New Update to Previous Cycle's Plan for Continuous Improvement Item

Previous Cycle's Plan For Continuous Improvement (Do Not Modify):

This past year we did update NURS 3340 on the Pharmacology exercise. We did update and change terminology for NURS 4381 Legal Ethical to improve communication on the Patient Safety Presentation. We did remove the NURS 4384 Genetics Patterns of Inheritance discussion board. In the NURS4383 Rural health was going to change the EBP resources to a Telehealth assignment but we have two instructors in this course and one used the EBP and the other used the Telehealth assignment but we only monitored the EBP.

Update of Progress to the Previous Cycle's PCI:

This fall we will be cross mapping the courses to the CCNE core competencies to make sure we are meeting all the requirements for the new changes for our accreditation and plan on rolling this out for Fall 2025. We have had lower enrollment as nationally programs have suffered. We are currently working on improving enrollment with new tuition assignment that will start in Spring 2025. We will verify that all courses have a direct and indirect means to measure nursing competencies along with the Texas DEC.

New Update to Previous Cycle's Plan for Continuous Improvement Item

Previous Cycle's Plan For Continuous Improvement (Do Not Modify):

Closing Summary

For 2023-2024 will update the assessment plan to include the following:
