polarized light microscope, digital microscope, comparison microscope, scanning electron microscopy-energy dispersive spectroscopy, micro Fourier transform infrared spectrometer, pyrolysis-gas chromatography-mass spectrometry, are used in this course. The forensic examination of fiber, hair, glass, paint, gun shot residue (GSR), ink, and explosives are covered. Four-hour laboratory. Course Equivalents: FORS 5335 .

FORS 5440. Forensic Biology. 4 Hours.

Students cover the practical DNA analysis of biological evidence. Different extraction methods are discussed as well as techniques for the quantification of DNA. Students are introduced to emerging forensic DNA methods, such as identifying the tissue of origin and assessing the level of DNA degradation and PCR inhibitors in a biological sample. Strategies for the analysis of PCR products (autosomal and Y chromosome STRs), interpretation of results, biostatistics, and quality assurance procedures will be covered. Basic statistical genetics theory are approached to generate a final DNA report. Four-hour laboratory. Credit 4 .

FORS 5445. Forensic Instrumental Analysis. 4 Hours.

Students are provided a comprehensive overview of the analytical methodology, approaches, and instrumentation used for forensic analysis. Fundamental qualitative and quantitative chemical analysis using advanced instrumentation are reviewed. A wide variety of techniques that are used in a number of forensic disciplines are covered. Well established methods and novel approaches are discussed. Four-hour laboratory.

FORS 6014. Forensic Science Research. 1-3 Hours.

This capstone experience allows students to formally apply their acquired knowledge and skills in forensic science. This course consists of an independent research project which culminates in a formal written report or manuscript. Additionally, students are required to present and defend their scientific research orally in a public forum. Variable Credit (1-3). Course Equivalents: FORS 6114 .

FORS 6094. Special Topics in Forensic Science. 4 Hours.

Course Equivalents: FORS 6394 .

FORS 6111. Fundamentals of Research Methods. 1 Hour.

Students are provided a broad overview of theoretical and practical concepts necessary for scientific research. These include an overview of the scientific method, the importance of logical research design, and basic scientific writing skills. Topics covered may include: qualitative and quantitative research approaches, developing and refining research questions and project outlines to adequately test hypotheses, reviewing scientific literature, developing technical writing strategies, and understanding relevant ethical issues.

FORS 6224. Quality Assurance and Ethical Conduct in Forensic Science. 2 Hours.

Students are introduced to the concepts and procedures associated with quality assurance and ethical conduct in forensic science.

FORS 6315. Forensic Population Genetics. 3 Hours.

This course will focus on the application of statistical methods and theory to forensic genetics. Students must have an introductory knowledge of probability theory and statistics. Fundamental topics like ideal populations, random mating, Hardy-Weinberg equilibrium, linkage disequilibrium, disturbing forces, inbreeding, four-allele descent measurements, product rule, independence testing and genetic distance will also be covered. Students will analyze and interpret the results from microsatellite population databases using population genetics software. Course Equivalents:

FORS 5115, FORS 5215, FORS 6215

Prerequisite: FORS 5440.

FORS 6317. Forensic Statistics. 3 Hours.

Students address the application of statistical methods to forensic science problems and evidence interpretation. During this course, differences between the frequentist and Bayesian approaches are emphasized. The merits of each approach are explored for a variety of forensic problems, particularly the interpretation of forensic evidence in the courts. Students are exposed to examples pertaining to trace evidence, impression evidence, toxicology, controlled substances, and DNA evidence. Students learn how to construct simple Bayesian networks and utilize statistical software to compute results.

FORS 6319. Controlled Substance Analysis. 3 Hours.

Students will explore controlled substance analysis using instrumental techniques that are commonly encountered in accredited forensic laboratories. Aspects covered in this course include sample processing, presumptive vs. confirmatory testing, analytical instrumentation, drug class-specific analytical schemes, acceptable methodologies, and clandestine laboratories investigation.

Prerequisite: FORS 5117 and FORS 5445.

FORS 6333. Behavioral Genetics. 3 Hours.

Students are provided with an understanding of behavior genetics and the influence of genes and the environment of emotion, personality and behavior in humans and animals. Credits 3.

FORS 6335. Advanced Forensic Chemistry. 3 Hours.

Students address novel scientific techniques in crime scene chemistry and crime lab chemistry. Non-destructive optical methods developed for sensing or identifying physical evidence are particularly emphasized in this course. New developments in chromatographic, spectroscopic, and microscopic techniques for the analysis of fibers, hair, gunshot residue, ink, paints, glass, explosives and narcotics are also explored.

Prerequisite: FORS 5335 and FORS 5445.

FORS 6337. Forensic Medicine. 3 Hours.

Students are provided an overview of forensic medicine and forensic pathology pertaining to medicolegal death investigation. Students analyze legal issues associated with the practice of forensic medicine.

FORS 6345. Advanced Instrumental Analysis. 3 Hours.

Students explore advanced instrumental methods and gain both theoretical knowledge and practical skills. Detailed attention is given to analytical method development and method validation. Students will further develop their analytical and technical skills and integrate instrumental theory into practical applications.

Prerequisite: FORS 5445 and FORS 6446.

FORS 6360. Advanced Forensic Spectroscopy and Spectral Interpretation. 3 Hours.

In this course, students will engage with Infrared and Raman spectroscopy instruments and apply them in forensic science contexts. They will learn and implement strategies for interpreting real-world sample data. A key component will be mastering spectral searches using libraries/databases. Through demonstrations, students will have hands-on opportunities to analyze their own data. They will also explore and apply spectroscopy techniques in seized drug analysis and trace evidence analysis disciplines.

Prerequisite: FORS 5445.

FORS 6361. Advanced Forensic DNA. 3 Hours.

Students cover the practical DNA analysis of extremely degraded biological evidence, including hair shafts, nails, teeth and bones. Different extraction methods are discussed and practically applied. Techniques for quantification of minimal amounts of DNA, RNA profiling, alternative strategies for DNA analysis (low copy number, SNPs, X-STRs) and DNA sequencing (mtDNA), interpretation of results, biostatistics, and standard operation procedures are also covered. Course Equivalents: FORS 5261. FORS 5361

Prerequisite: FORS 5440.

FORS 6371. Forensic Science Internship. 3 Hours.

This is a ten week full-time internship in an approved forensic science laboratory. This opportunity allows graduate students to apply their theoretical knowledge, practical skills and abilities in a forensic science setting.

FORS 6446. Forensic Toxicology. 4 Hours.

Students explore the physico-chemical characteristics of drugs and poisons of forensic interest with a focus on human performance and postmortem forensic toxicology applications. Students address pharmacological and analytical challenges associated with biological evidence as well as qualitative and quantitative analysis of compounds from biological and non-biological matrices and are provided with hands-on experience with chromatographic and spectroscopic techniques that are widely used in forensic laboratories. Four-hour laboratory. Course Equivalents: FORS 5346, FORS 5446 .

FORS 7089. Practicum. 1-3 Hours.

The practicum affords the doctoral student the opportunity to apply research in a practical setting, adapt technologies for maximal use, appreciate the steps necessary for the implementation of new technology within an accredited environment, and observe the technical and non-technical processes involved. During the practicum students must complete the equivalent of a ten-week, full-time placement (400 hours) in an approved forensic science laboratory or facility. Course Equivalents: FORS 7389

Prerequisite: FORS 6371.

FORS 7094. Advanced Topics in Forensic Science. 3 Hours.

This special topic course is adaptable to the needs and interests of the individual doctoral students majoring in Forensic Science. Variable credit (1-3).

Prerequisite: Departmental Approval.

FORS 7315. Advanced DNA Mixture Interpretation. 3 Hours.

Students interpret DNA mixtures and will compare them with known reference profiles, determine contributor status and explore both manual binary and probabilistic deconvolution techniques followed by the estimation of genotype probabilities. Students improve critical thinking skills to properly communicate analytic expertise.

Prerequisite: FORS 6315.

FORS 7331. Research Methods. 3 Hours.

Students focus on the scientific method, research methods, and design. Students are provided the opportunity to discover, structure, and formulate research questions. Through this process, students come to understand the many ways in which researchers can acquire knowledge and insights using a wide variety of research methods applicable to forensic science.

Prerequisite: Three credits of statistics.

FORS 7332. Scientific Communications. 3 Hours.

Students develop the oral and written communication skills necessary for forensic science researchers and practitioners. Students must develop mastery of the following: technical report writing with regard to standard operating procedures, scientific publications and grant proposals; oral presentations, depositions and courtroom testimony of scientific evidence.

Prerequisite: FORS 5226.

FORS 7334. Social Science of Forensics. 3 Hours.

This course addresses the nexus between social and behavioral principles and the conduct of forensic science. Topics addressed include the organization of the forensic enterprise including the structure and functioning of forensic crime labs; performance assessment of forensic systems, organizations and practitioners; sociological, social-psychological, and psychological factors affecting the performance of forensic practitioners; and management theory of forensic workplaces and workers.

FORS 7345. Advanced Mass Spectrometry and Spectral Interpretation. 3 Hours.

Students explore ionization, dissociation, mass analysis, and detection techniques in mass spectrometry instrumentation. Students gain experience with mass spectral interpretation of both odd-electron and even-electron mass spectra. Students are also exposed to mass spectrometry-based applications from the seized drug analysis, toxicology, and trace evidence disciplines.

Prerequisite: FORS 5445.

FORS 7346. Advanced Forensic Toxicology. 3 Hours.

Students focus on advanced principles and practices in forensic toxicology, in particular, advanced analytical, methodological, and interpretive issues. Students apply their knowledge of basic forensic toxicology principles to a variety of analytical and interpretive topics relevant to behavioral and postmortem toxicology, including but not limited to, impaired driving, sexual assault, and death investigation. Credits 3. Course Equivalents: FORS 6346

Prerequisite: FORS 6446.

FORS 7381. Explosive Analysis & Detection. 3 Hours.

Students survey the broad field of explosive engineering and detection to include the safety and transportation classifications. Chemical and physical properties, explosive reagents and byproducts, and detection techniques are addressed, including military and improvised devices, post-blast evidence and constitutional aspects of interdiction.

Prerequisite: CHEM 4440 or FORS 5445.

FORS 7385. Warfare Agents. 3 Hours.

Students evaluate chemical, biological, and radiological warfare agents. These agents are discussed from a chemical and biochemical standpoint including structure, function, mechanism of action, injury, clinical therapy, and recovery. Three credit hours of biochemistry or toxicology at the undergraduate or graduate level are recommended for students taking this course.

FORS 7390. Forensic Laboratory Management. 3 Hours.

Students address key areas of forensic laboratory management and leadership. Students are prepared for administrative and leadership roles in public or private sector forensic science laboratories. The course focuses on the integration of technical and discipline specific policies and procedures into the administrative framework of the crime laboratory. Issues include the quality management system, organizational efficiency, fiscal, personnel and resource management, regulation, certification and accreditation.

FORS 7394. Doctoral Seminar in Forensic Science. 3 Hours.

Students broaden their awareness of forensic science practice and critically evaluate forensic research while contributing to their professional development. The seminar focuses on professional practice issues, theoretical and interpretive topics, and current standards within forensic science. Students critically evaluate proposed and existing standards, analyze the process of standard development, discuss and present on topics related to emerging issues, trends, technologies, and foundational science.

FORS 8099. Dissertation. 1-6 Hours.

Geography (GEOG)

GEOG 5075. Selected Problems in Geography. 1-3 Hours.

This course is designed for individual students who wish intensive supervision in their research or study of special topics in the field of Geography. Variable Credit (1-3).. Course Equivalents: GEOG 5375 .

GEOG 5310. GIS Project Management. 3 Hours.

Management strategies for GIS are examined by presenting GIS as an integrated system of people, computer hardware, software, applications, and data. The course may include design of implementation plans as case studies to explore various techniques associated with each step of this process.

Prerequisite: GEOG 5361, GEOG 5362.

GEOG 5311. GIS in Law Enforcement. 3 Hours.

The primary foci of this course are the application of geospatial technologies in law enforcement and national security. Course topics may include the characteristics of geospatial intelligence and crime incident data, the use of GPS imagery, and the application of other geospatial technologies. Students use methods of spatial analysis to study a variety of public safety phenomena, such as heat mapping, change detection, and geographic profiling.

GEOG 5312. GIS ModelBuilder. 3 Hours.

Students focus on theories, topics, and concepts that provide students with a strong understanding of ModelBuilder, a program designed to create automated routines and workflows within a GIS environment. Through the development of skills and techniques with ModelBuilder, students learn how to create, use, and share interactive models within the ArcGIS platform. They also learn how to document models so others can use them for their own intended purposes.

Prerequisite: GEOG 5362.

GEOG 5313. Ethics in GIS. 3 Hours.

Students learn and examine the ethical guidelines for professionals who use GIS and geospatial technologies. Topics include the ethical issues that arise during data collection, data use, and data display, as well as the obligations of GIS professionals to society, employers, colleagues, and the profession.

GEOG 5314. GIS for Professionals. 3 Hours.

Students solve problems by visualizing, querying, creating, editing, analyzing, and presenting geospatial data in both 2D and 3D environments using ArcGIS mapping applications and/or similar applications.

GEOG 5315. Spatial Database. 3 Hours.

Students examine and apply the theoretical and practical aspects of a spatial database. Specifically, students create, use, edit, and manage spatial and attribute data in a spatial database and define domains, subtypes, and relationship classes. The focus is on the successful design, implementation, and management of a spatial database.

GEOG 5361. Geographic Information. 3 Hours.

Students examine how geospatial data are obtained, created, edited, and utilized. This includes examination of the availability and accuracy of geospatial data, geospatial portals, and the digitizing and scanning of geographic data. The creation and structure of attribute databases, and relational and object-oriented data structures also are discussed.

GEOG 5362. GIS Principles and Application. 3 Hours.

Students address the basic principles of geographic information systems and their application. Structure and functionality of raster and vector based GIS, history of GIS development and evolution, management of attribute data, creation of geospatial data, and applications in numerous fields are covered as well as new developments in the field.

GEOG 5363. Web GIS. 3 Hours.

Students are introduced to the principles and practices of interactive mapping and GIS data distribution across the Internet. Students learn to develop, customize, and publish GIS applications and geoprocessing tasks and share information through web services using ArcGIS Server and ArcGIS Online.

GEOG 5364. Spatial Analysis. 3 Hours.

Students are introduced to the fundamental knowledge and techniques of spatial analysis. Students learn how to effectively use various spatial data to solve real-world problems. Topics covered may include spatial data structure, multiple layer operations, point pattern analysis, and network analysis. **Prerequisite:** GEOG 5361.

GEOG 5365. Digital Image Processing. 3 Hours.

Students develop theoretical understanding and technical proficiency in remote sensing image analysis. Students perform image processing functions and are exposed to all critical phases of project implementation expected of an image analyst. Extensive lab exercises are required.

Prerequisite: GEOG 5361.

GEOG 5366. Cartography And Visualization. 3 Hours.

Students develop theoretical understanding and technical proficiency in the art, science, and techniques used in modern automated cartography and visualization. Emphasis is placed on different mapping techniques and surface rendering. Extensive computer lab exercises are required.

Prerequisite: GEOG 5361.

GEOG 5367. GIS Programming. 3 Hours.

Students learn to use Python programming to develop customized GIS applications. Students become familiar with the fundamental concepts in object-oriented programming and develop programming skills.

Prerequisite: GEOG 5361.

GEOG 5368. Geographic Information Systems Program Use and Applications. 3 Hours.

This is an Internet-based course that requires the successful completion (as indicated by printed certificates) of ten related courses pertaining to GIS program use and applications. The course is taken through the Environmental Systems Research Institute's (ESRI) on-line virtual campus.

Prerequisite: GEOG 5361, GEOG 5362, GEOG 5364.

GEOG 5369. Internship in GIS. 3 Hours.

Students work for either a business or government agency to obtain applied experience in the use of GIS. Students must be supervised by a member of the graduate faculty, who determine whether the nature and amount of the work performed satisfies the requirements for graduate credit. In addition, students must be evaluated by their employer, and this information must be submitted to the Department Chair to be used in assignment of a grade for the course. Students are encouraged to maintain a journal and to present a paper recounting their internship experiences.

Prerequisite: GEOG 5361, GEOG 5362.

GEOG 5371. Geographic Information Systems in Energy-Related Fields. 3 Hours.

Students focus on the use and application of GIS and related geospatial technologies within a variety of energy related fields. Technological applications within pipeline routing, reservoir mapping, evaluation and visualization, and environmental assessment serve as the primary foci. Geospatial aspects of oil and gas production and distribution also are explored, as will GIS mapping and the management of GIS facilities.

GEOG 5373. Introduction to LiDAR & Radar. 3 Hours.

Students focus on the concepts and applications of Global Positioning Systems (GPS), Light Detection and Ranging (LiDAR), and Radar systems. Topics may include accuracy assessment and appropriate use of LiDAR, Radar, and GPS data products. Students master the skills needed to use these data products in different applications such as topographic mapping, flood inundation studies, vegetation analysis, and 3D modeling. Course components may include lectures, labs, and field work.

Prerequisite: GEOG 5361 or instructor's consent.

GEOG 5374. Advanced GIS Analysis. 3 Hours.

Students learn to systematically and effectively formulate, organize, and implement an advanced GIS analysis project. Topics may include defining research problems, collecting and preparing data, designing analytical methods, and interpreting results. Students perform geostatistical analyses and will learn how to build, modify, and streamline geoprocessing models. Credit 3

Prerequisite: GEOG 5364.

GEOG 6061. Graduate Seminar In GIS. 1-3 Hours.

This is a graduate seminar featuring results of faculty research projects, research work by graduate students, and discussions by invited speakers from government and industry who are using GIS and related technologies. Course Equivalents: GEOG 6161

Prerequisite: GEOG 5361, GEOG 5362, GEOG 5363, GEOG 5364, GEOG 5367.

GEOG 6099. Thesis II. 1-3 Hours.

The student completes a thesis involving research and study of the applications of geographic information systems and related technologies. The work involved includes research on the approved thesis topic, preparation of a draft, and a final thesis. The thesis must be at minimum of thirty pages in length and must be suitable for publication in a peer reviewed journal on the topic. Students must also make a 30-minute Power Point presentation on the approved topic. Variable Credit (1-3). Course Equivalents: GEOG 6399

Prerequisite: GEOG 5361, GEOG 5362, GEOG 5363, GEOG 5364, GEOG 5367, or consent of graduate supervisor.

GEOG 6398. Thesis I. 3 Hours.

The student begins work on a thesis involving research and study of the applications of geographic information systems and related technologies.

Prerequisite: GEOG 5361, GEOG 5362, GEOG 5363, GEOG 5364, GEOG 5367.

Geology (GEOL)

GEOL 5095. Special Graduate Topics in Geology. 1-3 Hours.

Students engage in an individual study in special areas of geology. Topic content to be selected and agreed upon by the students and member of the geology faculty. Variable Credit (1-3). Course Equivalents: GEOL 5395 .

Guitar (GUIT)

GUIT 5202. Guitar. 2 Hours.

This course is intended for advanced/masters level guitarists who will learn advanced guitar techniques; study transpositions and alternate tunings; and prepare solo and ensemble literature appropriate for the graduate level. Prerequisites: Acceptance into the graduate program in guitar performance, including a performance audition for acceptance to the School of Music.

Harp (HARP)

HARP 5202. Harp. 2 Hours.

Student focus on the practical application of harp technique and repertoire at the graduate level.

Prerequisite: Acceptance into the graduate program in harp, including passing a performance audition for entrance into the School of Music.

Health (HLTH)

HLTH 5097. Special Topics in Health. 3 Hours.

Students acquire professional knowledge and skills through an advanced research, grant, data analytic / surveillance, health quality, or program development / evaluation project with a Public Health or Health Care Quality and Safety faculty or professional. The focus and credit hours of the project will be approved by the graduate coordinator. Variable Credit (1 to 3).

Prerequisite: Permission of graduate coordinator.

HLTH 5317. Case Studies in Occupational Epidemiology. 3 Hours.

Students focus on epidemiology and its applications to healthcare facility quality and safety with an emphasis on the complex issues related to healthcare quality and safety, and the effects of policies on health quality and safety.

Prerequisite: Graduate Standing.

HLTH 5318. Current Topics in Environmental Health. 3 Hours.

Students focus on current environmental health issues that are fundamental in the field of public health. Students learn to apply and analyze the complex issues related to environmental health with a focus on research and policy implications.

HLTH 5331. Foundations of Community Health. 3 Hours.

Students apply the epidemiological, biostatistical methods of investigation to international, national, state, and local health issues. Additionally, the historical and philosophical foundations of community health are presented with an orientation to current health programs, medical care trends, and health problems experienced by diverse populations.

HLTH 5332. Human Ecology. 3 Hours.

Students study the major factors which determine health or illness, including how populations respond to various determinants of health including lifestyle, heredity, environment, and health care resources.

HLTH 5333. Colloquium in Human Sexuality. 3 Hours.

Students study all of the factors influencing growth and development with a consideration of the special problems, including developing family life, sexuality issues, intimate relationships, and the cultural impact they have on society.

HLTH 5334. Colloquium in Use and Abuse of Drugs. 3 Hours.

Students are presented a value education approach to the prevention of drug use and abuse is along with personal, family, community and school factors influencing drug use. The origins and derivations of drugs are explored. The mental, emotional, physical, social and physiological effects from the use of drugs are analyzed.

HLTH 5338. Colloquium in Consumer Health Education. 3 Hours.

Students study consumer goods and services as related to the health of individuals, their families, and their communities. Marketing principles for health promotion and current health care bioethical issues are addressed.

HLTH 5350. Public Health and Social Justice. 3 Hours.

This course examines the relationship between social justice and public health through the analysis of the social determinants of health in at-risk populations. Students describe, measure, and evaluate the consequences of societal injustices; critically analyze public policies, interventions, and services; and apply community-based methods for reducing population health inequities.

Prerequisite: Admission to the Master of Public Health Program, or permission of instructor.

HLTH 5351. Immigrant and Refugee Health. 3 Hours.

This course provides an integrative framework for analyzing the mental, physical, social, and health issues of immigrants, refugees, and migrant populations. Students analyze population health issues facing these diverse groups; the effect of their home country on their level and quality of health; the cultural, social, and religious barriers to health; the ramification of war zones and humanitarian crises; the effect of man-made and natural disasters in their home country; and the legal and economic constraints to health and social services in the US and other countries.

Prerequisite: Admission to the Master of Public Health Program, or permission of instructor.

HLTH 5353. Epidemiology. 3 Hours.

This course focuses on the role and importance of epidemiology in public health research and practice, and investigates the pathways and mechanisms in which diseases are transmitted within populations of people and communities. The course applies epidemiological principles to the investigation of disease outbreaks and their source, injury related data, and the prevention of the future recurrence of the disease through universal measures. Students will integrate epidemiological terminology, research methods, critical thinking, and basic analyses into disease distributions in the public health sector. Diseases discussed range from sudden-onset infectious diseases to non-infectious chronic diseases.

Prerequisite: Admission to Master of Public Health Program.

HLTH 5355. Health Services Administration. 3 Hours.

Students are introduced to the domain of health care administration and management. Topics discussed in the course may include organizational theories, leadership strategies, human resource constructs, ethical issues, and marketing initiatives. The content of the course serves as a foundation to the graduate programs in Health.

Prerequisite: Graduate standing.

HLTH 5360. Communication Theory and Practice for Health Professionals. 3 Hours.

Students engage in a laboratory experience built around research on motivational concepts as they influence changes, perception, attitudes, values and behavior. Diffusion patterns, group discussion, decision-making, and interviewing techniques will be covered. Attention is given to the selection, use, and evaluation of media, materials, visual aids, press, radio, mass media, etc.

HLTH 5361. Social and Behavioral Determinants of Public Health. 3 Hours.

Students study the history, philosophy, and practices of Health Education. Exploration and application of behavioral science concepts and methodologies to community health education and in-service training of health professionals. Case studies and other practice models are used.

HLTH 5363. Management and Leadership for Health Professionals. 3 Hours.

This course is designed for the individual who will assume some type of supervisory position in health promotion or sports management. The course's focal point involves exposure to administrative skills required of those who serve in a leadership capacity.

HLTH 5365. Aging and Health Promotion. 3 Hours.

Students engage in a discussion of health promotion issues for the elderly, including physical assessment, chronic care, health care maintenance, psychological adaptation, nutrition, and other current topics.

HLTH 5371. Health Care Quality & Safety. 3 Hours.

Students are introduced to foundational concepts in the domain of health care quality and safety. The fundamental topics discussed in the course may include the elements of patient safety and satisfaction, measures for improving organizational and patient quality, accountability standards, and the system approach for continuous improvement. The course is intended to be taken during the graduate student's first year in the program.

Prerequisite: Graduate standing.

HLTH 5373. Risk Management in Health Care Organizations. 3 Hours.

Students study the management and mitigation of risk in the health care environment. Topics may include process analysis using Failure Modes and Effects Analysis (FMEA), root cause analysis, and the reporting of data relating to risk management. The management constructs of monitoring and reporting, risk prevention, and communication strategies to minimize risk and injuries in the health care environment are also covered.

Prerequisite: Graduate standing, admission to the program, and HLTH 5371.

HLTH 5374. Research Seminar. 3 Hours.

Students study research techniques, identification of problems, research designs, and data gathering procedures. Students develop a proposal for a research project.

HLTH 5375. Statistical Design in Health. 3 Hours.

Students study the principles of advanced statistical techniques and measurement theory with emphasis upon their applications to Health, Kinesiology, and related areas.

HLTH 5376. Public Health Biostatistics. 3 Hours.

This applied biostatistics course focuses on the development and application of statistical reasoning and methods in addressing, analyzing, and solving problems in public health; health care; and biomedical, clinical and population-based research. The course provides students with the ability to comprehend, analyze, interpret, and apply statistical concepts for exploring, describing, reorganizing, and analyzing public health data to obtain insight about populations from which data were drawn. Students examine data description and exploratory data analysis used in health-related journals, develop and design medical and health studies, analyze and articulate the role of statistical inference in public health and medical studies, and apply statistical methods for evaluating the association of factors with health outcomes. Credit: 3.

Prerequisite: Successful completion of one college level course in statistics with a grade of "C" or higher prior to enrollment, or with approval of instructor.

HLTH 5377. Independent Studies. 3 Hours.

The student with specific interest and background experience in a specialized area will have the opportunity to apply theoretical concepts in a laboratory situation. The student may have practical experiences in a clinic, agency, special school or other types of institutions.

Prerequisite: Permission of the Graduate Coordinator.

HLTH 5378. Health Care Informatics. 3 Hours.

Students are provided an in-depth study of digital technologies in health information management systems. Topics discussed in the course may include approaches to data acquisition, storage systems, retrieval constructs, analysis of information, and technological use to provide information to drive decisions that address opportunities and problems in health care organizations.

Prerequisite: Graduate standing.

HLTH 5380. Global Health Partnerships. 3 Hours.

Students analyze health problems, policies, and challenges beyond national boundaries that require cooperative actions of global partners and multilateral agencies. Students investigate current and emerging global health priorities, infectious diseases, poverty, political conflicts, manmade and natural disasters, emergencies, health inequities, health system reform, and major global initiatives for disease prevention and health promotion. The course content and assignments provide students with the comprehensive contexts for linking the global developmental issues to social justice.

Prerequisite: Admission to the Master of Public Health Program, or permission of instructor.

HLTH 5381. Health Economics and Finance. 3 Hours.

Students explore and analyze select financial management topics commonly used in nonprofit health care organizations including health care related economics principles, not-for-profit accounting statements, and financial project selection techniques. Credits: 3.

HLTH 5384. Quality and Safety Public Reporting Systems. 3 Hours.

Students focus on the quality and safety reporting requirements that foster continued improvement and financial efficiencies by making publicly available report cards and rankings of providers. Students access, manipulate, and create customized reports on health service delivery settings as requested by federal and state governmental entities and accreditation organizations. In addition, students prepare plans of action to manage public perception of report cards and to lead evidence-based organizational initiatives for improvement of quality and safety measures. Credit 3 hours.

Prerequisite: Graduate Standing.

HLTH 6098. Thesis I. 1-3 Hours.

This phase of the thesis investigation includes the completion of the review of the related literature, formulation of the research design and procedures and related pilot studies. Some data collection may also occur, and the thesis symposium must be completed to the satisfaction of the advisor and members of the thesis committee. Variable Credit (1 to 3). Course Equivalents: HLTH 6398 .

HLTH 6099. Thesis II. 1-3 Hours.

This phase of the thesis work includes the completion of the data collection, as well as the actual writing and defense of the thesis. Variable Credit (1 to 3). Course Equivalents: HLTH 6399 .

HLTH 6352. Public Health Grant Writing. 3 Hours.

This course is designed to provide students with the competencies required to be successful in the health grant writing process. The course discusses the procedures to locate appropriate funding agencies and requests for proposals, the process of interpreting the grant instructions, and the methodology necessary to complete the required sections of the grant narrative. In addition, the course includes an introduction to the electronic grant submission process and the forms required by funding agencies.

Prerequisite: HLTH 5355 and HLTH 6396, or permission of instructor.

HLTH 6365. Health Care Policy. 3 Hours.

Students examine the impact of managed care, the dynamics of competition in the healthcare industry, and the role of government in medical care. Students investigate forces pressuring for change in healthcare, and the reasons why the health system has evolved to its current state. Emphasis is placed on the role of the Affordable Care Act (2010) and how healthcare reform and related legislation and regulation influences the manner in which the public pays for and receives its medical services.

Prerequisite: Admission to the Master of Public Health Program, or permission of instructor.

HLTH 6371. Advanced Concepts in Health Care Quality. 3 Hours.

In this advanced course in health care quality and safety, students use a systems approach to examine quality philosophies and frameworks with a focus on design, validation, quality measure applications, metrics for processes and outcomes, benchmarking concepts, strategic quality management, and the management of human factors.

Prerequisite: Graduate standing, 3 Hours of Statistics, and HLTH 5371.

HLTH 6373. Leading Change in Health Care Organizations. 3 Hours.

Students focus on advanced theoretical concepts and applications in the areas of leadership, organizational development, team building, change management, and the particular challenges involved with leading change in health care organizations. The effects of the culture of change initiatives are examined as well as approaches to motivating organizations to create more openness to the capacity of change through competent leadership.

Prerequisite: Graduate Standing.

HLTH 6384. Health Quality & Safety Capstone. 3 Hours.

This culminating course is designed to integrate all of the contextual material from the coursework included in the MS in Health Care Quality and Safety program. Emphasis is placed on the assimilation and application of health information, organizational processes, continuous improvement constructs, and operational and patient safety strategies. This course includes a student capstone project that focuses on assessment, planning, and evaluation about an emerging healthcare quality and safety issue. HLTH 6384 serves as the comprehensive exam component for the MS in Health Care Quality and Safety Degree. Students must earn a "B" or higher in the course to be eligible for graduation.

Prerequisite: Graduate standing, admission to the program, completion of HLTH 5355, HLTH 5371, HLTH 5373, HLTH 5378, HLTH 5384, and HLTH 6373.

HLTH 6396. Health Program Planning/ Pre-Capstone. 3 Hours.

Students engage in a comprehensive review of the components of health program planning with emphasis on the socio-economical, cultural, and political factors that influence the health status of a community. Emphasis is focused on a comprehensive approach to health program planning and behavior change models.

HLTH 6397. Public Health Capstone / Practicum. 3 Hours.

Students engage in a professional field experience conducted in an approved setting for health education within the medical community, workplace or school setting. The 300 hour practicum is facilitated under the supervision of a qualified health educator or approved preceptor. HLTH 6397 serves as a comprehensive exam component for the MPH program. Students must earn a "B" or higher in the course to be eligible for graduation.

Higher Education (HIED)

HIED 5088. Special Topics in Higher Education. 3 Hours.

HIED 5089. Independent Study in Higher Education. 1-3 Hours.

HIED 5360. History and Organization of Higher Education. 3 Hours.

Students study organizational and administrative roles in higher education. Through collaboration, research, and independent inquiry, candidates examine organizational and administrative roles in higher education. Executive leadership issues in higher education are explored with a focus on conceptual content that prepares students for mid-level administration and management of higher education. Course Equivalents: EDAD 5360 .

HIED 5361. Contemporary Issues in Higher Education. 3 Hours.

Students study contemporary issues in higher education which includes information concerning the current generation of college students and how they develop while they are in college. Additionally, the impact of technology on students, faculty, and society are examined. Candidates demonstrate an understanding of the theoretical basis for key issues facing higher education in a rapidly changing society. Course Equivalents: EDAD 5361 .

HIED 5362. Higher Education Resource Management. 3 Hours.

Students develop knowledge and skills in both resource development and allocation based on institutional mission and planning. Human, physical and financial resources are examined in the context of planning, programming, budgeting systems, evaluation of outcomes, and institutional needs. Course Equivalents: EDAD 5362 .

HIED 5363. Information Technology in Higher Education. 3 Hours.

This course provides the higher education administrator with a systems approach to Enterprise Resource Management (ERP) and emerging technologies in education to enhance assessments, strategic planning, continuous improvement, and academic partnerships. Course Equivalents: EDAD 5363 .

HIED 5364. Leadership in Education. 3 Hours.

Students examine leadership theories, models, and processes with emphasis on the knowledge and skills necessary as 21st century leaders in higher education administration. Current leadership theory are applied to emerging issues in higher education administration. Course Equivalents: EDAD 5364 .

HIED 5365. Academic Affairs in Higher Education. 3 Hours.

Students study the factors that influence the development of instruction and curriculum in higher education. Policies and procedures for designing, implementing, and evaluating curriculum at the college level are examined. Candidates examine accreditation trends, issues, and problems in higher education administration. Curriculum theory and design, practices in goal setting, planning, and instructional improvement, are emphasized.

HIED 5366. Assessment in Higher Education. 3 Hours.

Students explore the philosophy, technique, and application of assessment in higher education settings. Students engage in guided development of an assessment project, exploring methods of assessment and means of advocating for evidence based change.

Prerequisite: HIED 5379 or EDAD 5379.

HIED 5367. Diverse Student Populations. 3 Hours.

Graduate students explore current demographic trends in higher education student populations. Additional study into student development theory is made to further refine higher education administrators' understanding of how a variety of students grow and develop in higher education.

Prerequisite: Admission in to the Master of Arts in Higher Education Administration.

HIED 5370. Career Advising in Higher Education. 3 Hours.

Students address a wide range of career advising tools, theories, and assessments available in advising students in higher education. Students examine the fundamental theories of career advising, advising on major selection, and gain familiarity with advising resources.

HIED 5378. Legal Issues in Higher Education Administration. 3 Hours.

Students examine contemporary legal issues and concepts that influence higher education. Students explore how various types of higher education institutions engage constituents and judicial systems. Specific attention is given to constitutional, contractual, tort, statutory, common law foundations, and frameworks.

HIED 5379. Research in Higher Education. 3 Hours.

Students focus on reviews of literature, research design, quantitative and qualitative methods, and sources of higher education research. Specific attention is paid to using scholarships to create or improve higher education programs, curriculum, or policies.

HIED 5387. Independent Study. 3 Hours.

Master of Arts students are provided an opportunity to engage in a detailed field study of a program or problem in higher education administration. The student works under the supervision of a graduate faculty member and will be expected to produce a summative written product or presentation.

HIED 5390. Concepts in Academic Advising. 3 Hours.

Students are provided an overview of the concepts of academic advising as essential components of student success and retention programs in higher education. This course prepares and equips academic advisors for leadership in the area of student success. Course Equivalents: EDAD 5390 .

HIED 6360. Student Services In Higher Education. 3 Hours.

Students are provided in-depth content regarding the practice of student services/student affairs in Higher Education. Theoretical foundations, competencies needed for successful student personnel work, and current issues and problems in student services are addressed. Students are provided a structural framework for the student services organization as it complements academics in institutions of higher education. Course Equivalents: COUN 6360 .

HIED 6371. Fundamentals of Data Management. 3 Hours.

Students develop the skills necessary to effectively manage institutional data. Technological aspects of data management, data transformation and manipulation, storage, confidentiality and anonymity, Institutional Review Board procedures and data sharing agreements are addressed.

HIED 6372. Practicum in Higher Education. 3 Hours.

Students are provided a field practicum for students seeking a position working in administration at a college or university. This course is the last course to be taken in the sequence of courses and may be taken with one to two other courses.

HIED 6374. Statistics for Institution Research. 3 Hours.

Students are provided an overview of the most frequently used statistical methods in higher education assessment and institutional research. An emphasis is placed on the use of data and statistical methods to inform institutional decision making.

Prerequisite: HIED 6371.

HIED 6387. Thesis. 3 Hours.

Students work under faculty supervision on a sustained research project to produce a thesis in the field of higher education. Project topics vary based on student interests and the faculty advisor's research expertise. Students gain hands-on experience in conducting research and writing scholarly reports.

Prerequisite: Approval of the program coordinator.

Higher Education Leadership (HEDL)

HEDL 7088. Special Topics in Higher Education. 1-3 Hours.

Course Equivalents: HIED 7088 .

HEDL 7089. Independent Study in Higher Education. 1-3 Hours.

Course Equivalents: HIED 7089 .

HEDL 7110. Doctoral Studies in Higher Education. 1 Hour.

Students explore studies in higher education leadership, topics of current interest, and information regarding areas of study and research related to the doctoral program. Will be repeated for a total of three credits with different topics.

HEDL 7332. Organization and Administration of Higher Education. 3 Hours.

Students apply organizational theories to administration applications in higher education administration. Drawing upon leadership theory, organization theory, administrative theory, psychology, sociology, and educational leadership, a variety of topics are applied to higher education settings.

HEDL 7361. Assessment and Evaluation in Higher Education. 3 Hours.

Students examine the process of collecting, analyzing, and using data for evidence-based change in higher education. They then, apply theories of assessment and evidence use to develop and recommend plans for change and improvement.

HEDL 7370. Higher Education Policy and Governance. 3 Hours.

Students examine the common governance structures and policies in community colleges and universities. Topics may include organizational structures, policies, and ethics that impact higher education leadership decisions. Students conduct an analysis of shared governance, academic freedom, and situations commonly faced by higher education leaders.

HEDL 7372. Diversity and Culture in Higher Education. 3 Hours.

Students examine demographic trends in higher education student populations and a variety of cultural, linguistic, social, and political perspectives within higher education. Students in this course will apply identity development theory to enhance the institutions' capacity to educate all students.

HEDL 7373. History of American Higher Education Systems. 3 Hours.

This course is designed to teach doctoral students the historical and contemporary role of the American college and university system. The course covers the establishment of the community college as a unique American idea that has become a major component in the postsecondary milieu. The course also focuses on historical, current and emerging issues in the American college setting and the university system. Course Equivalents: EDLD 7373 .

HEDL 7374. The College Student. 3 Hours.

Students are provided with a foundation in student development, which includes information concerning the current generations of college students and how they develop while they are in college. Students also develop an understanding of the theoretical bases for student development and are able to identify the role of student development/services/affairs in developing college students. Course Equivalents: EDLD 7374, HIED 7374 .

HEDL 7375. Higher Education Finance. 3 Hours.

Students are provided a comprehensive overview of higher education funding and financing. Specific details of how a budget is built, sources of revenue, objects of expenditures, and planning are covered in the course. Students learn relevant terms, how to plan, build and implement an institution-wide budget. The course is intended to prepare students for leadership positions in higher education by providing a better understanding of financial, budgetary, and planning issues in public post-secondary education. Course Equivalents: EDLD 7375, HIED 7375 .

HEDL 7376. Teaching and Learning in Higher Education. 3 Hours.

Students identify and analyze contemporary issues in community college curriculum, including academic, workforce, tech prep, and dual credit. Course Equivalents: EDLD 7376, HIED 7376 .

HEDL 7377. Leadership of Higher Education Institutions. 3 Hours.

Students are introduced to an array of theoretical and practical orientations to leadership in the community college. The course content addresses current and emerging issues of leadership, administration, and management in the community college. Students become familiar with leadership theories and how to apply to them to a dynamic, multicultural, multi-ethnic educational environment. Course Equivalents: EDLD 7377, HIED 7377 .

HEDL 7378. Legal Issues in Higher Education. 3 Hours.

Students are provided an overview of the organization, governance, and administration of higher education. Students learn to analyze the elements that define colleges, describe models to explain how colleges are organized and managed; and integrate these models with administrative views to influence organizational processes, to include the communication of current issues to other personnel. The course focuses on legal issues that affect the governance of higher education. Course Equivalents: EDLD 7378, HIED 7378 .

HEDL 7387. Independent Study. 3 Hours.

Doctoral students are provided an opportunity to engage in a detailed and in-depth field study of a program or problem in higher education administration. The student works under the supervision of a doctoral faculty member and will be expected to produce a summative written product or presentation. Course Equivalents: HIED 7387 .

HEDL 8033. Dissertation. 1-6 Hours.

Students prepare an approved dissertation that will contribute to Higher Education Leadership. Minimum of 9 hours total required. Variable Credit (1 to 3).

Prerequisite: Completion of required leadership and research coursework and successful completion of comprehensive exam.

History (HIST)

HIST 5097. Independent Study. 1-3 Hours.

Students examine topics not specifically provided in any of the formal courses. Variable Credit (1-3). Course Equivalents: HIST 5397

Prerequisite: Consent of History Department Chair.

HIST 5098. Special Topic. 1-3 Hours.

Students examine topics not addressed in the current curriculum. Variable Credit (1-3).

Prerequisite: Department Approval.

HIST 5301. Methods in History. 3 Hours.

Students hone their research and writing skills needed for the M.A. in History degree. Students assess the various methodological approaches used by professional historians and learn how to conduct original research, engage in historiographical conversations, and communicate their research findings to a larger public. A. in History or departmental approval.

Prerequisite: Admission to the M.

HIST 5307. Intellectual History. 3 Hours.

Students examine major themes in intellectual history. Topics include the dynamics and statics of global philosophical traditions as realized in specific locales since the classical periods. Students discuss key texts in a seminar format.

Prerequisite: Graduate standing.

HIST 5320. Mesoamerican Civilizations. 3 Hours.

Students examine the origins, growth, and organizational and cultural features of the great New World civilizations of the region, including human inhabitation, nascent agriculture, and the emergence of early complex societies. Students examine native civilizations such as the Aztec, Maya, and Zapotec and assess the role of evidence and theory in conceptualizing the past.

Prerequisite: Graduate standing.

HIST 5321. American Immigration History. 3 Hours.

Students study immigration and ethnicity in America. Using a readings-seminar format, students analyze the settlement of North America from colonization to the recent past using the analytical frameworks of race, class, gender, nation, and ethnicity. Topics covered may include immigration policy; border policing; war and migration; women immigrants; and questions of citizenship and belonging, national and cultural identity, power and privilege.

Prerequisite: Graduate standing.

HIST 5322. Debates in Global Migration. 3 Hours.

Students address the major historiographical arguments that have driven the historians of migration, both around the world and in the United States. Students examine how population movements over time have raised crucial questions about the place of empire, nation-state, citizenship, racial formation, borders and boundaries, the role of women, neoliberalism, and globalization. The course also challenges students to consider representation and sources in migration history. Students engage with twentieth and twenty-first century scholarship that has shaped historians' understandings of and debates about migration.

Prerequisite: Graduate standing.

HIST 5333. Pre-Modern World History. 3 Hours.

Students examine major historical developments in the world prior to the sixteenth century. Topics may include war in the ancient world, comparative world religions, and Islamic civilization. Readings include important primary sources as well as secondary works.

Prerequisite: Graduate Standing.

HIST 5336. Pre-Modern European History. 3 Hours.

Students examine major historical developments in Europe prior to the sixteenth century. Topics may include Early Medieval Europe 300-1000; the Roman Empire; and Europe in the Era of Crusades, 1000-1500. Readings include important primary sources as well as secondary works.

Prerequisite: Graduate standing.

HIST 5338. Empires in World History. 3 Hours.

Students examine the role of empires in early modern world history and focus on the experience and interactions of empires from 1400 to 1800. Topics include the events, strategies, and policies that determined the ability of the empires of the early modern period to respond to challenges, such as political or geographic. Military as well as social and economic developments will receive attention in discussions of success and failure of the empires.

Prerequisite: Graduate standing.

HIST 5340. Recent African-American History. 3 Hours.

Students examine the African-American experience in United States history since the end of the Civil War. Topics include Reconstruction, Jim Crow segregation, national political leadership and intellectual thought, the Great Migrations, World War I, the "New Negro" and Harlem Renaissance, the labor movement, the Great Depression and World War II, and the modern Civil Rights Movement.

Prerequisite: Graduate standing.

HIST 5342. The Japanese Colonial Empire. 3 Hours.

Students examine the history of Japanese imperialism and colonialism in Asia from the late nineteenth century until the end of World War II. Topics may include settler colonialism in Korea, Taiwan, and Manchuria, Japan's militarization, fascist ideology, the Pacific Theater of World War II, and war trials.

Prerequisite: Graduate standing.

HIST 5351. Early Medieval Europe. 3 Hours.

Students examine Europe during the so-called "Dark Ages" (300-1000), a period of dynamic transformation as the Roman Empire ended, Christian, classical and warrior cultures interfaced, and the search for order met great challenges.

Prerequisite: Graduate standing.

HIST 5352. High and Late Medieval Europe. 3 Hours.

Students examine Europe across a period (1000-1500) characterized initially by growth and prosperity, diverse religious movements, towering urban constructions, and the Crusades and later by plague and peasant uprisings, which generated social unrest.

Prerequisite: Graduate standing.

HIST 5353. Legacies of the Reformations. 3 Hours.

Students examine the sixteenth-century Protestant and Catholic Reformations and their effects on religion, society, politics, culture, and the economy. Particular attention will be given to the competing interpretations of their long-term historical significance.

Prerequisite: Graduate standing.

HIST 5355. Holocaust & Genocide. 3 Hours.

Students examine various aspects of the Holocaust of European Jews by Nazi Germany and its allies during the Second World War (1939-1945). With particular attention to the years 1941 to 1943, students focus on different aspects of that genocide and may compare it with other episodes of mass killing in modern history. Numerous primary sources and victim and perpetrator perspectives will be incorporated.

Prerequisite: Graduate standing.

HIST 5359. The Audible Past. 3 Hours.

Students examine the meaning and significance of sound, music, and noise in culture and analyze how sound technologies shape, and are shaped by, the values of the cultures that produced them. Students apply the tools of historical analysis to primary sources in the form of recorded sound.

Prerequisite: Graduate standing.

HIST 5360. African Environmental History. 3 Hours.

Students examine the local and external forces that have influenced African environmental history from the mid-nineteenth century to the present. Students discuss methodological approaches, key themes, and debates in the historiography. Topics may include disease, conservationist ideologies (African and Western), demography, climate change, and the relationship between capitalistic economies (colonial and post-colonial) and environmental change in Africa.

Prerequisite: Graduate standing.

HIST 5362. Seminar in American Environmental History. 3 Hours.

Students examine the complex relationship between nature and society in U.S. history. Topics may include economics; land-use patterns and natural ecosystems; and dramatic changes in natural and human communities that have engendered strong social and political responses.

Prerequisite: Graduate standing.

HIST 5363. Seminar In Military History. 3 Hours.

Students examine selected topics in the history of war and violence. Topics may include war and the environment; the experience of combat for soldiers; civilians and societies at war; transitions to peace; and war in memory.

Prerequisite: Graduate standing.

HIST 5364. Seminar in War & Violence. 3 Hours.

Students examine how societies experience military conflict and remember war. Students compare the national memories of war with historical realities, interpret how societal images of war change over time, and appraise how these factors influence society itself.

Prerequisite: Graduate standing.

HIST 5365. Film and War in America. 3 Hours.

Students examine how film has altered the perception of warfare in the United States over the last century. Upon completion, students are able to compare the various views of war presented. Students examine the filmography to demonstrate how perceptions changed over time due to the influence of politics, patriotism, and warfare itself.

Prerequisite: Graduate standing.

HIST 5366. The Reconstruction Era. 3 Hours.

Students examine the social, cultural, political, and military histories of Reconstruction after the U.S. Civil War. Topics may include the experience of military occupation, African American political activism, violence and terrorism, the retreat from Reconstruction, and sectional reconciliation.

Prerequisite: Graduate standing.

HIST 5367. World War II. 3 Hours.

Students examine various aspects of the Second World War (1939-1945). Topics may include the military history of combat zones, the cultural and social history of the war, politics and strategy, technological developments, and economic change. Students evaluate various scholarly interpretations around the topic.

Prerequisite: Graduate standing.

HIST 5368. Britain's Modern Wars, 1899 to the Present. 3 Hours.

Students examine how the waging of colonial, European, and postcolonial wars shaped British national identity and collective memory in the twentieth century. Topics include the World Wars I II, the Boer War, Irish Independence and the Northern Ireland Troubles, and the dirty wars at the end of empire. Students may explore major recent historical interpretations and/or conduct research in primary sources.

Prerequisite: Graduate standing.

HIST 5369. Violence and the State in East Asia. 3 Hours.

Students examine the social, cultural, and political effects of warfare and social violence on East Asian societies during the twentieth century. Topics may include the rise of warlordism, secret societies in East Asia, the Sino-Japanese War, and violence in the Cultural Revolution.

Prerequisite: Graduate Standing.

HIST 5370. Colonial America. 3 Hours.

Students examine the issues, peoples, and perspectives that shaped Colonial America. Topics may include the exploration, settlement, and maturation of the North American colonies.

Prerequisite: Graduate standing.

HIST 5371. Revolutionary America. 3 Hours.

Students examine the era of the American Revolution by surveying recent historical interpretations of the period. Topics may include the cause, conduct, and consequences of the American Revolution and the conflict in comparative perspective.

Prerequisite: Graduate standing.

HIST 5372. Early National America. 3 Hours.

Students examine the development of the United States from 1783 to 1840; the failure of the Confederation; organization of government under the Constitution; the Federalist period; Jeffersonian democracy; the War of 1812; national growth in the post-war period; political and economic change; the party structure; the rise of Jackson; and social reform.

Prerequisite: Graduate standing.

HIST 5373. United States Civil War. 3 Hours.

Students examine selected topics in the political, military, economic, and social institutions of the United States during the Civil War era. Students explore major recent historical interpretations and/or conduct research in primary sources.

Prerequisite: Graduate standing.

HIST 5374. Seminar in the History of the American South. 3 Hours.

