Note: The standard Summary Report is compared to the previous year to aid in early detection of potentially erroneously-reported data. It will show the percentage increase/decrease of items, evaluate the items identified with a Review message, and submit updates to correct where appropriate. If the absolute value of the difference between the current year and prior year item

- 1) is less than 50, a Review message is not printed.
- 2) is between 50 and 10,000, a percentage change greater than 25% is identified.
- 3) is between 10,000+ and 100,000, a percentage change greater than 20% is identified.
- 4) is greater than 100,000, a percentage change greater than 10% is identified.

If the original report had only one column the comparison data is in adjacent column.
If the original report had multiple columns the comparison data is in the next row and asterisks are printed below the column in question.

The report is a 'work in progress' and we would appreciate any feedback you may have regarding it.
