

Enrollment Management

Vision

The Division of Enrollment Management centers on a vision of working collaboratively with faculty, staff, and students to provide participation and success in higher education to a diverse population. The division focuses on attracting, enrolling, retaining, and graduating students to empower them to be productive citizens. Through across-campus teamwork the division envisions the enrollment process to be one that involves the cooperation and enthusiasm of faculty and staff to effectively administer and track programs that will result in more students enrolling at the institution and helping them to attain their educational objectives, while also nurturing future loyal alumni who will contribute to the life of the institution.

Mission

The mission of the Division of Enrollment Management at Sam Houston State University is to provide affordable, quality education to a diverse population by recruiting and enrolling qualified undergraduate and graduate students for admission. To assist other offices on campus with the students' academic progress through their graduation. To provide financial assistance within guidelines, to provide new and prospective students with a comprehensive introduction of the university and to assist the students in their chosen career opportunities.