Students examines the diverse history, peoples, and cultures that have occupied the US South. Topics vary by semester; and may include economic and political history; religion, race, literature; the Civil Rights movement; and women's experiences.

Prerequisite: Graduate standing.

HIST 5375. Recent America, 1876-1933. 3 Hours.

Students examine the social, economic, cultural, diplomatic and political developments of late-nineteenth and twentieth century America. Students explore major recent historical interpretations and/or conduct research in primary sources.

Prerequisite: Graduate standing.

HIST 5376. Contemporary America, 1933-Present. 3 Hours.

Students examine United States history since 1933. Topics may include the Great Depression, the New Deal, the Cold War, the Vietnam War, the Civil Rights Movement, the Feminist Movement, Watergate, the Iranian Hostage crisis, the Reagan era, the end of the Cold War, and the roots of 9/11. Students explore major recent historical interpretations and/or conduct research in primary sources.

Prerequisite: Graduate standing.

HIST 5377. The American West. 3 Hours.

Students examine the U.S. West as a region with a strong emphasis on the nineteenth century. The course content covers the interpretive development of the field as it has progressed from a traditional focus on Anglo expansion to a more balanced view that embraces race, gender, and the workaday West. Students explore major recent historical interpretations and/or conduct research in primary sources.

Prerequisite: Graduate standing.

HIST 5378. American Cultural and Religious History. 3 Hours.

Students explore topics in the cultural and religious history of the people of North America. The course focuses on the patterns of belief and values held by men and women, which have shaped each major period from colonial times to the present. Course Equivalents: HIST 5361

Prerequisite: Graduate standing.

HIST 5380. American Historiography. 3 Hours.

Students explore the complex nature of historical practice and the development of past and current fields within the discipline. Students explore major recent historical interpretations and/or conduct research in primary sources.

Prerequisite: Graduate standing.

HIST 5381. World Historiography. 3 Hours.

Students engage in an in-depth examination of the interdisciplinary methodologies of the New World History. Students investigate the writing of world history as a projection of power and dominance in the era of global imperialism and colonialism; non-Eurocentric explanations for the "rise of the West"; and the latest scholarly efforts to construct a non-privileging world history.

Prerequisite: Graduate standing.

HIST 5382. Topics In the History Of Women. 3 Hours.

Students examine the experiences of women of diverse cultural, racial, and ethnic backgrounds, including women's responses to social forces during critical periods in their history. Students explore major recent historical interpretations and/or conduct research in primary sources.

Prerequisite: Graduate standing.

HIST 5383. United States Diplomatic History. 3 Hours.

Students examine the development of United States foreign policy from 1775 to the present. Topics may include diplomacy of the Revolutionary era; the Early Republic; Manifest Destiny; the Civil War era; Imperialism and Expansion; the Great Crusade and after; World War II; and the Cold War. The emphasis is on the forces that have influenced diplomacy and on the changing interpretations of United States foreign policy. Students explore major recent historical interpretations and/or conduct research in primary sources.

Prerequisite: Graduate standing.

HIST 5384. Texas History. 3 Hours.

Students examine major themes in Texas history. Topics may include indigenous peoples, Spanish colonization, the Mexican era, Anglo- and African-American settlement, the Revolution and Republic period, statehood, the Civil War and Reconstruction, the cattle kingdom, the oil industry, and political and economic modernization. The course may be conducted as either a research or reading seminar. Students explore major recent historical interpretations and/or conduct research in primary sources.

Prerequisite: Graduate standing.

HIST 5385. Latin American History. 3 Hours.

Students explore the history of Latin America. The topics for this course vary from semester to semester among the diplomatic, political, social, and intellectual histories of Mexico, the Caribbean, the Anglo-Spanish borderlands, or South America. Students explore major recent historical interpretations and/or conduct research in primary sources. .

Prerequisite: Graduate standing.

HIST 5386. African American Civil Rights. 3 Hours.

Students examine the African-American civil rights movement in the United States and discuss the origins, evolution, and continuation of the movement. Topics may include Jim Crow segregation, lynching, the establishment of the NAACP, school desegregation, the origins and evolution of Black Power, and mass incarceration.

Prerequisite: Graduate standing.

HIST 5388. Public History. 3 Hours.

Students examine various aspects of public history. Topics may include historic preservation, museum studies, living history interpretation, archival arrangement and description, grant writing, and news media. Student projects vary by semester.

Prerequisite: Graduate standing.

HIST 5389. Great Britain and the British Empire. 3 Hours.

Students examine major themes in British history. Topics may include British religious, political, social, cultural, economic and imperial histories. Students explore major recent historical interpretations and/or conduct research in primary sources.

Prerequisite: Graduate standing.

HIST 5390. China in Revolution. 3 Hours.

Students examine the patterns and contradictions of the social and political revolutions in the making of modern China. They focus on how issues related to the economy, ethnicity, gender, and cultural production shaped Chinese politics and society from the collapse of the Qing dynasty in 1911 until Mao's death in 1976. Topics include the formative years of the Chinese Communist Party, the Chinese Civil War, the consolidation of the People's Republic of China, the Great Famine, and the Cultural Revolution.

Prerequisite: Graduate standing.

HIST 5392. The Ottoman Empire, 1300-1922. 3 Hours.

Students survey the history of the Ottoman Empire to provide a comprehensive outlook on the diverse political and social traditions of the Islamic world. The course explores the numerous historical threads that eventually composed the fabric of societies and states in the modern Middle East. Focusing on the political and ideological history of the Ottoman Empire, this course pays attention to empire formation in the early modern era, European imperialism, modernization, and nation-building.

Prerequisite: Graduate standing.

HIST 5393. European Diplomatic History. 3 Hours.

Students examine selected topics in the history of European international politics from the eighteenth through the twentieth century. Alternate emphasis may be placed on Eastern and Western Europe as well as on different eras of diplomacy. Students may explore major recent historical interpretations and/or conduct research in primary sources.

Prerequisite: Graduate standing.

HIST 5394. Early Modern Europe. 3 Hours.

Students examine the fifteenth through eighteenth centuries and consider how the foundations for Modern Europe were established amid the dynamic, if not wrenching, transformation from a medieval way of life characterized by religious concerns, kingdoms, a predominately agrarian economy, and a rigid social order, to a modern one marked by science and secularism, sovereign states, a commercialized and industrializing capitalist economy, and a more socially diverse and mobile world. Students explore major recent historical interpretations and/or conduct research in primary sources.

Prerequisite: Graduate standing.

HIST 5395. Later Modern Europe. 3 Hours.

Students explore selected topics in Later Modern European History. Students examine major recent historical interpretations as well as conduct research in primary sources.

Prerequisite: Graduate standing.

HIST 5396. Cross-Cultural Interactions. 3 Hours.

Students engage in an advanced, interdisciplinary investigation of the historiography of cross-cultural encounters and exchanges. Students examine the historiography of three specific case studies: the ancient Silk Roads, the trans-Eurasian Mongol Empire, and the trans-Atlantic Columbian Exchange.

Prerequisite: Graduate standing.

HIST 6098. Thesis I. 1-3 Hours.

Students engage in the research and writing of their thesis. Variable credit (1-3.) Course Equivalents: HIST 6398.

HIST 6099. Thesis II. 1-3 Hours.

Students complete and successfully defend their thesis. Variable credit (1-3.) Course Equivalents: HIST 6399.

HIST 6394. Seminar in History. 3 Hours.

Students develop skills in locating, extracting, evaluating, and synthesizing historical information and writing an article-length paper based on primary sources.

Prerequisite: Graduate standing.

Horn (HORN)

HORN 5201. Individual Performances-French Horn. 2 Hours.

The course consists of advanced individualized instruction on the French horn. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students.

Human Sciences (HUSC)

HUSC 5087. Independent Study. 1-3 Hours.

This is a course designed for independent study of selected topics under the supervision of a faculty member. This course will examine special topics in the field of Human Sciences. Variable Credit (1-3). Course Equivalents: FACS 5087, FACS 5387.

HUSC 5097. Special Topics in Human Sciences. 3 Hours.

This is a course designed for independent study of selected topics under the supervision of a faculty member. / This course will examine special topics in the field of Human Sciences. Course Equivalents: FACS 5097.

HUSC 5323. Interiors & Aging Population. 3 Hours.

This course provides an in-depth study of how interior environments affect the aging population, primarily focusing on housing issues and options. Emphasis is on policy, needs assessment, finances, and physical design. Course Equivalents: FACS 5323

Prerequisite: Graduate Standing.

HUSC 5330. Seminar in Human Science Research. 3 Hours.

A course designed to acquaint graduate students with the need for and contribution of research. Criteria are developed for designing and completing research. Course Equivalents: FACS 5330 .

HUSC 5375. Seminar in Recent Developments in Human Science. 3 Hours.

A critical analysis of current trends, issues, and problems in Human Sciences. Course may be repeated for credit. Course Equivalents: FACS 5375 .

HUSC 5380. Aging Population Needs. 3 Hours.

This course is focused on the broad principles of human sciences and effects of interior environments, food and nutrition, fashion, apparel and textiles related to an aging population. Course Equivalents: FACS 5380 .

HUSC 6098. Thesis I. 1-3 Hours.

This phase of the thesis investigation includes the completion of the review of the related literature, formulation of the research design and procedures, and related pilot studies. Some data collection may also occur, and the thesis symposium must be completed to the satisfaction of the advisor and members of the thesis committee. Variable Credit (1-3). Course Equivalents: FACS 6098, 6398 .

HUSC 6099. Thesis II. 1-3 Hours.

This phase of the thesis includes the completion of the data collection, as well as the actual writing and defense of the thesis. Variable Credit (1-3). Course Equivalents: DIET 6099, FACS 6099, FACS 6399 .

Industrial Education (INED)

INED 5310. Advanced Human Relations in Career Technical Education (CTE). 3 Hours.

This course is designed to meet the needs of the competent tradesman in understanding and working with students. Parallel course to INED 4310.

INED 5365. Advanced Teaching in CTE Industry. 3 Hours.

Success in most professional areas is dependent in part on the ability of an individual to communicate effectively with others. An inventory of media used in communications will be made. Various means and equipment for aiding the communication of ideas will be studied and evaluated.

INED 5379. Instruction/Product Analysis. 3 Hours.

This course is a study of the inventory and analysis procedure by which the essential elements of an occupation or production scheduling activity are identified and listed for instruction or production purposes. The analysis determines the instructional or production format necessary for a smooth and orderly process from the simple to the complex order of tasks, operation and jobs required in the industrial environment.

INED 5382. Managing CTE Work Programs. 3 Hours.

Techniques for identifying students for vocational training; sources and means of job placement for co-operative part-time students and graduates of vocational programs; and methods of making student follow-up studies are included.

INED 5386. CTE Instructional Technology. 3 Hours.

This course is designed to aid teachers of industrial subjects in the design and construction of teaching aids. The study of multi-media is an integral and important phase of this course.

INED 5391. Lab Organization & Management. 3 Hours.

This course is designed for graduates who are going to teach Industrial Education or manage equipment and supplies in industry. It is to prepare students to successfully manage laboratory activities, organize laboratories in accordance with contemporary concepts, and to control materials/supplies within their laboratories. Parallel course to INED 4391.

Instructional Leadership (INSL)

INSL 5088. Special Topics in Instructional Leadership. 1-3 Hours.

This course offers graduate students the option of registering for a multi-topic course. The student can take the course under various special topics being offered. Variable Credit 1-3. Course Equivalents: EDAD 5387 .

INSL 5089. Independent Study in Instructional Leadership. 1-3 Hours.**INSL 5378. Curriculum Planning. 3 Hours.**

Students study the various factors which influence curriculum change; the role and responsibilities of different personnel and agencies in curriculum planning; procedures in implementing curriculum change; and current programs in public school curriculum K-12. Course Equivalents: EDAD 5378 .

INSL 5379. Methods of Research. 3 Hours.

Students study types and methods of educational research, the collecting, analyzing and sharing of data with the public. The student is expected to complete a research project or field study utilizing appropriate methods of educational research. Course Equivalents: EDAD 5379 .

INSL 6360. Learning Theory of Educational Leadership. 3 Hours.

Students study the principles of psychology as they apply to learning and teaching. Pertinent research is studied in an attempt to find ways to make instruction more effective. Course Equivalents: EDAD 6360 .

INSL 6368. Instructional Supervision. 3 Hours.

Students focus on leadership for the improvement of instruction, including current research on school and teaching effectiveness. Course Equivalents: EDAD 6368 .

INSL 6372. Practicum in Instructional Leadership. 3 Hours.

Students are provided a field practicum for students seeking a position as an instructional supervisor. The course designed to provide intensive study of the field of instructional leadership. Last course to be taken in the sequence of courses. May be taken with one to two other courses. Course Equivalents: EDAD 7361 .

INSL 6390. Evaluation for Instructional Leaders. 3 Hours.

Graduate students in Instructional Leadership gain a comprehensive knowledge of different types and forms of evaluation and their application to educational improvement. In addition, students learn how to analyze data from a variety of forms of assessments to inform instructional decisions. This course includes a comprehensive study of the design, validity/reliability, bias, and use of assessment instruments often associated with educational improvement.

Instructional Systems Design Technology (ISDT)

ISDT 5088. Special Topics in Instructional Technology. 1-3 Hours.

This course presents the instructional, technical and management issues evident in instruction and learning offered via distance delivery systems. Various delivery systems and technology tools within those systems will be studied and critiqued to evaluate the effectiveness of each. The course highlights effective online course design and delivery with an attention to the learning resources and strategies evident in successful online teaching and learning. Variable Credit (1 to 3).

ISDT 5319. Critical Analysis of Instructional Software. 3 Hours.

Students examine the instructional and educational value of commercially available software for the pre-k through 12th grade and enterprises. Students build upon a foundation of instructional theory to identify appropriate characteristics of instructional software and explore the effectiveness of instructional software in the classroom. This course may not be counted toward the M.S. in Computer and Information Science, Information Assurance and Security or Digital Forensics. Course Equivalents: CSTE 5319 .

ISDT 5336. Educational Multimedia. 3 Hours.

Students explore the uses of multimedia in the classroom and extend the teachers' skill base in the development of appropriate multimedia examples to support and enhance the middle school and high school curricula. Throughout the course, students gain experience in still and motion digital editing, and audio and animation production. This course may not be counted toward the M.S. in Computer and Information Science, Information Assurance and Security or Digital Forensics. Course Equivalents: CSTE 5336

Prerequisite: Graduate standing.

ISDT 5337. Designing Instructional Material for the Web. 3 Hours.

Students examine the development of websites for instructional purposes. Students explore the systematic design of instruction, a process that examines the development of appropriate course goals, the identification of measurable objectives that meet those goals, and intelligent approaches to assessing student performance. This design approach is then applied to the development of web-based materials, providing opportunities for skills acquisition in a variety of multimedia applications and their incorporation into a website. The course culminates in the development of a geometry web site for use in schools and businesses. This course may not be counted toward the M.S. in Computer and Information Science, Information Assurance and Security or Digital Forensics. Course Equivalents: CSTE 5337 .

ISDT 5338. Development of Technology Infrastructure in Schools. 3 Hours.

This course examines the funding, design and implementation processes required to establish and realize a coherent technology acquisition and management strategy. Course Equivalents: CSTE 5338 .

ISDT 5363. The Role of Technology Liaison. 3 Hours.

This course is designed to assist the technology liaison in learning how to facilitate classroom teachers throughout the instructional process, supported by technology. Attention is given to the foundation of social, ethical, legal, and human issues of technology use in PK-12. Course Equivalents: CIED 5363 .

ISDT 5365. Technology And Cognition. 3 Hours.

Students learn to incorporate technology into teaching and learning in relation to the brain development in school-age children, emphasizing instructional techniques for enhancing learner's cognitive development using of technology. Students design advanced technological application for instruction, based upon best practices in technology and cognition. Course Equivalents: CIED 5365 .

ISDT 5367. Readings and Trends In Instructional Technology. 3 Hours.

Candidates are acquainted with the critical writings and ideas of prominent practitioners, researchers, and theorists in instructional technology with a focus on understanding the trends and issues pertaining to a scholarly study of integrating technology into teaching and learning. Candidates evaluate the best instructional technology strategies evident in the literature and in practice in PK-16 education and industry settings. Course Equivalents: CIED 5367 .

ISDT 5369. Practicum-Technology Facilitation. 3 Hours.

Students are provided with a field-based practicum in a school setting, including a study of the daily duties and responsibilities of a technology facilitator. Course Equivalents: CIED 5369 .

ISDT 6335. Management Application Analysis I. 3 Hours.

Students apply systematic and rational approaches to the analysis, evaluation, and implementation of course management systems from the perspective of pedagogical success, user friendliness, and cost effectiveness.

ISDT 6351. Distance Learning I. 3 Hours.

Students explore the instructional, technical, and management issues in distance education delivery systems. Effective online course design and delivery of teaching and learning resources and strategies are examined.

ISDT 6389. Independent Study. 3 Hours.

Students study individually chosen topics under the supervision of a faculty member. The specific topic is selected from current trends and future research directions, not covered in the Instructional Systems and Design Technology (ISDT) graduate curriculum.

Prerequisite: Consent of instructor and approval of department chair.

ISDT 7315. Educational Network Design. 3 Hours.

Students examine the technical, environmental, and policy issues involved in the development of educational technology infrastructures, focusing on network design and evaluation. Course Equivalents: CSTE 7315 .

ISDT 7325. Technology Sustainability. 3 Hours.

Students examine the potential and the challenges associated with initiating and maintaining green and cost-efficient technology infrastructures based on environmental awareness initiatives.

ISDT 7335. Management Application Analysis. 3 Hours.

Students are provided a systematic and rational approach to the analysis, evaluation, and implementation of course management systems from the standpoints of pedagogical success, user friendliness, and cost effectiveness.

ISDT 7336. Instructional Design Assessment. 3 Hours.

Students apply instructional design theories to the development, analysis, evaluation, and assessment of various digital instructional designs.

ISDT 7350. Issues in Instructional Technology. 3 Hours.

Students examine current social, economic, and ethical issues surrounding the acquisition and implementation of technology in instruction. An emphasis is placed on the research of past, present, and future applications of technology in instruction, and applying theory to practice. Theoretical perspectives informing future research in instructional technology are also considered. Course Equivalents: CIED 7350

Prerequisite: Admission into the Ed.D. Instructional Technology program.

ISDT 7351. Distance Learning II. 3 Hours.

Students explore the instructional, technical, and management issues evident in instruction and learning offered via distance delivery systems. Various delivery systems and technology tools within those systems are studied and critiqued to evaluate their effectiveness. The course highlights effective online course design and delivery with an attention to the learning resources and strategies evident in successful online teaching and learning. Course Equivalents: CIED 7351 .

ISDT 7352. Instructional Planning. 3 Hours.

Student are provided with strategies to assist instructional personnel to plan and use digital-age tools. Course Equivalents: CIED 7352

Prerequisite: Admission into the Ed.D. Instructional Technology program.

ISDT 7353. Professional Development. 3 Hours.

Students identify technology development needs, research current practices, and design and implement a professional development sequence with support materials. Course Equivalents: CIED 7353

Prerequisite: Admission into the Ed.D. Instructional Technology program.

ISDT 7354. Leadership in Technology Administration. 3 Hours.

Students focus on decision-making for effective and efficient implementation of instructional and productivity technologies, to include consideration of policy, current research, emerging technologies, learning needs, and available resources. Course Equivalents: CIED 7354 .

ISDT 7355. Program Evaluation. 3 Hours.

Students evaluate professional learning programs that integrate technology effectively into instructional practices. Course Equivalents: CIED 7355

Prerequisite: Admission into the Ed.D. Instructional Technology program.

ISDT 7374. Qualitative Analysis. 3 Hours.

Students develop qualitative research skills by engaging in a substantial field-based instructional technology research project. Course Equivalents: CIED 7374

Prerequisite: Admission into the Ed.D. Instructional Technology program.

ISDT 7375. Multivariate Analysis and Learning Analytics. 3 Hours.

Students analyze multivariate data and educational big data related to the fields of instructional technology and learning analytics and interpret the results of the analyses. The analysis methods include advanced statistical approaches and computational techniques.

Prerequisite: ISDT 7372.

ISDT 7380. Instructional Technology Research Methods. 3 Hours.

Students focus on the research questions, approaches, and measures typically employed by instructional technology researchers.

ISDT 7385. Doctoral Internship. 3 Hours.

Under the leadership of a qualified mentor, students research, electronically document, and reflect on their study as they examine the future of technology, strategies for dynamic decision-making, effective and collaborative online communication, equitable access to technology resources for all learners, and community-based learning. At the conclusion of the 150-clock hour internship, students present an online documentary of their internship experiences. Course Equivalents: CIED 7385

Prerequisite: Admission into the Ed.D. Instructional Technology program.

ISDT 7386. Special Topics. 3 Hours.

Students study topic(s) that vary based on student-cohort career interests or needs and semester offered. The topics covered are related to Instructional Systems Design and Technology (ISDT) when topics of special interest from those covered elsewhere in the curriculum.

ISDT 7388. Doctoral Field Studies. 3 Hours.

Students independently administer an organizational instructional technology needs-analysis. Based on the identified needs of the organization, the student then plans, implements, assesses, and modifies an instructional leadership project/case study to address identified needs. Course Equivalents: CIED 7388

Prerequisite: Admission into the Ed.D. Instructional Technology program.

ISDT 7389. Independent Study. 3 Hours.

Students study individually chosen topics under the supervision of a faculty member. The specific topic is selected from current trends and future research directions, not covered in the Instructional Systems and Design Technology (ISDT) graduate curriculum.

Prerequisite: Consent of instructor and approval of department chair.

ISDT 7391. Application of Research. 3 Hours.

Students develop a dissertation proposal.

Prerequisite: 45 hours of coursework required for the Ed.D. Course Equivalents: CIED 7391 .

ISDT 8033. Dissertation. 1-6 Hours.

The culmination of doctoral study resulting in a dissertation that addresses key topics in Instructional Technology. An original investigation is planned, executed, and defended. Course Equivalents: CIED 8333, ISDT 8333

Prerequisite: Successful completion of the dissertation proposal defense.

ISDT 8333. Doctoral Dissertation. 3 Hours.

The culmination of doctoral study resulting in a dissertation that addresses key topics in Instructional Technology. An original investigation is planned, executed, and defended. Course Equivalents: CIED 8333

Prerequisite: Successful completion of the dissertation proposal defense.

Kinesiology (KINE)

KINE 5097. Special Topics in Kinesiology. 3 Hours.

Students will engage in a thorough investigation of current topics to increase their knowledge base in these areas. This course allows students to apply knowledge from previous course work to specific current issues and analyze the information to develop possible solutions or research gaps. Variable Credit (1-3).

KINE 5334. Sport and Human Performance Internship I. 3 Hours.

Students engage in an internship experience in a personal working environment or organizational setting. Students complete 200-contact hours of an internship experience, and it serves as the first half of a 400-contact hour internship for graduate students. Internship sites must be secured and approved prior to the semester starting. Supervisory assistance by project staff occurs at frequent intervals. Refer to the internship manual for expectations and guidelines.

KINE 5335. Sport and Human Performance Internship II. 3 Hours.

Students complete an additional 200 contact hours of an internship experience and that serves as the second half of the 400-contact hour internship for graduate students. This course allows students to either gain experience in a new setting or delve deeper into the experiences gained in KINE 5334. Students who desire to gain practical experience in the Sport and Human Performance degree track should select this course. Internship sites must be secured and approved prior to the semester starting. Refer to the internship manual for expectations and guidelines.

Prerequisite: Department Approval and Graduate Standing.

KINE 5367. Advanced Physiology of Exercise. 3 Hours.

Students explore advanced content reflecting the scientific principles underlying the physiology of exercise. Students are required to conduct an applied research project on a topic of their choice.

Prerequisite: Graduate Standing.

KINE 5368. Research in Sport and Human Performance. 3 Hours.

Students focus on current research trends in Sport and Human Performance (SHP). Research on a variety of current topics in the field are analyzed and discussed. In the course, students discuss media presentation and their application to the profession. Additionally, students develop and present a proposal for a research project.

Prerequisite: Graduate Standing.

KINE 5372. Youth Fitness. 3 Hours.

Students are provided with specific background and knowledge in how to appropriately plan programs geared to improving the fitness of youth. Central to this course is the development of an attitude that perceives youth fitness as a significant part of the school curriculum. Students are prepared to promote youth fitness in an effective and scientific manner.

KINE 5374. Applied Research Methods in Kinesiology. 3 Hours.

Students study research techniques, identification of problems, research designs and data gathering procedures. In addition, students develop a proposal for a research project.

KINE 5375. Statistical Design in Kinesiology. 3 Hours.

Students explore principles of advanced statistical techniques and measurement theory, with emphasis upon their application to Health, Kinesiology, and related areas.

KINE 5377. Independent Studies. 3 Hours.

This course is adaptable to the needs and interests of the individual student. Students with specific interests are provided the opportunity to investigate and make application in theoretical, laboratory, or field experience approaches to their area of concentration. A proposal is submitted to the faculty sponsor and the Chair of the Health and Kinesiology Graduate Committee the semester before the student plans to register for this course. A proposal is submitted to the faculty sponsor and the Chair of the Health and Kinesiology Graduate Committee the semester before the student plans to register for this course.

Prerequisite: KINE 5374.

KINE 5378. Applied Motor Development in Physical Education. 3 Hours.

Students focus on the principles that will enable graduate students to effectively apply motor development concepts to teaching, rehabilitation, and training. In addition, students apply current research and literature to the study of the changes of human motor behavior over the lifespan, the processes that underlie these changes, and the factors that affect them. This course emphasizes the administration, collection, and analysis of data in the motor domain.

KINE 5379. Management of Adult Fitness Programs. 3 Hours.

Students analyze factors associated with the management of commercial, corporate and hospital-based wellness programs. Special attention is given to the purpose, development, and maintenance of such programs.

KINE 5381. Clinical Exercise Physiology. 3 Hours.

Students are introduced to a detailed study of the human physiological responses to activity and exercise in the presence of chronic disease. Students are provided with fundamental knowledge of disease-specific pathology and treatment guidelines. Students are guided through the physiology associated with exercise testing and physical training of patients with chronic disease.

Prerequisite: Graduate standing.

KINE 5385. Biomechanics of Injury. 3 Hours.

Students examine the biomechanics of musculoskeletal injury. Specific topics to be addressed are the biomechanics of tissue and how biomechanical factors impact injuries to the lower-extremity, upper-extremity, and head, neck, and trunk.

Prerequisite: Graduate Standing .

KINE 5386. EKG/Cardiac Conditions. 3 Hours.

Students in this course develop an advanced understanding of cardiac anatomy and how electrical activity of the heart can be properly interpreted in order to detect abnormalities in the cardiovascular system. Emphasis is placed on identifying criteria for abnormal heart rhythms including conduction disturbances, and ventricular and supraventricular arrhythmias. Other topics to be addressed include systematic EKG interpretation techniques, myocardial ischemia and infarction, and the role of pharmacological agents and electrolytes on the EKG.

Prerequisite: Graduate Standing.

KINE 5387. Biomechanical Gait Analysis. 3 Hours.

Students conduct walking gait analysis from a biomechanical perspective. Students also focus on fundamental terminology, data collection, and data interpretation methods specific to walking gait analysis.

Prerequisite: Graduate standing or KINE 4362.

KINE 5388. Strength Training Principles. 3 Hours.

Students develop, instruct, and evaluate resistance training exercises and programs for diverse populations and settings. Students apply physiological and mechanical principles related to resistance training to study human performance, injury prevention, and rehabilitation.

KINE 5389. Sports in American Culture. 3 Hours.

Students explore North American sport from a viewpoint that sport is a microcosm of society. Social structures, sub-cultures, and ethics are explored.

KINE 5390. Exercise Science Lab Practicum. 3 Hours.

Students study advanced laboratory methods typically utilized in applied exercise science. The student gains understanding of equipment used for assessment and evaluation of persons with varying needs. A research project is a major component of this course.

Prerequisite: Graduate standing.

KINE 5391. Motor Control in Practice. 3 Hours.

Students identify principles of motor control with emphasis on the application of these principles to Sport and Human Performance (SHP). Students investigate how motor control affects everyday movement and performance, and review and synthesize current literature and present the findings to their peers. Prerequisite: Graduate Standing.

Prerequisite: Graduate Standing.

KINE 5393. Advanced Studies in Psychology of Sport. 3 Hours.

Students engage in an advanced study of the psychological factors that affect, and are influenced by, sports participation. Both the coach and the athlete are considered in this analysis.

KINE 5395. Advanced Biomechanics. 3 Hours.

Students study the mechanical analysis of motion as it applies to the human musculoskeletal system. The course stresses advanced concepts of functional anatomy, linear and angular kinetics and kinematics, and application of those concepts in a laboratory/research setting. Emphasis is placed on data collection and evaluation in a semester research project.

Prerequisite: Graduate Standing.

KINE 5396. Aerobic and Anaerobic Training. 3 Hours.

Students engage in a detailed study of training techniques for competitive athletes are presented. Evaluation of the competitive athlete, including test selection, administration, and integration into training programs, are presented, as well. Students learn to design effective training and conditioning programs based on the specific needs of the competitive athlete.

Prerequisite: Graduate standing.

KINE 5397. Current Issues in Kinesiology. 3 Hours.

Students study topics and specific issues germane to current concerns in the areas of Physical Education, health-related wellness, sport on the professional level, and interscholastic and intercollegiate athletics. Students are required to complete a research project requiring data collection and analysis.

KINE 5398. Significance of Motor Learning. 3 Hours.

Students are presented the theoretical and experimental bases for the understanding of human behavior in movement. Areas of study include feedback manipulation, motor programming, dynamic systems theory, generalizability of schema, forgetting, and compatibility analysis. Students are required to plan and conduct a research study testing a motor learning postulate of their own choosing.

Prerequisite: KINE 2363 or permission of instructor.

KINE 5399. Workshop in Kinesiology. 3 Hours.

Students engage in an intensive laboratory-oriented experience for practitioners seeking to upgrade teaching, coaching, or leadership competencies in areas related to Kinesiology, Coaching, and Athletics. May be repeated for credit with approval of the Kinesiology Graduate Coordinator.

KINE 6098. Sport and Human Performance Thesis I. 1-3 Hours.

This phase of the thesis investigation includes the completion of the review of the related literature, formulation of the research design and procedures and related pilot studies. Some data collection may also occur, and the thesis symposium must be completed to the satisfaction of the advisor and members of the thesis committee. Variable Credit (1-3). Course Equivalents: KINE 6398 .

KINE 6099. Sport and Human Performance Thesis II. 1-3 Hours.

This phase of the thesis includes the completion of the data collection, as well as the actual writing and defense of the thesis. Variable Credit (1 to 3). Course Equivalents: KINE 6399 .

Library Science for Sch Librns (LSSL)

LSSL 5087. Special Topics in Library Science. 1-3 Hours.

Students examine selected current topics in school libraries. Students are to encourage to make thoughtful, educated decisions related to the topics. Variable Credit (1-3).

LSSL 5088. Special Topics in School Libraries. 3 Hours.

This course will examine special topics in the field of School Librarianship. / This course is designed for independent study of selected topics under the supervision of a faculty member. Variable Credit (1-3.)

LSSL 5089. Independent Study in School Librarianship. 1-3 Hours.

This course will examine special topics in the field of School Librarianship. / This course is designed for independent study of selected topics under the supervision of a faculty member. Variable Credit (1-3.)

LSSL 5330. Collection Development. 3 Hours.

Students are introduced to principles of selection of library materials and procedures involved in building collections for school libraries, which includes latest technological developments, research theories, and site-based applications. Required for certification and MLS.

LSSL 5332. Organization of Collections I. 3 Hours.

Students are introduced to the principles of descriptive cataloging, classification, and subject analysis using the latest editions of the Resource Description and Access (RDA), the Dewey Decimal Classification, Library of Congress and Sears subject headings. Focus is placed on the broad-based use of the MARC format. Students are provided with an overview of various types of bibliographic control, technical services in libraries and processing centers, and commercial and shared cataloging utilities. Required for certification and MLS.

LSSL 5334. Information Services and Resources I. 3 Hours.

Students are introduced to skills, techniques, and the philosophy of the reference process with emphasis on the interview and strategies. Students examine and discuss basic reference tools using specific evaluative criteria as well as analyze library systems, networks, automated databases, the Internet, and other digital searching techniques. Required for certification and MLS.

LSSL 5337. School Library Administration. 3 Hours.

Students study planning, organizing, policymaking, staffing, budgeting, facilities planning, decision-making, and services. An emphasis is placed on the study of standards, trends, services, research, and evaluation of the library. Required for certification and MLS.

Prerequisite: LSSL 5330 and LSSL 5332.

LSSL 5360. Literature For Children. 3 Hours.

Students are acquainted with the selection, critical analysis, and historical development of literature for children. Emphasis is placed on selecting recreational and informational materials for children reflecting our multicultural society; identifying techniques, activities, and strategies that motivate children to read and respond to literature; and developing critical abilities for evaluating literature for children. Required for certification and MLS.

LSSL 5361. Current Trends in Materials for Children and Young Adults. 3 Hours.

Students examine recent trends in materials for children and young adults, with an emphasis placed on multicultural materials for children and young adults. Elective.

Prerequisite: LSSL 5360 and LSSL 5385.

LSSL 5363. Preschoolers and the Library. 3 Hours.

Graduate students are acquainted with the historical development, critical analysis, and selection of literature, and related materials appropriate for preschool children. An emphasis is placed on techniques, activities, and strategies that meet the reading and learning needs and interests of these children. Cooperation with public libraries and librarians, as well as other family literacy stakeholders, is a component of this course.

LSSL 5364. Information Services and Resources II. 3 Hours.

Students study reference materials and services on a specialized level and modes of searching, including online and laser optical techniques; develop expertise in solving reference problems through role playing, case studies, etc., and analyze the latest trends and research in reference methods and technology, (e.g., the Internet and networking). In addition, students cover grantsmanship and proposal writing to secure funding for information resources. Elective.

Prerequisite: LSSL 5330, LSSL 5334, and LSSL 5360.

LSSL 5366. Library Internship. 3 Hours.

Students are provided with a supervised practice in a school library, which incorporates seminars, conferences, journals, and evaluation. Required for certification and MLS.

Prerequisite: LSSL 5330, LSSL 5332, LSSL 5334, LSSL 5337, LSSL 5360, and LSSL 5385.

LSSL 5367. Research Design & Methodology. 3 Hours.

Students are introduced to research methods, project designs, and data-gathering instruments pertinent to libraries. Students learn to apply research techniques relevant to school libraries. An emphasis is placed on the development of a research or grant proposal. Required for MLS.

Prerequisite: LSSL 5337.

LSSL 5368. Library Services & Programming for Children & Young Adults. 3 Hours.

Student study programming children and young adult services, including promotional activities, storytelling, book talks, reading guidance, library skills and instruction, innovative projects, and informal library use. In addition, students are introduced to trends and evaluation of research in the area. Elective.

Prerequisite: LSSL 5360 and LSSL 5385.

LSSL 5370. School Librarianship. 3 Hours.

Students are introduced to the design and development of curriculum that utilizes a systematic approach to instruction. An emphasis is placed on explicitly stated objectives, appropriate teaching strategies, and production of materials to facilitate achievement of goals using the latest in instructional technologies, including multimedia. Required for certification and MLS.

LSSL 5376. Field Research in Library Science. 3 Hours.

Graduate candidates are provided an opportunity for in-depth field study of a problem or topic conducted on-site at distinguished libraries or museums. Independent research in a candidate's area of specialization is conducted. The required research project culminates in a scholarly written paper and a poster session presentation. Additionally, candidates participate in on-site experiences and attend presentations unique to the course location.

Prerequisite: A written research proposal is required in advance to determine that project is suitable.

LSSL 5380. Masters Seminar. 3 Hours.

Students engage in an in-depth study of specialized subjects; may be repeated as topics vary. Examples of topics may include: Multicultural literature; eBooks and audiobooks, and other variations in materials; nonfiction for children and young adults. Elective.

Prerequisite: Appropriate required courses and approval of the Department Chair.

LSSL 5385. Literature for Young Adults. 3 Hours.

Students are acquainted with the selection, critical analysis, and historical development of literature for young adults. Emphasis is placed on selecting recreational and informational materials for young adults that reflect our multicultural society; identifying techniques, activities and strategies that motivate young adults to read and respond to literature; and developing critical abilities for evaluating literature for young adults. Required for certification and MLS.

Prerequisite: LSSL 5360.

LSSL 5391. Digital Technology for the School Librarian. 3 Hours.

Students are introduced to the Internet and digital technology for school librarians. Some of the topics covered may include evaluation of digital resources, various search tools, and a variety of communication tools. In addition, students explore ethical issues related to the responsible use of digital technology, including a wide variety of curriculum connections. Required for certification and MLS.

LSSL 5393. Historical Development of Literature for Children. 3 Hours.

Students examine the historical development of literature written specifically for children as well as trace the history from the earliest books for children to current trends and issues in the field. Elective.

Prerequisite: LSSL 5360.

LSSL 5396. Computer Science Applications to Librarianship. 3 Hours.

Students examine the history and status of automated library services, including the international standards, hardware, and commercial software available to support cataloging, circulation, online catalogs, reference services, and administrative tasks. Required for MLS.

Prerequisite: Complete 12 credit hours of 5000 - 7000 LSSL coursework.

LSSL 7088. Special Topics in School Library Leadership. 3 Hours.**LSSL 7089. Independent Study in School Librarianship. 1-3 Hours.**

Students engage in independent research based on a submitted research proposal. Elective. Course Equivalents: LSSL 5375

Prerequisite: Requires approval of Department Chair, LSSL 5360 and LSSL 5370.

LSSL 7337. Administrative and Leadership Issues in School Librarianship. 3 Hours.

Students focus on issues related to the responsibilities of program directors of library media in school districts. This course is one of the four courses that comprise a Library Science Cognate. Candidates conduct research and make inquiries into the development of effective strategies for planning and implementing organizational change in school libraries.

Prerequisite: Admission to Educational Leadership doctoral program with Library Science cognate.

LSSL 7361. Literature & Related Materials for PreK-12 School Libraries. 3 Hours.

Candidates conduct research on issues of literacy related to school libraries and how literature specifically written for the PK-12 population may be used to promote and support development of literacy. This course involves advanced analysis and synthesis of the knowledge, skills, dispositions and ethics of school library leaders.

Prerequisite: Admission to Educational Leadership doctoral program with Library Science cognate.

LSSL 7366. School Library Doctoral Internship. 3 Hours.

Doctoral students are prepared for school library leadership, to cultivate an ethic of scholarship, and are provided insight into the challenges of the role. Doctoral students exercise critical perspectives by engaging with the readings, their peers, other educators, and the instructor in class discussions, assignments, reflective journaling, and internship experiences.

Prerequisite: LSSL 7337, LSSL 7361, LSSL 7367, and LSSL 7370.

LSSL 7367. Research in Library Science. 3 Hours.

Students focus on development of useful research questions and methodologies, evaluation of approaches to narrowing gaps between knowledge and practice, means of providing administrative support for research activities, and development of collaborative strategies for implementing school library-related research studies across disciplines.

Prerequisite: Admission to Educational Leadership doctoral program with Library Science cognate.

LSSL 7370. Leadership in Tech & Info Literacy for School Libraries. 3 Hours.

Candidates research and analyze issues related to technology and information literacy. Topics may include: Collaboration between teachers and librarians; the role of librarians as technology leaders on school campuses; professional development and support for faculty; technology as a tool for assessing students; ethical issues related to technology and information literacy; and selection and acquisition of hardware and software.

Prerequisite: Admission to Educational Leadership doctoral program with Library Science cognate.

LSSL 7387. Field Study in Library Science. 3 Hours.

Doctoral students are provided with the opportunity to engage in a detailed investigation of a program or problem in library science. Doctoral students work under the supervision of a Library Science faculty member and are expected to produce a written product or presentation regarding the field study. Permission of the Supervising Professor is required. D. Program and permission of the Supervising Professor.

Prerequisite: Admission to the Ed.

Literacy (LITC)

LITC 7089. Independent Study. 1-3 Hours.

This is a course designed for independent study of selected topics under the supervision of a faculty member. Variable Credit (1-3). Course Equivalents: READ 7089

Prerequisite: Consent of Department Chair.

LITC 7300. Psychological & Social Foundations of Language & Literature. 3 Hours.

Using cognitive-processing, socio-cognitive processing, transactional, transactional-socio-psycho-linguistic, attitude, influence, and critical theories, candidates will explore literacy education. Course Equivalents: READ 7300

Prerequisite: Admission into the Ed.D. program in Literacy Leadership.

LITC 7310. Literacy, Policy, and Change. 3 Hours.

This course will examine the connections among the psychological, sociological, cultural, and political aspects of literacy learning and teaching. Students will develop their own research, community service and/or professional exploration projects, present works-in-progress, and set goals for further development. Course Equivalents: READ 7310

Prerequisite: READ 5325 and BESL 5302.

LITC 7320. Issues and Trends in Literacy Education. 3 Hours.

Current issues and trends related to field of literacy acquisition will be examined through the lens of theory, process and practice. Course Equivalents: READ 7320

Prerequisite: Admission into the Ed.D. program in Literacy Leadership.

LITC 7330. Research in Language and Literacy. 3 Hours.

This course is designed to present current theories and research regarding aspects of literacy and oral and written language. This knowledge is related to instructional applications for classrooms for the literacy development of children and students. Course Equivalents: READ 7330

Prerequisite: READ 5306 or consent of the instructor.

LITC 7332. Literacy Pedagogy For Adult Learning. 3 Hours.

Issues, research and publications on the methodologies dedicated to the teaching of adults about literacy at the university level, whether in developmental reading or writing classes or enrolled in teacher education classes will be explored. Course Equivalents: READ 7332

Prerequisite: LITC 7300.

LITC 7335. Curriculum Theory and Literacy Education. 3 Hours.

This course explores the variety of curriculum perspectives, theories and processes related to the greater issue of literacy and literacy acquisition and the role of literacy leader at local, state, regional and national/international levels. Course Equivalents: READ 7335

Prerequisite: LITC 7300 and LITC 7320.

LITC 7336. Strategies for College Reading in Developmental Education. 3 Hours.

This course explores research and practical application of reading concepts related to developmental and reading education. Principles of learning, students' reading strategy development, assessment/evaluation of teaching/learning, and the use of instructional technology will be examined using research-based best practices in developmental reading education. Course Equivalents: READ 7336 .

LITC 7340. Analyzing Language Use in LITC. 3 Hours.

This course is a study of language use (spoken and written) within a critical constructivist context with a focus on the analysis of discourse. It provides a critical examination and implementation of literacy and language theories, uses of language in social and educational settings, and research methodologies related to how language use is influenced by and impacts politics, society, literacy, and literacy instruction. Course Equivalents: READ 7340

Prerequisite: Admission into the Ed.D. program in Literacy Leadership.

LITC 7345. Literacy Assessment. 3 Hours.

This course provides an opportunity to train others in the use and interpretation of literacy assessment instruments. Additionally candidates will assist school sites in establishing a school-wide process for collecting, implementing, and communicating the results of a broad range of assessment data. Course Equivalents: READ 7345 .

LITC 7350. Qualitative Methods in Literacy Education. 3 Hours.

This course provides both theoretical and practical dimensions of qualitative research. Various paradigms of qualitative research, such as case study analysis, naturalistic inquiry, discourse analysis, ethnography, and narrative analysis are addressed in this course. Students will engage in data collection, analysis, and reporting of an individualized research project. The research project will enable students to summarize empirical evidence related to psychological, sociological, and linguistic foundations of reading and writing processes and instruction. Students will conduct and publish research and contribute to the development of the knowledge base. Course Equivalents: READ 7350

Prerequisite: Admission into the Ed.D. program in Literacy Leadership.

LITC 7358. Advanced Studies in Literacy Research. 3 Hours.

This course will allow doctoral students to learn and apply mixed-methods models to their research agendas. It will extend their research experiences beyond the limits of strictly qualitative or quantitative and allow for more applicability of their future research efforts. Social Science research continues to stress the importance of analyzing data from a variety of perspectives. Expertise in the mixed methods model will encourage doctoral students to examine data from multiple perspectives. Course Equivalents: READ 7358

Prerequisite: none.

LITC 7360. Virtual Ethnography. 3 Hours.

This course will enrich students' existing qualitative research methodologies by providing them with timely research to overcome the barriers that are inherent in conducting research within digital environments. Students will explore the strategies, methods, issues, possibilities, and technologies for

Management Information Systems (MGIS)

MGIS 5080. Independent Study. 1-3 Hours.

This course is designed for directed study of individual students who wish intensive study in some specific area of Management Information Systems. Variable credit (1-3). Course Equivalents: MGIS 5380

Prerequisite: Approval of Department Chair and Graduate Coordinator.

MGIS 5085. Special Topic. 1-3 Hours.

This course of faculty-led study is designed to provide graduate students exposure to new Management Information Systems topics and concepts in a course setting. Variable credit (1-3). Course Equivalents: MGIS 5385 .

MGIS 5310. Seminar in Management Information Systems. 3 Hours.

An in-depth study of business information systems. This course covers computer hardware, software, procedures, systems, and human resources and explores their integration and application in business. Topics include: end-user, computing and development, networking, and data collection and communication. The course content will be adaptive to stay current. The course content will be adaptive to stay current with individual research agendas.

MGIS 5330. Business Applications of Database Management Systems (DBMS). 3 Hours.

Business Applications of DBMS. Database management systems are at the heart of modern business information systems. They facilitate the sharing of data across the organization, and therefore support the notion that data is a corporate resource. Data management, which focuses on data collection, storage, and retrieval, thus constitutes a core activity for any organization. Students with appropriate backgrounds can work individually in specific areas of interest.

MGIS 5360. Project Management for Business Systems Development. 3 Hours.

The courses examines the management of business system development and modification projects. It emphasizes the factors for effective communication and integration with users and user systems. It encourages interpersonal skill development with clients, users, team members, and others associated with development, operation and maintenance of the system. Adherence to methodological life cycle analysis and construction techniques are taught in the context of the creation of business-oriented systems. Students work individually and in teams to solve business problems.

MGIS 5375. Enterprise Resource Planning Business Process Integration. 3 Hours.

This course uses the SAP ERP information system paradigm as a model for examination and development of integrated business process solutions. Students examine the conceptual background, rationale, methods, and procedures commonly employed by businesses in developing and configuring integrated business systems. Students will obtain practice and training through cases and hands-on experience using SAP ERP by requiring them to configure business process solutions through integration of financial, controlling, production, materials management, sales and distribution, manufacturing, and other ERP process modules.

Prerequisite: Thirty-six hours of business related courses of which twelve must be at the graduate level, completion of the MBA core courses and ACCT 5304 or ACCT 5347, or permission of the instructor.

Management (MGMT)

MGMT 5080. Independent Study. 1-3 Hours.

This course is designed for directed study of individual students who wish intensive study in some specific area of Management. Variable Credit (1 to 3). Course Equivalents: MGMT 5380

Prerequisite: Approval of Department Chair and Graduate Coordinator.

MGMT 5085. Special Topic. 1-3 Hours.

This course is designed to provide graduate students exposure to current Management topics and concepts in a course setting. Variable Credit (1-3). Course Equivalents: MGMT 5385 .

MGMT 5300. Foundations Of Strategic Management. 3 Hours.

Students study the fundamentals of management, marketing, and information systems as essential components of competitive strategy. Topics may include: the management functions of planning, organizing, leading, motivating, and controlling; the core marketing principles related to product, price, placement, and promotion; and the value of information systems as key sources of sustainable competitive advantage in 21st century organizations. Industry and competitor analysis, strategy assessment and implementation, and strategy evaluation and control complete this survey course. This course does not apply to the 36-hour graduate credit hour requirement of the MBA degree program.

MGMT 5315. Seminar Operations Management. 3 Hours.

The operations management function in a business enterprise has always been central to the activities of the organization. Achieving world-class competitiveness in either the manufacturing or service sectors demands that modern managers understand how to apply the fundamentals of operations management. The course covers various topics, with a focus of exposing the student to a variety of methods that will assist with problem solving and decision-making.

MGMT 5316. Supply Chain Management. 3 Hours.

Students apply the skills and knowledge needed for supply chain management in their projects and organizations. Course content includes an examination of strategies to optimize operations within a network of partners, develop integrative processes, and leverage information systems in an efficient manner.

MGMT 5318. Quality Management. 3 Hours.

Students are provided with the skills and knowledge needed to advance quality in their projects and organizations. This course covers current topics in quality management, such as total quality control, statistical quality control, statistical process control, quality circles, continuous improvement, definition and measurement of outcomes, and techniques to achieve increased quality of organizational activities.

Prerequisite: Graduate Standing.

MGMT 5320. Management of Innovation and Technology. 3 Hours.

Students study current topics in the management of creativity, innovation, technology, and quality assurance. Guest speakers and experiential exercises are utilized in addition to lectures, student presentations, and class discussion of topics. The major project in the course is the development of a technology forecast in a particular technology area through the use of the literature and contact with researchers and leaders in the selected field.

MGMT 5323. Tools of Project Management. 3 Hours.

Students are provided with the knowledge of and practice with project management tools, which includes tools and techniques for project planning and selection, project initiation and portfolio management, risk management, and implementation and closure.

Prerequisite: Graduate standing.

MGMT 5325. Project Management. 3 Hours.

Students learn how to plan, implement, control, and close projects. Topics may include project scope and definition, time and cost management, conflict resolution and team processes, resource allocation, scheduling, and life cycle management.

MGMT 5327. Agile Project Management. 3 Hours.

Students examine an iterative approach to project management while investigating the principles of agile project management, agile manifesto, iterative life cycles, Kanban scheduling systems, just-in-time scheduling, resource capacity, environment, decision-making, and the adaptive characteristics of an agile environment.

MGMT 5330. Operations Planning & Control. 3 Hours.

Students cover operations planning and control systems in project, manufacturing and service environments. Topics may include resource control, resource planning, scheduling, capacity planning, operations planning and control software.

MGMT 5335. Services Management and Marketing. 3 Hours.

Students examine the unique challenges of managing and marketing services. A review of the literature covering service theory and practical experience in designing and maintaining quality services are the foci of the course.

Prerequisite: MKTG 5330.

MGMT 5338. Project Management Capstone. 3 Hours.

Students evaluate the knowledge areas of project management as they apply to real world situations. This course takes a hands-on approach using a number of methodologies such as case studies, project audits, and class projects. Emphasis is placed on applying the concepts of project management to a variety of business disciplines.

Prerequisite: Admission to the Project Management Program, MGMT 5325, MGMT 5330, MGMT 5323, and completion of 24 graduate credits.

MGMT 5345. Seminar In Team Leadership. 3 Hours.

Students examine a systematic review, critique, and application of findings of the behavioral sciences to the understanding, prediction and management of individual and group behavior in business organizations.

MGMT 5350. Leading Organizational Change and Development. 3 Hours.

Students focus on advanced theoretical concepts and applications in the areas of leadership, organizational development, and change management. Of particular importance are the concepts of organizational culture and leading organizational change initiatives. The application of specific tools for conducting organizational change initiatives will be explored.

MGMT 5355. Seminar in Human Resource Management. 3 Hours.

In this seminar, students explore relevant background literature, fundamental principles, technical tools, and case studies to develop their proficiency for independent learning and research in the following areas of human resource management: employee recruitment and selection, human resource development, labor relations, wage and salary administration, and employee services.

MGMT 5360. Staffing Organizations. 3 Hours.

Students explore advanced practices and processes involved in selecting and evaluating human resources in an organizational setting as well as examining internal and external factors that influence the strategic nature and effectiveness of these practices. In particular, human resource planning, job analysis, recruitment and selection methods, measurement, performance management, retention management, and the employment contract are assessed as they pertain to staffing organizations.

MGMT 5365. Seminar In Compensation Management. 3 Hours.

Students focus on advanced processes and methods for exploring compensation practices, developing compensation strategies, and managing compensation systems, in general. In particular, job evaluation methods, pay structures, pay-for-performance plans, employee benefits, legal and global issues, and managing labor costs are discussed and assessed.

Prerequisite: MGMT 5355.

MGMT 5370. Social Responsibility of Business. 3 Hours.

Students engage in an in-depth study of the many dimensions of social responsibility in business which include the intellectual foundations supporting the economic, moral, and sociopolitical institutions of democratic capitalism. Case studies are used to familiarize students with the literature in social responsibility, and students are required to perform independent analyses of current events to understand the reasoning behind decisions on social responsibility in the workplace. A basic background in business disciplines is required.

Prerequisite: Graduate standing.

MGMT 5375. Enterprise Resource Planning Business Process Integration. 3 Hours.

This course uses the SAP ERP information system paradigm as a model for examination and development of integrated business process solutions. Students examine the conceptual background, rationale, methods, and procedures commonly employed by businesses in developing and configuring integrated business systems. Students obtain practice and training through cases and hands-on experience using SAP ERP by requiring them to configure business process solutions through integration of financial, controlling, production, materials management, sales and distribution, manufacturing, and other ERP process modules.

Prerequisite: Thirty-six hours of business related courses of which twelve must be at the graduate level, completion of the MBA core courses and ACCT 5304 or ACCT 5347, or permission of the instructor.

MGMT 5390. Seminar in Strategic Management and Policy. 3 Hours.

This capstone course is concerned with advanced principles and methods used in the strategic management of organizations. Thus, the primary focus is the evaluation of external environmental factors and internal organizational strengths and weaknesses for formulating strategies for organizations. Readings, simulation, and the case method are used to further develop the student's executive knowledge, skills, and abilities for future independent learning and success.

Prerequisite: ACCT 5304, BANA 5368, FINC 5310, BUAD 5310, and MKTG 5330.

Marketing (MKTG)

MKTG 5080. Independent Study. 1-3 Hours.

This course is designed for directed study of individual students who wish intensive study in some specific area of Marketing. Variable Credit (1 to 3). Course Equivalents: MKTG 5380

Prerequisite: Approval of Department Chair and Graduate Coordinator.

MKTG 5085. Special Topic. 1-3 Hours.

This course of faculty-led study is designed to provide graduate students exposure to new Marketing topics and concepts in a course setting. Variable credit (1-3). Course Equivalents: MKTG 5385 .

MKTG 5330. Marketing Management. 3 Hours.

This course focuses on formulating and implementing marketing management strategies and policies with special emphasis on the influence of marketing institutions, market structures, target market, segmentation, and the ability to manage marketing mix variables in a dynamic global environment. The course includes marketing decision making tools and the management of the elements of the marketing plan.

MKTG 5335. Services Management and Marketing. 3 Hours.

This course examines the unique challenges of managing and marketing services. A review of the literature covering service theory and practical experience in designing and maintaining quality services are the foci of the course.

Prerequisite: MKTG 5330.

MKTG 5350. Marketing Problems. 3 Hours.

The course requires analysis of marketing problems related to marketing strategy and programs. Students engage in independent research into the business context and develop familiarity with leading edge marketing theory and practice to creatively solve problems.

Mass Communication (MCOM)

MCOM 5050. Special Topic. 1-3 Hours.

This research course offers special topics based upon new concepts developing in digital media. The specific research topic title appears in the Class Schedule and on student transcripts. Course Equivalents: MCOM 5350 .

MCOM 5099. Independent Study. 1-3 Hours.

This course is designed for independent study of selected topics under the supervision of a faculty member. Variable Credit (1-3).

MCOM 5300. Digital Media History & Theory. 3 Hours.

This course outlines the history and theory of new media from aesthetic, reception, production, media effects, cultural, and political perspectives. Students will explore cross-disciplinary theoretical approaches and apply them to new media and their impact on cultural production.

MCOM 5308. Entrepreneurship for Emerging and Social Media. 3 Hours.

This course leverages digital technologies to teach students how to create commercial production opportunities, disseminate information, and collaborate with clients and partners. This emerging area of study includes the development of new business models comprised of information brokers, internet advertisers, licensing and legal issues, E-trailers and E-consumers.

MCOM 5310. Critical Approaches to Media. 3 Hours.

This course explores the growing body of critical and theoretical discourse defining the field of digital media studies. Students examine the major historical, cultural, sociopolitical, economic, structural, and philosophical trends in this field. .

MCOM 5311. Emerging Media Technologies. 3 Hours.

Students evaluate new and emerging technologies, including three-dimensional immersive video, virtual reality, augmented reality, game engines, mobile devices and artificial intelligence. Students incorporate the use of media technologies in the development of emerging media projects.

MCOM 5320. Digital Media Ethics and Law. 3 Hours.

This course examines ethical and legal concepts as they apply to various forms of electronic media expression, with special focus on digital media and Internet-based expression. Free speech, open records, privacy, libel, copyright and obscenity laws are reviewed in the context of the digital environment.

MCOM 5324. Social Marketing. 3 Hours.

This course explores the principles of social marketing, which uses commercial marketing techniques to motivate behavioral and social change. Students critically examine social change initiatives that target deeply held beliefs and personal behaviors resistant to change. They learn techniques for using social marketing to improve a social good, such as individual health, the environment, or the community.

MCOM 5330. Advanced Writing for Emerging and Social Media. 3 Hours.

This course enables students to develop competency in narrative techniques and information delivery for different genres, distribution platforms, and audiences. Emphasis is placed on digital media technologies and the demands of writing for video, social media, multimedia production, digital sound and live performance.

MCOM 5334. Digital Advertising. 3 Hours.

Students learn how advertising is planned, developed, and executed; and have an opportunity to develop a strategic advertising campaign plan to solve specific communication problems for a client through effective message strategies. Students focus on a comprehensive understanding of the role of advertising in the digital media era. Topics may also include current industry development, such as social media, the increased focus on storytelling and branding in today's digital advertising strategies, and the impact of globalization.

MCOM 5335. Podcasting & Audiobooks. 3 Hours.

Students in this class design, launch, and maintain regularly updated podcasts on non-fiction topics of their choice. These professional podcasts are accessible through popular platforms. Students develop audio editing techniques on free, multi-platform software; they also learn to balance personal sharing and professional standards on a growing and pertinent audio medium.

MCOM 5340. Social Media. 3 Hours.

This course is both theoretical and practical, drawing from the literature of social networks and community to explore online social media. Students learn how to develop strategies to effectively communicate and collaborate with their audience through current social media platforms. Emphasis is placed on the media professional's use and understanding of social media.

MCOM 5341. Social Media Analytics. 3 Hours.

Students gain a comprehensive overview of social and digital media data analytics. Students learn key terminology for social and digital media data analytics, examine its role in integrated marketing communication, and learn various digital analytic methodologies. With this understanding as a foundation, students practice addressing key strategic communication questions related to return on investment, audience measurement, and brand management.

MCOM 5355. Digital Media Management. 3 Hours.

Students in this course learn management in entertainment, public relations, emerging media, and related fields, including the supervision of creative digital media projects. The course examines media production decisions and decision-makers adapting to digital media trends. It also develops leadership training and skills designed to manage media organizations and projects.

MCOM 5360. Mass Communication Theory. 3 Hours.

This course addresses the history and development of mass communication theory. Theoretical approaches, models and application of theories are examined.

MCOM 5361. Emerging & Social Media Campaign Strategies. 3 Hours.

Students practice conceptualizing, designing, creating, and placing effective messages in the digital media while solving communication problems through appropriate communication strategies. Students learn key terminology for emerging and social media, incorporate knowledge about significant trends and issues in planning and evaluating strategic communication campaigns, and design a comprehensive campaign plan featuring emerging and social media.

MCOM 5364. Strategic Storytelling for Emerging & Social Media. 3 Hours.

Students learn the array of tools available and how to apply various creative storytelling techniques to influence and persuade a target audience. Students also explore the best applications for implementing and disseminating stories across communication channels and create original multimedia content that contributes to personal or professional goals.

MCOM 5390. Professional Internship. 3 Hours.

Students in this course engage in professional work to obtain experience in the television/film, radio, internet/social media, journalism, advertising, or public relations industries. Students are evaluated by their employer, maintain a journal or portfolio of activities, and present their internship experiences to the graduate faculty.

MCOM 6098. Thesis. 1-3 Hours.

Students work under faculty supervision to produce a scholarly thesis of original work about digital media approved by all members of the student's thesis committee.

Prerequisite: Approval of committee chair.

MCOM 6099. Thesis Project. 1-3 Hours.

Students work under faculty supervision to produce a thesis project of original work in digital media approved by all members of the student's thesis committee.

Prerequisite: Approval of committee chair.

MCOM 6300. Advanced Preproduction. 3 Hours.

Students are introduced to advanced sound production, lighting, and other pre-production techniques combined with narrative storytelling using digital media. Each student produces and formats high-quality media for digital distribution, including high-definition output, interactive application design and online streaming.

MCOM 6310. UX Design and Production. 3 Hours.

Students combine skills in UX design to conceive, plan, produce and edit multimedia projects. Each student will work on a multimedia design project, and the class will also be a test lab for larger and innovative multimedia projects. Students will learn how to develop their own UX design ideas, how to manage different multimedia parts of an overall multimedia strategy, and how to demonstrate advanced techniques in graphics, usability, user interface, and testing application. The course also examines how professionals run UX projects in the industry.

MCOM 6311. Advanced Production in Emerging and Social Media. 3 Hours.

Students conceptualize, plan, and execute advanced emerging and social media projects. In this hands-on course, students produce a variety of advanced projects of various types such as 360 videos, virtual reality stories, augmented reality stories, and social media campaigns. Particular attention is placed on execution, deployment, and measuring the effectiveness of each project.

MCOM 6315. Web and Mobile Development. 3 Hours.

Students learn theoretical structures behind informational design for the digital media industry via the internet and mobile devices. Students learn node-based programming in Unreal Engine 4/5, as well as how to creatively craft digital art and content. Students create their own online and mobile content.

MCOM 6320. Documentary Storytelling. 3 Hours.

This course takes a creative and systematic approach to transforming ideas into effective scripts for corporate, medical, religious, educational and governmental videos. Students learn and apply techniques for communicating visually, writing for the ear, using drama and humor, and applying documentary genre structures in various disciplines and for media platforms.

MCOM 6330. Digital Editing. 3 Hours.

Students study the creative and aesthetic qualities of editing film and video. Students learn to edit for both narrative and documentary styles including computer-generated imagery, sound design, color correction, mood and rhythm.

MCOM 6335. Motion Graphics and Effects. 3 Hours.

Students create motion graphics and visual effects using animation, green screen technology, and compositing programs. Students learn enhanced techniques on professional software platforms to achieve a variety of dramatic and artistic motion effects.

Prerequisite: None.

MCOM 6340. Digital Entrepreneurship. 3 Hours.

This course examines how new media tools are used to create commercial opportunities and assist in the dissemination of information in both digital and traditional media outlets. Students will explore and apply entrepreneurial principles to create new media business ventures.

MCOM 6350. Narrative Scriptwriting. 3 Hours.

This course addresses the art and craft of narrative scriptwriting for digital media. Students develop narratives through the creation and building of characters and using dramatic principles such as scene setting, plotting, sequencing.

MCOM 6354. Virtual Internship. 3 Hours.

This internship takes place in an Information and Communication Technologies (ICT)-supported environment, where students carry out identifiable and meaningful work-based tasks that fit within the student's educational curriculum. Interns contribute to projects while working remotely, meaning the majority of their interactions with co-workers, clients and supervisors are carried out online.

MCOM 6360. Mass Communication Research Methods. 3 Hours.

This course integrates an understanding and application of research methods to develop the ability to produce research in an academic environment and in the profession associated with mass communication fields. Students use and understand the processes and interpret the statistics that bring rigorous data to the research process. Students design, administer and critically evaluate a personal behavioral research project.

MCOM 6370. Remote Digital Streaming. 3 Hours.

Students in this course manage digital content streaming workflows from multiple cameras to numerous devices for diverse audiences. Students learn end-to-end audio/video workflow processes, including media acquisition, encoding and live editing, advertising insertion, content delivery, the client-side player technology and audience analytics.

MCOM 6373. Video for Emerging and Social Media. 3 Hours.

This course emphasizes advanced applications of digital editing and visual storytelling. Through the creation and production of programming for Cable Channel 7, experienced student digital filmmakers increase aesthetic and technical proficiency in advanced video camera operation, lighting, and video editing methods.

MCOM 6380. Studio Production. 3 Hours.

Students in this course conduct original production planning and master studio skills, including director, technical director, audio engineer, teleprompter operator, floor manager, and camera operator. Teamwork and professionalism are emphasized in the creation of original, creative digital media content in a variety of televisual and online media.

MCOM 6390. Audio for Emerging and Social Media. 3 Hours.

Students in this course learn how sound design and editing is developed in diverse ways for digital video and multimedia productions. It focuses on how sound design conveys meaning and how sound functions along with visual elements. Students explore how to capture sound using a variety of audio devices in multiple locations and how sound is used in editing to strengthen visual language, focus attention on visual elements and actions, and provide compositional structure or create ambience.

MCOM 6398. Capstone Portfolio Project I. 3 Hours.

Students in this course propose a capstone portfolio project of original digital media production works. Students work under faculty supervision from an adviser and members of a capstone portfolio project committee. This course precedes MCOM 6399.

Prerequisite: Departmental approval.

MCOM 6399. Capstone Portfolio Project II. 3 Hours.

Students in this course produce a capstone portfolio project of original work in digital media production. Work is conducted under faculty supervision by members of the student's capstone portfolio project committee; upon completion, it is presented to faculty, fellow students and the public. This course follows MCOM 6398.

Prerequisite: Department approval, MCOM 6398.

Mathematics (MATH)

MATH 5300. Mathematics Internship. 3 Hours.

Students engage in a supervised work environment that provides applied experience in fields related to the mathematical sciences. This work may take place within a public, non-profit, or private organization. Under the supervision of a faculty internship coordinator, students will apply mathematical theory and techniques learned in the classroom to real world applications, gain practical skills like software coding and applied analysis, and be introduced to professional networking opportunities for their future careers. Students are required to document their completion of 240 hours of internship experience in the coordinated work environment.

Prerequisite: Departmental Approval.

MATH 5360. Special Topics. 3 Hours.

Topics and courses are selected to suit individual needs of students. Methods of independent study and research are stressed. The course may be repeated for additional credit.

Prerequisite: Consent of program coordinator.

MATH 5361. Theory and Applications Of Probability. 3 Hours.

Topics include probability axioms and properties, conditional probability, random variables, probability distributions, moment generating functions, laws of large numbers, and the Central Limit Theorem. Also listed as STAT 5361.

Prerequisite: STAT 4372 (or equivalent) or consent of the instructor.

MATH 5365. Introductory Analysis. 3 Hours.

Students engage in a more thorough treatment of the material traditionally considered in elementary calculus. Topics may include sets, functions, properties of the real number system and sequences. NOTE: Students who have taken Math 4361 may not take MATH 5365.

Prerequisite: Graduate Standing.

MATH 5366. Elementary Analysis. 3 Hours.

Students study limits, continuity, differentiation, Riemann integration, infinite series and sequences, and series of functions. NOTE: Students who have taken Math 4366 may not take MATH 5366.

Prerequisite: Graduate Standing and MATH 4365 or MATH 5365.

MATH 5370. Fourier Analysis & Application. 3 Hours.

This course is a study of applied harmonic analysis. Topics include Fourier analysis, wavelet analysis, and applications of these topics.

Prerequisite: MATH 4366 or MATH 5388 or the consent of the instructor.

MATH 5375. Partial Differential Equations. 3 Hours.

Students solve problems involving partial differential equations from the natural sciences. Topics may include derivation of the heat/diffusion and wave equations, the method of separation of variables to solve the heat, wave, and Laplace equations on finite domains, Fourier series, Sturm-Liouville eigenvalue problems, the Fourier transform method to solve equations on infinite domains, the method of characteristics, and d'Alembert's solution of the wave equation. NOTE: Students who have taken MATH 4375 may not take MATH 5375.

Prerequisite: Graduate Standing.

MATH 5377. Algebraic Structures. 3 Hours.

Students study basic structures of abstract algebra: groups, rings, and fields. Topics may include elementary number theory, equivalence relations, groups, homomorphisms, cosets, Cayley's Theorem, symmetric groups, rings, polynomial rings, quotient fields, principal ideal domains, and Euclidean domains. Note: Students who have taken Math 4377 may not take MATH 5377.

Prerequisite: Graduate Standing.

MATH 5380. Research Project In Mathematics Education. 3 Hours.

In this course, the student will develop a project based on one of the core areas (Algebra, Geometry, Analysis, or Probability and Statistics) appropriate for use in teaching. This course is a capstone for candidates pursuing the degree of MA of Mathematics.

Prerequisite: MATH 5386, MATH 5387, MATH 5388, MATH 5389.

MATH 5381. Algebra: Structures and Applications. 3 Hours.

This course includes the study of algebraic structures (such as groups, rings, integral domains, and fields) and their properties, and activities and concepts related to the algebra of real numbers that are applicable to middle school teachers. The course is designed for in-service middle school mathematics teachers.

MATH 5382. Discrete Mathematics for Teachers. 3 Hours.

This course will include a study of graph theory, combinatorics and recursion, social choice and apportionment, algorithms, and iteration, with an emphasis on real-world problem solving applications and mathematical connections to the school curriculum. This course is specifically designed for middle and high school teachers, with a mathematics specialization, obtaining a Master's Degree in Education with a minor in mathematics.

Prerequisite: Middle or secondary school mathematics certification, or equivalent.

MATH 5383. Seminar in Geometry and Measurement for Teachers. 3 Hours.

This course will include a study of congruency, similarity, transformations, coordinate geometry, and measurement. It is specifically designed for teachers with a mathematics specialization who wish to obtain the master's degree in education with a minor in mathematics.

Prerequisite: Middle school mathematics certification and MATH 3383 or equivalent.

MATH 5384. Seminar in Mathematical Systems for Teachers. 3 Hours.

This course will include a study of the development of the natural number system, the development of the integers, the development of the rational number system, and the development of the real number system. It is specifically designed for teachers with a mathematics specialization who wish to obtain the master's degree in education with a minor in mathematics.

Prerequisite: Middle school mathematics certification and MATH 3384 or equivalent.

MATH 5385. Seminar in Number Theory and Proportionality for Teachers. 3 Hours.

This course includes topics from arithmetic, algebra, geometry, number theory and other mathematical areas at a level appropriate for junior high school teachers.

Prerequisite: Consent of instructor.

MATH 5386. Concepts in Modern Algebra. 3 Hours.

This course consists of a survey of several abstract algebraic systems including groups, rings, integral domains, and fields.

Prerequisite: Certification in secondary school mathematics and MATH 3377 or equivalent.

MATH 5387. Transformational Geometry. 3 Hours.

This course is a study of topics in geometry including constructions and transformations.

Prerequisite: Certification in secondary school mathematics and MATH 3363 or equivalent.

MATH 5388. Concepts in Analysis. 3 Hours.

This course includes topics from set theory, number systems, functions, real sequences, limits, continuity, differentiation and integration.

Prerequisite: Certification in secondary school mathematics and MATH 1430 or equivalent.

MATH 5389. Concepts in Probability and Statistics. 3 Hours.

This course includes topics from probability theory, distribution functions, descriptive statistics, and inferential statistics.

Prerequisite: Certification in middle or secondary school mathematics and MATH 3379 or equivalent.

MATH 5395. Digital Image Processing. 3 Hours.

The emphasis of this course is on the analysis of digital image processing algorithms used for solving problems in areas such as image enhancement and restoration, image registration, pattern recognition, and image segmentation.

Prerequisite: MATH 3377 and programming experience.

MATH 5396. Optimization. 3 Hours.

The emphasis of this course is on modern algorithms and computational methods needed for solving optimization problems. Applications to current industrial problems will be given, and the theory of operations research will be developed.

Prerequisite: MATH 3377 and MATH 2440, or consent of instructor.

MATH 5397. Discrete Mathematics. 3 Hours.

Discrete structures are emphasized in this course, which includes a study of combinatorics, graph theory, and number theory. The applications of these structures in computers and communications will be highlighted.

Prerequisite: MATH 4377 or MATH 5386 or equivalent.

MATH 6060. Independent Study. 1-3 Hours.

Students independently pursue a specific topic in advanced mathematics under a faculty member's supervision. The problems addressed in the course will be mutually selected and approved by the student and a mathematics faculty member. A thorough development of necessary axioms, definitions and properties from any related coursework will be reviewed before students are guided to extend those elements towards the main results from the chosen topic. These results may be practical applications of prior coursework and/or theoretical foundations of an advanced topic, specific to the students' individual needs and goal. Variable Credit (1 to 3).

Prerequisite: Consent of instructor.

MATH 6099. Research and Thesis. 1-3 Hours.

Students complete and successfully defend their thesis. Variable Credit (1-3). Course Equivalents: MATH 6399 .

MATH 6332. Introduction To Topology. 3 Hours.

This course is a rigorous introduction to point set topology. Topics include continuity, connectedness, compactness, metrization theorems, separation theorems, and the Tychonoff theorem.

Prerequisite: MATH 3300 or equivalent.

MATH 6333. Foundations Of Analysis I. 3 Hours.

This course is the first half of the analysis sequence. The analysis sequence includes topics from advanced multivariate calculus, normed linear spaces, measure theory, including Lebesgue and Borel measures, measurable functions, Lebesgue integration, and spaces of integrable functions.

Prerequisite: MATH 4361 and MATH 4366, equivalent, or consent of instructor.

MATH 6334. Foundations Of Analysis II. 3 Hours.

This course is the second half of the analysis sequence. The analysis sequence includes topics from advanced multivariate calculus, normed linear spaces, measure theory, including Lebesgue and Borel measures, measurable functions, Lebesgue integration, and spaces of integrable functions.

Prerequisite: MATH 6333 or consent of instructor.

MATH 6335. Algebra I. 3 Hours.

This course is in the first half of the algebra sequence. The algebra sequence will include Group and Ring theory. Special topics include groups, group actions, the Sylow Theorems, rings, modules, fields, field extensions, and an introduction to Galois Theory.

Prerequisite: MATH 4377 or equivalent.

MATH 6336. Algebra II. 3 Hours.

This course is the second half of the algebra sequence. The algebra sequence will include Group and Ring theory. Specific topics include groups, group actions, the Sylow Theorems, rings, modules, fields, field extensions, and an introduction to Galois Theory.

Prerequisite: MATH 6335 (Algebra I) or equivalent.

MATH 6340. Algebraic Geometry. 3 Hours.

This course will provide an introduction to algebraic geometry emphasizing both classical theory and the practical aspects of computations with polynomial ideals using Groebner bases. Topics include Groebner bases, affine varieties, morphisms and rational maps, elimination theory, the Nullstellensatz, primary decomposition, projective varieties, Grassmannians, and Hilbert Functions.

Prerequisite: Math 6336.

MATH 6342. Algebraic Topology. 3 Hours.

An introduction to the concepts of homotopy and homology theories. The following topics will be included: The fundamental group, classification of surfaces, higher homotopy groups, cellular and/or simplicial homology.

Prerequisite: MATH 6332.

MATH 6352. Differential Geometry. 3 Hours.

This course examines the local and global geometric and topological properties of curves and surfaces in 3-dimensional Euclidean space. Topics will include curvature and torsion of space curves, mean and Gaussian curvature of surfaces, and the Gauss-Bonnet theorem. In addition, the course will also examine smooth Riemannian manifolds, the curvature tensor, geodesics, and applications such as surfaces of constant mean curvature.

MATH 6360. Special Topics In Mathematics. 3 Hours.

Topics and courses are selected to suit the individual needs of students. Methods of independent study and research are stressed. The course may be repeated for additional credit. **Prerequisite:** Consent of program coordinator.

MATH 6361. Mathematical Logic. 3 Hours.

Students examine logical metatheory and meta-mathematics, which is the field at the intersection of mathematics and logic that investigates logical reasoning with mathematical methods. Topics include completeness and soundness proofs for first-order predicate logic and its extensions, the formal theory of deduction, and fundamental Gödel completeness theorem and related results. The compactness theorem is established, coordinating semantics and deduction, meaning, and consequence.

Prerequisite: MATH 3300.

MATH 6367. History of Advanced Mathematics. 3 Hours.

This course examines the history of the development of modern mathematics, from the discovery of calculus, through the industrial revolution, into the modern age of computers and digital technology. Emphasis will be placed on the applications of calculus and the abstraction of geometry, analysis, and algebra which followed.

Prerequisite: Math 4367 or departmental approval.

MATH 6368. Numerical Linear Algebra. 3 Hours.

This course is a study of vector spaces and matrices. Topics include solving linear systems, least square methods, eigenvalue and eigenvector theory, and applications of these topics.

Prerequisite: MATH 3377 or consent of instructor.

MATH 6373. Applied Analysis. 3 Hours.

This course studies properties of normed spaces and functions defined on normed spaces. Special emphasis is placed on Euclidean n -space. Topics include limits, continuity, differentiation, and integration.

Prerequisite: MATH 4366 or MATH 5388 or consent of the instructor.

MATH 6376. Foundations of Applied Mathematics. 3 Hours.

This course provides a comprehensive presentation of the standard methods of applied mathematics that are used when solving problems posed in engineering and science. Topics may include finite dimensional vector spaces, function spaces, integral equations, differential operators, calculus of variations, complex variable theory, transform and spectral theory, ordinary and partial differential equations, bifurcation theory, nonlinear waves, and asymptotic expansions, and perturbation theory.

Prerequisite: MATH 3376 and MATH 3377 or their equivalents.

MATH 6377. Abstract Algebra. 3 Hours.

Algebraic structure is emphasized in this course, which includes a study of groups, rings, fields, and their applications in coding theory and cryptography.

Prerequisite: MATH 4377 or MATH 5386 or consent of instructor.

MATH 6379. Functions Of Complex Variable. 3 Hours.

Included in this course are studies of the complex number system, analytic functions, integration theory and the calculus of residues. Additional topics of special interest to the class may be included.

Prerequisite: MATH 2440 or consent of instructor.

MATH 6380. Research Methods in Mathematics. 3 Hours.

Students work on a specific research topic under a faculty member's supervision. The specific topic will be chosen from current trends and future directions of an active field of mathematics. The course content will vary based upon the topic the student and the mentoring faculty member choose. Regular meetings with other students in the course will focus on expected elements of the research paper and presentation that are required for successful completion of the course.

Prerequisite: Consent of instructor.

MATH 6381. Connections: Algebra, Trigonometry, Combinatorics. 3 Hours.

Students examine topics that span the fields of algebra of polynomials, complex numbers, trigonometry, and combinatorics. The course goal is to develop an in-depth understanding of the connections among these branches of mathematics, and how knowledge of one branch applies in the others.

MATH 6382. Issues in Undergraduate Math Education. 3 Hours.

Students study pedagogical issues related to undergraduate mathematics education. Topics may include national and Texas perspectives on pedagogical issues with respect to undergraduate mathematics education, designing an effective mathematics course and class (in face-to-face, online, and hybrid platforms), establishing a productive mathematics learning environment, using active learning techniques, promoting higher-order thinking, and assessing to inform instruction and promote learning.

MATH 6385. Advanced Mathematical Problem Solving. 3 Hours.

Students study advanced mathematical problem-solving processes and strategies and practice their learning by solving real-world problems to prepare them for their individualized end-of-program capstone research projects. Students will explore how to design, conduct, carry out, and report on a problem-solving project in a selected content area. Topics may include advanced concepts in algebra, geometry, financial mathematics, and calculus, including functions, graphs, complex numbers, and number systems.

Prerequisite: Graduate Standing.

MATH 6386. Number Theory. 3 Hours.

Students examine elementary properties of the ring of integers. Topics include concepts, algorithms, and proofs of fundamental results of modular arithmetic, the distribution of prime numbers, unique factoring, and modern applications of these ideas.

Prerequisite: Graduate Standing.

MATH 6387. Concepts in Linear Algebra. 3 Hours.

Students learn advanced topics in Linear Algebra with an emphasis on abstract vector spaces and proof. Topics include vector spaces, linear maps, eigenvalues, eigenvectors, invariant subspaces, inner product spaces, and complex vector spaces.

Prerequisite: MATH 3377, or equivalent.

MATH 6394. Scientific Computation. 3 Hours.

Topics include solutions of equations, approximation and interpolation, numerical differentiation and integration, the fast Fourier transform, and numerical simulation. Also listed as COSC 6321.

Prerequisite: MATH 2440 and some programming experience, or consent of instructor.

MATH 6398. Research And Thesis. 3 Hours.

This course includes a study of research concepts in mathematics, identification of an appropriate thesis problem, presentation of a thesis prospectus, and the preparatory work and research leading to the completion of the thesis. Study must be supervised by a member of the graduate mathematics faculty.

Medicine Systems (MEDS)

MEDS 7318. Clinical Clerkship Preparation. 3 Hours.

This course provides the student with the opportunity to review salient principles and procedures essential for the success at the start of clinical rotations. The course reviews the interpretation of electrocardiograms, imaging studies, and laboratory data, as well as OSCE's, procedures in the simulation lab and osteopathic principles. Students are expected to be able to participate in the diagnosis and treatment of patients upon their arrival on a clinical service in their clerkships, and this course serves to ground them in basic medical knowledge and processes. Credits: 3

Prerequisite: Successful completion of all coursework in years 1 & 2, passing grade on COMLEX Level 1.

MEDS 7320. Systems Integration. 3 Hours.

Students integrate and apply biomedical and clinical concepts previously presented throughout the first two years of the undergraduate osteopathic medical curriculum. Mastery of foundational biomedical and clinical concepts will be assessed. Based upon personal strengths and opportunities, students develop a personalized study plan in preparation for successful completion of the COMLEX-USA Level 1 examination which is required for continuation in the curriculum.

MEDS 7404. Renal & Genitourinary. 4 Hours.

Students integrate the functional anatomy and physiology of the renal and hematopoietic systems. Students assess and interpret biochemical markers, signs, and symptoms of renal and hematopoietic pathologies. Students design comprehensive pharmacologic and non-pharmacologic treatment plans and develop an understanding of the ethical, legal, and social aspects related to disease treatment, including dialysis and transplant. Course Equivalents: MEDS 7605 .

MEDS 7405. Hematopoietic System. 4 Hours.

Students analyze the physiology, embryogenesis, and diseases of the blood. Specific emphasis is on disease states and how these reveal basic system characteristics useful in diagnosis and treatment.

MEDS 7504. Skin & Skeletal Muscle. 5 Hours.

Students investigate normal and abnormal structure and function of the integumentary, musculoskeletal, and motor systems. These systems are studied at the cellular, tissue, and organ system levels, including normal structure and function as well as states of disease and dysfunction. Course Equivalents: MEDS 7501, MEDS 7604 .

MEDS 7508. Endocrine & Reproductive. 5 Hours.

Students integrate the core biomedical sciences in the identification, differentiation, diagnosis, and management of the normal and abnormal states of the endocrine, reproductive, and genitourinary systems. Students explore the role of hormones and their impact during pregnancy, organ development, organ function, and on metabolism, including discussions relevant to historical and current medical and surgical interventions for localized and systemic diseases for these systems. Course Equivalents: MEDS 7608 .

MEDS 7607. GI System & Nutrition. 6 Hours.

Students examine the structure and function of the gastrointestinal (GI) and hepatobiliary systems in both health and disease. Basic tenets of nutrition and the impact of GI dysfunction on nutritional status are discussed. Students evaluate the impact of food and diet, including micro and macronutrients, on health and disease prevention. Topics may include therapeutic diets and nutrition for specific disorders as well as tube feeding, IV alimentation, medical and surgical interventions.

MEDS 7609. Lifecyle. 6 Hours.

Students explore topics throughout the lifespan from pediatrics to geriatrics. Discussion includes normal growth and development as well as illness and disease. Basic science underpinnings are applied to divergent clinical manifestations and care at various stages of the lifecycle.

MEDS 7802. Neurologic & Behavior. 8 Hours.

Students explore functional anatomy and physiology of the nervous system in both health and disease, learning to use the neurologic examination, imaging techniques, and biochemical markers, to objectively assess the nervous system. Students learn the signs, symptoms, and consequences of nervous system pathologies resulting from trauma, ischemia, stroke, infection, toxins, autoimmune, and genetic conditions. Students are introduced to an overview of mental health issues, including developmental disorders, adaptive and maladaptive behaviors, mood disorders, stress-induced behavior, fear and anxiety disorders, substance abuse, somatoform disorders, and psychoses. Students also examine ethical, legal, and social aspects related to neuroscience and behavioral pathologies. In order to facilitate cognitive integration of basic and clinical sciences, this course is team-taught by clinicians and basic scientists. Course Equivalents: MEDS 7602 .

MEDS 7803. Medical Microbiology and Immune System. 8 Hours.

Students apply the foundations of medical microbiology and immunology to the physical presentation, diagnosis, and treatment of infectious and immune-mediate diseases. There will be an emphasis on virulence factors and pathogenesis of medically important microorganisms, as well as the innate and adaptive host immune responses to infections and tumors, vaccination, immune deficiency diseases, hypersensitivity reactions, and immune mechanisms of transplantation rejection.

MEDS 7806. Cardiovascular & Respiratory. 8 Hours.

Students integrate concepts related to the cardiovascular and respiratory systems in health and disease. Students analyze environmental and socio-cultural aspects of the region influencing the normal function of the systems. Topics may include morphological sciences (anatomy, histology, and embryology), physiology, pathology, and contemporary therapeutic approaches. Students integrate basic and clinical sciences in the context of commonly presented clinical scenarios. Course Equivalents: MEDS 7606 .

Music Ensemble (MUEN)

MUEN 5110. Accompanying Seminar. 1 Hour.

The course emphasizes specialized development in accompanying techniques designed for the Collaborative Piano/Chamber Music degree in piano.

MUEN 5112. Graduate Ensemble. 1 Hour.

Participation in a musical ensemble at the graduate level.

MUEN 5118. Chamber Music. 1 Hour.

Students develop and refine rehearsal skills, ensemble techniques, listening and interpretive skills through the preparation of chamber music. Student chamber groups work with a coach on a weekly basis and participate in a live performance.

Prerequisite: Permission from the instructor.

Music (MUSI)

MUSI 5068. Independent Study. 1-3 Hours.

Students engage in advanced and specialized work in Music Education, orchestration, composition, theoretical research with an emphasis on instrumental and choral technology. Variable Credit (1-3)

Prerequisite: Approval of the Graduate Advisor.

MUSI 5069. Special Topics. 3 Hours.

Advanced level courses offered of varied topics that are delivered in classroom format which are designed by graduate faculty covering subject matter not currently offered in the curriculum. Credit 3.

MUSI 5322. Philosophy and Theory of Music Therapy. 3 Hours.

Students discuss the philosophical and theoretical foundation of the use of music in therapy. Philosophical positions in this course analyze "music therapy" as a career in professional helping. Characteristics of music therapy research, the nature of scientific evidence in music therapy, and a problem-management and opportunity-development approach to helping individuals through music are addressed. The Socratic method is used through interactive lecture and discussion. Course Equivalents: MUSI 5222 .

MUSI 5323. Graduate Music Therapy Practicum. 3 Hours.

Students focus on the practical application of music therapy by utilizing Transformational Design Model (TDM) for Functional Music Therapy and Music Medicine. Students practice music therapy with systematic procedure such as planning treatments, implementing the treatment plans and evaluating the treatment. Course Equivalents: MUSI 5223

Prerequisite: 6 months of music therapy internship.

MUSI 5324. Clinical Supervision. 3 Hours.

This course provides practical experience in clinical supervision of undergraduate music therapy students. Exploration of issues pertinent to supervision such as student development, rates of skills acquisition, and supervisory styles are discussed. Course Equivalents: MUSI 5224 .

MUSI 5330. Analytical Techniques. 3 Hours.

Students study advanced techniques in the analysis of music from all historical periods. An emphasis is placed on the ability to distinguish various stylistic idioms and to verbalize about the harmonic, rhythmic, melodic, and structural details of music.

MUSI 5331. Seminar In Baroque Music. 3 Hours.

Students engage in a systematic survey of music literature for the Baroque period with emphasis on standard works as they exemplify changing stylistic trends.

MUSI 5332. Seminar In Classical Music. 3 Hours.

Students engage in a systematic survey of music literature for the Classic period with emphasis on standard works as they exemplify changing stylistic trends.

MUSI 5336. Folksong Analysis. 3 Hours.

Students engage in general survey of American folk literature with emphasis upon analytical techniques for selecting musical material for classroom use. Credit 3.

MUSI 5337. Seminar in Nineteenth-Century Music. 3 Hours.

Students engage in a systematic survey of music literature for the Nineteenth-Century period with emphasis on standard works as they exemplify changing stylistic trends.

MUSI 5338. Seminar in Twentieth-Century Music. 3 Hours.

Students engage in a systematic survey of music literature for the Twentieth-Century period with emphasis on standard works as they exemplify changing stylistic trends.

MUSI 5362. Vocal Pedagogy and Techniques. 3 Hours.

Students examine the teaching of voice in both private and group settings. Students review different schools of approach and study the acoustics and anatomy of singing. Class readings, critical listening exercises, teaching demonstrations, and diagnosing vocal issues will be supplemented with computer-based singing analysis software.

MUSI 5363. Pedagogy Of Theory. 3 Hours.

Students are provided a general review of undergraduate theory, with an emphasis on the methods of presenting material to secondary students, and also to freshman and sophomore classes. Comparative analysis of textbooks commonly used in these areas is emphasized.

MUSI 5365. Counterpoint and Analysis. 3 Hours.

Students engage in the focused study of the forms and highly contrapuntal works of J.S. Bach with an emphasis on analysis and stylistic composition projects. Through analysis of the contrapuntal devices within representative forms examined in the course, students will be able to accurately create, interpret and perform polyphony within Western music from all periods.

MUSI 5367. Score Reading. 3 Hours.

The course emphasizes specialized aural development, functional keyboard facility, and proficiency in reading orchestral, band, and choral scores.

MUSI 5378. Sequential Methods: Kindergarten-12 Music. 3 Hours.

Students explore sequential techniques used to lead beginning, intermediate, and advanced musicians in K-12 public/private schools as well as other settings. Comparing and contrasting elements in methods for various instruments/voices, students examine not only commonalities and nuanced differences in those methods, but also how methods are applied sequentially at various skill levels. The course also explores methods for determining appropriate expectations and related assessments for K-12 musicians.

Prerequisite: Admission into MA in Band Studies.

MUSI 5380. Opera Literature. 3 Hours.

Students critically examine the repertoire, performance practice, and historical perspectives of opera from the Baroque era to the present. Students evaluate and analyze differences among national trends in operatic literature.

MUSI 5381. Song History & Literature. 3 Hours.

Students examine the repertoire, performance practice, and historical perspectives of classical art song from its initial creation to the present day. Differences among national styles and time periods are assessed.

MUSI 5388. Seminar In Literature. 3 Hours.

Students engage in advanced study of literature for the various applied music areas, which includes individual research projects and class performance. (Two enrollments allowed, 3 hrs. each).

MUSI 5398. Advanced Studies in the Applied Discipline. 3 Hours.

Students focus on advanced studies in the appropriate field of study. Credit 3

Prerequisite: Approval of the Graduate Advisor.

MUSI 6031. Major Project. 1-4 Hours.

Students focus on the production of a final project as a culminating demonstration of professional capability in the major field. Variable Credit (1-3).

Prerequisite: Permission from the appropriate graduate faculty.

MUSI 6099. Thesis. 1-3 Hours.

Students complete and successfully defend their Thesis. Variable Credit (1-3.) Course Equivalents: MUSI 6399 .

MUSI 6181. Recital I. 1 Hour.

A one hour solo performance reflecting high standards of artistic achievement and involving both research and applied study requisite to its success. The first of two recitals for performance and conducting specializations.

MUSI 6182. Recital II. 1 Hour.

A one hour solo performance reflecting high standards of artistic achievement and involving both research and applied study requisite to its success. The second of two recitals for performance and conducting specializations.

MUSI 6183. Recital III. 1 Hour.

A one-hour solo performance reflecting high standards of artistic achievement and involving both research and applied study requisite to its success. The third recitals for performance and conducting specializations.

Prerequisite: MUSI 6181 and MUSI 6182.

MUSI 6221. Research in Music Therapy. 2 Hours.

Students focus on descriptive, experimental, philosophical, qualitative, and historical research in music therapy. Students prepare critiques of research material and design original research projects related to their own area of interest. Credit: 2.

MUSI 6285. Applied Analysis and Pedagogy. 2 Hours.

Students focus on strengthening students' identified weaknesses in the areas of score study and analysis and in instrumental pedagogy. Based on information obtained from multiple diagnostic assessments and from demonstration of skills in projects or performances, students work with faculty to develop a personal plan of study. The coursework includes rehearsals and performances and culminates in the completion of a detailed project intended as a teaching tool. Course is taken for three consecutive summers.

MUSI 6332. Advanced Music Therapy Practice. 3 Hours.

Students review research literature in advanced clinical topic areas such as music and sensory-motor processing, music and speech/language, music and cognition, music and affective processing, music and development. Research findings are presented through writing, discussion and clinical simulations. Application of research findings through practice and demonstration of therapeutic techniques are addressed.

MUSI 6388. Band Research & Pedagogy. 3 Hours.

Students focus on research methods and applying them in music education applications, particularly in the area of band music and teaching. Students select, conduct in-depth research on, and reflect on clinics and compositions with which they have personal experience through their program of study. The course culminates in the submission of a document that synthesizes the research on and experience with the selected events and musical compositions. This course is to be completed in the third semester of the candidate's program.

MUSI 6398. Research Techniques. 3 Hours.

Students explore the efficient use of standard library materials and bibliographic sources, and the development of effective writing skills.

Oboe (OBOE)

OBOE 5201. Individual Performances-Oboe. 2 Hours.

The course consists of advanced individualized instruction on the oboe. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students. Credit 2

Prerequisite: Admission to the Master of Music program.

Osteopathic Medicine (OSTM)

OSTM 7233. 3rd and 4th Year Longitudinal OMM Clerkship. 2 Hours.

Students apply the knowledge and skills learned in the Osteopathic Manipulative Medicine Courses 1-4 by performing osteopathic examinations and manipulative techniques in patient care settings. Students continue to build their skills in osteopathic diagnosis and treatment through online didactic sessions and hands-on practice in clinical situations.

OSTM 7301. Osteopathic Manipulative Medicine 1. 3 Hours.

Students are introduced to the principles and practices unique osteopathic medicine, including osteopathic examination and techniques. Students develop the contextual framework and basic skills necessary for providing osteopathic patient care. Students also critically appraise osteopathic history and philosophy, thereby beginning professional identity formation as an osteopathic physician.

OSTM 7302. Osteopathic Manipulative Medicine 2. 3 Hours.

Students continue their exploration of osteopathic principles and practices as they apply to various clinical topics. Students learn new osteopathic exams and techniques, and receive reinforcement of previously learned ones. Osteopathic concepts of mind-body medicine are investigated.

Prerequisite: OSTM 7301.

OSTM 7303. Osteopathic Manipulative Medicine 3. 3 Hours.

Students continue their exploration of osteopathic principles and practices as they apply to the nervous, immune, head/eyes/ears/nose/throat and musculoskeletal systems. Students learn new osteopathic exams and techniques, and receive reinforcement of previously learned ones. Osteopathic concepts of mind-body medicine are investigated.

Prerequisite: Prerequisite OSTM 7302.

OSTM 7304. Osteopathic Manipulative Medicine 4. 3 Hours.

Students continue their exploration of osteopathic principles and practices as they apply to various clinical topics and patient populations. Students revisit osteopathic philosophy from a whole-patient perspective. Students have an opportunity to consolidate materials and skills from the previous three OMM courses and prepare for national examinations.

Prerequisite: OSTM 7303.

Percussion (PERC)

PERC 5201. Individual Performances-Percussion. 2 Hours.

The course consists of advanced individualized instruction in percussion. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students. Credit 2

Prerequisite: Admission to the Master of Music program.

Piano (PIAN)

PIAN 5201. Individual Performances-Piano. 2 Hours.

The course consists of advanced individualized instruction on the piano. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students. Credit 2

Prerequisite: Admission to the Master of Music program.

Political Science (POLS)

POLS 5078. Problems in Political Science. 1-3 Hours.

This course is designed for topics in which the subject cuts across two or more areas of concentration. The course may be taken on an individual basis with the permission of the Political Science Department Chair. The course covers the relevant literature and engages students in appropriate research and/or professional practice. May be repeated when topic varies. Variable Credit (1 to 3). Course Equivalents: POLS 5378

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5095. Political Science Internship. 3,6 Hours.

Students complete a 6 hour, 12 month internship. The internship is required for the MPA degree and fulfils a requirement by its accrediting agency NASPAA, the National Association of Schools of Public Affairs and Administration. Enrollment is by permission of the Director of Graduate Studies. Credit (3 or 6). Course Equivalents: PSYC 5395 .

POLS 5301. Scope & Methods of Political Science. 3 Hours.

Students explore political science by examining the nature of politics, the nature of science, the scientific method, and the major questions and methodological trends in the discipline.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5319. Women in Politics. 3 Hours.

Students examine the role of women in politics, including the origins and implications of gender differences, women as political participants, women as political candidates, and women as political office holders.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5330. American Politics. 3 Hours.

Students examine the major debates and scholarship in the field of American politics. The course focuses on political institutions and political behavior with topics that may include Congress, the Presidency, the Judiciary, political ideology, attitudes and beliefs, public opinion, voting behavior, political parties, interest groups, and mass movements. Students study the classics in the American politics literature as well as current research. Students engage in research and writing.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5332. State Governments, Policies, and Politics. 3 Hours.

Students examine the role of state governments, policies, and politics in the American constitutional order. Topics may include federalism; state governmental structure; public policy making and public policies; elections, campaigns, and voting; political behavior; and interest groups and political parties.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5334. Judicial Politics. 3 Hours.

Students examine the American judicial system and American judicial politics. They study the function and operation of the judiciary, including the role and operation of the U.S. Supreme Court, the origins and function of judicial power, and methods of judicial selection.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5336. The United States Presidency. 3 Hours.

Students examine the structure, powers, and place of the presidency in the American constitutional order. Students study changes in presidential power from the founding to the contemporary era.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5337. The United States Congress. 3 Hours.

Students explore the structure, powers, organization, procedures, and operations of the U.S. Congress. Topics may include the selection of legislators; legislative leadership; the influence of lobbyists, political parties, legislative committees, and executives; legislative roles and norms; congressional elections; representation; and policymaking.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5339. American Political Parties. 3 Hours.

Students examine political parties in American politics. Topics may include party formation, ideologies, and party functions in government, elections, and organization.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5340. Political Attitudes & Behavior. 3 Hours.

Students examine individuals' attitudes and behaviors regarding politics. They analyze the determinants, formation, and expression of ideology and partisanship. Students also explore individuals' political participation, particularly voting behavior. The course is research oriented, with an emphasis on pursuing new directions in research.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5360. Seminar in American Politics. 3 Hours.

Students examine the relevant literature pertaining to a specific topic or debate within the field of American politics. Students may repeat this for credit when the topic differs.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5362. Seminar in Political Theory. 3 Hours.

Students examine the relevant literature pertaining to a specific topic or debate within the field of political theory. Students may repeat this for credit when the topic differs.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5364. Media & Politics. 3 Hours.

Students examine the role and impact of the media on U.S. politics. Students study the impact of the media on campaigns and election outcomes, the media as a source of political information, the agenda setting power of the media, the role of the "free press" in a democracy, and citizens' relationship to the media.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5367. Seminar in International Relations. 3 Hours.

Students examine the relevant literature pertaining to a specific topic or debate within the field of international relations. Students may repeat this for credit when the topic differs.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5371. Comparative Politics. 3 Hours.

Students examine the major theories, concepts, and methods of comparative analysis. Topics include the major concepts of comparative politics which may include: political elites, institutions, public policy, development and modernization, elections and political behavior, mass movements, and revolution and political violence.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5372. Seminar in Comparative Politics. 3 Hours.

Students examine the relevant literature pertaining to a specific topic or debate within the field of international relations. Topics may include political development, sustainability, comparative institutions, comparative public policy, transitions to democracy, and opinions and behavior. The seminar may also focus on one or more regions or individual countries. Students may repeat this for credit when the topic differs.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5373. International Relations. 3 Hours.

Students examine the major theories, concepts, and methods of international relations. Specific topics may include conflict and cooperation; the relationship between domestic and international politics; and transnational issues and actors.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5379. Workshop in Teaching Political Science. 3 Hours.

