

Freshman Learning Communities

Welcome!

The first year of your college experience is an exciting time in your life. It's the stepping-stone for everything that happens next. But there is also a lot to take in: learning the ins and outs of college life, making new friends, navigating the classroom and thinking about the future. Let's face it; it's intimidating.

Freshman Learning Communities at Sam Houston State University are designed to help students successfully transition into their first-year at college, not only helping them stay in school but giving them a good foundation for their remaining college years.

How Do They Work?

Freshman Learning Communities (FLC) bring students together based on common [academic or general interests](#) or those interested in a [living-learning community](#). Students attend the same core classes, supporting each other in the classroom through study groups and socially outside the classroom.

Why Should A Freshman Join a Learning Community?

- Make friends quickly;
- Establish convenient study groups;
- Increase the chances of having the best GPA possible;
- Build a strong academic and social support network.
