

TRiO Student Support Services

Welcome to the TRiO Student Support Services program!

(formerly known as Project CONNECT)

Making the transition to a college can be intimidating to say the least. Which classes should you register for? How do you get a schedule? Who can help you with your homework?

TRiO Student Support Services (also known as SSS) is a federally funded program at Sam Houston State University that can help you find the answers! Like Upward Bound, Talent Search, McNair Scholars, and other federal TRiO programs, TRiO SSS is designed to support your education by providing you with the information and services you need to be successful in college.

TRiO SSS serves 165 first generation students that have a financial and academic need who are seeking Bachelor degrees.

Services we offer free to our participants include:

TRiO SSS