Students examine a variety of topics useful to teaching political science or government courses. Topics may include Texas politics, constitutional issues, current elections, and using technology in the class classroom. Students may repeat the course when topic varies.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5382. Seminar in Public Administration. 3 Hours.

Students examine the relevant literature pertaining to a specific topic or debate within the field of public administration. Students may repeat this for credit when the topic differs.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 5385. Public Policy. 3 Hours.

Students examine the process of public policy formulation, governmental planning, and administrative decision-making, giving special attention to the public administrator as a policy-maker and as one responsible for policy implementation.

Prerequisite: Admission to the MA in Political Science program, MA in History & Political Studies program, 18-Hour Certificate in Political Science program, or departmental approval required.

POLS 6098. Thesis. 1-3 Hours.

Students will make use of appropriate literature and research techniques in the development of the capstone project. Variable Credit (1-3). Course Equivalents: POLS 6398 .

POLS 6099. Thesis. 1-3 Hours.

Students will make use of appropriate literature and research techniques in the development of the thesis. Variable Credit (1-3). Course Equivalents: POLS 6399 .

POLS 7330. Public Policy and the School District. 3 Hours.

Students examines school districts as systems of governance in American communities and the problems associated with governance, with particular emphasis upon educational issues. Topics may include democratic theory, local political systems, intergovernmental relations, relationships with citizens, and political accountability.

Psychology (PSYC)

PSYC 5035. Special Problems in Psychology. 1-3 Hours.

Students engage in an in-depth study in individually selected topics not specifically included in the formal course offerings. Variable Credit (1-3). Course Equivalents: PSYC 5335

Prerequisite: Consent of department chair and instructor.

PSYC 5330. Psychopathology. 3 Hours.

Students examine psychological disorders and review, critically evaluate, and integrate current scientific literature regarding diagnosis, phenomenology, and etiology. Students also explore issues in the application of the current diagnostic system in clinical practice.

PSYC 5331. Seminar in Experimental Psychology. 3 Hours.

Students survey the science of experimental psychology, providing an advanced synthesis of the scientific study of human behavior that includes the biological, perceptual, developmental, and social determinants of behavior, emotion, and cognition.

PSYC 5332. Advanced Social Psychology. 3 Hours.

Students examine social factors that influence individual behavior. Students also develop competency in integrating theoretical perspectives and emerging programs of research within the discipline. Readings include a variety of original sources.

PSYC 5333. Theory and Research In Psychotherapy I. 3 Hours.

Students engage in a comparative analysis of different systems and techniques of psychotherapy. Students also examine the role of therapist, client, and setting, along with ethical principles of psychological practice.

PSYC 5334. Theory and Research In Psychotherapy II. 3 Hours.

Students examine selected advanced systems or techniques of psychotherapy, including group therapy, marital and family therapy, therapy for sexual dysfunction, or others. Content may vary from semester to semester.

PSYC 5336. Advanced Cognitive Psychology. 3 Hours.

Students examine the major psychological issues related to cognition in a seminar-style course. Topics may include attentional processes, memory, language, knowledge representations, decision making, problem solving, and cognitive neuroscience. Students explore the relationship between empirical evidence and theoretical explanations of cognitive processes with the aid of reading assignments in the textbook, current research articles, and class discussions. Students will also specifically focus on the practical applications of cognitive theories and research.

PSYC 5338. Consultation In School Psychology. 3 Hours.

Students examine and apply various methods and techniques of consultation in schools. Best practices according to the National Association of School Psychologists provide the basis for the curriculum. The course has both didactic and field experience components.

PSYC 5339. Advanced School Psychology. 3 Hours.

Students acquire knowledge on the history, theory, delivery models, and techniques underlying the practice of school psychology. Students also examine various historical and contemporary roles of the school psychologist, in addition to a applicable federal and state laws. There is also a field experience aspect to the course.

PSYC 5340. Evidence-Based Child Therapy. 3 Hours.

Students analyze research to identify appropriate treatment for child and adolescent mental illness, focusing on treatments and techniques supported by current empirical knowledge and best-practice parameters. Topics may include cognitive behavioral therapy for child and adolescent depression, exposure therapy for child and adolescent depression, and Parent Child Interaction Therapy for child disruptive behavior.

PSYC 5360. Advanced Physiological Psychology. 3 Hours.

Students examine the biological substrates of behavior, with particular attention given to the effects of psychoactive chemicals.

PSYC 5361. Neuropsychopharmacology. 3 Hours.

Students examine the field of behavioral pharmacology: the systematic study of the effects of drugs on behavior and the way in which behavioral principles can help in understanding how drugs work. Students focus primarily on the neurophysiological mechanisms of action of various psychoactive drugs and on the various neurotransmitter systems within the nervous system.

Prerequisite: Consent of instructor.

PSYC 5370. Academic Assessment and Consultation. 3 Hours.

School psychology graduate students develop the skills to assess the academic skill-sets and functioning of school-age children and adolescents as well as their respective instructional environments. Students in this course develop an increased understanding of the problem-identification and problem-analysis stages of consultation within the context of academic difficulties.

Prerequisite: PSYC 5338.

PSYC 5377. Emotion and Cognition. 3 Hours.

Students examine theory and research in the affective and cognitive sciences. Emotional and cognitive processes studied may include emotional regulation, affective expression, emotional intelligence, attention, memory and problem-solving. Individual differences and diversity in emotions and cognitions are explored.

Prerequisite: Graduate Admission.

PSYC 5379. Ethical Practice in Psychology. 3 Hours.

Students acquire knowledge of ethics, standards, laws, state licensing rules and regulations, and historical foundations of the practice of clinical and school psychology. Students examine case material that features ethical conflicts and controversies and practice the processes to resolve ethical dilemmas.

Prerequisite: Graduate Standing.

PSYC 5380. Psychology of Diversity. 3 Hours.

Students examine the roles and influences of cultural and individual differences in mental health. Although the field of multicultural psychology covers a vast array of topics, students in this course focus specifically on diversity as it applies to the delivery of clinical services. Appropriate assessment, diagnosis, and intervention approaches to psychological work with various clinical populations will be discussed.

Prerequisite: Graduate Standing.

PSYC 5381. Advanced Learning Theory. 3 Hours.

Students examine the processes of learning through a critical discussion of current research and theory in the areas of classical conditioning, operant conditioning, and social and cognitive influences in learning.

PSYC 5382. Advanced Industrial/Organizational Psychology I. 3 Hours.

Students investigate psychological principles as applied to industrial/organizational milieu, focusing on the application of research methodology, psychological assessment, and personality theories to the work environment.

Prerequisite: 6 hrs of graduate Psychology coursework.

PSYC 5383. Advanced Industrial/Organizational Psychology II. 3 Hours.

Students investigate psychological principles as applied to organizational environments, focusing on the application of research methodology, psychological assessment, and social psychological theory to leadership, employee satisfaction and motivation, behavioral analysis and conflict resolution, and intervention in work related stress.

Prerequisite: 6 hours of graduate Psychology coursework.

PSYC 5385. Advanced Health Psychology. 3 Hours.

Students explore the theoretical and conceptual foundations of health psychology, the interactions of biological, psychological, and social factors in health, health promotion and prevention, stress and coping with disease and illness, and recovery and rehabilitation to acute, chronic, and terminal illness, including a variety of specific assessment and intervention strategies. Students are expected to conduct a review the literature and independent research.

PSYC 5387. Advanced Statistics. 3 Hours.

Students develop competencies in the use of statistical methods as tools for inferential hypothesis testing. Topics may include consideration of data screening, effect sizes, and simple effects tests, and an introduction to multiple regression.

Prerequisite: PSYC 3301 or equivalent.

PSYC 5388. Experimental Design. 3 Hours.

Students develop skills that will allow them to design their own scholarly research projects. Students are encouraged to understand that research design often requires finding the right balance between advantages and disadvantages of specific methods. Students familiarize themselves with the current scholarly literature regarding research design and write an independent research proposal that can serve as a thesis or dissertation proposal.

PSYC 5389. Applied Multivariate Statistics for Psychology. 3 Hours.

Students examine statistical analyses commonly used in psychology and other behavioral sciences to advance their knowledge of common and advanced methods. Topics may include multiple regression; multivariate analysis of variance and covariance; path analysis, moderation, and mediation; and exploratory and confirmatory factor analysis.

Prerequisite: Graduate Admission, PSYC 5387 or comparable course.

PSYC 5390. Teaching of Psychology. 3 Hours.

Students review pedagogical approaches and strategies as they apply to teaching psychology in higher education. Topics may include teaching philosophies, textbook selection, syllabus development, best practices in undergraduate psychology education, organization and use of class time, active learning methods, use of instructional technologies, exam construction, and grading models.

Prerequisite: Departmental approval.

PSYC 5392. History and Systems of Psychology. 3 Hours.

(SH Prior Course ID: PSY 592); Students examine the philosophical, theoretical, and paradigmatic antecedents of modern psychology. Students thoroughly investigate important early publications, central figures, and major university centers are studied in detail, and students explore and critique the assumptions that inform influential perspectives within psychology today.

PSYC 5394. Psychometrics. 3 Hours.

Students develop an understanding of the principles of psychometric theory and applications, including reliability, validity, and test construction. Students will thoroughly investigate tests and scales that measure personality and mental health. Limited practicum is required.

PSYC 5395. Assessment of Intelligence and Achievement. 3 Hours.

Students develop competencies in the administration, scoring, interpretation, and reporting of results of the Wechsler Scales and other measures of intelligence, achievement, adaptive behavior, and personality to produce integrated reports. Students receive supervised instruction throughout the duration of the course.

Prerequisite: PSYC 5394 or equivalent.

PSYC 5396. Assessment of Personality and Psychopathology. 3 Hours.

Students develop competencies in the theory, administration, scoring, and interpretation of personality assessment instruments. Students receive supervised instruction throughout the duration of the course. Two separate sections of this course are offered, one focusing on objective measures (e.g., MMPI-2, PAI) and one focusing on projective measures (e.g., Rorschach).

Prerequisite: PSYC 5330.

PSYC 5397. Advanced Developmental Psychology. 3 Hours.

Students engage in an advanced study of growth and development processes throughout the life cycle. Students examine theories and applications of basic research and delve into one of the major topics—such as multicultural aspects of development, cognitive development, social-emotional factors, and physical development—in depth through critical reading of original research.

PSYC 5398. Advanced Child Assessment. 3 Hours.

Students gain in-depth practical experience in the comprehensive assessment of infants, children, and adolescents. Students review a variety of individual testing instruments, including those used to evaluate cognitive, social-emotional, behavioral and executive functioning. Alternative methods of assessment, such as transdisciplinary play-based assessment, dynamic assessment, and curriculum-based measurement, as well as techniques and instruments specifically designed for the evaluation of Autism and other disabled populations, are emphasized.

Prerequisite: PSYC 5395.

PSYC 6098. Thesis I. 1-3 Hours.

Students complete a review of the literature, research design, collection of pilot data, and related steps. Students are required to present and defend a research proposal. Variable Credit (1-3). Course Equivalents: PSYC 6398 .

PSYC 6099. Thesis II. 1-3 Hours.

Students complete a review of the literature, research design, collection of pilot data, and related steps. Students are required to present and defend a research proposal. Variable Credit (1-3). Course Equivalents: PSYC 6399 .

PSYC 6371. Internship in Psychology. 3 Hours.

Students demonstrate their ability to integrate and apply their knowledge in a course designed to be the culmination of the master's level training in applied psychology.

Prerequisite: 30 hours of graduate coursework.

PSYC 6390. Techniques in Psychotherapy. 3 Hours.

This course includes development of Students develop psychotherapy skills and techniques of Motivational Interviewing. Emphasis is on acquisition, mastery, and automaticity of skills and techniques. Co-requisite: PSYC 6391. Co-requisite: PSYC 6391.

Prerequisite: Graduate Admission.

PSYC 6391. Practicum I. 3 Hours.

Students develop interviewing skills in this introduction to psychotherapy and bring together theory and practice as developing psychologists. The first practicum course begins with the assumption that the student has had little to no experience in this domain. Ethical issues related to clinical practice are thoroughly explored. Co-requisite: PSYC 6391. Co-requisite: PSYC 6391.

PSYC 6392. Practicum II. 3 Hours.

Students bring theory and practice together to develop their psychotherapy skills. Students are assigned to practicum sites where they provide therapy to clients with various psychological disorders and problems in living. Students also explore ethical issues in treatment.

Prerequisite: PSYC 6391.

PSYC 6393. Practicum III. 3 Hours.

Students bring theory and practice together to develop their psychotherapy skills. Students are assigned to practicum sites where they provide therapy to clients with various psychological disorders and problems in living. Students also explore ethical issues in treatment.

PSYC 6394. Practicum in Psychometrics. 3 Hours.

Students further develop and apply skills in administration, scoring, interpreting, and reporting of psychological tests in this concluding practicum experience. Students take this practicum near the end of their educational program, with supervised experience intended to prepare the student for the psychological assessment and diagnostic aspects of internship or initial employment.

Prerequisite: PSYC 5394 and PSYC 5395.

PSYC 6395. System Organization, Administration, and Change. 3 Hours.

Students explore local, state, and national educational structures, including school districts and individual schools, as systems with specific challenges. Students expand their knowledge of these systems, including their organization, administration, and climates, while learning systems-change theory and procedures for policy development. Emphasis is placed on the role of the school psychologist within these systems. A problem-solving, collaborative approach to change is emphasized.

PSYC 6396. Practicum in School Psychology I. 3 Hours.

Students develop the theoretical foundation necessary to design and implement intervention programs to promote mental health wellness and resiliency. Students gain direct field experience with the provision of psychological counseling used to assist children. Students also examine ethical issues related to intervention and prevention services.

Prerequisite: PSYC 5339.

PSYC 6397. Practicum in School Psychology II. 3 Hours.

Students bring theory and practice together to continue to develop skills required in practice. This course is designed as the culminating specialist-level, field-based experience. Students develop their skills in school-based practicum sites where they provide a variety of services (e.g., assessment, intervention) under the supervision of both field and university supervisors.

Prerequisite: PSYC 6396.

PSYC 7330. Clinical Psychology Proseminar. 3 Hours.

Students survey the field of clinical psychology, current topics in clinical psychology, and the areas in which clinical psychologists practice and conduct research. Students also examine the research programs and clinical interests of the core faculty in the Clinical Psychology Ph.D. Program. As part of the course, students are expected to begin scholarly work with a faculty member of their choice.

PSYC 7333. Law and Social Psychology. 3 Hours.

(SH Prior Course ID: PSY 733); Students learn to apply social psychological theory and research to the legal system. Students critically examine contentious topics such as recovered memories, false confessions, eyewitness adequacy, death qualification, and the influence of social class in legal settings through careful study of a wide variety of original sources.

PSYC 7335. Law and Psychology. 3 Hours.

(SH Prior Course ID: PSY 735); Students explore historical and contemporary applications of the social sciences to the law. Students thoroughly examine the use of information derived from the science and profession of psychology to shape judicial, legislative, and administrative law.

PSYC 7336. Mental Health Law. 3 Hours.

(SH Prior Course ID: PSY 736); Students examine state and federal constitutional, statutory, and case law regulating mental health professional practice. Topics may include: child abuse/neglect reporting laws, civil commitment, confidentiality and privilege, duty to protect third parties from harm, psychiatric hospitalization of inmates, and state licensing requirements.

PSYC 7339. Developmental Psychopathology. 3 Hours.

Students examine psychological disorders among children and adolescents, as understood through current empirical literature. Students review the ways in which biological, social, and psychological processes interact in the development of—or resistance to—psychopathology by drawing from developmental psychology and general systems theory. Students consider the contextual and developmental influences on child psychopathology when the students review or conduct research. Students also thoroughly consider developmental and contextual factors when assessing and diagnosing childhood psychopathology.

PSYC 7360. Multicultural Psychology. 3 Hours.

Students examine the theoretical and methodological foundations of multicultural psychology as applied to clinical psychology. Students review and critique current research in the field and discuss applications of the course content to their practicum training and placements.

PSYC 7362. Ethics in Clinical Practice. 3 Hours.

Students examine the APA Ethical Principles of Psychologists and Code of Conduct as well as various specialty guidelines and recommendations and their applications to practice, research, and consultation. Students also critically examine the literature on ethics from a variety of original sources. Students examine case material that features ethical conflicts and controversies, and students practice processes to resolve ethical dilemmas.

PSYC 7370. Empirically Supported Treatments. 3 Hours.

Students examine the psychosocial treatments for specific psychological disorders (e.g., depression, panic disorder) that have received substantial empirical support. Students also examine the methodological, practical, and political controversies surrounding the empirically supported treatment movement.

Prerequisite: PSYC 5330 and PSYC 5333.

PSYC 7374. Human Neuropsychology. 3 Hours.

Students examine brain-behavior relationships, including higher cortical functions. Specific consideration is given to the most common neurobehavioral syndromes likely to be confronted in clinical practice, administration of tests that are used to assess neuropsychological functioning, coverage of critical issues in differential diagnoses involving neuropsychological functioning, intervention implications, and scholarly research in clinical neuropsychology.

Prerequisite: PSYC 5330 and PSYC 5360 or PSYC 5395.

PSYC 7377. Cognitive and Affective Bases of Behavior. 3 Hours.

Students examine the intersection of affective and cognitive bases of behavior. Further, students explore the nature of emotion, delineates its components, and examine the roles of emotion in self-control, cognition, well-being, psychopathology, and relationships.

Prerequisite: Graduate Standing.

PSYC 7378. Social and Developmental Bases of Behavior. 3 Hours.

Students survey and integrate two disparate but related fields of psychology—social and developmental psychology. First, students learn core theories and research focuses related to each psychology field. Furthermore, students study theories and research topics to integrate knowledge across the two fields of psychology.

PSYC 7387. Multivariate Statistics in Psychology. 3 Hours.

Students examine the use of multivariate procedures in psychological research. Students use SPSS to conduct regression, MANOVA, discriminant analysis, and factor analyses on psychological data. Additional advanced procedures are reviewed.

PSYC 7388. Latent Variable Modeling. 3 Hours.

Students examine a group of statistical techniques, collectively known as latent variable models, which are used to measure constructs that are not directly observable. Instruction covers the conceptual background and statistical application of these models. Topics may include factor analysis, structural equation modeling, latent class analysis, and latent growth curve modeling.

Prerequisite: PSYC 5387.

PSYC 7392. Topics in Clinical Psychology. 3 Hours.

(SH Prior Course ID: PSY 792); Students examine in-depth selected topics in clinical psychology with content varying depending on the interests of faculty and students.

PSYC 8096. Dissertation I. 1-3 Hours.

Advanced research in clinical psychology. Variable Credit (1-3). Course Equivalents: PSYC 8396

Prerequisite: Consent of Clinical Training Committee.

PSYC 8097. Dissertation II. 1-3 Hours.

Advanced research in clinical psychology. Variable Credit (1-3). Course Equivalents: PSYC 8397

Prerequisite: Consent of Clinical Training Committee.

PSYC 8098. Dissertation III. 1-3 Hours.

Advanced research in clinical psychology. Variable Credit (1-3). Course Equivalents: PSYC 8398

Prerequisite: Consent of Clinical Training Committee.

PSYC 8099. Dissertation IV. 1-3 Hours.

Advanced research in clinical psychology. Prerequisites: Consent of Clinical Training Committee. Variable Credit (1-3). Course Equivalents: PSYC 8399 .

PSYC 8110. Internship I. 1 Hour.

Students engage in advanced clinical training onsite at their clinical internship. Course Equivalents: PSYC 8010, PSYC 8390

Prerequisite: PSYC 8382 and PSYC 8383.

PSYC 8111. Internship II. 1 Hour.

Students engage in advanced clinical training onsite at their clinical internship. Course Equivalents: PSYC 8011, PSYC 8391

Prerequisite: PSYC 8390 and consent of Clinical Training Committee.

PSYC 8112. Internship III. 1 Hour.

Students engage in advanced clinical training onsite at their clinical internship. Course Equivalents: PSYC 8012, PSYC 8392

Prerequisite: PSYC 8390.

PSYC 8360. Forensic Assessment I. 3 Hours.

Students examine issues related to conducting assessments for the criminal courts. Students review and critique current research in forensic psychology, as well as developing case law. Emphasis is placed on constructing the written report and on the ethical issues often faced in the forensic forum. This course will include a practicum component in which students perform forensic assessments with the instructor.

PSYC 8361. Forensic Assessment II. 3 Hours.

Students continue in their development of skills in forensic assessment with an emphasis on the civil case issues (e.g., juvenile evaluations, personal injury, and child custody). Students review current research in forensic psychology, as well as developing case law. Additionally, students develop competencies in expert testimony in the courtroom, and participate as witnesses defending a case they have completed in a mock trial exercise.

Prerequisite: PSYC 8360.

PSYC 8381. Beginning Doctoral Practicum. 3 Hours.

Students observe treatment under a peer supervisor. Students perform mock interviews under the supervision of the faculty instructor with the assistance of a peer supervisor. Students acquire skills in interviewing, mental status examination, suicide assessment, psychological diagnosis, and treatment planning. Ethical and multicultural issues will be explored in depth.

Prerequisite: PSYC 5330.

PSYC 8382. Doctoral Clinical Practicum I. 3 Hours.

Students deliver psychological services at the Psychological Services Center operated by program faculty or a related practicum site. Students attend a group supervision session emphasizing either psychological assessment and integrative report writing or psychotherapy. Students have practicum experiences that allow them to practice assessments or therapy skills under supervision from a licensed psychologist. Students will continue to enroll in this course for three semesters (9 hours).

PSYC 8383. Doctoral Clinical Practicum II. 3 Hours.

Students deliver psychological services at the Psychological Services Center operated by program faculty or a related practicum site. Students attend a group supervision session emphasizing either psychological assessment and integrative report writing or psychotherapy. Students have practicum experiences that allow them to practice assessments or therapy skills under supervision from a licensed psychologist. Students will continue to enroll in this course for three semesters (9 hours).

Public Administration (PADM)

PADM 5001. Independent Study. 1-3 Hours.

Students examine a topic related to public administration or disaster management. Under the direct supervision of a faculty member, the faculty and student formulate a course of study which could include reviewing relevant literature, engaging in research, exploring professional practice, or conducting other forms of inquiry appropriate to the course of study. The course may be repeated for credit. Variable Credit (1 to 3).

Prerequisite: Graduate Standing and Department Approval.

PADM 5002. Public Service Internship. 3,6 Hours.

Students engage in supervised work that provides on-the-job public administration experience within a public or nonprofit organization. Students may earn 3 credit hours for 240 hours of field experience or 6 credit hours for 480 hours of field experience. Under the supervision of a faculty internship coordinator, students apply the theoretical and practical knowledge acquired in their MPA core coursework to their field experience. Credit (3 or 6).

Prerequisite: Graduate Standing and Department Approval.

PADM 5003. Disaster Management Internship. 3,6 Hours.

Students engage in supervised work that provides on-the-job disaster management experience within a public, non-profit, or private organization. Students may earn 3 credit hours for 240 hours of field experience or 6 credit hours for 480 hours of field experience. Under the supervision of a faculty internship coordinator, students will apply and reflect upon the theoretical and practical knowledge acquired in their MPA concentration coursework to their field experience in a series of written assignments. Credit (3 or 6).

Prerequisite: Graduate Standing and Department Approval.

PADM 5301. Scope and Methods of Public Administration. 3 Hours.

Students examine the quantitative and qualitative research methods used in modern political science. Course Equivalents: PADM 5377

Prerequisite: Graduate Standing.

PADM 5302. Dynamics of Public Administration. 3 Hours.

Students examine the history and theoretical basis of public administration and the basic issues that confront it, including administrative responsibility and ethics, and the formulation and implementation of public policy. Course Equivalents: PADM 5381

Prerequisite: Graduate Standing.

PADM 5310. Organizational Theory and Behavior. 3 Hours.

Students examine the major topics, issues, and contributions in the literature on organizations, their structures and functions, and the behavior of people in them, with emphasis on applications to government and nonprofit organizations. Students explore examples of organizations at federal, state, and local levels of government and a variety of nonprofit organizations, such as hospitals, social service agencies, and faith-based/non-governmental organizations. Course Equivalents: PADM 5384

Prerequisite: Graduate Standing.

PADM 5311. Public Management. 3 Hours.

Students examine and evaluate current public management techniques and theories with a specific focus on organizations in the public and nonprofit sectors. Topics may include theories related to the field of public management, the political context of public management, contracting out, networking, strategic management and planning, performance management, and public participation. Course Equivalents: PADM 5389

Prerequisite: Graduate Standing.

PADM 5312. Public Budgeting and Finance. 3 Hours.

Students examine the public budgetary process and related financial management techniques. Course Equivalents: PADM 5387

Prerequisite: Graduate Standing.

PADM 5313. Human Resource Management. 3 Hours.

Students examine the evolution and context of human resource management. Specific topics include: human resources planning, recruitment and selection, performance evaluation, compensation, promotion and benefits, staff development, labor relations, discipline, and control structures. Course Equivalents: PADM 5386

Prerequisite: Graduate Standing.

PADM 5314. Ethics in Government. 3 Hours.

Students examine the classical and contemporary literature on the role and practice of ethics in public administration. Students study contemporary empirical research, case studies, and ethical problem solving around questions of right action and good conduct in public organizations and public policy making. Course Equivalents: PADM 5388

Prerequisite: Graduate Standing.

PADM 5315. Program Evaluation. 3 Hours.

Students examine techniques for the collection, manipulation, interpretation, and presentation of data and information in public policy/management processes, and demonstrate application of the techniques using computer technology. The course covers the relevant literature and engages students in appropriate research and/or professional practice. Course Equivalents: PADM 5383

Prerequisite: Graduate Standing.

PADM 5319. Special Topics in Public Administration. 3 Hours.

Students examine literature pertaining to a specific topic, debate, or problem related to the organization, administration, and management of public and non-profit organizations. Students may repeat this course for credit when topics differ. Course Equivalents: PADM 5398

Prerequisite: Graduate Standing.

PADM 5340. Emergency Management. 3 Hours.

Students examine the system of emergency management in the U.S, applying public administration frameworks of budgeting, human resources, intergovernmental relations, and decision making to analyze and evaluate emergency management responses. Course Equivalents: PADM 5391

Prerequisite: Graduate Standing.

PADM 5341. Decision Making in Public Administration. 3 Hours.

Students examine theories and practical applications of administrative decisions. In public administration, decisions are often made under conditions of uncertainty. Students evaluate strategies used by public and nonprofit managers to reduce risk, and they create their own strategies through a series of simulation exercises. Course Equivalents: PADM 5392

Prerequisite: Graduate Standing.

PADM 5342. Global Disaster Politics. 3 Hours.

Students examine the politics that underpin the phases of disaster management. Using a comparative analytical approach, students draw inferences and lessons about the effects of politics on different localities and contexts around the world. Course Equivalents: PADM 5390

Prerequisite: Graduate Standing.

PADM 5343. Disaster Resilience. 3 Hours.

Students examine theories and conceptual frameworks of disaster resilience. Students evaluate approaches to the measurement of resilience and apply these to create a disaster resilience assessment of a community. Course Equivalents: PADM 5393

Prerequisite: Graduate Standing.

PADM 5359. Special Topics in Disaster Management. 3 Hours.

Students examine literature pertaining to the core concepts and principles of emergency and disaster management as they relate to the organization, administration, and/or management of public and/or non-profit organizations. Students may repeat this course for credit when topics differ. Course Equivalents: PADM 5399

Prerequisite: Graduate Standing.

PADM 5361. Managing Complex Policy Problems. 3 Hours.

Students explore how organizations manage complex policy problems. They apply concepts from complexity theory, system dynamics, governance, and networks to develop new perspectives and novel solutions to complex social and policy problems. Students evaluate management approaches in policy areas such as disaster management, drug trafficking networks, risk management, and diversity.

Prerequisite: Graduate Standing.

PADM 5362. Managing the Nonprofit Organization. 3 Hours.

Students explore the organizations, groups, and activities that make up the nonprofit sector. They apply the principal theories, knowledge, competencies, and skills of nonprofit management to analyze management practices in nonprofit organizations.

Prerequisite: Graduate Standing.

Reading (READ)

READ 5105. Problems In Reading. 1 Hour.

This course will examine problems in reading.

READ 5304. Multisensory Language Learning. 3 Hours.

Students examine theories, concepts, and research-based pedagogical implications for multisensory language learning. Students conceptualize and implement multisensory strategies for teaching reading to students with dyslexia and other special needs.

READ 5306. Survey Of Reading. 3 Hours.

This course provides historical and philosophical perspectives in literacy instruction. The results of research in such areas as emergent literacy, cueing systems and comprehension, reading interests, current literacy methodologies, and diversity of learners in schools are examined for application in classroom practice.

READ 5307. Literacy Assessment & Instructional Strategies Practicum I. 3 Hours.

This course provides an opportunity for an in-depth study of current approaches to assessment as a foundation for literacy instruction. In supervised experiences teachers will learn how to use a range of formal and informal assessment tools and methods to diagnose and assess reading and writing development, to guide instruction, and to involve the learner in self-assessment.

Prerequisite: READ 5306.

READ 5308. Literacy Assessment & Instructional Strategies Practicum II. 3 Hours.

This course offers an in-depth study of the assessment of struggling readers and writers. In supervised settings teachers will use various formal and informal individual assessment procedures and instruments. These assessments will direct instructional strategies and methodology. Candidates develop individual case studies.

Prerequisite: READ 5307.

READ 5309. Literacy Instruction in Grades EC-4. 3 Hours.

Candidates explore research-based instructional practices in emergent literacy, cueing systems and comprehension, reading interests, current literacy methodologies, and diversity of learners in schools. This course is designed for graduate students admitted to an authorized initial alternative teaching certification program. This course does not count toward the reading master's degree program.

READ 5310. Literacy Instruction in Grades 4-8. 3 Hours.

This course explores research-based instructional practice in middle school, word analysis skills, current literacy methodologies, and diversity of learners in schools. This course is designed for graduate students admitted to an authorized initial alternative teaching certification program. This course does not count toward the reading master's degree program.

READ 5311. Literacy and Learning in Grades 8-12. 3 Hours.

This course is for prospective and practicing teachers and focuses on the literacy strategies that enable 8-12 students to comprehend, engage, and make use of the more challenging content and texts in all 8-12 subject areas. Candidates will be involved in class lectures, discussion, small group activities, written assignments, oral presentations, and tests.

READ 5315. Language Arts: Theory and Instruction. 3 Hours.

This course provides theories and practices for teaching oral and written English, integrating the processes of reading, writing, listening, and speaking in classrooms, and the integration of language arts across the curriculum.

READ 5316. Language Arts: Research Applications. 3 Hours.

This course is a companion course to READ 5315 and provides research applications, as well as theory and practices for oral and written English. Emphasis is placed on integrating the process of reading, writing, digital composition, listening, speaking, viewing and representing in classrooms, and the integration of language arts across the content area curriculum.

Prerequisite: Acceptance to Sam Houston Writing Project.

READ 5317. Politics of Literacy. 3 Hours.

Students examine literacy as a political issue from historical, social and theoretical perspectives. The role of advocacy in literacy instruction and policy is emphasized.

READ 5325. Improvement of Literacy in Secondary Schools & Adult Pops. 3 Hours.

This course is designed to prepare secondary classroom teachers and reading specialists for teaching reading to secondary school and adult populations. Content includes characteristics of secondary students and adult learners, language patterns and structures common to various subject-area texts and techniques to teach reading and study strategies in secondary and adult classrooms.

READ 5330. Literature and Instructional Materials in Reading Programs. 3 Hours.

This course prepares specialized reading professionals to teach classic and contemporary children's and young adult's literature and easy reading fiction and nonfiction at all levels. Theories and practices that stimulate student interest in reading, promote reading growth, foster appreciation for the written word and increase the motivation of learners to read widely and independently for information, pleasure, and personal growth are emphasized.

READ 5335. Cognition & Emergent Literacy. 3 Hours.

This course provides an opportunity to examine language, cognition, and pre-reading skills of young children. It enables the student to understand, develop, and evaluate language and reading programs for young children.

READ 5340. Practicum of Literacy Asmt & Instrumental Strat II-Secd Pops. 3 Hours.

Students study current approaches to assessment as a foundation for literacy instruction and intervention design for struggling readers and writers in grades 7-12 who might experience dyslexia and/or related disorders. Students learn how to use a range of formal and informal assessment tools and methods to diagnose and assess reading and writing development. This course has 50+ field experience hours with secondary students.

Prerequisite: READ 5307.

READ 6088. Special Topics in Reading. 1-3 Hours.

This course will provide the opportunity for relevant and timely workshops and independent research and study. Course Equivalents: READ 5320 .

READ 6089. Independent Studies in Reading. 1-3 Hours.

This is a course designed for independent study of selected topics under the supervision of a faculty member. Variable Credit (1-3).

Prerequisite: Consent of Department Chair.

READ 6310. Administration and Supervision of Literacy Programs. 3 Hours.

This course examines the organization, development, implementation and improvement of reading and writing programs in public schools grade K through 12 at classroom, building and district levels.

Prerequisite: READ 5307 and/or co-enrolled in READ 5340.

READ 6320. Research and Literacy Leadership. 3 Hours.

This course provides a field internship for Reading Specialist candidates that focuses on reading and writing curriculum and instructional development, professional development of literacy teachers, and leadership in literacy assessment at the school and district levels. The internship provides students opportunities to apply the theories and principles of learning throughout the reading masters program. Candidates must be enrolled in their final semester of coursework for the reading masters degree; the candidate's portfolio will be developed as part of this capstone course.

Prerequisite: READ 5307 and READ 5340.

READ 7100. Seminar In Literacy Leadership. 1 Hour.

Individual seminar topics will be presented monthly and will change for each semester in which candidates are enrolled. Topics will cover a wide variety of issues of interest to literacy educators. May be repeated for credit for a total of three credits.

Prerequisite: Admission into the Ed.D. program in Literacy Leadership.

READ 7301. Advanced Survey of Current Research in Literacy. 3 Hours.

Seminar topics are presented which address a wide variety of current issues and questions of interest to literacy educators and researchers.

Topics are designed to assist doctoral students gain currency in specific areas and to explore a possible research agenda. These topics range from international literacy, literacy in an electronic age, to planning literacy pedagogy for teacher preparation programs. Course Equivalents: CIED 7389 .

READ 7387. Directed Topics In Reading. 3 Hours.

This course will provide the doctoral student an opportunity to engage in detailed and in-depth study of a program or problem in reading education. The student will work under the supervision of a doctoral faculty member and will be expected to produce a written product or presentation.

READ 7732. Literacy Pedagogy for Adult Learning. 3 Hours.

Issues, research and publications on the methodologies dedicated to the teaching of adults about literacy at the university level, whether in developmental reading or writing classes or enrolled in teacher education classes will be explored.

Prerequisite: READ 7300.

Real Estate (REAL)

REAL 5350. Real Estate Debt. 3 Hours.

Students apply concepts, techniques, and instruments integral to the financing of real estate. Students perform the application of discounted cash flow, net present value, internal rate of return, and amortization fundamentals to real estate analysis. Mortgage debt structures and calculations involving loan origination costs, servicing fees, and prepayment penalties are explored.

Prerequisite: 42 Credit Hours.

REAL 5351. Real Estate Equity. 3 Hours.

Students perform calculations related to real estate investment analysis. Students use a framework for making real estate investment decisions based on key financial returns/metrics and risk assessment. Students focus on mastering cash flow and proforma forecasting to inform real estate investment decisions involving acquisitions, development, and dispositions.

REAL 5352. Real Estate Market and Development Feasibility Analysis. 3 Hours.

Students examine the component parts of the real estate development process from idea inception; through project site selection, design, regulatory framework, market analysis, and financial feasibility analysis.

REAL 5365. Real Estate Law. 3 Hours.

Students examine the legal aspects of real estate, including the legal principles and legal instruments used in real estate transactions.

Saxophone (SAXO)

SAXO 5201. Individual Performances-Saxophone. 2 Hours.

The course consists of advanced individualized instruction on the saxophone. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students. Credit 2

Prerequisite: Admission to the Master of Music program.

Scientific Foundations (SFOM)

SFOM 7801. Scientific Foundations. 8 Hours.

Students integrate the foundational science principles required for subsequent integrated systems courses, including microbiology, physiology, pharmacology, genetics, biochemistry, pathology, and molecular biology. Students apply critical thinking skills of the sciences using case-based scenarios.

Secondary Education (CISE)

CISE 7390. Assessment Of Mathematics Learning. 3 Hours.

This course will be one of four education classes used in the doctoral program in mathematics education. Topics will include classroom assessment, standardized tests, and assessment instruments for research in mathematics education.

CISE 7393. Research In Mathematics Education. 3 Hours.

This course will be one of four education classes used in the doctoral program in mathematics education. Topics will include selecting a research topic, research instruments, research statistics, and writing the paper.

CISE 7395. Current Issues In Mathematics Education. 3 Hours.

This course will be one of four education classes used in the doctoral program in mathematics education. Topics will include curriculum, textbooks, standards, accountability, parental involvement, legal issues, ethics, and testing.

CISE 7396. Theories Of Learning Math. 3 Hours.

This course will be one of four education classes used in the doctoral program in mathematics education. Topics will include theories of learning mathematics, information processing, cognitive theories, and constructivist theories.

Security Studies (SCST)

SCST 5320. Emergency Management Integration I. 3 Hours.

This course emphasizes efforts established to enhance the nation's capability to prevent, prepare for, respond to, mitigate, and recover from critical domestic incidents. Utilizing the all-hazard approach against natural, human-induced, and technological crises, this course highlights integration processes in command and control, planning, interoperable communications, community preparedness and participation, resource assessment, intelligence and information sharing, mutual aid systems, and interagency coordination in crisis. In this course, post 9/11 era threats and hazards are analyzed within a framework of resilience building at tribal and local community level.

SCST 5335. Global Perspectives in Homeland Security. 3 Hours.

Course will focus on meeting the changing demands of security in a global environment. Discussion emphasizing the understanding of how to design, implement, and intergrate the security function in an ever-changing world and the impact of major economic, demographic, and technological trends on developing strategies for security innovation and growth. Course Equivalents: CRIJ 5335 .

SCST 5336. Law and Ethics in Homeland Security. 3 Hours.

Focus will be on how the law impacts security in many diverse ways. Discussion will emphasize the concept of criminal intent, early criminal law and the emergence of law enforcement and private security, the difference between public policing and private security, and an overview of legal terms and issues with which the security manager must address. Course Equivalents: CRIJ 5336 .

SCST 5338. Security and Management. 3 Hours.

Students focus on managing the security organization and its human resources. Discussion and on results-oriented security management, the basic foundations of security, the importance of technology, and specialized security applications are addressed. Course Equivalents: CRIJ 5388

Prerequisite: Three hours of graduate-level Security Studies.

SCST 5339. Foundations of Homeland Security. 3 Hours.

Students focus on philosophies, tactics, and targets of terrorist groups, discussion of emerging terrorism trends and the roles of the private sector, and U.S. Government in responding to and preventing terrorism. Students also gain insight on how terrorism influences U.S. Foreign Policy. Course Equivalents: CRIJ 5339 .

SCST 5340. Intelligence and Counterintelligence in National Security. 3 Hours.

Students focus on the roles of various national intelligence collection platforms and intelligence analysis, how national policy makers utilize intelligence, and Congress' oversight role. Counterintelligence is introduced as an example of an external threat to homeland security. Course Equivalents: CRIJ 5340 .

SCST 5341. Principles of Intelligence Analysis. 3 Hours.

Students focus on new and alternative methods for conducting intelligence analysis as well as examine how analysis contributes to the overall understanding of intelligence and formulation of US national security policy. Analytic modeling techniques and the psychology of analysis in terms of analytic biases are covered. Credit 3. Course Equivalents: CRIJ 5341 .

SCST 5342. Law Enforcement Intelligence and Crime Analysis. 3 Hours.

This course foundation is the diversity of mission and roles of crime analysts at the local, state and federal levels. Traditional crime analysis functions are reviewed, including temporal and spatial plots, linking modus operandi, and crime distribution forecasting. Additionally, the dynamics of both terrorist and criminal intelligence functions are emphasized, including database linkages, role of Federal Data Fusion Centers, the National Information Sharing infrastructure, and the elements of systematic threat assessment. Course Equivalents: CRIJ 5342.

SCST 5344. Unconventional Threats. 3 Hours.

This course will focus on a range of threats (some of which exist and some of which are emerging) that impact, or are likely to impact, homeland security in significant ways. These threats will be addressed within the framework of three categories of threats based, respectively, on direct human action, technology, and the environment. Topics to be addressed will include: 1) terrorism, destabilizing crime, mass global migration (human-based threats); 2. cyber threats, engineered biological threats, nuclear warfare, and global supply chain vulnerabilities (technology-based threats); 3: limitations on access to natural resources, climate change, novel diseases, and food security (environmental-based threats).

Prerequisite: SCST 5339.

SCST 5346. Information and Intelligence Management. 3 Hours.

This course explores interoperability, data fusion, and integrative decision making protocols and systems for Homeland Security information and intelligence sharing in the overarching process of managing the flow of information and intelligence across all levels and sectors of government and the private sector. The content to support the rapid identification of emerging terrorism-related threats and other circumstances requiring intervention by government and private sector authorities.

SCST 5348. Critical Infrastructure Protection. 3 Hours.

This course provides an overview of the policy, strategy, and practical application of critical infrastructure security and resilience from the All-Hazards perspective. Students explore challenges and opportunities associated with: infrastructure-related public-private partnerships, information sharing, risk analysis and prioritization, risk mitigation, performance metrics, program management, incident management, and investing for the future.

SCST 5396. Research Methods - Homeland Security Studies. 3 Hours.

This course builds student competencies in key research philosophies, principles, and techniques which will enable successful design and implementation of research relevant to the field. Students will be exposed to various ways of managing, analyzing, and displaying data. The course will prepare students to establish an applied research portfolio and to compose and submit an applied research project to a journal or conference in Homeland Security.

SCST 6093. Independent Studies in Criminal Justice. 1-3 Hours.

This course is designed to give students flexibility to pursue study of a topic under the supervision of a faculty member where the topic will be studied more deeply than in a traditional course or where there are no available courses on the topic. Credit 1-3.

Prerequisite: Approval of the Department Chair and the instructor directing the readings.

SCST 6099. Thesis. 1-3 Hours.

This course encompasses completion and defense of the Thesis. (Student must be registered in SCST 6099 for the semester in which they receive the MS in Homeland Security degree.) Variable Credit (1-3).

Prerequisite: SCST 6398.

SCST 6320. Emergency Management Integration II. 3 Hours.

This course highlights the coordination and support of federal, territorial, state, regional, tribal and local efforts and resources used for complex incidents such as terrorist attacks, major disasters, or other high security and high consequence events. Specifically, federal coordinating structures, federal resource requests and deployment strategies, and regulations pertaining to federal assistance will be discussed. The role, function, and activation of federal operation centers, state level emergency operation centers, county emergency operation centers, as well as Multiagency Assistance Compacts (MACs) in support of tribal and local emergency response efforts will be analyzed.

Prerequisite: SCST 5320.

SCST 6360. Leadership in Homeland Security and Emergency Management. 3 Hours.

Students examine the complexity of leadership in crises. They discern between decision-making models in naturalistic settings and evaluate cases and scenarios that highlight characteristics of successful leaders in events with high consequence outcomes. Students analyze organizational, political, and socio-cultural interdependencies that influence leadership in Homeland Security and Emergency Management (HSEM) settings and acquire strategies on how to reduce security risks through adoption of various decision support systems.

Prerequisite: SCST 5344.

SCST 6362. Critical Infrastructure Risk Management. 3 Hours.

This course addresses the complexities of critical infrastructure security and resilience from a "system-of-systems" perspective. Students explore the notion of a system and how it applies to explicate how our critical infrastructures function and how they can fail or perform less than optimally under stress. The learner is provided with tools to uncover and manage risks affecting systems.

Prerequisite: SCST 5348.

SCST 6364. Cybersecurity. 3 Hours.

This course focuses on policy, strategy, and the operational environment of cyberspace in the context of critical infrastructure security and resilience. Topics include: challenges presented by the 21st century risk environment, cyber-risk analysis and prioritization, government-private cybersecurity partnerships, and future cyber risks.

Prerequisite: SCST 5348.

SCST 6365. Doctrine and Praxis in Homeland Security. 3 Hours.

This is a capstone experience research project containing a portfolio of reflexive elements on Homeland Security Doctrine, as well as an applied research product exploring contemporary topics in Homeland Security Studies of relevance to students' professional practice. The research product will reflect scholarship standards making it suitable for future presentation at a professional Homeland Security conference, symposium, or workshop. Credit 3

Prerequisite: SCST 5396.

SCST 6370. Internship in Security Studies. 3 Hours.

This course is designed to provide students with an opportunity to synthesize theory and practice. It requires a placement of a minimum of three months at 40 hours per week in an approved criminal justice, critical infrastructure, or private security setting.

Prerequisite: Consent of the Department Chair or Internship Director.

SCST 6394. Special Topics in Security Studies. 3 Hours.

This course offers students the opportunities for structured coursework on emergent issues or other topics for which courses do not exist in the course catalog.

SCST 6398. Thesis Practicum. 3 Hours.

This course encompasses an overview of research strategies; principles of research writing; and procedures for initiating, executing and completing a thesis. The course culminates in the preparation and approval of a prospectus.

Prerequisite: 12 semester credit hours of graduate work.

Sociology (SOCI)

SOCI 5099. Graduate Readings in Sociology. 1-3 Hours.

Students pursue an independent study of subjects not covered in the regular graduate curricula. Topics may cover special subject matter related to a thesis. Variable Credit (1-3). Course Equivalents: SOCI 5399

Prerequisite: Graduate standing or consent of instructor.

SOCI 5100. Proseminar in Sociology. 1 Hour.

Students prepare for graduate studies in sociology and are provided with the tools and resources to be successful graduate students.

Prerequisite: Graduate Standing.

SOCI 5310. Seminar In Sociological Theory. 3 Hours.

Students study the most significant 19th and 20th century developments in sociology with emphasis placed on the relevance of classic sociological theory in the formation and development of contemporary sociological theory. Students explore the characteristics and origins of many major sociological schools of thought (e.g., Neo-Marxism, Critical Theory, Interactionism, Functionalism and Postmodernism) and accounts of these paradigms are presented together with their theoretical ramifications.

Prerequisite: Graduate standing or consent of instructor.

SOCI 5312. Seminar in Sociological Research. 3 Hours.

Students examine the advanced study of logic, principles, and procedures involving techniques of design data collection and organization, analyses and interpretation for qualitative and quantitative sociological research.

Prerequisite: Graduate standing or consent of instructor.

SOCI 5313. Qualitative Methods. 3 Hours.

Students study a wide range of qualitative sociological methods (e.g., in-depth interviews, participant observation, and content analyses) and gain many practical skills such as collecting and analyzing data and writing qualitative research.

SOCI 5314. Social Statistics. 3 Hours.

Students develop mastery of various statistical techniques used to analyze survey data (e.g. descriptive and inferential statistics, cross tabulation, ANOVA, correlation and regression). Students learn the logic, interpretation, and assumptions of each statistical model with an additional emphasis on the application of these techniques. Course Equivalents: SOCI 5414

Prerequisite: Graduate standing or consent of instructor.

SOCI 5319. Sociology of Entrepreneurship. 3 Hours.

Students examine the role of the entrepreneur in modern society and ways modern society influences entrepreneurship in communities, regions, and nations. Topics may include entrepreneurial risk, opportunity, innovation, and social entrepreneurship, and students will critically examine how entrepreneurial behavior changes across social boundaries like race, gender, and culture.

Prerequisite: Graduate Standing.

SOCI 5320. Sociology of Community. 3 Hours.

Students study the organization, structures, groups and interaction pertaining to communities. Students examine social forces within communities, patterns of change and the relationship with society and are introduced to alternative theoretical perspectives for analyzing community as well as views on the current conditions and future perspectives of communities in the United States and in other regions of the world.

Prerequisite: Graduate standing or consent of instructor.

SOCI 5321. Cultural Sociology. 3 Hours.

Students examine culture from the sociological perspective and consider both classic and modern theories of culture. Students also review major sociological methods of cultural analysis, the application of theories, and the analysis of socio-cultural phenomena.

SOCI 5322. Seminar In Medical Sociology. 3 Hours.

This course provides graduate students with the conceptual and substantive knowledge of the field of medical sociology. The course focuses on salient sociological issues in health and medicine, such as the social construction of health and illness, social inequalities in health and health care, medicalization, the health profession, the health care system, and bioethics. Special attention is paid to the roles of social, cultural, and institutional factors in understanding health and health care issues in the United States and in other countries.

Prerequisite: Graduate Standing.

SOCI 5324. Seminar in Social Change and Development. 3 Hours.

Students examine a variety of theories of development that explain how and why inequality between and within nations is produced and reproduced. Students learn to think critically about the impacts of the development and globalization process, as well as neoliberalization and free trade, on people and environments throughout the world. Students explore strategies that may contribute to the construction of a world that is more equitable, socially just, and environmentally sustainable than the current one.

Prerequisite: Graduate standing or consent of instructor.

SOCI 5325. Seminar in Food and Society. 3 Hours.

Students examine the production, distribution, and consumption of food from a sociological perspective with a particular focus on the analysis of the contemporary food systems. Students learn to critically analyze issues surrounding food and society through a sociological lens.

SOCI 5331. Sociology of The Family. 3 Hours.

Students explore the family as a social institution and examine functional, critical, and interactionist approaches to the family. Topics may include historical shifts in the institution and interpersonal dynamics within families.

Prerequisite: Graduate standing or consent of instructor.

SOCI 5333. Sociology of Religion. 3 Hours.

Students examine how religion operates in non-industrial and industrial societies using a cross-cultural perspective. Topics may include religious beliefs, religious rituals, group religious experience, and the religious community.

Prerequisite: Graduate standing or consent of instructor.

SOCI 5337. Gender and Society. 3 Hours.

Students consider the social construction of gender and obtain a framework to critically examine how it operates in society. Students examine how gender is linked with inequality in the United States.

SOCI 5338. Sociology of Disasters. 3 Hours.

Students apply sociological analyses to the investigation of disasters and examine disasters in terms of their origins and social impacts. The course may also explore the social dynamics that create risk of, and vulnerability to, disasters.

SOCI 5350. The Community Practitioner. 3 Hours.

Students examine the role of a community development practitioner and investigate theories and techniques used in the field to build community and create long-lasting social and institutional change. Students evaluate "best practices" and their impact on community policy.

Prerequisite: SOCI 5320.

SOCI 5351. Seminar in Environmental Sociology. 3 Hours.

Students gain a thorough background in the major theoretical perspectives regarding environmental sociology, which enables them to view environmental issues from alternative positions and to formulate possible solutions to contemporary environmental problems. Additional topics may include the social construction of the environment and on environmental problems and solutions.

SOCI 5353. Seminar in Race And Ethnic Studies. 3 Hours.

Students obtain an in-depth examination and critique of important monographs and journal literature dealing with the social life of American minorities. Topics may consider, ideologies, inequality, structural forces and changes characteristic of the social life of comparative minority groups. Students identify sociological propositions reflected in the discerned patterns of interaction in selected institutions in contemporary American society.

Prerequisite: Graduate standing or consent of instructor.

SOCI 5355. Seminar in Social Inequality. 3 Hours.

Students examine contemporary class, status and power hierarchies using both contemporary and classical social theory of inequality. Students engage with empirical research pertaining to placement in these hierarchies on the basis of birth-achieved statuses such as sex, race, and class origin.

SOCI 5376. Applied Research Methods. 3 Hours.

Students apply the methodological concepts that were learned in SOCI 5312 to propose empirical analyses of social problems. Specific topics may consider sample selection and unit of analysis, types of data collection, and analytical techniques.

Prerequisite: Graduate standing or consent of instructor.

SOCI 5378. Techniques of Research Proposal Writing in Social Sciences. 3 Hours.

Students obtain a critical understanding of the principal technical and theoretical skills necessary for the development of research projects in the social sciences and research grant writing. Students investigate the primary assumptions of qualitative and quantitative research and consider their scopes and limits. Topics may include epistemological characteristics of major paradigms in the social sciences, analytical techniques necessary for the preparation of research proposals, identification of research questions, development of justifications, and the development of analytic designs.

SOCI 5380. Social Impact Assessment and Program Evaluation. 3 Hours.

Students gain an overview of the field of social impact assessment and program evaluation and are exposed to hands-on experience through a practical case study. Specific topics may include basic knowledge, as well as technical skills, related to conducting a social impact assessment and program evaluation.

SOCI 5384. Seminar in Economy and Society. 3 Hours.

Students examine the effects of economic change on the organization of society and social relations. Topics may include the consequences of globalization and neoliberalization.

Prerequisite: SOCI 5310.

SOCI 5386. The Sociology of Aging. 3 Hours.

Students explore sociological theories of aging from historical, demographic, comparative, social psychological and structural perspectives. Students also examine contemporary social problems facing older adults. Additional topics may consider similarities and differences across, gender, race/ethnicity, and social class using the life course perspective.

SOCI 6098. Thesis Practicum. 1-3 Hours.

Students successfully develop a Thesis Prospectus and select a thesis committee. Variable Credit (1-3). Course Equivalents: SOCI 6398 .

SOCI 6099. Thesis. 1-3 Hours.

Students complete and successfully defend their Thesis. The student must be enrolled in SOCI 6099 during the semester in which the master's degree is to be completed. Variable Credit (1-3). Course Equivalents: SOCI 6399 .

SOCI 6360. Seminar In Sociology. 3 Hours.

Students examine a substantive area and/or sociologically significant issue not covered in other departmental offerings. Topics may be influenced by current innovations in the field or significant world events. May be repeated.

Prerequisite: Graduate standing or consent of instructor.

Spanish (SPAN)

SPAN 5060. Special Topics in Spanish. 1-3 Hours.

Students examine Hispanic culture, including the US Latino population. Topics vary and may include specific authors, themes, literary genres, and/or sociopolitical issues. The course may be repeated for credit as content varies. Variable Credit (1 to 3).

Prerequisite: Graduate status in Spanish.

SPAN 5331. Seminar in Comparative Spanish Art and Culture. 3 Hours.

Students conduct an in-depth comparison of cultural representations, both visual and aural, across the Hispanic world. Topics vary from semester to semester. The course may be repeated for credit as content varies. Students develop Spanish language ability and cultural consciousness.

Prerequisite: Graduate status in Spanish.

SPAN 5332. Spanish Golden Age Literature. 3 Hours.

Students conduct an in-depth study of the Spanish Golden Age (1500-1700), including authors, works, and concepts (e.g., Renaissance, Baroque, Picaresque). Topics may include poetry, plays, and other genres of the era.

Prerequisite: Graduate Status in Spanish.

SPAN 5333. Spanish American Literature: Pre-European to Independence. 3 Hours.

Students examine the literary cultures of Spanish America from the Colonial to the Post-Colonial period (end of the 19th century). Topics may include national literatures, cultural backgrounds, ethnic, linguistic, and identity issues.

Prerequisite: Graduate Status in Spanish.

SPAN 5334. Contemporary Spanish American Literature. 3 Hours.

Students examine the literary expressions of various Hispanic cultures during the 20th century and beyond including the U.S. Latino experience. Topics may include authors, themes, artistic/literary genres or contemporary social and political issues.

Prerequisite: Graduate Status in Spanish.

SPAN 5336. Hispanic Women's Studies. 3 Hours.

Students examine Hispanic women's literature and art. Students interpret, evaluate, and respond to a variety of genres within this topic.

Prerequisite: Graduate status in Spanish.

SPAN 5337. Literature Analysis and Research Methods. 3 Hours.

Students enhance their literary consciousness and capability through reading and discussion. They develop familiarity with and appreciation for Hispanic literature while increasing their ability to interpret and evaluate cultural products. Students practice analytical and interpretive skills to conduct independent research for scholarly presentations and publications.

Prerequisite: Graduate Status in Spanish.

SPAN 5338. Second Language Teaching and Methods. 3 Hours.

Students evaluate second language acquisition theories to understand their relationship to effective teaching with a focus on language skills (listening, speaking, reading, writing, and cultural awareness). Emphasis is given to the evaluation of language based on state and federal guidelines.

Prerequisite: Graduate Status in Spanish.

SPAN 5361. The Structure of Spanish. 3 Hours.

Students broadly examine the linguistic structure of Spanish. Topics may include phonetics/phonology, morphology, syntax, semantics, and pragmatics of the Spanish language.

Prerequisite: Graduate Status in Spanish.

SPAN 5370. History of Spanish Language. 3 Hours.

Students discover the history of the Spanish language over the last two millennia. Topics may include the formal development of Spanish phonology, morphology, syntax, and semantics.

Prerequisite: Graduate Status in Spanish.

SPAN 5371. Contemporary Spanish Literature. 3 Hours.

Students conduct an in-depth study of the major authors, works (including films), and aesthetic currents of Spanish literature beginning with the 20th century. Texts are studied from a variety of theoretical approaches.

Prerequisite: Graduate Status in Spanish.

SPAN 5372. Spanish for Technical Composition. 3 Hours.

Students study forms of exposition, including narration, to develop competency for clear and effective technical writing for various professions including health, law, criminal justice, education, science, technology, literature and business.

Prerequisite: Graduate Status in Spanish.

SPAN 5373. Theories and Practices of Translation and Interpretation. 3 Hours.

Students are trained in the cognitive processes and language skills required to translate and interpret written or audiovisual texts.

Prerequisite: Graduate Status in Spanish.

SPAN 5374. Studies in Spanish Linguistics. 3 Hours.

Students apply Spanish linguistics principles. Topics vary and may include phonology, morphology, syntax, semantics, and pragmatics. Related topics may include specific approaches to language variation, bilingualism, and language acquisition. The course may be repeated for credit as content varies.

Prerequisite: Graduate status in Spanish.

Special Education (SPED)

SPED 5301. Education of Individuals with Disabilities. 3 Hours.

This course provides an introduction to the strengths and needs of persons with disabilities, with implications for identification and educational programming for regular and special educators. Legislation and case law addressing the rights of individuals with disabilities are discussed.

SPED 5302. Assessment in Special Education. 3 Hours.

This course addresses basic measurement principles, formal and informal assessment, and the connection of assessment to instruction. Students gain experience with diagnostic tools for assessing achievement, social behavior, adaptive behavior, language, and perceptual-motor skills.

SPED 5303. Study of Cognitive and Low Incidence Disabilities. 3 Hours.

This course is designed to provide an in-depth study of the strengths and needs of persons with intellectual disabilities and other low-incidence disabilities. Topics addressed include etiology, family partnerships, educational needs, inclusive programming, and transition issues across the lifespan.

SPED 5304. Teaching Methods for Learners with Mild to Moderate Disab. 3 Hours.

Course content centers upon a rationale for instruction of students with mild to moderate disabilities. Research-based assessment and instructional strategies are presented.

SPED 5305. Individual Assessment of Cognitive Functioning. 3 Hours.

This course is designed to acquaint students with the theory, problems, ethical standards, and techniques of administering individual tests of intelligence. Specifically, each student will learn to administer, score, and interpret the various cognitive assessments.

SPED 5306. Transition Services for Individuals with Disabilities. 3 Hours.

Students study current issues and practices related to transition services to address post-school outcomes in education and training, employment, and independent living. Course content and activities focus on transition program models, federal requirements for transition services, evidence-based practices and predictors for positive post-school transition outcomes, integrating transition into academics, and self-determination.

SPED 5307. Transition Assessment and Instruction. 3 Hours.

Students study the secondary transition assessment process for learners with disabilities including formal and informal transition assessments, functional vocational evaluations, and person- and family- centered planning. Transition assessment models for elementary, secondary, and 18-21 adult programs are addressed.

SPED 5308. Career Development & Employment for Youth with Disabilities. 3 Hours.

Students learn theories, practices, methods, and processes of career development and employment for youth and young adults with disabilities. Students gain knowledge and skills in career development techniques, work-based learning, collaboration with vocational rehabilitation, data collection for decision-making within special education transition programming designed to lead to employment.

SPED 5309. Leadership in Transition Services. 3 Hours.

Students study the role of secondary transition professionals. Topics addressed include collaboration, communication, leadership, conflict resolution, consultative skills, legislation and policy advocacy, state and national resources and organizations, grants for transition programming, and developing programs and relationships in the school district and community. A minimum of one field-based project will be implemented to bridge classroom theory to field-based practice.

SPED 6016. Workshop in Education. 1-3 Hours.

The topic(s) included will vary with academic program and semester offered. Variable Credit (1-3). Course Equivalents: SPED 6316 .

SPED 6088. Special Topics in Special Education. 3 Hours.

This course will examine special topics in the field of Special Education. / This course will examine special topics in the field of Special Education. / This course is designed for independent study of selected topics under the supervision of a faculty member. Variable Credit (1-3.)

SPED 6089. Independent Study in Special Education. 1-3 Hours.

This is a course designed for independent study of selected topics under the supervision of a faculty member. Variable Credit (1-3).

Prerequisite: Consent of Department Chair.

SPED 6301. Applied Behavior Analysis. 3 Hours.

This course presents basic principles, processes, and concepts in Applied Behavior Analysis. Applied project required.

SPED 6302. Seminar In Autism Spectrum Disorders. 3 Hours.

The course provides an overview of autism spectrum disorders, identification and etiology, and research-based programs and services for students identified with disabilities within the spectrum of autism.

SPED 6303. Behavioral Intervention and Change Procedures. 3 Hours.

This course presents an in-depth study of basic principles of Applied Behavior Analysis, behavioral interventions, and ethical considerations in applied settings.

Prerequisite: SPED 6301 .

SPED 6304. In-Home Training and Family Issues. 3 Hours.

This course has a focus on the diverse needs of children and families with exceptionalities. The course covers the interplay of diverse cultures, abilities, and communication within a context of professional collaboration.

SPED 6305. Study of Behavior Disorders in Children. 3 Hours.

This course focuses on theories, characteristics, and instruction for students with mild, moderate, and severe emotional and behavioral disorders. Issues involving definition, classification, and intervention for such disorders as aggression, autism, depression, and delinquency will be addressed.

SPED 6306. Evaluation and Measurement of Behavior. 3 Hours.

This course addresses ethical issues in research, single-subject experimental design, descriptive statistics, visual analysis, and interpretation of data. A research project is required.

SPED 6307. Behavioral Assessment Issues and Procedures. 3 Hours.

This course presents methods and procedures of Applied Behavior Analysis including antecedent manipulations, consequence manipulations, and teaching functionally equivalent responses. Behavior Analytic methods and curriculum for the education and treatment of children with disabilities will be emphasized. Ethics for behavioral intervention will be presented. Demonstration of behavioral methods and strategies required.

Prerequisite: SPED 6303.

SPED 6308. Practicum 1. 3 Hours.

Students gain direct experience in the use of curriculum, methods, and materials for learners with special needs. Additional topics include assessment, modifications, adaptations, learning strategies, direct instruction and collaboration.

SPED 6309. Internship. 3 Hours.

Students in the internship develop and implement multiple Behavior Analytic programs in applied settings under the supervision of a Board Certified Behavior Analyst.

Prerequisite: SPED 6303, SPED 6306 and SPED 6307.

SPED 6310. Assessment of Young Children and Low Incidence Populations. 3 Hours.

This course provides instruction and practice in administration, scoring, interpretation, and reporting results of individual tests and assessments for young children, individuals with intellectual disabilities and persons with low-incidence disabilities. Informal techniques such as play-based assessment, portfolio assessment, and contextual assessment are presented.

SPED 6311. Seminar in Special Education. 3 Hours.

This course prepares students for the role of the educational diagnostician. Topics addressed include special education law, consultation and collaboration, second language learners with special needs, and research-based best practices in special education.

SPED 6312. Practicum 2. 3 Hours.

This course provides a field-based practicum under the direction of a certified educational diagnostician. It is designed to provide intensive study in the role of the educational diagnostician.

SPED 6313. Seminar in Language and Learning Disabilities. 3 Hours.

This course presents a study of the research and professional literature related to language and learning disabilities. An overview of math disabilities is also presented.

SPED 6314. Thesis I: Research Methods in Behavioral Analysis. 3 Hours.

Students conduct a literature review and develop a Behavior Analytic research proposal according to APA style for their masters thesis.

SPED 6315. Thesis II. 3 Hours.

Students collect and analyze experimental data and defend their research thesis.

Prerequisite: Admission to Candidacy, SPED 6314.

SPED 6317. Applied Research In Special Education. 3 Hours.

Current research issues in special education will be discussed, with emphasis on research in behavior analysis. Students will conduct an experimental research project, collect and analyze data, and present results. Students will also present research related to experimental project.

Prerequisite: SPED 6314.

SPED 6318. Ethics for Behavior Analysts. 3 Hours.

This course provides students with knowledge and skills to apply ethical standards to guide their professional practices as behavior analysts. Ethical standards and guidelines of professional organizations or agencies are presented, with in-depth study of the standards of Association for Behavior Analysis International (ABAI), Association of Professional Behavior Analysts (APBA), and the Behavior Analyst Certification Board (BACB).

Prerequisite: Admission to graduate studies.

SPED 6319. Bilingual Cognitive Assessment. 3 Hours.

This course provides students with the theory base, knowledge of current issues, and techniques of administering individual tests of cognitive ability. Emphasis is placed on assessment of dual-language individuals in a valid and ethical manner. Each student will learn to administer, score, and interpret current cognitive assessment data that are conducted in English and Spanish.

Prerequisite: SPED 5302 and approval of instructor.

SPED 6321. Outcomes in Behavioral Interventions. 3 Hours.

This course focuses on research-based strategies for improving outcomes in student behavior. Essential principles of the course include ethical conduct, functional behavior assessment, behavior analysis, data collection, and specifically designed research-based classroom interventions.

SPED 6322. Bilingual Special Education Assessment. 3 Hours.

This course addresses measurement principles, formal and informal assessment, and connecting assessment to instruction. Students gain experience with assessment of achievement skills in Spanish and English, social behavior, adaptive behavior, and perceptual-motor skills for English Language Learners (ELLs) to determine eligibility in Special Education.

SPED 6328. Practicum in Behavior Analysis. 3 Hours.

In this course students gain direct experience in the use of behavioral principles, methods, and materials for learners with and without special needs while under the direct supervision of a Board Certified Behavior Analyst (BCBA).

Prerequisite: SPED 6307.

SPED 6329. Personnel Supervision in Applied Behavior Analysis (ABA). 3 Hours.

Students examine practices and develop competencies in assessing supervisee skills, training personnel, and evaluating the effects of supervision. This course also focuses on the managerial responsibilities associated with supervising therapist who deliver interventions based on ABA principles. It covers performance analysis and management, staff training, behavioral systems analysis, organizational culture, and leadership.

SPED 6331. Advanced Concepts and Principles in ABA. 3 Hours.

Students examine advanced principles, processes, and concepts in Applied Behavior Analysis (ABA). Students are provided with an overview of the philosophical underpinnings of ABA and an in-depth study of human behavior from a radical behaviorist perspective.

SPED 6332. Experimental Analysis of Behavior. 3 Hours.

Students examine how principles of behavior are discovered and described in the context of experimental research. The course provides a comprehensive conceptualization of learning with humans and animals.

SPED 7088. Special Topics in Special Education. 3 Hours.

This course will examine special topics in the field of Special Education. / This course will examine special topics in the field of Special Education. / This course is designed for independent study of selected topics under the supervision of a faculty member.

SPED 7089. Independent Study in Special Education. 1-3 Hours.

This course will examine special topics in the field of Special Education. / This course will examine special topics in the field of Special Education. / This course is designed for independent study of selected topics under the supervision of a faculty member. Variable Credit (1-3.)

SPED 7101. Doctoral Seminar in Special Education. 1 Hour.

Candidates will demonstrate their knowledge of real problems and needs in both national and local special education programs and policies. Identification of existing research problems and an action plan for implementation will be required.

Prerequisite: Admission to the Ed.D. Program in Special Education.

SPED 7301. Instructional Practices in Special Education. 3 Hours.

Course content examines research-based programs and practices in academics, literacy, math, and behavior which is designed to document student learning under conditions of intensive, research-based instruction, including universal design. Response to Intervention programs will be included as part of a directed effort to meet the educational needs of students at a pre-referral phase. Family partnerships and collaboration with internal and external stakeholders are emphasized. Research-based practices in promoting student self-determination and independent functioning are emphasized.

SPED 7302. Legal Issues and Policies in Special Education. 3 Hours.

This course covers the major laws and policies affecting individuals with exceptionalities. The current body of research and literature in legal issues is emphasized.

Prerequisite: Admission to the Ed.D. program in Special Education.

SPED 7303. Functional and Curriculum-Based Assessment. 3 Hours.

Research and practice in the dynamics and critical decisions involving functional and curriculum-based assessment systems are covered. The relationship between interventions and assessment findings will be focused upon in both academic and behavioral contexts. Candidates will demonstrate proficiency in creating high quality Individualized Educational Programs (IEP) and Behavioral Support Plans (BSP).

Prerequisite: SPED 7302.

SPED 7304. Program Evaluation in Special Education. 3 Hours.

Course content will be devoted to the evaluation of the learning environments that foster student engagement and academic success, prevention of behavior problems, and recognition of diversity. Examination of theories, models, issues, and practices in conducting evaluations of special education programs will be emphasized. The promotion of continuous improvement of school programs and services along with lifelong professional growth for educators are designated course outcomes. School wide reform processes and procedures will be presented.

Prerequisite: SPED 7302.

SPED 7305. Personnel Preparation and Collaboration. 3 Hours.

The content and experiences provided in this course are directed toward the preparation and ongoing professional development of special education personnel in varied roles. Candidates will examine and apply practices and competencies that support and promote ethical and professional behaviors and value continuing professional growth and development. **Prerequisite:** SPED 7302.

SPED 7306. Small N Designs in Educational Research. 3 Hours.

This course addresses the rationale, logic, and methodology of single subject and small n research designs. Students will practice graphing data and conducting visual analysis. Students will read original research demonstrating single subject designs and will prepare research proposals using small N research designs.

Prerequisite: SPED 7302.

SPED 7316. Independent Research in Special Education. 3 Hours.

This course will provide doctoral students an opportunity to engage in detailed and in-depth research study of a program or issue in special education. Students will work under the supervision of a doctoral faculty member in special education and will produce a written product presentation.

Prerequisite: Admission to doctoral studies and departmental approval.

Sport Management (SPMT)

SPMT 5334. Sport Management Internship I. 3 Hours.

Students engage in an internship experience in a sport industry setting. Supervisory assistance by project staff occurs at frequent intervals. Students complete 200 hours of internship experience, which fulfills the first half of the 400-hour internship requirement.

Prerequisite: Department Approval and Graduate Standing.

SPMT 5335. Sport Management Internship II. 3 Hours.

Students complete 200 hours of an internship experience, which fulfills the second half of the 400-hour internship requirement. Students gain experience in a new setting or delve deeper into the experiences gained in SPMT 5334.

Prerequisite: Department Approval and Graduate Standing.

SPMT 5362. Legal Issues in Sports. 3 Hours.

Students examine legal factors affecting Physical Education, amateur athletics, and professional sport. Their analysis involve teachers, coaches, officials, spectators, medical personnel, owners of sports teams, and commercial suppliers of equipment and products used within an activity setting. Course Equivalents: KINE 5362 .

SPMT 5363. Leadership in Sport Management. 3 Hours.

This course is designed for the individual who will assume some type of supervisory position in health promotion or sport management. The course's focal point involves exposure to administrative skills required of those who serve in a leadership capacity. Course Equivalents: KINE 5363 .

SPMT 5370. Sport Marketing: Theory and Practice. 3 Hours.

Students cover the essentials of sport marketing which includes planning, promotions, operations, and market analysis. The fundamental principles used in the marketing of sport, products, events, and the importance of service quality will also be examined. Students are exposed to the latest research in the field and will interact with industry professionals. Course Equivalents: KINE 5370 .

SPMT 5371. Sport Finance and Sales. 3 Hours.

Students learn financial concepts associated with franchise operations, stadium funding proposals, budgets, and bond referendums. In addition, franchise revenue streams are discussed in detail. Students are exposed to a variety of different sales strategies and tactics that can be applied to the sport industry and are also exposed to the latest research and professional trends in the field. Course Equivalents: KINE 5371 .

SPMT 5373. Event & Facility Management. 3 Hours.

Students examine the practical application of the principles and theory related to planning, organization, and execution of sport. In addition, entertainment events are addressed. Fund raising and charity management are considered, as will the management of small and large scale facilities and event venues. Site visits and interactions with local sport organizations also take place. Course Equivalents: KINE 5373 .

SPMT 5374. Applied Research Methods in Sport Management. 3 Hours.

Students study research techniques, identification of problems, research designs, survey procedures, and data gathering procedures as they apply to sport industry settings. In addition, students develop a proposal for a research project.

Prerequisite: Graduate Standing.

SPMT 5380. Ethics in Sport Management. 3 Hours.

Students examine ethical theory and moral decision making as related to the management of sport. Graduate students review research findings and current literature relevant to issues affecting concepts of ethics and morality in the management of sport. Through introspection, students develop and express their philosophy toward ethics and morality. Course Equivalents: KINE 5380 .

SPMT 5382. Community and Media Relations in Sport. 3 Hours.

Students engage in an intensive study of media in sport management addressing community relations, press conferences, news releases, media-athlete relations, print journalism, television contracts, web-based content and public relations. Emphasis is placed on media management, athlete representation, and crisis management with the goal of positively representing organizational interests. Course Equivalents: KINE 5382 .

SPMT 5383. Sport Consumer Behavior. 3 Hours.

Students investigate sport consumer psychology and sport consumer behavioral patterns. An understanding of both sport spectator and sport participant consumption behaviors, with marketing and event management implications is emphasized. Students apply these concepts in advanced sport consumer marketing and sport event management scenarios. Course Equivalents: KINE 5383

Prerequisite: Graduate Standing.

SPMT 5384. Revenue Generation in Sport. 3 Hours.

Students develop an in-depth knowledge of how professional sport organizations and intercollegiate athletic departments generate the revenue needed to sustain successful business operations. Students focus on various strategies and execution methods related to sales, sponsorships, management, and marketing. Additionally, this course provides students with an opportunity to combine theory with practice. Course Equivalents: KINE 5384

Prerequisite: Graduate Standing.

SPMT 5387. Sport Analytics. 3 Hours.

Students engage in an applied study of sport analytics and its impact on the sport industry. Students also gather, classify, analyze, and interpret quantitative and qualitative data to arrive at better strategic decisions for sport organizations.

Prerequisite: Graduate Standing.

SPMT 6098. Sport Management Thesis I. 1-3 Hours.

Students complete a review of the related literature, formulation of the research design and procedures, and related pilot studies. Some data collection may be conducted and the thesis symposium must be completed to the satisfaction of the advisor and members of the thesis committee. Students must maintain continuous enrollment in this course until the thesis proposal is completed. Variable Credit (1 to 3).

Prerequisite: Either KINE 5374 or SPMT 5374; and Department Approval.

SPMT 6099. Sport Management Thesis II. 1-3 Hours.

Students complete data collection, final analysis, discussion of results, and a public defense of the thesis. Students must maintain continuous enrollment in this course until the thesis is completed. Variable Credit (1 to 3).

Prerequisite: Either KINE 5374 or SPMT 5374; and Department Approval.

Statistics (STAT)

STAT 5111. Software for Statistical Sciences. 1 Hour.

Topics include MINITAB, SAS, Maple and Scientific Workplace (or equivalents). This one-hour course is available for graduate students in all disciplines.

Prerequisite: STAT 3380 (or equivalent), graduate standing, and consent of instructor.

STAT 5333. Design and Analysis of Experiments. 3 Hours.

Topics include the design, analysis and interpretation of results from standard experimental design models including the completely randomized design, the randomized complete block, the incomplete block, factorial models, Latin squares, Greco-Latin squares, screening designs, fractional factorials, and general fixed, mixed and random effects ANOVA models.

Prerequisite: STAT 4372 (or equivalent).

STAT 5360. Special Topics In Statistics. 3 Hours.

Topics are selected from emerging areas in statistics that are not covered in regular courses. Such topics as data mining, statistical learning, pattern recognition, spatial statistics, statistical methods in finance, functional data analysis, life contingencies may be included. Also listed as MATH 5360.

Prerequisite: Consent of instructor.

STAT 5361. Theory and Application of Probability. 3 Hours.

Topics include probability axioms and properties, conditional probability, random variables, probability distributions, moment generating functions, laws of large numbers and the Central Limit Theorem. Also listed as MATH 5361.

Prerequisite: STAT 4372 (or equivalent) or consent of instructor.

STAT 5362. Theory and Application of Statistics. 3 Hours.

Topics include convergence in probability and distribution, point estimation, hypothesis testing, interval estimation, maximum likelihood methods, properties of estimators such as efficiency, sufficiency and completeness, exponential family of distributions, most powerful tests, uniformly most powerful tests, and likelihood ratio tests.

Prerequisite: STAT 5361 (or equivalent) or consent of instructor.

STAT 5364. Applied Multivariate Statistical Analysis. 3 Hours.

Topics include the multivariate normal distribution, inferences about a mean vector, comparisons of several multivariate means, principal components analysis, clustering, discriminant and classification analysis.

Prerequisite: STAT 4372 (or equivalent) or consent of instructor.

STAT 5365. Linear Statistical Models. 3 Hours.

Topics include the statistical properties of quadratic forms, the full-rank general linear statistical model, the less-than-full-rank model, the linear model structure of regression models, ANOVA models, ANCOVA models, the general characteristics of the fixed, mixed and random effects models and model diagnostics considerations.

Prerequisite: STAT 4372 or STAT 5362 (or equivalents).

STAT 5366. Sampling Methods. 3 Hours.

Topics include the theory and applications of standard methods for performing scientific-based sampling. Among these are simple random sampling, cluster sampling, stratified random sampling, systematic sampling, probability proportional to size (pps) sampling, sampling from finite populations and ratio regression estimation.

Prerequisite: STAT 4372, STAT 5362, or consent of instructor.

STAT 5367. Reliability Analysis and Quality Control. 3 Hours.

Topics include measures of failure, reliability functions, failure models, life testing and censoring, system reliability, parameter estimation and testing, control charting, acceptance sampling plans, software reliability and process control.

Prerequisite: STAT 4372, STAT 5362, or consent of instructor.

STAT 5368. Regression Modeling & Analysis. 3 Hours.

Topics include model estimation and testing, simple and multiple regression models, residual analysis, variables selection, polynomial regression, multicollinearity, ridge regression, logistic regression and real data analysis and applications.

Prerequisite: STAT 4372, STAT 5362, or consent of instructor.

STAT 5369. Statistical Computing and Consulting. 3 Hours.

This course consists of a detailed study of the SAS package including SAS/BASICS, SAS/STAT, SAS/GRAPH and SAS/IML with emphasis on applying these tools in a consulting environment. Techniques and principles important in working with representatives of user disciplines are included.

Prerequisite: STAT 3380 and graduate standing.

STAT 5370. Nonparametric Statistics. 3 Hours.

Topics include order statistics, contingency analysis, rank tests (Wilcoxin signed-rank test, Mann-Whitney U test and others), distribution-free tests of location and scale, nonparametric regression, Kendall's tau and related areas.

Prerequisite: STAT 4372 (or equivalent) or consent of instructor.

STAT 5375. Statistical Methods for Agriculture. 3 Hours.

This course explores applications of statistical methods for making interpretations of qualitative and quantitative data in agricultural research. Topics include sampling and randomization, correlation and regression, methods of inference for means and proportions, and design of experiments.

STAT 5390. Statistical Learning. 3 Hours.

Students learn essential modeling and prediction techniques and toolsets for classical and modern statistical learning and concentrate on their applications to statistical modeling and prediction problems. Particularly, students implement statistical learning models using well-established statistical software packages and tools in R, Python, and MATLAB, and analyze patterns and information discovered from target data. Topics may include linear regression, classification, resampling methods, shrinkage approaches, tree-based methods, support vector machines, clustering, deep learning, survival analysis, multiple testing, and recent research trends.

Prerequisite: Approval by the Graduate Advisor.

STAT 6060. Independent Study. 1-3 Hours.

Students research a subject in depth under the direct supervision of a faculty member with expertise in the particular area of study. The topic of study will be mutually selected and approved by the student and Statistics faculty member. Variable Credit (1 to 3).

Prerequisite: Consent of instructor.

STAT 6099. Research and Thesis. 1-3 Hours.

This course continues the thesis research and concludes with a carefully written solution of the thesis problem and a satisfactory oral presentation of the results. Study must be supervised by a member of the graduate statistics faculty. Variable Credit (1-3). Course Equivalents: STAT 6399

Prerequisite: STAT 6398.

STAT 6366. Applied Bayesian Analysis. 3 Hours.

This course presents Bayesian methods and their application to fields such as agriculture, biology, criminal justice and medicine. Topics include basic models that use the binomial, normal, poisson and gamma distributions; complex models that apply Markov Chain Monte Carlo methods like the Gibbs sampler and the Metropolis-Hastings algorithm; model selection and evaluation of model adequacy. Software current to the discipline will be used to analyze data.

Prerequisite: STAT 4372 or departmental approval.

STAT 6375. Biostatistics. 3 Hours.

This course consists of the topics related to statistical methods in biomedical studies: Types of biomedical study designs, assessment of risk factors, measure of disease-exposure association, logistic regression, analysis of count data, analysis of event-time data, and resampling methods.

Prerequisite: STAT 4372 or departmental approval.

STAT 6376. Time Series Analysis. 3 Hours.

This course presents both classical and modern approaches to time series analysis. Topics include autoregressive integrated moving average models, exponential smoothing models, and time series regression methods. Emphasis is placed on building time series models for forecasting.

Prerequisite: STAT 4372 or departmental approval.

STAT 6377. Introduction to Survival Analysis. 3 Hours.

Students explore both the theory and real-world applications of survival analysis in the biomedical and engineering fields. Topics may include nonparametric, semiparametric, and parametric survival methods, model diagnostics, and modern techniques for survival analysis methods. Statistical software such as SAS and R will be used to analyze data.

Prerequisite: STAT 5361 or approval of the instructor.

STAT 6378. Longitudinal Data Analysis. 3 Hours.

Students explore the statistical analysis of longitudinal data. This course focuses on modern statistical methods for longitudinal data and their applications in real world problems. Topics may include repeated measures, modeling longitudinal data, analysis of variance in repeated measures, population averaged models, linear mixed effect models, generalized estimating equations, and generalized linear mixed effect models. Statistical software such as SAS and R will be used extensively to analyze data.

Prerequisite: STAT 4372 (or equivalent) or approval of the instructor.

STAT 6380. Statistics Practicum. 3 Hours.

Students work on a specific research topic under a faculty member's supervision. The specific topic or problem will be chosen from current trends and future directions in statistics. Therefore, the course content varies based upon the topic that both the student and the mentoring faculty member choose. The practicum experience provides students the opportunity to apply and integrate knowledge acquired through coursework.

Prerequisite: Consent of instructor.

STAT 6398. Research And Thesis. 3 Hours.

This course includes a study of research methods in statistics, identification of an appropriate thesis problem and the preparatory work leading to a plan for its solution. Study must be supervised by a member of the graduate statistics faculty.

Prerequisite: STAT 5362.

STAT 7330. Statistical Design & Methods I. 3 Hours.**STAT 7331. Statistical Design and Methods II. 3 Hours.****STAT 7365. Statistical Methods for Decision Making. 3 Hours.**

Topics covered are oriented toward statistical methods supporting the decision environment. Topics include estimation, hypothesis testing, statistical modeling and decision methods.

Prerequisite: 3 Credit hour of graduate-level, introductory probability and statistics or the equivalent.

Sustainable Agriculture and Food Environment (SAFE)

SAFE 5311. Advanced Agriculture & Food Entrepreneurship. 3 Hours.

This course will examine the initiation of new ventures and growth of existing firms in sustainable agriculture and food production through opportunity recognition, innovation, and change. An emphasis will be placed on developing effective entrepreneurial skills and behaviors, and risk management for start-ups. The preparation of a structured business plan will be required.

SAFE 5312. Agriculture Sales and Communication. 3 Hours.

This course will include the application of economic, marketing, sales, and communication principles to small-scale, intensive agriculture including organics and natural products. A focus will be placed on finding a competitive niche through market segmentation/demography, market research, product choice and differentiation, product positioning and pricing, product outlets and advertising, selling strategies, and the use of current and emerging communication tools.

SAFE 5313. Agritourism. 3 Hours.

This course will present the variety and depth of agritourism/ecotourism practiced globally and cover aspects of the economics and organization of agritourism. Topics include agricultural economics, rural development, marketing, rural policy, products and services, and characteristics of agritourists.

SAFE 5331. Sustainable Energy & Resources. 3 Hours.

This course will focus on determining energy requirements of various sustainable agricultural operations. Available energy sources will be examined as alternatives for traditional sources provided by fossil fuel. Innovative and emerging on-site production technologies for environmentally sensitive energy will be investigated.

SAFE 5351. Agricultural Advocacy. 3 Hours.

This course will examine common issues facing agriculturists in relation to the production of a safe and abundant food supply. A primary focus will include small-scale and direct-marketing producers and the challenges they frequently encounter from industry opponents. Positive and factual promotional strategies will be explored. Social issues, political influences, and topics such as food safety and ethics, biotechnology, genetically modified organisms, and animal welfare will be addressed.

SAFE 5371. Alternative Agriculture Enterprises. 3 Hours.

This course will evaluate various alternative agricultural enterprises available to producers, including an examination of the resources necessary to establish a successful production enterprise. Alternative enterprises to be discussed include forage crops, grains, fruits, vegetables, nuts, horticultural and forestry products, animals, and enterprises that promote education, recreation, and tourism. On-farm processing of products and methods of adding value to products before they leave the farm will also be explored.

SAFE 5372. Diversified Animal Production. 3 Hours.

This course examines various animal production systems in relation to alternative animal agriculture and integrated ranch and farm management strategies. Various livestock production and management strategies for small land-owners and urban food production will be studied. Livestock species and breed choices for sustainable production regimens and organic food systems will be explored.

SAFE 5373. Food Safety and Regulation. 3 Hours.

This course examines fundamental principles of microbiology as they relate to food safety and product development. Intervention methods to restrict microbiological growth from harvest to plate, including Hazard Analysis Critical Control Point (HACCP) and Sanitation Standard Operating Procedures (SSOP), are evaluated. In addition, state, federal, and international policies, and laws as they relate to the regulation of food production methods, product development, labeling, and product sales for organic, all natural, value-added, and other alternative food production methods are studied.

SAFE 5391. Soil Ecology. 3 Hours.

This course examines living organisms in the soil and their influences on each other, plant health, nutrient cycling, soil organic matter, and other important soil properties. The role of soil biodiversity and its importance in agricultural systems will be addressed along with strategies for enhancing soil productivity under human management activities.

Teach English as Second Lang (TESL)

TESL 7301. Instructed Second Language Acquisition. 3 Hours.

Students evaluate and analyze instructed second language acquisition theory from a critical perspective. Topics include English as a second/foreign language, instructional planning, assessment, and learner and contextual differences.

Prerequisite: Admission to the Ed.D. program in Literacy.

TESL 7303. Developing Materials for English Learners. 3 Hours.

Students evaluate and critique current research, methods, and approaches used in the development of materials for ELs using critical pedagogical perspectives in addressing specific content and language areas. Topics include: analysis of existing materials to develop reading, listening, speaking, and writing skills, as well as vocabulary and grammar. Students develop knowledge and skills to create culturally relevant and developmentally appropriate materials for ELs. Students engage in interdisciplinary collaboration by designing and adapting materials for content and language areas.

Prerequisite: Admission to the Ed.D. program in Literacy.

TESL 7305. Sociolinguistics. 3 Hours.

Students critically examine how sociolinguistic variables influence language use and second language learning and teaching. Students explore modern sociolinguistic theories as well as methods of conducting sociolinguistic research, collecting and analyzing sociolinguistic data, including the analysis of second language classroom discourse. Students critique and evaluate research studies of language as a social phenomenon and the relationship between language and society as it relates to the field of TESOL while using their critical cross-cultural communicative competence.

Prerequisite: Admission to the Ed.D. program in Literacy.

TESL 7307. Teaching Second Language Writing. 3 Hours.

Students examine landmark and contemporary research on second language writers in a variety of settings. Following an interdisciplinary approach, the course focuses on teaching second language writing in multicultural contexts. Topics include second language writers, characteristics of writers and texts, comparison to first language writers, writing course design, inclusive writing programs, second language acquisition and writing interface, functional writing, contrastive rhetoric, teacher and peer evaluation, assessment, teaching second language writing, and multimodal writing in digital platforms.

Prerequisite: Admission to the Ed.D. in Literacy.

TESL 7309. Teacher Ed in English as a Second or Foreign Language. 3 Hours.

Students compare and contrast how English as a second/foreign language is taught and how educators learn to teach English in diverse contexts. This includes an analysis of the historical, cultural and social influences on the teaching of English as a second/foreign language from a perspective of social justice and critical pedagogy. They examine effective models of professional development, as well as design a professional development plan based on a specific context on language teaching and learning.

Prerequisite: Admission to the Ed.D. in Literacy.

TESL 7311. Assessment of English as a Second/Foreign Language Learners. 3 Hours.

Students examine theory, research, and practice relevant to assessment of English as a Second/Foreign Language learners. Topics include the principles of testing and evaluation as applied to the formal and informal assessment of English as a second/foreign language and academic content, the development, interpretation and application of assessment data, and legal and ethical considerations in assessment of English as a second/foreign learners.

Prerequisite: Admission to the Ed.D. in Literacy.

Technical Communication (TCOM)

TCOM 5099. Writing in the Field. 1-3 Hours.

Students study current theory, research, and practice in specialized areas of technical communication. Students research, design, and produce documents relative to key industries of the field. Variable Credit (1 to 3). Course Equivalents: TCOM 5399

Prerequisite: Admission to the MA program in Technical Communication.

TCOM 5310. Technical & Professional Writing. 3 Hours.

Students examine the field of technical and professional communication and conduct primary research. Students should take this course as soon as they are able in their program, as the course serves a foundational function. Course Equivalents: ENGL 5390 .

TCOM 5320. Managing Digital Documentation. 3 Hours.

Students learn advanced strategies of managing digital processes and knowledge that support online and print publication. Students design, manage, and publish documents using web-based and desktop documentation management systems.

Prerequisite: Admission to the MA program in Technical Communication.

TCOM 5330. Technical Style and Editing. 3 Hours.

Students study advanced techniques of composing, editing, and refining documents. Students analyze and generate prose for a variety of professional scenarios; additionally, students learn to edit documents using print and digital copy-marking techniques.

Prerequisite: Admission to the MA program in Technical Communication.

TCOM 5340. Digital Literacies. 3 Hours.

Students study the theory and practice of using digital media in professional situations. Students work with specific media and associated tools to convey expert-level information to differing audiences.

Prerequisite: Admission to the MA program in Technical Communication.

TCOM 5350. Writing Grants and Proposals. 3 Hours.

Students learn the processes of developing proposals and grants from writing small, internal requests to generating large documents based on external requests for proposals.

Prerequisite: Admission to the MA program in Technical Communication.

TCOM 5360. Ethics in Professional Writing. 3 Hours.

Students explore technical communication's inherent link to ethical responsibility. Topics include rhetorical concerns, such as agency, plain language, exigency, and efficiency viewed through the lens of varied ethical theories (e.g., relativism, consequentialism, and feminism). Students use case studies and role playing to engage with the material.

Prerequisite: Admission to the MA program in Technical Communication.

TCOM 5370. Intercultural Technical Communication. 3 Hours.

Students explore the complexities of communicating technical information in intercultural contexts. By studying issues of how organizations, communities, and individuals communicate across cultures and national borders, students develop best practices for intercultural professional communication.

Prerequisite: Admission to the MA program in Technical Communication.

TCOM 5380. Document Design. 3 Hours.

Students study the rhetorical and usability effects of document design in print and digital media. Working with digital and print media, students design and produce documents for a variety of professional situations.

Prerequisite: Admission to the MA program in Technical Communication.

TCOM 5385. User Experience Research and Design. 3 Hours.

Students analyze current theories, methods, and practices of the user experience, usability research, and user-centered design. Students design and conduct a usability study and report findings.

Prerequisite: Admission to the MA program in Technical Communication.

TCOM 5390. Teaching Technical Communication. 3 Hours.

Students examine current theories, methods, and practices of technical communication pedagogies. Students create materials to demonstrate their application of information.

Prerequisite: Admission to the MA program in Technical Communication.

TCOM 5395. Internship and Practicum. 3 Hours.

Students apply their knowledge and skills to a workplace project. Individuals work with professional supervision and in concert with an academic director to acquire hands-on professional experiences and create a capstone project that culminates their professional placement.

Prerequisite: Admission to the MA program in Technical Communication.

TCOM 6300. Portfolio. 3 Hours.

Students curate representative works from across their graduate studies to produce a professional portfolio that satisfies the academic requirements for the MA in Technical Communication and that demonstrates their abilities to potential employers.

Prerequisite: Admission to the MA program in Technical Communication.

TCOM 6301. Technical Communication Portfolio I. 3 Hours.

Students begin preparing their professional portfolio to satisfy the academic requirements for the MA in Technical Communication and demonstrate their abilities to potential employers. Students determine the competencies they have mastered throughout the program and work to situate them within the field of technical communication by researching and synthesizing their definitions, histories, and current uses. Students investigate platforms to host their ePortfolios and user-test them.

Prerequisite: Permission of graduate director for students nearing completion of the MA in Technical Communication.

TCOM 6302. Technical Communication Portfolio II. 3 Hours.

Students complete the work begun in TCOM 6301: Portfolio I by producing a professional portfolio that satisfies the academic requirements for the MA in Technical Communication and that demonstrates their abilities to potential employers. Students present their portfolios in a professional setting. Students investigate professional opportunities and prepare job materials. Successful completion of TCOM 6301.

Prerequisite: Admission to the MA program in Technical Communication.

Theatre (THEA)

THEA 5360. Graduate Seminar In Drama. 3 Hours.

Directed individual assignments in all areas of theatre. Special permission of the department chair. May be repeated for credit.

Trombone (TRMB)

TRMB 5201. Individual Performances-Trombone. 2 Hours.

The course consists of advanced individualized instruction on the trombone. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students. Credit 2

Prerequisite: Admission to the Master of Music program.

Trumpet (TRMT)

TRMT 5201. Individual Performances-Trumpet. 2 Hours.

The course consists of advanced individualized instruction on the trumpet. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students. Credit 2

Prerequisite: Admission to the Master of Music program.

Tuba (TUBA)

TUBA 5201. Individual Performances-Tuba. 2 Hours.

The course consists of advanced individualized instruction on the tuba. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students. Credit 2

Prerequisite: Admission to the Master of Music program.

Victim Studies (VCST)

VCST 5364. Seminar in Victimology. 3 Hours.

Students critically examine the study of criminal victimization. Students analyze theories of crime victimization, findings from contemporary research, typologies, best practices, and policy implications. Course Equivalents: CRIJ 5364 .

VCST 5365. Seminar in Crime Victim Services and Management. 3 Hours.

Students examine topics in non-profit agency management with a particular focus on residential shelters. This course satisfies a core requirement of the Master of Science in Victim Services Management program. By the end of this course, students examine and critically evaluate evidence-based practices and laws that govern shelter service delivery. Course Equivalents: CRIJ 5365 .

VCST 5366. Advocacy and Case Management. 3 Hours.

Students engage with an advanced understanding of advocacy work. Bridging research, policy, and practice, students explore the history of the victim rights movement and principles of empowerment-based advocacy. Issues surrounding confidentiality, professionalism, and ethics in service provision are also explored. Course Equivalents: CRIJ 5366

Prerequisite: none.

VCST 5368. Human Sex Trafficking. 3 Hours.

Students explore the scope and magnitude of global and domestic human sex trafficking as well as synthesize the research on antecedents to entry into the sex trade and mental and physical health outcomes from trafficking victimization. Traffickers and solicitors are examined in light of criminological and victimology theory and research. Students evaluate and assess public policy, criminal justice responses, and social service delivery for victims of trafficking in terms of effectiveness. Course Equivalents: CRIJ 5368

Prerequisite: none.

VCST 5370. Elder Abuse and Victimization. 3 Hours.

Students engage in a broad-based study of social, physical, and psychological aspects of elder abuse and victimization. Topics include the dynamics of aging, types of elder abuse, the incidence and prevalence of these crimes, and prevailing theoretical perspectives. Particular attention is paid to elder abuse and the law, along with social service, law enforcement, and medical responses to these offenses. In addition, students explore long-range trends in aging in the U.S. and national, state, and local initiatives to protect the population's eldest members. Course Equivalents: CRIJ 5370

Prerequisite: none.

VCST 5371. Interpersonal Violence. 3 Hours.

Students explore non-lethal and lethal violence occurring over the life course between or among persons who are typically related by blood, legal union, or cohabitation. This includes intimate partners, children, parents and other family members, as well as close friends. Emphasis is placed on the evaluation of community-based resources for preventing or responding to interpersonal violence, along with history of public policy. In addition, students evaluate the challenges of coordinating efforts among legal, medical, and social service providers. Course Equivalents: CRIJ 5371

Prerequisite: none.

VCST 5383. Family Violence. 3 Hours.

Students evaluate research policy and practice on the study on family violence. Students examine victim-offender relationship dynamics, theoretical explanations for battering, danger assessment, barriers to help-seeking, and legal considerations. Course Equivalents: CRIJ 5383

Prerequisite: None.

VCST 5384. Child Abuse and Neglect. 3 Hours.

Students evaluate research, policy, and practice in addressing the history and development of the child saving movement in the United States. Students examine practical considerations for advocates, including mandatory reporting, confidentiality, and abuse and neglect indicators. Course Equivalents: CRIJ 5384

Prerequisite: None.

VCST 5385. Non-Profit Grant Writing. 3 Hours.

Students are familiarized with the process of non-profit grant writing. Students write grants for the mock shelter programs they developed in VCST 5365 Crime Victims Services and Management Seminar. They learn how to develop a proposal and the various types of grants. Logic models and performance measures are explored. Course Equivalents: CRIJ 5385

Prerequisite: VCST 5365.

VCST 6330. Neurobiology of Trauma. 3 Hours.

Students evaluate the role of the brain, brain systems, and hormone/chemical responses in explaining reactions to experiencing and witnessing a variety of traumatic events. Information is contrasted to traditional, responses from criminal justice practitioners (e.g., law enforcement, courtroom actors), medical staff, and social service personnel when presented with victims of trauma. Evidence-based practices for effective forensic interview techniques and victim advocacy are synthesized in light of recent advances in neuroscience of trauma. Course Equivalents: CRIJ 6330

Prerequisite: none.

VCST 6338. Coordinating Victim Services. 3 Hours.

Students examine professional stakeholders in victim service delivery to ensure efficient, professional, and cooperative victim-centered responses to trauma and criminal victimization. Students evaluate the preventative and reactive mechanisms available to a range of government and non-government providers and synthesizes the management of these victim service provisions. Additionally, students explore the challenges of coordinating efforts between different professional organizations and ways to critically and effectively address problems. Course Equivalents: CRIJ 6338

Prerequisite: none.

VCST 6393. Independent Study in Victim Studies. 3 Hours.

Students examine a topic related to victim studies. Under the direct supervision of a faculty member, the faculty and student formulate a course of study which could include reviewing relevant literature, engaging in research, exploring professional practice, or conducting other forms of inquiry appropriate to the course of study. The course may be repeated for credit.

Prerequisite: Graduate Standing and Department Approval.

VCST 6394. Special Topics in Victim Studies. 3 Hours.

Students examine special topics in the field of victimology and victim services. This course is designed to give Victim Services Management graduate students academic flexibility. Students may repeat this course for credit when topics differ.

Vinlincello (VNCL)

VNCL 5201. Individual Performances-Cello. 2 Hours.

The course consists of advanced private on the cello. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students.

Prerequisite: Admission to the Master of Music program.

Viola (VIOL)

VIOL 5201. Individual Performances-Viola. 2 Hours.

The course consists of advanced individualized instruction on the viola. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students. Credit 2

Prerequisite: Admission to the Master of Music program.

Violin (VILN)

VILN 5201. Individual Performances-Violin. 2 Hours.

The course consists of advanced individualized instruction on the violin. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students. Credit 2

Prerequisite: Admission to the Master of Music program.

