Welcome to the Sam Houston State University Program Council

Program Council (PC) is the official programming board of Sam Houston State University. PC plans and implements a wide-range of social events that engage and connect the student body. They look to develop students outside of the classroom by offering numerous opportunities to become a campus leader and by empowering students to contribute to and serve the SHSU campus! We work with numerous campus departments and organizations to provide great programs to you--the student body, throughout the academic year!

"The measure of a Life is its Service."
