Training Sessions

KPI Description:

A variety of assessment-related presentations, webinars, and seminars will be offered during the 2016-2017 academic year. A survey will be administered at the conclusion of each event thereby measuring the effectiveness and participant's satisfaction with the program. Each survey will allow for feedback regarding topics to be offered in future training as well as general comments about the presentation.

Results Description:

Initially it was thought more programming would involve the Office of Student Affairs Assessment and Research and would focus on topics selected by that department's administrator. However, due to the programming by the Division's Professional Development Committee and the University's Human Resources Professional Development, both of whom offer credit for attendance, little time was available for additional programs. Therefore, the original goal was not fully met for that reason.