Voice (VOIC)

VOIC 5201. Individual Performances-Voice. 2 Hours.

The course consists of advanced individualized instruction on the voice. Instruction focuses on technique and musicality. Students attend a weekly studio class, where there are opportunities to perform for fellow students. Credit 2

Prerequisite: Admission to the Master of Music program.

World Language and Cultures (WOLC)

WOLC 5075. Independent Study. 1-3 Hours.

Students engage with a faculty member in one-on-one study of individually selected topics not specifically provided in graduate-level courses in WOLC. The course may be repeated for credit as content varies. Variable Credit (1 to 3).

Prerequisite: Department approval.

Hosam Gharib Abdelhady, PHD (hosam.abdelhady@shsu.edu), *Associate Professor of Pharmacology, Department of Physiology & Pharmacology*, PHD, Univ of Nottingham; MPHARM, Cairo University; BPHARM, Al-Fateh Univ of Medical Sci

Berna El Rahi Abed el Sater, PHD (bxa051@shsu.edu), *Assistant Professor of Food Science and Nutrition, Department of Human Sciences*, PHD, University of Montreal; MS, American University of Beirut; BS, Notre Dame University

Abbas Aboohamidi, PHD (axa432@shsu.edu), *Assistant Professor of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Texas Tech University; MA, Texas Tech University; BBA, Texas A&M-Corpus Christi

Ira R Adams, PHD (eng_ira@shsu.edu), *Professor of English, Department of English*, PHD, University of Virginia - SFS; MA, University of Virginia - SFS; BA, Washington & Lee University

Randy L Adams, MM (mus_rla@shsu.edu), *Professor of Music, School of Music*, MM, Northwestern University; BA, Univ of Houston-Main

Samuel Adu-Prah, PHD (sxa054@shsu.edu), *Associate Professor of Geography, Department of Environmental & Geosciences*, PHD, Southern Illinois U-Carbondale; MSED, Alcorn State University; MPHIL, University of Cambridge; BA, University of Ghana

Aisha Saratu Ahmadu, PHD (asa059@shsu.edu), *Assistant Professor of Political Science, Department of Political Science*, PHD, Mississippi State University; MBA, New Mexico State University; BA, Midwestern State University

Irfan Ahmed, PHD (mgt_ixa@shsu.edu), *Associate Professor of Marketing, Department of Mgmt, Mktg, & Info Systems*, PHD, Texas A&M University; MBA, The Indian Institute of Mgmt; BA, Osmania University

Bina Ajay, PHD (binaajay@shsu.edu), *Assistant Professor of Management, Department of Mgmt, Mktg, & Info Systems*, PHD, Univ of Cincinnati; BC, University of Mumbai

Ouadie Akaaboune, PHD (oxa021@shsu.edu), *Associate Professor of Accounting, Department of Accounting*, PHD, Southern Illinois U-Carbondale; MACCY, Southern Illinois U-Carbondale; BA, Univ of Hawaii At Manoa

Sinem Akay-Sullivan, PHD (sxa055@shsu.edu), *Associate Professor of Counselor Education, Department of Counselor Education*, PHD, Univ of North Texas; MED, Univ of North Texas; MS, Middle East Technical Univ; BS, Hacettepe University

Miriam Ama Bima Akoto, PHD (maa126@shsu.edu), *Assistant Professor of French, Department of World Languages & Cultures*, PHD, Texas A&M - Commerce; MA, Univ of Arizona; BA, Kwame Nkrumah University

Donald P. Albert, PHD (geo_dpa@shsu.edu), *Professor of Geography, Department of Environmental & Geosciences*, PHD, Univ of N Carolina-Chapel Hill; MA, Appalachian State University; BS, Salem State College

John G Alford, PHD (jga001@shsu.edu), *Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Univ of Houston-Main; MS, Univ of Houston-Main; BS, Univ of Calif-Los Angeles

Min Kyung An, PHD (an@shsu.edu), *Associate Professor of Computer Science, Department of Computer Science*, PHD, Univ of Texas At Dallas; MS, Univ of Texas-Arlington; BS, Jeju National University

Jeffrey S Anastasi, PHD (jsa001@shsu.edu), *Professor of Psychology, Department of Psychology & Philosophy*, PHD, Suny At Binghamton; MA, Suny At Binghamton; BA, Suny At Binghamton

Jaime Lynn Anderson, PHD (jla068@shsu.edu), *Associate Professor of Psychology, Department of Psychology & Philosophy*, PHD, Univ of Alabama-Tuscaloosa; MS, Eastern Kentucky University; BA, Univ of Dayton; BA, Univ of Dayton

Mark J Anderson, PHD (mjanderson@shsu.edu), *Associate Professor of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Iowa State University; MS, Texas Tech University; BS, Texas Tech University

Rebecca Kirstin Andrews Dickert, MD (rebecca.andrewsdickert@shsu.edu), *Assistant Professor of Physiology, Department of Physiology & Pharmacology*, MD, Michigan State University; BA, Univ of Chicago

Benny E Arney, PHD (chm_bea@shsu.edu), *Professor of Chemistry, Department of Chemistry*, PHD, Rice University; BA, Univ of St Thomas

Michael I Arrington, PHD (mia016@shsu.edu), *Associate Professor of Communication Studies, Department of Communication Studies*, PHD, Univ of South Florida; MA, Univ of South Florida; BA, Univ of Southern Mississippi

Jeremiah Ogonda Asaka, PHD (joa012@shsu.edu), *Assistant Professor of Security Studies, Department of Security Studies*, PHD, Univ of Massachusetts-Boston; MA, Univ of Massachusetts-Boston; MS, Ohio University; BSC, Maseno University

Mario Aschauer, PHD (mx072@shsu.edu), *Associate Professor of Music, School of Music*, PHD, University of Vienna; MA, Univ of Music & Perform Arts; MPHIL, University of Vienna

Burcu Ates, PHD (bxa013@shsu.edu), *Professor of Education, Department of Teaching & Learning*, PHD, Texas A&M University; MA, Michigan State University; BA, Middle East Technical Univ

Mardelle Renee Atkins, PHD (mra043@shsu.edu), *Roland Black Endowed Assistant Professor of Biological Sciences, Department of Biological Sciences*, PHD, Baylor College of Medicine; BS, Texas A&M University

Traci Leigh Austin, PHD (tla016@shsu.edu), *Associate Professor of Business Administration, Department of Business Admin & Entrep*, PHD, Univ of Nebraska-Lincoln; MED, Sam Houston State University; MA, University of Tulsa; BA, Univ of Nebraska-Lincoln; BA, Univ of Nebraska-Lincoln

Andia B Azimi, PHD (axa205@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Georgia State University; MS, Georgia State University; BS, Georgia State University

B

Nancy E Baker, PHD (neb001@shsu.edu), *Associate Professor of History, Department of History*, PHD, Harvard University; AM, Harvard University; MA, George Washington University; BA, Rutgers University

Maria Hasler Barker, PHD (mhb015@shsu.edu), *Associate Professor of Spanish, Chair of World Languages & Cultures, Department of World Languages & Cultures*, PHD, Indiana University; MA, Indiana University; BA, Brigham Young University

Timothy Barnum, PHD (txb073@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Nebraska-Omaha; MA, Saint Ambrose; BA, Valparaiso University

Janella Kay Baxter, PHD (jxb211@shsu.edu), Assistant Professor of Philosophy, Department of Psychology & Philosophy, PHD, Univ of Illinois-Chicago; MA, Univ of Colorado; BA, Seattle University

Andrea Lynne Beerwinkle, PHD (alb086@shsu.edu), Assistant Professor of Education, Department of Teaching & Learning, PHD, Texas A&M University; MED, Texas Tech University; BA, Texas A&M University

Kimberly K Bell, PHD (eng_kkb@shsu.edu), Professor of English and Dean of Honors College, Department of English, PHD, Georgia State University; MA, Clark University; BA, The American College of Greece

Helen Berg, PHD (hberg@shsu.edu), Professor of Education and Associate Dean of COED, Department of Teaching & Learning, PHD, Univ of Colorado; MED, Lesley College; BS, Univ of N Carolina-Greensboro

Milo D. Berg, PHD (eco_mdb@shsu.edu), Associate Professor of Business Analysis, Department of Economics & Intl Business, PHD, Texas A&M University; BSB, Univ of Minnesota-Twin Cities

Marcy Miller Beverly, PHD (agr_mmb@shsu.edu), Professor of Agricultural Sciences, Department of Agricultural Sciences, PHD, Texas A&M University; MS, Sam Houston State University; BS, Texas A&M University

Tracy E. Bilsing, PHD (eng_teb@shsu.edu), Associate Professor of English, Associate Dean of Honors College, Department of English, PHD, Texas A&M University; MA, Sam Houston State University; BA, Sam Houston State University

Jadwiga M Biskupska, PHD (jxb074@shsu.edu), Associate Professor of History, Department of History, PHD, Yale University; MA, Yale University; MA, Yale University; BA, Cornell University

Robin M Bittick, PHD (rmb004@shsu.edu), Associate Professor of Political Science, Department of Political Science, PHD, Claremont Grad Sch; MPA, California St Un-Dominguez Hil; BS, California St Un-Dominguez Hil

William Hollis Blackwell, EDD (whb004@shsu.edu), Associate Professor of Education, Department of Teaching & Learning, EDD, Boston University; EDM, Harvard University; BA, Colgate University

Jacob Damon Blevins, PHD (jblevins@shsu.edu), Professor and Chair of English, Department of English, PHD, Texas Tech University; MFA, McNeese State University; MA, McNeese State University; BA, McNeese State University

Leslie H Blix, PHD (lhb010@shsu.edu), Associate Professor of Accounting, Department of Accounting, PHD, Southern Illinois U-Carbondale; MS, Cuny Queens College; BS, Hodges University; BA, Univ of Connecticut

Tonya J Blocker, PHD (tjb094@shsu.edu), Assistant Professor of Accounting, Department of Accounting, PHD, Florida-Atlantic U; MS, Florida State University; BS, Florida State University

Marcus T Boccaccini, PHD (psy_mtb@shsu.edu), Professor of Psychology, Department of Psychology & Philosophy, PHD, Univ of Alabama-Tuscaloosa; MA, Univ of Alabama-Tuscaloosa; BS, Univ of Santa Clara

Danielle Lynne Boisvert, PHD (dxb014@shsu.edu), Professor of Criminal Justice and Criminology; Associate Dean, COCJ, Department of Criminal Justice & Criminology, PHD, Univ of Cincinnati; MFS, George Washington University; BS, University of Western Ontario

Mary K Borcharding, MFA (art_mkb@shsu.edu), Professor of Art, Department of Art, MFA, Indiana University-Bloomington; BS, Univ of Wisconsin-Madison

Maria Del Pi Botero Jaramillo, PHD (mdb037@shsu.edu), Professor of Philosophy, Department of Psychology & Philosophy, PHD, York University; MA, York University; BA, Universidad Javeriana

Tony Lane Boutte, DMA (txb023@shsu.edu), Professor of Music, School of Music, DMA, Univ of Maryland-College Park; MM, Eastman School of Music; BFA, Louisiana Tech University

Tershundrea Branch, PHD (txb035@shsu.edu), Assistant Professor of Counselor Education, Department of Counselor Education, PHD, Sam Houston State University; MA, Prairie View A&M University; BS, Lamar University

Frances Elizabeth Brandau, PHD (scm_feb@shsu.edu), Professor and Chair of Communication Studies, Department of Communication Studies, PHD, LSU & A&M College; MA, Univ of Southern Mississippi; BS, Univ of Southern Mississippi

Jonathan P Breazeale, PHD (jpb005@shsu.edu), Associate Professor of Finance, Department of Finance & Banking, PHD, Texas A&M University; MBA, Millsaps College; BS, United States Military Academy

Rosemarie M Brock, PHD (rmb043@shsu.edu), Associate Professor of Library Science and Technology, Department of Library Sci & Technology, PHD, Texas Woman's University; MLS, Texas Woman's University; BA, Oklahoma State University

Joshua Martin Bronfman, PHD (jxb102@shsu.edu), *Associate Professor of Music, School of Music*, PHD, Florida State University; MA, Oregon State University; BME, Florida State University

Ryan M Broussard, PHD (rxb055@shsu.edu), *Assistant Professor of Mass Communication, Department of Mass Communication*, PHD, Univ of Alabama-Tuscaloosa; MS, Univ of Louisiana-Lafayette; BA, Univ of Louisiana-Lafayette

Diana Michelle Brown, JD (dx029@shsu.edu), *Associate Professor of Business Administration, Department of Business Admin & Entrep*, JD, South Texas College of Law; BA, Rice University

Jonathan Nathan Brown, PHD (jnb047@shsu.edu), *Associate Professor of Political Science, Department of Political Science*, PHD, Univ of Maryland-College Park; MA, Univ of Maryland-College Park; BA, Indiana University

Lisa Ogle Brown, EDD (lob002@shsu.edu), *Associate Professor of Education, Department of Teaching & Learning*, EDD, Oklahoma State University; MED, Univ of Houston-Main; BS, Texas A&M University

Stephen L Brown, PHD (sbrown@shsu.edu), *Professor of Public Health, Department of Public Health*, PHD, Univ of Maryland-College Park; MS, Arizona State University; BS, Brigham Young University

Sibyl Rae Bucheli, PHD (srb009@shsu.edu), *Professor of Biological Sciences, Department of Biological Sciences*, PHD, Ohio State University; MS, Ohio State University; BA, Hiram College

Harsh Harish Buddhadev, PHD (hhb005@shsu.edu), *Professor of Kinesiology, Department of Kinesiology*, PHD, Iowa State University; MS, Univ of North Texas; BPHIL, Gujarat University

Emma Kathleen Price Bullock, PHD (exb051@shsu.edu), *Associate Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Utah State University; MMATH, Utah State University; BS, Brigham Young University

Ferry Butar Butar, PHD (mth_fbb@shsu.edu), *Professor of Statistics, Department of Mathematics & Statistics*, PHD, Univ of Nebraska-Lincoln; MA, Univ of Nebraska-Lincoln; MS, Univ of Nebraska-Lincoln; BS, Academy of Statistics; DRS, University of Indonesia

Sandra Vanesa Buzon Vargas, PHD (svb015@shsu.edu), *Assistant Professor of Management, Department of Mgmt, Mktg, & Info Systems*, PHD, Texas A&M University; MBA, National University of Colombia; BS, University of the North, Colombia

Patrick Buzzini, PHD (patrick.buzzini@shsu.edu), *Professor of Forensic Science, Department of Forensic Science*, PHD, University of Lausanne; MS, University of Lausanne

C

Emily R Cabaniss, PHD (erc016@shsu.edu), *Associate Professor of Sociology, Department of Sociology*, PHD, North Carolina State Univ; MA, Univ of N Carolina-Greensboro; BA, Univ of N Carolina-Greensboro

William John Calderhead, PHD (wjc011@shsu.edu), *Associate Professor of Education, Department of Teaching & Learning*, PHD, Univ of Oregon; MED, Univ of Maryland-College Park; MA, University of Virginia - SFS; BS, Univ of Maryland-College Park; BA, The Johns Hopkins University

Rhonda L Callaway, PHD (rlc005@shsu.edu), *Professor of Political Science, Department of Political Science*, PHD, Univ of North Texas; MA, Univ of North Texas; BA, Univ of Texas At Austin

Kiana Ellen Cano, PHD (kec112@shsu.edu), *Assistant Professor of Psychology, Department of Psychology & Philosophy*, PHD, Univ of Houston-Main; MA, Univ of Houston-Main; BA, Univ of Houston-Main

Patricia Card, DMA (mus_ppc@shsu.edu), *Professor of Music, School of Music*, DMA, Univ of North Texas; MMUS, Univ of Michigan; BM, Univ of North Texas

Linda G Carrington, PHD (carrington@shsu.edu), *Associate Professor of Accounting, Department of Accounting*, PHD, Univ of Maryland-College Park; MBA, Univ of Kentucky; BBA, Eastern Kentucky University

Christopher Frank Cascio, MFA (cfc005@shsu.edu), *Assistant Professor of Art, Department of Art*, MFA, Univ of Houston-Main; BFA, San Francisco Art Inst

Daniella Kelleigh Cash, PHD (dkc025@shsu.edu), *Assistant Professor of Psychology, Department of Psychology & Philosophy*, PHD, LSU & A&M College; MA, Univ of Alabama-Huntsville; BS, Florida Southern College

Christopher M Cassidy, PHD (cassidy@shsu.edu), *Associate Professor of Management, Department of Mgmt, Mktg, & Info Systems*, PHD, Texas A&M University; MBA, Gonzaga University; BS, U.S. Air Force Academy

Scott Thomas Chapman, PHD (stc008@shsu.edu), *Distinguished Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Univ of North Texas; MS, Univ of N Carolina-Chapel Hill; BS, Wake Forest University; BS, Wake Forest University

Leila Dolce Character, PHD (leilacharacter@shsu.edu), *Assistant Professor of Environmental and Geosciences, Department of Environmental & Geosciences*, PHD, Univ of Texas At Austin; MA, Univ of Texas At Austin; BS, Univ of The South

Danhong Chen, PHD (dxc062@shsu.edu), *Associate Professor of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Penn State Un-Univ Park; PHD, Penn State Un-Univ Park; MA, Southeast University; BA, Nanjing Agricultural University

Yixin Chen, PHD (cindychen@shsu.edu), *Associate Professor of Communication Studies, Department of Communication Studies*, PHD, University at Buffalo, Suny; MA, Univ of Texas-El Paso; ME, Huaqiao University; BE, Huaqiao University

Paul W Child, PHD (pchild@shsu.edu), *Professor of English, Department of English*, PHD, Univ of Notre Dame; AM, The Johns Hopkins University; MA, James Madison University; BA, Saint John'S University

Hyuk Cho, PHD (hxc005@shsu.edu), *Professor of Computing Science, Department of Computer Science*, PHD, Univ of Texas At Austin; MS, Univ of Texas At Austin; MA, Korea University; BE, Chonbuk National University

Jin Young Choi, PHD (jyc002@shsu.edu), *Professor of Sociology, Department of Sociology*, PHD, Univ of Hawaii At Manoa; MA, Univ of Hawaii At Manoa; MPH, Univ of Hawaii At Manoa; MS, Ewha Women's University; BS, Ewha Women's University

Madhusudan Choudhary, PHD (mxc017@shsu.edu), *Professor of Biological Sciences, Department of Biological Sciences*, PHD, McMaster University; BSC, Patna University

Lindsay Camille Clark, PHD (lclark@shsu.edu), *Associate Professor of Business Administration, Department of Business Admin & Entrep*, PHD, Oklahoma State University; MA, Midwestern State University; BA, Midwestern State University

Shelly Lynn Clevenger, PHD (sxc167@shsu.edu), *Associate Professor and Chair of Victim Studies, Department of Victim Studies*, PHD, Indiana University of Pennsylv; MA, Indiana University of Pennsylv; BA, Indiana University of Pennsylv

Kevin Mark Clifton, PHD (kmc053@shsu.edu), *Associate Professor of Music, School of Music*, PHD, Univ of Texas At Austin; MM, Univ of Texas At Austin; BA, Austin College

Mona C Cockerham, PHD (mcc053@shsu.edu), *Assistant Professor of Nursing, School of Nursing*, PHD, Univ of Texas HSC-Houston; MSN, Univ of Texas HSC-Houston; BS, Louisiana College

Corinna O Cole, PHD (lls_cvc@shsu.edu), *Associate Professor of Education, Department of Teaching & Learning*, PHD, Texas A&M University; MED, Sam Houston State University; BA, Sam Houston State University

Julie P Combs, EDD (jpc002@shsu.edu), *Distinguished Professor of Educational Leadership, Department of Educational Leadership*, EDD, Texas A&M - Commerce; MED, Texas A&M - Commerce; BS, Texas A&M University

Eric J Connolly, PHD (ejc025@shsu.edu), *Associate Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Florida State University; MS, Univ of North Alabama; BA, West Virginia University

Mary A. Conroy, PHD (psy_mac@shsu.edu), *Distinguished Professor of Psychology, Department of Psychology & Philosophy*, PHD, Univ of Houston-Main; MA, Colorado State University; BA, Michigan State University

Alma Linda Contreras-Vanegas, PHD (alc058@shsu.edu), *Associate Professor of Education, Department of Teaching & Learning*, PHD, Texas A&M University; MED, Texas A&M University; BA, Texas A&M University

Jerry L. Cook, PHD (bio_jlc@shsu.edu), *Professor of Biological Sciences, Department of Biological Sciences*, PHD, Texas A&M University; MS, Colorado State Univ-Pueblo; BS, Colorado State Univ-Pueblo

Tamara J. Cook, PHD (bio_tjc@shsu.edu), *Professor of Biological Sciences, Department of Biological Sciences*, PHD, Texas A&M University; MS, Univ of Nebraska-Lincoln; BS, Univ of Nebraska-Lincoln

Brian Jay Cooper, PHD (bio_bjc@shsu.edu), *Associate Professor of Geology, Department of Environmental & Geosciences*, PHD, Virginia Polytechnic&State U; MS, Virginia Polytechnic&State U; BA, Univ of Calif-Santa Barbara

Beth L Cory, PHD (blc006@shsu.edu), *Associate Professor of Mathematics Education, Department of Mathematics & Statistics*, PHD, University of Virginia - SFS; MS, Florida State University; BS, Liberty University

Thomas H Cox, PHD (thc001@shsu.edu), *Associate Professor of History, Department of History*, PHD, University at Buffalo, Suny; MA, University at Buffalo, Suny; BA, Birmingham-Southern College; BS, Birmingham-Southern College; BS, Birmingham-Southern College

Jaime Leigh Coyne, PHD (jlb110@shsu.edu), *Associate Professor of Education, Department of Teaching & Learning*, PHD, Texas A&M University; MED, Stephen F Austin University; BS, Sam Houston State University

Miltonette Olivia Craig, PHD (moc006@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Florida State University; JD, Georgia State University; MS, Florida Int'L Univ; BA, Spelman College; BA, Spelman College

Nicholas Crawford, PHD (nxc082@shsu.edu), *Assistant Professor of History, Department of History*, PHD, Harvard University; MA, Harvard University; BA, New York University

James William Crosby, PHD (jwc014@shsu.edu), *Professor of Psychology and Associate Dean CHSS, Department of Psychology & Philosophy*, PHD, Oklahoma State University; MS, Abilene Christian University; BS, Abilene Christian University

Dixuan Cui, PHD (dxc164@shsu.edu), *Assistant Professor of Mass Communication, Department of Mass Communication*, PHD, Purdue University; MS, Purdue University; BS, Purdue University; BS, Purdue University

D

Lisa Joanne Dahlgren, PHD (lxd024@shsu.edu), *Associate Professor of Communication Studies, Department of Communication Studies*, PHD, Arizona State University; MA, Univ of Hawaii At Manoa; BA, Univ of Hawaii At Manoa

Ronald Jude Daigle, PHD (rjd005@shsu.edu), *Professor of Accounting, Department of Accounting*, PHD, Texas Tech University; MS, Texas Tech University; BS, Univ of South Alabama

Jane C Daquin, PHD (jxd161@shsu.edu), *Associate Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Georgia State University; MS, Georgia State University; BA, University of Albany, Suny; BA, University of Albany, Suny

Jay Tyler Davidson, PHD (jxd115@shsu.edu), *Assistant Professor of Forensic Science, Department of Forensic Science*, PHD, West Virginia University; MS, West Virginia University; BS, Shippensburg University

Juan D Daza Vaca, PHD (jdd054@shsu.edu), *Associate Professor of Biological Sciences, Department of Biological Sciences*, PHD, Univ of Puerto Rico-Rio Piedra; MS, Univ of Puerto Rico-Rio Piedra; BS, Universidad del Valle

Fatih Demiroz, PHD (fxd009@shsu.edu), *Associate Professor of Political Science, Department of Political Science*, PHD, Univ of Central Florida; MPA, Univ of Central Florida; BA, Yeditepe University

Michael T Demson, PHD (mtd007@shsu.edu), *Professor of English, Department of English*, PHD, Grad Sch & Univ Center; MA, Grad Sch & Univ Center; BA, Reed College

Furjen Deng, PHD (soc_fjd@shsu.edu), *Professor of Sociology, Department of Sociology*, PHD, Purdue University; MS, Purdue University; BA, National Taiwan University

Cosmas B Domonaamwin Dery, PHD (cdery@shsu.edu), *Assistant Professor of Economics, Department of Economics & Intl Business*, PHD, Univ of Calgary; MA, Univ of Lethbridge; BA, University of Ghana

Jennifer Johnson Didier, PHD (jennifer.didier@shsu.edu), *Professor of Kinesiology; Chair of Kinesiology, Department of Kinesiology*, PHD, LSU & A&M College; MS, Texas A&M University; BS, Texas A&M University

Brandy Guntel Doleshal, PHD (bdoleshal@shsu.edu), *Associate Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Univ of Texas At Austin; BA, Indiana University; BS, Indiana University

John C Domino, PHD (pol_jcd@shsu.edu), *Professor of Political Science, Department of Political Science*, PHD, Miami University; MA, Eastern Kentucky University; BA, Florida-Atlantic U

Robert E. Donahoo, PHD (eng_rxd@shsu.edu), *Professor of English, Department of English*, PHD, Duke University; MA, Duke University; BA, Baylor University; BA, Baylor University

Karen M Douglas, PHD (kmd007@shsu.edu), *Associate Professor of Sociology, Department of Sociology*, PHD, Univ of Texas At Austin; MA, Univ of Texas At Austin; BBA, Univ of Texas At Austin

Diane Dowdey, PHD (eng_dxd@shsu.edu), *Professor of English, Department of English*, PHD, Univ of Wisconsin-Madison; MA, Univ of Missouri-Columbia; BA, Texas Christian University; BA, Texas Christian University

Lei Duan, PHD (lxd042@shsu.edu), *Assistant Professor of History, Department of History*, PHD, Syracuse University; MPHIL, Syracuse University; MA, Univ of Massachusetts-Amherst; BA, Nankai University

Xiaoman Duan, PHD (xxd002@shsu.edu), *Assistant Professor of Finance, Department of Finance & Banking*, PHD, Univ of Oklahoma-Norman; MA, Univ of Oklahoma-Norman; BS, Nankai University

E

Paul William Eaton, PHD (pwe003@shsu.edu), Associate Professor of Educational Leadership, Department of Educational Leadership, PHD, LSU & A&M College; MED, LSU & A&M College; MED, Univ of Maryland-College Park; BA, Univ of Minnesota-Twin Cities

Thomas S Edelberg, PHD (edelberg@shsu.edu), Assistant Professor of Library Science and Technology, Department of Library Sci & Technology, PHD, Indiana University; MA, California St Un-Northridge; BA, Univ of Calif-Los Angeles

William D. Edgington, EDD (wedgington@shsu.edu), Professor of Education, Department of Teaching & Learning, EDD, Oklahoma State University; MED, Midwestern State University; BSED, Texas Christian University

William A Ellegood, PHD (wxe002@shsu.edu), Associate Professor of Management, Department of Mgmt, Mktg, & Info Systems, PHD, Univ of Missouri-St Louis; MBA, Ball State University; BS, Kettering University

Hatem Abdelrahman Omar Elshabrawy, PHD (hxe007@shsu.edu), Assistant Professor of Microbiology, Immunology and Pathology, Department of Molecular & Cellular Biology, PHD, Univ of Illinois-Chicago; BPHARM, Cairo University

Mevhibe Pinar Emiralioglu, PHD (mpe005@shsu.edu), Associate Professor of History, Department of History, PHD, Univ of Chicago; MA, Univ of Chicago; MA, Bilkent University; BA, Bogazici University

Trevor Kendrick England, PHD (txe008@shsu.edu), Assistant Professor of Accounting, Department of Accounting, PHD, Kennesaw State University; JD, Nashville School of Law; MS, Univ of Connecticut; LLM, Univ of Alabama-Tuscaloosa; BS, Tennessee Tech University; BS, Tennessee Tech University

Jason S Enia, PHD (jason.enia@shsu.edu), Professor and Chair of Political Science, Department of Political Science, PHD, Univ of Southern California; MA, Fordham University; BA, Univ of Dayton; BA, Univ of Dayton

Bryan Scott Stevens Espinosa, PHD (bse013@shsu.edu), Assistant Professor of Music, School of Music, PHD, Univ of North Texas; MA, Univ of North Texas; BM, Univ of North Texas

Charlotte Rebekah Esplin, PHD (cre032@shsu.edu), Assistant Professor of Psychology, Department of Psychology & Philosophy, PHD, Brigham Young University; MS, Brigham Young University; BS, Brigham Young University

Brent Cullen Estes, PHD (bce001@shsu.edu), Associate Professor of Kinesiology, Department of Kinesiology, PHD, Florida State University; MSS, U.S. Sports Academy; BS, Faulkner University

F

Linda Gail Fergus, PHD (lgf011@shsu.edu), Assistant Professor of Food Science and Nutrition, Department of Human Sciences, PHD, LSU & A&M College; MS, Texas Woman's University; BS, LSU & A&M College

Maria M Feu Lopez, PHD (mmf017@shsu.edu), Associate Professor of Spanish, Department of World Languages & Cultures, PHD, Univ of Houston-Main; MA, Hood College; BA, Universidad de Barcelona

Rebecca L Finley, MFA (rlf001@shsu.edu), Professor of Photography and Acting Chair of Art, Department of Art, MFA, San Francisco Art Inst; MFA, San Francisco Art Inst; BA, Univ of Tennessee-Knoxville; BA, Univ of Tennessee-Knoxville

Jessica Caitlin Fleming, MA (jcc063@shsu.edu), Assistant Professor of Victim Studies, Department of Criminal Justice & Criminology, MA, Sam Houston State University; BS, Sam Houston State University

Jamile Marmitt Forcelini, PHD (forcelini@shsu.edu), Assistant Professor of Spanish, Department of World Languages & Cultures, PHD, Florida State University; MA, Florida State University; BA, University of Passo Fundo

Andrea S Foster, PHD (asf004@shsu.edu), Professor of Education, Department of Teaching & Learning, PHD, Texas A&M University; MED, Texas A&M University; BS, Texas A&M University

Mark W. Frank, PHD (eco_mwf@shsu.edu), Professor of Economics, Department of Economics & Intl Business, PHD, Univ of Texas At Dallas; MS, Univ of Texas At Dallas; BS, Texas A&M University

Matthew Bryan Fuller, PHD (mbf005@shsu.edu), Professor of Educational Leadership, Department of Educational Leadership, PHD, Illinois State University; MS, Texas A&M University; BA, Texas A&M University

Mary C Funck, PHD (mcf012@shsu.edu), Associate Professor of Finance, Department of Finance & Banking, PHD, Univ of Mississippi; MBA, Western Illinois University; MS, Western Illinois University; BS, Western Illinois University

Marcus James Funk, PHD (mjf023@shsu.edu), Associate Professor of Mass Communication, Department of Mass Communication, PHD, Univ of Texas At Austin; MA, Univ of Texas At Austin; BA, Trinity University

G

Di Gao, PHD (dxg085@shsu.edu), *Assistant Professor of Statistics, Department of Mathematics & Statistics*, PHD, North Dakota State University; MA, Univ of Missouri-Columbia; BEC, Tianjin University; BBA, Tianjin University

Lesley Ann Gardiner, MD (lesley.gardiner@shsu.edu), *Assistant Professor of Pediatrics, Department of Primary Care & Clinical Medi*, MD, Texas A&M University; BS, Texas A&M-Corpus Christi

Jeffrey A Gardner, PHD (jag175@shsu.edu), *Assistant Professor of Sociology, Department of Sociology*, PHD, Univ of Georgia; MA, Univ of Georgia; BA, Brigham Young University-Idaho

Randall L Garner, PHD (rgarner@shsu.edu), *Professor of Criminal Justice and Criminology and Associate Dean, COCJ, Department of Criminal Justice & Criminology*, PHD, Univ of Houston-Main; MA, Univ of Houston-Clear Lake; BS, Univ of Houston-Clear Lake

Marcos Esteban Garza Madrid, PHD (marcos.garza@shsu.edu), *Associate Professor of Physiology, Department of Physiology & Pharmacology*, PHD, Instituto Tecnológico de Monterrey; MD, Instituto Tecnológico de Monterrey

Yvonne Garza-Chaves, PHD (yxg002@shsu.edu), *Professor of Counselor Education, Department of Counselor Education*, PHD, Univ of North Texas; MSW, Our Lady of Lake University; BSW, Univ of Texas-Pan American

Eduardo Geraldo de Campos, PHD (exg248@shsu.edu), *Assistant Professor of Forensic Science, Department of Forensic Science*, PHD, University of Sao Paulo; MS, University of Sao Paulo; BS, University of Sao Paulo

Hannah R Gerber, PHD (hrg004@shsu.edu), *Professor of Education, Department of Teaching & Learning*, PHD, Univ of Alabama-Tuscaloosa; MS, Florida State University; BA, Florida State University

Jurg Gerber, PHD (icc_jxg@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Washington State University; MA, Washington State University; BA, Eastern Washington University

Brian K Gibbs, PHD (bxg012@shsu.edu), *Professor of Music, School of Music*, PHD, Walden University; MS, Amberton University; BM, Southern Methodist University

Joshua M Gilliland, PHD (jmg177@shsu.edu), *Assistant Professor Environmental and Geosciences, Department of Environmental & Geosciences*, PHD, LSU & A&M College; MS, Western Kentucky University; BS, University of Tulsa

Melissa Catharine Glasscock, MFA (mxg102@shsu.edu), *Associate Professor of Art, Department of Art*, MFA, Savannah College of Art & Desi; BFA, Univ of Central Florida

Amber Joyce Godwin, PHD (ajg007@shsu.edu), *Assistant Professor of Education, Department of Teaching & Learning*, PHD, Texas A&M University; MED, Sam Houston State University; BA, Univ of West Florida

Fidel Gonzalez, PHD (fxg001@shsu.edu), *Professor of Economics, Department of Economics & Intl Business*, PHD, Univ of Texas At Austin; MS, Univ of Texas At Austin

Darren P Grant, PHD (dgrant@shsu.edu), *Associate Professor of Economics, Department of Economics & Intl Business*, PHD, Florida State University; BS, Florida State University

Adele Renee Gravois, PHD (rgl003@shsu.edu), *Associate Professor of Marketing, Department of Mgmt, Mktg, & Info Systems*, PHD, Virginia Polytechnic&State U; MBA, Univ of Houston-Main; BA, Southeastern Louisiana Univ.; BA, Southeastern Louisiana Univ.

Allan David Grogan, PHD (stdadg27@shsu.edu), *Assistant Professor of Management, Department of Mgmt, Mktg, & Info Systems*, PHD, Concordia University-Canada; MS, Concordia University-Canada; MBA, Sam Houston State University; BS, Sam Houston State University

Dustin E Gross, PHD (deg013@shsu.edu), *Associate Professor of Chemistry, Department of Chemistry*, PHD, Univ of Texas At Austin; BS, Univ of Arizona

Elizabeth A Gross, PHD (eag041@shsu.edu), *Associate Professor of Library Science and Technology, Department of Library Sci & Technology*, PHD, Wayne State University; MLIS, Wayne State University; BA, Northern Michigan University

Ross Joseph Guida, PHD (ross.guida@shsu.edu), *Associate Professor of Geography, Department of Environmental & Geosciences*, PHD, Southern Illinois U-Carbondale; MS, Univ of Nevada-Las Vegas; BA, Univ of Wisconsin-Eau Claire

Christina Marie Gushanas, PHD (cgushanas@shsu.edu), *Eleanor and Charles Garrett Endowed Assistant Professor of Education, Department of Teaching & Learning*, PHD, Texas A&M University; MED, Texas A&M University; BS, Lamar University

Jose Antonio Gutierrez, PHD (jag063@shsu.edu), *Associate Professor of Finance, Department of Finance & Banking*, PHD, Univ of Texas-San Antonio; MS, Univ of Texas-San Antonio; BBA, Univ of Texas-San Antonio

H

Lory E Haas, EDD (leh015@shsu.edu), *Associate Professor of Education, Department of Teaching & Learning*, EDD, Sam Houston State University; MED, Sam Houston State University; BAT, Sam Houston State University

Donovan C Haines, PHD (dch009@shsu.edu), *Professor and Chair of Chemistry, Department of Chemistry*, PHD, Wichita State University; BS, Wichita State University

Mark S Hainline, PHD (msh004@shsu.edu), *Assistant Professor of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Texas Tech University; MS, Texas Tech University; BS, Sam Houston State University

Sirkka Helena Halmari, PHD (eng_shh@shsu.edu), *Professor of English, Department of English*, PHD, Univ of Southern California; MA, Univ of Southern California; MA, California St Un-San Bernardin; MSS, University of Tampere; MA, University of Tampere; BA, University of Tampere

James Michael Harper, PHD (jmharper@shsu.edu), *Associate Professor of Biology, Department of Biological Sciences*, PHD, Univ of Idaho; BS, Suny College At Geneseo

John P Harris, PHD (jph020@shsu.edu), *Associate Professor of Geology of Environmental and Geosciences, Department of Environmental & Geosciences*, PHD, Texas A&M University; MS, Univ of Arkansas-Fayetteville; BS, Univ of Arkansas-Fayetteville

Elizabeth Noel Hartsell, PHD (enh033@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Florida; MA, Univ of Florida; BA, North Carolina State Univ

Sharmin Hasan, PHD (sxh130@shsu.edu), *Assistant Professor of Biological Sciences, Department of Biological Sciences*, PHD, Univ of Tokyo; MS, Univ of Tokyo; BSC, Univ of Rajshahi

Cherine Hatem, PHD (cxh164@shsu.edu), *Visiting Assistant Professor of Food Science and Nutrition, Department of Human Sciences*, PHD, Univ of Houston-Main; MS, Case Western Reserve Univ; BS, John Carroll University

Damon Martin Hay, PHD (dhay@shsu.edu), *Associate Professor and Chair of Mathematics and Statistics, Department of Mathematics & Statistics*, PHD, Univ of Houston-Main; MS, Univ of Houston-Main; BS, Univ of Texas At Austin

Joshua S Haynes, PHD (jsh064@shsu.edu), *Assistant Professor of History, Department of History*, PHD, Univ of Georgia; MA, Univ of Mississippi; BA, Tulane University

Charles Victor Heath, PHD (cvh003@shsu.edu), *Associate Professor of History, Department of History*, PHD, Tulane University; MA, Tulane University; BA, Tulane University

Emily Catherine Howes Heilman, DM (ech035@shsu.edu), *Assistant Professor of Music, School of Music*, DM, Florida State University; MM, Univ of Louisville; BM, Univ of Louisville

Cassy Daniels Henderson, PHD (cdh045@shsu.edu), *Associate Professor of Accounting, Department of Accounting*, PHD, Univ of Texas-El Paso; BBA, Univ of Texas-El Paso

Craig E Henderson, PHD (ceh003@shsu.edu), *Professor of Psychology, Department of Psychology & Philosophy*, PHD, Univ of North Texas; MA, Hardin Simmons University; BS, Howard Payne University; BS, Howard Payne University

Susan Elizabeth Henderson, PHD (shenderson@shsu.edu), *Assistant Professor of Counselor Education, Department of Counselor Education*, PHD, Sam Houston State University; MS, Sam Houston State University; MA, Hardin Simmons University; BS, Stephen F Austin University

Shaina Marie Herman, PHD (sxh169@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, University of Albany, Suny; MA, University of Albany, Suny; BA, Indiana Univ of Pa

Mayrena Isamar Hernandez, PHD (mih012@shsu.edu), *Assistant Professor of Kinesiology, Department of Kinesiology*, PHD, Univ of Wisconsin-Madison; MPH, Kansas State University; BS, Univ of Texas-Arlington

Desiree Gretchen Hickman, EDD (dgh029@shsu.edu), *Assistant Professor of Education, Department of Teaching & Learning*, EDD, Jackson State University; MS, Jackson State University; BS, Alcorn State University

Joseph C Hill, PHD (jch031@shsu.edu), *Associate Professor and Chair of Environmental and Geosciences, Department of Environmental & Geosciences*, PHD, Univ of Missouri-Columbia; PHD, Univ of Missouri-Columbia; MS, Univ of Tennessee-Knoxville; MS, Univ of Tennessee-Knoxville; BS, Univ of Tennessee-Knoxville; BS, Univ of Tennessee-Knoxville

Jamie H Hinojosa, MD (jaime.hinojosa@shsu.edu), *Assistant Professor of Anatomy and Histology, Department of Clinical Anatomy*, MD, Univ of Texas HSC-Houston; MS, Lincoln Memorial University; BS, Univ of Texas-Brownsville

Meagan Elizabeth Hinze, PHD (meh066@shsu.edu), *Assistant Professor of Chemistry, Department of Chemistry*, PHD, Cornell University; MS, Cornell University; BS, Butler University

Christopher Eugene Hobbs, PHD (ceh079@shsu.edu), *Associate Professor of Chemistry, Department of Chemistry*, PHD, Texas A&M University; BS, Angelo State University

Victoria Smith Hollas, PHD (torihollas@shsu.edu), *Associate Professor of Education, Department of Teaching & Learning*, PHD, Texas A&M University; BA, Houston Christian University

Melinda Ann Holt, PHD (mxm014@shsu.edu), *Professor of Statistics and Dean, COSET, Department of Mathematics & Statistics*, PHD, Baylor University; MA, Baylor University; BA, Baylor University

Peggy Philpot Holzweiss, PHD (pholzweiss@shsu.edu), *Associate Professor of Educational Leadership, Department of Educational Leadership*, PHD, Texas A&M University; MS, Texas A&M University; BS, Texas A&M University

Kaitlin Ann Hopkins, PHD (kah147@shsu.edu), *Assistant Professor of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Texas A&M University; MS, Stephen F Austin University; BS, Stephen F Austin University

Rachel Michelle Houston, PHD (rmh034@shsu.edu), *Assistant Professor of Forensic Science, Department of Forensic Science*, PHD, Sam Houston State University; BS, Univ of Texas At Dallas

TzeLi Hsu, PHD (thsu@shsu.edu), *Associate Professor of Sociology, Department of Sociology*, PHD, Florida State University; MS, Mississippi State University; BA, National Taiwan University

Yao Huang, PHD (yxh051@shsu.edu), *Assistant Professor of Library Science and Technology, Department of Library Sci & Technology*, PHD, Florida State University; MS, The University of Memphis; BA, University of Electronic Science & Tech of China

Caleb George Hubbard, PHD (cgh034@shsu.edu), *Assistant Professor of Communication Studies, Department of Communication Studies*, PHD, Univ of Oklahoma-Norman; MA, West Texas A&M State Univ; BS, West Texas A&M State Univ

Adam L Hubrig, PHD (axh151@shsu.edu), *Assistant Professor of English, Department of English*, PHD, Univ of Nebraska-Lincoln; MA, Univ of Nebraska-Lincoln; BA, Concordia University

Lesley L Hughes, PHD (llh036@shsu.edu), *Assistant Professor of Music, School of Music*, PHD, Univ of Wisconsin-Madison; DMA, Univ of Wisconsin-Madison; MA, Univ of Wisconsin-Madison; BM, Univ of Kansas

Sheree Robyn Hughes, PHD (sxh039@shsu.edu), *Associate Professor and Chair of Forensic Science, Department of Forensic Science*, PHD, Bond University; BS, University of Queensland (The)

I

Laura Theresa Iesue, PHD (liti002@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Miami; BS, Ohio State University

Jason R Ingram, PHD (jri004@shsu.edu), *Professor and Chair of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Michigan State University; MA, Southern Illinois U-Carbondale; BA, Southern Illinois U-Carbondale

ABM Rezbaul Islam, PHD (ari014@shsu.edu), *Assistant Professor of Computer Science, Department of Computer Science*, PHD, Univ of North Texas; MS, Ajou University; BSC, Skakjalal Univ of Sci & Techno

J

Farid Jahantab, PHD (fxj007@shsu.edu), *Assistant Professor of Management, Department of Mgmt, Mktg, & Info Systems*, PHD, Univ of Texas-EI Paso; MA, London Metropolitan University; BE, Khaje Nasir Toosi University of Technology

William A. Jasper, PHD (mth_waj@shsu.edu), *Professor of Mathematics Education, Department of Mathematics & Statistics*, PHD, Texas A&M University; MS, Univ of Southern California; BS, Lafayette College

Kurt R Jesswein, PHD (jesswein@shsu.edu), *Associate Professor of Finance and Chair, Finance and Banking, Department of Finance & Banking*, PHD, Univ of S Carolina-Columbia; MIB, Univ of S Carolina-Columbia; BBA, Univ of Wisconsin-Whitewater

Haodi Jiang, PHD (hxj024@shsu.edu), *Assistant Professor of Computer Science, Department of Computer Science*, PHD, New Jersey Institute of Techn; MS, Florida Int'L Univ; BE, Southwest University

Daphne Diane Johnson, PHD (edu_dxe@shsu.edu), *Professor of Education, Department of Teaching & Learning*, PHD, Univ of Houston-Main; MS, Univ of Houston-Clear Lake; BSED, Univ of Houston-Main

Robyn MacKenzie Johnson, PHD (rmj036@shsu.edu), *Assistant Professor of English, Department of English*, PHD, Univ of Calif-Riverside; AM, Univ of Tennessee-Chattanooga; BA, Depaul University

Steve J Johnson, PHD (sjj008@shsu.edu), *Associate Professor of Finance, Department of Finance & Banking*, PHD, Univ of Utah; MS, Univ of Nebraska-Lincoln; BA, Union College

Carla D Jones, PHD (cdj033@shsu.edu), *Associate Professor of Management, Department of Mgmt, Mktg, & Info Systems*, PHD, Arizona State University; MBA, Northwestern University; BS, California St Un-Northridge

Nathan P Jones, PHD (nxj008@shsu.edu), *Associate Professor of Security Studies, Department of Security Studies*, PHD, Univ of Calif-Irvine; MA, Univ of Calif-Irvine; BA, Univ of Calif-Berkeley

Brian Matthew Jordan, PHD (bmj018@shsu.edu), *Associate Professor and Chair of History, Department of History*, PHD, Yale University; MA, Yale University; MPIL, Yale University; BA, Gettysburg College

Maribeth Frances Jorgensen, PHD (mxj040@shsu.edu), *Associate Professor of Counselor Education and Assistant Dean, COED, Department of Counselor Education*, PHD, The University of South Dakota; MSED, Univ of Nebraska-Kearney; BS, Univ of Nebraska-Kearney

Praphul Joshi, PHD (pxj015@shsu.edu), *Professor of Public Health, Department of Public Health*, PHD, Univ of S Carolina-Columbia; MPH, Univ of S Carolina-Columbia; BDS, Bangalore University

K

Ram Chandra Kafle, PHD (rckafle@shsu.edu), *Associate Professor of Statistics, Department of Mathematics & Statistics*, PHD, Univ of South Florida; MS, Univ of Akron; MS, Tribhuvan University; BS, Tribhuvan University

Timothy S. Kalafut, PHD (tim.kalafut@shsu.edu), *Associate Professor of Forensic Science, Department of Forensic Science*, PHD, Texas A&M University; BA, Whitworth College

Anand Bahadur Karki, PHD (abk019@shsu.edu), *Assistant Professor of Biological Sciences, Department of Biological Sciences*, PHD, University of Tulsa; MS, Tribhuvan University; BS, Tribhuvan University

Scott Aaron Kaukonen, PHD (kaukonen@shsu.edu), *Associate Professor of English, Department of English*, PHD, Univ of Missouri-Columbia; MFA, Univ of Arizona; BA, Hope College

Masoud Kazemzadeh, PHD (mxk002@shsu.edu), *Associate Professor of Political Science, Department of Political Science*, PHD, Univ of Southern California; MA, Univ of Southern California; BA, Univ of Minnesota-Twin Cities

Rosanne S Keathley, PHD (hpe_rsk@shsu.edu), *Professor of Public Health, Department of Public Health*, PHD, Texas A&M University; MA, Sam Houston State University; BAT, Sam Houston State University

Stanley F. Kelley, PHD (sfkelley@shsu.edu), *Professor of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Texas A&M University; MS, Texas A&M University; BS, Texas A&M University

Owen Joseph Kelly, PHD (ojk003@shsu.edu), *Assistant Professor of Nutrition, Department of Molecular & Cellular Biology*, PHD, University College Cork; BSC, University College Cork

Sarah Kerrigan, PHD (sxk003@shsu.edu), *Professor of Forensic Science, Department of Forensic Science*, PHD, University of British Columbia; BSC, University of Hull

Khalid Mahmood Khan, DPH (kxk051@shsu.edu), *Associate Professor of Public Health, Department of Public Health*, DPH, Columbia University; MSC, University of Dhaka; BSC, University of Dhaka

Parichehr Kianian, PHD (pkianian@shsu.edu), *Assistant Professor of Marketing, Department of Mgmt, Mktg, & Info Systems*, PHD, Univ of Houston-Main; MBA, Univ of Tehran-Iran; BSC, Sharif Univ of Technology

Bit Na Kim, PHD (bitna.kim@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Sam Houston State University; BA, Chungbuk National University

Doo Young Kim, PHD (dkim@shsu.edu), *Associate Professor of Statistics, Department of Mathematics & Statistics*, PHD, Univ of South Florida; MA, Ball State University; BS, Gachon University

Min Hyun Kim, PHD (mxk056@shsu.edu), *Associate Professor of Kinesiology, Department of Kinesiology*, PHD, Univ of New Mexico; MA, California St Un-San Bernardino; BPED, Kyung Hee Univ Seoul; BPED, Kyung Hee Univ Seoul

Nam Young Kim, PHD (nyk001@shsu.edu), *Associate Professor and Chair of Mass Communication, Department of Mass Communication*, PHD, LSU & A&M College; MA, Penn State Un-Univ Park; MAC, Sookmyung Women's University; BA, Sookmyung Women's University

Youn Oh Kim, PHD (younoh@shsu.edu), Associate Professor of Economics, Department of Economics & Intl Business, PHD, Univ of Southern California; MA, Univ of Southern California; BA, Ewha Womans Univ.

