## 2010 Texas CIP Codes - Introduction

The Texas CIP codes are used to identify degree and certificate programs declared majors on the reports and inventories of the Texas Higher Education Board. The first six digits of each code are identical to those in the [Classification of Instructional Programs](#) taxonomy published by the [National Center for Education Statistics](#). The seventh and eighth digits, when they are not zeroes, are Texas specific and specify the diversity of courses and program offerings in Texas.

The two digits following the CIP code are the formula funding code. This is important whenever the CIP codes are used to identify the content of programs that are not funded, except through the individual courses they represent.

Changes to the CIP Codes from 2000 to 2010, including new CIP Codes, new Texas codes and Texas CIP Codes, and any redirections from one CIP code to another, are listed in the Texas CIP Codes.

**A CIP code specific to Texas will include a brief description of the content. For descriptions of Texas CIP codes that are identical to the national CIP codes, refer to the national CIP codes.**

**Descriptions for National CIP Codes (those with 7th and 8th digit zero) are found at: <http://nces.ed.gov/ipeds/cipcode/>.**
