How can I set a password that meets complexity requirements?
Must be at least six (6) characters long but no greater than fourteen (14) characters.
Cannot contain your username or any of the parts of your full name.
Must not have been used previously.
Must be significantly different from previous passwords.
Passwords that increment (Password1, Password2, Password3 ...) are not acceptable.
Must contain characters from at least (3) three of the following categories:
English uppercase characters (A - Z)
English lowercase characters (a - z)
Base 10 digits (0 - 9)
Non-alphanumeric (for example: !, $, #, or %). Do NOT use | > < * ' " within your password.
When will my password expire and how can I change it?
Computer account passwords are valid for 180 days. Change your password before the 180 days pass to retain access to your account. You can change your password by following any of the methods below:
On a campus PC, by pressing CTRL-ALT-DEL and then Change Password
On a Macintosh, by selecting Apple, System Preferences, Accounts, clicking on your name, then Change Password
Using Outlook Web Access, click Options, then Change Password
Using SamWeb, click IT@Sam, then Account Password Change
Log on to remote.shsu.edu with your username and password through the Remote Desktop Connection on your computer. You will be prompted to change your password.
Note: If your password has already expired, open your web browser and enter your username and expired password at Outlook Web Access. You will be prompted to change your password