Kyle Douglas Kindred, DMA (kdk001@shsu.edu), Professor of Music, School of Music, DMA, Univ of Texas At Austin; MM, Univ of Texas At Austin; BM, Wichita State University

Kimberly Campbell Kinnaid, PHD (kck017@shsu.edu), Assistant Professor of Library Science, Department of Library Sci & Technology, PHD, Texas Woman's University; MLS, Texas Woman's University; BS, Texas A&M University

Alexander Boone Kinney, PHD (akinney@shsu.edu), Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Univ of Arizona; MA, Univ of Arizona; BA, Penn State University

Tracy Rouly Knight, EDD (trk033@shsu.edu), Associate Professor of American Sign Language, Department of World Languages & Cultures, EDD, Lamar University; MS, Lamar University; BA, Gallaudet University

Ginger Y Ko, PHD (gingerko@shsu.edu), Assistant Professor of English, Department of English, PHD, Univ of Georgia; MFA, Univ of Wyoming; BS, Indiana University-Bloomington; BA, Univ of Calif-Los Angeles

Steven David Koether, PHD (stevenkoether@shsu.edu), Assistant Professor of Biological Sciences, Department of Biological Sciences, PHD, Texas A&M University; MS, Sam Houston State University; BS, Texas A&M University

Gerald Kohers, PHD (kohers@shsu.edu), Professor of Management Information Systems and Chair, Dept of Mgmt and Mktg, Department of Mgmt, Mktg, & Info Systems, PHD, Virginia Polytechnic&State U; MBA, Virginia Polytechnic&State U; BS, Mississippi State University

Stuti Subbaiah Kokkalera, PHD (sxx078@shsu.edu), Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Northeastern University; LLM, Georgetown University; LLB, Gujarat University

Andrey Vitalyevich Koptelov, PHD (axk022@shsu.edu), Associate Professor of Education, Department of Teaching & Learning, PHD, Academy of Pedagogical Science; BED, Kirov State Pedagogical Inst

Colton Ellis Krawietz, PHD (cek043@shsu.edu), Assistant Professor of Communication Studies, Department of Communication Studies, PHD, Univ of Texas At Austin; MED, Univ of Texas At Austin; MA, Univ of Texas At Austin; BA, LSU & A&M College

Naomi Lynne Krawzik, PHD (stdnlv11@shsu.edu), Assistant Professor of Mathematics, Department of Mathematics & Statistics, PHD, Univ of North Texas; MS, Sam Houston State University; BS, Alma College

Eroll Kuhn, PHD (exk026@shsu.edu), Assistant Professor of Security Studies, Department of Security Studies, PHD, Univ of N Carolina-Chapel Hill; MA, Univ of N Carolina-Chapel Hill; BA, Vassar College; BA, Vassar College

Lana Kuscer, DMA (lxx025@shsu.edu), Assistant Professor of Music, School of Music, DMA, Univ of North Texas; MM, Hochschule fur Musik und Theat; BM, Royal College of Music

L

Kimberly N LaPrairie, PHD (knl007@shsu.edu), Associate Professor of Library Science and Technology, Department of Library Sci & Technology, PHD, LSU & A&M College; MED, Univ of Louisiana-Lafayette; BBA, Henderson State University

Leena Jo Landmark, PHD (landmark@shsu.edu), Professor of Education, Department of Teaching & Learning, PHD, Texas A&M University; MED, Texas A&M University; BA, Texas A&M University

John W Lane, DMA (jwl002@shsu.edu), Professor of Music, School of Music, DMA, Univ of Cincinnati; MM, Univ of North Texas; BM, Stephen F Austin University

Mae Ann Lane, EDD (mal024@shsu.edu), Associate Professor of Education, Department of Teaching & Learning, EDD, Sam Houston State University; MED, Texas A&M - Commerce; BA, Abilene Christian University

Hillary Anne Langley, PHD (hlangley@shsu.edu), Associate Professor of Psychology, Department of Psychology & Philosophy, PHD, Univ of N Carolina-Chapel Hill; BA, Univ of N Carolina-Chapel Hill

Nicolas J Lantz, MFA (nick.lantz@shsu.edu), Associate Professor of English, Department of English, MFA, Univ of Wisconsin-Madison; BA, Lewis & Clark College

Wanda Edelis Leal, PHD (wel004@shsu.edu), Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Florida State University; MS, Florida State University; BS, Florida State University

Heejin Lee, PHD (heejin.lee@shsu.edu), Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Univ of Cincinnati; MS, Univ of Cincinnati; LLB, Korean National Police Unvers

Peter Scott Lehmann, PHD (psl003@shsu.edu), Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Florida State University; MS, Florida State University; BA, Furman University

Mark R Leipnik, PHD (geo_mrl@shsu.edu), Professor of Geography and Geology, Department of Environmental & Geosciences, PHD, Univ of Calif-Santa Barbara; MBA, Rice University; BA, Univ of Calif-Santa Barbara; BA, Univ of Calif-Santa Barbara

Patrick J Lewis, PHD (pjl001@shsu.edu), Professor of Biology, Associate Dean of Honors College, Department of Biological Sciences, PHD, Duke University; MS, Texas Tech University; BA, Texas Tech University

Chi-Sing Li, PHD (dcl001@shsu.edu), Professor of Counselor Education, Department of Counselor Education, PHD, Texas A&M - Commerce; MED, Univ of Louisiana-Monroe; MED, Univ of Louisiana-Monroe; BA, Univ of Texas At Austin

Peiyao Li, PHD (pxl043@shsu.edu), Assistant Professor of Political Science, Department of Political Science, PHD, Arizona State University; MPA, Wuhan University

Fan Liang, MS (fxl027@shsu.edu), Assistant Professor of Computer Science, Department of Computer Science, MS, Univ of Massachusetts-Dartmouth; BS, Northwestern Polytechnic Univ; DSC, Towson State University

Sungdae Lim, PHD (slim@shsu.edu), Assistant Professor of Political Science, Department of Political Science, PHD, Florida State University; MPA, Florida State University; BPA, Soongsil University

Jeffrey L Littlejohn, PHD (jll004@shsu.edu), Professor of History, Department of History, PHD, Univ of Arkansas-Fayetteville; MA, Univ of Arkansas-Fayetteville; BA, Belmont University

Qingzhong Liu, PHD (qxl005@shsu.edu), Professor of Computer Science, Department of Computer Science, PHD, New Mexico Inst/Mining/Tech; ME, Sichuan University; BE, Northwestern Polytechnic Univ

Xing Liu, MS (xxl020@shsu.edu), Assistant Professor of Computer Science, Department of Computer Science, MS, Lawrence Inst. of Tc; BE, Shanghai Univ of Engr Science; DSC, Towson State University

Yu Liu, PHD (yxl068@shsu.edu), Assistant Professor of Public Health, Department of Public Health, PHD, Emory University; MPH, Yale University; BBA, Nankai University

Mario G Loomis, MD (mxl107@shsu.edu), Associate Professor of Anatomy and Chair, Clinical Anatomy, Department of Clinical Anatomy, MD, Univ of Vermont&State Agr Col; AB, Cornell University

Tabbatha Dawn Lopez, PHD (tdl030@shsu.edu), Assistant Professor of Food Science & Nutrition and Dietetics Director, Department of Human Sciences, PHD, Univ of Houston-Main; MS, Texas Tech University; BS, Univ of Houston-Main; BS, Univ of Houston-Main

Wojciech Lorenc, MFA (wlorenc@shsu.edu), Professor of Mass Communication, Department of Mass Communication, MFA, Depaul University; BA, Columbia College-Chicago

Anna Hommadova Lu, PHD (anyalu@shsu.edu), Assistant Professor of Communication Studies, Department of Communication Studies, PHD, Arizona State University; PHD, University of Tsukuba; MA, University of Tsukuba; BA, Minnesota State Un-Moorhead

Connor James Lubojacky, PHD (cjl076@shsu.edu), Assistant Professor of Management, Department of Mgmt, Mktg, & Info Systems, PHD, Univ of Houston-Main; MSC, Univ of Edinburgh; BS, Univ of Texas At Dallas; BS, Univ of Texas At Dallas; BS, Univ of Texas At Dallas

Russell P Lundberg, PHD (rxl027@shsu.edu), Associate Professor of Security Studies, Department of Security Studies, PHD, Pardee Rand Graduate School; MPHIL, Pardee Rand Graduate School; MPP, Univ of Maryland-College Park; BA, Hope College

William I Lutterschmidt, PHD (bio_wil@shsu.edu), Professor of Biology, Department of Biological Sciences, PHD, Univ of Oklahoma-Norman; MS, Southeastern Louisiana Univ.; BS, De Sales University

Aaron Matthew Lynne, PHD (aml027@shsu.edu), Professor and Chair of Biological Sciences, Department of Biological Sciences, PHD, North Dakota State University; BS, North Dakota State University

M

Junkun Ma, PHD (jxm158@shsu.edu), Professor of Engineering Technology, Department of Engineering Technology, PHD, Univ of Calif-San Diego; MS, N China Electric Power Univ; BE, Tsinghua University

Martin E Malandro, PHD (mem037@shsu.edu), Associate Professor of Mathematics, Department of Mathematics & Statistics, PHD, Dartmouth College; AM, Dartmouth College; BS, Texas Tech University

Tiffany Robin Nicole Maldonado, PHD (tmaldonado@shsu.edu), Assistant Professor of Management, Department of Mgmt, Mktg, & Info Systems, PHD, Univ of Houston-Main; BA, Rice University; BA, Rice University

Enrique Mallen, PHD (edm012@shsu.edu), *Professor of Spanish, Department of World Languages & Cultures*, PHD, Cornell University; MA, Cornell University; MA, Universidad de Sevilla

Ananda Bandulasiri Manage, PHD (amanage@shsu.edu), *Professor of Statistics, Department of Mathematics & Statistics*, PHD, Texas Tech University; MS, Texas Tech University; MS, Sam Houston State University; BS, University of Kelaniya

Balasundram Maniam, PHD (gba_bxm@shsu.edu), *Distinguished Professor of Finance, Department of Finance & Banking*, PHD, Univ of Mississippi; MBA, Arkansas State University; BS, Arkansas State University

Robert Maninger, EDD (rmm023@shsu.edu), *Professor of Education, Department of Teaching & Learning*, EDD, Univ of North Texas; MED, Tarleton State University; BSED, Lubbock Christian University

Ryan J Marek, PHD (rxm147@shsu.edu), *Assistant Professor of Psychology, Department of Psychology & Philosophy*, PHD, Kent State University; MA, Kent State University; BS, John Carroll University

Taylor Elizabeth Martin, PHD (taylor.martin@shsu.edu), *Associate Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Rice University; MA, Rice University; BA, Univ of Rochester; BS, Univ of Rochester

Cynthia Martinez-Garcia, EDD (cmg021@shsu.edu), *Professor of Educational Leadership, Department of Educational Leadership*, EDD, Texas A&M-Kingsville; MS, Texas A&M-Corpus Christi; BS, Texas A&M-Corpus Christi

Nara Martirosyan, EDD (nxm021@shsu.edu), *Associate Professor of Educational Leadership, Department of Educational Leadership*, EDD, Grambling State Univ; MS, Grambling State Univ; BA, Tatev Pedagogical University

Giuseppe Martone, PHD (gxm120@shsu.edu), *Assistant Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Univ of Southern California; MS, University of Rome, Sapienza; BS, University of Rome, Sapienza

Huda Masood, PHD (hxm040@shsu.edu), *Assistant Professor of Management, Department of Mgmt, Mktg, & Info Systems*, PHD, York University; MA, Adler University, Chicago; BSC, York University

David C Mayes, PHD (his_dcm@shsu.edu), *Professor of History, Department of History*, PHD, Univ of Wisconsin-Madison; MA, Univ of Richmond; BA, Univ of Richmond

Mayra Alexandra Mayr-Eduardoff, PHD (mayra.eduardoff@shsu.edu), *Assistant Professor of Forensic Science, Department of Forensic Science*, PHD, Medical University of Innsbruck; MSC, University of Innsbruck; BA, University of Sussex (UK)

William Matthew Mc Inturf, DMA (mus_wmm@shsu.edu), *Professor of Music, School of Music*, DMA, Univ of Cincinnati; MM, Univ of Houston-Main; BMUS, Univ of North Texas

Joyce Kay McCauley, PHD (edu_jkm@shsu.edu), *Distinguished Professor of Education, Department of Teaching & Learning*, PHD, Texas Woman's University; MED, Univ of Guam; BA, Univ of South Florida

Zoe Nicole McDonald, PHD (znm004@shsu.edu), *Assistant Professor of English, Department of English*, PHD, Univ of Nebraska-Lincoln; MA, Univ of Vermont&State Agr Col; BA, Univ of Wyoming

Kenneth Bruce McIntyre, PHD (kbm014@shsu.edu), *Professor of Political Science, Department of Political Science*, PHD, Tulane University; MS, University of Wales; MA, Tulane University; BA, Princeton University

Jessica Ann McQueston, PHD (jam391@shsu.edu), *Assistant Professor of Education, Department of Teaching & Learning*, PHD, Univ of Wisconsin-Madison; MA, Univ of New Mexico; BSED, Univ of New Mexico

Ali Mchiri, PHD (amchiri@shsu.edu), *Assistant Professor of Management, Department of Mgmt, Mktg, & Info Systems*, PHD, New Mexico State University; MBA, New Mexico State University; BBA, Univ of Texas-El Paso

Melissa L Mednicov, PHD (mmednicov@shsu.edu), *Associate Professor of Art, Department of Art*, PHD, Penn State Un-Univ Park; MA, Penn State Un-Univ Park; BA, Smith College

Sanjay S. Mehta, PHD (mkt_ssm@shsu.edu), *Professor of Marketing, Department of Mgmt, Mktg, & Info Systems*, PHD, Univ of North Texas; MS, Univ of North Texas; MBA, Angelo State University; BS, Angelo State University

Chris C. Michel, MM (mus_ccm@shsu.edu), *Associate Professor of Music, School of Music*, MM, Ohio State University; BM, Baylor University

Holly A Miller, PHD (psy_ham@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Florida State University; MA, Morehead State University; BA, Bethel College

Lee Mary Miller, PHD (lee.miller@shsu.edu), *Professor of Sociology, Department of Sociology*, PHD, Yale University; MPHIL, Yale University; MA, Yale University; AB, Smith College

Melinda Sue Miller, PHD (lls_msm@shsu.edu), *Professor of Education, Department of Teaching & Learning*, PHD, Texas A&M University; MED, Sam Houston State University; BSED, Univ of Texas At Austin

Scott T Miller, PHD (stm009@shsu.edu), *Professor of Physics, Department of Physics & Astronomy*, PHD, Univ of Maryland-College Park; MS, Univ of Maryland-College Park; BA, Rutgers University; BS, Rutgers University

Felicia Leila Mirghassemi, PHD (flm002@shsu.edu), *Assistant Professor of Counselor Education, Department of Counselor Education*, PHD, Sam Houston State University; MS, Univ of Texas At Tyler; BS, Univ of Texas At Tyler

Geraldine Isabelle Christ Monjardez, PHD (g.monjardez@shsu.edu), *Assistant Professor of Forensic Science, Department of Forensic Science*, PHD, University of Manchester; MS, Cranfield University; BS, University of Cent Lancashire

Ricardo Montelongo, PHD (rxm059@shsu.edu), *Associate Professor of Educational Leadership, Department of Educational Leadership*, PHD, Indiana University; MS, Texas A&M University; BS, Texas A&M University

Nadav Morag, PHD (nxm040@shsu.edu), *Professor and Chair of Security Studies, Department of Security Studies*, PHD, Tel Aviv University; MA, Univ of Calif-Los Angeles; BA, Univ of Calif-Los Angeles

Philip W Morris, PHD (aac_pwm@shsu.edu), *Professor and Chair of Accounting, Department of Accounting*, PHD, Texas Tech University; MS, Univ of Houston-Clear Lake; MBA, Sam Houston State University; BBA, Sam Houston State University

Sachin Dheeraj Mudigonda, MFA (sxm259@shsu.edu), *Assistant Professor of Mass Communication, Department of Mass Communication*, MFA, Univ of Texas At Austin; MS, Arizona State University

Falguni Shyamal Mukherjee, PHD (fsm002@shsu.edu), *Associate Dean of The Graduate School, Ombuds, and Professor of Geography, Department of Environmental & Geosciences*, PHD, Univ of Wisconsin-Milwaukee; MS, Univ of Texas At Dallas; BE, Birla Institute of Tech & Sci

Sureni Visaka Mullegama, PHD (svm013@shsu.edu), *Assistant Professor of Genetics, Department of Molecular & Cellular Biology*, PHD, Virginia Commonwealth Univ; BS, Univ of Minnesota-Twin Cities

Philip W Mulvey, PHD (pwm010@shsu.edu), *Associate Professor of Victim Studies, Department of Victim Studies*, PHD, Arizona State University; MA, Boston College; BS, Univ of Illinois-Urbana

Audrey D Murfin, PHD (adm034@shsu.edu), *Associate Professor of English, Department of English*, PHD, Suny At Binghamton; MA, Suny At Binghamton; BA, Reed College

N

Diana Kay Nabors, EDD (lls_dkn@shsu.edu), *Professor of Education, Department of Teaching & Learning*, EDD, Univ of Houston-Main; MED, Sam Houston State University; BS, Univ of Houston-Main

Carroll F. Nardone, PHD (cfnardone@shsu.edu), *Professor of English and Associate Dean, CHSS, Department of English*, PHD, New Mexico State University; MA, Ohio State University; BA, Univ of Texas-El Paso

Chelsey Samara Narvey, PHD (cxn042@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Texas At Dallas; BA, Concordia University

Hiranya K Nath, PHD (eco_hkn@shsu.edu), *Professor of Economics, Department of Economics & Intl Business*, PHD, Southern Methodist University; MA, Southern Methodist University; MPHIL, Jawaharlal Nehru University; MA, University of Delhi; BA, University of Delhi

Adam P Natoli, PHD (apn017@shsu.edu), *Assistant Professor of Psychology, Department of Psychology & Philosophy*, PHD, Adelphi University; MA, Adelphi University; MS, Eastern Michigan University; BA, Rider University

John Charles Navarro, PHD (jxn044@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Louisville; MS, Illinois State University; BS, Illinois State University

Velvet A Nelson, PHD (van001@shsu.edu), *Professor of Geography, Department of Environmental & Geosciences*, PHD, Kent State University; MA, East Carolina Univ; BSBA, West Liberty State College

Steve A Nenninger, PHD (san009@shsu.edu), *Associate Professor of Finance, Department of Finance & Banking*, PHD, Southern Illinois U-Carbondale; MBA, Southeast Missouri State Univ; BSBA, Southeast Missouri State Univ

Diane L. Neudorf, PHD (bio_dln@shsu.edu), *Professor of Biology, Department of Biological Sciences*, PHD, York University; MSC, University of Manitoba; BSC, University of Manitoba

Adele Nickel, MFA (axn051@shsu.edu), *Assistant Professor of Dance, Department of Dance*, MFA, Univ of Washington; BA, New School/Soc Rsrch

Lautrice Mc Carty Nickson, PHD (lmn005@shsu.edu), *Professor of Education, Department of Teaching & Learning*, PHD, Prairie View A&M University; MED, Sam Houston State University; MED, Loyola University Maryland; BS, Mississippi State University

Andrew M Noble, MFA (amn008@shsu.edu), *Professor of Dance, Department of Dance*, MFA, Florida State University; BA, Univ of South Florida

Dionne L Noble, MFA (dln008@shsu.edu), *Associate Professor of Dance, Department of Dance*, MFA, Univ of Utah; BA, Univ of South Florida

Brooke Elizatbeth Nodeland, PHD (ben012@shsu.edu), *Associate Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Texas At Dallas; MS, Univ of North Texas; BS, Univ of North Texas

Ramona M Noland, PHD (psy_rmn@shsu.edu), *Associate Professor of Psychology, Department of Psychology & Philosophy*, PHD, Univ of Tennessee-Knoxville; BA, Wheeling College

Braden Edward Norris, PHD (benorris9@shsu.edu), *Assistant Professor of Kinesiology, Department of Kinesiology*, PHD, Indiana University; MS, Indiana University; MS, Indiana University; BS, Indiana University

O

April Lynn OBrien, PHD (aprilobrien@shsu.edu), *Assistant Professor of English, Department of English*, PHD, Clemson University; MA, Suny Coll of Buffalo; BA, Grove City College

Willard M Oliver, PHD (icc_wmo@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, West Virginia University; MA, West Virginia University; MS, Radford University; BS, Radford University

Seth David Olson, PHD (sxo036@shsu.edu), *Professor of Counselor Education, Department of Counselor Education*, PHD, Kent State University; PHD, Kent State University; MA, The University of South Dakota; BA, Univ of Nebraska-Lincoln

Erin Anderson Orrick, PHD (eorrick@shsu.edu), *Associate Professor and Associate Dean of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Texas At Dallas; MA, Univ of Maryland-College Park; BSCJ, Texas Christian University

Pablo Alberto Ortega Poveda, PHD (pao016@shsu.edu), *Assistant Professor of Political Science, Department of Political Science*, PHD, Arizona State University; BA, Universidad Javeriana

P

Lillie Vivian Ka Padilla, PHD (lvp005@shsu.edu), *Assistant Professor of Spanish, Department of World Languages & Cultures*, PHD, Arizona State University; MA, Arizona State University; BA, University of Ghana; BA, University of Ghana

Shyam Bahadur Pandey, PHD (sbp029@shsu.edu), *Assistant Professor of English, Department of English*, PHD, Purdue University; MA, Minnesota State Univ-Mankato; MED, Kathmandu University, Nepal; BED, Tribhuvan University

Timothy R. Pannkuk, PHD (agr_trp@shsu.edu), *Associate Professor of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Texas A&M University; MS, Texas A&M University; BS, Texas A&M University

Brittany Leigh Paris, MS (blp054@shsu.edu), *Assistant Professor of Animal Science, Department of Agricultural Sciences*, MS, Texas A&M University; BS, Texas A&M University

Benjamin E Park, PHD (bep013@shsu.edu), *Associate Professor of History, Department of History*, PHD, Univ of Cambridge; MPHIL, Univ of Cambridge; MS, Univ of Edinburgh; BA, Brigham Young University; BA, Brigham Young University

John B Pascarella, PHD (jbp014@shsu.edu), *Professor of Biological Sciences, Department of Biological Sciences*, PHD, Univ of Miami; BA, Univ of Kansas; BS, Univ of Kansas; BS, Univ of Kansas

Erica Ann Pasquini, PHD (exp043@shsu.edu), *Associate Professor of Kinesiology, Department of Kinesiology*, PHD, Univ of Southern Mississippi; MS, Ball State University; BS, Univ of New Orleans

Emily Ann Peacock, MFA (stdeap16@shsu.edu), *Assistant Professor of Art, Department of Art*, MFA, Univ of Houston-Main; BS, Sam Houston State University

Recayi Pecen, PHD (regpecen@shsu.edu), *Professor of Engineering Technology, Department of Engineering Technology*, PHD, Univ of Wyoming; MS, Univ of Colorado; MSC, Istanbul Univ; BSC, Istanbul Univ

Ilona Petrikovics, PHD (ixp004@shsu.edu), *Professor of Chemistry, Department of Chemistry*, PHD, Univ Debrecen Med & Health Sci; PHD, Kossuth Laos University; MSC, Univ Debrecen Med & Health Sci

Mary Ann Petron, PHD (map042@shsu.edu), *Professor of Education, Department of Teaching & Learning*, PHD, Univ of Texas At Austin; MA, Northwestern University; BSED, Univ of Wisconsin-Madison

Van Vung Pham, PHD (vung.pham@shsu.edu), *Assistant Professor of Computer Science, Department of Computer Science*, PHD, Texas Tech University; MS, Politecnico Di Milano; BS, President University

Chi Hoang Do Phan, PHD (chp007@shsu.edu), *Assistant Professor of Mathematics and Statistics, Department of Mathematics & Statistics*, PHD, Univ of South Florida; MA, Univ of South Florida; BA, Univ of South Florida

Javier A Pinell, DM (jap032@shsu.edu), *Professor of Music, School of Music*, DM, Florida State University; MM, Miami University; BM, Wayne State University

Ronald Eric Platt, PHD (eep032@shsu.edu), *Professor and Chair of Educational Leadership, Department of Educational Leadership*, PHD, LSU & A&M College; MED, Univ of Southern Mississippi; BS, Univ of Southern Mississippi

Scott D Plugge, DM (mus_sdp@shsu.edu), *Professor and Chair of Music, School of Music*, DM, Northwestern University; MM, Northwestern University; BM, Baylor University

Jennifer Karen Pontius, MFA (dnc_jkp@shsu.edu), *Associate Professor and Chair of Dance, Department of Dance*, MFA, Florida State University; MA, California St Un-Dominguez Hil; BA, Univ of Alabama-Birmingham

Jalene Paige Potter, PHD (jpp015@shsu.edu), *Associate Professor of Education, Department of Teaching & Learning*, PHD, Texas A&M-Corpus Christi; MS, Texas A&M-Corpus Christi; BS, Texas A&M-Corpus Christi

George Prada, MD (gxp073@shsu.edu), *Assistant Professor of Anatomical Sciences, Department of Clinical Anatomy*, MD, Autonomous Univ of Guadalajara; BS, Univ of Illinois-Chicago

Todd P Primm, PHD (tprimm@shsu.edu), *Professor of Biology, Department of Biological Sciences*, PHD, Baylor College of Medicine; BS, Texas A&M University

Bernadette Pruitt, PHD (his_bxp@shsu.edu), *Associate Professor of History, Department of History*, PHD, Univ of Houston-Main; MA, Texas Southern University; BA, Texas Southern University

Q

Jailenne Ivette Quinones Rodriguez, PHD (jiq002@shsu.edu), *Assistant Professor of Anatomical Sciences, Department of Clinical Anatomy*, PHD, Universidad Central Del Caribe; MA, Universidad Central Del Caribe; BS, University of Puerto Rico - Po

Uzma Quraishi, PHD (uxq001@shsu.edu), *Associate Professor of History, Department of History*, PHD, Rice University; MA, Rice University; MA, Univ of Houston-Main; BA, Univ of Houston-Main; BA, Univ of Houston-Main

R

Vlad Marius Radoias, PHD (radoias@shsu.edu), *Associate Professor of Economics, Department of Economics & Intl Business*, PHD, Univ of Southern California; MA, Central Michigan Univ; BA, Bucharest Acad of Eco Studies

Javier Ramos, PHD (jxr248@shsu.edu), *Assistant Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Florida State University; MS, Florida State University; BA, Univ of Texas At Austin

Ryan Wayne Randa, PHD (rxr042@shsu.edu), *Associate Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Cincinnati; MS, Univ of Cincinnati; BS, Univ of Wisconsin-Superior

George Kevin Randall, PHD (gkr001@shsu.edu), *Professor of Public Health, Department of Public Health*, PHD, Iowa State University; MS, Iowa State University; BSED, Illinois State University

Christopher P Randle, PHD (cpr003@shsu.edu), *Professor of Biology, Department of Biological Sciences*, PHD, Ohio State University; BA, Hiram College

Stephen H Rapp, PHD (srapp@shsu.edu), *Professor of History, Department of History*, PHD, Univ of Michigan; MA, Univ of Michigan; BA, Indiana University

Christian Werner Raschke, PHD (raschke@shsu.edu), *Associate Professor of Economics, Department of Economics & Intl Business*, PHD, LSU & A&M College; MS, LSU & A&M College; BS, Southeast Missouri State Univ

Amar Adnan Rasheed, PHD (axr249@shsu.edu), *Assistant Professor of Computer Science, Department of Computer Science*, PHD, Texas A&M University; MS, Northeastern Illinois Univ; BS, University of Bagdad

Kathleen Rene Ratajczak, PHD (kxr084@shsu.edu), *Assistant Professor of Victim Studies, Department of Victim Studies*, PHD, Univ of Kentucky; MA, Univ of Cincinnati; BA, John Carroll University

Chelsea Gilts Ratcliff, PHD (chelsea.ratcliff@shsu.edu), *Associate Professor of Psychology, Department of Psychology & Philosophy*, PHD, Univ of Houston-Main; MA, Univ of Houston-Main; BA, Trinity University

Shekhar Rathor, PHD (srathor@shsu.edu), *Assistant Professor of Management Information Systems, Department of Mgmt, Mktg, & Info Systems*, PHD, Florida Int'L Univ; MCA, Panjab University; BS, Himachal Pradesh University

Amy E Ray, PHD (aer066@shsu.edu), *Assistant Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Michigan State University; MS, Michigan State University; MED, Texas Christian University; BS, Texas Christian University

Jolene Buxton Reed, PHD (jreed@shsu.edu), *Associate Professor of Education, Department of Teaching & Learning*, PHD, Univ of New Mexico; MA, Univ of New Mexico; BS, Brigham Young University

Rebecca Lee Renfro, DMA (rrg012@shsu.edu), *Professor of Music, School of Music*, DMA, Univ of Connecticut; MM, New England Conservatory/Music; BBA, Sam Houston State University; BM, Sam Houston State University

Clare Amparito Resilla, EDD (clr067@shsu.edu), *Assistant Professor of Educational Leadership, Department of Educational Leadership*, EDD, Sam Houston State University; MED, Lamar University; BA, St. Theresa's College

Chad Allen Reynolds, PHD (car020@shsu.edu), *Assistant Professor of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Univ of Missouri-Columbia; MS, Sam Houston State University; BS, Sam Houston State University

Diego Ribeiro Caetano, DMA (dxr105@shsu.edu), *Assistant Professor of Music, School of Music*, DMA, Univ of Colorado; MM, Univ of Wyoming; BM, Federal University of Goias

Kathleen Ann Rice, PHD (kar084@shsu.edu), *Professor of Counselor Education, Department of Counselor Education*, PHD, Univ of N Carolina-Charlotte; MS, South Dakota State University; BS, South Dakota-Mines/Tech

Marilyn Petrus Rice, PHD (edu_mpr@shsu.edu), *Professor of Library Science and Technology, Department of Library Sci & Technology*, PHD, Texas A&M University; MED, Sam Houston State University; BSBA, Univ of Arkansas-Fayetteville

Shelley Ann Riggs, PHD (srx142@shsu.edu), *Professor of Psychology, Department of Psychology & Philosophy*, PHD, Univ of Texas At Austin; MA, Univ of Texas At Austin; BA, Univ of Texas At Austin; BA, Univ of Texas At Austin

Jason Matthew Riley, PHD (jmr099@shsu.edu), *Associate Professor of Management, Department of Mgmt, Mktg, & Info Systems*, PHD, Clemson University; MBA, Michigan State University; BA, Iowa State University

Tommy J Robertson, JD (joey_robertson@shsu.edu), *Professor of Business Admin; Chair, Business Administration and Entrepreneurship, Department of Business Admin & Entrep*, JD, South Texas College of Law; BS, Texas A&M University

Petra Rocic, PHD (pxr037@shsu.edu), *Associate Professor of Physiology, Department of Physiology & Pharmacology*, PHD, Univ of Alabama-Birmingham; PHD, Univ of Alabama-Birmingham; BA, Oberlin College

Mitchel P Roth, PHD (icc_mpr@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Calif-Santa Barbara; MA, Univ of Calif-Santa Barbara; BA, Univ of Maryland-College Park

Jared Robert Ruchensky, PHD (jrr107@shsu.edu), *Assistant Professor of Psychology, Department of Psychology & Philosophy*, PHD, Texas A&M University; MS, Texas A&M University; BA, Creighton University

Danielle Sheldon Rudes, PHD (drudes@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Calif-Irvine; MA, Univ of Calif-Irvine; MA, Univ of New Orleans; BA, SUNY at Plattsburgh

ILonka Livia Rus, DMA (lir001@shsu.edu), *Professor of Music, School of Music*, DMA, Univ of Houston-Main; MM, Univ of Houston-Main; BM, Oberlin College

S

Daniel Saenz, DMA (dxs007@shsu.edu), *Associate Professor of Music, School of Music*, DMA, Univ of Houston-Main; MM, Rice University; BM, Univ of Rochester

Elisa Salem Herrmann, MFA (exh041@shsu.edu), *Associate Professor of Mass Communication, Department of Mass Communication*, MFA, Southern Illinois U-Carbondale; BED, Federal University of Parana

Supun Tamara Samarakoon, PHD (ssamarakoon@shsu.edu), *Assistant Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Texas A&M University; MS, Sam Houston State University; BS, University of Colombo

Jose Alberto Santiago, EDD (jas083@shsu.edu), *Professor of Kinesiology, Department of Kinesiology*, EDD, Texas Southern University; MA, Indiana State University; BA, Univ of Puerto Rico-Rio Piedra

Kiran Sapkota, PHD (kxs133@shsu.edu), *Assistant Professor of Public Health, Department of Public Health*, PHD, University of Iowa; PHD, University of Iowa; MS, University of Iowa; MPH, New Mexico State University; MS, New Mexico State University; MS, Tribhuvan University; BS, Tribhuvan University

Raisa Tasnim Sara, PHD (rts021@shsu.edu), *Assistant Professor of Economics, Department of Economics & Intl Business*, PHD, Texas A&M University; MSC, Univ of London - School Econ; BSC, Queen Mary Univ of London

Kristin Amanda Sarvela, DMA (kas192@shsu.edu), *Assistant Professor of Music, School of Music*, DMA, Univ of Illinois-Urbana; MM, Indiana University-Bloomington; BM, Univ of Illinois-Urbana

Philip Ryan Saucier, MS (ryansaucier@shsu.edu), *Associate Professor of Agricultural Sciences, Department of Agricultural Sciences*, MS, Sam Houston State University; BS, Sam Houston State University

David Patrick Saxon, EDD (dps006@shsu.edu), *Professor of Educational Leadership, Department of Educational Leadership*, EDD, Grambling State Univ; MBA, Appalachian State University; BSBA, Appalachian State University

Amanda Walters Scarbrough, PHD (aes060@shsu.edu), *Associate Professor of Public Health, Department of Public Health*, PHD, Univ of Texas Medical Branch; MHSA, George Washington University; BA, De Pauw University

Stephen Mark Scariano, PHD (sms049@shsu.edu), *Professor of Statistics, Department of Mathematics & Statistics*, PHD, Texas Tech University; MS, Texas Tech University; BS, Loyola Univ-New Orleans

Richard Neal Schaugaard, PHD (rns034@shsu.edu), *Assistant Professor of Chemistry, Department of Chemistry*, PHD, Indiana University; BS, Univ of Washington

Nicholas Leonard Scheel, PHD (nls046@shsu.edu), *Assistant Professor of Psychology, Department of Psychology & Philosophy*, PHD, Univ of South Florida; MA, Univ of South Florida; BS, Univ of Wisconsin-Green Bay

Mary Larue Scherer, PHD (mxs168@shsu.edu), *Assistant Professor of Sociology, Department of Sociology*, PHD, Univ of Massachusetts-Amherst; MA, Univ of Massachusetts-Amherst; BA, Warren Wilson College

Danica Lee Schieber, PHD (dschieber@shsu.edu), *Associate Professor of Business Administration, Department of Business Admin & Entrep*, PHD, Iowa State University; MA, Minnesota State Univ-Mankato; BA, Austin Peay State University

Nazanin Sedaghatkish, PHD (nazanins@shsu.edu), *Assistant Professor of Economics and International Business, Department of Economics & Intl Business*, PHD, Virginia Polytechnic&State U; PHD, Virginia Polytechnic&State U; MSC, Sharif Univ of Technology; BS, Shahid Beheshti University

Abdelilah Salim Sehlaoui, EDD (asehlaoui@shsu.edu), *Professor of Education, Department of Teaching & Learning*, EDD, Indiana University of Pennsylv; MA, Indiana University of Pennsylv; BA, Mohamed Ben Abdellah Univ

Ki Won Seo, PHD (kws014@shsu.edu), *Associate Professor of Mass Communication, Department of Mass Communication*, PHD, Penn State Un-Univ Park; MA, Penn State Un-Univ Park; MAC, Korea University; BA, Korea University; BA, Korea University

Narasimha Karpoor Shashidhar, PHD (nks001@shsu.edu), *Professor of Computer Science, Department of Computer Science*, PHD, Univ of Connecticut; MS, Univ of Connecticut; BE, University of Madras

April A Shemak, PHD (aas004@shsu.edu), *Professor of English, Department of English*, PHD, Univ of Maryland-College Park; MA, Univ of Maryland-College Park; BA, Univ of Wisconsin-Madison; BA, Univ of Wisconsin-Madison

Ronald E Shields, PHD (rshield@shsu.edu), *Professor of Theatre, Department of Theatre & Musical Theatre*, PHD, LSU & A&M College; MA, Bob Jones University; BA, Bob Jones University

Katie Jean Shinkle, PHD (kjs078@shsu.edu), *Assistant Professor of English, Department of English*, PHD, Univ of Denver; MFA, Univ of Alabama-Tuscaloosa; BA, Grand Valley State University

Tony R. Shipp, MFA (art_trs@shsu.edu), *Associate Professor of Art, Department of Art*, MFA, Univ of Florida; BA, Montana State Univ-Billings

Gabriela Judith Silvestre, PHD (gjs020@shsu.edu), *Assistant Professor of Education, Department of Educational Leadership*, PHD, University of Pittsburgh; MED, University of Pittsburgh; CERN, Universidad Nacional Del Lit

Jessica Annie Simorte, MFA (jxs117@shsu.edu), *Assistant Professor of Art, Department of Art*, MFA, Univ of Cincinnati; BA, University of Saint Mary

Vinoth Kumar Sittaramane, PHD (vks007@shsu.edu), *Professor of Biological Sciences, Department of Molecular & Cellular Biology*, PHD, Univ of Missouri-Columbia; DVM, Pondicherry University; MS, Indian Veterinary Research Institute

Shyam Sivankutty Nair, PHD (shyam.nair@shsu.edu), *Associate Professor of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Texas Tech University; MSC, Kerala Agricultural University; BSC, Kerala Agricultural University

Susana Troncoso Skidmore, PHD (skidmore@shsu.edu), *Professor of Educational Leadership, Department of Educational Leadership*, PHD, Texas A&M University; MED, Texas A&M University; BA, Texas A&M University

Britni Nicole Skillman, PHD (bns017@shsu.edu), *Assistant Professor of Forensic Science, Department of Forensic Science*, PHD, Sam Houston State University; BS, Sam Houston State University

John R Slate, PHD (jrs051@shsu.edu), *Professor of Educational Leadership, Department of Educational Leadership*, PHD, Univ of Tennessee-Knoxville; MA, Univ of Tennessee-Knoxville; BA, Eastern Illinois University

Andrea Marie Smith, PHD (axs226@shsu.edu), *Associate Professor of Nursing, School of Nursing*, PHD, Univ of Texas-Arlington; MSN, Baylor University; BSN, Univ of Texas Medical Branch; BA, Southern Illinois U-Carbondale

Ashly Lynn Bender Smith, PHD (als121@shsu.edu), *Associate Professor Business Administration, Department of Business Admin & Entrep*, PHD, Univ of Louisville; MA, New Mexico State University; BA, Texas State Univ-San Marcos

Gary W. Smith, PHD (gsmith@shsu.edu), *Associate Professor of Computing Science, Department of Computer Science*, PHD, Texas A&M University; MS, Oklahoma State University; BS, Texas A&M University

Sahar Ahmed Soliman, PHD (sxs187@shsu.edu), *Assistant Professor of Pharmacology, Department of Physiology & Pharmacology*, PHD, Univ of Georgia; BPHARM, Ain Shams University

Micheil Brian Spillane, PHD (mbs056@shsu.edu), *Assistant Professor of Kinesiology, Department of Kinesiology*, PHD, Baylor University; MSED, Baylor University; BS, Univ of Houston-Main

Jennifer Hatchett Stover, PHD (jlh159@shsu.edu), *Assistant Professor of Counselor Education, Department of Counselor Education*, PHD, Sam Houston State University; MA, Prairie View A&M University; MAT, Texas Woman's University; BS, Texas Woman's University

Wayman Jerome Stover, DMA (wjs016@shsu.edu), *Assistant Professor of Music, School of Music*, DMA, Boston University; MM, Depaul University; BM, Indiana University-Bloomington; BM, Indiana University-Bloomington; DIPL, Yale University

John B Strait, PHD (jbs008@shsu.edu), *Professor of Geography, Department of Environmental & Geosciences*, PHD, Univ of Georgia; MA, Georgia State University; BA, Wittenberg University

Jeffery W Strawser, PHD (aac_jws@shsu.edu), *Associate Professor of Accounting, Department of Accounting*, PHD, Texas A&M University; MS, Texas A&M University; BBA, Texas A&M University

William R Strawser, PHD (wxs018@shsu.edu), *Assistant Professor of Accounting, Department of Accounting*, PHD, Texas A&M University; MS, Texas A&M University; BA, Univ of Texas At Austin

Robert H Stretcher, PHD (fin_rhs@shsu.edu), *Professor of Finance, Department of Finance & Banking*, PHD, Univ of Tennessee-Knoxville; MBA, Univ of North Alabama; BA, Univ of Tennessee-Knoxville

Abbie Ruth Strunc, PHD (abbie.strunc@shsu.edu), *Associate Professor of Education and Associate Dean, College of Education, Department of Teaching & Learning*, PHD, Univ of North Texas; MED, Texas A&M University; BA, Texas A&M University

Kyle J Stutts, PHD (kjs015@shsu.edu), *Professor of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Texas A&M University; MS, Oklahoma State University; BS, Texas A&M University

James Bartlett Stykes, PHD (jbs048@shsu.edu), *Associate Professor and Acting Chair of Sociology, Department of Sociology*, PHD, Bowling Green State University; MA, Bowling Green State University; BS, Austin Peay State University

Min Jae Suh, PHD (mjs068@shsu.edu), *Associate Professor of Engineering Technology, Department of Engineering Technology*, PHD, Virginia Polytechnic&State U; MS, Stanford University; BENG, Yeungnam University

Jeffrey M Sullivan, PHD (jms107@shsu.edu), *Associate Professor of Counselor Education, Department of Counselor Education*, PHD, Univ of North Texas; MS, Univ of North Texas; BA, Univ of Texas At Austin

Laura Louise Sullivan, JD (lls003@shsu.edu), *Professor of Business Administration, Department of Business Admin & Entrep*, JD, South Texas College of Law; MBA, Sam Houston State University; BBA, Univ of Houston-Main

Eric P Svensen, PHD (eps007@shsu.edu), *Assistant Professor of Political Science, Department of Political Science*, PHD, Univ of Texas At Austin; MA, Univ of Texas At Austin; BA, San Diego City Coll

Mary B Swarthout, PHD (mbs001@shsu.edu), *Associate Professor of Mathematics Education, Department of Mathematics & Statistics*, PHD, Ohio State University; MA, Miami University; BA, Berea College

Edward W. Swim, PHD (ews007@shsu.edu), *Associate Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Texas Tech University; MS, Colorado School of Mines; BS, Angelo State University

T

Yingying Tang, PHD (yxt045@shsu.edu), *Assistant Professor of English, Department of English*, PHD, Auburn University; MS, North Carolina State Univ

Kandi A Tayebi, PHD (eng_kat@shsu.edu), *Professor of English, Department of English*, PHD, Univ of Denver; MA, Univ of Northern Colorado; BA, Univ of Northern Colorado

Kayoko Dan Temple, DMA (kayokodan@shsu.edu), *Assistant Professor of Music, School of Music*, DMA, Arizona State University; MM, Arizona State University; BM, Univ of Texas At Austin

Monte L. Thies, PHD (bio_mlt@shsu.edu), *Professor of Biology, Department of Biological Sciences*, PHD, Oklahoma State University; MS, Univ of Central Oklahoma; BS, Univ of Central Oklahoma

David E Thompson, PHD (det002@shsu.edu), *Professor of Chemistry, Department of Chemistry*, PHD, Univ of Wisconsin-Madison; BA, Carleton College

Christopher Michael Toula, PHD (cmt077@shsu.edu), *Assistant Professor of Mass Communication, Department of Mass Communication*, PHD, Georgia State University; MA, Penn State Un-Univ Park; BA, Buckinghamshire New University

Tarek Mohsen Trad, PHD (tmt033@shsu.edu), *Professor of Chemistry, Department of Chemistry*, PHD, Oklahoma State University; BS, Beirut Arab Univ

Manuel Triano-Lopez, PHD (mxt017@shsu.edu), *Associate Professor of Spanish, Department of World Languages & Cultures*, PHD, Indiana University; MA, Indiana University; BA, Universidad de Sevilla

Timothy O Trujillo, PHD (txt031@shsu.edu), *Associate Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Univ of Denver; MS, New Mexico Inst/Mining/Tech; BS, New Mexico Inst/Mining/Tech

Markland Howard Tuttle, PHD (mht001@shsu.edu), *Professor of Economics and Acting Chair, Economics & International Business, Department of Economics & Intl Business*, PHD, Univ of Tennessee-Knoxville; MBA, Sam Houston State University; BBA, Sam Houston State University

U

Stacy Gwenn Ulbig, PHD (sgu001@shsu.edu), *Professor of Political Science, Department of Political Science*, PHD, Rice University; MA, Rice University; BA, Univ of St Thomas

Francisco Usero Gonzalez, PHD (fug002@shsu.edu), *Assistant Professor of School of Teaching and Learning, Department of Teaching & Learning*, PHD, Univ of Houston-Main

Baburhan Uzum, PHD (uzum@shsu.edu), *Associate Professor of Education, Department of Teaching & Learning*, PHD, Michigan State University; MA, Middle East Technical Univ; BA, Middle East Technical Univ

V

Jorge G Varela, PHD (jgv002@shsu.edu), *Professor of Psychology and Chair, Psychology and Philosophy, Department of Psychology & Philosophy*, PHD, Univ of Alabama-Tuscaloosa; MA, Univ of Alabama-Tuscaloosa; BA, Florida Int'L Univ

Kristina K Vargo, PHD (kkv003@shsu.edu), *Professor of Education and Chair, School of Teaching and Learning, Department of Teaching & Learning*, PHD, Southern Illinois U-Carbondale; MS, Southern Illinois U-Carbondale; BS, Univ of Wisconsin-Eau Claire

Cihan Varol, PHD (cxv007@shsu.edu), *Professor of Computing Science, Department of Computer Science*, PHD, Univ of Arkansas-Little Rock; MS, West Virginia University; BSC, Firat University

Michael Scott Vaughn, PHD (msv002@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Sam Houston State University; MS, University of Central Missouri; BS, University of Central Missouri

Edna Viviana Velasquez, PHD (evv003@shsu.edu), *Assistant Professor of Spanish, Department of World Languages & Cultures*, PHD, Univ of Houston-Main; MA, Univ of Houston-Main

Adrian Villalta-Cerdas, PHD (axv067@shsu.edu), *Associate Professor of Chemistry, Department of Chemistry*, PHD, Univ of South Florida; MA, Univ of South Florida; BS, Univ of Costa Rica

W

Tamara A. Waggener, PHD (pol_taw@shsu.edu), *Associate Professor of Political Science, Department of Political Science*, PHD, Univ of Texas At Austin; BA, Cal Poly St-Pomona

Matthew Charles Wagner, PHD (mcw002@shsu.edu), Associate Professor of Kinesiology, Department of Kinesiology, PHD, Texas A&M University; MA, Sam Houston State University; BS, Sam Houston State University

WenJiun Wang, PHD (wjwang@shsu.edu), Assistant Professor of Political Science, Department of Political Science, PHD, University of Pittsburgh; MA, National Taipei University; BA, National Taipei University; BBA, National Taipei University

Xiaobo Wang, PHD (xiaobo.belle.wang@shsu.edu), Assistant Professor of English, Department of English, PHD, Georgia State University; BA, Northwest Normal University

Janis A Warner, PHD (jwarner@shsu.edu), Associate Professor of Management Information Systems, Department of Mgmt, Mktg, & Info Systems, PHD, Florida-Atlantic U; MBA, Univ of Denver; BA, Saint Mary's

Holly Ann Kizer Weimar, EDD (hweimar@shsu.edu), Professor and Chair of Library Science and Technology, Department of Library Sci & Technology, EDD, Univ of Houston-Main; EDD, Univ of Houston-Main; MLS, Sam Houston State University; MLS, Sam Houston State University; BSED, Stephen F Austin University; BSED, Stephen F Austin University

William M Wells, PHD (wmw005@shsu.edu), Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Univ of Nebraska-Omaha; MA, Indiana University-Bloomington; BA, Ohio University

Lu-Chung Weng, PHD (dennis.weng@shsu.edu), Associate Professor of Political Science, Department of Political Science, PHD, Univ of Texas At Dallas; MA, Univ of Texas At Dallas; MA, Tamkang College; BBA, Tamkang College

Rebecca Ann Wentworth, PHD (raw034@shsu.edu), Associate Professor of Education, Department of Teaching & Learning, PHD, Colorado State University; MED, Oakland University; BSED, Central Michigan Univ

Courtney Ann West, PHD (west@shsu.edu), Asst Dean of Osteopathic Medicine for Educational Development, Adjunct Faculty, Department of Primary Care & Clinical Medi, PHD, Texas A&M University; MED, Sam Houston State University; BS, Sam Houston State University

Stephen Walter White, PHD (sww012@shsu.edu), Assistant Professor of Psychology, Department of Psychology & Philosophy, PHD, Univ of Mississippi; MA, Univ of Mississippi; BA, Univ of Mississippi

Grant Joseph Wiedenfeld, PHD (grant.wiedenfeld@shsu.edu), Associate Professor of Mass Communication, Department of Mass Communication, PHD, Yale University; MPHIL, Yale University; MA, Yale University; MFA, Univ of Wisconsin-Milwaukee; BA, Univ of Colorado; BFA, Univ of Colorado

Darren Lee Williams, PHD (williams@shsu.edu), Professor of Chemistry, Department of Chemistry, PHD, Oregon State University; BS, Univ of Texas At Austin

Justin K. Williams, PHD (bio_jkw@shsu.edu), Professor of Biology and Assistant Dean, Honors College, Department of Biological Sciences, PHD, Univ of Texas At Austin; BA, Univ of Texas At Austin

Mary Lola Williams, EDD (mlw049@shsu.edu), Associate Professor of Kinesiology, Department of Kinesiology, EDD, Texas A&M-Corpus Christi; MA, Texas A&M-Corpus Christi; BA, Coe College; BA, Coe College; BA, Coe College

Kamphol Wipawayangkool, PHD (kxw012@shsu.edu), Associate Professor of Management Information Systems, Department of Mgmt, Mktg, & Info Systems, PHD, Univ of Texas-Arlington; MS, Univ of Houston-Clear Lake; BS, Prince of Songkla University

Lawrence Arthur Wolfskill, PHD (wolfskill@shsu.edu), Professor of Agricultural Sciences, Department of Agricultural Sciences, PHD, Texas A&M University; MBA, Texas A&M University; BS, Texas A&M University

Mary Elizabeth Wood, PHD (mew095@shsu.edu), Assistant Professor of Psychology, Department of Psychology & Philosophy, PHD, Univ of Alabama-Tuscaloosa; MA, Univ of Alabama-Tuscaloosa; BS, Kennesaw State University

Dennis C Wooten, PHD (dcw032@shsu.edu), Assistant Professor of Pathology, Department of Clinical Anatomy, PHD, Purdue University; MD, Univ of Texas HSC-Houston; BS, Clark Atlanta University

Jeffrey R Wozniak, PHD (jrw034@shsu.edu), Associate Professor of Biology, Department of Biological Sciences, PHD, Florida Int'L Univ; BS, Allegheny College

Y

Liu Yang, PHD (willowyang@shsu.edu), Assistant Professor of Management, Department of Mgmt, Mktg, & Info Systems, PHD, Univ of Missouri-St Louis; MBA, Queen Mary Univ of London; BENG, Xi'an Jiaotong University

Shengjie Yao, MA (sxy027@shsu.edu), Assistant Professor of Mass Communication, Department of Mass Communication, MA, Syracuse University; MS, Syracuse University; BA, Fu Jen Catholic Univ

Faruk Yildiz, DIT (fxy001@shsu.edu), *Professor and Chair of Engineering Technology, Department of Engineering Technology*, DIT, Univ of Northern Iowa; MS, Cuny City Coll; BS, MKH Dulati Taraz State Univ

Chase Jonathan Young, PHD (cxy010@shsu.edu), *Professor of Education, Department of Teaching & Learning*, PHD, Univ of North Texas; MS, Walden University; BA, Metropolitan St Univ of Denver

Chi Chung Yu, PHD (jorny@shsu.edu), *Professor of Forensic Science, Department of Forensic Science*, PHD, Carleton University; MS, Central Police University; BS, Central Police University

Z

Samar M Zahrawi, PHD (sxz015@shsu.edu), *Associate Professor of Arabic, Department of World Languages & Cultures*, PHD, University of Leeds; BA, Al-Ba'ath University

Christopher M Zall, PHD (cxz027@shsu.edu), *Associate Professor of Chemistry, Department of Chemistry*, PHD, Univ of Minnesota-Twin Cities; MS, Univ of Minnesota-Twin Cities; BA, Carleton College

Ryan K Zapalac, PHD (rkz001@shsu.edu), *Professor of Kinesiology and Associate Dean, COHS, Department of Kinesiology*, PHD, Univ of Houston-Main; MED, Univ of Houston-Main; BS, Univ of Houston-Main

Pamela J Zelbst, PHD (mgt_pjz@shsu.edu), *Distinguished Professor of Management, Department of Mgmt, Mktg, & Info Systems*, PHD, Univ of Texas-Arlington; MBA, Sam Houston State University; BBA, Sam Houston State University

Shuangyue Zhang, PHD (sxz002@shsu.edu), *Professor of Communication Studies, Department of Communication Studies*, PHD, Ohio State University; MA, Kent State University; MA, Shandong University; BA, Shandong Normal University

Yan Zhang, PHD (icc_yxz@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Michigan State University; MS, Michigan State University; MS, Michigan State University; BS, Wuhan University

Jihong Zhao, PHD (jxz006@shsu.edu), *Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Washington State University; MA, Washington State University; BA, Shanghai Inst of Higher Edu

Yuan Zhao, PHD (yxz028@shsu.edu), *Associate Professor of Microbiology and Immunology; Acting Chair, Molecular/Cell, Department of Molecular & Cellular Biology*, PHD, Univ of Louisville; MS, Univ of Louisville; BS, East China Normal Un

Bing Zhou, PHD (bxz003@shsu.edu), *Associate Professor and Chair of Computer Science, Department of Computer Science*, PHD, University of Regina; MS, University of Regina; BS, Shandong Univ of Technology

Linda Reichwein Zientek, PHD (lrz002@shsu.edu), *Professor of Mathematics, Department of Mathematics & Statistics*, PHD, Texas A&M University; MS, Sam Houston State University; BS, Sam Houston State University

A

Heather Ann Alaniz, MA (haa034@shsu.edu), *Lecturer of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, MA, Univ of Houston-Clear Lake

Adannaa Oparanozie Alexander, MPH (aoalexander@shsu.edu), *Clinical Assistant Professor of Public Health, Department of Public Health*, MPH, Emory University; AB, Washington University

Robert Scott Allen, EDD (rsa002@shsu.edu), *Lecturer of Education, Department of Teaching & Learning*, EDD, Sam Houston State University; MED, Sam Houston State University; BFA, Texas State Univ-San Marcos

Dusanka Armstrong, MA (dxa015@shsu.edu), *Adjunct, Department of Counselor Education*, MA, Sam Houston State University; BS, Sam Houston State University

Leah Marie Arrington, PHD (lma070@shsu.edu), *Lecturer of Education, Department of Teaching & Learning*, PHD, Texas Woman's University; MS, Utah State University; BS, Brigham Young University

B

Jamie Heintz Benson, EDD (jlh015@shsu.edu), *Clinical Assistant Professor of Education, Department of Teaching & Learning*, EDD, Sam Houston State University; MED, Sam Houston State University; BBA, Sam Houston State University

Katelyn Jane Blankenburg, MMT (kjb045@shsu.edu), *Clinical Assistant Professor of Music, School of Music*, MMT, Loyola Univ-New Orleans; BM, Sam Houston State University

Breanna Lynne Boppre, PHD (bxb078@shsu.edu), *Lecturer of Victim Studies, Department of Victim Studies*, PHD, Univ of Nevada-Las Vegas; MS, Portland State University; BA, Univ of Nevada-Reno

Rasika Nitin Borse, MFA (rnb020@shsu.edu), *Lecturer of Dance, Department of Dance*, MFA, Sam Houston State University; BA, Univ of Calgary

Craig S Boudreaux, DO (c.boudreaux@shsu.edu), *Assistant Professor of Family Medicine; Assistant Dean, COM, Department of Primary Care & Clinical Medi*, DO, Univ of North TX Hlth Sci Cntr; BBA, Univ of Texas At Austin

Mary Magdalene Breaux, PHD (mmp019@shsu.edu), *Associate Professor of Practice of Victim Studies, Department of Victim Studies*, PHD, Prairie View A&M University; MA, Webster University; BS, Sam Houston State University

Casey Camille Graham Brown, PHD (ccb068@shsu.edu), *Adjunct Faculty, Associate Dean COE, Department of Educational Leadership*, PHD, Oklahoma State University; MED, Oklahoma State University; BS, Southeastern Oklahoma St Univ

Juanita M Brown, DO (jmb228@shsu.edu), *Associate Professor of Osteopathic Principles and Practice, Department of Osteopath Principles & Pract*, DO, Nova Southeastern University; BS, Florida Southern College

Alisha N Bullion, MS (anb035@shsu.edu), *Lecturer of Agricultural Sciences, Department of Agricultural Sciences*, MS, Sam Houston State University; BS, Sam Houston State University

Jennifer Ann Bunn, PHD (jab229@shsu.edu), *Professor of Kinesiology and Associate Dean of COHS, Department of Kinesiology*, PHD, Baylor University; MS, Univ of Kentucky; BS, Nicholls State University

Laura Keilers Burleson, PHD (hec_lpb@shsu.edu), *Assistant Professor of Interior Design, Department of Human Sciences*, PHD, Texas Tech University; MS, Oklahoma State University; BS, Oklahoma State University

Kirk A Burns, MS (lib_kab@shsu.edu), *Lecturer of Computer Science, Department of Computer Science*, MS, Sam Houston State University; BS, Sam Houston State University

Tonya Renae Burton, DMA (trb069@shsu.edu), *Lecturer of Music, School of Music, DMA, Univ of Maryland-College Park; MM, Rice University; BM, Cleveland Institute of Music*

Christine Marie Butler, EDD (cmb013@shsu.edu), *Lecturer of Educational Leadership, Department of Educational Leadership, EDD, Sam Houston State University; MA, Northwestern St Un of Louisiana; BA, Northwestern St Un of Louisiana*

C

Ouida M Collins, MD (omc007@shsu.edu), *Assistant Professor of Family Medicine, Department of Primary Care & Clinical Medi, MD, Meharry Medical College; MPH, Univ of Texas HSC-Houston; BS, Xavier University of Louisiana*

Jay O Coons, PHD (stdjoc12@shsu.edu), *Assistant Professor of Practice of Criminal Justice, Department of Criminal Justice & Criminology, PHD, Sam Houston State University; MS, Sam Houston State University; BS, Sam Houston State University*

Melissa Dawn Cummins, PHD (mdc071@shsu.edu), *Lecturer of Music, School of Music, PHD, Univ of Kansas; MM, Univ of South Dakota; MMED, Southeast Missouri State Univ; BSED, Nw Missouri St Univ*

Peter Andrew Curka, DO (pac027@shsu.edu), *Associate Professor of Osteopathic Manipulative Medicine, Department of Osteopath Principles & Pract, DO, University of New England; BS, Boston College*

D

Magdalena A Denham, EDD (mxm002@shsu.edu), *Professor of Practice of Security Studies, Department of Security Studies, EDD, Sam Houston State University; MA, San Diego St Univ; BA, Univ of San Diego*

Jill Sayes Dewey, PHD (jsd043@shsu.edu), *Assistant Professor of Practice in Biological Sciences, Department of Biological Sciences, PHD, Texas A&M University; BS, LSU & A&M College*

Clayton Reed Dodson, PHD (crd073@shsu.edu), *Assistant Professor of Practice for Education, Department of Teaching & Learning, PHD, University of North Dakota; MED, University of North Dakota; BSED, Mayville State University*

Zachary A Doleshal, PHD (zad007@shsu.edu), *Lecturer of History, Department of History, PHD, Univ of Texas At Austin; MA, Univ of Texas At Austin; BA, Univ of New Mexico*

Rebecca Duncan-Ramirez, PHD (rlw003@shsu.edu), *Clinical Assistant Professor of Educational Leadership, Department of Educational Leadership, PHD, Ferris State University; MED, Sam Houston State University; BBA, Sul Ross State University*

Jaime Betancourt Duran, PHD (jbd023@shsu.edu), *Clinical Assistant Professor of Education, Department of Teaching & Learning, PHD, Texas A&M University; MED, Univ of Texas-Pan American; BA, Univ of Texas-Pan American*

F

Carolyn F Fiaschetti, EDD (cff004@shsu.edu), *Lecturer of Educational Leadership, Department of Educational Leadership, EDD, Sam Houston State University; MED, Sam Houston State University; BS, Miami University-Ohio*

Richard Kirby Ford, EDD (rkf006@shsu.edu), *Lecturer of Agricultural Sciences, Department of Agricultural Sciences, EDD, Texas A&M University; MS, Texas A&M-Kingsville; BS, Texas A&M University*

Fred Allen Forgey, PHD (forgey@shsu.edu), *Associate Dean COBA, Department of Business Admin & Entrep, PHD, Texas Tech University; MBA, Univ of North Texas; BBA, Univ of Texas-Arlington*

Kristie L Franks, MS (stdkxr14@shsu.edu), *Lecturer of Agricultural Sciences, Department of Agricultural Sciences, MS, Sam Houston State University; BS, Sam Houston State University*

Leif M French, PHD (lmf027@shsu.edu), *Adjunct Faculty, Sr. Associate Dean, CHSS, Department of World Languages & Cultures, PHD, Universite Laval; MA, Universite Laval; BA, California St Un-Sacramento*

Daphne K Fulton, DPH (dsf005@shsu.edu), *Clinical Assistant Professor of Public Health, Department of Public Health, DPH, Texas A&M University; MPH, Texas A&M University; BS, Sam Houston State University*

G

Shaun Lester Gabbidon, PHD (slg122@shsu.edu), *Visiting Professor of Criminal Justice and Criminology, Department of Criminal Justice & Criminology, PHD, Indiana University of Pennsylv; MS, Univ of Baltimore; BS, Christopher Newport University*

Anne R Gaillard, PHD (bio_arg@shsu.edu), *Adjunct Faculty; Vice Provost, Department of Biological Sciences, PHD, Emory University; BS, Purdue University*

Megan Renee Garzaglass, PHD (mrg044@shsu.edu), *Lecturer of Counselor Education, Department of Counselor Education*, PHD, Sam Houston State University; MS, Univ of Houston-Clear Lake; BS, California St Un-Sacramento

Martin Daniel Gaston, MED (mdg078@shsu.edu), *Lecturer of Mass Communication, Department of Mass Communication*, MED, Houston Christian University; BS, Texas Tech University

Sefik T Gokaslan, MD (stg016@shsu.edu), *Professor of Practice in Pathology, Department of Clinical Anatomy*, MD, Univ of Istanbul

Danielle Marie Goodspeed, PHD (dmg048@shsu.edu), *Visiting Assistant Professor of Biological Sciences, Department of Biological Sciences*, PHD, Rice University; MS, Rice University; BS, Roger Williams University; BS, Roger Williams University

Christopher D Greenleaf, PHD (cdg053@shsu.edu), *Clinical Assistant Professor of Kinesiology, Department of Kinesiology*, PHD, Rocky Mountain Univ Health Pro; MS, Middle Tennessee State Univ; BS, Charleston Southern University

Janet Lynn Gregory, DO (jlg160@shsu.edu), *Assistant Professor of Clinical Medicine, Department of Primary Care & Clinical Medi*, DO, Univ of N. Texas Hlth Sci Cnt; BA, Univ of Louisiana-Monroe

Pooja Gupta, EDD (pxg055@shsu.edu), *Clinical Assistant Professor of Special Education, Department of Teaching & Learning*, EDD, Univ of Houston-Main; MS, Univ of Houston-Clear Lake; BED, Women's University; BC, University of Bombay

H

Robert G Harmon, MSN (rgh012@shsu.edu), *Clinical Assistant Professor of Nursing, School of Nursing*, MSN, Univ of Texas HSC-Houston; BSN, Austin Peay State University

Susan Renee Harte, EDD (susanharte@shsu.edu), *Clinical Assistant Professor of Education, Department of Teaching & Learning*, EDD, Texas A&M - Commerce; MED, Lamar University; MA, Univ of Nebraska-Omaha; BSED, Peru State College

Courtney Robert Hebert, EDD (crh075@shsu.edu), *Lecturer of Library Science and Technology, Department of Library Sci & Technology*, EDD, Sam Houston State University; MED, Nicholls State University; BA, Nicholls State University

Natalie D Hegwood, PHD (eco_ndh@shsu.edu), *Adjunct Faculty and Assistant Dean, College of Business Administration, Department of Economics & Intl Business*, PHD, Univ of Houston-Main; MA, Univ of Houston-Main; BBA, Univ of Texas At Austin; BBA, Univ of Texas At Austin

Janene Withers Hemmen, EDD (stdjwh22@shsu.edu), *Clinical Assistant Professor of Educational Leadership, Department of Educational Leadership*, EDD, Sam Houston State University; MED, Sam Houston State University; BA, Iowa State University

Michael Henderson, MFA (mhenderson@shsu.edu), *Professor of Art and Associate Dean, CAM; Adjunct Faculty, Department of Art*, MFA, Univ of North Texas; BFA, Univ of North Texas

Nicole Renee Hendricks, PHD (nrh031@shsu.edu), *Visiting Assistant Professor of Mass Communication, Department of Mass Communication*, PHD, Univ of Southern Mississippi; MA, Ball State University; BA, Quincy College

Kenneth E Hendrickson, PHD (his_keh@shsu.edu), *Dean of Graduate Studies, Professor of History, Department of History*, PHD, University of Iowa; MA, Texas A&M University; BA, Texas A&M University

Ernesto Molinar Hernandez, PHD (emh060@shsu.edu), *Lecturer of Food Science & Nutrition, Department of Human Sciences*, PHD, Univ of Massachusetts-Amherst; MS, Oregon State University; BS, University of Guanajuato

Carly Ann Hoffmann, PHD (cahoffmann@shsu.edu), *Assistant Professor of Practice of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Texas A&M University; MS, Texas Tech University; BS, Texas A&M University

Lonna Ann Marie Holland, MS (lah045@shsu.edu), *Lecturer of Agricultural Sciences, Department of Agricultural Sciences*, MS, Sam Houston State University; BS, Sam Houston State University

Aaron David Hyams, PHD (adh061@shsu.edu), *Lecturer of History, Department of History*, PHD, Marquette University; MA, Univ of Montana-Missoula; BA, Marquette University

Dustin L Jones, PHD (dljones@shsu.edu), *Adjunct Faculty; Associate Dean COSET and Professor of Mathematics Education, Department of Mathematics & Statistics*, PHD, Univ of Missouri-Columbia; MS, Texas A&M University; BS, Southwest Baptist University

K

Allen W. Kaminski, MS (awk002@shsu.edu), *Lecturer of Education, Department of Teaching & Learning*, MS, Sam Houston State University; BS, Sam Houston State University

Cliffton Herb Garland Karnes, MPA (cxk012@shsu.edu), *Lecturer of Political Science, Department of Political Science*, MPA, Sam Houston State University; BA, Howard Payne University

Nichole J Karpel, EDD (njk017@shsu.edu), *Lecturer of Educational Leadership, Department of Educational Leadership*, EDD, George Washington University; MED, Penn State Un-Univ Park; BA, East Connecticut State Univ

Max Katz Crook, PHD (mxk095@shsu.edu), *Lecturer of Political Science, Department of Political Science*, PHD, Univ of Nottingham

Elizabeth Colburn Klammer, EDD (stdeck11@shsu.edu), *Lecturer of Educational Leadership, Department of Educational Leadership*, EDD, Sam Houston State University; MED, Sam Houston State University; BS, Sam Houston State University

L

Travis Dale Lake, MFA (tlake@shsu.edu), *Lecturer of Dance, Department of Dance*, MFA, Sam Houston State University; BFA, Univ of Utah

Jarod Michael Lambert, EDD (jml013@shsu.edu), *Lecturer of Educational Leadership, Department of Educational Leadership*, EDD, Sam Houston State University; MED, Univ of Houston-Main; BS, Univ of Houston-Main

James Victor Landrum, PHD (jvl016@shsu.edu), *Lecturer of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Univ of Texas At Austin; MS, Univ of Southern Mississippi; BS, Mississippi State University

Rudy Leal McCormack, PHD (rudymc@shsu.edu), *Lecturer of Political Science, Department of Political Science*, PHD, Colorado State University; MA, Florida Int'L Univ; BA, Florida Int'L Univ; BA, Florida Int'L Univ

Townes Randolph Leigh, DO (trl027@shsu.edu), *Assistant Professor of Family Medicine, Department of Primary Care & Clinical Medi*, DO, West Virginia School Osteo Med; BS, Univ of Tennessee-Martin

Olena Viacheslavivna Leipnik, PHD (oxl001@shsu.edu), *Lecturer of Sociology, Department of Sociology*, PHD, Kharkiv VN Karazin Nat'l Univ; MA, Luhansk T. S. Pedagogical Univ; MA, Kyiv Taras Shevchenko Nat'l Un; BA, Kyiv Taras Shevchenko Nat'l Un

Li-Jen Yu Lester, EDD (lys001@shsu.edu), *Adjunct Faculty; Professor and Associate Dean COSET, Department of Computer Science*, EDD, Sam Houston State University; MA, Sam Houston State University; BS, Tahan Institute of Technology

Brian M Loft, PHD (mth_bml@shsu.edu), *Associate Professor of Mathematics, Assistant Provost of Sponsored Programs, Department of Mathematics & Statistics*, PHD, Univ of Oregon; MS, Texas State Univ-San Marcos; BS, Louisiana Tech University

Mia Chandra Long Anderson, PHD (mcl055@shsu.edu), *Associate Dean CAM; Professor and Acting Chair of Mass Communication, Department of Mass Communication*, PHD, Univ of Alabama-Tuscaloosa; MS, Univ of Tennessee-Knoxville; BA, Univ of Georgia

Phillip Mitchell Lyons, PHD (icc_pml@shsu.edu), *Professor of Security Studies; Dean, College of Criminal Justice, Department of Criminal Justice & Criminology*, PHD, Univ of Nebraska-Lincoln; JD, Univ of Nebraska-Lincoln; MA, Univ of Nebraska-Lincoln; BS, Univ of Houston-Clear Lake

M

Darla Deann McBryde, MM (dxm121@shsu.edu), *Visiting Assistant Professor of Music, School of Music*, MM, Stephen F Austin University; BMED, Baylor University

Robert Wayne Mcqueen, MS (rwm021@shsu.edu), *Assistant Professor of Practice of Wildlife Management, Department of Agricultural Sciences*, MS, Sam Houston State University; BS, Eastern Kentucky University

Benjamin Mitchell-Yellin, PHD (bxm040@shsu.edu), *Adjunct Faculty, Department of Psychology & Philosophy*, PHD, Univ of Calif-Riverside; MA, Boston College; BA, Univ of Michigan

Staci Elizabeth Mizell, EDD (sem108@shsu.edu), *Lecturer of Educational Leadership, Department of Educational Leadership*, EDD, Univ of Houston-Clear Lake; MBA, Univ of Houston-Clear Lake; BS, Univ of Houston-Clear Lake

David Joseph Moeller, MD (djm087@shsu.edu), *Assistant Professor of Practice in Radiology, Department of Clinical Anatomy*, MD, Univ of Texas Medical Branch; MS, Saint Mary's College; BS, St Edwards University

Holly Marie Tetreault Moore, EDD (hmm039@shsu.edu), *Assoc Dir of Alt Cert Program; Adjunct Faculty, Department of Teaching & Learning*, EDD, Sam Houston State University; MSED, Univ of Kansas; BS, Oklahoma State University

Michael Copeland Moore, DVM (mcm014@shsu.edu), *Lecturer of Agricultural Sciences, Department of Agricultural Sciences*, DVM, Texas A&M University; BS, Texas A&M University; BS, Univ of Texas Medical Branch

Stephen Lee Morrison, PHD (sxm130@shsu.edu), *Lecturer of Criminal Justice, Department of Criminal Justice & Criminology*, PHD, Univ of Southern Mississippi; MA, Univ of Houston-Clear Lake; BS, Univ of Houston-Clear Lake

N

Karen Lee Nelson, PHD (kln005@shsu.edu), *Assistant Professor of Clinical Psychology, Department of Primary Care & Clinical Medi*, PHD, Univ of Houston-Main; MED, Univ of Houston-Main; BA, Southwestern University

Ray Gene Newman, PHD (rgn006@shsu.edu), *Lecturer of Public Health, Department of Public Health*, PHD, New York University; MPHIL, New York University; MBA, California St Un-Long Beach; BS, East Central University

Kristin Leigh Nicholson, PHD (kln017@shsu.edu), *Assistant Professor of Practice of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Texas A&M University; MS, Texas A&M University; BS, Texas A&M University

Rebecca Maria Novotny, EDD (stdrmn11@shsu.edu), *Lecturer of Library Science and Technology, Department of Library Sci & Technology*, EDD, Sam Houston State University; MLS, Sam Houston State University; BA, Marymount College

O

Caitlin O'Connell, PHD (cmo042@shsu.edu), *Lecturer of Kinesiology, Department of Kinesiology*, PHD, Univ of Pittsburg; BS, Univ of Rochester

Ronald B O'Neal, PHD (boneal@shsu.edu), *Assistant Professor of Practice in Mass Communication, Department of Mass Communication*, PHD, Our Lady of Lake University; MBA, University of Phoenix; BA, Howard University

Tyler Brandon Orcutt, BFA (tbo006@shsu.edu), *Lecturer of Dance, Department of Dance*, BFA, Univ of South Florida

P

Jill Sandra Pagels, EDD (jsp018@shsu.edu), *Clinical Assistant Professor of Teaching and Learning, Department of Teaching & Learning*, EDD, Sam Houston State University; MED, Sam Houston State University; BA, Univ of Arizona

Michelle Renae Parker, EDD (stdmrh14@shsu.edu), *Assistant Professor of Practice of Education, Department of Teaching & Learning*, EDD, Univ of Houston-Main; MED, Sam Houston State University; BS, Sam Houston State University

Christopher Francis Patane, PHD (cfp009@shsu.edu), *Lecturer of Political Science, Department of Political Science*, PHD, Univ of Missouri-Columbia; MA, Univ of Missouri-Columbia; BA, Univ of Missouri-Columbia; BA, Univ of Missouri-Columbia

Dwayne Pavelock, EDD (agr_dxp@shsu.edu), *Lecturer of Education, Department of Teaching & Learning*, EDD, Texas Tech University; MED, Sam Houston State University; BS, Sam Houston State University

Prasopsuk Yabsantiya Pinto, EDD (pyp001@shsu.edu), *Clinical Associate Professor of Education, Department of Teaching & Learning*, EDD, Sam Houston State University; MS, Texas A&M-Kingsville; BED, Chulalongkorn University

Erin Nicole Pitts, MA (enp008@shsu.edu), *Clinical Assistant Professor of Counselor Education, Department of Counselor Education*, MA, Sam Houston State University; BS, Sam Houston State University

Megan Becker Powell, MD (stdmdb26@shsu.edu), *Assistant Professor of Clinical Medicine, Department of Primary Care & Clinical Medi*, MD, Univ. of Texas-Med-Galveston; BS, Sam Houston State University

Debra Patricia Price, PHD (edu_dpp@shsu.edu), *Professor of Education, Department of Teaching & Learning*, PHD, Univ of Texas At Austin; MED, LSU & A&M College; BS, Univ of Colorado

R

Jonathan M Read, MFA (jmr138@shsu.edu), *Lecturer of Mass Communication, Department of Mass Communication*, MFA, Sam Houston State University; BA, Univ of Houston-Main

Jacob Daniel Regan, MFA (jacobregan@shsu.edu), *Lecturer-Pool Faculty of Art, Department of Dance*, MFA, Sam Houston State University; BFA, East Carolina Univ

Shani Nicole Robinson, PHD (snr001@shsu.edu), *Senior Associate Dean, COBA; Adjunct Faculty, Department of Accounting*, PHD, Univ of North Texas; MBA, Sam Houston State University; BBA, Sam Houston State University

S

Mark Christopher Saber, PHD (marksaber@shsu.edu), *Lecturer of Criminal Justice and Criminology, Department of Criminal Justice & Criminology*, PHD, Univ of Texas At Dallas; MS, Univ of Texas At Dallas; MA, Univ of Texas-Arlington; BA, Univ of Texas-Arlington

Brent W Sanderlin, DO (b.sanderlin@shsu.edu), *Associate Professor of Family Medicine; Chair, Primary Care & Clinical Medicine, Department of Primary Care & Clinical Medi*, DO, Univ of North TX Hlth Sci Cntr; BS, Texas State Univ-San Marcos

Elizabeth Harris Sargent, DO (ehs008@shsu.edu), *Assistant Professor of Clinical Medicine, Department of Primary Care & Clinical Medi*, DO, William Carey University; BA, Univ of Mississippi

Lauren Rose Serrano, MFA (lrs054@shsu.edu), *Lecturer of Dance, Department of Dance*, MFA, Sam Houston State University; MA, Cuny Hunter College; BFA, Univ of Calif-Santa Barbara

Natasha Vipul Shah, MD (nxs059@shsu.edu), *Assistant Professor of Pediatrics, Department of Primary Care & Clinical Medi*, MD, Texas A&M University; BS, Univ of Texas At Austin

Joseph F Shannon, PHD (jfs028@shsu.edu), *Lecturer of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Stephen F Austin University; MS, Sam Houston State University; BS, Sam Houston State University

Elizabeth L Shively, PHD (els032@shsu.edu), *Lecturer of Political Science, Department of Political Science*, PHD, Ohio State University; MA, George Washington University; BA, Indiana University

Gregg Stephen Silberg, DO (gss023@shsu.edu), *Professor of Clinical Medicine, Department of Primary Care & Clinical Medi*, DO, Kansas City Univ of Med&BioSci; MBA, Univ of Tennessee-Knoxville; BS, Drake University

Beverly Ann Smith-Edwards, PHD (bas076@shsu.edu), *Lecturer of Library Science and Technology, Department of Library Sci & Technology*, PHD, Univ of Oklahoma-Norman; MLIS, Univ of Oklahoma-Norman; BSED, Mayville State University

Anne Bennett Cook Smithson, PHD (abs055@shsu.edu), *Lecturer of Communication Studies, Department of Communication Studies*, PHD, George Mason University; JD, Northern Kentucky; MA, Georgetown University; BA, Univ of Kentucky

Diane Stoebner-May, PHD (dxs011@shsu.edu), *Adjunct Faculty, Department of Psychology & Philosophy*, PHD, Univ of Houston-Main; MA, Univ of Texas-El Paso; BA, Univ of Texas-San Antonio

James D Sugg, PHD (jds233@shsu.edu), *Lecturer of Agricultural Sciences, Department of Agricultural Sciences*, PHD, Texas A&M University; MS, Texas A&M University; BS, Texas A&M University

Mst Rasheda Sultana, PHD (mxs218@shsu.edu), *Clinical Assistant Professor of Public Health, Department of Public Health*, PHD, Grad Sch & Univ Center; MPHIL, Grad Sch & Univ Center; MSC, University of Dhaka; BSC, University of Dhaka

T

Peggy Hejtmancik Taylor, MD (pht005@shsu.edu), *Assistant Professor of Obstetrics and Gynecology, Department of Primary Care & Clinical Medi*, MD, Univ of Texas HSC-Houston; MS, Sam Houston State University; BA, Texas A&M University

Veronica Diana Tristan, EDD (vdt001@shsu.edu), *Lecturer of Education, Department of Teaching & Learning*, EDD, Univ of Houston-Downtown; MED, Sam Houston State University; BA, Univ of Houston-Downtown

V

Jill Sharp Vaughan, BBA (jls227@shsu.edu), *Assistant Professor of Practice and Smith-Hutson Endowed Chair of Banking, Department of Finance & Banking*, BBA, Sam Houston State University

Stacey Lynn Victor, EDD (sedmonson@shsu.edu), *Professor of Education and Dean, College of Education, Department of Educational Leadership*, EDD, Texas A&M - Commerce; MED, Texas A&M - Commerce; BA, Texas A&M University

Maureen Victoria, PHD (mxv100@shsu.edu), *Assistant Professor of Practice in Agricultural Sciences, Department of Agricultural Sciences*, PHD, Texas A&M University; MS, Univ of Missouri-Columbia; BS, Texas State Univ-San Marcos

W

Kimberly M Waaso, DO (kmw135@shsu.edu), *Assistant Professor of Clinical Medicine, Department of Primary Care & Clinical Medi*, DO, Kansas City Univ of Med&BioSci; BS, Michigan State University

Candace Lynn Walkley, MD (clw117@shsu.edu), *Assistant Professor of Internal Medicine, Department of Primary Care & Clinical Medi*, MD, Univ of Texas SW Medical Center; BS, Univ of Texas-Arlington

Terrence R Waugh, PHD (trw006@shsu.edu), *Lecturer of Engineering Technology, Department of Engineering Technology*, PHD, Univ of Nebraska-Lincoln; MS, Univ of Nebraska-Omaha; BA, Creighton University

Kelly Lynn Matheney Weikle, PHD (klw121@shsu.edu), *Lecturer of Communication Studies, Department of Communication Studies*, PHD, Ohio University; MA, Ohio University; MMC, Univ of S Carolina-Columbia; BSJ, West Virginia University

Edith Carol Wells, MFA (ediewells@shsu.edu), *Assistant Professor of Practice in Art, Department of Art*, MFA, Goddard College; MA, Southwest Baptist Theo Seminar; BS, Auburn University

Susannah Leigh Williamson, PHD (sxw058@shsu.edu), *Lecturer of Kinesiology, Department of Kinesiology*, PHD, Texas A&M University; MA, Teachers College Columbia Univ; BA, Brown University; BA, Brown University

Marsha Clark Wilson, MBA (mcw021@shsu.edu), *Lecturer of Agricultural Sciences, Department of Agricultural Sciences*, MBA, Univ of Houston-Main; BS, Univ of Texas At Austin

Megan Leigh Woolford, MD (mlw090@shsu.edu), *Assistant Professor of Family Medicine, Department of Primary Care & Clinical Medi*, MD, Baylor College of Medicine; BS, Texas A&M University

Warren Brandon Wright, MED (wbw007@shsu.edu), *Lecturer of Education, Department of Counselor Education*, MED, Georgia Southern University; BS, Georgia Southern University

Brooklynn Joy Wynveen, PHD (bjw028@shsu.edu), *Lecturer of Sociology, Department of Sociology*, PHD, Clemson University; MNRD, Texas A&M University; BA, Univ of Maryland-Univ Coll

X

Yue Xie, PHD (yxx008@shsu.edu), *Associate Professor of Practice in Public Health, Department of Public Health*, PHD, Univ of Tx Health Science Cntr; ME, Massachusetts Inst of Tech; MHA, Tulane University; BBA, Univ of Miami

Z

Paul W Zarutskie, MD (pwz001@shsu.edu), *Associate Professor of Clinical Medicine, Department of Primary Care & Clinical Medi*, MD, Drexel University; BS, Duke University; BS, Duke University

Kelly Kristine Zinn, PHD (kkzinn@shsu.edu), *Clinical Associate Professor of Nursing, School of Nursing*, PHD, Loyola Univ-Chicago; MS, Univ of Nebraska Med Center; BSN, Clarkson College

Glossary

AACSB

Association to Advance Collegiate Schools of Business.

Academic Advisor

A professional who helps students with academic and career planning.

Academic Calendar

A calendar indicating key dates and deadlines for important academic requirements and/or activities including, but not limited to, the start and end dates of classes, holidays, exam days, and registration dates.

Academic Year

The time frame from the start of a fall semester until the start of the subsequent fall semester. It typically is divided into the fall, spring, and summer semesters.

Accreditation

An endorsement from an oversight organization indicating that the educational institution and/or academic degree program meets or exceeds specific measures of quality.

Advanced Courses

Courses with content designed to be taken during the junior or senior year. At SHSU, these courses are numbered in the 300s or 400s.

Advanced Credit

Credit earned for advanced courses at universities. Courses transferred from a community college do not earn advanced credit.

Audit, Course

Enrollment in a course as a non-credit seeking student, with no record on the transcript.

Bachelor's Degree

An academic credential from a university earned after completing a specific program of study. Typically, the program of study will include a general education component, a major, degree related requirements, and electives and/or a minor. The minimum number of credits is 120 hours.

CLEP

College Level Examination Program. A series of tests available to students to demonstrate proficiency in various college subjects. CLEP exams may be used to earn college credits for select courses.

Classification

Indication of a student's progress toward degree completion based upon the number of hours completed. The categories of undergraduate classification are Freshman, Sophomore, Junior, and Senior.

Class Day

Any day in the academic semester when university classes are scheduled. The number of class days is used for drop dates, resignation dates, and tuition refund schedules. When determining the number of class days (e.g., 12th class day), start counting with the first day of on-campus daytime courses and increase by one each day the university has scheduled classes.

Closed Classes

Classes that have reached the designated maximum enrollment capacity or are not available for on-line registration.

Commencement

An event during which degrees are awarded to graduating students. SHSU holds commencement ceremonies every May, August, and December.

Concurrent Enrollment

Enrollment in courses at two institutions during the same semester.

Core Curriculum

The curriculum in liberal arts, humanities, sciences, and political, social, and cultural history that all undergraduate students of an institution of higher education are required to complete as part of an undergraduate academic degree program. Also referred to as the general education component.

Course Equivalency Guide

A table listing courses from a specific institution and the corresponding courses at SHSU that are considered to have the same content. The course equivalency guide is used to identify courses that may transfer to SHSU.

Course Numbers

A numeric code signifying the anticipated academic level and the credit hour value of a course. At SHSU, course numbers consist of three digits. The first digit in the sequence indicates the course level and suggests the academic year in which the course is typically taken. Lower-level undergraduate courses have a "1" or "2" in the first digit; upper-level undergraduate courses have a "3" or "4" in the first digit; and graduate courses have a "5" or higher in the first digit.

Course Prefix

Abbreviation identifying the academic discipline of a course (e.g., ACCT signifies Accounting, CRIJ signifies Criminal Justice, and BIOL signifies Biology).

Course Reference Number (CRN)

A unique six-digit number used to identify a specific course offering within a given term. The CRN is used to select courses when registering.

Credit by Examination

An award of academic credit and placement based on examination scores.

Credit Hour (also called Semester Credit Hour)

A unit of measure attached to academic courses, usually reflecting the number of lecture hours per week a course meets in a fall or spring semester.

Curriculum

A combination of courses that compose a particular area of study.

Dean

The highest ranking academic official in a college (e.g., College of Education).

Declaration of Major/Minor Form

The form submitted by an undergraduate student to officially declare a major and/or minor. The form is submitted to the departmental chair of the department housing the student's declared major.

Degree

An academic credential awarded upon the completion of a specific area of study. Universities offer baccalaureate degrees at the undergraduate level and master's and doctoral degrees at the graduate level.

Degree Plan

A specific list of academic requirements that must be completed to earn a degree.

Departmental Chair

An individual responsible for the administrative functions of an academic department. The functions include, but are not limited to, coordination of curriculum planning, faculty course assignments, and evaluation of faculty performance.

Developmental Courses

Courses designed to help student achieve the minimum standards set by the Texas Success Initiative (TSI). Developmental courses are listed with either a "031" or "032" course number and **do not** count toward the hours needed for graduation.

Double Degree

The concurrent pursuit of two specific majors, each with a different type of degree (e.g., BS with a major in mathematics and a BA with a major in English). The student must be awarded both degrees at the same graduation date.

Double Major

The concurrent pursuit of two specific majors with both resulting in the same type of degree (e.g., BS with majors in Biology and Chemistry). The student must be awarded both majors at the same graduation date.

Drop/Add

A term used to identify the act of deleting/adding courses from/to an established schedule.

Drop Date

The latest date that a student may drop a class without a letter grade being assigned. Dropping a class after this date results in a grade of "F" for the course.

Dual Credit

The receipt of high school and college credit for the same course for qualified high school students enrolled in college-level courses.

Elective

A degree plan requirement, not directed to a specific area of academic content, contributing to the credit hour requirements of a degree.

Faculty

Appropriately credentialed individuals responsible for the delivery of course content and academic research and service.

FAFSA (Free Application for Federal Student Aid)

A federal form required from all students seeking need-based financial aid. The FAFSA collects family income and other financial information and is completed and filed by the student or his/her family.

Fees

Non-tuition charges dedicated to cover the cost of specific academic and/or service functions of the university.

Final Exam

An exam, usually comprehensive, designed to measure a student's retention and understanding of the course material. Final exams are scheduled for the last week of the semester and do not necessarily correspond to the regular class meeting time.

Freshman

The classification of a student who has completed 0 to 29 semester credit hours.

Full-Time Undergraduate Student

Undergraduate students enrolled in twelve or more credit hours during a fall or spring semester or six or more credit hours during a summer session. Correspondence courses do not apply toward the credit hour count in determining status.

Grade Point Average (GPA)

Numeric average of academic performance on a 0-to-4 point scale. The GPA is the ratio of grade points earned to credit hours attempted.

Grant

A type of financial assistance not requiring repayment.

International Baccalaureate

The International Baccalaureate (IB) Diploma Program is a comprehensive two-year pre-college curriculum that is offered in high schools across the globe that may lead to college credits.

Junior

The classification of a student who has completed 60 to 89 semester credit hours.

Major

A student's concentrated area of study. Most majors consist of a minimum of 30 credit hours within a specific area of study.

Master's Degree

A graduate degree that usually requires two or more years of study beyond the bachelor's degree.

Minor

A student's secondary area of study. Most minors consist of a minimum of 18 credit hours within a specific area of study.

Overload

A course load in excess of 19 hours in a fall or spring semester or 7 hours in a summer session. Overloads must be approved by the student's academic Dean.

Part-Time Undergraduate Student

Undergraduate students enrolled in less than twelve credit hours during a fall or spring semester or less than six credit hours during a summer session. Correspondence courses do not apply toward the credit hour count in determining status.

Prerequisite

An academic requirement (e.g., completion of an earlier sequenced course) that must be satisfied prior to the enrollment in a specific course.

Probation

An academic standing placed upon undergraduate students who fall below a 2.0 SHSU or overall grade point average at the close of any semester or summer school during which one or more semester hours were attempted.

Q-Drop

A drop made after the last date for tuition refunds but before a drop would result in the grade of "F." Students will be allowed no more than five Q-drops during their academic career at Sam Houston State University.

Resignation

Withdrawing from all classes in which the student is enrolled at the university.

Second Degree

The pursuit of a degree at the same level of a degree previously awarded (e.g., baccalaureate).

Section, Course

A number used to distinguish between multiple offerings of the same course. On a student's schedule, the section is the number after the period following the course number (e.g., ENG164.02 indicates section 2 of ENG 164).

Semester

Period of time during which academic courses are offered. SHSU offers fall, spring and summer semesters.

Semester Credit Hour

See Credit Hour.

Senior

The classification of a student who has completed 90 or more semester credit hours.

Sophomore

The classification of a student who has completed 30 to 59 semester credit hours.

Suspension

An academic standing imposed on undergraduate students with a SHSU or overall GPA less than 2.0 for two or more successive semesters. Students on suspension are not allowed to enroll in classes without the permission of the appropriate academic Dean.

Syllabus

A document containing academic and administrative information about a course. The syllabus is provided by the instructor at the beginning of the semester and typically includes a lesson schedule, dates of exams, and quizzes, assigned books and readings, e-mail/phone number and the best time to reach the instructor, and an explanation of how the final grade will be determined.

Transcript, Official

A university approved document providing information about a student's academic performance, including but not limited to, semester by semester listing and grades of courses attempted, credits earned, academic standing, GPA, TSI status, and admission exams.

TSI (Texas Success Initiative)

A Texas law requiring all entering college students to be assessed for college readiness in mathematics, reading and writing unless the student qualifies for an exemption.

Tuition

A per credit hour charge per course. There is a different rate for Texas residents and non-Texas residents.

Undergraduate

A student pursuing a bachelor's degree.

Withdrew Failing (WF)

A mark indicating a student was not performing at a passing level at the time of resignation. This mark is used only for students resigning after the first nine weeks of a regular semester or after the first two weeks of a summer session.

Withdrew Passing (WP)

A mark indicating a student was performing at a passing level at the time of resignation. This mark is used only for students resigning after the first nine weeks of a regular semester or after the first two weeks of a summer session.

Bachelor of Music, Major in Music Therapy	257
Bachelor of Music, Major in Music With Concentration: Composition	206
Bachelor of Music, Major in Music With Concentration: Instrumental Performance	213
Bachelor of Music, Major in Music With Concentration: Piano Performance	219
Bachelor of Music, Major in Music With Concentration: Vocal Performance	225
Bachelor of Music, Major in Music with Teaching Certification: Instrumental	244
Bachelor of Music, Major in Music with Teaching Certification: Choral	231
Bachelor of Music, Major in Music with Teaching Certification: Choral/Piano	238
Bachelor of Music, Major in Music with Teaching Certification: String	250
Bachelor of Science, Double Major in Education and Mathematics	522
Bachelor of Science, Double Major in Education and Composite Science	506
Bachelor of Science, Double Major in Education and History	511
Bachelor of Science, Double Major in Education and Interdisciplinary Agriculture	515
Bachelor of Science, Double Major in Education and Kinesiology	518
Bachelor of Science, Major Geography (Environment, Culture, and Development)	922
Bachelor of Science, Major in Agricultural Business	736
Bachelor of Science, Major in Agricultural Business with Ranch Management Concentration	739
Bachelor of Science, Major in Agricultural Business with Teaching Certification	742
Bachelor of Science, Major in Agricultural Communications	745
Bachelor of Science, Major in Agricultural Engineering Technology	748
Bachelor of Science, Major in Agricultural Engineering Technology with Teaching Certification	751
Bachelor of Science, Major in Animal Science	755
Bachelor of Science, Major in Animal Science, Minor in Conservation Biology	764
Bachelor of Science, Major in Animal Science, Minor in Wildlife Management	766
Bachelor of Science, Major in Animal Science, Pre-Veterinary Medicine	769
Bachelor of Science, Major in Animal Science with Teaching Certification	760

Bachelor of Science, Major in Animal Science: Animal Care and Welfare Concentration	758
Bachelor of Science, Major in Biology	807
Bachelor of Science, Major in Biomedical Sciences	817
Bachelor of Science, Major in Chemistry for Other Technical Careers	829
Bachelor of Science, Major in Chemistry for Professional Chemists	832
Bachelor of Science, Major in Chemistry: Biochemistry and Medicine Concentration	824
Bachelor of Science, Major in Chemistry: Forensic Science Concentration	827
Bachelor of Science, Major in Communication Studies	645
Bachelor of Science, Major in Computing Science (Computing Science, CS)	844
Bachelor of Science, Major in Computing Science (IA): 4+1 MS Computing and Data Science	852
Bachelor of Science, Major in Computing Science (Information Assurance, IA)	849
Bachelor of Science, Major in Computing Science (Information Systems, IS)	855
Bachelor of Science, Major in Computing Science (IS): 4+1 MS Computing and Data Science	857
Bachelor of Science, Major in Computing Science: 4+1 MS Computing and Data Science	846
Bachelor of Science, Major in Construction Management	871
Bachelor of Science, Major in Criminal Justice	362
Bachelor of Science, Major in Cybersecurity	861
Bachelor of Science, Major in Data Science	944
Bachelor of Science, Major in Education, 4-8 Core	445
Bachelor of Science, Major in Education, 4-8 Core: 4+1 Master of Education in Teaching & Learning	448
Bachelor of Science, Major in Education, 4-8 ELAR: 4+1 Master of Education in Teaching & Learning	456
Bachelor of Science, Major in Education, 4-8 Mathematics: 4+1 MED in Teaching & Learning	463
Bachelor of Science, Major in Education, 4-8 Science: 4+1 Master of Education in Teaching & Learning	471
Bachelor of Science, Major in Education, 4-8 Social Studies	475
Bachelor of Science, Major in Education, 4-8 Social Studies: 4+1 MED in Teaching & Learning	479
Bachelor of Science, Major in Education, Early Childhood Education	495
Bachelor of Science, Major in Education, EC-6 Bilingual Core	429
Bachelor of Science, Major in Education, EC-6 Bilingual Core: 4+1 MED in Teaching & Learning	432
Bachelor of Science, Major in Education, EC-6 Core	422
Bachelor of Science, Major in Education, EC-6 Core: 4+1 Master of Education in Teaching & Learning	425
Bachelor of Science, Major in Education, EC-6 Special Education Core	437
Bachelor of Science, Major in Education, EC-6 SPED: 4+1 Master of Education in Teaching & Learning	440
Bachelor of Science, Major in Education, PK-3: 4+1 Master of Education in Teaching & Learning	486
Bachelor of Science, Major in Education: 4-8 ELAR	452
Bachelor of Science, Major in Education: 4-8 Mathematics	460
Bachelor of Science, Major in Education: 4-8 Science	467
Bachelor of Science, Major in Education: PK-3	483
Bachelor of Science, Major in Education: PK-3 Bilingual	489
Bachelor of Science, Major in Education: PK-3 Special Education	492
Bachelor of Science, Major in Electronics and Computer Engineering Technology	873
Bachelor of Science, Major in Engineering Design Technology	876
Bachelor of Science, Major in Engineering Technology	878

Bachelor of Science, Major in Engineering Technology - Concentration in Architectural Design Technology (ADT)	881
Bachelor of Science, Major in Engineering Technology - Concentration in Electronics	886
Bachelor of Science, Major in Engineering Technology - Concentration in Environmental, Health, and Safety Management	888
Bachelor of Science, Major in Engineering Technology - Concentration in Manufacturing Engineering Technology	891
Bachelor of Science, Major in Environmental Science (Pollution Abatement)	906
Bachelor of Science, Major in Environmental Science (Sustainability)	911
Bachelor of Science, Major in Environmental Science (Water Resources)	915
Bachelor of Science, Major in Fashion Merchandising	537
Bachelor of Science, Major in Food Science and Nutrition	539
Bachelor of Science, Major in Forensic Chemistry	835
Bachelor of Science, Major in Geography, Geo-spatial Information Sciences	926
Bachelor of Science, Major in Geology	928
Bachelor of Science, Major in Geology (Geoscience)	931
Bachelor of Science, Major in Health Care Administration	581
Bachelor of Science, Major in Health Sciences	586
Bachelor of Science, Major in Health Sciences: 3+2 MSAT	593
Bachelor of Science, Major in History	668
Bachelor of Science, Major in Homeland Security Studies	377
Bachelor of Science, Major in Human Performance and Wellness Management	553
Bachelor of Science, Major in Integrated Studies	637
Bachelor of Science, Major in Interdisciplinary Agriculture	772
Bachelor of Science, Major in Interdisciplinary Agriculture: Agricultural Industries	775
Bachelor of Science, Major in Interior Design	543
Bachelor of Science, Major in Kinesiology	558
Bachelor of Science, Major in Kinesiology (Clinical Exercise Science)	561
Bachelor of Science, Major in Kinesiology (Clinical Exercise Science): 3+2 MSAT	566
Bachelor of Science, Major in Mathematics	952
Bachelor of Science, Major in Mathematics: 4+1 MS Mathematics	955
Bachelor of Science, Major in Mechanical Engineering Technology	893
Bachelor of Science, Major in Nursing (BSN)	620
Bachelor of Science, Major in Physics	965
Bachelor of Science, Major in Physics, Civil Engineering 2+2	971
Bachelor of Science, Major in Physics, Electrical Engineering 2+2	972
Bachelor of Science, Major in Physics, Mechanical Engineering 2+2	973
Bachelor of Science, Major in Physics/Engineering Dual Degree*	967
Bachelor of Science, Major in Plant and Soil Sciences	778
Bachelor of Science, Major in Plant and Soil Sciences with Teaching Certification	781
Bachelor of Science, Major in Political Science	683
Bachelor of Science, Major in Psychology	695
Bachelor of Science, Major in Public Health	599
Bachelor of Science, Major in Public Health: 4+1 MPH	605
Bachelor of Science, Major in Sociology	709

Bachelor of Science, Major in Software Engineering	863
Bachelor of Science, Major in Victim Studies	389
